JUMPED TO HIS DEATH IN THE OTONABEE RIVER

John Cochrane of Cavendish Leaps From the Hunter St. Bridge

BODY FOUND YESTERDAY

Deceased out on Bail and Would Have Been Tried Today.

A tragedy was enacted about 6.45 p.m. Saturday night in the Otonabee river just below the Hunter street bridge At the time specified Alderman Frank Adams the coming city treasurer, whilst crossing the bridge on his way home in the east ward whilst not actually seeing any one on the bridge, owing to the darkness heard a loud splash in the river, and instinctively knew some one had either fallen or jumped in the river. The man who jumped, chose as the spot for his death that part of the river to the west side, that has been dredged to a considerable depth, for connection with the Trent Valley canal, and has now proven to be John Cochrane, of Cavendish township. The splash made by Cochrane's descent from the bridge to the cold waters of the river, was also heard by Mr F. Evans, who was also crossing the bridge on his way to his home in the east side.

Mr. Adams at once rushed down to Mr. Faint's residence, just to the east, and near the bridge, but could not procure a boat there or elsewheres, so not being able to see any sign of a man in the water, nothing more could be done that evening, owing in part to the cold and inclement weather.

The first actual proof of either Cochrane or in fact any one having been drowned when yesterday evening Mr. Frank Conroy an employe on the dredge, now working just a little south of the foot of Charlotte street, who had been engaged in replenishing the fires aboard the dredge, noticed something in the river, caught by the long and narrow bank, about the center of the river, created by the dredging operations. Having heard The suspicions of suicide on Saturday night, Mr. Conroy at once jumped into a punt and rowed to the object he had seen. To his horror on arrival he discovered the dead body of a man caught and partly submerged at the reef as above described. Such parts of the body as were out of water were frozen solid. Mr. Conroy towed the body to the dredge at once and promptly notified the police. The chief called up Coroner Dr. J. W. Gray, who immediately proceeded to the spot, but there being no external signs of violence, he assigned Cochrane's death to suicide by drowning. Mr. D. B. Beleghem was notified and conveyed the body to his undertaking establishment.

The late Mr. Cochrane was about 45 years of age, and has lived all his life in Cavendish, where he owns a farm of some 150 acres. At present resided in Mr. Windover.

It will be remembered, that some three months ago the barns and outbuildings of Mr. John Westlake were destroyed by fire and suspicion fell on the deceased of having set fire to the same It seems that Westlake and Cochrane both took in passing steamers and provided them with food and board. Lately the trade has been going more to Westlake.

A teamster some weeks ago being asked by Cochrane to stop with him when passing were told by Cochrane that "he would not have to stop with him." This created the suspicion that Cochrane had been guilty of arson He was arrested by Township Constable Kennedy, and brought to the city a week ago by High County Constable Geo. Cochrane. On arrival he was given a preliminary trial by Magistrate Dumbee, and committed by him for trial. He was granted, by Judge Weller, bail in $1000 for himself and two sureties in $400 each. His trial was to have been held at 10 a.m. today before Judge Weller.

It is alleged that the deceased has been drinking heavily during the past few days, a reaction from which, combined with brooding over his other troubles, evidently leading to his rash act when Cochrane's body was found yesterday, it was dressed in his Sunday clothes, with gaiters and rubbers. His hat was not found.

The deceased leaves a widow, and a grown-up son, who is now in the States.

BRITISH COMMENT ON THE TARIFF

Satisfactory From an Imperial as Well as From Colonial Point of View

PRAISE FOR LORD GREY

Birmingham Daily Post Says He is Doing a Good Work in Keeping Imperial Idea Before Minds of Canada.

London, Dec. 3.—The Saturday Review says that Mr. Fielding's budget statement is as satisfactory from an Imperial as from a Colonial point of view.

The Outlook says that when Lemieux announced the policy of "Intellectual Preference" between Britain and the Dominion he coined a phrase which deserves to be immortalized.

Referring to Lord Grey's insistence on the duty of maintaining a pure and incorruptible judiciary and clean administration, the Evening Globe says: "With the determination to root out corruption from dark places, and above all things to keep honor of the Dominion Government established, we make look on Canada as possessing a sound heart as well as a strong body."

PRAISE FOR LORD GREY.

The Birmingham Daily Post says "Lord Grey is doing a service of high value in keeping the Imperial idea before the minds of the population of the Dominion. How needful that this should be done is but partially appreciated on this country There are disruptive tendencies in Canada which introduce an element of uncertainty into the question of the future political position of that great dominion. There is a powerful French population, which, though thoroughly loyal to British connection, is alienesy nationality rather than Imperial in sentiment There are powerful influences at work in the Canadian into sect which tend to indifference to Imperial affairs, and which Lord Grey from the outset has set himself steadfastly to counteract."

Scots Not Food For Powder Mr. Carnegie's "Alien Insult"

New York, Dec. 3.—Messages were read at the dinner of the St Andrew's Society Saturday night from King Edward, President Roosevelt, Sir Henry Campbell-Bannerman and former President Grover Cleveland.

President Roosevelt wrote, "I wish I could be with you to wish you well in person, and to express my sincere admiration for the high qualities contributed to our American citizenship by men of Scotch stock."

King Edward's letter, presented by Sir Mortimer Durand, was as follows: "Please convey to the ancient and honorable society of which you are president, my greetings on the auspicious occasion of their one hundred and fiftieth anniversary."

During the evening the toast drank to the health of King Edward and President Roosevelt. Sir Mortimer Durand, during the course of his speech, took occasion to differ from the views expressed by the chief guest, Andrew Carnegie, regarding the Scotchmen and the army. "Mr Carnegie, after declaring that the people of Scotland were better employed and better off than ever, added:

"Scotland has ceased to be the recruiting ground for England. Her young men realize they are fitted for better positions than food for powder. Less than one thousand enlisted in the past year."

"I, for one, beg to differ from Mr. Carnegie," said Sir Mortimer, when his turn came, "and thank God there are some Scottish men who do not think themselves too good to be English soldiers. I think a Scottish soldier is one of the noblest works of God."

Sir Mortimer regretted that he was not a Scotchman, and was proud to have had a Scottish mother.

GET OFF WITH $1600 FROM CLERK ON TRAIN

Crooks Exchanged Valises With Bank Clerk.

KNEW HIS MOVEMENTS

Bank Will Suffer no Loss Being Insured in Lloyds.

Tilbury, Dec. 3.—A pair of smooth crooks got away saturday with a valise containing $1600, the property of the Sovereign Bank. They attracted the attention of the clerk, who was carrying it by train to Fletcher, to make room here, and substituted a valise exactly similar in appearance The men, one of whom is known to be a Detroit thief, were last heard of at Buxton, where they were headed across the fields. A good description of the men as to the number of the police.

In the meantime Manager J. T. Hill sent a request to look out for;

Six money orders numbers 5817, 5818, 5819, 5830, 5831, 5832, good up to $50 each. These should be endorsed by two parties but have only one signature at present

Three blank drafts on bank branch at numbers 149713, 149714 and 149715, signed by the manager.

Four drafts on New York in favor of P. L. McArthur, numbers 7708, 7709, 7710 and 7711.

The cash secured is something under $1600, and was intended for the sub-agency of the bank at Fletcher.

McArthur makes three trips a week to the branch, and this was evidently known to the men, who committed the theft. One of them named Quinn, is a well-known Detroit crook, and the pair have been under the surveillance here of the local police.

On the train, they engaged McArthur in conversation and one asked if he would hand the station agent there a parcel, saying that they were going on to Toronto.

McArthur, in reaching for the parcel, which one man held, gave opportunity for the other man to make the exchange. The case was not discovered until after the train had left Fletcher.

The men are described as follows;

One (Quinn) about 35 years of age; 5 feet 5 inches in height; clean shaven; wore a black coat and black muffler, black curly head; was thin faced with sunken cheeks.

His companion was about 45 years of age, grey moustache and hair turning grey; wore long black waterproof coat; with deep velvet collar, and black derby hat.

The bank will suffer no loss, being insured in Lloyds, London, England, against just such occurrences.

Jumped Into the Toronto Bay

Michael Larkin Gave an Exhibition of Swimming in Icy Waters.

Toronto, Dec. 1.—Michael Larkin, the young man who hails from Lowell, Mass., and who earns a precarious livelihood by swimming in ice-bound brooks and rivers in the winter months, gave an exhibition at the foot of Yonge street at noon yesterday, but the affair turned out to be something of a farce.

Larkin, after passing the hat, making a speech and going through a great many preliminary manoeuvres, jumped off the dock, stayed in the water less than a minute, hustled out and made for a nearby hotel bicker where he dressed. He was attired only in a pair of trunks and white guernsey.

About 200 people witnessed the performance and the swimmer barely collected sufficient funds to buy himself a square meal.

Says Lord Grey Speaks Poetical

London, Dec. 1.—The Pall Mall Gazette says that the optimism of Lord Grey's latest speech in Toronto will seem almost poetical, but those who come in contact with Canadians know that in his enthusiastic forecasts of the destiny of the Dominion, Lord Grey is only speaking the common temper of its inhabitants.

"Canada is ours now to have and to hold, but another twenty years of Confederation would probably make a great difference in the picture."

Demetre Brothers Not Selling Out

Alleged Mistake in Evening Contemporary Corrected.

The Times has received the following letter from Mr. George Andreanopolis, local manager for Messrs. Demetrio Bros, at the corner of George and Charlotte streets:

(To the Editor of The Times.)

Dear Sir,—In the Peterborough Review of Saturday last, appeared a statement that is both false and calculated to injure our business. The Review said that two Chinamen from Toronto are buying out, and going to open up a business in the Greeks' Restaurant on Monday or Tuesday.

Now, I cannot think this injurious statement was made maliciously, but as it is calculated to hurt our business I would like you to deny this report most emphatically. As far as I know, we are not thinking of selling out to Chinamen or anyone else.

GEORGE ANDREANOPOLIS

Got More Than They Expected

Iron and Steel Pleased, But C. M. A. Officials Have Their Doubts.

Montreal, Dec 1.—The industrial center of Canada is entirely satisfied with Hon. Mr. Fielding's new tariff. Iron and steel manufacturers are especially jubilant, and they frankly admit that they have been given far more than they had expected. The Dominion Iron and Steel, the Nova Scotia Steel and Coal, the Lake Superior Corporation, and other smaller manufacturers will, in the first few years, on their present output, get close to $10,000,000 in bounties. The leading interests in Dominion Iron had not hoped for more than a two years' extension, and then it would be sufficient time to get in a working basis. The Government had granted a four years' extension, which should make the success of the big industries a certainty.

C.M.A. APPREHENSIVE.

The Tariff Committee of the Canadian Manufacturers' Association, while pleased with certain features of the new tariff, are apprehensive regarding the change made in the general tariff made by the introduction of an intermediate tariff. They are afraid that such countries as the United States and Germany will only be too eager to make a treaty that will permit them to get such a tariff as it will enable them to do a lot of business in Canada, which Canada, for a very long time, will not be in a position to send much into these countries.

"The departure is a rather dangerous one," said a member of the Tariff Committee to the press, "but we want to study the whole thing carefully before making any official statement."

The sugar companies are most heavily hit, but it is generally admitted that they have been so well protected that they can easily afford to add to the revenue of the Government.

Girl Heroine Gave Life for Another

Fatally Burned Herself While Trying to Rescue Baby From a Burning Building.

London, Dec. 3.—A little girl of 10, named Rose Read, died in West Ham hospital, recently from burns sustained in heroic efforts to save another child.

In a small house in Lucas road, Atlas lane, Stratford, lived two families, named Read and Lake. Mrs. Lake and Mrs. Read went out shopping in the morning, leaving five children in the house—Rose Read and John Lake, each aged ten, the other three being babies, whose ages varies from 18 months to four years. A fire broke out upstairs, and all the children got out of the house except Alice Lake, the youngest baby.

Rose Read, hearing of her little comrade's dangerous position, ran upstairs to attempt a rescue. An alarm was raised, and a coal dealer named Hull rushed into the house. He found that Rose's clothes were on fire, and he promptly extinguished the flames and carried the child downstairs.

Re-entering the house, Hull found that the baby's clothes were smouldering. He beat out the flames, and covered with the little one to a place of safety.

The fire, a slight one, was quickly put out by the neighbors before the arrival of the brigade. Rose Read succumbed to her injuries later in the day. The baby was practically uninjured, and was not detained in the hospital.

Is U. S. Steel Trust to Start in Canada?

Sandwich, Dec 3.—By the retention of bounties on the manufacture of iron and steel, as provided in the newly revised tariff of the Dominion, the impression prevails stronger than ever that the United States Steel Corporation will establish a plant below here, where large tracts of land have been held by option for months. So far as known not an acre has been allowed to lapse, which is considered very significant. It has been claimed that the Steel Trust awaited only the announcement of changes in the tariff to make a final decision in regard to a Canadian plant As the bounties on iron and steel have been retained four more years, the trust would have an extra incentive to locate a branch in the Dominion.

Bank Robber Ends Life With Bullet

Troy, Kan., Dec. 3.—Realizing that he was about to be captured in an unsuccessful attempt to rob the State Bank at Bendena, Kan., yesterday, J. W. Harris, a farmer, shot himself to death.

Harris entered the bank and commanded the cashier and clerk to throw up their hands. He then ordered them to pull down the window blinds and lock the doors. One went behind the counter, ostensibly to pull down a window curtain, and escaped through a back door. As he ran out of the door Harris fired one shot at him, but without effect.

Fearing capture, Harris dashed around at the cashier a moment and then killed himself.

Royal Duke Wanted to Visit Dominion

London, Dec. 3.—The Canadian Associated Press has it from the most reliable authority that the Duke of Connaught, when the tour in the Far East was first proposed, expressed an earnest wish that Canada should be included in his tour, and Canada was put on the program of the tour, but later it was found that other engagements would prevent such an extended trip. So the visit has been postponed.

"In fact," said the Canadian Associated Press informant, "Japan is not even included in the tour. You may say that his Highness looks back with the most pleasant recollections of his sojourn in Canada, and hopes some day again to meet his old friends there."

Cost of Red Tape in England

London, Dec. 3.—Some extraordinary figures as the cost of interpreting have been presented to the Bromley, Kent Board of guardians.

In the Borough of Bromley last year the sum of £2 15s. 3d. went to the men employed on stonebreaking as the labor yards, and it cost the ratepayers no less than £49 8s. 3d. to have it distributed.

The figures of the urban district of Beckenham were still more startling.

The sum of 30s. was spent in paying men for stonebreaking, and its administration cost £56 odd—amounting to 5733 per cent.

Some guardians expressed the hope that the board would not again go in for stonebreaking.

Ill and Cannot Cross Border

Waterbury, Conn., Dec. 3. — Mrs Henry Hirbour forwarded yesterday to her husband, who lies dangerously ill in a Montreal hospital, the naturalization papers which the immigration officials demand before allowing Hirbour to return to the United States.

Mrs Hirbour believes that his serious condition was brought on by the trouble he has experienced in attempting to get home.

NEW YEAR'S CALLS

A New Drink to Replace the Old Time "Apple-Jack."

Twenty-five years ago the custom of making New Year's calls was a delightful one for all concerned, until some of the boys got more 'eggnog' or 'apple-jack' than they could successfully carry.

Then the ladies tried to be charitable and the gentlemen tried to be as chivalrous as ever and stand up at the same time.

If anyone thinks there has not been considerable improvements made in the last quarter of a century in the use of alcoholic beverages, let him stop to consider, among other things, the fact that the old custom of New Year's calls and the general tippling is nearly obsolete.

The custom of calling on one's friends, however, at the beginning of the new year, is a good habit, and another good habit to start at that time in the use of well-made Postum instead of coffee or spirits.

A Staten Island doctor has a sensible daughter who has set Postum before her guests as a good thing to drink at Yule Tide, and a good way to begin the New Year. Her father writes,

"My daughter and I have used Postum for some time past and we feel sure it contains wholesome food material.

"I shall not only recommend it to my patients, but my daughter will be most pleased to give a demonstration of Postum to our Christmas and New Year's callers." Read "The Road to Wellville" in pkgs. "There's a reason."

Rushing Fuel to Saskatchewan

Regina, Sask., Dec. 3.—Zero weather prevails in Saskatchewan, and, although the local Government and the C.P.R. and C.N.R. are doing their utmost to relieve the suffering consequent upon the present fuel situation, nothing can prevent a certain amount of suffering, and whatever the results of the present conference in Minneapolis, the greatest vigilance on the part of the Government and activity on the part of the railway companies will be required to stop actual privation. A second letter has been sent out by the Department of Agriculture to the mayors and reeves throughout the Province, asking their co-operation in dealing with the present crisis.

So far the C.P.R. has despatched over seventy-five cars of soft Pittsburg coal to the Province, and the Government has been assured by William Whyte that the company hopes to send coal from this up at the rate of ten cars a day. Steps are being taken to systematically utilize the timber resources in the northern part of the Province, and it is hoped

Police Round-up Montreal "Vags"

Montreal, Dec. 3.—In order to put a stop to the robberies and holdups that have occurred in the city of late, Chief Campeau and Chief Detective Carpenter have resolved to rid the city of vagrants and loafers whom they know to be thieves.

It has been decided to establish a system of patrol in the different police districts of the city and to arrest all those known to the police to live without any visible means of subsistence, and especially those young fellows who prowl around at night and rob men under the influence of liquor.

The number of police on night duty will be almost doubled, as the day men will be sent out at night for five or six hours to do duty, plain clothes.

—Have first choice of Christmas goods and buy now. The Times Bookstore is headquarters for children's

Tigers Are Now Rugby Champions of Canada

Before a large crowd of spectators at Montreal on Saturday, the Tigers of Hamilton defeated McGill College in a Rugby match for the championship of Canada, by a score of 29—3 The gridiron had been cleared of snow in the morning, and was in fairly good condition. The Tigers, although playing a good game, did not show their full worth and took things easy, as they were not called upon to extend themselves much. Ben Simpson was the star of the game and did some good punting. Moore and Leibster also put up a good game for the Ambitious City. The Tigers are now the undisputed Rugby champions of Canada. They have not lost a game in four years, which is surely going some.

Sale by Ladies' Aid of Park St. Church

The election of officers of the Park street Baptist church Ladies' Aid resulted as follows; Mrs. (Rev.) A. H. Brace, hon president, re-elected; President, Mrs. M. Mowry; Vice-President, Mrs. G. T. Gillespie; Mrs. Robert Wright, treasurer; Mrs. Joe Johnston, secretary.

The business at the annual meeting held at Mrs. W. O. Barrie's residence, consisted chiefly of the arrangements for the sale of work to take place tomorrow evening at Mrs Wm. Rogers. Bolter's net. Refreshments will be provided and a fine program rendered. Ladies of all denominations will be welcomed, and are requested to bring their husbands.

Mob Seized Town Marshal and Fire Factory

Louisville, Ky., Dec. 3.—A special from Princeton, Ky., says;

The tobacco stemmeries of the John Steger and John G. Orr, theretofore controlled by the Imperial Tobacco Co. of New York, were destroyed yesterday by a fire which was kindled against them by a mob of masked men. Several cottages in the vicinity were badly damaged, but nobody was hurt

The loss is estimated at about $170,000. The mob, which numbered about 300 men, entered the town about two o'clock and seized the night town marshall and disarmed him. They then went to the factories, applied the torch and permitted nobody to come near until the buildings were completely envelooped in flames and help was useless.

The Steger factory is controlled by the American Snuff Company. Mr Orr is the representative of the Imperial Company. There was about 150,000 pounds of tobacco in each warehouse, and all of it was burned The work of the mob is believed to be only a furtherance of the agitation by the tobacco raisers against the so-called "tobacco trust."

Makes Red Blood
Grape-Nuts
requires no cooking
Read "The Road to Wellville." in pkgs
"THERE'S A REASON."

ADVERTISE IN THE TIMES.

Was Badly Injured at Lindsay

A Lindsay despatch says; Mr. Chas. Scully, an employe working on the new bridge being built by the Dominion Government met with a bad accident Saturday morning. A large piece of timber was dropped over, crushing his face against another. His head and face were badly crushed and bruised. He is now in the Ross Hospital.

DANGERS FROM DYSPEPSIA

Imperfect Digestion Most Prolific Cause of Serious Disease.

Few people seem to realize the real dangers in disturbed, deficient or defective digestion.

While health reports do not give indigestion as a cause of death, yet it is in reality often fatal, as it so weakens the stomach that one becomes readily susceptible to an attack of typhoid fever, kidney disease, nervous prostration or other serious or fatal disease.

At the first symptoms of indigestion, Mi-o-na stomach tablets should be used. If there is a feeling of heaviness in the stomach, distress after eating, nervousness, dizziness, nausea, headaches, sleeplessness, pains in the side and limbs, specks before the eyes, or a peevish, irritable condition, with debility and weakness, begin the use of Mi-o-na at once.

It will build up the stomach and digestive organs so that you can eat anything at any time without fear of distress or indigestion.

A 50-cent box of Mi-o-na tablets will, in most cases, give prompt relief and cure, although in chronic and long-standing weakness of the stomach, two boxes or more are sometimes needed, but we guarantee Mi-o-na will cure, in all cases, no matter how chronic or serious, or money will be refunded. You run no risk whatever in buying Mi-o-na.

We absolutely agree that your money will be refunded should you buy a 50-cent box of Mi-o-na stomach tablets and not be satisfied with the results. Mi-o-na is sold by druggists everywhere, or will be sent by mail, on receipt of price, 50 cents.

Write today for a free sample package, and also give us your symptoms, and one of the best known stomach specialists will give your case his careful and personal attention without charge. Booth's Hyomei Company, Buffalo, N. Y.

Torbook Iron Mines Have Changed Hands

Halifax, N.S., Dec. 3.—A big deal was practically consummated yesterday under which the Torbrook Iron Mines change hands, and the sum of $250,000 will be received by the owners of the property. These are B. M. Brookfield, Halifax; Geo. E. Corbett, Annapolis, and B. F. Pearson, of Halifax, who constitute the Annapolis Iron Company.

They have sold out to a group of capitalists largely identified with those in the Londonderry Iron Works, but the property will still be held in the name of the Annapolis Iron Company, the present members of that concern resigning and the new owners stepping in and taking possession.

The Londonderry people will draw supplies of ore from the mines for their blast furnaces at that place, and it is understood that the idea is also to erect large works at the mines to use the ore direct. The bonus of one dollar a ton on native iron ore will cause the use possible. Indeed, it is probable that the sale depended on this feature of the new tariff.

The first payment of $75,000 has been made, and the new owners do not get a clear title till the whole amount of a quarter of a million is paid.

ESTABLISHED 1882

The Toronto General Trusts Corporation

The Pioneer Trusts Corporation of Canada

Paid-Up Capital, $1,000,000
Reserve Fund, 300,000

Acts as an Executor, Administrator, Trustee, Receiver, Committee of Lunatics, Etc., Etc.

The Trusts Corporation is equipped to perform the duties of these offices as no private trustee can. Its officers in each department are specialists. The employment of the Corporation ensures efficiency, security and economy in the administration of a trust.

Trust funds to loan on mortgages at lowest current rates.

J. W. LANGMUIR, Managing Director

THE SCOURGE OF CONSUMPTION

Thousands Are Dying—If Tired, Languid or Run Down Get Protection Before Too Late.

No child, man or woman is safe from consumption unless their blood is pure, rich and nourishing

Allow the blood to become thin, and immediately the whole system grows weak. The lungs are deprived of resisting power and the ever-present tubercular bacilli develops.

The most positive protection against consumption is Ferrozone, which restores the blood to full strength. Weak organs are instantly strengthened, Worn-out tissues are rebuilt. New life is given to the lungs and all danger of consumption is destroyed.

Mrs. E. J. Richardson, Manotick, Ont., tells as follows of her enormous gain in health from Ferrozone: "For two years I was not well. I was thin and anaemic. Towards spring I fell into a condition of nervous exhaustion. A dead tiredness hung over me like a load of lead. Housework of any kind I simply couldn't do. A bad cough developed that worried me greatly for I thought it might be tubercular. When I first read of Ferrozone I was convinced it was good. I took it regularly for eight weeks and the change in my condition was wonderful. My cheeks filled out and became clear and rosy. I gained eight pounds and now am strong and vigorous as possible."

Ferrozone feeds, nourishes and tones up the body—it sends the thrill and zim of robust health from head to foot—makes you feel better at once. Won't you use Ferrozone? Price 50c. per box, or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterboro are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $2 per year, strictly in advance.

THE EVILS OF TIPPING

Ought the travelling public to hand out tips and so pay the wages of the porters on the sleeping cars? Ought a long-haired poet be required to tax his hair-cutter as well as pay the master barber who runs the shop? Cannot a hungry man get a meal and have it properly served without paying both the restaurateur and the waiter? Why is it that in a hashery of either high or low degree a citizen cannot reach for his hat without being held up by the man with the itching palm? Women are not so easily victimized as men but if things go on a little longer as they have been going, they will be unable to buy a yard of ribbon or a pound of tea without tipping the ethereal creature behind the counter. When the time comes, there will be a reform, sur enough, thorough and far-reaching and permanent.

In the meantime some of the stronger sex are going to try their hand at it. Certain travelling men have formed a society to fight against the tipping evil. They know what services and courtesies they ought to receive from those who cater to the public, and they propose to get them without tips to barbers, porters, chambermaids, cabmen, and waiters. B. H. C. Mercer, of Philadelphia, is the president of the society; he wants everybody to join, and he feels confident that so far at least as the traveling men are concerned the tipping evil can be abolished. Unity of effort and concentration of energy and a stern refusal to push the hand into the pocket for small change at every opportunity will accomplish the desired results, in his opinion. Good luck to him and his associates! They are going into battle for the benefit of all.

FARMING ON THE YUKON

W. M. Swipesheart has compiled for publication the results of his experience in farming at Fort Selkirk, and these show that, taking one season with another, the crops raised and the prices received for the product are sufficient to cause the average farmer to look to the north with envy. Oat hay, the chief crop produced, yields about three tons to the acre and sells readily in the spring at from $100 to $125 per ton. Demand has never been lacking for all the hay the farm produces, since the Dawson-White Horse stage line, on which from 200 to 400 horses are used every winter for several months, passes within a few miles of the farm. Potatoes yield from three to five tons to the acre and bring as much as 25 cents a pound. The average price for a series of years has been a fraction over 10 cents a pound. Rutabagas yield six tons to the acre and sell for 6 cents a pound, or $720 an acre. Carrots yield three tons to the acre and sell for 15 cents a pound, a return of $900 per acre. Cabbages vary in production according to the season, ranging from three to eight tons to the acre, and the price ranges from 10 to 20 cents per pound. It is an exceptional season when the Swiftheart farm does not net its owners an income of $10,000.

A CANADIAN AMBASSADOR

Would Have Great Britain Represented at Washington by a Canadian.

London, Nov 30.—The Morning Post gives prominence today to a long letter urging the opportuneness of appointing a Canadian as ambassador to Washington in succession to Sir Mortimer Durand to facilitate the settlement of questions affecting Canada and Newfoundland, and to touch the persistent complaint of Canada that her interests are neglected at Washington because of the American bias of the British.

London Home Life.

Thousands of Londoners, Truth says, lunch and dine at a restaurant, have tea at a club, spend their evenings at a theater, pass the intervals between meals in the street or in a motor car, and when they are ill go to a nursery home. All they do at home is to sleep, dress and quarrel.

The Book of Job.

The book of Job, written about 1520 B. C., describes very accurately several processes of smelting metals.

Italian Spaghetti.

Much of the Italian spaghetti is made at Torre Annunziata, near Vesuvius. The factories are great stone buildings, the recesses of which look like caverns, while the product lines the roadside, hung in festoons on racks to dry and acquire a flavor from the flies and lava dust.

The Arab War Chant.

Captain Von Herbert describes how the sacred chant was sung by Osman Pasha's force in that last dreadful sortie from Plevna. He knows, for, as he says, "as a youngster of seventeen, being then in the Turkish service, I took part in the charge." It is a solemn four part chant for deep male voices, with intervals, the melody recurring again and again, of alternating harmonies hummed almost pianissimo, to the words "Allah Akbar," and then again rising "to a great outburst on the fifth note." There is more than a suggestion of plain song, that song which drifted westward from the east.—Pall Mall Gazette.

A Bad Break.

At a banquet held in a room, the walls of which were adorned with many beautiful paintings, a well known college president was called upon to respond to a toast. In the course of his remarks, wishing to pay a compliment to the ladies present and designating the paintings with one of his characteristic gestures, he said, "What need is there of these painted beauties when we have so many with us at the table?"

Signs of Brain Exhaustion.

A doctor says that when a person begins to have doubts about the spelling of common words, to write an unnaturally small hand that shows a tendency to waver above and below a straight line and to grasp the pen with unnecessary force, especially at the end of a long word, then that person is suffering from brain exhaustion and ought either to take a complete rest or else to find work of an altogether new and different kind.

An Old Proverb.

The proverb, "Necessity is the mother of invention," can hardly be traced to one independent source. The idea was expressed by Persius, the Roman satirist, about 60 A. D. and is found in the precise form now quoted in Richard Franck's "Northern Memoirs" (printed in London in 1694) and in various later English writers.

Mutual.

Mother (entering parlor suddenly)—Mr. Snowball kissing you? I am surprised. Daughter—So am I, mother. He has been coming to see me five years and he never got up enough courage to do it before.

Confirmation.

Blobbs—Poor old Bjones! The doctor says he won't live six months. Slobbs—I've been telling him that for the last two years.—Philadelphia Record.

The learned man has always riches within himself.—Phaedrus.

The Outing Magazine for December

The Outing Magazine for December is a magazine de luxe, the most beautiful magazine the Outing Company has ever put forth. Take the paintings reproduced in color, for example. Such a series as Mr. J. M. Gleeson has done for Kipling's "Jungle Tales," is a unique contribution to magazine art and there are many other paintings in color by such artists as N. C. Wyeth, F. C. Stokes, J. U. Sommer, and Allen True. Other striking illustrations in the number are by Alice Barber, Hy. S. Watson, Maynard Dixon, and Thomas E. Marr, the last named contributing many handsome photographs of the sand dunes of Cape Cod.

There are four unusually strong papers, three of which are illustrated. Emerson Hough's story, "When the June Rise is On," is the first contribution coming as the result of Mr. Hough's journey through the North-West for The Outing Magazine. Ralph D. Paine's "The Great Lakes and the Nation," is a new and striking installment in this author's famous series. "The Builders," John Burroughs with his "Human Traits in Animals," contributed perhaps the most important article of the number. And Arthur Ruhl's human interest paper of "The Army-and-Navy Game," is one of the best football articles we have seen. Besides there is another installment of Dillon Wallace's "The Long Labrador Trail," of John Spears' "The Buccaneers," this one entitled, "Morgan's First Bid for Fame,"—and a paper on the "Moral Effects of Athletics."

The number is made notable also by the beginning of Stewart Edward White's "Camp Equipment" papers, and by an unusual amount of strong fiction by Sewell Ford, Clarence E. Mulford, Alfred Stoddart, and others, besides a new installment of Chester Bailey Fernald's serial, "John Kendry's Idea." Caspar Whitney, in the "Viewpoint," deals vigorously with South American problems, the first of a number of world problems which Mr. Whitney, from the first hand information of his travels, will discuss in the Outing Magazine.

Hard Coughs Have you forgotten that family history of yours, with its tendency to weak lungs? Your doctor has not, if you have! He will tell you the special danger of hard coughs in your case. Then ask him what he thinks about your taking Ayer's Cherry Pectoral. If he says it is a good medicine, why not take it? We have no secrets! We publish the formulas of all our medicines! J. C. Ayer Co., Lowell, Mass.

Crowd Thought Burns Had Won

Los Angeles, Cal., Dec. 1.—The feeling here is that Tommy Burns, the Canadian boxer, should have received the decision over Jack O'Brien in their 20-round bout Wednesday night. When the end came it found the men in the center of the ring engaged in a terrible struggle. The whole upper parts of their bodies were covered with blood. When Referee Jim Jeffries held up the gloves of both fighters, a shout of disapproval went up from the Burns admirers, who believed their man had won. Burns, who fought like a bull-dog from the beginning to the end, was always on the aggressive, crowding his opponent to the ropes, most frequently reaching him about the ring almost in flight.

9,600 FEET

Sixty six mining claims.
A crosscut tunnel now in 4,000 feet.
5,600 feet of drifts, shafts and laterals.
A complete 750 h.p turbine electric power plant.
Numerous Veins Explored.
A Big Industrial and Mining Proposition Combined.
A Strong Directorate.

This is real mining.

The Palmer Mountain Tunnel and Power Company has 66 lode mining claims back of it on Palmer Mountain, near the Town of Loomis, Okanogan County, Washington—about 13 miles south of the boundary of British Columbia. A new railway line is nearly completed and will run within 13 miles of the property. Steamers ply on the Okanogan River to within 26 miles of our properties. There is water—not only for mining purposes, but with unlimited possibilities for power genera-

INTERIOR OF TUNNEL

tion. There is timber, there are large, well defined veins proved at great depth—and there is development enough done to make this one of the biggest and best mining propositions in the country.

We can do more with $10 ore on our properties than the desert miners can do with $40 or even higher grade ore. We can make money because we have the FACILITIES on our ground. Our ore can be mined, milled, cyanided and bullion produced for not exceeding $2.50 a ton.

Our immense crosscut bore—a picture of which we show herewith—is now in 4,000 feet, is 9 by 9 in the clear (as large as any of the big transportation and drainage tunnels), and is well timbered, equipped with track, ore cars and everything else essential. In the picture shown herewith, the large pipe running at the top of the right side of the tunnel, is for ventilation purposes and connects with a large, powerful blower.

Recent development on the mountain proves that we shall open up at tunnel level (2,500 feet beneath the surface) an enormous body of copper ore.

We have opened up much $10 ore, and we have a higher grade running up to $60 a ton. This is where the big profit comes from. In the nearly TWO MILES OF WORKINGS we have all the facilities for handling a very large production. Back of it all we have a capable mining and business management. We should be very glad to tell you the complete story. We can only hint at it here.

For particulars, apply to

AETNA SECURITIES CO.

ADVERTISING PAYS

HIDDEN GOLD MINES.

Where May Perhaps Be One In Your Own Back Yard.

There may be a rich gold mine in your back yard if you happen to be living on the site of an ancient lake, writes Waldon Fawcett in Technical World Magazine. In scores of places scattered all over the country there are pits and mounds of black sand out of which gold, platinum and other precious minerals may be extracted. The national government itself is the promotor of this latest mining sensation, which promises to make as many overnight gold kings as the discovery of Alaska itself.

It had long been known that platinum existed in appreciable quantities in what are known as the "black sands" of the Pacific coast, but the deposits were practically useless because of the lack of an efficient and economical method of concentration or treatment. It was to the solution of this problem that the government experts applied themselves. As a first step a general invitation was extended to Pacific coast property owners whose holdings included such deposits to send to the government samples of the wealth bearing sand for free tests.

From the very outset the results were both gratifying and surprising. The government investigators not only found platinum in quantities that exceeded their expectations, but they discovered that the black sand, or sediment, was rich in many other valuable substances, notably gold. In some instances it was evident that a given deposit was well worthy of treatment, merely for the extraction of one or two minerals, as, for instance, a large shipment of the sand from Humboldt county, Cal., which showed as assay value of $1,000 per ton in gold and platinum alone.

Dr. Day and his assistants have accomplished such wonders on the Pacific coast that the government has hastened to broaden the scope of the work, and an experiment station has been established at Chapel Hill, N. C., for the treatment of the low grade gold deposits of the Mid-Atlantic and southern states.

Buenos Ayres.

Buenos Ayres today boasts rightly and truthfully of nearly 1,100,000 inhabitants. It is growing faster than any city in the United States excepting New York and Chicago, and the time is soon coming when it will run an even race with Paris as the first Latin city of the world. We have no place like it in North America. It might possibly be described as having the beauty of Washington, the wealth of New York and the hustle of Chicago in well measured proportions. It can point to parks and boulevards more beautiful than any in Washington, opera houses, clubs, newspaper buildings finer than any in New York, street car systems and hotels better than those of Chicago.—New York Times.

A Record in Denmark.

The first degree of doctor of medicine to be given to a woman in Denmark has recently been conferred on Frøken Ida Meller. This title is not attained by passing an ordinary examination in medicine, but must be gained by writing a treatise of actual value to the community or by setting forth some novel and important theory, and, moreover, in the latter case the candidate must stand prepared to defend this theory against the arguments of certain appointed professors of the subject treated. In truth, this honor is not lightly given in faraway Denmark, nor is it to be easily won apparently.

Sven Hedin's Perilous Trip.

There is something that stirs the imagination in the thought that Stockholm's most distinguished son—surely no one will deny the title to Sven Hedin—is even now crossing over from Turkestan to the starting place on the Tarim river, in the heart of Asia, which knows him so well already. His rooms on the Blasieholm are shut up, and no one knows less than himself whether he will ever enter them again. For the third time he is essaying the most dangerous journey that yet remains on this law abiding planet—that to Lassa.—London Telegraph.

Medical Secrecy.

The question of a medical man's obligation of secrecy has again risen in the striking case of the Gironde assises. In 1868 two Jonzac doctors who called to attend a sick person suspected it to be a case of criminal poisoning. They believed that they knew the guilty person, but hesitated to denounce him. They consulted their confreres, who said, "A crime discovered by us in the exercise of our art becomes a professional secret." This theory, however, is not universally held.—Petit Parisien.

The Wealth of France.

The population of France is about 40,000,000 people; the wealth of France is nearly $45,000,000,000. Robert P. Skinner, United States consul at Marseilles, in some recent statistics, shows how evenly this wealth is distributed. The number of estates administered in 1904 was 904,787, and of these one-half were for values ranging from less than $10,000 to a little over $100,000. Only three were over $10,000,000.—Review of Reviews.

A South African Spellbinder.

Lidia, the son of King Lewanika, is described by Trevor Battye as a most intelligent man, anxious for the improvement of the people and probably sharing the view of his father, who, on his return from attending the coronation, began the opening speech to his people with the words: "You are simply beboons! Simply that!"—London Spectator.

Softly Sentimental.

"Have you any new song that is soft and mellow?"

"Well, here's one that just came in. It's called 'I Love My Little Ooxy-Mooxy Moo.' That sounds mushy doesn't it?"

The London Child.

The London child's life is often very like a rabbit's—[illegible] [illegible]

ADVERTISE IN THE TIMES.

LITTLE NIPISSING

The Best in Cobalt is Not Too Good for You to Buy

All the large profits in Cobalt have been made on strictly inside properties. LITTLE NIPISSING SILVER COBALT MINING COMPANY, LIMITED (No Personal Liability), owns the famous J B. a property, comprising thirty-eight acres in the very heart and centre of the richest producing portion of the camp. It is surrounded on three sides by the original Nipissing, the McKinley-Darragh-Savage, the Temiskaming and Hudson Bay and Silver Queen propreties, and is believed to have the same system of veins. Authorized Capital only $650,000. Par Value of shares $1.00 each Fully Paid and Non Assessable.

OFFICERS AND DIRECTORS ARE:

SEVRIN FERLAND, Cobalt, mining man, former part owner of the original Nipissing Mine, and part owner of the O'Brien Mine; P. J FINLAN, Cobalt, mining man and Mayor of Cobalt; ROBERT B. YOUNG, Toronto, of the Crown Bank of Canada; ATWELL FLEMING, Toronto, of the Atwell Fleming Printing Company; ROBERT RAY, Toronto.

BANKERS:

Bank of Montreal, Toronto; Imperial Bank, Cobalt, Ontario.

SOLICITORS:

Clark, McPherson, Campbell & Jarvis, Toronto.

This is a proposition of extraordinary merit and exceptional possibilities for large profits. It is in the same class as the properties that surround it, and is believed to be as good as any of these, and that an investment in the stock at the starting price will prove as profitable as did investments in its neighbors.

FIRST OFFER OF STOCK

We own and offer for sale a small amount of this stock at par, $1.00 per share.

TERMS OF SALE

All orders must be accompanied by remittance in full for the number of shares wanted. Each order will be filled as received until allotment is sold, and remittances received thereafter will be promptly returned to the sender.

Further particulars furnished on application.

THE BUSY BEE.

Where the Little Insect is Busiest—Stories From Britain.

The average countryman would laugh at you if you were to tell him that you had seen the wasps this summer playing the part of the exemplary bee and gathering honey from the flowers in the garden. But the countryman would be wrong and you would be right, for of late, for some mysterious reason, the wasps have been busy among the tall flaming spikes of the red hot pokers (Tritoma uvaria), whose blooms are especially fine this August.

What the bees think of it one cannot say, but they are not to be seen mingling with the wasps. The latter, when they feel inclined toward honey, usually make an attack upon the nearest beehive, and very often come off second best, unless they attack in force. But now that the wasp has shown an inclination to gather honey first hand from flowers, surely the scientist can step in and teach it to store it for the needs of man in the comb, which it can already make as perfectly as the bee, though of a different material. The chief difficulty, perhaps, would be to prevent the wasp, like the child in the strawberry bed, from eating all he gathers on the spot.—Pall Mall Gazette.

Keeping Friends With Bees.

A contributor mentions a singular custom adhered to by many country people who keep bees. It is that of telling the bees whenever anything unusual is about to take place or has taken place, such as a death, birth or marriage. It is believed that if this were not done the bees would leave the hive or some misfortune would befall the family.

In illustration the correspondent says that his brother had a good many hives, and some years ago, when his daughter died, the bees all left. The old gardener at once attributed it to his having forgotten to give notice to the bees, who were duly informed the next time there was a death in the family, and they remained in their hives.—London Standard.

Bees Hold Up Railway Station.

A large parcel dropped on the platform of Burgess Hill station, Sussex, burst open, and out bussed a swarm of bees. The parcel contained a hive. In spite of the stationmaster's order to pack the bees up again none of the staff would approach.

At length a forlorn hope, consisting of an aged porter, was induced by the guerdon of a shilling to attack the parcel, but when the bees, possibly mistaking him for a new kind of flower, thumped around him he dropped it and ran. The bees held the platform till the evening, when they returned to the hive. Then the parcel was closed and sent on to its destination.—London Daily Graphic.

A Destructive Bee.

From a Camberwell correspondent we have received a quite distressing account of the destruction caused in his conservatory by the leaf-cutting bee.

Last Sunday a solitary bee found its way through the open windows, but

BUY "COBALT-AMERICAN"

The Best Value Offered in Cobalt Stocks To-day.
Limited Number of Shares at 65c. Par Value, $1.00

We unhesitatingly recommend this stock because of its extraordinary merit.

Every shareholder in the "Cobalt-American Development Company," Limited, is a promoter as well as an investor.

Company controls several valuable mining locations.

Property under development located in heart of original silver-bearing zone. Five well-defined veins trenched over 1,000 feet. All run very high in silver values, two shafts being sunk with good results.

A Sure Winner and Shipper in a Short Time

This stock will assuredly increase in value. Buy now and take advantage of the rise. Do not delay. Opportunity will not wait. It is yours now.

The people have confidence in this proposition, as is evidenced by the great demand for stock.

COBALT MINING BROKERS,

Confederation Life Building, Toronto, Canada.

the news that rose leaves were available in that part of a district where rose culture is uncommon had been conveyed with such success that this week the glass house was swarmed with the bees. Our correspondent says the noise they make is like the working of countless pairs of minute scissors. The bees have denuded his roses of their leaves and have even turned attention to the flower of the geranium.—London Globe.

The Complementary Virtue.

"What do you consider most essential in being quick at repartee?"

"A person who constantly strives to be quick at repartee," answered Miss Cayenne, "should be quite sure he has friends who are slow to anger."—Washington Star.

Best She Could Do.

Husband—What! Twenty-five dollars for that bonnet? Why, it's ridiculous! Wife—Yes, I know it isn't anything to boast of, but you said you couldn't afford an expensive bonnet.—Columbus Dispatch.

COLORADO SPRINGS, COLORADO

DARREL of THE BLESSED ISLES

By IRVING BACHELLER,

Author of "Eben Holden," "D'ri and I," Etc.

COPYRIGHT, 1908, BY LOTHROP PUBLISHING COMPANY

"It isn't much," he went on. "I'd like you to help me teach a little. Tomorrow morning I shall make a map on the blackboard, and while I am doing it I'd like you to conduct the school. When you have finished with the primer class I'll be ready to take hold again."

She had a puzzled look.

"I thought you were going to punish me," she answered, smiling.

"For what?" he inquired.

"Whispering," said she.

"Oh, yes! But you have read Walter Scott, and you know ladies are to be honored, not punished. I shouldn't know how to do such a thing. When you've become a teacher you'll see I'm right about whispering. May I walk home with you?"

Polly had then a very serious look. She turned away, biting her lip, in a brief struggle for self mastery.

"If you care to," she whispered.

They walked away in silence.

"Do you dance?" she inquired presently.

"No, save attendance on your pleasure," said he. "Will you teach me?"

"Is there anything I can teach you?" She looked up at him playfully.

"Wisdom," said he quickly, "and how to preserve blueberries and make biscuit like those you gave us when I came to tea. As to dancing—well, I fear 'I am not shaped for sportive tricks.'"

"If you'll stay this evening," said she, "we'll have some more of my blueberries and biscuit, and then, if you care to, we'll try dancing."

"You'll give me a lesson?" he asked eagerly.

"If you'd care to have me."

"Agreed; but first let us have the blueberries and biscuit," said he heartily as they entered the door. "Hello, Mrs. Vaughn. I came over to help you eat supper. I have it all planned. Paul is to set the table. I'm to peel the potatoes and fry the pork. Polly is to make the biscuit and gravy and put the kettle on. You are to sit by and look pleasant."

"I insist on making the tea," said Mrs. Vaughn, with amusement.

"Shall we let her make the tea?" he asked, looking thoughtfully at Polly.

"Perhaps we'd better," said she, laughing.

"All right. We'll let her make the tea. We don't have to drink it."

"You," said the widow, "are like Governor Wright, who said to Mrs. Perkins, 'Madam, I will praise your tea, but hang me if I'll drink it.'"

"I'm going to teach the primer class in the morning," said Polly as she filled the teakettle.

"Look out, young man," said Mrs. Vaughn, turning to the teacher. "In a short time she'll be thinking she can teach you."

"I got my first lesson tonight," said the young man. "She's to teach me dancing."

"And you've no fear for your soul?"

"I've more fear for my body," said he, glancing down upon his long figure. "I've never lifted my feet save for the purpose of transportation. I'd like to learn to dance because Deacon Tower thinks it wicked, and I've learned that happiness and sin mean the same thing in his vocabulary."

"I fear you're a downward and backsliding youth," said the widow.

"You know what Ezra Tower said of Ebenezer Fisher, that he was 'one o' them mush heads that didn't believe in hell? Are you one o' that kind?"

Proclaimers of liberal thought were at work there in the north.

"Since I met Deacon Tower I'm sure it's useful and necessary. He's got to have some place for his enemies. If it were not for hell the deacon would be miserable here and, maybe, happy hereafter."

"It's a great hope and comfort to him," said the widow, smiling.

"Well, God save us all!" said Trove, who had now a liking for both the phrase and philosophy of Darrel. They had taken chairs at the table.

"Tom," said he, "we'll pause a moment, while you give us the fourth rule of syntax."

"Correct," said he heartily, as the last word was spoken. "Now let us be happy."

"Paul," said the teacher, as he finished eating, "what is the greatest of all laws?"

"Thou shalt not lie," said the boy promptly.

"Correct," said Trove; "and in the full knowledge of the law I declare that no better blueberries and biscuit ever passed my lips."

Supper over, Polly disappeared, and young Mr. Trove helped with the dishes. Soon Polly came back, glowing in her best gown and slippers.

"Why, of all things! What a foolish child!" said her mother. For answer Polly walked up and down the room, singing gayly.

She stopped before the glass and began to fuss with her ribbons. The teacher went to her side.

"May I have the honor, Miss Vaughn?" said he, bowing politely. "Is that the way to do?"

"You might say, 'Will you be my pardner?'" said she, mimicking the broad dialect of the region.

"I'll sacrifice my dignity, but not my language," said he. "Let us dance and be merry, for tomorrow we teach."

"If you'll watch my feet you'll see how I do it," said she, and lifting her skirt above her dainty ankles she glided across the floor on tiptoe as lightly as a fawn at play. But Sidney Trove was not a graceful creature. The muscles on his lithe form, developed in the school of work or in feats of strength, at which he had most no equal, were untrained in all graceful trickery. He loved dancing and music and everything that increased the beauty and delight of life, but they filled him with a deep regret of his ignorance.

"If you'll watch my feet you'll see how I do it."

CHAPTER XVII.

THERE was much doing that winter in the Linley district. They were a month getting ready for the school "exhibition." Every home in the valley and up Cedar hill rang with loud declamations. The impassioned utterances of James Otis, Daniel Webster and Patrick Henry were heard in home and field and stable. Every evening women were busy making costumes for a play, while the young rehearsed their parts. Polly Vaughn, editor of a paper to be read that evening, searched the countryside for literary talent. She found a young married pair who had spent a year in the State Normal school and who put her learning at the service of Polly in a composition treating the subject of intemperance. Miss Betsey Leach sent in what she called "a piece" entitled "Meme." Polly herself wrote an editorial on "Our Teacher," and there was beaming and bawing when she read it, declaring they all had learned much, even to love him. Her mother helped her with the alphabetical rhymes, each a couplet of sentimental history, as, for example:

A is for Alson, a jelly young man;
He'll marry Miss Betsey, they say, if he can.

They trimmed the little schoolhouse with evergreen and erected a small stage where the teacher's desk had been. Sheets were hung for curtains on a ten foot rod.

(To be continued)

The Visigoths.

The Visigoths in Spain, from Alaric, in 382 A. D., to Roderic, in 709, had thirty-four kings.

Flows Up Hill.

The Mississippi river flows up hill. Its mouth is higher than its source—that is, farther from the center of the earth, on account of the bulge of the earth toward the equator.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Land in Manitoba or the Northwest Provinces except no 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

SYNOPSIS OF CANADIAN NORTH WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 15 by 1500 feet. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the lessee may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

ADVERTISE IN THE TIMES.

OUR ZINC COMPANY IS DIFFERENT

Holders of Preferred Stock have a priority lien upon all property until they have received in dividends the par value of their holdings.

Combines the safety of a government bond with the speculative element of a gold mine.

Capitalization is low, only $50,000.00; 300,000 shares are made preferred stock, and placed in the treasury by charter provision. This stock is protected to the complete exclusion of the common stock, until it has earned in dividends an amount equal to its par value.

Zinc mining is the safest, the cheapest, and the most profitable in the realm of mining.

The great Southwestern Lead and Zinc District is the greatest in the world. More than 500 paying mines are located in this district. The Empire Zinc Mine has paid dividends of 250 per cent. The Enterprise Lead and Zinc Mine has paid 350 per cent. and its stock is worth seven times its par value. The Northern Arkansas mineral region is a part of this famous District. The ores from Lawrence and adjoining Counties, Ark., were awarded the Bronze Medal at the late World's Fair, at St. Louis, Mo., U. S. A. Some of these ores were taken from the land where is now located the group of New Era Mines belonging to our Association.

If you want to get in with a live company where things are moving, come with us. Write today. You must act quickly. It is the opinion, and believed by experts and miners, that within a few months our company will be paying large dividends. Development work now done has brought our miners into a zone which is yielding rich ore, and every indication points to an immense deposit of zinc.

We have the mines. We have the ore. We need a concentrating plant for the treatment of this ore. Were it not that we consider it better business policy to sell a block of preferred stock and purchase an equipment of machinery at once than to wait and have our ore treated by custom mills, NOT ONE DOLLARS WORTH OF THIS STOCK WOULD BE OFFERED FOR SALE.

Write to us today for full information.

201 MERCANTILE BUILDING, DENVER, COLORADO

5 PER CENT Forty Year Gold Bonds

OF THE

Salt Lake Public Service Company

Light *Heat* *Power*

Combining Electric Lighting—Steam Heating—and Water Power Development.

Capitalization, $3,000,000. Authorized Bond Issue $2,500,000

Interest payable semi-annually. Bonds of denomination of $500 and $1,000. Bonds are sold at par with accrued interest and carry a liberal stock bonus of fully paid and non-assessable stock in the Company.

These Bonds are secured by Deed of Trust to CAPITOL TRUST COMPANY of Columbus, Ohio. The Company conveys title to perpetual water rights situated fifteen miles from Salt Lake City, which will develop 5,000 net horse power at the minimum flow of the streams with a reservoir system to give continuity of service; franchises for light, heat and power in Salt Lake City, and adjacent territory all for a term of fifty years.

A large amount of the capacity of the hydro-electric plants, together with the 6,000 horse power auxiliary steam plant in Salt Lake City, has been contracted for and will be sold in large units to smelting and manufacturing interests, inter-urban railways, etc., by long-term contracts. The "Schott System" of central station heating is being installed in connection with the steam power plant in Salt Lake City. Market for power and steam heat is far in excess of the supply. The Board of Directors are prominent business men of Ohio and Utah.

The construction and management is under the direction of W. H. Schott of the "Schott Systems" of Chicago.

Engineers reports and information in detail will be furnished on application to our Detroit office or THE CAPITOL TRUST COMPANY of Columbus, Ohio, or by any of our representatives at any of our branch offices who are thoroughly familiar with the project from having made an examination on the ground.

The most rigid inquiry is solicited.

AT 15 CENTS PER SHARE

We still have a limited number of these shares, that we will sell for 15 cents per share, in blocks of 100 shares or over. Why pay 75 cents for this stock, when you can buy it from us at 15 cents. In ordering same send us bank draft or express order.

For reference we refer you to the Bank of Montreal here, or the Imperial Bank at Nelson, B. C.

One of the greatest opportunities for making large profits in mining stocks is now offered to the public. The Coeur D'Alene Mining District is rapidly becoming one of the greatest mining camps in existence. For every dollar expended twenty dollars has been taken out. Last year over $9,000,000 was produced from this district alone. This is not a new mining district, but one that has been working for years, and the ore bodies are permanent and increase in value with depth.

If you are interested write for our Weekly Market Letter and Quotation Sheet, also map of the Coeur D'Alene Mining District, which we will send free upon request.

We want agents in every city throughout Canada and United States.

A HOPELESS SITUATION.

Odd Climax That Was Not a Part of the Play.

Frank Gillmore, the actor, tells the following story about his aunt, Miss Sarah Thorne, who was leading woman at the Theatre Royal, Dublin, many years ago.

"Miss Thorne was given a part in 'The Masked Prince,' the second piece of the evening," said Mr. Gillmore. "Glancing through her part hastily at breakfast, she noticed that there was one scene in which she had so little to say that it could be learned just before going on. She decided to skip that scene and get to the longer passages.

"When night came, and my aunt made her appearance, she did very well in the first scene. In the second scene occurred the passages she had skipped in the morning. She rushed to the corner in which she left her book, but it was not there. Finally, the stage manager, receiving no response to his repeated calls, sought her out and pushed her on the stage. There she was, before a large audience, without the slightest idea of what she was supposed to do or say. The scene was a courtroom. At a high desk sat the presiding judge, letter perfect in his part, because he had it ready to read from the papers in front of him. A trial was taking place, and Miss Thorne, to her horror, discovered that she was to be the principal witness, on whose answers hung the entire plot of the play. The judge adjusted his spectacles, looked at his part, and said in solemn tones, 'The witness will now state what she saw the prisoner do on this particular night.'

"What was she to answer? She glanced around helplessly. She hadn't the faintest idea what she had seen the prisoner do on that particular night. The critical moment had arrived; some one must speak, but she couldn't. Her eye alighted on one of the characters in the play who looked particularly reliable. He looked like a person who could get one out of any sort of difficulty. So, pointing at him, she exclaimed in impressive tones, 'Ask that man!'

"The entire cast seemed disconcerted by this remark. They did not know precisely what ought to be said, but instinct told them something was wrong. The judge, thinking he might have made some mistake, turned over a couple of pages of manuscript and, having convinced himself on this point, again addressed the witness. My aunt glanced at the uncomfortable gentleman and, no other idea coming to her, again exclaimed, 'Ask that man!' This concentration of public attention was too much for him, and he sneaked off the stage with a feeble 'Excuse me.' Of course the situation was a hopeless one, and the curtain had to be rung down."—Success.

The Spanish Main.

"What do you understand by 'the Spanish main?'" Such was the problem propounded at the club lunch table, and many and varied were the answers. In the "Wreck of the Hesperus" it was remembered that there spake up "an old sailor who had sailed the Spanish main," and it was recalled that in the "Ingolsby Legends" one says, "My father dear he is not here; he seeks the Spanish main." There was, however, a certain vagueness about the speakers' views as to what particular thing was meant by the word, some thinking one thing and some thinking another, and only one speaking with the authority of "an old sailor who had sailed the Spanish main." Such a discussion tends to show how satisfied most of us are to half know a thing or to think that we know without troubling about verification.—London Chronicle.

The Shopping Sex.

The Englishwoman never knows when she enters a shop what she wants. She is swayed by impulse, grabs wildly at everything she likes or thinks she likes and probably comes back and grumbles the next day. She is also completely lost if the shopwalkers do not dog her every footstep to implore her to "look at this charming toque" or condescend to "glance at this special line in cheap skirts." But the American woman resents any suggestion that she does not know what she wants, likes to be left severely alone and if interfered with may abruptly leave the shop. But, while she is less irritating than the Englishwoman, she is far more exacting.—London Express.

The Old Great Eastern.

The last days of the Great Eastern were certainly sad, considering the purpose for which she was designed and the great work she did in cable laying. For some time before she was broken up on the mud of the river Mersey, near Liverpool, she was on view as a show ship. One firm of Liverpool clothiers hired her for a season, and in addition to using her for its advertising purposes made use of her for catchpenny shows. In the large cable tank a circus was fitted up and performances given at so much a head, while other exhibitions of the Coney Island type were spread all over her deck.

The Eastern Eye.

The eyes of the yellow people are not oblique, notwithstanding that they appear to be. The line adjoining the commissures of the eyelids divides the eye into two equal parts, and is exactly at right angles with the axis of the nose. It is not always so; the exception is much less frequent than in the whites, for, as a general rule, it is in the latter that the eyes are not at right angles with the axis of the nose.

When death, the great reconciler, has come, it is never our tenderness that we repent, but our severity.—George Eliot.

50,000 SHARES

OF A

RICH GOLD MINE

IN NEW ONTARIO ALLOTED TO PETERBORO

The undersigned has secured an allotment of 50,000 shares of a rich gold mine in New Ontario. The mine promises to be one of the richest in the Country, and adjoins the great Bloom Mine, which is estimated to be worth over $25,000,000. This stock has par value of $1.00 and will be sold for 50c. a share for the next 30 days. It probably will be worth many times its present value in a short time. Now is the time to invest. There is no risk—it is a sure thing. Money needed for developement. For further particulars apply to.

Admits That He Robbed Mails

Toronto, Dec. 1.—Because Grand Trunk envelopes bearing the name of William J. Leroy, aged 23, 172 Soraren avenue, were found in mail bags stolen from the Grand Trunk train leaving Toronto at 12.01 p.m. on Nov. 18, and 25, Leroy was taken in custody on the charge of stealing the mail bags Thursday night.

Enquiry at the Union Station revealed the fact that Leroy had helped load the mail bags on the train Leroy's room was searched, and a quantity of stolen letters found.

When Leroy learned that he was traced, he gave himself up at Ossington avenue police station. Leroy confessed that he had thrown one bag over a fence near Mimico. A number of the letters were found in a water tank in the Iroquois Hotel on Tuesday.

Leroy profited by money orders to the extent of between $60 and $75.

Leroy was employed on the G.T.R. as a brakeman between Allendale and Stratford.

Yesterday in the police court, P.C. Inspector Henderson laid Two charges against the prisoner, one for stealing mail bags, and one for stealing mail. A charge of forging two money orders for $6 and $20, will also be laid.

Leroy pleaded guilty to both charges and was remanded for a week, when he will be brought up for sentence.

Piles get quick relief from Dr. Shoop's Magic Ointment. Remember it's made alone for Piles—and it works with certainty and satisfaction. Itching, painful, protruding, or blind piles disappear like magic by its use. Try it and see! J. D. Tully.

Circular sent on request.

HE IS CORRECT

Dr Hamilton Proves That Piles Are Caused by Constipation and Strong Catharties.

Knowing the frequency with which people suffer from this ailment, Dr. Hamilton made an exhaustive study into the cause of piles

He found that the lower part of the bowels is like a network of blood-vessels, and if subjected to persistent pressure, a section will bulge out and form what is commonly known as piles.

The most effective mode of curing this trouble is the regular use of Dr. Hamilton's Pills, which can be taken before retiring. Next day will bring wonderful relief.

"I suffered up to almost the limit of human endurance with piles," writes Miss Landers, from Cornwall, Ont., "I was engaged in a factory here, but for a while had to give up work till I got better of this trouble. I read in the Montreal Herald about Dr. Hamilton's Pills, and after using them for two weeks was cured. I can recommend these pills very highly; there are none better. They at once relieve and prevent a constipated condition of the bowels, and from my experience can be depended upon as a perfect safeguard against piles. Dr. Hamilton's Pills of Mandrake and Butternut, I am sure, would be a benefit to every girl or woman."

Take Dr. Hamilton's Pills and your system will be regenerated, revitalized, and made proof against disease.

Good for men, excellent for women, and most effective for children. All ages and both sexes find Dr. Hamilton's Pills a marvelous medicine. Although active, they do not gripe or cause inconvenience, system, thereby maintaining a high still they cleanse and purify the standard of health. Sold by all dealers, 25c. per box, or five boxes for $1.00, or by mail, from N. C. Poison and Co., Hartford, Conn., U. S. A., and Kingston, Ont.

LOCAL INCIDENTS

By The Times Man on the Street

—The first of a series of debates will be held in the T.A.S. Hall this evening.

—A choice lot of Xmas cards for 25, 30 and 50 cents a dozen. Times Bookstore.

—Unfurnished rooms to let, central location. Apply at Times office for address.

—For experienced nurse with good references, apply at 340 1-2 Water street, opposite market.

—Rev. J. G. Potter spoke at the Y. M.C.A. yesterday afternoon, his subject being "The Great Wreck."

—The annual meeting of the S.O. E. will be held tonight, when the officers for the ensuing year will be elected.

—A meeting of the curlers is called for election of the skips for the coming season.

—The members of "The Scarlet Mysteries" Company, gave a sacred concert in the Grand Opera house last night.

—Just received a special lot of cloth bound books—none but the very best authors. Suitable for Xmas gifts. On sale at 20 cents each, or six for one dollar. Times Bookstore.

—At the Gospel Hall yesterday evening, Mr Solomon, a converted Jew, gave an address. He also spoke in the afternoon at the Sunday school.

—The Str. Monarch arrived in port from Harwood and Gore's Landing and other lower ports on Saturday. Capt. MacAllister reports that they met with no obstruction from ice.

—The handsome silver trophy, donated by Mr. R. R. Hall, M.P., and won by the Quaker Football team at the Peterborough Industrial Fair, has been placed on exhibition at the Y.M.C.A.

—P. O. Newhall went to Toronto Saturday morning in charge of Lawrence Burton, whom he was taking to Mimico. Burton is much improved and it is hoped that he will soon recover.

—President Armstrong of the Nassau Fife and Drum Band entertained the band members at his Hunter street residence, when a most enjoyable evening of music, with refreshments was enjoyed by all present.

—See The Times Bookstore north window display of twenty-five cent articles. Christmas presents of all descriptions for children. A small deposit on goods purchased now will reserve articles. Take advantage of this and have first choice.

HARMFUL STOMACH DOSING

No Need of it When Hyomei is Used to Cure Catarrh.

Physicians and scientists agree that the less medicine one swallows, the better. It is in keeping with this idea that Hyomei is recommended by leading physicians throughout this and other catarrhal sections.

When this treatment is used in catarrhal troubles, there is no stomach dosing, for the medicine is taken in with the air you breathe, and goes right to the spot where the catarrhal germs are present, healing the inflamed and irritated mucous membrane, killing the disease germs and entering the blood with the oxygen, driving all catarrhal germs from the system.

Do not try to cure catarrh of the head by putting medicine into your stomach—this is neither a scientific nor common-sense treatment. Breathe the healing balsams of Hyomei and in a few days you will notice relief, and its continued use will result in a complete and lasting cure.

The complete Hyomei outfit costs but $1.00, extra bottles, if needed, 50 cents. We do not want anyone's money unless Hyomei gives relief and cure, and we absolutely agree that money will be refunded unless the remedy gives satisfaction.

All druggists should be able to supply you with Hyomei or we will send it by mail on receipt of price, and every package is sold with the distinct understanding that it costs nothing unless it cures. Write us today for a symptom blank, which we will send you free, together with treatise on Catarrh and how to cure it. When you fill in and return to us the symptom blank, our consulting physician will give your case the best care and attention, and write you a letter of advice without charge. Booths Hyomei Company, Buffalo N Y

Lakefield-Peterborough Visitors.

The Lakefield News says: Mr. Jas. Shadgett, of Peterborough, spent Tuesday in the village visiting old friends.—Mrs. R. C. Strickland and Miss Strickland are at present in Peterborough visiting friends. Mr. Wm Watson returned home on Monday from a visit with friends in Toronto and Peterborough.—Miss Alice Campbell, of Peterborough, is the guest of her grandparents, Mr. and Mrs. Wm. Watson.

Weak Women

Be weak and ailing women, there is at least one way to help. But with that way, two treatments must be combined. One is local, one is constitutional, but both are important, both essential.

Dr. Shoop's Night Cure is the Local.

Dr. Shoop's Restorative, the Constitutional.

The former—Dr. Shoop's Night Cure—is a topical nervine membrane suppository remedy, while Dr. Shoop's Restorative is wholly an internal treatment. The Restorative reaches throughout the entire system, seeking the repair of all nerve, all tissue, and all blood ailments.

The "Night Cure", as its name implies, does its work while you sleep. It soothes sore and inflamed mucous surfaces, heals local weakness and discharges, while the Restorative, once nervous contentment, gives renewed vigor and ambition, builds up wasted tissues, bringing about renewed strength, vigor, and energy. Take Dr. Shoop's Restorative—Tablets or Liquid—as a general tonic to the system. For positive local help, use no well

Dr. Shoop's Night Cure

J. D. TULLY.

SOCIAL AND PERSONAL

—Mr. and Mrs. J. Jeffries, London street, spent Saturday in Toronto.

—Mr J. Richardson, of Millbrook, registered at the Snowden House on Saturday.

—Capt. Scollard of Young's Point is spending a few weeks in Buffalo, N.Y.

—Mr B. Hutcks, who is attending Norwood High school, was in the city on Saturday.

—Mr C. R. Nixon, of Shequiandah Manitoulin Island, is the guest of Mr. Chas. Nixon, proprietor of the Southern Hotel.

—Mrs. W. B. McQuade and her son Willie, of Omemee, spent last week the guest of Mrs. McQuade's sister, Mrs (Dr.) Gray.

—Millbrook Mirror says: Miss Clements, of Peterborough, has been the guest of Miss Milfred Allon, at Shenly House during the past week.

—Miss Irene Waters of Peterborough, who has been visiting her friend Miss Mae Crossley, Belmont, returned home on Tuesday. — Port Hope Guide.

—Mrs J. H. Miller (nee Granger), will receive for the first time since her marriage at her new home, 360 Brock street, tomorrow afternoon and evening.

—Miss Gladys Williams entertained a number of her friends to a birthday party at 77 Homewood avenue. A most enjoyable evening was spent by all present.

—Mr Torrance Jack, local travelling representative of the Peterborough Cordage Company, who resides in Toronto was a guest at the Snowden House on Saturday.

—Mr. Thos. English of Shequiandah, Manitoulin Island, is in the city, visiting Mr. Jas. English, his cousin the veteran manipulator of Peterborough's fire engines.

—Yesterday morning the last mortal remains of Mr. Jas. McGuire, one of the oldest inmates of the House of Providence who passed away Friday were laid to rest.

—Toronto Sunday World says: Mrs R. W. Errett and the Misses Errett, formerly of Peterborough, will be at home at 85 Isabella street, on Dec. 3 and 10, and afterwards on the first and second Mondays.

—Mrs. (Rev.) E. A. Langfeldt, Dr. and Mrs Cameron, and Master Donald, of Peterborough, and Miss Kells of Millbrook, were visitors to Omemee this week and attended the Temple of Fame on the evening of Wednesday.—Omemee Mirror.

Mrs. Wm. Telford's Sudden Death

A most distressing and sudden death occured yesterday on Water street.

It seems that Mrs. William Telford of the 4th line of Smith whilst in the city on Saturday called at the home of some friends on Water St., when she became suddenly very ill. In a very short time she became unconscious and passed away at eight o'clock.

The late Mrs. Telford who was about 43 years of age was well-known in the city and her sudden death will be learned with regret by her many friends. Dr. Grey considers that no inquest is necessary death coming from natural causes.

ATHLETIC WORLD

BY OUR SPORTING EDITOR.

HOCKEY.

Kingston, Dec. 1.—R. M. Mills, secretary-treasurer of the Queen's Hockey Club, has received a communication from the management of Columbia University Hockey Club, which proposes touring Canada during Christmas vacation, asking if it would be possible to arrange a game with Queen's about the 26th or 29th of December.

Work at Royal Bank.

On Saturday the Royal Bank began began action operations on the remodelling of their recently occupied and later acquired additional premises on Hunter street. A staff of workmen removed the plate glass fronts and set the handsome redstone basements and brick work so as to make the front of the conjoined premises uniform in appearance.

Come to Sale at St. Paul's Church Tuesday Afternoon and Evening. Lots of Pretty Xmas Gifts for 25 cents. No admission fee.

Sewer Shuts Off Private Water Supply

Mr. Best has by recent civic sewer extensions had a private supply of most excellent water cut off from his residence, on Antrim street.

It seems that Mr; Best having discovered a natural spring of good water at the corner of Antrim and Aylmer street, piped the same to his house, the natural fall being sufficient to give him pressure to the top story of his home. Unfortunately the construction of the Aylmer street sewer made it necessary to dig below the tank he had constructed at the spring, the result being that the water, instead of continuing through the pipes to Mr. Best's house, ran into the trench, and has been continuing to do so, although the sewer pipes are now covered in, and Mr Best's private water supply is shut off. This is quite a deprivation as it flowed summer and winter However the city must have sewers.

Lay Reader in St. John's.

Last night a most instructive and eloquent service was delivered in St. John's church by Mr. Cleal, a lay reader of the church, who resides in Toronto, but is in the city in connection with St. Andrew's brotherhood. The church was crowded and a large number of men were present.

Nature's Way is Best.

The function strengthening and tissue building plan of treating chronic, lingering and obstinate cases of disease as pursued by Dr. Pierce, is following after Nature's plan of restoring health.

He uses natural remedies, that is extracts from native medicinal roots, prepared by processes wrought out by the expenditure of much time and money, without the use of alcohol, and by skillful combination in just the right proportions.

Used as ingredients of Dr. Pierce's Golden Medical Discovery, Black Cherry-bark, Queen's root, Golden Seal root, Bloodroot and Stone root, specially exert their influence in cases of lung, bronchial and throat troubles, and this "Discovery" is, therefore, a sovereign remedy for bronchitis, laryngitis, chronic coughs, catarrh and kindred ailments.

The above native roots also have the strongest possible endorsement from the leading medical writers, of all the several schools of practice, for the cure not only of the diseases named above but also for indigestion, torpor of liver, or biliousness, obstinate constipation, kidney and bladder troubles and catarrh, no matter where located.

You don't have to take Dr. Pierce's say-so alone as to this; what he claims for his "Discovery" is backed up by the writings of the most eminent men in the medical profession. A request by postal card or letter, addressed to Dr. R. V. Pierce, Buffalo, N. Y., for a little book of extracts from eminent medical authorities endorsing the ingredients of his medicines, will bring a little book free that is worthy of your attention if needing a good, safe, reliable remedy of known composition for the cure of almost any old chronic, or lingering malady.

Dr. Pierce's Pleasant Pellets cure constipation. One little "Pellet" is a gentle laxative, and two a mild cathartic.

The most valuable book for both men and women is Dr. Pierce's Common Sense Medical Adviser. A splendid 1008-page volume, with engravings and colored plates. A copy, paper-covered, will be sent to anyone sending 21 cents in one-cent stamps, to pay the cost of mailing only, to Dr. R. V. Pierce, Buffalo, N. Y. Cloth-bound, 50 stamps.

St. Andrew's Boys' Guild Elects Officers

The Boys' Guild, in St. Andrew's lecture hall have elected the following officers for the ensuing year, as follows:

Honorary President—Rev. J. G Potter

Drill Instructor —Lieut. T. J. Wallace.

President—Wilfrid Fortye.

Vice-Presidents — Norman Laing, Roy Brand, Charles Thornton.

Secretary—Ernest Thornton.

Treasurer—Grant Potter.

Councillors — Vernon Henry, Sherlock Thornton.

Curators — Willie Davidson, Roy Brand, Norman Laing.

Membership Committee — Mitchell Hart, Willie Grimson.

Social Committee — Carvle Potter, Norman Brand, Orville Moore.

To Be Pastor in Minneapolis.

Rev. W. H. Nugent, a former Omemee resident and a relative of Mr. John Nugent, of this city, has accepted a call to the Fifth avenue Congregational church of Minneapolis, Minn. Nugent, was brought up a farm in Omemee, Ont., in 1877, and is a graduate of Albert College.

WEDDING STATIONERY

WEDDING ANNOUNCEMENTS are always in order. The season for the final result of being a disciple of Cupid finds expression in the Hymeneal ceremony at the altar—that occasion when "two hearts that beat as one" are joined together—pronounced one.

For this auspicious occasion the printing must be chastely dignified—must be appropriate in appearance to this one time of life when everything "best" is donned—when happiness reigns supremely.

Marriage Announcements
Marriage Invitations
Marriage Reception Cards
Post Nuptial Reception Cards

All of these we are able to supply in a proper form and printed artistically. Our work is conducted under the supervision of skilled typographical mechanics and may be unhesitatingly presented to the most fastidious critic.

Our charges for such work are moderate—yet good printing is ever valuable. However, we give quality for our figures, and an order entrusted to our care will be speedily, carefully and satisfactorily executed.

No work can be well done which has to be done hurriedly. Time is necessary for the accomplishment of faultless printing. We will fulfil all expectations if given ample time for completion.

City Council in Session Till After Midnight---Two Inspectors.

The City Council met in regular monthly session last night, when there were present, Mayor Henry Best, and Aldermen Johnston, Tovey, Hicks, Mason, Elliott, Graham, Hall, Duncan, McIntyre, McWilliams, Adams and Wilson.

The minutes of the preceding meeting were read and confirmed.

COMMUNICATIONS.

Tax Collector W. J. Greer submitted his monthly statement as follows:

Total amount on roll $125,742.68
Total amount deposited ... $116,0.0.83
$9,381 85

Amount taken in and deposited during Nov. $2,157.66
From ratepayers asking for an arc lamp on George street, at the intersection of Dalhousie street. —Referred to the Fire, Water and Light Committee.

From O'Connell & Gordon, re claim of the Hespin estate in connection with George street extension. —Referred to Board of Works.

From O'Connell & Gordon, enclosing a writ for damages for injuries received by Mrs. Margaret Gordon by reason of a fall on Dickson street.—Received.

From City Solicitor E. H. D. Hall, re extension of George street.—Received.

From T. G. Quartermaine, secretary Board of Trade, enclosing resolution passed by the Board at their last special meeting re filtration of water, and charge of frontage tax on all property fronting water mains.—Referred to the Water Commissioners to consider the question and make some suggestion to the Council.

From the Dickson Co., asking that Hunter street, from Dalhousie street to Babb's lane, including cement sidewalk, and that name of street be changed to Gordon avenue.—Referred to the Board of Works.

From medical practitioners of the city, endorsing D. Berggren as caretaker of the Dan Spence ambulance.—Received.

From the Canadian Dairymen's Association, asking for particulars re accommodation around this district this autumn up to making a large amount may show in the city of Peterborough, during the winter of 1906-8.—Referred to the Finance Committee to report at next regular meeting of the council.

From Joseph H. Thompson, Jr. C. E., asking for rate to this city, general cost, boilers, engines, etc., now being put in at pumping station.

From H. W. Bambrick, enclosing copy of deed of land to Corporation for the extension of George street south.—Board of Works.

From Rutter, Boswell & Goodwin, stating that Mr. J. L. Hughes seeking damages for injury to his property by reason of the turn out of the street railway on Park street.—Referred to the city solicitor, to advise as to the city's liability in this matter.

From Wm. Gray, applying for position of milk inspector.—Referred to special committee in charge of this matter.

From S. R. Armstrong, enclosing copy of resolution of the Board of Health, re duties of proposed sanitary inspector.—This matter will be dealt with by the incoming council.

From City Treasurer Felix Browncombe, resigning his position to take effect January 1st next.—Received.

From F. E. Bell, applying for position of City Treasurer.—Received.

From secretary Board of Health, enclosing plans for isolation hospital.—Received.

From Chas. A. Stenton, Concession street, applying for position of sanitary inspector.—Board of Works.

From Dumble & Johnston, on behalf of Rebecca Hartley, 52 Murray street, who objects to cutting down of Murray street in front of her property, which she claims would thus be injured to the extent of $3,000.—Referred to the Finance Committee.

DAN SPENCE AMBULANCE.

Ald Adams presented the report of the Fire, Water & Light committee, which amongst other things recommended that Mr. A. Comstock have the care and service of the Dan Spence ambulance at a salary of $100 a year. He moved the adoption of the report.

Ald. Elliott moved in amendment, seconded by Ald. McIntyre. — That the clause recommending Mr Comstock as caretaker of the ambulance be struck out, and that Mr. Belleghem have the care of this ambulance as heretofore.

Mr R. E. Wood was present in the interest of Mr. Belleghem, and was permitted to address the council. He pointed out that Mr. Comstock in order to secure Mr. Belleghem's position as caretaker of the ambulance, submitted a tender for $100. Mr. Belleghem knew of this from some source, and accordingly was induced into reducing his tender from $200 as last year to $100 which any one can readily understand is not in anyway commensurate with the service rendered. Mr. Wood then went into the charges laid against Mr. Belleghem of unjustly charging policemen for service rendered which he characterized as merely absurd, and he (Mr. Wood) having kept within his contract. Mr. Belleghem, however, admitted charging the police for the contract two years ago, when he was outside his one mile limit into Otonabee or a patient, but this case was disposed of then by the City Council when renewing Mr Belleghem's contract, it was not a matter for this council to take into consideration. Three of the other cases, all in the year 1904, were undertaken by Mr Belleghem at the request of physicians, when a third was that of a man so seriously injured on the Chemong road, that it was a case of life or death that the injured man should be brought into the city at once, and two physicians and the chief of police urged Mr Belleghem to undertake the duty.

Mr. Comstock here pointed out that one doctor would not sign the declaration of Mr. Belleghem sent in by a number of physicians on the ground that he could not honestly do so

Ald Duncan here claimed that the city has no right to have a caretaker specifications showing of a responsible party being in charge of service to ambulance and not only that Mr. Belleghem had given good service, and he did not wish to injure his interests in any way, but Mr. Belleghem had doctored him up the press to state the time where he had illegally charged policemen for the ambulance, and in defence of himself he had taken up the challenge and named five cases. As to the Cooney case referred to by Mr Belleghem, who states that he never removed Mrs Cooney, and her husband could not have prevented him from making a charge as he was dead, Ald. Duncan reminded that Mr. Cooney has not been dead two years till January 7th, and the only mistake on his part in the matter was that it was Miss Cooney, sister of Mrs Cooney, who was the patient alluded to. Ald. Duncan then went on to say that he had not interviewed Mr. Comstock before moving that he be awarded the contract for service of the ambulance. And when Mr. Belleghem unassumingly remarked that he (Ald. Duncan) was painting a house of Mr. Comstock's, he forgot that his men were at the same time engaged on the premises of Mr. Belleghem.

A.d. Hicks offered that Mr. Belleghem, who has always been careful when no new complaints are made after three years' service. He thought it might be fair to set both Mr. Belleghem and Mr. Comstock have the contract six months each; but at a fair price, which $100 cannot be admitted to be.

Both the interested undertakers expressed their willingness to have the specifications adopted where provision is made for a reliable courier being made of conveyance of a stranger to or from the hospital.

A.d. Adams moved the adoption of the report as read, seconded by Ald. Graham

A.d Elliott moved, seconded by Ald McIntyre, in amendment, — That Mr. Belleghem get the contract.

A.d. McWilliams moved in amendment, seconded by A.d. Wilson, — That the clause be struck out and the matter be referred back to the Fire, Water and Light Committee with power to act.

The vote on these measures resulted on a deadlock, all motions being lost.

A.d. Johnston thought the matter should be referred back to the committee to meet both Mr. Belleghem and Mr Comstock, and to report the result of such meeting to the council. He argued that a fair price should be paid for service of this ambulance, and offered that each of the tenderers have the contract for 12 months, turn and turn about.

His Worship here relieved the deadlock by suggesting that this question be referred back to the Fire, Water and Light Committee, to report to the council. This was acquiesced in.

QUESTION OF TWO INSPECTORS

A.d. Hicks submitted the Board of Works report, which included the recommendation that Alexander Fitzgerald be appointed a permanent street inspector at a salary of $700 a year.

A.d Ball objected to the maintenance of two inspectors, for work he claimed could be done by one street inspector. He moved, seconded by A.d. Duncan that this clause be struck out.

A.d Hicks explained that the maintenance of two inspectors only meant a question of $510 a year paid in salaries. Then they were needed to see that the walks are kept clear of snow in winter. It is utterly impossible in a city like Peterborough for one inspector to thoroughly look after all divisions at once.

A.d Tovey, Johnston and Wilson acquiesced in these views.

A.d. Duncan seconded Ald. Ball's motion mainly on the ground that a dying council should not appoint new officials.

A.d. Ball's motion was lost on a vote of three to nine, and Mr. Fitzgerald is now a permanent street inspector at a salary of $700 a year.

FINANCE REPORT.

Ald Mason submitted the report of the Finance Committee, which recommended that if Mr. F. Adams will accept the position of city treasurer at the salary at present paid and on the same terms, that he be appointed to the position.

The report also recommended that the city clerk be paid $2,000 a year to cover all assistance required in performing the duties of the offices of city clerk, clerk of the police court, secretary Board of Health and secretary of the council committees.

The salary of $2,000 a year for City Clerk Armstrong, includes the payment by himself of his own clerical assistance. This means that he will get for himself $1500 a year, leaving $500 a year for help.

This report was adopted.

OVERHANGING SIGNS.

Mr. Gordon appeared before the council on behalf of Messrs Pappas and Darcy, who are threatened with police court proceedings for having hanging signs on the sidewalks. This is contrary to the by-law, but his clients were ignorant that such a law prohibiting overhanging signs was in force, until so apprised by the chief of police. On motion of Ald. M. Williams, seconded by Ald. Ball this matter was referred to the Board of Works, the police to take action in the meantime.

CEDAR STREET SEWER.

A deputation, headed by ex-Ald. Crow, waited upon the council, asking that the remainder of Cedar street sewer be constructed by day labor, Mr. Strachy, the contractor, having refused to continue the work. The Board of Works were given power to act in this matter.

COLLEGIATE INSTITUTE BYLAW

Ex-Ald Murrison was present on behalf of the School Board, and asked that the by-law asking for an additional $21,000 for new Collegiate Institute purposes be submitted at the January elections. This was acquiesced in.

RESIGNATION ACCEPTED.

A.d. Mason moved, seconded by Ald. Tovey,—That the council accept the resignation of Mr. Felix Browncombe, city treasurer, to take effect December 31st, 1906 and that in doing so we desire to give expression to Mr. Browncombe, and to place on record our appreciation of the very efficient service he has given during the term of seven years that he has held that position; and of the pleasant and courteous manner in which he has performed the duties of his office, and to express our regret that he decided to resign.—Carried.

BYLAWS.

The following bylaws passed their first and second readings:

Rapid Tool Co.'s bylaw.

By-law to borrow an additional $21,000 for erecting and equipping a new Collegiate Institute.

A by-law to provide for raising $13,850 for reconstructing and repairing bridges passed its first and second readings.

A by-law to provide for borrowing $8,000 for drainage purposes in various three, four and five, and to provide that all future payments under by-law 688 by general tax passed its first and second readings.

A by-law to provide for borrowing $1500 to construct a main sewer on [illegible] Smith to Aylmer streets, passed its two readings.

A.d. Mason submitted a bylaw appointing Mr. Frank Adams treasurer of the city. A.d Tovey seconded the by-law, which carried.

A by-law authorizing the execution of contracts for [illegible] now being passed its several readings. The following men have the contracts:

Southeastern district —Alex O'Brien, $145

Northeastern—Henry Savoy, $100.
Northern—Jas. Larone, $225
Northwestern — E. Archambault,
Western—J. W. Hales, $149.
Southern—Robt. Nicholls, $139.

A by-law appointing Alex. Fitzgerald street inspector, passed its several readings. His salary to be $700 per year.

A by-law to fix the salary of the city clerk at $2,000 a year, he to pay for his own help, which will amount at least to $500 a year, passed its three readings.

A by-law to appoint polling places for the coming elections passed its its several readings.

A by-law sanctioning the laying out of avenues through the McFaster property, east ward, passed its three readings. The city will not be able in any way for the maintenance of these avenues, which are for residential park purposes.

RESIGNATION OF ALD. ADAMS.

Ald. Adams tendered his resignation as alderman, he having expressed his willingness to accept the position of city treasurer.—Received.

ALD. JOHNSTON CHAIRMAN

Ald. Tovey moved, seconded by Ald. Mason.—That A.d. Johnston assume Ald. Adams' position as chairman of Fire, Water and Light Committee for the balance of the year.—Carried.

MOTION OF APPRECIATION.

Ald. Graham moved, seconded by Ald. Elliott. —That this council express its appreciation of the services rendered by Mr. Frank Adams as alderman and chairman of several important committees, and its regret for his resignation, and its pleasure that his services are to be retained by the municipality.—Carried.

BOOTS FOR DRIVERS.

A.d. Elliott moved that two pair of rubber boots be purchased for the drivers in the firehall.—Carried.

QUESTION OF LIGHTS.

Ald. Duncan asked that the arc light be moved from the creek on Dalhousie street, to the corner of Hunter and George, and that an incandescent lamp be placed between Aylmer and George on Dalhousie.—Carried.

SALARY FOR COMMISSIONERS

A.d. Ball moved, seconded by Ald. Duncan,—That the salary of the Water Commissioners be $200 a year for the chairman, and $150 for each of his assistants, to date from January 1st.

Ald. Wilson said one of the commissioners may be retiring this year, he should be paid for this year's services.

A.d. McIntyre agreed with Ald. Wilson

The mayor pointed out that the retiring commissioner may be re elected.

The motion carried.

Council then adjourned.

PURSUED AND LASSOED RABBI

Farmer Became Infuriated When Jew Struck Cross Dog

QUARREL ENDED IN DEATH

Victim Jerked From Rig and His Neck Broken—Murderer Sent to Jail.

Brockingham, Sask., Dec. 4—A Jewish rabbi was roped and killed by a farmer named Barnes on Saturday, as a result of a quarrel over a dog. The Jew was driving past Barnes house when a dog ran out and snapped at him. He lashed the dog with a whip, and Barnes called to him to cease.

Words passed between them, and the dog was struck again. The farmer became infuriated, and, jumping on a horse, started after the man. He fled, but was overtaken, and caught by a rope. Barnes used a rope like an expert, and lassoed the man while he was driving furiously to escape. He was caught around the head jerked from the buggy and thrown to the ground. His neck was broken, and death followed in a few minutes.

Barnes was arrested and sent to Regina jail.

POLICE NEWS

Daily Happenings in Court Room and Station.

About three o'clock yesterday afternoon some excitement was caused at the corner of George and Hunter streets by a recent arrival in town whose absorption of ozone in the shanties aided by a generous internal application of spiritus frumenti, caused him to get gay. He hid not notice, although given a hint that the eagle eye of the law as soon brough by P. C. Adams and P. C. Mcharry had taken in his condition The officers kindly advised him to go home but "he cased in" not the peace-maker in the case of advising a drunk The wielder of axe, peavy and pikepole tried to pick a scrap with the friend who had given him the tip. He next tried to raise a mature Tipperary fair free fight, with the crowd watching him. To do matters the policemen loaded the pugilistic minded wanderer from the back woods into a delivery cart and provided him with quarters in the Hotel des Cops. He will explain matters at this morning's police court, as well as probably regretting the imbibition of that last dose of Tangle leg.

County Constable Geo. Cochrane went to Young's Point yesterday afternoon to take into custody a man named James Nugent. Who is charged with being insane. It has been considered that Nugent is not a safe person to be at large. He was brought to the city last night, and will likely be committed to the asylum for the insane.

At yesterday's police court, John Clark, of this city, came up before Police Magistrate Dumble, charged with being a vagrant. Clark is a shoemaker by trade, but has for a fortnight been spending the nights at the police station. He was sentenced to six months in the Central Prison

NO MEDICINE

Best Change of Food Gave Final Relief

Most diseases start in the alimentary canal.—Some call it stomach and bowel trouble—the germ having too much starchy and greasy food.

The stomach does not digest any of the starchy food we eat—we bread, pastry, potatoes, oats, etc.—these things are digested in the small intestines, and if we eat too much as most of us do, the organs that should digest this kind of food are overcome by excess of work, so that fermentation, and gestion, and a long train of ills result.

Too much fat also is hard to digest and this is changed into acids, sour stomach, belching gas, and a bloated, heavy feeling.

To these conditions a change from indigestible foods to Grape-Nuts will work wonders in not only relieving the distress but in building up a strong digestion, clear brain and steady nerves. A Wisconsin woman writes:

"About five years ago I suffered with bad stomach—dyspepsia, indigestion, constipation — sometimes I know now, from eating starchy and greasy food.

"A friend recommended Grape-Nuts and I began to use it. In less than two weeks I began to feel better and inside of two months I was a well woman and have been ever since.

"I can eat anything I wish with pleasure We eat Grape-Nuts and cream for breakfast and are very fond of it." Name given by Postum Co., Battle Creek, Mich. Read the little book, "The Road to Wellville," in pkgs. "There's a reason."

ATHLETIC WORLD

BY OUR SPORTING EDITOR.

BASKETBALL.

The basketball game on Friday at the Y.M.C.A. between the Albert College team, of Belleville, and the Arrows of Peterborough, will provide a fast, interesting game and a lively contest is anticipated. There will be a preliminary match between two local teams.

• • • •

THE TURF.

The Times was yesterday informed by a prominent local horseman that he Peterborough Turf Club have decided not to have any more races on the track here, but have handed the track over to the leaseholders. Our informant noted that some of the members of the Turf Club are very dissatisfied with present existing conditions and suggest that either some members of the club or other persons should take hold of the track saying that the leaseholders would of such have the track by paying the rent for the same for the balance of the term, which is one year from January 1907. If this offer is accepted our informant noted that it must be done at once.

• • • •

HOCKEY.

Roy Brown of Brantford, is in the city, and will leave on Saturday for the Soo, where he will manage the International League hockey team this winter. Brown reports that there is a lively rivalry in the professional hockey business this year, owing to the formation of a new professional league.

• • • •

Cobourg has organized a town hockey league, and the following officers were elected, viz.,

Hon. Pres.—J. A. Culverwell.
Hon Vice-Pres.—O. G. Johns.
President—P. C. Clarke.
Vice-Pres.—Tom McIntosh.
Secretary—B. Margrett.
Treasurer—E. Swift.
Managing Committee — T. Margrett, C. Taylor, E. Swift, and E. Jacho.

GOLF.

At the annual meeting of the Peterborough Golf and Country Club a most encouraging report was presented by the secretary-treasurer Mr. W. R. Morris The season just closed has been most successful, and a dividend of five per cent. was declared It is likely that the club house will be enlarged before the golf season opens next year.

The following were elected to form the Board of Directors: Messrs. E. H. D. Hall, Robert Neill, Wm. Campbell, W. H. Bradburn and T. F. Matthews.

The directors will hold a meeting shortly to appoint a president and secretary-treasurer. The retiring president is Mr. Hasen Ritchie.

Palace Barber Shop Occupied

As recently noted in these columns Mr. Rundle the George street barber, some weeks ago took a lease of the Palace Barber shop, at 344 George street Mr. Rundle has now engaged the services of Mr. Bruce Patterson, a first-class workman, who has taken charge of the Palace barber shop, and the public may rely on prompt and efficient service. Mr. Patterson will have able assistants. The Times has already given a detailed account of this magnificently furnished barber shop, which is perhaps The best fitted up in the city of Peterborough.

HAVE YOU CATARRH?

Treathe Hyomel and Get Relief and Cure. Sold Under Guarantee.

If you have catarrh, with offensive breath, burning pains in the throat, coughing, raising of mucous, difficulty in breathing, sneezing, huskiness, discharge from the nose, tickling and dropping at the back of the throat, especially at night, coughing spasms, etc., begin the use of Hyomel at once

Its healing medication will give relief in a few days and its continued use will completely drive all catarrhal germs from the system.

Hyomel contains Nature's healing oils and balsams, the germ-killing properties of the pine forests, and goes with the air you breathe to the most remote cells of the respiratory organs, searching out and killing all catarrhal germs and soothing and healing any irritation there may be in the mucous membrance. It is easy and pleasant to use Hyomel, pleasanter than most of the stomach dosing, as its healing air is breathed through a neat pocket inhaler, which can be carried in the purse or vest pocket, and carries medication to just the stop where relief is needed.

The complete Hyomel outfit costs but $1.00, extra bottles, if needed, 50 cents. We do not want anyone's money unless Hyomel gives relief and cure, and we absolutely agree that money will be refunded unless the remedy gives satisfaction.

All druggists should be able to supply you with Hyomel or we will send it by mail on receipt of price, and every package is sold with the distinct understanding that it costs nothing unless it cures. Write us today for a symptom blank, which we will send you free, together with treatise on Catarrh and how to cure it. When you fill in and return to us the symptom blank, our consulting physician will give your case the best care and attention, and write you a letter of advice without charge. Booth's Hyomel Company, Buffalo, N. Y.

DOCTOR FIGHTS FOR RIGHT TO PRACTICE PROFESSION

Vigorous Reply to Medical Council, Who Shut Him Out

THEIR TREATMENT UNFAIR

Had Not Power to Find Him Guilty of an Alleged Offence.

Toronto, Dec. 4.—In the Divisional Court at Osgoode Hall yesterday afternoon, Dr. Alexander Crichton of Cramahe township, Northumberland county, is appealing from the decision of the Medical Council, dated July 6th, ordering that his name be erased from the register of the College of Physicians and Surgeons. Dr Crichton asks that his name be restored, or, in lieu of that, for a new trial. Mr. W. F. Kerr of Cobourg, is appearing for Dr. Crichton and J. Walter Curry, K.C., and H. S. Osler K.C. for the Medical Council.

Dr Crichton had issued a circular referring to a remedy known as "Grippura," and the Medical Council charged him with advertising and found him guilty of fraud. Incidentally, he was said to be guilty of "disgraceful and infamous conduct." In this connection, Mr. Kerr asks "Is it disgraceful or infamous for a man to support his interests, his sister and himself if a doctor discovers a remedy, and honestly believes in it why should he not advertise it? Is it not more infamous and disgraceful to try to rob the doctor of a right to make a living and support himself and sister?"

Dr. Crichton asks, also for a mandamus requiring Hon Dr. Pyne, registrar, to certify "as part of the proceedings herein the full record of the proceedings that took place before the Medical Council."

Some of Dr. Crichton's allegations are as follows: "The finding of the Discipline Committee, appointed by the Medical Council, was not based on evidence given at the enquiry, but is unsupported by the evidence, and is contrary to the law, and weight of evidence.

"The charge laid and the one Crichton was called on to meet was not the charge issued against him by the Discipline Committee.

"The particulars of the charge furnished Dr. Crichton were indefinite and misleading.

"Crichton was refused a copy of the evidence taken at the first hearing before the Discipline Committee, but it was furnished the counsel for the complainant, Chas. Rose, prior to the second hearing before the Discipline Committee.

"The said hearing, or any other hearing, that the said Crichton has been subject to, is ultra vires of the Medical Council, and a preliminary objection to the jurisdiction of the committee was taken by Crichton's counsel, to analyze the evidence and present it properly before the Discipline Committee.

"The Discipline Committee had not power to find Crichton guilty of an offence he was charged with."

Finally Dr. Crichton's name has been suspended pending this application.

The Light Was Poor Last Night

Last night as subscribers of the Peterborough Light & Power Company, know to their cost, the lamps of that company, for some time, were sometimes about as bright as a ten of candles. Several subscribers called up The Times office to enquire what the trouble was. Three different times it is said that the lack of light was due to the above company asking their power to the Otonabee Co. We are not able to certify to this, but we do know that our night operators were hardly able to get the paper out owing to lack of light, we being on the P.L. & P.Co service

We might note that an employe of the P. L. & P. Co., stated last night that the trouble was due to anchor ice.

Saint Andrew's Church Notes

Last night the Young People's Society of St Andrew's church, met with Mr P. E. Kerr, leader, "Observance and Cowardice" was the subject for discussion.

Today an "at home" will be held from four to six p.m. under the auspices of the Women's Auxiliary and Rosary Auxiliary at Mrs. Kerr's, 784 George street. In the evening the young people are invited, when games, etc., will be provided.

Prayer meeting on Wednesday at eight p.m. Subject, "The Joy of the Lord.—Neh. 8:10

The monthly meeting of the Board of Managers will be held on Thursday evening at eight o'clock.

On Friday evening at eight o'clock the monthly meeting of the Ladies' Aid Society will be held at the residence of Mrs. T. O. Elliot, 113 McDonnel street.

The Quaker Oats Co.

What Was Done at the Looks

As all steamers to and from Peterborough that reach or leave the lower Otonabee and Rice Lake portage must pass through "the locks" it is of interest to learn that Lockmaster William Collins has compiled the following statistics of the lock over which he has charge, for the season of navigation just closed;

Lockages during 1906 — Steamers, 870; barges, 115, rafts, 12

The following statement shows the number of lockages during the past five years;

1902—Steamers, 901, barges, 175; rafts, 24. Total, 1,100.
1903—Steamers, 853, barges, 150; rafts 28. Total, 1,045.
1904—Steamers, 768; barges, 117; rafts, 20. Total, 905.
1905 — Steamers, 776; barges, 179, rafts, 9. Total, 964.
1906 — Steamers, 870; barges, 115; rafts, 12. Total, 997.

The reason for the slight decrease of late years is due to the competition of the newly opened route per the lift lock to the Kawartha Lakes

Aid. E. F. Mason as Water Commissioner

It is generally rumored, and many favorable comments heard thereon, that Ald. E. F. Mason will allow his name to be used as a candidate for water commissioner to succeed Mr. W. H. Moore, whose term is up this year. Should Ald. Mason, who has not yet definitely declared his intentions in this respect, run, he will undoubtedly be a strong candidate owing to his past record and good work done during the years he has worn the halo of city father.

In any case it is feared that the council will lose the valuable services of this gentleman who has honorably and at considerable loss of time to himself, filled the responsible positions of chairman of various committees and alderman.

TIREDNESS MEANS DANGER!

Indicates Faulty Blood and Worn-Out Nerves—Build Up, or Total Collapse will Surely Follow.

When you're tired all day, bothered by trifles, exhausted with nervousness, be sure there is something wrong.

You need bracing up, need more nourishment in the blood, need a powerful medicine to vitalize the nerves and distribute force and staying power to all over-worked organs.

The most marvelous success is Ferrozone, a nourishing tonic so scientific as to be the admiration of every physician. Ferrozone performs wonders for people in poor health; it acts directly on the blood, enriching it with strength and new life that is at once dispatched to all parts of the body. Ferrozone feeds the nerves and vital energies, supplies force, determination and joyous, buoyant spirits.

A case where there was lassitude and lack of strength is told by Mr. David Brown, of post-office box No. 99, Boston, Ont.. "About a year ago my health commenced to fail. My hands and feet seemed always cold. I felt worn-out and exhausted, weak as a little child. My face twitched My limbs and arms commenced to lose their sense of feeling and finally my left side was perfectly numb. All my color left. My appetite ran down. Ferrozone was the first to give me any help. I improved with it very quickly It toned up the blood and started circulation, so that the numbness gradually disappeared. My condition was perfectly cured by Ferrozone, and I have been well ever since. (Signed) "David Brown."

SPECIAL NOTICE—To get satisfactory results be sure you get Ferrozone only. Fifty cents per box or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U. S. A.

PETERBOROUGH, DECEMBER 3 1906

THE ANGLO-FRENCH TUNNEL AGAIN.

Another attempt is to be made to induce the British parliament to pass a bill authorizing the construction of a tunnel under the Straits of Dover, to connect Dover and Calais. The promoters of the tunnel scheme believe that the greatly improved political relations between England and France give them an advantage that none of their predecessors in the great project possessed. They think that the absence of national prejudice and hostility and dread of treacherous invasion will enable the British public to take a calm view of the proposition and approve it as in every way desirable.

The first tunnel bill was offered in parliament in 1882. It was defeated. A like fate overtook tunnel bills introduced at several later sessions. In 1883 the last of the series of bills was offered and withdrawn as useless. Liberals and Conservatives alike have opposed it, and it never had more than a handful of supporters.

The new tunnel bill may be rejected as decisively as those just referred to, but it is admitted that among men of affairs the scheme is now meeting with more favor than formerly. The arguments are not unfamiliar, and chiefly practical and material. The elimination of the terrors of the "channel," with its sea-sickness agonies, and the convenience of not being compelled to change from train to steamer and back again, would stimulate tourist traffic and Anglo-French commerce generally. Through trains would be run from Paris to London, and much time and expense would be saved.

However, the question of what the tunnel would mean in times of war and rumors of war is still considered very serious. It is easy to talk of "flooding it," but, as Lord Randolph Churchill asked in 1882, who would press the button and drown trainfuls of human beings like rats in a sewer?

It is suggested by some English journals that a much better and safer scheme would be to operate turbine ferryboats between Dover and Calais. The train ferry is a demonstrated success in many parts of the world, and would seem to offer a feasible solution of the channel problem. There are no military or "defense" objections to a channel train ferry. Perhaps the rejection of the tunnel bill will give an impetus to the suggested alternative project.

If "taken at the Sneeze Stage" Preventics—a fruitbreme candy Tablet—will surely and quickly check an approaching cold or La Grippe. When you first catch cold—or feel it coming on—take Dr. Shoop's Preventics, and the prompt effect will certainly surprise and please you. Preventics, merely supply the proverbial "cause of prevention." Sold in 5-cent and 25-cent boxes by J. D. Tully.

Kaiser Was Coolly Received in Bavaria

Munich, Dec. 3.—Considerable gossip is heard about the cool treatment of the Kaiser when he was here for the ceremony of laying the foundation stone of the German Museum, Institute for Technology, Technical Improvements and Inventions.

Considerable interest was manifested in the event, as this was his majesty's first official visit to the Bavarian capital for thirteen years.

The empress was accorded a cordial welcome, but the general reception of the imperial guests was not enthusiastic, although popular curiosity and the Bavarian love of festivity were manifest in the large crowds gathered in the streets.

The imperial couple were met at the railway station by the Prince Regent and other princes and the principal court officials. The princesses awaited their majesties at the royal palace, where a quiet luncheon was partaken of.

The streets were prettily decorated mainly under the supervision of prominent artists, the well-known Impressionist and Jugendstil groups being well represented, despite the disfavor in which they are held in august quarters. The artists also arranged a series of symbolical groups and performances at the Royal Opera House.

The visit had no political aspect, but it is important as showing the general feeling in Bavaria towards secularism and the general attitude towards the imperial government, which in the south as in the north is not one of contentment.

The public utterances of the emperor were awaited with much interest, for his majesty's former visit left a very unfavorable impression.

DEAD WATER.

Effect of This Queer Marine Phenomenon Upon a Ship's Speed.

One of the most curious marine phenomena known to seamen is that called by Norwegian sailors "dead water," which, without any visible cause, makes a vessel lose her speed and refuse to answer her helm. The sailor's only definite knowledge of its origin is that it exists solely where there is a surface layer of fresh water resting upon the salt waters of the sea. Several explanations have been advanced by the captains of ships of the effect of dead water, the commonest of which is that the two water layers move in different directions. The true explanation, however, recently offered by Swedish navigators and verified by mathematical calculation and direct experiment, is that in addition to the "resistance waves" at the surface the vessel creates a second line of subaqueous waves between the two strata of water.

The experiment carried out to demonstrate the truth of this theory was an exceedingly pretty one. A large plate glass tank was first mounted on a wooden frame. The tank was then filled to a certain depth with salt water, and a layer of fresh water was carefully poured on to the surface, so that two separate water layers were obtained.

The salt water was blackened with liquid Chinese ink before the water layers were prepared, and in this way the different layers were made clearly visible. A boat model was then towed along the tank and a silhouette of the waves produced was obtained by placing a white screen at a short distance behind the tank. The waves were also photographed by flashlight, and the results showed conclusively that waves actually were set up at the boundary line between the two liquids.

Further experiments were made to verify the sudden loss of speed due to dead water. The boat model was drawn across the tank and the towing string suddenly slackened when the boat was about halfway across. In cases where the tank contained salt water only the boat stopped gradually, moving some boat lengths after the towing string had been slackened. When the tank contained a layer of fresh water resting on salt water, on the other hand, the boat slackened speed quite suddenly and moved only a very short distance.

These experiments, carried out on a small scale, prove conclusively that the difficulties encountered within a dead water zone are really due to the resistance experienced by the vessel in generating invisible waves at the fresh water salt water boundary, although in some particular cases the influence of undercurrents must also doubtless be taken into account.

POINTED PARAGRAPHS.

The most acceptable form of politeness is cleanliness.

Because you say you intend to do a thing it isn't done.

About all some men are good for is to "second the motion."

You may think you are entertaining, but there are people dodging you all the time.

Don't send ten dollar flowers to the funeral of a man whose family is left without any income.

The man in a dangerous location never thinks he is in a dangerous location or he wouldn't be there.

The owner of a horse and buggy tries to be modest, but he can't help showing that he feels a little superior.

The first insurance against trouble that children learn about is to get a promise from mother that she will not tell father.

On Their Way.

During a newspaper men's convention, a number of journalists were one afternoon talking of the tricks of "the faithless types," when Henry Watterson said:

"While I've heard of a great many funny typographical breaks in my time, about the oddest and most humorous transposition of the types that ever came within my observation was that in a New York paper some years ago. That sheet used to print its shipping news on the same page with the obituaries. Imagine the glee with which its readers found the captions exchanged one morning, whereby a long list of respectable names were set forth under "the marine head 'Passed Through Hell Gate Yesterday.'"

Bank Robber Ends Life With Bullet

Troy, Kan., Dec. 3.—Realizing that he was about to be captured in an unsuccessful attempt to rob the State Bank at Bendena, Kan., yesterday, J. W. Harris, a farmer, shot himself to death.

Harris entered the bank and commanded the cashier and clerk to throw up their hands. He then ordered them to pull down the window blinds and lock the doors. One went behind the counter, ostensibly to pull down a window curtain, and escaped through a back door. As he ran out of the door Harris fired one shot at him, but without effect.

Fearing capture, Harris calmly gazed at the cashier a moment and then killed himself.

How He Got His Cherries.

We hear a lot nowadays of the scarcity of farm labor, and of the dilemma in which farmers find themselves to secure the gifts of a bounteous Providence. But The Clinton New Era caps the climax with a story, which is too good not to reproduce: "A good joke is told at the expense of one of Clinton's independent gentlemen, who having made provision for the picking of his cherries with a certain person who afterwards found it impossible to fulfil his contract, went into the orchard, cut the valuable tree down, stripped it of its heavily-laden limbs, and proceeded to pick fruit 'under the shade of the old apple tree.'"

A Secret

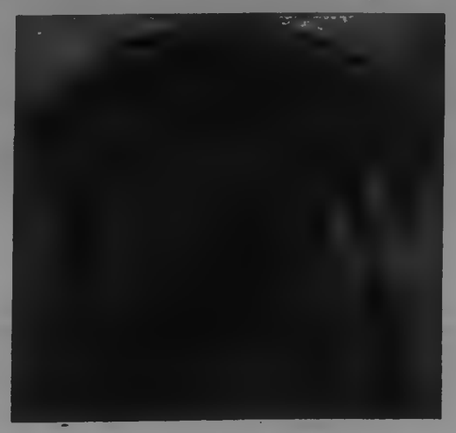
It aids nature a little, that's the only secret about it. We refer to Ayer's Hair Vigor. It feeds the hair, makes the scalp healthy. The hair stops falling out and all dandruff disappears. The result could not be different, for it's the natural way. And it is a splendid dressing, keeping the hair soft and smooth. Why not save what hair you have and get more at the same time? J. C. Ayer Co., Lowell, Mass.

9,600 FEET

Sixty six mining claims.
A crosscut tunnel now in 4,000 feet.
5,600 feet of drifts, shafts and laterals.
A complete 750 h.p turbine electric power plant.
Numerous Veins Explored.
A Big Industrial and Mining Proposition Combined.
A Strong Directorate.

This is real mining.

The Palmer Mountain Tunnel and Power Company has 66 lode mining claims back of it on Palmer Mountain, near the Town of Loomis, Okanogan County, Washington—about 12 miles south of the boundary of British Columbia. A new railway line is nearly completed and will run within 12 miles of the property. Steamers ply on the Okanogan River to within 22 miles of our properties. There is water—not only for mining purposes, but with unlimited possibilities for power generation. There is timber, there are large, well defined veins proved at great depth—and there is development enough done to make this one of the biggest and best mining propositions in the country.



INTERIOR OF TUNNEL

We can do more with $10 ore on our properties than the desert miners can do with $40 or even higher grade ore. We can make money because we have the FACILITIES on our ground. Our ore can be mined, milled, cyanided and bullion produced for not exceeding $3.50 a ton.

Our immense crosscut bore—a picture of which we show herewith—is now in 4,000 feet, is 9 by 9 in the clear (as large as any of the big transportation and drainage tunnels), and is well timbered, equipped with track, ore cars and everything else essential. In the picture shown herewith, the large pipe running at the top of the right side of the tunnel, is for ventilation purposes and connects with a large, powerful blower.

Recent development on the mountain proves that we shall open up at tunnel level (2,500 feet beneath the surface) an enormous body of copper ore.

We have opened up much $10 ore, and we have a higher grade running up to $50 a ton. This is where the big profit comes from. In the nearly TWO MILES OF WORKINGS we have all the facilities for handling a very large production. Back of it all we have a capable mining and business management. We should be very glad to tell you the complete story. We can only hint at it here.

COLORADO SPRINGS, COLORADO

DARREL of THE BLESSED ISLES

By IRVING BACHELLER,

Author of "Eben Holden," "D'ri and I," Etc.

COPYRIGHT, 1908, BY LOTHROP PUBLISHING COMPANY

A while after dark one could hear a sound of sleighbells in the distance. Away on drifted pike and crossroad the bells began to fling their music. It seemed to come in rippling streams of sound through the still air, each with its own voice. In half an hour countless echoes filled the space between them and all were as one chorus, wherein, as it came near, one could distinguish song and laughter.

Young people from afar came in cutters and by the sleigh load; those who lived near, afoot with lanterns. They were a merry company, crowding the schoolhouse, laughing and whispering as they waited for the first exhibit. Trove called them to order and made a few remarks.

"Remember," said he, "this is not our exhibition. It is only a sort of preparation for one we have planned. In about twenty years the Linley school is to give an exhibition worth seeing. It will be, I believe, an exhibition of happiness, ability and success on the great stage of the world. Then I hope to have on the programme speeches in congress, in the pulpit and at the bar. You shall see in that play, if I mistake not, homes full of love and honor, men and women of fair fame. It may be you shall see, then, some whose names are known and honored of all men."

Each performer quaked with fear, and both sympathy and approval were in the applause. Miss Polly Vaughn was a rare picture of rustic beauty, her cheeks as red as her ribbons, her voice low and sweet. Trove came out in the audience for a look at her as she read. Ringing salvos of laughter greeted the play and stirred the sleighbells on the startled horses beyond the door. The programme over, somebody called for Squire Town, a local pettifogger, who flung his soul and body into every cause. He often sored his knuckles on the court table and racked his frame with the violence of his rhetoric. He had a stock of impassioned remarks ready for all occasions.

He rose, walked to the center of the stage, looked sternly at the people and addressed them as "fellow citizens." He belabored the small table; he rose on tiptoe and fell upon his heels; often he seemed to fling his words with a rapid jerk of his right arm as one hurls a pebble. It was all in praise of his "young friend," the teacher, and the high talent of Linley school.

The exhibition ended with this rare exhibit of eloquence. Trove announced the organization of a singing school for Monday evening of the next week, and then suppressed emotion burst into noise. The Linley schoolhouse had become as a fount of merry sound in the still night; then the loud chorus of the bells, diminishing as they went away and breaking into streams of music and dying faint in the far woodland.

One Nelson Cartright—a jack of all trades they called him—was the singing master. He was noted far and wide for song and penmanship. Every year his intricate flourishes in black and white were on exhibition at the county fair.

"Waal, sir," men used to say thoughtfully, "ye wouldn't think he knew beans. Why, he's got a fist bigger'n a ham. But I tell ye, let him take a pen, sir, and he'll draw a deer so nat'ral, sir, ye'd swear he could jump over a six rail fence. Why, it is wonderful!"

Every winter he taught the arts of song and penmanship in the four districts from Jericho to Cedar hill. He sang a roaring bass and beat the time with dignity and precision. For weeks he drilled the class on a bit of lyric melody, of which a passage is here given.

"One, two, three, ready, sing," he would say, his ruler cutting the air, and all began:

Listen to the bird and the maid and the bumblebee,
Tra, la la la la, tra, la la la la;
Joyfully we'll sing the gladsome melody,
Tra, la la la la.

The singing school added little to the knowledge or the cheerfulness of that neighborhood. It came to an end the last day of the winter term. As usual, Trove went home with Polly. It was a cold night, and as the crowd left them at the corners he put his arm around her.

"School is over," said she, with a sigh, "and I'm sorry."

"For me?" he inquired.

"For myself," she answered, looking down at the snowy path.

There came a little silence crowded with happy thoughts.

"At first I thought you very dreadful," she went on, looking up at him with a smile. He could see her sweet face in the moonlight and was tempted to kiss it.

"Why?"

"You were so terrible," she answered. "Poor Joe Beach! It seemed as if he would go through the wall."

"Well, something had to happen to him," said the teacher.

"He likes you now, and every one likes you here. I wish we could have you always for a teacher."

"I'd be willing to be your teacher always if I could only teach you what you have taught me."

"Oh, dancing," said she merrily. "That is nothing. I'll give you all the lessons you like."

"No, I shall not let you teach me that again," said he.

"Why?"

"Because your pretty feet trample on me."

Then came another silence.

"Don't you enjoy it?" she asked, looking off at the stars.

"Too much," said he. "First, I must teach you something, if I can."

He was ready for a query if it came, but she put him off.

"I intend to be a grand lady," said she, "and if you do not learn you'll never be able to dance with me."

"There'll be others to dance with you," said he. "I have so much else to do."

"Oh, you're always thinking about algebra and arithmetic and those dreadful things," said she.

"No, I'm thinking now of something very different."

"Grammar, I suppose," said she, looking down.

"Do you remember the conjugations?"

"Try me," said she.

"Give me the first person singular, passive voice, present tense, of the verb to love."

"I am loved," was her answer as she looked away.

"And don't you know I love you?" said he quickly.

"That is the active voice," said she, turning, with a smile.

"Polly," said he, "I love you as I could love no other in the world."

He drew her close, and she looked up at him very soberly.

"You love me?" she said in a half whisper.

"With all my heart," he answered. "I hope you will love me some time."

[illegible] came together.

"[illegible] you now to say that."

Catarrh of the nose and throat should lead you to at least ask us for a free trial box of Dr. Shoop's Catarrh Cure. Nothing so surely proves merit as a real, actual test—and Dr. Shoop, to prove this, earnestly desires that we let you make that test. This creamy, Snow White healing balm, soothes the throat and nostrils, and quickly purifies a foul or feverish breath. Call and investigate. J. D. Tully.

Royal Duke Wanted to Visit Dominion

London, Dec. 3.—The Canadian Associated Press has it from the most reliable authority that the Duke of Connaught, when the tour in the Far East was first proposed, expressed an earnest wish that Canada should be included in his tour, and Canada was put on the program of the tour, but later it was found that other engagements would prevent such an extended trip. So the visit has been postponed.

"In fact," said the Canadian Associated Press informant, "Japan is not even included in the tour. You may say that his Highness looks back with the most pleasant recollections of his sojourn in Canada, and hopes some day again to meet his old friends there."

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even-numbered section of Dominion Land in Manitoba or the Northwest Provinces (except 8 and 26) not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $20 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 15 0x1500 feet. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent. collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

ADVERTISE IN THE TIMES.

OUR ZINC COMPANY IS DIFFERENT

Holders of Preferred Stock have a priority lien upon all property until they have received in dividends the par value of their holdings.

Combines the safety of a government bond with the speculative element of a gold mine.

Capitalization is low, only $50,000.00; 200,000 shares are made preferred stock, and placed in the treasury by charter provision. This stock is protected to the complete exclusion of the common stock, until it has earned in dividends an amount equal to its par value.

Zinc mining is the safest, the cheapest, and the most profitable in the realm of mining.

The great Southwestern Lead and Zinc District is the greatest in the world. More than 500 paying mines are located in this district. The Empire Zinc Mine has paid dividends of 250 per cent. The Enterprise Lead and Zinc Mine has paid 350 per cent. and its stock is worth seven times its par value. The Northern Arkansas mineral region is a part of this famous District. The ores from Lawrence and adjoining Counties, Ark., were awarded the Bronze Medal at the late World's Fair, at St. Louis, Mo., U.S.A. Some of these ores were taken from the land where is now located the group of New Era Mines belonging to our Association.

If you want to get in with a live company where things are moving, come with us. Write today. You must act quickly. It is the opinion, and believed by experts and miners, that within a few months our company will be paying large dividends. Development work now done has brought our miners into a zone which is yielding rich ore, and every indication points to an immense deposit of zinc.

We have the mines. We have the ore. We need a concentrating plant for the treatment of this ore. Were it not that we consider it better business policy to sell a block of preferred stock and purchase an equipment of machinery at once than to wait and have our ore treated by custom mills, NOT ONE DOLLARS WORTH OF THIS STOCK WOULD BE OFFERED FOR SALE.

Write to us today for full information.

TIMES BOOKSTORE

Opposite RICHARD HALL & SON, PETERBOROUGH

FORTY-FIVE YEARS AGO.

First Street Railway Was Built in Toronto—Grand Celebration Marked Running of First Cars.

Forty-five years ago the first Canadian street railway was opened in Toronto, says The Toronto Telegram of Sept. 11.

On the afternoon of Tuesday, Sept. 10, 1861, all Toronto was out to see the first horse cars come down Yonge street from the Yorkville Town Hall to St. Lawrence Hall—the present market.

Before the advent of the horse cars Torontonians had been getting about in cabs—had been doing so, in fact, from 1837, when the first cab built in Upper Canada was turned out to the order of Thornton Blackburn. Cabs and buses reigned supreme till on Oct. 1, 1860, the City Council received a communication from a man named Easton, offering to build a street railway.

There was then no railway in Toronto, Montreal or Quebec. Easton was a stranger, and the Council looked at the proposition askance. Mayor Bowes was presiding in that year. The question was much discussed; a lot of cold water was thrown upon the scheme, and finally a committee of the Council was appointed to look into it. Easton, the promoter, was an Englishman who had done some street railway building in the United States. The Toronto City Council finally agreed to co-operate with him, and with the help of Montreal and Quebec they obtained the first Street Railway Act ever enacted in Canada. On March 19, 1861, the contract with Easton was sanctioned. He was to build the road at his own expense.

There Was a Hitch.

At the contract stage there was a delay of several months, and people began to look upon the promised street railway as they now look upon the Yonge street bridge. Unlike the bridge however, the railway finally arrived. In August, 1861, Easton, who was to be president of the road, with Alexander Blakely as superintendent put his gangs to work. He put two hundred men at work on the construction of the road. His castings, etc., he got in Toronto, but the rails and cars came from Philadelphia. In three weeks the line from Yorkville to the market was ready for use and the cars had arrived. They were described at the time as neat, well lighted and well ventilated. The larger cars seated 24 people and the smaller 16. Of the strap-holding capacity no record has been kept. There were seven of these cars altogether, but some of them went on to Montreal, that city hurriedly following Toronto's lead and going into a contract with Easton.

Great Celebration.

As the time approached for the opening of the street railway, preparations were made for a great celebration of the momentous event. Advertisements were circulated to the effect that the opening of the road would be the occasion for a grand festival. It was to take place, and did take place, at Yorkville, then a separate village, and was held under the patronage of the Mayor, Hon. G. W. Allan, Col. Mauleverer, C. B., of the 30th Regiment, Rev. Dr. McCaul, J. B. Robinson, M. P. P., John Crawford, M. P. P., Hon. George Brown, Doctor Connor, M. P. P., the Reeve of Yorkville, Chief Justice Draper, Hon. John Ross, Hon. J. C. Morrison, Hon. J. C. Recorder, Lieut.-Col. Jarvis, Lieut.-Col. Durie, D. L. McPherson and F. Wider.

Dejeuner and Concert.

The arrangements for the festival included provision for a "grand dejeuner" to be held in Rosedale east of Yorkville at 2 o'clock. The tickets for this were fifty cents and could be purchased at the Terrapin and Fountain restaurants and at the Albion Hotel. A grand concert was provided for the evening in the Yorkville Town Hall. The artists included Messrs. John Cartier, Noverre, Andrews, Cooper, McCarrell, Armstrong and Etrick, and Mrs. J. Beverley Robinson and Miss Davies. "And," said the printed notices, "several other distinguished amateurs have consented to render their valuable assistance."

Also a Ball.

After the concert — and all because of the new horse cars—there was a ball, engineered largely by the officers of the 30th Regiment.

When the day arrived, the village of Yorkville was decked out in flags and banners. The first car was to run at one o'clock and the service was to be continued all day and all night. At the last minute it was found that the newly-constructed line was not clear, and it was not till four o'clock in the afternoon that the first car started down Yonge street. It will thus be seen that street cars nowadays have a precedent for violating schedules.

It Left the Track.

The first car had in it the Yorkville and Toronto councillors, and a band perched on the roof. The intention was that there should be no other passengers, but the exultant crowds promptly made a rush for the car and "piled in." Away went the car. It got to the Toronto boundary line and went off the track. The passengers got out and pushed it on again. The other cars behaved similarly, and running off the track became one of the features of the day.

Cheers and Music.

Cheers and music followed the triumphant course of these first cars, and down at the market everybody sang "God Save the Queen."

All the rest of the program went off without a hitch. The "grand dejeuner" was held, with Col. Jarvis presiding. Toasts were drunk, speeches made, and the street railway was declared open. That was the beginning of what we have now.

Northern Experimental Station.

Hon. Nelson Monteith, Minister of Agriculture for Ontario, has returned from the trip to New Ontario. The Minister went up as far as Iroquois Falls, 454 miles from Toronto. He located a site for the proposed Government experiment or demonstration station, about 440 miles north from Toronto. It was about midway between the northern and southern bounds of the surveyed country. The idea of the establishment of the Government station was to prove the suitability of the country for growing cereals, and later on experiments would be made with hardy fruits.

Paid For the "Von."

Either in an unguarded moment or with premeditation Herr Georg Grull of Coburg signed his name "von Grull" and was straightway taken to court charged with false pretenses and asked to produce documentary evidence justifying his appropriation of the "von." The best he could do was to display an ancient hatbox which contained the "von" in gold letters. The hatbox had belonged to his father. The evidence was not accepted, and, his father being dead, Herr Georg was fined 500 marks for "falsely assuming a title to which he had no right."

LITTLE NIPISSING

The Best in Cobalt is Not Too Good for You to Buy

All the large profits in Cobalt have been made on strictly inside properties. LITTLE NIPISSING SILVER COBALT MINING COMPANY, LIMITED (No Personal Liability) owns the famous J. B. 2 property, comprising thirty-eight acres in the very heart and centre of the richest producing portion of the camp. It is surrounded on three sides by the original Nipissing, the McKinley-Darragh-Savage, the Temiskaming and Hudson Bay and Silver Queen propreties, and is believed to have the same system of veins. Authorised Capital only $650,000. Par Value of shares $1.00 each Fully Paid and Non-Assessable.

OFFICERS AND DIRECTORS ARE:

SEVRIN FERLAND, Cobalt, mining man, former part owner of the original Nipissing Mine, and part owner of the O'Brien Mine; P. J. FINLAN, Cobalt, mining man and Mayor of Cobalt; ROBERT B. YOUNG, Toronto, of the Crown Bank of Canada; ATWELL FLEMING, Toronto, of the Atwell Fleming Printing Company; ROBERT RAY, Toronto.

BANKERS:

Bank of Montreal, Toronto; Imperial Bank, Cobalt, Ontario.

SOLICITORS:

Clark, McPherson, Campbell & Jarvis, Toronto.

This is a proposition of extraordinary merit and exceptional possibilities for large profits. It is in the same class as the properties that surround it, and is believed to be as good as any of these, and that an investment in the stock at the starting price will prove as profitable as did investments in its neighbors.

FIRST OFFER OF STOCK

We own and offer for sale a small amount of this stock at par, $1.00 per share.

TERMS OF SALE

All orders must be accompanied by remittance in full for the number of shares wanted. Each order will be filled as received until allotment is sold, and remittances received thereafter will be promptly returned to the sender.

Further particulars furnished on application.

FIRE THE BEST FILTER.

Boiling Water the Surest Way to Get Pure Water.

"All this talk about the need of filters, about people dying for lack of filtered water, amuses me," said a chemist. "For filtered water isn't necessarily pure water. Boiled water is a hundred times better.

"A filter, you see, does not free water from things dissolved in it, but only from things floating in it. For instance, if you mix a quart of whisky in a gallon of water and then filter the mixture it will come out colorless, the floating color particles having been left behind, but this colorless fluid will be quite as capable of intoxicating you now as it was before, for none of its dissolved alcohol will have disappeared.

"So with water that is polluted with sewage. All the undissolved portions of the sewage are removed by filtration and the water is left clear, tasteless and colorless, but the dissolved sewage is still present and in it may lurk billions of typhoid germs.

"Let those who complain about the lack of filters just turn in and boil their water. A cent's worth of fire will purify a gallon of water better than a $10,000,000 plant could do it."—St. Louis Globe-Democrat.

Pressing Sleeve Seams.

For pressing the seams of a sleeve procure a three-quarter round, short length of lumber. Pad it and cover with a piece of white ironing cloth. This furnishes a firm base for the pressing, which is utterly lacking in the customary broom handle.

Sofa Pillows.

The best sofa pillows are covered with waxed cotton. This is done by ironing the inside of the cover with a hot flatiron rubbed on a cloth well saturated with beeswax. When treated in this way it is impossible for small, elusive downs to work through.

Furniture Polish.

This is an excellent furniture polish where a bright surface is desired: Half a pint of alcohol, half an ounce each of rosin and shellac powdered. Mix these with the alcohol, then add half a pint of linseed oil. Shake thoroughly before using.

One should never tamper with moles. It is unsafe and sometimes is followed by serious consequences. If any treatment is necessary go to a reliable physician for it.

A teaspoonful of vinegar put into an oil lamp or stove that smells or smokes will cause it to burn with a clear light and prevent smoking.

To give the house a pleasant odor take some live coals and sprinkle ground cinnamon on them.

BUY "COBALT-AMERICAN"

The Best Value Offered in Cobalt Stocks To-day. Limited Number of Shares at 85c. Par Value, $1.00

We unhesitatingly reccommend this stock because of its extraordinary merit.

Every shareholder in the "Cobalt-American Development Company," Limited, is a promoter as well as an investor.

Company controls several valuable mining locations.

Property under development located in heart of original silver-bearing zone. Five well-defined veins trenched over 1,000 feet. All run very high in silver values, two shafts being sunk with good results.

A Sure Winner and Shipper in a Short Time

This stock will assuredly increase in value. Buy now and take advantage of the rise. Do not delay. Opportunity will not wait. It is yours now.

The people have confidence in this proposition, as is evidenced by the great demand for stock.

THE S. S. NESBITT COMPANY

COBALT MINING BROKERS,

Confederation Life Building, Toronto, Canada.

Cost of Red Tape in England

London, Dec. 3.—Some extraordinary figures as the cost of laboryard relief have been presented to the Bromley, Kent Board of guardians.

In the Borough of Bromley last year the sum of £2 15s. 3d. wasthe the men employed on stonebreaking in the labor yards, and it cost the ratepayers no less than £49 8s. 3d. to have it distributed.

The figures of the urban district of Beckenham were still more startling.

The sum of 20s. was spent in paying men for stonebreaking, and its administration cost £36 odd—amounting to 5735 per cent

Some guardians expressed the hope that the board would not again go in for stonebreaking.

Leave your renewal order for 1907 with us for any paper or magazine. We will be responsible and save you the trouble of writing. Times Bookstore

201 MERCANTILE BUILDING, DENVER, COLORADO

5 PER CENT Forty Year Gold Bonds

OF THE

Salt Lake Public Service Company

Light *Heat* *Power*

Combining Electric Lighting—Steam Heating—and Water Power Development.

Capitalization, $3,000,000. Authorized Bond Issue $2,500,000

Interest payable semi-annually. Bonds of denomination of $500 and $1,000. Bonds are sold at par with accrued interest and carry a liberal stock bonus of fully paid and non-assessable stock in the Company.

These Bonds are secured by Deed of Trust to CAPITOL TRUST COMPANY of Columbus, Ohio. The Company conveys title to perpetual water rights situated fifteen miles from Salt Lake City, which will develop 5,000 net horse power at the minimum flow of the streams with a reservoir system to give continuity of service; franchises for light, heat and power in Salt Lake City, and adjacent territory all for a term of fifty years.

A large amount of the capacity of the hydro-electric plants, together with the 6,000 horse power auxiliary steam plant in Salt Lake City, has been contracted for and will be sold in large units to smelting and manufacturing interests, inter-urban railways, etc., by long-term contracts. The "Schott System" of central station heating is being installed in connection with the steam power plant in Salt Lake City. Market for power and steam heat is far in excess of the supply. The Board of Directors are prominent business men of Ohio and Utah.

The construction and management is under the direction of W. H. Schott of the "Schott Systems" of Chicago.

Engineers reports and information in detail will be furnished on application to our Detroit office or THE CAPITOL TRUST COMPANY of Columbus, Ohio, or by any of our represenatives at any of our branch offices who are thoroughly familiar with the project from having made an examination on the ground.

The most rigid inquiry is solicited.

BRITISH COLUMBIA AMALGAMATED COAL COMPANY

AT 15 CENTS PER SHARE

We still have a limited number of these shares, that we will sell for 15 cents per share, in blocks of 100 shares or over. Why pay 75 cents for this stock, when you can buy it from us at 15 cents. In ordering same send us bank draft or express order.

For reference we refer you to the Bank of Montreal here, or the Imperial Bank at Nelson, B. C.

One of the greatest opportunities for making large profits in mining stocks is now offered to the public. The Coeur D'Alene Mining District is rapidly becoming one of the greatest mining camps in existence. For every dollar expended twenty dollars has been taken out. Last year over 30,000,000 was produced from this district alone. This is not a new mining district, but one that has been working for years, and the ore bodies are permanent and increase in value with depth.

If you are interested write for our Weekly Market Letter and Quotation Sheet, also map of the Coeur D'Alene Mining District, which we will send free upon request.

We want agents in every city throughout Canada and United States.

THE LIBERTY CAP.

Its Significance Dates Away Back to Early Greek Times.

From very early times one of the distinguishing marks of a slave, both in Greece and oriental countries generally, was the lack of any covering for the head. Accordingly the cap came to be considered the insignia of liberty, and when slaves were given their freedom they were presented with a cap as an emblem of it. In Sparta the helots wore a cap of dogskin, and this was reckoned a badge of servitude, but upon gaining their freedom this was replaced by a cap of a different material, of another shape and ornamented with flowers. A similar custom was observed in Rome, where the presentation of the pileus, or cap, was always a part of the ceremony of manumitting a slave; hence arose the proverb, "Servos ad pileum vocare." Also on medals the cap is the symbol of liberty and is usually represented as being held in the right hand by the point. When a cap was exposed to the people's view on the top of a spear, as in the case of the conspiracy against Caesar, it was intended as a public invitation to them to embrace the liberty that was offered them. The Goddess of Liberty on Mount Aventime was represented as holding a cap in her hand as a symbol of freedom. The Jacobins wore a red cap during the French revolution, and in England a blue cap with a white border is used as a symbol of liberty. The custom which prevails among university students of wearing a cap is said to have had its origin in a wish to signify that the wearers had acquired full liberty and were no longer subject to the rod of their superiors.

RESTAURANTS.

The First of Them Was Established In Paris in 1765.

For a long time inns and eating houses in France were only intended for the benefit of traveling people, for the people took their meals at home and restaurants were unknown. The first enterprise of the kind was founded in Paris in 1765. A citizen by the name of Boulanger opened in the Rue des Poulies an eating house where soup, meat, fowl and eggs were served. A chronicler relates that meals were served there on small, round marble tables and everything was scrupulously clean.

Over the entry to this first eating house the proprietor had hung a sign, upon which were the Latin words, "Venite ad me omnes quae stomacho laboratis, et ego restaurabo vos" (Come unto me all ye whose stomachs need attention, and I will restore them). This is a parody on the well known Biblical quotation, "Come unto me all ye who labor and are heavy laden, and I will give you rest," only in place of labor and heavy laden he said, "whose stomachs need attention." The word "restaurabo," from the Latin "restaurare" (restore or refresh), was the main characteristic of the new establishment and gave it its name. Boulanger amassed a large fortune, for his enterprise proved eminently successful, but he was soon imitated, some of his imitators becoming more famous than he.

A Child Wonder.

The French Academy of Sciences in 1729 examined the case of a French lad only seven years old who, in all respects save that of intelligence, was the equal of a man of twenty. His remarkable physical development began when he was two years old. At four he could do the farm work of a boy of fifteen or sixteen, and at seven he was a fully grown man. Although his physique was thus remarkably developed, his intelligence was no greater than that of children of the same age. He died before he was twenty. As is usual in such cases of premature development, his strength faded away, and he became prematurely old before other men would attain maturity.

The Pandects of Justinian.

The pandects of Justinian, the most complete body of Roman laws ever collected, were supposed to be lost, but in 1137, when Amalfi was taken and plundered by the Pisans, a private soldier found a copy, which he sold to an officer for a few pence. The value of the discovery was soon apparent, and the precious volume was taken to Pisa and stored in the city library. When Pisa was stormed by the Florentines in 1415 the precious volume was captured and taken to Florence, where it was placed in the library of the Medici.

Needles.

Needles are all made by machinery. The piece of mechanism by which the needle is manufactured takes the rough steel wire, cuts it into proper lengths, files the point, flattens the head, pierces the eye, then sharpens the tiny instrument and gives it that polish familiar to the purchaser. There is also a machine by which needles are counted and placed in the papers in which they are sold, these being afterward folded by the same contrivance.

True Wealth.

A man's true wealth is the good he does in this world. When he dies men will ask what property he has left behind him, but angels will inquire, "What good deeds hast thou sent before thee?"—From the Arabic.

Bribeless.

To be content is to be happy, and Happiness is one of the three who cannot be bribed; the other two are Love and Death.—Papyrus.

A man cannot leave a better legacy to the world than a well educated family.—Thomas Scott.

50,000 SHARES

OF A

RICH GOLD MINE

IN NEW ONTARIO ALLOTED TO PETERBORO

The undersigned has secured an allottment of 50,000 shares of a rich gold mine in New Ontario. The mine promises to be one of the richest in the Country, and adjoins the great Blum Mine, which is estimated to be worth over $25,000,000. This stock has par value of $1.00 and will be sold for 50c. a share for the next 30 days. It probably will be worth many times its present value in a short time. Now is the time to invest. There is no risk—it is a sure thing. Money needed for developement. For further particulars apply to.

THOS. PATTERSON & CO.

BROKERS,

161 SIMCOE STREET PETERBORO.

Rushing Fuel to Saskatchewan

Regina, Sask., Dec. 2.—Zero weather prevails in Saskatchewan, and, although the local Government and the C.P.R. and C.N.R. are doing their utmost to relieve the suffering consequent upon the present fuel situation, nothing can prevent a certain amount of suffering, and whatever the results of the present interference in Minneapolis, the greatest vigilance on the part of the Government and activity on the part of the railway companies will be required to stop actual privation. A second letter has been sent out by the Department of Agriculture to the mayors and reeves throughout the Province, asking their co-operation in dealing with the present crisis.

So far the C.P.R. has despatched over seventy-five cars of soft Pittsburg coal to this Province, and the Government has been assured by William Whyte that the company hopes to send coal from this on at the rate of ten cars a day. Steps are being taken to systematically utilize the timber resources in the northern part of the Province, and it is hoped that the wants of towns on the Prince Albert branch will be largely met from this source. For the country west of Regina and the Soo line, the Government is looking to the Bankhead mines for a supply. This will be steam coal, and by a somewhat inferior character, but just now fuel of any sort is acceptable. The C.P.R. is undertaking to facilitate transportation from that point.

The outcome of the conference is being watched throughout the Province with the greatest concern, although, generally speaking, there exists considerable fear lest the negotiations should be futile.

—Just received a special lot of cloth bound books—none but the very best authors. Suitable for Xmas gifts. On sale at 20 cents each, or six for one dollar. Times Bookstore.

Bird Bread

COTTAM'S famous feed for birds, formerly only sold with COTTAM SEED. Now sold separately at 10c. the package, two large cakes. The high reputation enjoyed by BIRD BREAD has caused us to make this departure when ordering for those who can't get it apart from COTTAM SEED.

Send name of dealer not selling BIRD BREAD apart from COTTAM SEED, with 5c. in stamps and get two large cakes. Feed your birds on the Standard (2)

MEN AND WOMEN.

Use Big G for unnatural discharges, inflammations, irritations or ulcerations of mucous membranes. Painless, and not astringent or poisonous. Sold by Druggists, or sent in plain wrapper, by express, prepaid, for $1.00, or 3 bottles $2.75.

These Medical Facts

You Can Study With Profit.

How few realize that twenty-five per cent. of all disease has its origin in some interference with the function of elimination.

The whole body exists by reason of the transfusion of fluids through its component parts.

Up to a certain point the body has power to reject to destructive elements, but this power is limited.

When it happens that the body is loaded with wastes and poisons which it can't eliminate, fermentation, decay, and germ life run riot through the blood.

Serious illness is the result unless nature is assisted by a cleansing tonic like Dr. Hamilton's Pills, which are purely vegetable, contain no mercury, no bismuth, no injurious metallic ingredient of any kind.

Such a medicine is the greatest possible assurance to every man and woman of health, spirits and contentment.

Grand results are achieved and famous cures made every day by Dr. Hamilton's Pills, as this letter proves.

From Newfoundland, Miss Lillian Anthony, of Upper Gullies, Conception Bay, writes, "In praise of Dr. Hamilton's Pills I must say that I have used them with grand success for three years. They never fail to cure me of indigestion or constipation. Formerly my face was full of pimples, but now my complexion is clear and ruddy. In more ways than I care to mention have Dr. Hamilton's Pills helped me; they would be good for every woman to use."

Insist on having only Dr. Hamilton's Pills. 25c per box or five boxes for $1.00, at all dealers, or by mail from N. C. Polson & Co., Hartford, Conn., U. S. A., or Kingston, Ont.

THE NEW TERM

at the

PETERBOROUGH BUSINESS COLLEGE

opens on

TUESDAY SEP. 4, 1906

Intending students should make application as soon as possible.
Call at the College or address

WM PRINGLE,
Opposite Post Office, Principal.

LOCAL INCIDENTS

By The Times Man on the Street

—A purse is awaiting an owner at the police station.

—A choice lot of Xmas cards for 25, 30 and 50 cents a dozen. Times Bookstore.

—Last night the Peterborough Curling Club selected their skips for the coming season.

—The German Reading Circle will meet next Saturday at the residence of Miss Isabel Hay.

—A five-roomed house to rent, suitable for family without children. Apply at this Office for address.

—Have first choice of Christmas goods and buy now. The Times Bookstore is busy now for children's wants.

—The Children's Aid Society begs leave to return thanks for the handsome donation of $15 from a friend.

—Rev. E. A. Langfeldt and Rev. Dr. Torrance will conduct services at Stewart's Settlement in Otonabee, on Friday night.

—At the regular meeting of Lansdowne Lodge No. 25, Sons of England, held last night, officers for the ensuing year were elected.

—The Woman's Art Association have leased the residence of the late Mrs. Donsford, Simcoe street, just east of the Bank of Montreal.

—Mr. W. R. Tully will replace the partially burnt building at the corner of George and Sherbrooke streets by a handsome brick building.

—A congregational meeting will be held in Knox church on Wednesday, Dec. 12th, at eight o'clock, p.m., for the purpose of extending a call to a pastor.

—Mr. J. S. Hamly, assistant postmaster at Port Hope, has accepted a position as deputy postmaster at Calgary, and leaves early next week to commence his duties.

—Yesterday how the ladies on George street did cover up their pretty little noses to prevent that cherry tint that cold weather induces coloring the same organs.

—The congregation of St. Paul's church will shortly be called upon to choose five or six new elders. It is probable that nominations will be made a week from Saturday.

—The many friends of Mr. Fl Plonie, the popular city night watchman, will be interested to learn that although suffering from a badly sprained ankle, he was able to attend to his duties last night.

—Yesterday the coal and wood dealers are reported to have, when customers were round, retired every ten minutes to indulge in unholy roars of merriment over the boom their business had got by the weather.

—Yesterday a local cigarmaker employed on Hunter street was putting arnica on his bruises. This twister of perfect, on Sunday, with two of his friends drove over to the lift lock. Just as they came out of the tunnel at that point either the horse got the blind staggers or the road was uneven. In either event the trio were rubbing their bruises yesterday.

STOMACH'S IMPORTANCE

How to Strengthen It so That It Will Act as It Should.

The stomach is the principal organ concerned in the digestion of food. If it is weak, inactive or out of order and unable to properly digest the food, the body will soon be in a state of semi-starvation.

Then, too, when the stomach is weak, the food is not properly digested and lies in it for hours, decomposing, fermenting, and forming poisonous gases and ptomaines that are absorbed into the blood, poisoning the system and impoverishing the blood.

To enjoy good health, it is absolutely necessary that the stomach and digestive organs should be strong, and no other remedy equals Mi-o-na in strengthening and giving tone to the whole digestive system.

Relief from the use of Mi-o-na is permanent and lasting. Use Mi-o-na for a few days, and the digestion will be good, the appetite keen, and there will be no nausea or distress after eating, no sleeplessness, no nervousness, and the headaches, backaches and disturbed heart actions that are the direct result of a weakened stomach will soon be overcome.

We absolutely agree that your money will be refunded should you buy a 50-cent box of Mi-o-na stomach tablets and not be satisfied with the results. Mi-o-na is sold by druggists everywhere, or will be sent by mail on receipt of price, 50 cents.

Write today for a free sample package, and also give us your symptoms, and one of the best known stomach specialists will give your case his careful and personal attention without charge. Booths Hyomei Company, Buffalo, N. Y.

Park Street Church Notes.

The B.Y.P.U. met last night.

Tonight the sale of work by the Ladies' Aid will be held at Mrs. W. Pillings', 16 Bolivar street.

On Wednesday a public service will be held with the pastor in charge.

Practices will take place during the week for the great concert by the Mason Circle and Band, to be given the second week in December.

Poor Eyesight

may come from the use of coffee. Before getting glasses, quit coffee and use well-made

SOCIAL AND PERSONAL

—Miss Ludwig of Montreal, is visiting Mrs. Graham.

—Mr. H. White, barrister, of Port Hope, was in the city yesterday.

—Mrs. J. H. Miller will receive at her new home, 360 Brock street, this afternoon and evening.

—Mr. R. McCall of Allandale, divisional engineer, for the G.T.R. was in the city yesterday.

—Mr. and Mrs. John Hall of Chicago, who have been visiting Mr. H. Calcutt, have returned home.

—Miss Jessie Donnelson, Peterborough, is staying with Mrs. W. George Baldwin, Lowther avenue.—Toronto Globe.

—Mrs. (Dr.) McClelland will receive on Wednesday and Thursday afternoon of this week, and not again until January.

—Miss Kathleen Wilson has gone to Deer Park, to take a course of training as a nurse at Dr. Mayer's private hospital.

—Mr. R. J. Bird, an old Peterborough boy, representing the American Wood Preserving Company, of Chicago, Ill., is in town in the interests of his company.

Mayor Best Will Not Be a Candidate

Yesterday Mayor Best in response to a pointed question by a Times representative as to whether or not he would be a candidate for the mayoralty of Peterborough, next January in no uncertain terms or accents replied NO!

As noted in a former issue of this paper, Mayor Best has been requested by a large number of his friends and former constituents to stand for a third term.

The petition sent to Mayor Best was a very strong and was largely signed, read as follows;

To Mayor Best—

"The undersigned, while wishing to respect your strong desire to retire from the office of mayor of this city, feel that it is vitally necessary to the best interests of the city in the immediate future that you should contest on the mayor's chair for another year. We know that we are representing the earnest wish of those most interested in the city's welfare, when we ask you to stand again and we would respectfully ask you to consider favorably our request. The important issues awaiting consideration such as water power, city water municipal franchises and new industries, require the attention of a well trained and sound business judgment, which we know you to possess. You have had so much to do with the negotiations for securing new industries that we believe no other man can be of equal service to the electors during the coming year in completing these negotiations and directing them to a final and satisfactory conclusion.

"It is with deep regret that the general public will learn of Mayor Best's decision. He has served the people well for many years, and he has always enjoyed their utmost confidence. There are many who believe that he would be the best man to guide the affairs of the city next year, hence the general regret and disappointment."

Mayor Best, however, has definitely decided to retire, and owing to his patriotic interest in the city, noted that he has every confidence in the people choosing a reliable and efficient chief magistrate.

Piles get quick relief from Dr. Shoop's Magic Ointment. Remember it's made alone for Piles—and it works with certainty and satisfaction. Itching, painful, protruding, or blind piles disappear like magic by its use. Try it and feel J. D. Tully.

January 2nd, 1907—The Date.

A despatch from Toronto announces that Ralph Connor's new story, "The Doctor," has been secured by the Family Herald and Weekly Star of Montreal, for exclusive newspaper publication. This is a big surprise. Such stories are seldom sold to newspapers for months after the book is issued, but the Family Herald is in a position to pay the price and land the prize. Their subscribers are to be congratulated. It is said the opening chapters will be published on January 2, 1907, so as to give all their subscribers ample time to renew their subscriptions. In the meantime there will be a rush from new subscribers, and no wonder, for the Family Herald with their beautiful picture, and Ralph Connor's story is certainly a dollar's worth not to be had every day.

WANTED

At the Cereal Works, 30 Girls. The Quaker Oats Co.

Mr. John Cochrane's Funeral Today.

The funeral of the late John Cochrane, who as noted in yesterday's issue of The Times, committed suicide Saturday evening by jumping into the Otonabee river, from the Hunter street bridge, will take place to Lakefield cemetery this afternoon at two o'clock.

Turkish Missionary to Speak.

The members of St. John's branch of the Women's Auxiliary are cordially invited to attend the meeting of the Women's Auxiliary in All Saints' church this evening, at eight o'clock, when Rev. C. H. Brooks, B.A., of Grafton, will speak.

Sandstone Brick Co. Busy.

Work is rapidly progressing on the new Boiler and Radiator Works at Hastings. The concrete foundation is now up five feet. This week a shipment of 80,000 sandstone bricks will be made to Hastings for the new factory.

A Wonderful Record.

As made up by improved and exact processes Dr. Pierce's Favorite Prescription is a most efficient remedy for regulating all the womanly functions, correcting displacements, as prolapsus, anteversion and retroversion, overcoming painful periods, toning up the nerves and bringing about a perfect state of health. It cures the backache, periodical headaches, the dragging-down distress in the pelvic region, the pain and tenderness over lower abdominal region, dries up the pelvic catarrhal drain, so disagreeable and weakening, and overcomes every form of weakness incident to the organs distinctly feminine.

"Favorite Prescription" is the only medicine for women, the makers of which are not afraid to print their formula on the bottle wrapper, thus taking their patrons into their full confidence. It is the only medicine for women, every ingredient of which has the strongest possible endorsement of the most eminent medical practitioners and writers of our day, recommending it for the diseases for which "Favorite Prescription" is used. It is the only put-up medicine for women, sold through druggists, which does not contain a large percentage of alcohol, so harmful in the long run, especially to delicate women. It has more genuine cures to its credit than all other medicines for women combined, having saved thousands of sufferers from the operating table and the surgeon's knife. It has restored delicate, weak women to strong and vigorous health and virility, making motherhood possible where there was barrenness before, thereby lightening and making happy many thousands of homes by the advent of little ones to strengthen the marital bonds and add sunshine where gloom and despondency had reigned before.

Write to Dr. R. V. Pierce. He will send you good, fatherly, professional advice, in a plain, sealed envelope, absolutely free. Address him at Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets do not gripe. They effectually cleanse the system of accumulated impurities.

The People's Common Sense Medical Adviser, by Dr. Pierce, 1008 pages, is sent *free* on receipt of stamps to pay expense of customs and mailing *only*. Send 21 one-cent stamps for the book in paper covers, or 50 stamps for the cloth-bound volume. Address as above.

Conservatory Staff Strengthened.

Miss Lora Newman, the well-known concert pianiste, of Toronto, late of Vienna, a pupil of the world renowned Leschetizky, who instructed Paderewski, Mark Hamburg, Pasipoff, Fannie Bloomfield-Zeisler and other famous pianoforte artists has accepted a position on the staff of the local Conservatory of Music. Miss Newman will be in the city two days each week.

Tweed Has a New Rink.

Tweed is to have a new skating rink this winter. Those in charge of this sport in Tweed, Messrs. Countryman and Cowain have rented the lot between W. J. Bowell's residence and Lafountain's grocery. They are already at work getting the ground in shape.

ROOSEVELT'S MESSAGE TO UNITED STATES CONGRESS

The President Also Censures Preachers of Discontent

DIVORCE REFORMS

Tighter Grip on Corporations Prevent Inordinate Profits.

Washington, D.C., Dec. 5—The President of the United States communicated his annual message to Congress yesterday. Among the subjects of general interest dealt with are; Corporation campaign contributions, Government's right on appeal in criminal cases, lynching, capital and labor, corporations, withdrawal of coal lands, marriage and divorce, American shipping, currency reform, Philippine tariff, attitude towards Japanese, Cuba, the Rio conference, fur seals, peace and righteousness, and the navy and army.

The message is, in part, as follows:

"To the Senate and House of Representatives:

"As a nation we still continue to enjoy a literally unprecedented prosperity; and it is probable that only reckless speculation and disregard of legitimate business methods on the part of the business world can materially mar this prosperity.

"No Congress in our time has done more good work of importance than the present Congress. There were several matters left unfinished at your last session, however, which I most earnestly hope you will complete before your adjournment."

ELECTION CONTRIBUTIONS.

"I again recommend a law prohibiting all corporations from contributing to the campaign expenses of any party. Such a bill has already passed one House of Congress. Let individuals contribute as they desire; but let us prohibit in effective fashion all corporations from making contributions for any political purpose, directly or indirectly.

DEPLORES CLASS HATRED.

"In dealing with both labor and capital, with the questions affecting both corporations and trades unions there is one matter more important to remember than aught else, and that is the infinite harm done by preachers of mere discontent. These are the men who seek to excite a violent class hatred against all men of wealth. To preach hatred of the rich man, as such, to carry on a campaign of slander and invective against him, to seek to mislead and inflame to madness ignorant men whose lives are hard and who have not the kind of mental training which will permit them to appreciate the danger in the doctrine preached—all this is to commit a crime against the body politic and to be false to every worthy principle and tradition of American national life.

CONTROL OVER CORPORATIONS.

"In my judgment it will in the end be advisable in connection with the packing house inspection law to provide for putting a date on the label and for charging the cost of inspection to the packers. It can not too often be repeated that experience has conclusively shown the impossibility of securing by the action of nearly half a hundred different State Legislatures anything but ineffective chaos in the way of dealing with the great corporations which do not operate exclusively within the limits of any one State. In some method, whether by a national license law or in other fashion, we must exercise, and that at an early date, a far more complete control than at present over these great corporations.

THE DIVORCE QUESTION.

"In my judgment the whole question of marriage and divorce should be delegated to the authority of the National Congress. At present the wide differences in the laws on the different States on this subject result in scandals and abuses; and surely there is nothing so vitally essential to the welfare of the nation, nothing around which the nation should so bend itself to throw every safeguard as the home life of the average citizen. The change would confer on the Congress the power at once to deal radically and efficiently with polygamy, and this should be done whether or not marriage and divorce are dealt with."

Mr. Ellis set himself to solve the problem, and the outcome was the invention of the Ellis compound armor, which consisted of a hard steel face with a wrought-iron back.

The continued evolution of the gun led to further important improvements in armor, which Mr. Ellis effected by the introduction of the principle of cementation.

The Harvey process—a combination of cementation and chilling—was introduced about this time, and after experiments extending over six years Mr. Ellis succeeded, in conjunction with Capt. Tressider, in producing the Ellis-Tressider component plates. A 7in. plate produced by this method had all the powers of resistance of a plate of 10 1-2 in. of all steel or compound armor.

FARMERS TAKE COAL FROM CARS

Regina, Dec. 5—The coal famine remains intense, though some fuel held in reserve has been released since it was announced that the strike has been settled. Farmers continue to take what coal they require from trains wherever they find it along the north and south branch. It is necessary to prevent absolute destruction of life. In each case the agent is given a receipt and the precious fuel carefully weighed and treasured like much food by starving men.

There has been no disorder in spite of the fact that guard men have travelled fifty and seventy miles for coal only to be forced to return without any as they witnessed long coal trains pulled across the prairie.

Mr. Vincent Eastwood for Water Commissioner

Mr. Vincent Eastwood, principal owner of the Peterborough Hardware Company, and for some years a member of the Peterborough Board of Education, is a candidate for the position of Water Commissioner. It might be noted that Mr. Eastwood was a candidate for the position of water commissioner three years ago, but withdrew in favor of Mr. W. H. Moore and allowed the latter gentleman to go in by acclamation. This time, however, Mr. Eastwood will seek election.

Car Tickets Found Under a Tree Stump

Toronto, Dec. 5—Thousands of car tickets, loose and in strips, was the find of Thomas Davies, 29 Bellair street, while excavating a cellar in Beaumont road. Mr. Davies unearthed a pine stump on Saturday and in a cavity discovered the car tickets and a "digger."

The tickets were issued in Sir Frank Smith's time, and it is supposed that the person who placed them in the stump was afraid to dispose of them. The "digger" showed the effects of its seclusion, being rust-eaten and worn.

The tickets and the "digger" were handed over to the Toronto Railway Company, who promptly destroyed them.

Will Pope Leave Vatican?

Rome, Dec. 5—The State Railroad Department has received orders to reconstruct the pope's railroad car. This car has not been used since 1870. It is a special carriage, with gilded angels at the four corners. Inside there is a portable altar, and the upholsterings are of white velvet. This news is commented upon with much interest, and people are wondering if it means that the Pope is about to leave the Vatican.

WHAT IS CATARRH?

Simple Way to Overcome the Dangers of this Disagreeable Disease.

Catarrh is an inflammation of the mucous membrane of the nose, throat and lungs, with many annoying symptoms. In this climate there are few who do not suffer from this disagreeable disease, often in a chronic and dangerous state.

Fortunately, within the last few years, a simple and reliable treatment for catarrhal troubles has been found—Hyomei, a combination of healing and germ-killing balsams, that, when breathed through the vest pocket inhaler that comes with every outfit, reaches the tiniest cells in the respiratory organs, carrying its healing and health-giving properties to every part where the catarrhal poison is present.

Used in this way, Hyomei kills all catarrhal germs, drives the poison from the system and heals all irritation that may be present in the mucous membrane.

If you have the ordinary catarrhal symptoms, such as offensive breath, burning pains in the throat, cough, raising of mucous, difficulty in breathing, sneezing, hoarseness, discharge from the nose, droppings in the throat, coughing spasms, etc., begin the use of Hyomei at once.

The complete Hyomei outfit costs but $1.00, extra bottles, if needed, 50 cents. We do not want anyone's money unless Hyomei gives relief and cure, and we absolutely agree that money will be refunded unless the remedy gives satisfaction.

All druggists should be able to supply you with Hyomei or we will send it by mail on receipt of price, and every package is sold with the distinct understanding that it costs nothing unless it cures. Write us today for the symptom blank, which we will send you free, together with treatise on Catarrh and how to cure it. When you fill in and return to us the symptom blank, our consulting physician will give your case the best care and attention, and write you a letter of advice without charge. Address Hyomei Company, Buffalo, N. Y.

NIPISSING NOT PETERING OUT

Latest Rumors of New York Curb Denied by Cobalters Yesterday

PRICE DROPPED TO $14.50

Manager Linney Asked to Wire a Statement of Condition of the Operations

Toronto, Nov. 5—Local brokers gasped when the information reached here yesterday morning that Nipissing Mines stock sold in New York as low as $14.50 a share. The explanation they give, based on the scant details received over the wires, is that the Guggenheims or their agents are circulating the rumor that the best Nipissing veins are petering out. Their first excuse, reflecting on the title to the properties, having been repudiated by the Government they have seized upon the second, say the local brokers.

WIRED FOR STATEMENT.

Representatives of local holders of large blocks of Nipissing shares have wired to Cobalt for a reassuring statement on the mine's output by the manager, Mr. W. H. Linney. It is understood, too, that the Government will be asked to instruct Professor Willet G. Miller, who is at present in Toronto, to return immediately to Cobalt and make an official report on the Nipissing operations for the general benefit of the old company.

RUMORS DENIED.

Mining men who arrived from the silver region yesterday, deny the rumors circulated in New York. They state that no operations on the Nipissing property have been discontinued on this account.

YESTERDAY'S TRADING.

New York, Dec. 5—The trading in stock of the Nipissing Mines Company on the curb stock market yesterday, but the stock was still active. About 5,000 shares changed hands in the first five minutes of trading at 16 1-4 to 16 3-4, as compared with the closing price of 16 1-8 last night.

DROPS TO 14 1-2.

New York, Dec. 5—The trading in Nipissing became excited during the first hour yesterday, and the price slowly declined under heavy offerings, until it sold at 15 1-4 shortly before 11 o'clock. Just before noon it sold at 15. Later it dropped to $14.50.

Grain Men Charged With Conspiracy

Winnipeg, Dec. 5.—A charge of conspiracy in restraint of trade has arisen out of the evidence given before the Grain Commission here. It is laid against J. C. Gage, J. G. McHugh, John Love, president of the Grain Exchange, and others, by D. W. McCuaig, president of the Grain-Growers' Association. The writ reads that they did conspire to injure trade and commerce in respect of grain.

The writ is made returnable on Thursday of the current week, and the case is expected to be one of the most important and interesting that have come before the Western courts, and to have an influence on the grain trade of the entire continent.

The Grain Growers' Association em-

braces a very large percentage of the farmers of this Province, which makes it a very powerful and influential organization, and a bitter legal fight is anticipated. Mr Gage is the man who keeps the books of the North-West Grain Dealers' Association, and represented the elevator interests during the time their pooling arrangements were in force, but when the Grain Commission was in session this gentleman was hot playing somewhere down in the States.

The Dominion Government will also institute proceedings.

GEORGE BALLARD NEW PRESIDENT

Toronto, Dec. 5—Owing to the withdrawal of W. J. Sise and W. A. Hewitt of Toronto, as candidates for the presidency of the Ontario Rugby Union, it again goes to Hamilton, George Ballard, quarter-back of the Tigers, being elected by acclamation.

Mr. Ballard is a keen Rugby enthusiast and a Varsity graduate, very popular throughout the province, and should make an excellent presiding officer.

Mr. Hewitt has also withdrawn as a candidate for the vice-presidency, leaving W. J. Sise of Toronto, and A. A. Hodgsgaard of Peterborough in the field.

W. H. Seymour of Hamilton, has withdrawn from the nomination for intermediate representative, and the contest will be between W. J. Morrison of Toronto, and E. A. L. Clarke, of Dundas.

Junior representatives, two to be elected—Russell Britton, Gananoque; J. J. Grenan, St. Michael's College, Toronto; George Mara, Toronto.

Representatives of senior clubs—Argonauts, W. A. Hewitt; Victorias, J. P. Carter; Peterborough, T. W. McDonough; Hamilton, W. H. Seymour.

The election will take place at the annual meeting of the Union, to be held at the King Edward Hotel on Saturday afternoon at two o'clock.

SCOFFERS

Often Make the Staunchest Converts.

The man who scoffs at an idea or doctrine which he does not fully understand has at least the courage to show where he stands.

The gospel of Health has many converts who formerly laughed at the idea that coffee and tea, for example, ever hurt anyone. Upon looking into the matter seriously, often at the suggestion of a friend, such persons have found that Postum Food Coffee and a friend's advice have been their salvation.

"My nerves were shattered, I was a nervous wreck and employed in an eastern city where she had to do calculating," writes an Okla. girl. "She suffered with headache until she was almost unfitted for duty.

"Her landlady persuaded her to quit coffee and use Postum and in a few days she was entirely free from headache. She told her employer about it, and on trying it, he had the same experience.

"My father and I have both suffered much from nervous headache since I can remember, but we scoffed at the idea advanced by my sister, that coffee was the cause of our trouble.

"However, we quit coffee and began using Postum. Father has had but one headache now in four years, due to a severe cold, and I have lost my headaches and sour stomach which I am now convinced came from coffee.

"A cup of good hot Postum is satisfying to me when I do not care to eat a meal. Circumstances caused me to locate in a new country and I feared I would not be able to get my favorite drink, Postum, but I was relieved to find that a full supply is kept here with a heavy demand for it." Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs. "There's a reason."

JUDGE WINCHESTER HALTS THAT TRIP TO NEW YORK

Detective Mackie Must Be More Specific in McGill Case

CASE IS ADJOURNED

Judge Objects to Information Against Chas. McGill.

Toronto, Dec. 5.—On the ground that the information of Detective Mackie, charging theft of $136,000 against Charles McGill, former general manager of the Ontario Bank, was not sufficiently specific in its description and source of evidence, Judge Winchester has adjourned, until two o'clock today the application for the appointment of a commission to go to New York to ascertain what Becker's books may reveal upon the case.

Mr. E. Boyly, on behalf of the Crown made the application, supplementing the same by an affidavit relating to the charge of falsification of returns against Mr. McGill.

Mr. R. F. McKay, counsel of Mr McGill, in his reply, opposed the appointment of a commission. There was sufficient evidence to commit for trial on the charge of falsifying and he could not see what further purpose a commission could serve to gain.

In reply to a question by his Honor Mr. Boyly contended that the affidavit and application were made out in the usual form and included what was necessary in documents of that kind. He quoted judical decisions which he contended strengthened his opinion.

"I don't agree with you," said his Honor "The detective should have received his information from Crown counsel instead of from a judical officer who is merely expressing his opinion and may withdraw it before giving judgment, and no doubt has."

"We have no evidence that he intends a withdrawal of anything," said Mr McKay.

"The Crown prosecutor ought to have given some advice to the detective as to the nature of the evidence and how in his opinion the evidence should be obtained," said Judge Winchester, "I cannot order you to go on a fishing expedition for the purpose of laying an information. It should be made out in such a way as to be evidence. If the detective had stated he was informed by counsel for the prosecution then he would be examined upon that. It is not material that he believes that evidence can be obtained as can be shown that such evidence can be obtained."

Mr. Boyly agreed to amendment of the affidavit and in adjournment was made until two o'clock this afternoon. Mr. McKay expressed his intention to cross-examine witnesses, one of whom will probably be Mr. Ames.

Grave Fears For Barge Hickox

Belleville, Dec. 5.—Grave fears are entertained here over the whereabouts of the steam barge Hickox, owned and sailed by Capt. Henry Smith of this city. The vessel left Oswego Saturday soon for this city with a cargo of coal. The barge Lloyd S. Porter followed shortly after with coal for Picton.

The Porter followed the Hickox in the lake until a heavy snowstorm came up, when the Hickox was lost sight of. The Porter arrived at Picton at 2.30 Monday morning, and Capt. Heffernan was surprised to learn the Hickox had not arrived.

The Harbor Commissioners here were notified, and Harbor Master Vandervoort left here at midnight on Monday night for Kingston, with instructions to secure a tug to go in search of the missing vessel, but up to late last night no trace could be found.

Besides Capt. Smith, the crew consists of Mate Fred Fairman and Geo. Cole, this city, with an engineer and a cook from Trenton. Sailors here think that perhaps the machinery has gone wrong and that the vessel may have foundered, while others think that the vessel has been frozen in in some cove, as it froze very hard Sunday and Monday.

Will There Be More Roller Rinks?

It is now proposed to put down a floor on the Brock street rink as soon as the skating season is over and run a roller skating rink. If this is carried into execution it will certainly have a tendency to injure the business of those who had sufficient enterprise to inaugurate a roller rink at Charlotte street rink. In conversation with two or three leading citizens last night the unanimous opinion expressed to The Times man was that by starting such an opposition to the original (of late years) starters of this form of amusement here, would result in a large expenditure on the part of those proposing such action and so divide the business that neither rink would make dividends. This however is only what citizens say and not an official opinion.

—Dolls, games, picture books, and toys by the hundreds now ready for Christmas. Shop early and avoid the rush. Goods selected now will be reserved until later by making a

Fire Brigade Did Splendid Work

Messrs. Richard Hall & Son Had Close Call and Lost Heavy.

Yesterday morning the fire brigade ladies instead of getting a comfortable breakfast preparatory to their days work were called, about six o'clock to a fire in the rear of Messrs Richd. Hall & Son's drygoods establishment.

The fire was first noticed by Mr. Lang, caretaker of the Grand Central block, who sent in an alarm. The brigade responded quickly and succeeded in confining the fire to the storeroom. A large amount of window curtains, umbrellas and other goods were destroyed by fire and water. Several cases of goods which had just arrived were badly damaged. It is only owing to the splendid work of the brigade that this fire did not destroy the whole store. The shop which was necessarily closed yesterday will reopen today. The cause of yesterday's fire is not definitely known, but about $2000 worth of damage was done.

New Local S. O. E. Officers Elected

Through stress of overcrowded columns the officers elected by Lansdowne Lodge, No. 25, S.O.E., were omitted in yesterday's issue. The newly elected officers were as follows:

President—E. W. Elcombe.
Vice-President—Robt. Runton.
Chaplain—Geo. Runnett.
Treasurer—Chris. Wood.
Financial Secretary—S. A. Oke.
Recording Secretary—W. Shiner.
1st Committeeman—W. Taylor.
2nd Committeeman—J. Brown.
3rd Committeeman—R. Shepherd.
4th Committeeman—G. W. Allin.
5th Committeeman—Geo. Thomas.
6th Committeeman—Jos. Wyatt.
Inside Guard—Chas. Simons.
Outside Guard—Stephen Convery.
Physician—Dr. Young.
Hall Trustees.—H. Long and D. Curtis.
Lodge Trustees—R. Wareham, A. Kingscote and Dr. Young.
Auditors—Messrs. F. Kitley and T. Gunn.

The installation of the newly elected officers will take place on the 1st Monday of the New Year.

Leading C. G. E. Co. Officials Here

Mr. Frederick Nicholls of Toronto, general manager of the Canadian General Electric Company, and Messrs. H. A. Niles, Geo. W. Watts, and James Bremner, other prominent officials of the company, were in the city yesterday. It is understood that their visit here, is in connection with the new building being erected for the G.G.E. by the Dominion Engineering and Construction Company.

Brock Street Rink Will Open Soon

It is expected that the ringing blades of skaters will soon resound in the Brock street rink. Already several floodings have been given the floor, the freezing weather will soon make ice, so that this rink will open considerably earlier than it has for several years.

Mr. John Thornbeck, who for the last two years has been caretaker, has been reappointed for the present. It is understood that the same prices will be charged for season tickets this year, as in former years.

ROMANCE OF ARMOR PLATES

Man Who Made It Possible to Resist an Eighty-Ton Gun.

London Dec. 3.—The death at Sparken, Worksop, of Mr. John Devonshire Ellis, at the age of 83, recalls the romance of the first manufacture of protective plates for battleships.

Before 1859, when the first armor plates were rolled at Mr. Ellis's Atlas Works in Sheffield, protective armor plate was made at great cost by hammering plates to the required thickness, and it was due to the sagacity of Mr. Ellis that the first mill for producing armor was put down. Broad bars were rolled to the required width, and these were piled upon one another and welded together until the desired thickness was attained.

For many years this method was continued, until, in 1879, guns had so increased in power that it was considered impossible to produce a wrought iron plate which could withstand a shot from an eighty-ton gun.

J. W. LANGMUIR, Managing Director

Sees the United States at the Mercy of Japan

Paris Matin Alarmed at Perils it Thinks Menace the U. S.

Paris, December 4.—"America Under a Cloud," is the pessimistic heading of an article published in the Matin today.

It calls the attention of its French readers to the increasing gravity of the Japanese question in California. It quotes some energetic declarations made by the Argonaut of San Francisco to the effect that the Federal Government cannot make the Californians accept the Japanese on a footing of equality there. The Matin continues:

"While this energetic language makes itself heard in the west, the president comes back from his trip to Panama with his forehead covered with shadows. He will send on the subject of his voyage a special message to Congress, a message which will come after the one which is to be read December 4.

SAYS AMERICANS HAVE FAILED.

"President Roosevelt has seen with his own eyes what stupendous mistakes have been committed by his administration on the Isthmus of Panama. At present, in spite of all the millions at its disposal, in spite of its magnificent energy, and in spite of its splendid machinery, America has not yet accomplished in the Isthmus the fortieth part of what French engineers had accomplished.

The results of the work are inferior by nearly 50 per cent. a month to what they were when France was at work regularly in Panama. The first boat was to go from one ocean to the other in eighteen months. The first boat will not traverse the canal before ten years from now, perhaps not before twelve years.

AT MERCY OF JAPAN.

"That is to say, the United States will be, for perhaps ten years to come, powerless to send its fleet from the Atlantic to the Pacific. That is to say, that for ten years more the Pacific coast is at the mercy of Japanese surprise. That is to say, that for ten years more Japan has undisputed and discretionary supremacy over all the ocean which separates its coast from those of the United States."

JAPAN PREPARED TO FIGHT.

San Francisco, Cal., December 4.—According to the statement of Harry B. Miller, United States Consul at Yokohama, Japan is prepared to use her military and naval strength, if necessary, to fight the discrimination that has been made by the San Francisco Board of Education against the little brown men who want to attend the public schools.

"The Japanese are highly incensed over this affair," says Miller, "and to save their national dignity are willing to go to war. They feel that they are powerful in their military and naval departments, and open comment is made on the probability of a show of arms to compel the American people to cease discriminating against the Japanese."

Miller will return to Japan in a short time.

HEALTH FOR WOMEN

Mrs. Emma Daigle, of Moncton, N B., Sends an Open Letter to All Sufferers.

Most women are tired when they wake up. Housework drags along with great difficulty. Nervousness is always present, headaches seldom depart, tears are ever ready to flow.

But there is a cure, a true specific for women's ills that restored a prominent lady in Moncton, Mrs Daigle, who tells the following experience:

"About a year ago I had a serious sickness, sort of a general breakdown. My digestion failed entirely and I was able to eat but very little. I took violent stomach pains and suffered terribly from headaches. My doctor said it was "nerve exhaustion" and I might never be well. My troubles increased, for as I grew weaker I became subject to neuralgia and rheumatism. Sleep finally forsook me and I almost lost heart. Different medicines didn't help Doctors couldn't do me any good. I was desperate when I heard of Ferrozone. The first box convinced me it was just what I needed. It toned up my stomach, gave me a splendid appetite and then my recovery seemed easier. Ferrozone increased my weight several pounds, has restored my nerves, gave me a good color and strength such as I never had before. For the weak and sickly I can truthfully recommend Ferrozone." (Signed) Emma Daigle.

REMEMBER: No mere stimulant or alcoholic concoction can take the place of the nerve and blood nourishment contained in Ferrozone. This true tonic always does what is claimed for it. Sold everywhere in 50c. boxes or six for $2.50. By mail from N. C. Polson & Co., Hartford, Conn. U. S. A., and Kingston, Ont.

UNION LABEL

PETERBOROUGH, DECEMBER 5 1906

THE EARLY CHRISTMAS SHOPPER

It is not too early to make plans for Christmas. Probably by now many have decided how much money they can afford to spend for gifts and to whom they will give them. Shops have begun to take on their gay, holiday appearance, with their Christmas wares spread. This is the best time to begin shopping.

In spite of all good advice and the urging of the merchants there will always be a throng that will wait until the last week. Not a few are impelled to this by financial considerations. The result is the familiar and uncomfortable, though good-natured crush, with its unsatisfactory results to the shoppers. There is a good deal of fun and pleasure to be had by mixing with these late crowds of jolly buyers, but the wise ones are those who have already made their important purchases.

In the first place, the early Christmas shopper gets the cream of the holiday goods. They have not been tarnished by handling and there is the widest possible variety to choose from. There is better service in the stores; the salespeople are not hurried and are more than eager to please the early buyers who make their subsequent labors less trying. Then a better opportunity is afforded to exchange goods which are found later to be unsatisfactory for the purposes intended.

The early Christmas shopper has all the best of it. The assumption is a safe one that those who once follow this plan of buying at the beginning of the season never afterward deviate from it, except for causes over which they have no control.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

Mr. Fred Nicholls on the Tariff

It will be of local interest to note that Mr Frederic Nicholls, managing director of the Canadian General Electric Company, on speaking of the tariff in regard to ship building, has said, the disabilities of the industry have been fully explained to the finance minister, from time to time and all connected with it thought it would receive favorable consideration at his hands. The reason for this consideration being asked, is that there is no other such anomally existing throughout the entire Canadian tariff.

"Those of us who are manufacturing ships have to pay duty on nearly all the material that enters into the manufacture. For instance, if we manufacture engines, boilers or other accessories, we have to pay duty on raw materials, and again, if we import finished engines or boilers we also have to pay duty.

"The same applies to everything included in fittings and furnishings such as furniture, table ware, cutlery, glass ware, and in fact, every detail of a ship. "On the other hand, if a ship is imported from Great Britain, with furnishings complete, it is allowed to enter Canada, absolutely free of duty.

"We are hoping that this matter will receive separate and special consideration at the hands of the finance minister of the government.

THE BLAST FURNACE.

In Cleaning One It Is Necessary to Use Dynamite.

The function of a blast furnace is the reduction of ores to metallic iron. The iron ore, like stone and coke, is put in at the top and the iron and slag are drawn off at the base. The temperature of the interior of a blast furnace when in operation varies according to circumstances, but the molten iron when drawn off is about 1,500 degrees F., indicating a much higher temperature inside.

To withstand such terrific heat, which is maintained by a powerful blast of air which acts much in the same manner as a forced draft on a boiler, the furnace is lined on the inside with a fine grade of fire brick, thoroughly burned. This wall of noncombustible material is about four feet thick, outside of which is the steel jacket of the furnace, about one-quarter of an inch thick.

The lining of a furnace will last from two to six years, according to the nature of the material smelted, the furnace being in continuous operation during that time. It takes about six weeks to reline a furnace.

After a furnace is "blown out," as coupe to be used, there is a quantity of iron which cools and solidifies at the base of the furnace. This is called salamander, and it is necessary to use dynamite to loosen this material and get it out of the furnace so that repairs can be consummated. Salamander has a ready sale, as it is a fine grade of pig iron.

As a rule, when trade conditions are good a blast furnace is never allowed to cool down or be taken out of blast except at intervals of several years for relining.

Took the Wrong House.

On one of the southern railroads there is a station building that is commonly known by travelers as the smallest railroad station in America. It is of this station that the story is told that an old farmer was expecting a chicken house to arrive there, and he sent one of his hands, a newcomer, to fetch it. Arriving there, the man saw the house, loaded it on to his wagon and started for home. On the way he met a man in uniform with the words "Station Agent" on his cap.

"Say, hold on. What have you got on that wagon?" he asked.

"My chicken house, of course," was the reply.

"Chicken house be jiggered!" exploded the official. "That's the station!"

His Promotion.

A somewhat turbulent private wrote to his mother: "I am sorry you had no letter last week, but I am a defaulter, and it gives me a heap of extra work." The good woman in reply begged him not to be too hard on the others, but to remember he had been a private himself. I regret to say that he roared with laughter and read the letter aloud for the benefit of all who shared his room.—Miss M. Loane, a Queen's Nurse, in Contemporary Review.

Musical Note.

A gentleman at a musical party where the lady was very particular not to have the concord of sweet sounds interrupted, seeing that the fire was going out, asked a friend in a whisper. "How could you stir the fire without interrupting the music?"

"Between the bars!" replied the friend.

There is no duty we so much under rate as the duty of being happy —Stevenson.

You cannot possibly have a better Cocoa than

EPPS'S

A delicious drink and a sustaining food. Fragrant, nutritious and economical. This excellent Cocoa maintains the system in robust health, and enables it to resist winter's extreme cold.

COCOA

Sold by Grocers and Storekeepers in ½-lb. and ¼-lb Tins.

A Secret It aids nature a little, that's the only secret about it. We refer to Ayer's Hair Vigor. It feeds the hair, makes the scalp healthy. The hair stops falling out and all dandruff disappears. The result could not be different, for it's the natural way. And it is a splendid dressing, keeping the hair soft and smooth. Why not save what hair you have and get more at the same time? J. C. Ayer Co., Lowell, Mass.

BY-LAW NUMBER

A By-Law to Authorize the Borrowing of the Sum of Fifteen Hundred Dollars for the Purpose of Constructing a Main Sewer on the Right of Way of the Grand Trunk Railway Company from Smith Street to Aylmer Street in the City of Peterborough.

Passed the day of 190.

WHEREAS it is necessary in order to drain a portion of the City lying north-west of the Grand Trunk Railway and between Smith street and Dublin street to construct a main sewer along the right of way of the said Railway from Smith street to connect with the present sewer on Aylmer street and to authorize the borrowing of the sum of Fifteen hundred dollars for that purpose, being the estimated cost of the said work and which is the amount of the debt intended to be created by this By-law.

AND WHEREAS in order to raise the said sum of Fifteen hundred dollars it will be necessary to issue the debentures of the Corporation for the said amount.

AND WHEREAS the amount of the whole rateable property of the Municipality, according to the last revised assessment roll, being for the year 1907, is the sum of Six million nine hundred and fifty-four thousand seven hundred and thirty-one dollars ($6,954,-731).

AND WHEREAS the amount of the existing debenture debt of the Municipality, exclusive of local improvement debts but including the debt of $332,-000 incurred for the purchase and improvement of the waterworks, is the sum of Seven hundred and four thousand and fifty-five dollars and nine cents ($704,055.09), and there is no part of the principal or interest in arrear.

AND WHEREAS it will require the sum of Sixty dollars ($60) to be raised annually for a period of thirty years, the currency of the debentures to be issued under and by virtue of this By-law, for paying the interest on the said debts, and the sum of Twenty-nine dollars and ten cents ($29.10) to be raised annually during the said period for providing a sinking fund for the payment of the same at maturity—such last mentioned sum being sufficient, with the estimated interest on the investment thereof, to discharge the said debt when the same becomes due, making in all the sum of Eighty-nine dollars and ten cents ($89.10) to be raised annually as aforesaid, by special rate on the whole rateable property of the Municipality.

THE CORPORATION OF THE CITY OF PETERBOROUGH BY THE COUNCIL THEREOF THEREFORE ENACTS AS FOLLOWS:

1. This By-law shall take effect on the final passing thereof.

2. It shall be lawful for the Council of the said City of Peterborough to borrow the sum of Fifteen hundred hundred dollars and to issue the debentures of the said Corporation for the said sum, such debentures to be sealed with the Corporate Seal of the City of Peterborough and to be signed by the Mayor and Treasurer and countersigned by the Secretary of the Commissioners of the Peterborough City Trust, and to be made payable within thirty years after the issue thereof, and to bear interest at the rate of four per centum per annum payable half-yearly on the thirtieth day of June and the thirty-first day of December in each year and to have coupons attached thereto for the payment of such interest; such debentures as to principal and interest to be payable at the office of the Secretary of the Commissioners of the Peterborough City Trust in the City of Peterborough.

3. There shall be raised and levied during each year of the currency of the said debentures by a special rate upon all the rateable property of the Municipality, the sum of Sixty dollars ($60) for payment of the interest and the sum of Twenty-nine dollars and ten cents ($29.10) as a sinking fund for the payment of the said debt at maturity thereof, making together the sum of Eighty-nine dollars and ten cents ($89.10) to be raised annually as aforesaid.

4. The proceeds of the said debentures when sold shall be applied to pay for the construction of the said main sewer.

5. The votes of the electors of the City of Peterborough qualified to vote upon By-laws for creating debts shall be taken upon this By-law on the same day as the annual election for Municipal Council for the year 1907 and the polls will be held during the same hours, at the same places and by the same Deputy Returning Officers and Poll Clerks as are appointed and fixed for the said annual Municipal election.

6. The eighth day of January, 1907, at the hour of twelve o'clock noon and the City Clerk's Office are hereby fixed as the time when, and the place where, the Clerk will sum up the number of votes given for and against the By-law.

7. The fifty day of January, 1907, at the hour of twelve o'clock noon and the office of the City Clerk are hereby fixed as the time and place for the appointment of persons to attend at the various polling places at the final summing up of the votes by the Clerk respectively, on behalf of the persons interested in and promoting or opposing the passing of the By-law respectively.

Mayor.
Clerk.

NOTICE

Take notice that the foregoing is a true copy of a proposed By-law which has been taken into consideration and which will be finally passed by the Council of the City of Peterborough (in the event of the assent of the electors being obtained thereto) after one month from the first publication hereof in the Morning Times newspaper, the date of which first publication is the fifth day of December, 1906, and that at the hour, day and place therein fixed for taking the votes of the electors the polls will be held.

S. R. ARMSTRONG,
City Clerk.

TENDERS FOR MINING LANDS

IN PURSUANCE of an Order-in-Council, dated 23nd November, 1906 tenders will be received by the undersigned at the Department of Lands, Forests & Mines, Toronto, Ont., up to the hour of one o'clock in the afternoon of Thursday, the 20th day of December, 1906, for the purchase of those portions of the beds of Cobalt Lake and Kerr Lake situated in the Township of Coleman, in the District of Nipissing, now the property of the Crown, together with the mines, minerals and mining rights therein and thereunder, the same being described as follows:—

PARCEL NUMBER ONE.

Land covered by water of Cobalt Lake. Being composed of the land covered by water of all that portion of Cobalt Lake situate in the Township of Coleman, in the District of Nipissing, lying south and east of the south-easterly limit of the right-of-way of the Temiskaming & Northern Ontario Railway and Cobalt station grounds, together with the Islets in the said portion of said Lake, excepting thereout and therefrom that portion of Cobalt Lake designated as mining location J. B., containing four acres, granted by letters patent, dated 31st July, 1906, to James H. McKinley, Ernest J. Darragh, Robert Gorman and William Anderson, said portion of Lake hereby offered for sale containing by admeasurement forty-six acres, more or less.

PARCEL NUMBER TWO.

Land covered by water of Kerr Lake. Being composed of land covered by the water of Kerr Lake, in the Township of Coleman, in the District of Nipissing, excepting thereout and therefrom those portions surveyed and designated as mining locations J. B. 3, J. B. 10 and J. B. 11, containing by admeasurement two acres, four acres and twelve acres respectively, the two former locations, J. B. 9 and J. B. 10, having been granted by letters patent, dated 22nd June, 1906, to the Canada Iron Furnace Company, Limited, and J. B. 11 having been granted by letters patent, dated 20th June, 1906, to Jacob A. Jacobs, said portion of Lake hereby offered for sale containing by admeasurement twenty-three acres, more or less.

Parcel Number 1 carries with it the right to mines and minerals in the adjacent one-half of the road allowance on the east shore of Cobalt Lake, and lying between the mining locations R. L. 491 and R. L. 494 and the water's edge, provided the veins of deposits extend from the bed of the Lake into or under the said road allowance. See 4 Edward VII., Chapter 22, Section 39.

The boundaries of both parcels will be surveyed and delimited on the ground before the day of sale.

Tenders are to be for each parcel separately, and are to name a lump sum for each parcel, without royalty, payable in full within fifteen days of acceptance of tender.

A marked cheque for ten per cent. of the price offered must accompany each tender, to be forfeited upon non-payment of the balance of the purchase money within the prescribed time.

Tenders to be enclosed in sealed envelopes, marked on the outside in plain letters, "Tender for Cobalt Lake," or "Tender for Kerr Lake," as the case may be, and to be addressed to the Minister of Lands, Forests & Mines, Toronto, Ont.

The highest or any tender not necessarily accepted.

F. COCHRANE,
Minister of Lands, Forests and Mines.

Toronto, Ont., 22nd November, 1906.

201 MERCANTILE BUILDING, DENVER, COLORADO

5 PER CENT Forty Year Gold Bonds

OF THE

Salt Lake Public Service Company

Light *Heat* *Power*

Combining Electric Lighting—Steam Heating—and Water Power Development.

Capitalization, $3,000,000. Authorized Bond Issue $2,500,000

Interest payable semi-annually. Bonds of denomination of $500 and $1,000. Bonds are sold at par with accrued interest and carry a liberal stock bonus of fully paid and non-assessable stock in the Company.

These Bonds are secured by Deed of Trust to "CAPITOL TRUST COMPANY of Columbus, Ohio. The Company conveys title to perpetual water rights situated fifteen miles from Salt Lake City, which will develop 5,000 net horse power at the minimum flow of the streams with a reservoir system to give continuity of service; franchises for light, heat and power in Salt Lake City, and adjacent territory all for a term of fifty years.

A large amount of the capacity of the hydro-electric plants, together with the 6,000 horse power auxiliary steam plant in Salt Lake City, has been contracted for and will be sold in large units to smelting and manufacturing interests, inter-urban railways, etc., by long-term contracts. The "Schott System" of central station heating is being installed in connection with the steam power plant in Salt Lake City. Market for power and steam heat is far in excess of the supply. The Board of Directors are prominent business men of Ohio and Utah.

The construction and management is under the direction of W. H. Schott of the "Schott Systems" of Chicago.

Engineers reports and information in detail will be furnished on application to our Detroit office or THE CAPITOL TRUST COMPANY of Columbus, Ohio, or by any of our representatives at any of our branch offices who are thoroughly familiar with the project from having made an examination on the ground.

The most rigid inquiry is solicited.

We still have a limited number of these shares, that we will sell for 15 cents per share, in blocks of 100 shares or over. Why pay 75 cents for this stock, when you can buy it from us at 15 cents. In ordering same send us bank draft or express order.

For reference we refer you to the Bank of Montreal here, or the Imperial Bank at Nelson, B. C.

One of the greatest opportunities for making large profits in mining stocks is now offered to the public. The Coeur D'Alene Mining District is rapidly becoming one of the greatest mining camps in existence. For every dollar expended twenty dollars has been taken out. Last year over 30,000,000 was produced from this district alone. This is not a new mining district, but one that has been working for years, and the ore bodies are permanent and increase in value with depth.

If you are interested write for our Weekly Market Letter and Quotation Sheet, also map of the Coeur D'Alene Mining District, which we will send free upon request.

We want agents in every city throughout Canada and United States.

"IAN MACLAREN'S" TALK.

Rev. Dr. Watson Tells How English Workmen Accept Marriage—A Humorous Incident to Illustrate View.

As it seemed my happy fortune to be much engaged in marrying, especially at the holiday season of the working people, the register of the district felt it his duty to give me a word in season, writes "Ian Maclaren." Recognizing me as a general practitioner with an increasing circle, he warned me of a certain danger into which I might fall together with my patients, and the consequences of which were serious. He informed me that among a certain class of working people bigamy was by no means uncommon, and that sometimes both men and women, but especially the men, put a broad and generous interpretation on the marriage contract, and he even hinted that within a time little exceeding a year the same man would get married twice. It was suggested that a minister had better keep a watchful eye, and in the event of a bridegroom appearing twice before him within a short period inquire into the circumstances. And the register reinforced my conscience by reminding me that the penalty for a minister lending himself to the violation of law was transportation of something equivalent to that ancient punishment. Greatly quickened, partly by my zeal for morality, partly by a reasonable fear of consequences, I determined to watch with the eye of a detective every couple that came into my room bent on marriage, and to deal firmly with any miscreant I could discover. For some time no suspicious character appeared, and then, carried away by honest zeal, I narrowly escaped one of the most dangerous encounters of my life.

They came in—a the room with emphasis—four people, as usual, the two lovers and the two witnesses, and the manner of the men and their strength suggested workers in iron. After a salutation, guarded on my part, for that register had saturated my mind with suspicion, and aggressive on their part, which was a shield wherewith to protect an unusual situation, they sat down in a row near the door, while I sat down at the table, with the light behind me and falling on their faces. Which is the proper arrangement in a study where you have to size people up and come to conclusions suddenly.

"Those are your papers? Well, let me see that they are all right. You are James McKittrick?"

The bridegroom indicated that he was with some spirit and with the air of one who was entering on a comedy. While already it appeared that he was regarded as a facetious, as well as a determined, person by the group.

For some time I had been haunted with the idea that I had seen the bridegroom before, for his face was one you did not forget readily, and with every minute this idea was deepening into conviction. His broad chest, his strong legs and arms, his bold looks, his forward manner, his air of good humor, his general suggestion of gay recklessness corresponded with some photograph of the past that I was carrying in my memory. Could it be that this was one of those Don Juans in humble life against whom I had been warned.

"James McKittrick," I said slowly, "do you know," and I leant back in my chair and looked steadily at him, "that I have a notion we have met before? More than that, McKittrick, unless I am much mistaken, you were in this room not more than a year ago—in this room, and with a marriage party."

"It's a fact," he blurted out, and then a roguish expression came over his face. His figure filled out again, he thrust forward his head, and was himself once more. "In this room, as ye said," repeating my words with humorous intonation, "but as sure as death, the last time I was here, just eleven months ago, I was the best man."

"Quite so, McKittrick," and I covered my retreat with what dignity I could. "I was certain we had met before. Yours is not a face one can forget."

It was evident that the best thing to do was to hurry on with the service, and I directed the four to stand up and take their places, a movement which Mr. McKittrick, who was now in great spirit, did his best to turn into a comedy, desiring to stand with the bride on one hand and the bridesmaid on the other, and declaring his willingness to be married to them both, which he said was the habit of Mohammedans. It was with great difficulty that I could get the company reduced to a fitting state of mind, and even after they were in their places, Mr. McKittrick was offering genial invitations to the bridesmaid to seize the opportunity, which caused both ladies much amusement.

When it came to the vows, Mr. McKittrick acquitted himself with dignity, affirming everything with a voice which might have been heard in the street, and adding the gratuitous promise that he would keep his bride in order. Then, having done his own duty, he felt himself at liberty to assist me in mine when I put the question to Euphemia.

"Obey, Phemie, ye hear that, and mind ye keep it. It's a wiselike promise," and he demanded to know whether it had been used in the garden of Eden, and without waiting for an answer, which he was not likely to get, he explained to his friend that if the woman had minded that word "obey," they might have been in the garden of Eden yet.

Which showed that Mr. McKittrick had some knowledge of his bible, and also was a gentleman of considerable common sense, though too much carried away by light moods.

During the signing of the papers the happy bridegroom wandered round the room examining the books and pictures with much interest, and various jocose commentaries, till he was brought to the table to sign his name. This sobered him, and he asked to allowed to take off his coat, explaining that it was only in such easy undress he had any liberty with the pen. He also guided the pen not only with his hand but with his tongue, and wrested greatly with his surname, hesitating between two t's and one, and being in some doubt as to whether it looked better to write Mac or Mc—a fine point on which he consulted the company. Once he had accomplished McKittrick, the load lifted from his spirits and he had an easy mine.

50,000 SHARES

OF A

RICH GOLD MINE

IN NEW ONTARIO ALLOTED TO PETERBORO

The undersigned has secured an allottment of 50,000 shares of a rich gold mine in New Ontario. The mine promises to be one of the richest in the Country, and adjoins the great Bloom Mine, which is estimated to be worth over $25,000,000. This stock has par value of $1.00 and will be sold for 50c. a share for the next 30 days. It probably will be worth many times its present value in a short time. Now is the time to invest. There is no risk—it is a sure thing Money needed for developement. For further particulars apply to.

DRS. KENNEDY & KERGAN

140 SHELBY STREET, DETROIT, MICH.

9,600 FEET

Sixty six mining claims.
A crosscut tunnel now in 4,000 feet.
5,600 feet of drifts, shafts and laterals.
A complete 750 h.p. turbine electric power plant.
Numerous Veins Explored.
A Big Industrial and Mining Proposition Combined.
A Strong Directorate.

This is real mining.

The Palmer Mountain Tunnel and Power Company has 66 lode mining claims back of it on Palmer Mountain, near the Town of Loomis, Okanogan County, Washington—about 12 miles south of the boundary of British Columbia. A new railway line is nearly completed and will run within 13 miles of the property. Steamers ply on the Okanogan River to within 28 miles of our properties. There is water—not only for mining purposes, but with unlimited possibilities for power generation. There is timber, there are large, well defined veins proved at great depth—and there is development enough done to make this one of the biggest and best mining propositions in the country.

INTERIOR OF TUNNEL

We can do more with $10 ore on our properties than the desert miners can do with $40 or even higher grade ore. We can make money because we have the FACILITIES on our ground. Our ore can be mined, milled, cyanided and bullion produced for not exceeding $2.50 a ton.

Our immense crosscut bore—a picture of which we show herewith—is now in 4,600 feet, is 9 by 9 in the clear (as large as any of the big transportation and drainage tunnels), and is well timbered, equipped with track, ore cars and everything else essential. In the picture shown herewith, the large pipe running at the top of the right side of the tunnel, is for ventilation purposes and connects with a large, powerful blower.

Recent development on the mountain proves that we shall open up at tunnel level (2,500 feet beneath the surface) an enormous body of copper ore.

We have opened up much $10 ore, and we have a higher grade running up to $50 a ton. This is where the big profit comes from. In the nearly TWO MILES OF WORKINGS we have all the facilities for handling a very large production. Back of it all we have a capable mining and business management. We should be very glad to tell you the complete story. We can only hint at it here.

DRESS YOUR BACK WELL.

If You Neglect That You Will Never Look Well Groomed.

Yes, the back is more important than any other part of the physical structure. Have a good back and you will have a good figure. Preserve a good, straight backbone and you are in duty bound to have a graceful walk and carriage—that with woman is half of her beauty.

A good many curved backs are due to the pillow habit. Women won't sit in straight backed chairs any more at all. The backs of chairs are concave, making a hollow to which the backbone curls itself. Then, most women sleep with head and shoulders propped on several large pillows. The shoulders naturally don't remain straight, as they would were only small pillows placed under the head.

Though we talk a lot about the vanity of woman, and nobody will deny that on the whole each one of us wants to look as well as she can, most women are inclined to be lazy when it comes to dressing the back properly and are content to look well seen from a front view. It is for this reason that we see so many ugly backs, so many backs that are untidy, so many ill fitting garments whose wearers seem oblivious to the fact that the rear view is not hidden by a magic mantle which transforms all defects.

The woman who does not dress her back well will never look well groomed, no matter how costly her apparel may be. If the back is not well fitted extra years will be attributed to her, and, though her face may be void of lines, a bent or humped back or one that is too broad in proportion will relegate her to the limbo where the passe woman mourns her youth.

A GOOD COMPLEXION.

Much More Can Be Done From Within Than From Without.

When a woman desires to improve her complexion one of the most difficult things to get her to believe is that more can be done from within than from without. Very careful living, with a diet formed according to individual peculiarities and combined with plenty of fresh air and exercise, will work positive wonders in a few months. Yet, though the fact has been proved over and over again, few women will give the experiment a trial. They want the elixir of beauty in a bottle, to be doled out in wineglassfuls.

The face, of all parts of the body, is most important, and every care should be taken to promote and enhance its beauty. Wrinkles, if superficial, may always be removed by gentle massage, and children should be warned of the danger they run of permanently disturbing their features by making grimaces. The face should never be washed with anything but soft water.

Half the complexions of women, according to authorities, are ruined by the use of hard water. It destroys all beauty and delicacy of skin and is responsible to a much larger extent than late hours and crowded rooms for the premature appearance of old age.

THE NICE GIRL.

She has so much to do that she has no time for morbid thoughts.

She awakens cheerfully in the morning and closes her eyes thankfully at night.

She never thinks for a moment that she is not attractive or forgets to look as charming as possible.

She is considerate of the happiness of others, and it is reflected back to her as from a looking glass.

She is her own sweet, unaffected, womanly self. Therein lies the secret of her popularity, of her success.

She is always willing to give suggestions that will help some less fortunate one over the bad place in life's journey.

She never permits herself to grow old, for by cultivating all the graces of heart, brain and body age does not come to her.

She believes that life has some serious work to do, that the serious work lies very close to the homely, everyday duties and that kind words cost nothing.—Pittsburg Dispatch.

Chicago's Five Maiden Aunts.

According to William Hard, in the American Magazine, the city of Chicago has five maiden aunts. Mr. Herd says that these women boss Chicago, very much to Chicago's advantage. These aunts, who are bosses, are Margaret A. Haley, Mary McDowell, Julia C. Lathrop, Jane Addams and Dr. Cornelia De Bey. Miss Haley was of course the instigator of the franchise tax fight and is a leader in the municipal ownership movement. Miss McDowell is a trades union organizer among women. Miss Lathrop, single handed, reformed conditions in the charitable institutions of Illinois. Miss Addams, perhaps the best citizen of Chicago, is the head of Hull House. Dr. De Bey, a physician by profession, is a lively member of the board of education.

The Perfect Dinner.

It is a long step from the absurd and vulgar dissipations of the table to the perfection of the delicate art of dining at it is now practiced by lovers of nice eating. Thus, what diner today would be guilty of studying how to prolong his menu rather than how to perfect it, and yet the ancient gormands failed to realise that this is the first rudiment of the art of eating. To weary the palate with excessive feeding is as undesirable as it is to nauseate it with improperly cooked foods. Both are responsible for indigestion.—Jean Marie Devaux in Delineator.

The Careless Doll.

I took my dolly for a walk. Before we reached the gate
She kicked one little slipper off, and soon she lost the mate.

I took my dolly for a ride; it was a windy day.
She broke her pretty parasol; her bonnet flew away.

I took my dolly for a sail, and what did dolly do
But drop her necklace overboard—it was her best one too!

And then, the more I scolded her the more she smiled and smiled.
Now, would you take her out again—she's such a naughty child?

LITTLE NIPISSING

The Best in Cobalt is Not Too Good for You to Buy

All the large profits in Cobalt have been made on strictly inside properties. LITTLE NIPISSING SILVER COBALT MINING COMPANY, LIMITED (No Personal Liability) owns the famous J. B. 2 property, comprising thirty-eight acres in the very heart and centre of the richest producing portion of the camp. It is surrounded on three sides by the original Nipissing, the McKinley-Darragh-Savage, the Temiskaming and Hudson Bay and Silver Queen propreties, and is believed to have the same system of veins. Authorized Capital only $650,000. Par Value of shares $1.00 each Fully Paid and Non-Assessable.

OFFICERS AND DIRECTORS ARE:

SEVRIN FERLAND, Cobalt, mining man, former part owner of the original Nipissing Mine, and part owner of the O'Brien Mine; P. J. FINLAN, Cobalt, mining man and Mayor of Cobalt; ROBERT B. YOUNG, Toronto, of the Crown Bank of Canada; ATWELL FLEMING, Toronto, of the Atwell Fleming Printing Company; ROBERT RAY, Toronto.

BANKERS:

Bank of Montreal, Toronto; Imperial Bank, Cobalt, Ontario.

SOLICITORS:

Clark, McPherson, Campbell & Jarvis, Toronto.

This is a proposition of extraordinary merit and exceptional possibilities for large profits. It is in the same class as the properties that surround it, and is believed to be as good as any of these, and that an investment in the stock at the starting price will prove as profitable as did investments in its neighbors.

FIRST OFFER OF STOCK

We own and offer for sale a small amount of this stock at par, $1.00 per share.

TERMS OF SALE

All orders must be accompanied by remittance in full for the number of shares wanted. Each order will be filled as received until allotment is sold, and remittances received thereafter will be promptly returned to the sender.

Further particulars furnished on application.

THE DIVINE NAME.

Ineffable Word That Is Never Used by Many Israelites.

An eminent rabbi has given his view of the ancient Jewish rendering of the name of the Deity. He says that the term "Jehovah," the ineffable tetragrammaton, is never pronounced by many Israelites. They use the word "Adonoi," which signifies "the Lord." The translators of the Bible followed this custom, rendering the word "Jehovah" as "Lord." In ancient times the Pharisees replaced the tetragrammaton by Shem. They used "Shemo," which is also Biblical, as the sacred name, and this name is yet retained to some extent among the Jews. But it would appear from passages in the Psalms that Adonoi, or Lord, for Jehovah was more ancient even than the times of the Pharisees. It thus occurs eight times in Psalm lxxxiv. It also appears in the book of Exodus, where "Jehovah" had been used in the original Hebrew. This substitution would seem to be older than any other, and it is yet common among all Jews.

The rabbi says he has found that the ancient translations testify in favor of "Adonoi."

Looking at the English translation of the Old Testament, it will be found that the name Jehovah appears in the books of Genesis, Exodus, Judges, the Psalms and Isaiah. It is not in the New Testament.

The Advice of Experience.

It has sometimes been remarked by the student of child life that the only child learns to read sooner than the child belonging to a large family. There may or may not be psychological reasons for this, but the story of the small boy of five who was struggling with his alphabet blocks for the first time may be enlightening to those who wish for reasons. The small boy was really rather interested than otherwise in the large A that fulfilled its usual function of standing for an apple tree, but he had a brother who was nearly eight. "You leave 'em alone," advised the brother; "if you once begin to read you can never leave off."—London Chronicle.

Acting Naturally.

It often requires courage to be natural—a higher form of courage than that which marches behind the safe end of a gun. Moral courage which is not dependent on appearance or intimidated by custom is a finer quality than the daring of the speculator or the unflinching nerve of the soldier exposed to the fire of an enemy. It takes the best stamp of bravery to be true to oneself, and he who is loyal to the inner voice, who keeps faith with himself and maintains self-respect, wins a victory in the battle of life. To live undaunted by the demands of unworthy conventionalism is not to live in vain.

Kaiser Was Coolly Received in Bavaria

Munich, Dec. 3.—Considerable gossip is heard about the cool treatment of the Kaiser when he was here for the ceremony of laying the foundation stone of the German Museum, Institute for Technology, Technical Improvements and Inventions.

Considerable interest was manifested in the event, as this was his majesty's first official visit to the Bavarian capital for thirteen years.

The emperor was regarded a cordial welcome, but the general reception of the imperial guests was not enthusiastic, although popular curiosity and the Bavarian love of festivity were manifest in the large crowds gathered in the streets.

The imperial couple were met at the railway station by the Prince Regent and other princes and the principal court officials. The princesses awaited their majesties at the royal palace, where a quiet luncheon was partaken of.

The streets were prettily decorated mainly under the supervision of prominent artists, the well-known impressionist and Jugendstil groups being well represented, despite the distaste in which they are held in august quarters. The artists also arranged a series of symbolical groups and performances at the Royal Opera House.

The visit had no political aspect, but it is important as showing the general feeling in Bavaria towards secularism and the general attitude towards the imperial government, which, in the south as in the north is not one of contentment.

CATARRH

To prove unquestionably, and beyond any doubt, that Catarrh of the nose and throat can be cured, I am furnishing patients through druggists, small size Trial Bottle of Dr. Shoop's Catarrh Cure. To this treatment I am so certain, that Dr. Shoop's Catarrh Cure will bring actual substantial benefit to Catarrh sufferer, if so entirely as a physician of any ability of real, genuine merit. But there are many pretenses with merit, also the said will not succeed, rather than advance it. Dr. Shoop's Catarrh Cure is a snow white, healing ointment. Put up in beautiful nickel capped glass jars of this shape. Its creamy base, as is Oil Eucalyptus, Cayenne, Menthol, etc., are incorporated into a velvety, cream like Preparation, imported by Dr. Shoop from Europe. If Catarrh of the nose and throat has extended to the stomach, then by all means use my Intestinal Dr. Shoop's Restorative. Stomach distress, a lack of general strength, bloating, belching, biliousness, bad taste, etc., usually call for Dr. Shoop's Restorative. For uncomplicated catarrh only of the nose and throat nothing else, however, need be used but

COPYRIGHT, 1905, BY LOTHROP PUBLISHING COMPANY

you love me," said the young man. "You are young and do not know your own heart."

She rose on tiptoe and fondly touched his cheek with her fingers.

"But I do love you," she whispered.

"I thank God you have told me, but I shall ask you for no promise. A year from now, then, dear, I shall ask you to promise that you will be my wife some time."

"Oh, let me promise now," she whispered.

"Promise only that you will love me if you see none you love better."

They were slowly nearing the door. Suddenly she stopped, looking up at him.

"Are you sure you love me?" she asked.

"Yes," he whispered.

"Sure?"

"As sure as I am that I live."

"And will love me always?"

"Always," he answered.

She drew his head down a little and put her lips to his ear. "Then I shall love you always," she whispered.

Mrs. Vaughn was waiting for them at the fireside. They sat talking awhile.

"You go off to bed, Polly," said the teacher presently. "I've something to say, and you're not to hear it."

"I'll listen," said she, laughing.

"Then we'll whisper," Trove answered.

"That isn't fair," she said, with a look of injury, as she held the candle. "Besides, you don't allow it yourself."

"Polly ought to go away to school," said he, after Polly had gone above stairs. "She's a bright girl."

"And I so poor I'm always wonderin' what'll happen tomorrow," said Mrs. Vaughn. "The farm has a mortgage, and it's more than I can do to pay the interest. Some day I'll have to give it up."

"Perhaps I can help you," said the young man, feeling the fur on his cap.

There was an awkward silence.

"Fact is," said the young man, a bit embarrassed—"fact is, I love Polly."

In the silence that followed Trove could hear the tick of his watch.

"Have ye spoken to her?" said the widow, with a serious look.

"I've told her frankly tonight that I love her," said he. "I couldn't help it, she was so sweet and beautiful."

"If you couldn't help it, I don't see

There was an awkward silence.

how I could," said she. "But Polly's only a child. She's a big girl, I know, but she's only eighteen."

"I haven't asked her for any promise. It wouldn't be fair. She must have a chance to meet other young men, but some time I hope she will be my wife."

"Poor children!" said Mrs. Vaughn. "You don't either of you know what you're doing."

He rose to go.

"I was a little premature," he added, "but you mustn't blame me. Put yourself in my place. If you were a young man and loved a girl as sweet as Polly and were walking home with her on a moonlit night"—

"I presume there'd be more or less lovemaking," said the widow. "She is a pretty thing and has the way of a woman. We were speaking of you the other day, and she said to me: 'He is ungrateful. You can teach the primer class for him, and be so good that you feel perfectly miserable, and give him lessons in dancing, and put on your best clothes, and make biscuit for him, and then perhaps he'll go out and talk with the hired man.' 'Polly,' said I, 'you're getting to be very foolish.' 'Well, it comes so easy,' said she. 'It's my one talent.'"

CHAPTER XVIII.

NEXT day Trove went home. He took with him many a souvenir of his first term, including a scarf that Polly had knit for him and the curious things he took from the Frenchman Leblanc and which he retained partly because they were curious and partly because Mrs. Leblanc had been anxious to get rid of them. He soon rejoined his class at Hillsborough, having kept abreast of it in history and mathematics by work after school and over the week's end. He was content to fall behind in the classics, for they were easy, and in them his arrears gave him no terror. Walking for exercise, he laid the plan of his tale and had written some bits of verse. Of an evening he went often to the Sign of the Dial and there read his lines and got friendly but severe criticism.

"Is there anything you do not know?" Trove inquired.

"Much," said the tinker "including the depth o' me own folly. A man that displays knowledge hath need o' more."

Indeed, Trove rarely came for a talk with Darrel when he failed to discover something new in him—a further reach of thought and sympathy or some unsuspected treasure of knowledge. The tinker loved a laugh and would often search his memory for some phrase of bard or philosopher apt enough to provoke it. Of his great store of knowledge he made no valner use.

Trove had been overworking, and about the middle of June they went for a week in the woods together. They walked to Allen's the first day and after a brief visit there went off in the deep woods, camping by a pond in thick timbered hills. Coming to the lilied shore, they sat down awhile to rest. A hawk was sailing high above the still water. Crows began to call in the treetops. An eagle sat on a dead pine at the water's edge and seemed to be peering down at his own shadow. Two deer stood in a marsh on the farther shore looking over at them. Near by were the bones of some animal and the fresh footprints of a panther. Sounds echoed far in the hush of the unbroken wilderness.

"See, boy," said Darrel, with a little gesture of his right hand, "the theater o' the woods! See the sloping hills, tree above tree, like winding galleries! Here is a coliseum old, past reckoning. Why, boy, long before men saw the Seven Hills it was old. Yet see how new it is, how fresh its color, how strong its timbers! See the many seats, each with a good view, an' the multitude o' the people, yet most o' them are hidden. Ten thousand eyes are looking down upon us. Tragedies an' comedies o' the forest are enacted here. Many a thrilling scene has held the stage—the spent deer swimming for his life, the painter stalking his prey or leaping on it."

"'Tis a royal part," said Trove. "He

PATENTS PROMPTLY SECURED

We solicit the business of Manufacturers, Engineers and others who realize the advisability of having their Patent business transacted by Experts. Preliminary advice free. Charges moderate. Our Inventor's Advisor sent upon request. Marion & Marion, New York Life Bldg., Montreal; and Washington, D.C., U.S.A.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even-numbered section of Dominion Lands in Manitoba or the Northwest Provinces (excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 15 by 1500 feet. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5, renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The leases shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,

Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

ADVERTISE IN THE TIMES.

OUR ZINC COMPANY IS DIFFERENT

Holders of Preferred Stock have a priority lien upon all property until they have received in dividends the par value of their holdings.

Combines the safety of a government bond with the speculative element of a gold mine.

Capitalization is low, only $50,000.00; 200,000 shares are made preferred stock, and passed in the treasury by charter provision. This stock is protected to the complete exclusion of the common stock, until it has earned in dividends an amount equal to its par value.

Zinc mining is the safest, the cheapest, and the most profitable in the realm of mining.

The great Southwestern Lead and Zinc District is the greatest in the world. More than 500 paying mines are located in this district. The Empire Zinc Mine has paid dividends of 250 per cent. The Enterprise Lead and Zinc Mine has paid 350 per cent, and its stock is worth seven times its par value. The Northern Arkansas mineral region is a part of this famous District. The ores from Lawrence and adjoining Counties, Ark., were awarded the Bronze Medal at the late World's Fair, at St. Louis, Mo., U.S.A. Some of these ores were taken from the land where is now located the group of New Era Mines belonging to our Association.

If you want to get in with a live company where things are moving, come with us. Write today. You must act quickly. It is the opinion, and believed by experts and miners, that within a few months our company will be paying large dividends. Development work now done has brought our miners into a zone which is yielding rich ore, and every indication points to an immense deposit of zinc.

We have the mines. We have the ore. We need a concentrating plant for the treatment of this ore. Were it not that we consider it better business policy to sell a block of preferred stock and purchase an equipment of machinery at once than to wait and have our ore treated by custom mills, NOT ONE DOLLARS WORTH OF THIS STOCK WOULD BE OFFERED FOR SALE.

Write to us today for full information.

What Does It Mean?

Dr. Hamilton Gives a Full and Satisfactory Explanation.

Look at your tongue! Sometimes it's heavily coated sometimes it's clear and red.

Study this out and you'll find some interference with the functional activity of the body.

This means the bowels are not regular, the liver is sluggish and the blood is contaminated.

Strong cathartic pills act so destructively on the intestines as to provoke deathly sickness; this often frightens people from taking medicine when they badly need it.

To the multitude of dangerous purgatives now on the market, Dr. Hamilton's Pills are a notable exception, they neither gripe, cause sickly feeling or headache, yet they cleanse and purify the entire system in one night. No other laxative acts with such mildness and certainty. Giving proper stimulus to the liver and kidneys, strengthening the stomach and lending valuable aid to digestion, it's small wonder that such marvelous results accompany Dr. Hamilton's Pills.

Mr. Geo. O'Hagerty, of Amherst, N. S., writes: "Last winter I worked in a lumber camp and neglected my health. I was dreadfully constipated and had a headache that fairly made me reel at times. I was sick and miserable, and hadn't the slightest ambition to work or stir around. I felt heavy and dull and had a bad taste in my mouth. I sent into the city for Dr. Hamilton's Pills, which I knew were good for my condition. They fixed me up very quickly and have kept me in good condition ever since. There are other men in the camp that use Dr. Hamilton's Pills also. They say they wouldn't be without the pills for ten times their price."

Every dealer in the land sells Dr. Hamilton's Pills—25c. per box or five boxes for $1.00. By mail from N. C. Polson and Co., Hartford, Conn., U. S. A., and Kingston, Ont.

WANTED

At the Cereal Works, 30 Girls. The Quaker Oats Co.

Birth.

MITCHELL—To Mr. and Mrs. Chas. Mitchell, (of the Snowden House staff) a son. Both mother and child are doing well.

Did John Cochrane Suicide?

It is now thought that a possibility exists that Mr. John Cochrane, whose death by drowning, was recorded in Monday's issue of The Times, did not commit suicide as at first generally considered. This is due to the fact that it transpired yesterday that the deceased on the night of his death, purchased several articles of clothing and had accepted a job previous to his death. It is now surmised that Cochrane may have accidentally fallen over the bridge railing which is none too high. Only his Maker can settle this doubt.

FEATHER BEDS WANTED

Your last chance to sell us your old Feather Beds. Positively the highest cash price ever paid in this city. Renovating done also.

FEATHER COMPANY, corner Charlotte and Aylmer.

THE NEW TERM

at the

PETERBOROUGH BUSINESS COLLEGE

opens on

TUESDAY SEP. 4, 1906

Intending students should make application as soon as possible. Call at the College or address

WM. PRINGLE,
Opposite Post Office, Principal.

LOCAL INCIDENTS

By The Times Man on the Street

—The schools will close for the Christmas holidays on Friday, December 21st.

—The Peterborough Lumber Company have closed down their mill until next spring.

—Yesterday, Mr. J. H. Gardiner, the auctioneer held a most successful sale of stock in Otonabee.

—The regular meeting of the Daughters of England will be held on Thursday evening, December 6th, in the S.O.E. Hall.

—At the regular meeting of Peterborough Lodge of Elks yesterday evening, officers for the coming term were nominated.

—The Palace Restaurant, 348 George street, yesterday placed a Bell telephone in that popular hotel. The telephone No. is 579.

—The Ladies' Aid Society of Park street Baptist church held a sale yesterday evening at the home of Mrs. Wm. Pilling, 14 Bolivar street.

—The regular monthly meeting of the non-coms of the 57th Regiment will be held tonight. The rooms are open every evening from eight p. m. to 11 p.m.

—Rev. C. H. Brooks, of Grafton, gave an address yesterday evening before the Women's Auxiliary of All Saints' church. He spoke of mission work in Turkey, where he spent several years.

—The new tariff is now in force and anyone finding $100 in his pocket unexpectedly, who has not been playing a little game of "draw," can ponder whether it was the new tariff or incipient insanity.

—Yesterday Mr. Charles Mitchell of the Snowden House staff, seemed to stand some three inches higher and his hat required a shoe-horn to make it fit. The reason was a first born son of some 12 pounds in weight.

—Will Ald. Hicks have opposition for the mayoralty? is now the question agitating local voters. If so it will take a mighty strong man to defeat him, as this alderman has had a good record during his civic career.

—See The Times Bookstore north window display of twenty-five cent articles. Christmas presents of all descriptions for children. A small deposit on goods purchased now will reserve articles. Take advantage of this and have first choice.

—A cottage prayer meeting was held yesterday evening under the auspices of the Salvation Army at the residence of Mr. and Mrs. Venetti, corner of Murray and Aylmer streets. The leaders were Messrs. T. H. Brooks and T. Holden.

—A meeting of the special committee, which was appointed to interview the Peterborough Light and Power Company, re their offer to sell to the city the electric light and gas business was held last night, with Mayor Real in the chair.

Philomathean's Good Debate.

The Philomathean Society of the local Collegiate Institute, held a most successful meeting in the Y. M.C.A. Hall, the chair being ably filled by Miss Reed. Some well rendered and intresting program of music and reading was succeeded by the usual debate, the subject being, Resolved,—"That a University education fits a person for business." The debate was ably contested by Messrs. Frank Austin, Edward Wood and Alan Bravender, for the affirmative, and Misses J. Campbell, M. Burnett, and G. Yeomy, for the negative. The judges, decided in favor of the negative.

Local Folk in Port Hope.

Port Hope Guide says: Rev. Dr. Crothers, of Peterborough, spent part of the day around among his old friends in Port Hope.—Mr. Evert Dingman, physical instructor of the Young Men's Christian Association at Peterborough, spent Sunday with his brother, Mr. P. E. Dingman, instructor in the Y.M.C.A. here.

Mrs. Maybee's Funeral Today.

Yesterday morning Mrs. Jane Maybee, an inmate of the House of Providence, passed away at the mature age of 86 years. The funeral will take place this afternoon at three o'clock from the House of Providence to the Roman Catholic cemetery.

OUT OF SORTS

People Not Really Sick Are Often Most in Need of Care.

The people who actually are most in need of kind words and medical treatment are not those who are really sick, but just "out of sorts."

The end-time energy, force, breath and happy spirits are lacking, the physical and mental powers are lagging; there is poor appetite, and they cannot get the good out of the food they eat. In nine cases out of ten, this results directly from a weakened stomach, and no other treatment equals Mi-o-na to restore strength and health.

When the nerves and muscles are weak, if there is sleeplessness, irritability, and specks before the eyes, when the head aches and there is a dull pain in the back, and there is any distress and heaviness in the stomach, dizziness, and sometimes nausea, the use of Mi-o-na stomach tablets for a few days will make a world of improvement, and continued use for a reasonable time will restore perfect health.

These tablets are not mere digestives; they absolutely strengthen all the organs of digestion, so that there is good appetite, perfect digestion and strong nerves, when they are used.

We absolutely agree that your money will be refunded should you buy a 50-cent box of Mi-o-na stomach tablets and not be satisfied with the results. Mi-o-na is sold by druggists everywhere, or will be sent by mail on receipt of price, 50 cents.

Write today for a free sample package, and also give us your symptoms, and one of the best known toothach specialists will give your case his careful and personal attention without charge. Booths Hyomei Company, Buffalo, N. Y.

SOCIAL AND PERSONAL

—Dr. and Mrs. Holloway are now settled in their new home at 291 Reid street.

—Mrs. Hall, of Peterborough, is the guest of Mrs. W. A. Fanning, William street.—Lindsay Post.

Mr. Harry Dubois of Lindsay, was in the city yesterday en route to Belleville on a business trip.

—Mr. Felix Cody who has been in this city for some months, left last night for his home in Lindsay.

—Mrs. (Dr.) F. C. Neal, 296 King street, will receive this afternoon and not again until after New Year's.

—The young people are looking forward to Mrs. Boultbee's lance at the Metropolitan this evening. Miss Gwyn Hall, of Peterborough, is Miss Gladys Boultbee's guest for the event.—Toronto News.

Roller Rink Closed for the Season

Last night ended roller skating ing at the Charlotte street rink for this season, as the curlers are now about to get busy getting the floor flooded and ice ready for the stones brooms and vocular music. The roller rink has been most successful during the month since its inception, both financially and as a source of public enjoyment.

The management of the roller rink have certainly kept all their obligations and promises and Mr. Sheridan has every reason to acknowledge the way in which his enterprise is starting this expensively inaugurated enterprise has been patronized.

It might be noted that whilst the rink is to be at once flooded and made a sheet of ice for the curlers, precautions have been taken whereby next spring the expensive hardwood floor will be as good as ever for skimming o'er by those on the seductive rollers. A coat of wax, sand and and other ingredients will at once be put on the floor so that in the spring, just as soon as curling is over, the ice may be removed quickly and easily and without damage to the almost perfect roller skating surface.

Handsome Bank Report Issued

Yesterday The Times was shown by the Inspector of the Royal Bank of Canada, now here on an official visit, a copy of the thirty-sixth annual report of that institution. This report is a very handsome booklet beautifully bound showing mezzotint pictures of their branch banks at Halifax, Havana, Sidney and other cities.

The booklet also gives names of the officers and directors. The seventy odd branches together with their correspondents all over the world, and a full list of shareholders is also included.

Full and concise statements regarding the bank's financial statement and progress are naturally given in detail.

One interesting feature is a facsimile copy of the original prospectus of this bank at the time of its inception, with the original signatures. This also includes every particular concerning points of interest in connection with Government regulations, etc., of the Dominion.

Diamond Lodge Elects Officers

Diamond L.O.L., No. 80, at a large meeting at which addresses were delivered by the following brethren, viz., J. B. McWilliams, Dr. Johnston, Dr. Marshall, Rev. A. H. Brace, T. A. Young, District Master, and Robt. Ritchie.

The officers for the coming year were elected as follows;

W.M.—Bro. W. A. Kindred.
D.M.—Bro. Chas. Woley.
Chap.—Rev. A. H. Brace.
R.S.—W. H. G. Armstrong.
F.S.—E. G. Clark.

Funeral of Late Mr. C. Bradburn.

A sad scene was that last night when the last mortal remains of the late Mr. Chas. H. Bradburn, who died at his home in Battleford, arrived in the city. Mr. T. E. Bradburn, M.P. P., went to Fort William, and at Toronto, was joined by his son, Mr. F. L. Bradburn. The funeral will be private, and will be held this afternoon at three o'clock. Interment will take place at Little Lake cemetery.

Debate Under Auspices of T. A. S.

The result of a debate given under auspices of the local T.A.S., was in favor of the negative. The subject for debate was, resolved, "That the Government of the United States is superior to that of Great Britain." The affirmative was taken by Messrs. Joseph Begley, leader, and Jos. Lawlor, while the negative was supported by Messrs. F. R. J. MacPherson, leader and Jas. Drake. The judges were Messrs. D. O'Connell and Wm. Rudkins.

Anchor Ice Caused the Trouble.

Monday's trouble with the Peterborough Light and Power Company's electric lights, was caused by anchor ice. There is a fortune for the man or woman who invents a process or means of preventing anchor ice giving similar trouble. Later on Monday evening the lights of this company became serviceable.

Another Family for Peterboro.'

Mr Sam English of Omemee, was in the city yesterday visiting his son Mr. John J. of the Carriage Works. Mr. English is disposing of his residence, etc., in Omemee and contemplates settling in the city so as to be near his son as mentioned above.

DIED SUDDENLY OF HEART DISEASE.

How frequently does a head line similar to the above greet us in the newspapers. The rush, push and strenuousness of the American people has a strong tendency to lead up to valvular and other affections of the heart, attended by irregular action, palpitation, dizziness, smothered sensations and other distressing symptoms.

Three of the prominent ingredients of which Dr. Pierce's Golden Medical Discovery is made are recommended by some of the leading writers on *Materia Medica* for the cure of just such cases. Golden Seal root, for instance, is said by the UNITED STATES DISPENSATORY, a standard authority, "to impart tone and increased power to the heart's action." Numerous other leading authorities represent Golden Seal as an unsurpassed tonic for the muscular system in general, and as the heart is almost wholly composed of muscular tissue, it naturally follows that it must be greatly strengthened by this superb, general tonic. But probably the most important ingredient of "Golden Medical Discovery," so far as its marvelous cures of valvular and other affections of the heart are concerned, is Stone root, or *Collinsonia Can.*, Prof. Wm. Paine, author of Paine's Epitomy of Medicine, says of it:

"I, not long since, had a patient who was so much oppressed with valvular disease of the heart that his friends were obliged to carry him up-stairs. He, however, gradually recovered under the influence of Collinsonia (medicinal principle extracted from Stone root), and is now attending to his business. Heretofore physicians knew of no remedy for the removal of so distressing and so dangerous a malady. With them it was all guess-work, and it fearfully warned the afflicted that death was near at hand. Collinsonia unquestionably affords relief in such cases, and in most instances effects a cure."

Stone root is also recommended by Drs. Hale and Ellingwood, of Chicago, for valvular and other diseases of the heart. The latter says: "It is a heart tonic of direct and permanent influence."

"Golden Medical Discovery," not only cures serious heart affections, but is a most efficient general tonic and invigorator, strengthening the stomach, invigorating the liver, regulating the bowels and curing catarrhal affections in all parts of the system.

Dr. Pierce's Pellets cure Constipation.

BY-LAW NUMBER

A By-law to Provide for Borrowing the Sum of Thirteen Thousand Eight Hundred and Fifty Dollars for the Purpose of Reconstructing and Repairing Bridges in the City of Peterborough.

Passed the day of 1907.

WHEREAS it is necessary to rebuild the bridges over the Creek on Brock and King streets in the said City of Peterborough and to repair the bridges over said Creek on Reid and and Dalhousie streets, and it is desirable in order to make the said bridges more permanent that the ones to be rebuilt should be constructed of iron and surfaced with concrete, and those to be repaired should also be surfaced with concrete, and it is estimated that the cost thereof will be the sum of Thirteen Thousand eight hundred and fifty dollars, and it is desirable to pass this By-law, to be submitted to the vote of the duly qualified electors of the said City of Peterborough on the same day as the Municipal Election for the Municipal Council of the said City for the year 1907, to authorize the borrowing of the said sum of $13,850 for the purposes aforesaid, which is the amount of the debt intended to be created by this By-law.

AND WHEREAS in order to raise the said sum of Thirteen thousand and fifty dollars it will be necessary to issue the debentures of the Corporation of the City of Peterborough for the said amount.

AND WHEREAS the amount of the whole rateable property of the Municipality, according to the last revised assessment roll, being for the year 1907, is the sum of Six million nine hundred and fifty-four thousand seven hundred and thirty-one dollars ($6,954,731).

AND WHEREAS the amount of the existing debenture debt of the Municipality, exclusive of local improvement debts, but including the debt of $297,000 incurred for the purchase and improvement of the waterworks, is the sum of Seven hundred and four thousand and fifty-five dollars and nine cents ($704,055.09), and there is no part of the principal or interest in arrear.

AND WHEREAS it will require the sum of Five hundred and fifty-four dollars ($554) to be raised annually for a period of twenty years, the currency of the debentures to be issued under and by virtue of this By-law, for paying the interest on the said debt, and the sum of Four hundred and eighty-nine dollars and seventy-five cents ($489.75) to be raised annually during the said period for providing a sinking fund for the payment of the same at maturity—such last mentioned sum being sufficient, with the estimated interest on the investment thereof, to discharge the said debt when the same becomes due, making in all the sum of One thousand and forty-three dollars and seventy-five cents ($1,043.75) to be raised annually as aforesaid, by special rate on the whole rateable property of the Municipality.

THE CORPORATION OF THE CITY OF PETERBOROUGH BY THE COUNCIL THEREOF THEREFORE ENACTS AS FOLLOWS:

1. This By-law shall take effect on the final passing thereof.

2. It shall be lawful for the Council of the said City of Peterborough to borrow the sum of Thirteen thousand eight hundred and fifty dollars and to issue the debentures of the said Corporation for the said sum, such debentures to be sealed with the Corporate Seal of the City of Peterborough and to be signed by the Mayor and Treasurer and countersigned by the Secretary of the Commissioners of the Peterborough City Trust, and to be made payable within twenty years after the issue thereof, and to bear interest at the rate of four per centum per annum payable half-yearly on the thirtieth day of June and the thirty-first day of December in each year and to have coupons attached thereto for the payment of such interest; such debentures as to principal and interest to be payable at the office of the Secretary of the Commissioners of the Peterborough City Trust in the City of Peterborough.

3. There shall be raised and levied during each year of the currency of the said debentures by a special rate upon all the rateable property of the Municipality, the sum of Five hundred and fifty-four dollars ($554) for payment of interest and the sum of Four hundred and eighty-nine dollars and seventy-five cents ($489.75) as a sinking fund for the payment of the said debt at the maturity thereof, making together the sum of One thousand and forty-three dollars and seventy-five cents ($1,043.75) to be raised annually as aforesaid.

4. The proceeds of the said debentures when sold shall be applied in rebuilding and repairing and surfacing with concrete the said bridges.

5. The votes of the electors of the City of Peterborough qualified to vote upon By-laws for creating debts shall be taken upon this By-law on the same day as the annual election for Municipal Council for the year 1907 and the polls will be held during the same hours, at the same places and by the same Deputy Returning Officers and Poll Clerks as are appointed and fixed for the said annual Municipal election.

6. The eighth day of January, 1907, at the hour of twelve o'clock noon and the City Clerk's Office are hereby fixed as the time when, and the place where, the Clerk will sum up the number of votes given for and against the By-law.

7. The fifty day of January, 1907, at the hour of twelve o'clock noon and the office of the City Clerk are hereby fixed as the time and place for the appointment of persons to attend at the various polling places at the final summing up of the votes by the Clerk respectively, on behalf of the persons interested in and promoting or opposing the passing of the By-law respectively.

Mayor.
Clerk.

NOTICE

Take notice that the foregoing is a true copy of a proposed By-law which has been taken into consideration and which will be finally passed by the Council of the City of Peterborough (in the event of the assent of the electors being obtained thereto) after one month from the first publication hereof in the Morning Times newspaper, the date of which first publication is the fifth day of December, 1906, and that at the hour, day and place therein fixed for taking the votes of the electors the polls will be held.

S. R. ARMSTRONG,
City Clerk.

"Savings"

In Harvest time the farmer gathers the fruits of his labors and lays by a portion for the winter—the time when all is going out and nothing coming in. This suggests the opportunity to all wage earners and others of taking advantage of their "harvest time"—that is their earning period—to lay by a portion of their income for "life's winter" when the earning power ceases and expenses continue.

The Morning Times

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL. XXXIV. NO 286 PETERBOROUGH, ONTARIO, THURSDAY, DECEMBER 6 1906 PRICE TWO CENTS

THE MANUFACTURERS WANT SOME CHANGES IN TARIFF

They Seek to Persuade Government to Revise Some Items

THE SENATE COMMITTEES

The Chairmen Are Casgrain, Cloran and Drummond.

Ottawa, Dec. 6.—The agricultural implement manufacturers who interviewed the Finance Minister on Tuesday, asking higher protection on threshers, binders, and certain other farm implements than is given them in the new tariff, were augmented in number this morning, and are pressing for a reconsideration of their case before the tariff resolutions emerge from the committee stage. The amended tariff gives the farm implement men a drawback of 95 per cent. of the duty on theiron and steel that enters into their threshers, etc., a concession which applied heretofore on their export trade alone. The pig iron manufacturers claim that the outcome of the drawback will be to encourage agencies like the International Harvester Company to purchase their raw material in the States. The pig iron men are themselves drawing a bounty of $2.10 per ton on the pig iron they manufacture from Canadian ore and $1.65 a ton on puddled iron bars, but claim that even this will not compensate them for the possible loss of the market that the farm implement factories have lately provided.

COMMANDER SPAIN'S REPORT

Commander Spain of the Marine Department, who has returned from the investigation of the wreck of the steamer Rescute at Toronto, will deliver judgment thereon next week.

THE SENATE COMMITTEES.

The standing committee of the Senate met yesterday morning and organized for the session. Senator J. H. R. Casgrain was elected chairman of the Railroad Committee, Senator Henry Cloran of the Private Bills Committee, Senator Robert Watson of the Internal Economy Committee.

Senator F. M. Young, of the Standing Orders Committee, Sir George Drummond of the Committee on Banking, Senator F. L. Beique of the Committee on Printing and Debates, Senator J. M. Kirchhoffer of the Committee on Divorce.

SUPREME COURT DECISIONS.

In the Supreme Court yesterday judgments were rendered as follows.

Ontario cases:

Bremner versus Caldwell — Appeal dismissed with costs.

Jones vs. McConnell — Appeal dismissed with costs.

Canadian Pacific Railway Company vs. the King (Peterborough Bridge case)—Appeal dismissed with costs.

In the Yukon case of Rutledge vs. United States Savings and Loan Co. the motion to vary the minutes was granted in part without costs.

The appeal from the Exchequer Court in a case of the Canadian Pacific Railway Company vs. the King was then taken up. The question to be decided is whether or not the true interpretation of the Dominion Subsidy Act of 1903, one of the contract in respect to the Pheasant Hills branch of the railway, 130 miles long, in the Province of Saskatchewan, the cost of sufficient rolling stock for the business of the line should be included in estimating the amount of subsidy payable to the company. Mr. Justice Burbidge, in the Exchequer Court, decided that the company was entitled to no relief as a matter of law upon the question under reference. Lafleur, K.C., and Lewis for the appellants; Newcombe, K.C., Deputy Minister of Justice, for respondent.

Football Players Bought Like Mules

Cincinnati, Ohio, Dec. 5. President C. W. Dabney, of the University of Cincinnati, has received the bulk of the blame for this year's disastrous showing by the football team. It is charged that he barred the best players on his strict interpretation of scholarship requirements. President Dabney yesterday gave out a rather heated explanation and defence of his attitude. "In 1905," said he, "men were brought here and given $25 a game—bought like so many horses or mules. No reputable university will allow outside parties to come and take places in this way of men who should be given the privilege of playing. Rhodes and Yeardley were ringers, and were brought to Cincinnati especially to play football. Yeardley went to school here, but Rhodes never attended classes that I know of."

ONTARIO MEDICAL ACT

Court of Appeal Unable to Definitely Interpret Certain Clauses.

Toronto, Dec. 5.—The Court of Appeal has forwarded to the Provincial Secretary Judgment on questions submitted by the Ontario Government as to the interpretation of the Ontario Medical Act with reference to whether osteopaths and other practitioners professing to cure without the administration of drugs, and are not registered under the Act, are entitled to practice. The document is a lengthy one, but still leaves the matter in doubt. The chief justice states that in the absence of a concrete case, an unqualified affirmative or negative cannot be given.

Work on a C. G. E. Co. Building Stopped

It was rumored yesterday that owing to causes not yet satisfactorily explained, work will soon be stopped on the new transformer building which the Dominion Construction and Engineering Company have been erecting at the Canadian General Electric Company's works. Operations will not be resumed until the first of April. The visit of Mr. Frederick Nichols and other officials of the C.G.E. Company, to this city on Tuesday, possibly had something to do with the decision to cease operations.

The new transformer building, as noted in a former issue of The Times, is 310 feet long and 95 feet wide. The steel structure has been completed and the reinforced concrete wall is up twelve feet on the east side and six feet on the west side. Since the recent trouble among the men, Mr. F. Webster has been acting as superintendent and Mr. H. Mayo, of Montreal, as assistant superintendent.

MIDLAND PRINCE HAS BEEN LAUNCHED

Huge Freighter for the Upper Lakes Put in the Water at Collingwood.

Collingwood, Dec. 6.—At noon yesterday, at the shipyards of the Collingwood Shipbuilding Company, the great steel steamship, Midland Prince was launched.

She is built for the Midland Navigation Company, of which Jas. Playfair, is president, and is intended for the grain trade and general lake freights from Port Arthur, Fort William, Duluth, and Chicago to Georgian Bay ports and Lake Erie ports. Being much too large to pass the Welland Canal, she is built exclusively for the upper lake trade, and is of the highest classification, 100 A1 register, and with the most powerful and highest class of engines and boilers, all of which have been constructed at the works of the Collingwood Shipbuilding Co.

There are two Scotch boilers, the largest ever built in Canada, 15 1-2 feet in diameter by 12 feet long between heads, and triple expansion engines 23 inch x 38 1-2 x 65 x 42 inch stroke, 2,200 I.H.P. She is equipped with all the modern outfit of deck, winches, and steam mooring gear, also built at the shops of the Collingwood Shipbuilding Co. Her outfit throughout is the best that can be made, and all round most complete ship to handle and carry cargo safely and cheaply. The complete ship and outfit will cost $300,000, and as a ship that Canada, the owners, and builders may be proud of.

OTHER SHIPS BUILDING.

There is also building at this yard another large steel steamship for the Lyrar Transportation Co. of Collingwood, which will be launched next May she will be 405 feet long, 50-foot beam, and 28 feet deep, with two Scotch boilers, 14 1-2 feet diameter by 12 feet long, with triple expansion engines, 21 x 35 x 57 x 42 stroke, 1,600 I.H.P. This steamer is also building to the highest classification, and is intended for the upper lake trade.

There is also under construction at the yard and works a large seagoing towing steamer for the Canadian Government, also all her machinery, boilers, and outfit. At another part of the shipyard there are three large steel barges also under construction for the Canadian Government.

There are numerous steel and wooden ships for repairs in the dry dock, going to by lying at these works for the winter, where about 1,000 men will be employed.

STANDARD BUYS THE CANADIAN

Toronto Dec. 6.—It was announced yesterday morning that the Standard Loan Company is taking over the Canadian Savings Loan and Building Association. The merger involves assets of close upon two million and one-half dollars. The agreement has been revised by the registrar of loan corporations, and executed by the directors of both companies.

A special general meeting of The Canadian Savings has been called for January 17th to ratify the amalgamation, which will effect a saving of $25,000 a year in working expenses.

The Standard Loan Company is purchasing the whole of the assets of the Canadian, which will cease to exist. The latter company has 5,000 shareholders, and assets of $900,000, comprising mortgages and a small proportion of real estate. It has about $300,000 of permanent stock and over $240,000 of instalment stock. Mr. W. J. Hambly, the president and manager, will occupy a seat on the board of the amalgamated company.

The Standard Loan, of which Mr. W. S. Dinnick is general manager, has absorbed several smaller concerns during the last few years.

Water Lily Broke Away.

Yesterday the good steamer Water Lily took a voyage on her own account, and without anyone as the helm. The steamer was moored in the Otonabee river near the C.P.R. bridge and about 6.30 yesterday evening the pressure of the fast accumulating ice caused the boat to break away from her moorings. Fortunately she was captured as she stranded at McDonald's Point, losing the worse for her involuntary short trip.

Ladies' Aid Held Good Sale.

The Ladies' Aid of Park street church, is to be congratulated upon the success of their sale in the house of Mrs. W. Pilling, Bolivar Street. Rev. A. H. Brace, the pastor was present in his usual encouraging and energetic style. The Misses Teader, each gave a solo and recitation, which were much enjoyed. Miss Nellie Pilling gave one number, after which Master Benton, the baby nephew of "Miss Host," recited one verse of "Two Little Eyes." The sale netted some $20, with still more to dispose of.

STEAMER HICKOX IS A TOTAL LOSS

Took Fire on Sunday Night While Crossing From Oswego to Belleville

THE CREW WAS SAVED

Crew Took to the Yawl and Landed on the Shore of Prince Edward County.

Belleville, Dec. 6.—News has been at last received of the steam barge Hickox, which has been missing since Saturday, when she left Oswego with a cargo of coal for Belleville.

At noon yesterday a telephone message was received here from Capt. Smith from Picton, where he and the crew arrived yesterday morning. The vessel took fire on Sunday night at 10 o'clock in Lake Ontario, and after great difficulty was beached on the Main Ducks Island, near the end of the Prince Edward shore.

All the crew took to the yawl and reached shore. They then drove to Pringer's Cove, and from there drove to Picton.

VESSEL TOTAL LOSS.

The vessel is a total loss, as well as the cargo. Both are insured.

The crew arrived here last night.

Capt Smith says the cause of the fire is unknown. He has had several vessels lost by fire.

The feeling around here yesterday morning when no news of the boat had been received was that the boat had gone down and the whole crew with it. A heavy gale was blowing on Sunday, and coupled with this the opinion generally held that the Hickox had a defective boiler led to the belief that her steam had given out, and being posed at the mercy of the waves she had foundered without being able to signal for help.

The tug Donnelly of Kingston started out yesterday morning with Captain Vandervort of this city on board. He was met there by the citizens of Belleville, and a thorough search was to have been made of all points on both sides of the lower part of the lake.

The boat was owned by its master, Captain Henry Smith, jr. She had on a cargo of coal for W. C. Leavens of this city. She had been in the coal business all season, and though an old boat was considered sound.

WELL WATER'S VICTIMS

Dead Frogs Poisoned Drinking Water —Five in One Family Die of Typhoid.

London, Dec. 5.—With the death of Jacob Winterweder, of Dashwood, at Victoria Hospital on Sunday, there remain now only a mother and two sons of a family of eight. The others have died within eight weeks, being victims of the poisoned water of a contaminated well. A son, Edward, who returned less than two months ago from Chicago in delicate health, to the farm, caught typhoid fever and died within two weeks of his death two sisters, Lovina and Maria, the father and Jacob also took typhoid fever, and one by one they have passed away.

TARIFF DEPUTATIONS

Western Ontario Threshing Machine Makers Ask a Change.

Ottawa, Dec. 5.—Hon. Mr. Fielding is deluged with deputations dissatisfied with the new tariff. Today Mr. Calvert introduced the Western Ontario threshing machine makers. Mr. W. K. George, chairman of the tariff section of the Manufacturers' Association, is also waiting on the minister. The association has voiced its general protest, and the various divisions will take it up in detail.

DISASTROUS FLOOD

Arizona River Destroys Whole Business Section of a Town.

Bisbee, Ariz., Dec. 6.—One of the worst floods in the history of Clifton came down the Arizona River and Chase Creek on Monday night. The principal business section of the town was almost completely ruined. From seven to twenty persons at the report of the loss of life. Mrs. Joe Throm, with her husband and children, was caught in a falling building and killed. The other members of the family had narrow escapes. One of the saloons which was washed away, carried several men into the torrent. They are believed to have been drowned.

A woman and a child were lost in a small restaurant which was smashed to pieces in the flood.

A number of small frame buildings in which persons were known to be living, were destroyed, and it is feared that a number of families perished.

The Coronado Railway, from Clifton to Longfellow, is destroyed. It will be several weeks before business can be resumed over the road. The financial loss cannot be estimated.

Director Says That Settlement is Near

New York, Dec. 6.—A Madrid special, published here yesterday, says the Spanish capital is much excited over the political crisis, brought about by the resignation of the Spanish Ministry on Tuesday. Noisy groups, carrying red banners, gathered in the evening in the neighborhood of the Senate and Chamber, and shouted threateningly.

The police scattered the crowd arresting several persons, but the populace gathered again, and their numbers constantly increased. As the evening advanced the crowds focused in the Puerta del Sol, outside the Ministry of the Interior. Many well-known agitators were busy among the people, and there was much angry talking. A great force of police was out, and the governor held troops in readiness.

Madrid, Dec. 6.—King Alfonso has approved of a new Ministry, under the Premiership of the Marquis de Aranjio, in which General Weyler resumes his old post of Minister for War.

THE PAROLE SYSTEM

Prisoners' Aid Association Asks For Stricter Enforcement of the Law.

Ottawa, Dec. 6.—A deputation from Toronto, composed of Hamilton Cassels, K.C., president of the Prisoners' Aid Association, Warden Gilmour of the Central Prison, and Inspector Hugh, waited on the Minister of Justice yesterday, asking that a stricter enforcement of the parole system, on the ground that no matters stand prisoners are being admitted to the parole who are not worthy of this lenient treatment. The deputation urged that each individual case should be considered on its merits by a committee composed of the vice-president of the Prisoners' Aid Association, the prison warden, and the county Crown attorney before any decision is given thereon.

RELEASED ON PAROLE

Mrs. Cynthia Bell Leaves Penitentiary In Care of Friends.

Kingston, Dec. 6.—Mrs. Bell, who, with her husband was convicted of cruelty to a child in Ottawa some years ago, and sent to the penitentiary here for life, was released yesterday on parole. Her husband was released some time ago.

Warden Platt said that the grounds for the parole of Mrs. Cynthia Bell were only known to the Department of Justice at Ottawa; that he under was only her release. She was over sixty years of age, only in fair health, but had not been confined to bed. Her conduct was fair. Two lady friends came here, and left at eight o'clock for Ottawa, going by way of Brockville.

Port Hope's Assistant Postmaster Leaves

Port Hope, Dec. 6.—Mr. J. S. Hamy, the popular assistant postmaster at Port Hope for some years, left yesterday morning for Calgary, where he has received the appointment of Deputy Postmaster. On the eve of his departure he was presented by the "Victoria" Lodge No. 61, Knights of Pythias, with a good-headed cane, and by "Durham" Lodge, No. 76, I.O.O.F., with a solid gold chain and a handsome Oddfellow locket, suitably engraved.

BRITISH COLUMBIA'S MEDAL

Canadian Apples Win Prizes in English Exhibition.

London, Dec. 6.—At the exhibition of British and colonial fruit, which opened yesterday in the Royal Horticultural Society's Hall, a huge display of apples from British Columbia, was awarded the society's gold medal. The smaller Nova Scotia exhibit gets the Knightian silver gilt medal. Silver medals are also bestowed upon the individual growers. The Morning Post's criticism of these exhibits indicates that, as compared with Kentish fruit, they show a lack of refinement in texture, color, and taste. They are, however, excellent samples of culinary fruit.

Dunburn May Have to Stay in the Ice

Montreal, Dec. 6. — The steamer Dundurn of the Montreal and Hamilton line, is ice-bound in Harbor St. Louis, above Montreal, and unless there is a break in the present cold spell the officials fear that she will have to stay there all winter. This is the first season for the Dundurn, and she has already seen in two serious mishaps. In one of these she carried away lock gates in the Lachine canal. The steamer was making the final trip of the season.

Ottawa, Dec. 6.—It was reported in the Parliamentary precincts yesterday that Hon. W. S. Fielding had been selected by the Dominion Coal Co. and Dominion Iron and Steel Co. to arbitrate the differences that have arisen between them. Hon. Mr. Fielding, in response to an inquiry stated that there was no warrant for the statement of his having been appointed arbitrator. He was doing all he could, however, to effect a settlement of the matters at issue.

ITALIANS LIVE CHEAPLY IN NORTHERN ONTARIO

How Railway Navvies Save Money for Winter Trips to Italy

THE SCARCITY OF LABORERS

Work on the Provincial Road Hampered by Cold Weather.

Toronto Dec. 6.—"So they put their bundles on their backs, their money in their pockets, and set out to walk thirty miles to get a train for Italy."

This is not the ending of a fairy story, but a faithful account of how the Italians employed by the Temiskaming and Northern Ontario Railway wound up their season and left—two hundred of them—for their mother land. The manner of it is told by Chairman Englehart of the Temiskaming Commission, and he hopes that when the Italians come back in spring they will bring many more with them, "For," says he, "with all the railways building, it is going to be very difficult to get laborers next year. We could have used more than we had this summer, and thereby made better progress."

WINTER HAMPERS WORK.

Most of the work on the extension of the T. and N.O. Railway has been dropped for the winter. Steel is laid to a point eighty miles north of Liskeard. The excavation is completed to a point somewhat further north. It is hoped to reach ninety-two miles, McDougall's Cluttes, before winter comes on in earnest. Next spring the road is to be pushed expeditiously north.

"The Italians have gone home for the winter," remarked Mr. Englehart.

"Home where?" Mr. Englehart was asked by a reporter.

"Why, home to Italy. They do that, you know."

"Not every year."

"Indeed, it is their custom, and they live like princes during the months they spend in their native [illegible] people have a wonderful love for their home and their friends. It means a lot to them to get back there."

"I must eat up their savings," ventured the reporter.

"Oh, they can afford it," answered the Commission chairman. "They make from $1.75 to $2.25 per day, according to the kind of work they are on."

THEY LIVE CHEAPLY.

It did not seem very much to provide for a winter in Italy.

"The point is," explained Mr. Englehart, "that they do not spend the money we pay them. How much do you think it costs the average Italian to live up there per month?"

No guess was forthcoming.

"Six dollars," said the Commissioner, "and we don't board them, remember. They have their own ways of getting a living," he went on reminiscently. "One fellow among a number will have a gun. The rest pay their share of the cost of hunting, and what he gets goes into the common pot."

"And what does he get?" Mr. Englehart seemed to be waiting for the question.

"Porcupines, all sort of small animals—rats."

The interviewer gasped, but The Commissioner merely smiled. "Yes," he said, "and it all goes into the pot—sparrows, robins, what you will—with fish at all seasons."

It partly explained the six dollars a month.

THEIR LONG WALK.

"When we paid them off," continued Mr. Englehart reminiscently, "we thought we would persuade them to stay with us. Our train left for the north. The men were at the end of the road. They didn't stay there, though. They were seized with homelonging, and they obeyed the call. They walked thirty miles to Twin Lake. Now they are en route back to Italy."

The Temiskaming road has been somewhat delayed by the scarcity of labor, also by the non-arrival of timber. A trestle across Goose Creek is to be constructed from wood brought from British Columbia. The orders have long been placed, but the timber is not forthcoming. The intention is to rush operations next spring, but the labor outlook is not inviting.

Will the City Close the Deal?

The matter of Peterborough purchasing the electric light and gas works from the Quaker Oats Company, has already been broached in these columns. A special committee, with the mayor included has held a confab with Mr. J. H. Larmonth, to discuss terms, etc., whereby the city might acquire said property and utilize it. It seems that Mr. Larmonth, being an employe of the Quaker Oats Co. was naturally somewhat coy as to giving such information as the committee wanted.

He gave however, the number of lights, arcs and incandescent, which are in use, but that is immaterial until the price is figured out. Mr. Stuart will be in the city on Monday next, when another meeting will be held and possibly afterwards something definite will be given out.

It is the intention of the Quaker Oats Company to at least double the capacity of their whole plant within that time, as well as to greatly extend and develop the street railway, so that they will require a large amount of the power they generate.

Rolling Skating Rink is Closed

Roller skating is a thing of the past until the balmy breezes of spring melt the ice that will for a few days cover the floor of the Charlotte street rink. At the final wind up, prizes were presented to the best gentlemen and lady skaters, with Messrs. Joseph Armstrong, R. Gliddon and J. N. Barber as judges. The prizes were awarded to Mr. Ronald McKee and Miss N. Corne.

Whilst the rink is used by the curlers, the roller skating rink management will do all in their power to have new attractions ready for next April.

House of Refuge Light Considered

The County House of Refuge committee met at Lakefield and discussed the matter of lighting. Mr. Joseph Kelly proprietor of the Lakefield electric light plant, asks six cents per week for each electric light, and as there are to be fifty-five lamps in the building, the entire expense would be $171.60 per year. The matter was finally left with Chairman Garbutt and Warden Johnston to make a better arrangement, if possible.

—Just received a special lot of cloth bound books—none but the very best authors. Suitable for Xmas gifts. On sale at 20 cents each, or six for one dollar. Times Bookstore.

DO NOT DOSE THE STOMACH

Cure Catarrh by Breathing Hyomei. Sold Under Guarantee.

The only scientific and common sense way to treat catarrh of the nose and throat is by a local application that will kill the catarrhal germs.

Ordinary stomach dosing is worse than useless. Taking medicine into the stomach to cure catarrh of the head can have no good effect, and often leads to serious derangement of the digestive organs.

By breathing Hyomei three or four times daily through the neat pocket inhaler that comes with every outfit, its medicated, healing air penetrates to the most remote parts of the nose, throat and lungs, searches out and kills all catarrhal germs, and soothes and heals any irritation in the mucous membrane.

Our faith in the wonderful merit of Hyomei as a cure for catarrh is shown by the guarantee given with every Hyomei outfit that the money will be refunded unless the treatment gives satisfaction.

The complete Hyomei outfit costs but $1.00, extra bottles, if needed, 50 cents. We do not want anyone's money unless Hyomei gives relief and cure, and we absolutely agree that money will be refunded unless the remedy gives satisfaction.

All druggists should be able to supply you with Hyomei or we will send it by mail on receipt of price, and every package is sold with the distinct understanding that it costs nothing unless it cures. Write us today for a symptom blank, which we will send you free, together with treatise on Catarrh and how to cure it. When you fill in and return to us the symptom blank, our consulting physician will give your case the best care and attention, and write you a letter of advice without charge. Booth's Hyomei Company, Buffalo, N. Y.

All Thin, Pale Women

Can Learn the Cause of Their Nervous, Used-up Condition.

With women, ill-health is usually traceable to nerve exhaustion. Feeling run-down and tired most of the time is nature's warning that more nerve-force is required.

You must build up, nourish the body, vitalize the nerves, get more flesh and blood.

It's the abundant nutriment and building material in Ferrozone that enables it to cure so many sick women. It increases the appetite, adds weight and strength, restores lost color and develops a surplus of energy and nerve force that defies sickness of any kind. There is living proof in Mrs. Daniel Ferguson, Jr., of Prescott, Ont Read her statement:

"A year ago my health failed. I grew thin and exceedingly pale. At times I was prostrated with nervous and sick headache. All day I was tired. At night it was difficult to obtain restful sleep. My appetite was variable and indigestion bothered me considerably. I became morose and suffered from heart palpitation. You could scarcely believe the benefit I derived in one week from Ferrozone. Color came back to my cheeks. My vitality and appetite increased, renewed nerve force and better spirits came also. Ferrozone did a world of good and made me well."

Remember this: No alcoholic stimulant can nourish and build up like Ferrozone. Fifty cents per box or six boxes for $2.50. At all dealers, or N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U. S. A.

PETERBOROUGH, DECEMBER 6 1906

THE SENATE VACANCIES

An Ottawa despatch says that, although the Senate vacancies will not be filled for some time, that does not prevent names being prominently mentioned for the positions. Hon. A. H. Corneau is pretty sure to be one and B. F. Pearson or Dr. Kendall the other from Nova Scotia. The appointment of an Acadian from Nova Scotia leaves openings for two English-speaking Senators from New Brunswick. They will be, in all probability, Hon. John Costigan and D. Gilmour. The latter is now in Ottawa. Hon. G. W. Ross is spoken of for the late Senator Vidal's place. It is too early yet to speculate upon a successor to Senator Kerr of Cobourg.

ONTARIO'S HARVEST

Returns prepared by the Ontario Department of Agriculture from 2,000 correspondents in the province show that the harvest of 1906 has been another bumper one.

The harvest of 1905 was one of the best on record. This year's has been probably better.

A big falling off occurred in the yield of clover and hay below 1905, nearly a million tons. And that is worth to the farmer six or eight dollars a ton.

But of wheat there was 60,000 bushels more; a million bushels more of barley, three million bushels more of oats, three-quarters of a million bushels more of potatoes, and three million bushels more of corn. Dairy produce was large, and brought splendid prices. For live stock, poultry and fruit, the conditions have been excellent.

It is not only ten years since Canada has had a poor harvest, but year by year lately the harvests have been better. Our business prosperity is the result.

Narrow Escapes From the Timber Wolves

Batoche, Sask., Dec. 5.—Timber wolves have become more dangerous this season than they were ever known to be before. Since the first heavy snow packs of big wolves have been overrunning this country. They have killed cattle and attacked several persons.

Vaquous Mattoous was forced to climb a tree and remain in the grave cold all night to avoid being devoured. He was rescued by a brother, who heard the pack yelping around him.

Rancher Horace Yatuom was chased for ten miles north of the river, and only escaped death by the fleetness of his horse, which he killed in his furious ride to get away.

Canadian Agent Met With Bad Accident

London, Dec. 5.—Mr. Murray, the Canadian Government agent at Cardiff, met with a serious accident while visiting Bristol. He was running to catch a train to Cardiff, when he slipped on the hotel steps, crushing the forearm of his left arm. He has been taken to the hospital, and a specialist who was called in used X-rays to set the fracture, which was done satisfactorily.

Bruce Walker, who returned recently from Aberdeen, in speaking to the Canadian Associated Press, said he had secured office quarters at Aberdeen, on Gild street, the main thoroughfare leading from the market. The quarters are a large double-fronted store.

The New-York Tri-Weekly Tribune

For those who want to get the New-York news and news of things the world over and don't want to spend the money or time in buying and reading a metropolitan paper every day in the week. The Tri-Weekly Tribune fills the bill. It is issued on Monday, Wednesday and Friday of every week, and contains the essence of The Daily Tribune for the whole week. To those who are interested in the prices of flour, grain, wheat, cotton, livestock, butter, cheese, eggs and other farm products, its market reports are invaluable, because of their correctness. In addition to its valuable news features The Tri-Weekly Tribune gives much prominence to special articles, written by experts, on subjects of direct interest to dwellers outside the big cities, including highway and village improvement, forestry, irrigation, intensive cultivation of small garden plots, etc. Price $1.50 a year. For a free sample copy send a postal card to The New-York Tribune, New York.

COMBINATION OFFER.

The Tri-Weekly Tribune and Metropolitan Magazine one year, $1.05.

The Tri-Weekly Tribune and Outing, one year $3.00.
The Tri-Weekly Tribune and a good serviceable Fountain Pen, with 14-k. Pen, for $2.00.

A CURIOUS CLOCK.

Novel Timepiece Made by a German Horologist.

A globe clock, described in a recent number of a German paper, is very interesting from the point of view of its mechanism. The clock complete on its base measures 18 cm. (about 7 inches) in height, and its sphere has a diameter of about 12 cm. (4¾ inches). This sphere is made of copper, and the oceans and continents are laid on the surface of that metal in enamel. The globe is made in two parts, the northern hemisphere and the southern hemisphere, united by a large circular band, representing the equator, and is divided to mark the twenty-four hours. It is in equilibrium in a Cardanic suspension.

The movement of the clock has a cylinder escapement and runs eight days. The winding is done at the lower part—that is, at the south pole. In two holes made in that part the two times of a special key are inserted and the globe is then turned, like the knob of a stem winder. The barrel is in the center of the globe and turns once every twenty-four hours. It drives a pipe whose extremity projects through the north pole of the sphere and carries a hand ornamented with a sun. At the lower end of this tube the weight is attached, which gives the desired inclination to the globe.

This weight is designed to keep the hand constantly in the same place and to compel the sphere, which is free, to turn in its stead in the opposite direction. The tube to which hand and the weight are fastened is provided with an oiled bearing, so that the clock easily gives the correct time. The circle marked with the hours is turned in such a way that the figure 12—that is, noon—is always on the meridian of the place where the clock is. In this way, the hand remaining fixed, the time is indicated by the figures which slowly revolve one after the other. Besides this, the rotation of the sphere brings the different meridians successively under the hand—that is, under the sun. The clock therefore not only gives the time of day where it actually is, but also shows whereabout on the globe it is noon at the same moment.

Most Disastrous Day at Sea.

Sir Henry Hozier, who has just retired from Lloyd's after thirty-two years' service, said that the most disastrous day at sea he could remember was in October, 1861, when 108 vessels were posted as lost in twelve hours. When a vessel is lost it is announced by the tolling of the bell which hangs beside the crier's box. It is tolled once when a vessel is lost, twice when a missing vessel comes to port. The bell belonged to the Londine, a vessel which went down in the Zuyder Zee over a century ago with a million and a half in coin on board, out of which less than a million was wrenched from the jaws of the sea.

Nervous? There are many causes of nervousness, but poor blood heads the list. The doctors call it anemia. The blood lacks red corpuscles. At your first opportunity, consult your doctor about taking Ayer's Sarsaparilla. Ask him if he has anything better for weakness, debility, nervousness. If he has, take it. If not, take Ayer's Sarsaparilla. Get well, that's what you are after. We have no secrets! We publish all the formulas of all our medicines. J. C. Ayer Co., the first letter of all our medicines. Lowell, Mass.

TEMISKAMING AND NORTHERN ONTARIO RAILWAY COMMISSION

TENDERS FOR MINING LEASES

SEALED TENDERS, addressed to the undersigned and endorsed "Tender for Mining Lease," will be received at the Office of the Commission, 25 Toronto street, Toronto, up to twelve o'clock noon, on Wednesday, the Nineteenth day of December, 1906, for mining leases for 999 years of the following portions of the right of way of the Temiskaming and Northern Ontario Railway:—

PARCEL 1. That portion of the right of way lying between Mileage 90 and Milage 95.

PARCEL 2. That portion of the right of way lying between Mileage 95 and the southerly limit of the lands described in the lease from the Commission to the Right of Way Mining Company, Limited, being Mileage 101.

PARCEL 3. That portion of the right of way lying between the northerly limit of the lands mentioned in the said lease to the Right of Way Mining Company, Limited, being Mileage 105 to 108.

An accepted cheque on a chartered bank of Canada, payable to the order of the Chairman and the Secretary-Treasurer of the Commission, for the amount of the cash bonus (which must not be less than $1,000 per mile) tendered for such lease, must accompany each tender.

Forms of tender and of proposed leases (reserving a rental of $1 per annum plus 25 per cent. of the gross value at the mouth of the mine of all ore mined) and full information and plans showing location in respect of each parcel may be examined at the said Toronto Office of the Commission.

The tenders must be made on the forms supplied by the Commission for the purpose, and signed with the actual signature of the parties tendering.

In the case of each parcel, the party whose tender is accepted be required to promptly execute a lease in form satisfactory to the Commission; failing which his deposit will be absolutely forfeited to the Commission.

The cheques sent in by unsuccessful tenderers will be returned to them.

The Commission does not bind itself to accept the highest or any tender.

H. W. PEARSON,
Secretary-Treasurer.

Toronto, 16th November, 1906.

50,000 SHARES

OF A

RICH GOLD MINE

IN NEW ONTARIO ALLOTED TO PETERBORO

The undersigned has secured an allottment of 50,000 shares of a rich gold mine in New Ontario. The mine promises to be one of the richest in the Country, and adjoins the great Bloom Mine, which is estimated to be worth over $25,000,000. This stock has par value of $1.00 and will be sold for 50c. a share for the next 30 days. It probably will be worth many times its present value in a short time. Now is the time to invest. There is no risk—it is a sure thing. Money needed for developement. For further particulars apply to.

THOS. PATTERSON & CO.

BROKERS,

161 SIMCOE STREET PETERBORO.

9,600 FEET

Sixty six mining claims.
A crosscut tunnel now in 4,000 feet.
5,000 feet of drifts, shafts and laterals.
A complete 750 h.p turbine electric power plant.
Numerous Veins Explored.
A Big Industrial and Mining Proposition Combined.
A Strong Directorate.
This is real mining.

The Palmer Mountain Tunnel and Power Company has 66 lode mining claims back of it on Palmer Mountain, near the Town of Loomis, Okanogan County, Washington—about 12 miles south of the boundary of British Columbia. A new railway line is nearly completed and will run within 12 miles of the property. Steamers ply on the Okanogan River to within 28 miles of our properties. There is water—not only for mining purposes, but with unlimited possibilities for power generation. There is timber, there are large, well defined veins proved at great depth—and there is development enough done to make this one of the biggest and best mining propositions in the country.

INTERIOR OF TUNNEL

We can do more with $10 ore on our properties than the desert miners can do with $40 or even higher grade ore. We can make money because we have the FACILITIES on our ground. Our ore can be mined, milled, cyanided and bullion produced for not exceeding $3.50 a ton.

Our immense crosscut bore—a picture of which we show herewith—is now in 4,000 feet, is 9 by 9 in the clear (as large as any of the big transportation and drainage tunnels), and is well timbered, equipped with track, ore cars and everything else essential. In the picture shown herewith, the large pipe running at the top of the right side of the tunnel, is for ventilation purposes and connects with a large, powerful blower.

Recent development on the mountain proves that we shall open up at tunnel level (2,500 feet beneath the surface) an enormous body of copper ore.

We have opened up much $10 ore, and we have a higher grade running up to $50 a ton. This is where the big profit comes from. In the nearly TWO MILES OF WORKINGS we have all the facilities for handling a very large production. Back of it all we have a capable mining and business management. We should be very glad to tell you the complete story. We can only hint at it here.

DARREL of THE BLESSED ISLES

By IRVING BACHELLER,

Author of "Eben Holden," "D'ri and I," Etc.

COPYRIGHT, 1905, BY LOTHROP PUBLISHING COMPANY

is the murderer of the play. I cannot understand why there are so many villains in its cast. Both the cat and the serpent baffle me."

"Marry, boy, the world is a great school, an' this little drama o' the good God is part of it," said Darrel. "An' the play hath a great moral—thou shalt learn to use thy brain or die. Now, there may be many perils in this land o' the woods, so many that all its people must learn to think or perish by them. A pretty bit o' wisdom it is, sor. It keeps the great van moving—ever moving—in the long way to perfection. Now, among animals a growing brain works the legs of its owner, sending them far on diverse errands until they are strong. Mind thee, boy, perfection o' brain an' body is the aim o' nature. The cat's paw an' the serpent's coil are but the penalties o' weakness an' folly. The world is for the strong. Therefore God keep thee so or there be serpents will enter thy blood an' devour thee—millions o' them."

They sat a little time in silence, looking at the shores of the pond.

"Have you ever felt the love passion?" said Darrel.

"Well, there's a girl of the name of Polly," Trove answered.

"Ah, Polly! She o' the red lips an' the dark eye," said Darrel, smiling. "She's one of a thousand." He clapped his hand upon his knee merrily and sang a sentimental couplet from an old Irish ballad.

"Have ye won her affection, boy?" he added, his hand on the boy's arm.

"I think I have."

"God love thee! I'm glad to hear it," said the old man. "She is a living wonder, boy, a living wonder, an' had I thy youth I'd give thee worry."

"Since her mother cannot afford to do it I wish to send her away to school," said Trove.

"Tut, tut, boy. Thou hast barely enough for thy own schooling."

"I've $82 in my pocket," said Trove proudly. "I do not need it. The job in the mill—that will feed me and pay my room rent, and my clothes will do me for another year."

"On my word, boy, I like it in thee," said Darrel, "but surely she would not take thy money."

"I could not offer it to her, but you might go there, and perhaps she would take it from you."

"Capital!" the tinker exclaimed. "I'll see if I can serve thee. Marry, good youth, I'll even give away thy money an' take credit for thy benevolence. Teacher, philanthropist, lover—I believe thou'rt ready to write."

"The plan of my first novel is complete," said Trove. "That poor thief—he shall be my chief character—the man of whom you told me."

"Poor man! God make thee kind to him," said the tinker. "An thou'rt willing, I'll bear o' him tonight. When the firelight flickers—that is the time, boy, for tales."

They built a rude lean-to, covered with bark and bedded with fragrant boughs. Both lay in the firelight, Darrel smoking his pipe, as the night fell.

"Now for thy tale," said the tinker.

The tale was Trove's own solution of his life mystery, shrewdly come to after a long and careful survey of the known facts. And now, shortly, time was to put the seal of truth upon it and dash him with astonishment and fill him with regret of his cunning. It should be known that he had never told Darrel or any one of his coming in the little red sleigh.

He lay thinking for a time after the tinker spoke; then he began:

"Well, the time is 1885, the place a New England city on the sea. Chapter I—A young woman is walking along a street, with a child sleeping in her arms. She is dark skinned—a Syrian. It is growing dusk. The street is deserted save by her and two sailors, who are approaching her. They, too, are Syrians. One seems to strike her—it is mere pretense, however—and she falls. The other seizes the child, who, having been drugged, is still asleep. A wagon is waiting near. They drive away hurriedly, their captive under a blanket. The kidnapers make for the woods in New Hampshire. Officers of the law drive them far. They abandon their horse, tramping westward over trails in the wilderness, bearing the boy in a sack of sailcloth, open at the top. They had guns and killed their food as they traveled. Snow came deep. By land by game was scarce and they had grown weary of bearing the boy on their backs. One waited in the woods with the little lad while the other went away to some town or city for provisions. He came back, hauling them in a little sleigh. It was much like those made for the delight of the small boy in every land of snow. It had a box painted red and two bobs and a little dashboard. They used it for the transportation of boy and impediments.

"In the deep wilderness beyond the Adirondacks they found a cave in one of the rock ledges. They were twenty miles from any postoffice, but shortly discovered one. Letters in cipher were soon passing between them and their confederates. They learned there was no prospect of getting the ransom. If they had thought rich was not able to raise the money they required or any large sum. Two years went by, and they abandoned hope. What should they do with the boy? One advised murder, but the other defended him. It was unnecessary, he maintained, to kill a mere baby, who knew not a word of English and would forget all in a month. And murder would only increase their peril. Now, eight miles from their cave was the cabin of a settler. They passed within a mile of it on their way out and in. They had often met the dog of the settler roving after small game—a shepherd, trustful, affectionate and ever ready to make friends. One day they captured the dog and took him to their cave. They could not safely be seen with the boy, so they planned to let the dog go home

(To be continued)

DISEASES OF MEN

DRS. K & K

Thousands of young and middle-aged men are annually swept to a premature grave through IMPRUDENT HABITS, EXCESSES AND BLOOD DISEASES. If you have any of the following symptoms consult us before it is too late. SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of the Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so

SYNOPSIS OF CANADIAN NORTHWEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $20 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 15.0x1500 feet. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

Certain mineral claims generally are 500 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,

Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

Pale Faced Girls

Thousands Using Successful Cure For Paleness and Anaemia

The pallid girl always lacks appetite. What little she eats is badly digested.

At night she is restless, she dozes, but doesn't sleep soundly.

Vital forces must be increased, new blood must be supplied and a general rebuilding take place before she will feel like she ought.

Dr. Hamilton had invaluable experience in these cases and found nothing so prompt in building up the young women as his vegetable pills of Mandrake and Butternut.

Dr. Hamilton's Pills begin by cleansing the system and purifying the blood, they also improve digestion and render food ready for absorption. Additional nourishment is quickly supplied and the patient is fast strengthened and invigorated.

Full of spirit, ruddy and strong is the girl that assists her system by Dr. Hamilton's Pills.

The following recent letter from Miss Etta McKwen, of Haliburton, speaks for itself:

"In using Dr. Hamilton's Pills I find my system is wonderfully built up. It is certainly the most effective remedy I ever used. I have now a good appetite, sleep soundly and awaken in the morning feeling quite refreshed.

"Formerly I felt tired and depressed. I ached as if a severe illness was brewing over my head. Nothing could give quicker results than Dr. Hamilton's Pills and I strongly advise every young woman to use them."

All dealers sell Dr. Hamilton's Pills, 25c per box or five boxes for $1, by mail from N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

LOCAL INCIDENTS

By The Times Man on the Street

—The regular monthly meeting of the non-coms of the 57th Regiment was held last night.

—Mr W. R. Barefoot, late of Hoyt's studio has an excellent position in the Topley studio on Sparks street, Ottawa.

—Apsley now wants telephone communication. It is possible that the Bell Co. with their proverbial enterprise may extend their Burleigh line.

—The Quaker Football Club held a banquet at Hooper's Palm Gardens last night. A large number were present and a most enjoyable evening spent.

—The farce comedy "Ugly As Sin," was given in St. John's church, Lakefield, yesterday evening, by the members of the Girls' Guild of All Saints' church.

—The Chinamen who have rented the city's store recently occupied by Mr. Sheridan, are in the city, and will open up a chop suey restaurant in a few days. Look out for Fire and Phinney.

—Last night members of the 57th Regt. Band met in the band hall to consider final arrangements for the visit of Victor and his famous Victorian Band, at the opera house on Friday night next.

—See The Times bookstore north window display of twenty-five cent articles. Christmas presents of all descriptions for children. A small deposit on goods purchased now will reserve articles. Take advantage of this and have first choice.

—Prince's Institute meetings were held at Norwood yesterday afternoon and evening. Messrs. Glendenning and Clarke, the delegates for this district, left for Norwood at noon. Meetings will be held at Keene today.

—A general meeting of the shareholders of the Ontario Power Co. has been called for Friday, Dec. 14th, when a by-law will be placed to increase the capital stock from $200,000 to $600,000. Four thousand new shares at $100 a share will be issued.

—The latest addition to local clubs is the "Left-hand" club. This new organization starts with some thirty members. The president is Dr. Jas. Hoolihan and Mr. A. Johnston is secretary treasurer. The motto of the club is "Don't do it with the right hand, when the left hand can do the work."

—There was nothing in the estimates for the Trent Valley Canal. Can it be possible that, after all the Government's talk, it is going to sidetrack that momentous question? Or is Laurier afraid to name either Port Hope or Trenton as the terminus, for fear of offending the other fellows?—Belleville Intelligencer.

Four School Board Members May Retire

It is now up to the ratepayers to put on their "thinking caps," and consider whom they will elect to replace the four retiring members of the Board of Education, in case these gentlemen should refuse to stand again, or that others might seem preferable to any or all of the present members whose terms for office expires. Those who will either have to retire or stand for re-election are, Messrs. Ackerman, Fair, Ferguson and Morrison.

It is quite within the bounds of possibility, owing to the past record of this quartette, that they may all be asked to retain their onerous and responsible positions and receive no opposition. This, however, is a matter for those qualified to vote, to consider and adjust.

Ald. McWilliams May Run.

As several enquiries have been made at The Times office, within the past few days as to whether Ald. R. F. McWilliams will be a candidate for the mayoralty or not, we might note that this matter is still a bigger conundrum as "Where was Moses when the light went out." Yesterday this city father was apparently undecided but he will give a definite answer in a few days. In the meantime Mr. Hicks is promised candidate is making a strong canvass and meeting with most encouraging response.

As between a coal dealer who employs a large number of men and has been chairman of some of the leading city committees, and a bright young lawyer, there is little to say in advocacy of either men should they both enter the field.

Farmers Held Good Meeting.

The West Peterborough Farmers Institute, had a most successful meeting in the North Monaghan town hall on Tuesday, with President Telford in the chair. Messrs. Clarke and Glendenning gave vigorous and instructive addresses. Mr. Clarke spoke most effectively on "Grading up the Dairy Herd." Mr. Glendenning gave an interesting address upon beautifying the farm. Mr. T. M. Hunter, ex-president, also gave an address, referring to the good mark it this city affords. Mr. Ed Elliott, county treasurer, also delivered a humorous address.

Small Blaze at C. G. E. Co.

The fire brigade at noon yesterday, in answer to an alarm, went on one, two, three time to the Canadian General Electric Works. However, the blaze had been practically extinguished before their arrival. The fire was in the porcelain department and did little damage.

More Mails for Bobcaygeon.

The Bobcaygeon Independent says: A new service this week, is the despatch of a mail by the morning train. This will enable business men to do their correspondence after hours, in the evening, when they might be better employed in taking their ease and comfort in the bosoms of their families. It will in some respects be a convenience.

Dr. Pierce's Favorite Prescription,

Is not a secret or patent medicine, against which the most intelligent people are quite naturally averse because of the uncertainty as to their harmless character, but is a medicine of KNOWN COMPOSITION, a full list of all its ingredients being printed, *in plain English*, on every bottle wrapper. An examination of this list of ingredients will disclose the fact that it is non-alcoholic in its composition, chemically pure glycerine taking the place of the commonly used alcohol, in its make-up. The "Favorite Prescription" of Dr. Pierce is in fact the only medicine put up for the cure of woman's peculiar weaknesses and ailments, sold through druggists, that does not contain alcohol and *that is to large quantities*. Furthermore, it is the only medicine for woman's special diseases, the ingredients of which have the unanimous endorsement of all the leading medical writers and teachers of all the several schools of practice, and that too as remedies for the ailments for which "Favorite Prescription" is recommended.

A little book of some of these endorsements will be sent to any address, postpaid, and absolutely *free* if you request same by postal card or letter, of Dr. R. V. Pierce, Buffalo, N. Y.

Don't forget that Dr. Pierce's Favorite Prescription, for woman's weaknesses and delicate ailments, is not a patent or secret medicine, being the "Favorite Prescription" of a regularly educated and graduated physician, engaged in the practice of his chosen specialty—that of diseases of women—that its ingredients are printed *in plain English* on every bottle-wrapper; that it is the only medicine especially designed for the cure of woman's diseases that contains no alcohol, and the only one that has a professional endorsement worth more than all the so-called "testimonials" ever published for other medicines. Send for these endorsements as above. They are *free* for the asking.

If you suffer from periodical, headache, backache, dizziness, pain or dragging down sensation low down in the abdomen, weak back, have disagreeable and weakening, catarrhal, pelvic drain, or are in distress from being long on your feet, then you may be sure of benefit from taking Dr. Pierce's Favorite Prescription.

Dr. Pierce's Pleasant Pellets the best laxative and regulator of the bowels. They invigorate stomach, liver and bowels. One a laxative; two or three a cathartic.

SOCIAL AND PERSONAL.

—Mr John Jiya, of the Munro House staff is laid up ill at his residence.

—Mrs J. H. Miller will receive on Thursday afternoon, December 6th, and not again until after the New Year.

—Rev. F. J. Steed will speak at the Y.M.C.A. on Sunday. This will be his last address to men before leaving the city.

—The funeral of the late Mr. C. Bradburn, whose body had arrived on the midnight train was held yesterday and was private.

—Mrs Davenport of Havelock, a few days ago, whilst visiting her daughter Mrs. S. J. Cross, tripped over a stick of wood, and both sustained a severe sprain of an arm and cut her head.

How's This ?

Take Hall's Family Pills for constipation.

Mr. Finnie Gave the Alarm.

The Times ascertained yesterday that it was Mr. Edward Finnie, the night watchman who first turned in the alarm Tuesday night when Messrs. Rich. Hall & Son's drygoods store was afire instead of Mr. Lang, as at first erroniously reported. This correction is made in justice to Mr. Finnie, who is a most wide-awake and trustworthy official, and who protects the stores whilst their owners are asleep.

Mr. Knowles, the Author to Lecture.

Through the efforts mainly of Mr. D. Hughes-Charles, manager of the local branch of the Canadian Bank of Commerce, Rev R. E. Knowles of Galt, author of "St. Cuthberts" and "The Undertow," will lecture in Peterborough in January, under the auspices of the Young Men's Christian Association. The Educational Committee will meet on Friday evening to decide on the details of the arrangements.

Bank Manager Leaving.

The many friends of Mr. J. L. Grant, who has so efficiently filled the position of acting manager of the Bank of Nova Scotia in this city, will regret to learn that he is about to be removed to some point not yet known in Nova Scotia, to relieve a manager of that bank. Mr. Grant will be succeeded by Mr. Ferguson, who is well known here Ferguson, who is well known to many of our citizens.

Across Chemong Lake on Ice.

Mr. Dan Wheatung of the Chemong Indian River, called at The Times office yesterday morning and informed us that he and two ladies, on a spring wagon drawn by a team, together with some five hundred-weight of goods, drawn across the ice from Bensmore to Chemong village. His brother Mr. Albert Wheatung also followed him with his chemong team and wagon.

Locally Known Jockey Wins.

Referring to an old Whitby boy, and a near relative of Mr. Sam Ray, the local cricketer, the Toronto World says:—Jockey Nat Ray won his first mount in England shortly after his arrival. Ray went to the track merely to view the jumping races, and was asked to don the colors of the owner of Aera, which he did, winning his race.

BY-LAW NUMBER

A By-Law to authorize the borrowing of the sum of eight thousand dollars for drainage purposes in Wards Numbers 3, 4 and 5, of the City of Peterborough, and to provide that all future payments to be made under By Law Number 689 of the said Municipality shall be paid by general tax.

Passed the day of 1907.

WHEREAS by Chapter xx of the Statute of the Province of Ontario, passed in the sixth year of the reign of His Majesty King Edward the Seventh, it is among other things provided that it should be lawful for the Council of the Corporation of the City of Peterborough to proceed with the drainage works and diversion of the water course in Ward Number 5 according to the reports, specifications and detailed estimates and plans prepared therefor by the City Engineer and filed in the office of the City Clerk and for the purpose of providing for the diversion of a water course in Wards Numbers 3 and 4 to construct a drain from the right of way of the Grand Trunk Railway to the River Otonabee and that the cost of and incidental to such works should be payable by the Municipality at large by a general tax on the whole rateable property of the Municipality and the said Act further provided that it should be lawful for the said Council, having first obtained the consent of the ratepayers of the City qualified to vote on money by-laws, to pass a by-law authorizing the borrowing on the credit of the Municipality of a sum not exceeding $8,000 to pay the cost of the said works and to issue and dispose of the debentures of the said Corporation therefor to be payable within thirty years from the date of the issue of the same.

AND WHEREAS by the said Act it is recited that in the year 1903 a certain drain was constructed in Wards Number 1 and 2 (which is commonly known as the Park Street Drain) and debentures were issued under By-law Number 689 to pay for same and that the portion payable by the ratepayers by special tax on the lands benefitted has been paid up to the time of the passing of the said Act, but owing to the construction of sewers in the same locality the said property is now assessed for the said sewers and that it is inequitable that the same property should be assessed for both said drain and sewers and that the amount payable by the ratepayers by said special rate being the sum of $211.44 per year for the next eight years should be paid by general tax and it is provided that it should be lawful for the said Council, with the assent of the ratepayers aforesaid, to pass a By-law to provide that all future payments of interest and sinking fund on the debentures issued under said By-Law Number 689 should be paid by general tax sufficient for that purpose on the whole rateable property of the Municipality;

AND WHEREAS before this By-law can be passed the said special rate will be payable for this present year and there will remain only seven yearly payments under the said By-law.

AND WHEREAS it is necessary pursuant to the provisions of the said recited Act to pass this By-law for the purpose of authorizing the borrowing on the credit of the Municipality of the said sum of Eight thousand dollars for the purposes aforesaid, and to provide that all future payments under said By-law Number 689 shall be paid by general tax, and to submit the same to the duly qualified ratepayers as aforesaid.

AND WHEREAS in order to raise the said sum of Eight thousand dollars, which is the amount of the debt intended to be created by this By-law, it will be necessary to issue the debentures of the Corporation for the said amount.

AND WHEREAS the amount of the whole rateable property of the Municipality, according to the last revised assessment roll, being for the year 1907, is the sum of Six million nine hundred and fifty-four thousand seven hundred and thirty-one ($6,954,731).

AND WHEREAS the amount of the existing debentures debt of the Municipality, exclusive of local improvement debts but including the debt of Two hundred and ninety-two thousand dollars ($292,600) incurred for the purchase, chase and improvement of the waterworks is the sum of Seven hundred and four thousand and fifty-five dollars and nine cents ($704,055.09) and there is no part of the principal or interest in arrear.

AND WHEREAS it will require the sum of Three hundred and twenty dollars ($320) to be raised annually for a period of thirty years, the currency of the debentures to be issued under and by virtue of this By-law, for paying the interest on the said debt, and the sum of One hundred and fifty-five dollars ($155) to be raised annually during the said period for providing a sinking fund for the payment of the same at maturity—such last mentioned sum being sufficient, with the estimated interest on the investment thereof, to discharge the said debt when the same becomes due, making in all the sum of Four hundred and seventy-five dollars ($475) to be raised annually as aforesaid, by special rate on the whole rateable property of the Municipality.

AND WHEREAS it will require the sum of Three hundred and eleven dollars and forty-four cents ($311.44) to be raised annually for the period of seven years to pay the interest and sinking fund on the debentures issued said By-law Number 689.

THE CORPORATION OF THE CITY OF PETERBOROUGH BY THE COUNCIL THEREOF THEREFORE ENACTS AS FOLLOWS:

1. This By-law shall take effect on the final passing thereof.

2. It shall be lawful for the Council of the said City of Peterborough to borrow the sum of Eight thousand dollars and to issue the debentures of the said Corporation for the said sum, such debentures to be sealed with the Corporate Seal of the City of Peterborough and to be signed by the Mayor and Treasurer and Countersigned by the Secretary of the Commissioners of the Peterborough City Trust, and to be made payable within thirty years after the issue thereof, and to bear interest at the rate of four per centum per annum payable half-yearly on the thirtieth day of June and the thirty-first day of December in each year and to have coupons attached thereto for the payment of such interest, such debentures as to principal and interest to be payable at the office of the Secretary of the Commissioners of the Peterborough City Trust in the city of Peterborough.

3. There shall be raised and levied during each year of the currency of the said debentures by a special rate upon all the rateable property of the Municipality, the sum of Three hundred and twenty dollars ($320) for payment of the interest and the sum of One hundred and fifty-five dollars as a sinking fund for the payment of the said debt at the maturity thereof making together the sum of Four hundred and seventy-five dollars to be raised annually for the purposes aforesaid.

4. There shall be raised and levied during each year for the next seven years by a special rate sufficient for that purpose upon all the rateable property of the Municipality the sum of Three hundred and eleven dollars and forty-four cents ($311.44) to pay the interest and sinking fund on the debentures issued under said By-law Number 689 and the same shall be so applied.

5. The proceeds of the said debentures when sold shall be applied in payment of the cost of and incidental to the said drainage works in Ward Number 5 and Wards Numbers 3 and 4 of the said City.

6. The votes of the electors of the City of Peterborough qualified to vote upon a By-law for creating debts shall be taken upon this By-law on the same day as the annual election for the Municipal Council for the year 1907 and the polls will be held during the same hours, at the same places and by the same Deputy Returning Officers and Poll Clerks as are appointed and fixed for the said annual Municipal elections.

7. The eighth day of January, 1907, at the hour of twelve o'clock noon and the City Clerk's Office are hereby fixed as the time when, and the place where, the Clerk will sum up the number of votes given for and against the By-law.

8. The fifth day of January, 1907, at the hour of twelve o'clock noon and the office of the City Clerk are hereby fixed as the time and place for the appointment of persons to attend at the various polling places and at the final summing up of the votes by the Clerk respectively, on behalf of the persons interested in and promoting or opposing the passing of the By-law respectively.

Mayor.
Clerk

NOTICE

Take notice that the foregoing is a true copy of a proposed By-law which has been taken into consideration and which will be finally passed by the Council of the City of Peterborough (in the event of the assent of the electors being obtained thereto) after one month from the first publication hereof in the Morning Times newspaper, the date of which first publication is the sixth day of December, 1906, and that at the hour, day and place therein fixed for taking the votes of the electors the polls will be held.

S. R. ARMSTRONG,
City Clerk.

CAPE BRETON IS NOW FACING A SEVERE CRISIS

Thousands Will Be Ruined If Companies do not Come to Settlement

GOVERNMENT MUST STEP IN

The Miners are Hardly Making a Living--- Hundreds Idle.

Sydney, N.S., Dec. 7—The situation at the plant of the Dominion Iron and Steel Company practically remains unchanged. In general two blast furnaces are in operation, two batteries of coke ovens, and the rail and bloeming mills. The company are rushing in all the coke they can possibly get. Shipments are arriving daily from the mainland collieries and from Sydney Mines. Several cargoes have also arrived from the United States and the Welch coal mines. This coal is costing the company from three to five dollars a ton landed here.

In two or three weeks time navigation of Sydney Harbor will close, and after that whatever coal comes in must be by rail. This will add to the cost. People who know the situation pretty thoroughly say it will be utterly impossible for the company to get in enough coal to operate the plant to its capacity. Again, although they might run it for a few months in the spring, the colleries must fill their outside contracts, and the Steel Company will be unable to get at the supply necessary. The intercolonial [illegible] now taxed to its utmost capacity with ordinary freight, and it will be impossible to bring any trains of coal over it with out interfering with the general traffic.

The company requires 80,000 tons a month. This would average 2,666 tons a day, and even were it possible to get this no by rail there are not enough engines at the plant to handle it. There are not enough cars on this division to bring it in. The railway cannot supply the necessary cars. The whole problem narrows down to the fact that the coal supply must be had from the Dominion Coal Company, and if that cannot be done, the company will have to close their works.

RUIN TO THOUSANDS.

That means ruin to thousands of people and a severe shock to the industrial welfare of Eastern Canada. The difficulty is having a serious effect upon the collieries of the Coal Company. One colliery is idle every day, and those working are doing so with broken time. The miners are barely making a living. Hundreds of men have been laid off. It is almost safe to say that forty per cent. of the miners are idle every day.

In view of all this, the prolonged struggle between these two companies brings the industrial situation on Cape Breton face to face with a serious crisis. It cannot of necessity continue long without coming to an end, and it looks as if an agreement by which the operations of the Steel Company will go on as before, would be found to be disastrous to thousands of people. As it is now, the general trade of the entire community is suffering. A complete stagnation of business appears to threaten, and if an adjustment is not soon made, [illegible] down of the Sydney plant would mean disaster far-reaching, long-enduring in its effect, says the Daily Post this morning, in describing the situation. It is time the guardians of the public interests stepped in and protected those indirectly dependent on them.

GOVERNMENT MUST STEP IN

The Governments of Nova Scotia and of the Dominion have power or can take the power to deal with the question. The Legislature of Nova Scotia gave the Dominion Coal Company a charter to mine and sell coal. If it has refused to sell coal to the Steel Company the Government of Nova Scotia should have power to annul its charter. One company or the other may be right in its reading of the contract, but it is clear from the standpoint of public interest that the appalling calamity which faces this community may be averted by the Coal Company selling coal to the Steel Company without prejudice to their rights while the legal question is being settled by the courts.

Brook Street Rink Tickets on Sale

Prospects are for a Record Opening of the Brook Street Rink for the Season.

Yesterday the season tickets for the Brock street rink for the season of 1906-07 were placed on sale at the usual places, and if the present cold weather continues it is probable that the rink will be open for skating in a few days, which will be earlier than this rink has ever been opened since it was erected.

A slight change has been made in the price of tickets this year. The boys' tickets at $1.50 being sold only to boys under 16 years of age, while from 16 to 18 the price will be $2.00 and above that age the gentlemen's price, $3.00 will be charged.

The tickets are on sale at the following places; Examiner Office, Peterborough Books ore, Sanderson & Co's store, F. A. Clarke's store and at the Boat Stove Co's store.

Great Success of Mr. E. W. Cox

Referring to an old Peterborough boy's success in life, "Office and Field" says, in part as follows,

Mr. Edward W Cox, after a number of years' service with the Canada Life as general manager, is now vice-president and general manager. In view of the position of the Canada Life, and of the very large circle of friends, both personally and in business relations, who honor Mr Cox for his many good qualities and rejoice in his success, it is not too much to say that his accession to his present place is an event of moment in the business life of Canada.

Mr. E. W. Cox is a native Canadian; he was born in Peterborough, Ontario in 1864. He is the eldest son of Senator George A. Cox, widely known as president of the Canada Life.

Many a young man with similar advantages to those enjoyed by E. W. Cox has used those advantages to indulge himself in a life of selfish idleness. But inherent good qualities, brought Mr. Cox into the ranks of the workers, to find for high a place.

After a high school training in his native town—now a prosperous city—and two years spent in Trinity College, Toronto, Mr. Cox entered the office of his father, who was then general agent for Eastern Ontario for the Canada Life. He was taken into partnership by his father. The branch had always been one of the most successful in the whole of the company's organization, and it improved its position with the devoted service given by the new partner in the agency firm. In 1886 the limits of the branch were extended westward to include Toronto, and the branch head office was removed to this city.

In 1899 while Mr. A. G. Ramsay was still president of the Canada Life, Mr. E. W. Cox was called to the general service of the company, being given the important position of assistant general manager. Three years later he was promoted to the general managership, which position he has held ever since. The combination of that office with the vice-presidency will greatly increase his responsibilities but it will commensurately add to his power of rendering valuable service to the company.

Pine Grove Factory Is Successful

And now the Pine Grove Cheese Factory has formed a cow testing association, being the third in the county to take such a matter up. At the annual meeting of this factory, Mr. N. G. Somerville, gave an address and besides forming the above noted association, it was also practically decided to build a cool curing room for the preservation of cheese.

The secretary's report of the past season showed that the year had been a bright one for Pine Grove. The average price of cheese per pound had been 12.06 cents and the amount distributed among the patrons had been $11,588.53.

The officers of the factory for the coming year are;—

President—W. H. Downs.
Secretary and Salesman—W. J. Hollock.
Cheesemaker—R. H. Little.

The officers elected for the cow testing association are as follows;

President—Geo. Garbutt.
Vice-President—David Darling.
Secretary—W. J. Hollock.
Board of Management—R. Joly, J. Moore, H. Abbott.

Defendant Wins and Gets Decision

The libel case of Byers vs. Kidd, which was tried at the last assizes here and the judgment given then appealed from has been settled. Justice Britton rendered a decision in favor of the defendant, sustaining the decision given by the trial judge. The Globe of yesterday referring to it says;—

Byers vs. Kidd—Judgment (H) in action for defamation tried with a jury at Peterborough. The jury found for defendant, who asked for costs. Held, that there was a discretion under rule 1,130, as to withholding costs, and, in all the circumstances of the case, the discretion should be exercised against defendant. Judgment for defendant, without costs. R. F. McWilliams, Peterborough, for plaintiff. D. O'Connell, Peterborough, for defendant.

Offers $100,000 to Queen's on Easy Terms

Carnegie Will Give That Amount When $400,000 is Subscribed.

Kingston, Dec. 7.—Rev. Principal Gordon announced yesterday that Mr. Andrew Carnegie, who is an honorary graduate of the university, had offered one hundred thousand dollars to Queen's upon decidedly easy conditions.

The principal received a letter yesterday from Mr. Carnegie's secretary, stating that the Scottish philanthropist would make a gift of that amount to the Queen's Endowment Fund, to complete the half million dollars aimed at, as soon as $400,000 had been subscribed.

At the present time probably $275,000 has been obtained, and in another year the balance is expected.

The gift of Mr. Carnegie will result in the authorities of Queen's undertaking to increase the new endowment to probably three quarters of a million.

COUNTRY COUSIN VERSUS WHISKEY

A large and boisterous farmer, named Heffernan, of Norwood, armed with a bottle of the good old stuff, and clothed in a big fur coat, went forth to battle on George street, when opposite the Times office, he commenced demonstrating his pistic qualifications on a young man of medium size. He showed some of the latest moves of wind jutting, and whilst engaged in this performance P.C. Newhall bore in sight and showed the visitor a few moves in snow cleaning. The prisoner will appear before the magistrate this morning.

CHARGED WITH THEFT OF 1,150,000

New Developments in the Charles McGill Case.

PURCHASED BANK STOCK

Ex-Manager of the Ontario Bank is Now Facing Three Charges.

Toronto, Dec. 7.—The entirely new charge that Charles McGill had, in the years 1901, 1902, 1903, 1904, 1905 and 1906, stolen $1,150,000 in money, the property of the Ontario Bank, proved the sensational incident in connection with the case, when it came up in the police court yesterday.

When the charge was read to Mr McGill he pleaded not guilty.

"I will take Mr. McGill's own bail in $100. The bail in the other cases will stand, of course, but should anything happen to them we will have to have bail in this," said the magistrate.

"The $130,000 which Mr. McGill was first charged with stealing is only one item," said Mr. Corley, at the conclusion of the court, when questioned with regard to the new charge. "Our purpose is to make an application for a commission to go to New York on all three charges against Mr. McGill. We are confident that the books of the brokers mentioned in the affidavit contains the evidence we are looking for."

"I cannot say when the application will be made, nor when the commission will go to New York; not until after Christmas I fancy. The opposition with which the application for a commission is meeting suggests to my mind that important evidence may be secured."

Mr. McKay, counsel for Mr. McGill, stated that the new charge would facilitate the application for a commission. Evidence would have to be taken from Mr. Caldwell, Mr. Caldwell, Mr. Laughton and others conversant with the Ontario Bank's affairs relative to the new charge.

The investigation has been adjourned until Thursday, December 13th.

The investigation yesterday [illegible] ing had reference chiefly to cheques paid by Ames & Co. during the past year which were charged to C. McGill, and to C. McGill "special," and described by Mr. Ames as withdrawals when those accounts would stand for it.

PAID TO MR. M'GILL.

Mr. A. E. Ames was the first witness.

"With reference to these cheques drawn by A. E. Ames on the Metropolitan Bank in favor of C. McGill, dated April 4, April 11, May 18, Sept. 29, Oct. 10 and October 10, 1906, for $3,000, $1,500, $2,000, $1,000, $3,700.99 and $2,300 respectively, were they paid by your firm?" asked the Crown Attorney.

"Yes, to Charles McGill, in the way of withdrawals when his account would stand it, or probably they were moneys above what were required to balance his account in connection with transactions in certain securities," replied Mr. Ames.

The cheques for $2,370.99, and the $1,000 of September 29th, were charged to C. McGill "special" account, and the others were charged to the C. McGill account, the witness explained.

"The C. McGill account was opened with the object of carrying the transaction in Ontario Bank stock," he added.

"Did you not think those transactions were for the Ontario Bank, and not for his own benefit?" asked Mr. McKay, counsel for Mr. McGill.

"Yes, there would be certain transactions which might lead us to infer that Mr. McGill was not dealing in the stock on his own account. There might be a syndicate of directors or somebody acting on their order, with the object of supporting the stock."

PURCHASED THE BANK STOCK.

"What do you know of the officers' guarantee fund."

"Mr. McGill mentioned incidentally that he made a purchase of Bank stock on that account."

"Had you occasion to ascertain how the total bank stock was held?"

"Not at all; I had the list of shareholders and the official Government returns."

"The head office was always an unfailing source for the bank stock."

"Only at times, but we could not always count on it. Sometimes we could fill an order in that way. We have asked for a buying order, and could not get it."

"Have there been instances when you had an order from outside, and could not get it?"

"I think so."

With regard to the cheques for $1,000 in October, and that for $2,708 Mr. Ames explained they were the proceeds of City Dairy stock sold by Mr. McGill.

This concluded the morning's examination, and the new charge against Mr. McGill brought a reply of "not guilty" from the accused.

GREATER OUTPUT IN MACHINE SHOPS

Results of Important, Costly Experiments Announced.

New York, Dec. 6.—Frederick W Taylor, president of the American Society of Mechanical Engineers at the opening of the annual meeting announced the results of 26 years of important experimenting.

The experiments were undertaken to obtain a part of the information necessary to establish in a machine shop a system of management, the central ideas of which are to give to each workman a definite task and an exact time allowance for each element of the work, to pay high wages to those who perform their tasks in the allotted time and ordinary wages to those who take more than their time allowance.

The experiments were conducted in the works of the Midvale Steel Company, the Bethlehem Steel Company and other large concerns.

AMOUNT OF WORK DOUBLED.

The experiments cost about $200,000, but it was stated that the considering the important elements of the "art" and mathematical formulae which express those laws have been found. A slide rule, by means of which the ordinary mechanic can double the output of a machine previously run by a fireless mechanic using his own judgment, has been developed.

In similar investigations into other lines of industry, such as textiles and other light manufactures, it was found that the task set for a man after proper investigation was vastly greater than any he would be could set for himself.

Machinist Has Narrow Escape

As William Green a machinist in the employ of the Wm. Hamilton Manufacturing Co., tried in the temporary absence of another employe, to run two boring machines at once, a large travelling crane, carrying a heavy casting, fell from its ways and came crashing to the floor, smashing the boring mill beside which he was standing, scattering steel fragments in every direction, but almost miraculously, not one piece struck him.

Another machinist standing near, saw the crane falling, and jumped in time to save himself.

Mr. Kinnear May Be Toronto's Mayor

The Toronto Globe says that Mr. Thos. Kinnear, of Kinnear & Co., whose handsome wholesale grocery house was recently built and opened for business here, may be a candidate for the mayoralty of Toronto. Mr. Kinnear who is one of Canada's most progressive and successful citizens, is receiving the endorsation and support of many of the leading business houses of Toronto for the mayor's seat. In the Illustrated Industrial number of The Times, soon to be issued, appears a photograph of Mr. Kinnear's fine new Wharncliffe in this city, together with a complete history of the successful career of that prominent firm.

PREPARING FOR WAR IN FAR EAST

New York, Dec. 7.—A special despatch to the Sun from London says; Simultaneously with an announcement in some of the English newspapers that some of the Lloyd's underwriters have been insuring against an outbreak of war between Russia and Japan in 1907 at 5 guineas per cent. Col. Gaedtke, whose articles and correspondence in the Berliner Tageblatt during the recent war attracted universal attention, writes for that journal a remarkable article on the military position in the Far East.

Col. Gaedtke recognizes that the time for a renewal of hospilities is not yet. He says there are clear signs that the air is loaded with electricity, but the financial statement of both Russia and Japan will postpone hostilities. Russia's naval strength in that region need not be considered. Still, Japan intends to have eight battleships of the Dreadnought type afloat within eight years, while the continued increase in her fighting strength ashore is remarkable.

JAPAN'S ARMY INCREASED.

For a time Japan increased her army only by four divisions, raised during the war. She now intends to increase it to 20 divisions, gradually forming 10 army corps. The cavalry will also be increased considerably. Machine guns will be attached to every infantry regiment. The railway troops and balloon detachment will be raised, and the fortress artillery increased. The authorities are meditating a reduction of the period of military service from three years to two.

Col. Gaedtke thinks that, along with an enormous increase in her military strength in the Far East, Russia's strategic position has improved very much. Vladivostock has become a very strong fortress. Harbin, probably strongly fortified, would be besieged immediately upon the outbreak of war. Communication with European Russia is now shorter and less liable to interruption.

GOOD ADVERTISEMENT FOR PETERBOROUGH

The Times Getting out an Illustrated Industrial Number for Xmas

SUCCESS IS NOW ASSURED

Pictures of City's Leading Factories, Stores and Leading Men.

As is generally known by the factories, merchants and leading men of the city, by this time, The Times is getting out a special number for Christmas, or perhaps to speak more accurately, to boom the City of Peterborough during the coming festive season. This issue has already received unprecedented patronage and appreciation. In this special "Industrial Number" we will incorporate illustrations, cuts and pictures of Peterborough's leading manufacturing and other industries, portraits of our leading men, in many cases with views of the factories or stores they are interested in.

So far the industrial number has received the recognition and practical appreciation of an overwhelming majority of our leading citizens.

That this issue, which will appear on or about the middle of this month, is an assured success, and that the circulation will be something unprecedented, is assured by the signatures of those who have already added their names to the list.

We have engaged the services of Mr. R. M. Ray, Peterborough's artistic photographer, who has already taken very many views of various business houses, factories, and leading citizens from which cuts will be taken for reproduction in this issue. Mr. Ray has been most successful in taking these photographs, which include, for instance, Messrs. MacGregor & Reid's store, an interior view; Dometre Bros' store, Clarke & Son's jewellery store, T. Kinnear & Company's wholesale house, Quaker Oats Company's mills, J. J. McPherson the contractor, J. J. Turners' factory, Queen's, Oriental, National, and other local hotels, McLean the tailor, the civic officials, members of both house of Parliament, and others too numerous to mention. So that this issue will be of special interest to every citizen of Peterborough, and will make a suitable souvenir for such to send to their friends.

This issue will, of course include many views of Peterborough not above mentioned, and is one of the best advertisements for Peterborough that the city has ever seen.

We will be glad to include a mention of every business house or factory or give a personal notice of every prominent man in Peterborough.

This Industrial Number will be distributed throughout the whole Dominion of Canada, and owing to containing actual representations of what Peterborough's present prosperity is based on will doubtless have a marked tendency towards getting more and important industries added to our already large and rapidly growing importance.

Local Post Office Affairs Flourishing

Two indications as to the prosperity of a town or city are its customs and post office returns of the current year.

The last report of the Postmaster-General notes that during the year covered by the report the revenue of the Peterborough office was no less than $30,747.

The volume of business done here is sufficient to warrant the expectation that the Government will consider Peterborough of importance enough to [illegible] delivery system. Barrie with a revenue of $12,938 has a delivery system, and Peterborough with a revenue two and a half times as great is certainly deserving of the same consideration.

A comparison of the revenues of other towns and cities of the Province will show that Peterborough is booming. The report reads as follows;

PETERBOROUGH, $30,747.
Barrie, $12,938.
Belleville, $18,324.
Stratford, $18,904.
Woodstock, $21,558.
Berlin, $23,000.
St. Catherines, $23,076.
St. Thomas, $23,664.
Chatham, $27,287.
Windsor, $30,220.
Guelph, $34,654
Kingston, $41,086.
Brantford, $48,510.

Royal Black Knights Open Preceptory

A Preceptory of Royal Black Knights of Ireland will be organized in the village of Lakefield tonight. Mr. W. H. G. Armstrong, a member of the Grand Committee, who has been appointed instituting officer, accompanied by a number of Sir Knights from the local Preceptory, will institute the new Preceptory, which is starting under most favorable auspices.

Mr. Dennis Daly Was Assaulted

Mr. Dennis Daly well known in this city seems to have got into a barrell of trouble last week, Dennis was working for Mr. Twomey of Ennismore, and one night last week, while the latter was out of the house, he was assaulted and badly beaten. He stated that the attack was made upon him by Fred Picard, who lives in Harvey, and the latter has been arrested by High Bounty Constable Cochrane, on the charge of assault. A report has gone about the city that Mr. Daley was dead, but, fortunately, the report is not true.

On the night of the trouble Mr Twomey left Daly in the house while he went out to the stable and on returning found that the unfortunate man had been desperately assaulted.

Daly states that two men, one of whom was Picard and the other a stranger entered the house and attacked him fiercely.

Mr. Gillespie a Good Choice

The dairymen of this county have made no mistake in selecting Mr. G. A. Gillespie, as representative of the Peterborough County Dairymen on the executive of the Eastern Ontario Dairymen's Association. Mr. Gillespie's experience in dairy matters and his good business judgment make him a valuable man to represent the dairy interests of the county on the executive of the governing body so far as dairy matters are concerned.

For some years Mr. Gillespie has worked hard and intelligently. The Peterborough District is now recognized as one of the best in the province, the cheese manufactured here being of a recognized good quality, while the dairymen of the district are modern in their methods.

YOUR MONEY'S WORTH

Easy Way to Get Full Value for Every Half Dollar You Spend.

In your search for health, you who suffer with stomach troubles, do not try a remedy unless the proprietor has not sufficient faith in its virtue to sell it under a guarantee that the money will be refunded unless it gives relief and cure.

It is in this way that Mi-o-na stomach tablets are sold, with a positive guarantee that the purchase price will be refunded on demand if it does not cure indigestion, strengthen the whole digestive system and restore the health to those who use it.

If the head aches, if the back and side are painful, if there is distress and nausea after eating, if you are sleepless, nervous, and out of sorts, you can with perfect confidence get a 50-cent box of Mi-o-na, knowing that the remedy will cost you absolutely nothing unless it gives you freedom from all ills and pains and restores you to health.

No one thing is the cause of more suffering and pain than indigestion. Many cases of so-called kidney disease, heart trouble and nervousness are only different ways in which a weakened digestive system shows itself.

Use Mi-o-na stomach tablets and your ill-health will soon be gone, and you will forget that you have ever had indigestion or its resulting ills.

We absolutely agree that your money will be refunded should you buy a 50-cent box of Mi-o-na stomach tablets and not be satisfied with the results. Mi-o-na is sold by druggists everywhere, or will be sent by mail on receipt of price, 50 cents.

Write today for a free sample package, and also give us your symptoms, and one of the best known stomach specialists will give your case his careful and personal attention without charge. Booth Kruyel Company, Buffalo, N.Y.

When Run-Down, "Draggy," Used-up

You Lack the Vigor, Courage and Staying Power that "Ferrozone" Can Supply.

Night comes and it's hard to sleep. Morning dawns and the anxious, tired feeling is still there. Don't neglect this gradual decline; it can't cure itself. But by forming rich, pure blood, Ferrozone will quickly supply the nutriment and building material your system craves.

Instantly you are aware that some powerful force is building up your depleted energies. At once you feel braced, toned, strengthened. Search the world over and you won't find anything to tone up a weak system like Ferrozone. Physicians claim it is the most strengthening, uplifting medicine ever discovered.

No more spells of tiredness, but bounding, joyful health when you take Ferrozone, of which Mrs. H. S. Gold, of Bowsman, Man., speaks in the following words of praise:

"I state my case because I think it may assist other women to health. A year ago I was almost a wreck. I was pale and emaciated, suffering from nervousness and hysteria. Little things going wrong in the house bothered me. The doctor advised different treatments but they didn't help. He said my low condition was due to weakness that might never be cured. Ferrozone had a peculiar grateful effect and built me up quickly. The ills I suffered from are cured. I am now strong and vigorous and was made so by Ferrozone."

Why not cast aside the chains of sickness and enter the bright, happy life of robust health. Let Ferrozone help you—let it cure you once and forever. Price 50c. per box or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

BARNARDO MARCHING ON

Dr. Barnardo, who died in London some months ago, was a practical philanthropist, perhaps the wisest of his day. He never let his sympathies run away with his sense. The love of children was deep and strong in his heart; his pity was as "broad and general as the casing air;" his wisdom was founded on the beatitudes.

He saw the children of the poor in London growing up in ignorance and squalor, in hunger and in vice. He didn't give them a tract and a bar of soap and wash his hands of them. He didn't sorrow over them spasmodically and help them intermittently. He saw, what has been the clear vision of wisdom and experience, that no men or collection of men could permanently help the children unless they also helped themselves, and that they must be given the opportunity for self-help.

So he set about it in the most practical of ways. He got the boys and girls—these almost inevitable Hooligans and abandoned women—away from the grime and the slime of London. He took them to the country where the air was pure, where they saw the sky and felt the sun. They gained in health. He educated them and they grew in learning and in morals. They were taught useful trades and delighted in them.

Then, wisest of all his doings, Dr. Barnardo separated these slum children entirely from their old lives. The moral fiber of the London child is weakened like its physique. Perhaps, patched up by the care he had given it, it might fight and triumph over its old enemies of dirt and drink on its old battlefield, but he wasn't willing to take the risk. His scheme of philanthropy flowered into finding homes for these boys and girls away from London at any hazard; away from London if possible. So they went to the colonies, where their eager hands found opportunities at hand.

This great work, which Dr. Barnardo set in motion and kept going by the money and advice and help of many good men and women, has gone on as he planned it. The machinery on as he planned it. The humane deportation of children continues.

A short time ago three hundred of these Barnardo boys and girls left London for Canada, the girls coming to the Peterborough branch of the Home. They went joyfully; they will be welcomed gladly. They make good citizens wherever they settle. Canada had known many of them. Figures show that 96 per cent. of the Barnardo children do well. Eighty per cent. of the Barnardo boys sent to Canada are now land-owners. Any part of the globe would be glad to have such reinforcements.

DEEP SEA FISHES.

There Being Nothing Else to Eat, They Live Upon Each Other.

"All the deep sea fishes are enormous eaters," says a naturalist. "There being nothing to eat but the life about them, they live upon each other. Every facility for killing and devouring is provided—luminescence to dazzle, swiftness and strength to overtake and overpower, knife blade teeth for tearing, abnormally large jaws for crushing. Whatever the prey or however large it may be, there is little trouble in swallowing it. The mouth yawns like a cavern, and the stomach distends to hold a body even larger than the swallower. The appetite in fishes seems never wanting, and complete digestion with some of them is only a matter of half an hour." For this reason slaughter goes on unendingly. Usually it is produced only by hunger, but some monsters, like the bluefish, even when gorged, kill for pure love of killing.

Of the eternal warfare that goes on beneath the surface of the waves the same writer remarks: "They follow the prey like packs of wolves, and in turn are followed, band succeeding band, increasing in size as they decrease in numbers. The herrings eat the smaller fish, even their own young; they are harried by the bluefishes until a trail of blood stains the water, while following the bluefishes come the insatiate porpoises. Nothing saves the weaker ones but breed. Many thousands of eggs are spawned that a dozen or more may be hatched and brought to maturity. Billions are lost; yes, but millions survive.

"The herrings move on the sea in uncountable numbers—in banks that are miles in length and width, in windrows so vast that they perhaps keep passing one given point in unbroken succession for months at a time. Just so with the menhaden. A catch in a purse net of 500,000 is not infrequent. Such numbers are sufficient to withstand all the ravages of the natural enemy. The bass, the haddock and the pollock may kill to their hearts' content, and still the menhaden will hold their own."

Men Have Not Degenerated.

It is common to hear of the giant people who lived in the old days, yet it is decidedly uncommon to find proof that the average ancient was any larger or more powerfully built than the average person of the present day. The Egyptian mummies show these people to have been of medium size. The remains taken from the catacombs do not differ in size from the people of the present, while the armor which was worn by the warriors of the long ago fit as readily the forms of people who are not at all gigantic or at all extraordinarily above the average either in girth or stature. They were great men in the old days, but as great still obtain in this twentieth century.

Those Tourists.

M. Perrichon (visiting Switzerland)—Well, Mary, we'll take another view of this lake and then we can return to Paris. Mme. P.—Why not see some of the others? M. P.—Well, I don't see the necessity. It seems to me that one lake must be very much like another.

He is not only idle who does nothing but he is idle who might be better employed.—Socrates.

Ottawa, Dec. 8.—It was reported in the Parliamentary precincts yesterday that Hon. W. S. Fielding had been selected by the Dominion Coal Co. and Dominion Iron and Steel Co. to arbitrate the differences that have arisen between them. Hon. Mr. Fielding, in response to an inquiry stated that there was no warrant for the statement of his having been appointed arbitrator. He was doing all he could, however, to effect a settlement of the matters at issue.

Nebogatoff on Trial.

St. Petersburg, Dec. 6.—The trial of Rear Admiral Nebogatoff and 78 officers of his squadron, for surrendering to the Japanese at the battle of the Sea of Japan, May 28, 1905, began before a special court-martial yesterday. The accused are divided into three categories; First, Admiral Nebogatoff and the commanders of the battleships; second, the officers who surrounded the surrender; third, the officers who did not endeavor to prevent the surrender. The trial will probably last three days.

PAIN

Pain in the head—pain anywhere, has its cause. Pain is congestion, pain is blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr. Shoop's Headache Tablet—causes blood pressure away from pain centers. Its effect is charming, pleasingly delightful. Quickly, though subtly, it surely equalizes the blood circulation.

If you have a headache, it's blood pressure.

If it's painful periods with women, same cause.

If you are sleepless, restless, nervous, it's blood congestion—blood pressure. That surely is a certainty, for Dr. Shoop's Headache Tablets stop it in 20 minutes, and the tablets simply distribute the unnatural blood pressure.

Rub your finger, and doesn't it get red, and swell, and pain you? Of course it does. It's congestion, blood pressure. You'll find it where pain is—always. It's simply Common Sense.

We sell at 25 cents, and absolutely recommend

Dr. Shoop's Headache Tablets

J. D. TULLY.

Weak Lungs

It is the old story of a weak throat, a tendency to weak lungs in the family. You no sooner get rid of your old cold than a new one takes its place. Ayer's Cherry Pectoral breaks up this taking-cold habit. It strengthens, heals. Ask your doctor, the very next time you see him, what he thinks of Ayer's Cherry Pectoral for weak lungs. We have no secrets! We publish the formulas of all our medicines. J. C. Ayer Co., Lowell, Mass.

WELL WATER'S VICTIMS

London, Dec. 8.—With the death of Jacob Winkenwerder, of Dashwood, at Victoria Hospital on Sunday, there remain now only a mother and two sons of a family of eight. The others have died within eight weeks, latest victims of the poisoned water of a contaminated well. A son, Edward who returned less than two months ago from Chicago in delicate health, to the farm, caught typhoid fever and died. Within two weeks of his death, two sisters, Lovina and Matilda, the father and Jacob also took typhoid fever, and one by one they have passed away.

Doukhobors to Return?

St. Petersburg, Dec. 8.—The Premier told M. Peter Verigin, head of the Doukhobor community in Canada, that the Government would be glad to welcome the Doukhobors back whenever they were ready to come. Assuring him that he would not be hampered by the Government, the Premier advised M. Verigin to repair to the famine-stricken provinces, the 10,000 Russian peasants who are wanted for railway construction work in Western Canada.

9,600 FEET

Sixty six mining claims.
A crosscut tunnel now in 4,000 feet.
5,600 feet of drifts, shafts and interals.
A complete 750 h.p turbine electric power plant.
Numerous Veins Explored.
A Big Industrial and Mining Proposition Combined.
A Strong Directorate.

This is real mining.

The Palmer Mountain Tunnel and Power Company has 66 lode mining claims back of it on Palmer Mountain, near the Town of Loomis, Okanogan County, Washington—about 12 miles south of the boundary of British Columbia. A new railway line is nearly completed and will run within 12 miles of the property. Steamers ply on the Okanogan River to within 22 miles of our properties. There is water—not only for mining purposes, but with unlimited possibilities for power genera-

INTERIOR OF TUNNEL

tion. There is timber, there are large, well defined veins proved at great depth—and there is development enough done to make this one of the biggest and best mining propositions in the country.

We can do more with $10 ore on our properties than the desert miners can do with $40 or even higher grade ore. We can make money because we have the FACILITIES on our ground. Our ore can be mined, milled, cyanided and bullion produced for not exceeding $2.50 a ton.

Our immense crosscut bore—a picture of which we show herewith—is now in 4,000 feet, is 9 by 9 in the clear (as large as any of the big transportation and drainage tunnels), and is well timbered, equipped with track, ore cars and everything else essential. In the picture shown herewith, the large pipe running at the top of the right side of the tunnel, is for ventilation purposes and connects with a large, powerful blower.

Recent development on the mountain proves that we shall open up at tunnel level (2,500 feet beneath the surface) an enormous body of copper ore.

We have opened up much $18 ore, and we have a higher grade running up to $80 a ton. This is where the big profit comes from. In the nearly TWO MILES OF WORKINGS we have all the facilities for handling a very large production. Back of it all we have a capable mining and business management. We should be very glad to tell you the complete story. We can only hint at it here.

DARREL of THE BLESSED ISLES

By IRVING BACHELLER,

Author of "Eben Holden," "D'ri and I," Etc.

COPYRIGHT, 1908, BY LOTHROP PUBLISHING COMPANY

with him in a little red sleigh. Now, the settler's cabin was, like that of my father, on the shore of a pond. It was round, as a cup's rim, and a mile or so in diameter. Opposite the cabin a trail came to the water's edge, skirting the pond, save in cold weather, when it crossed the ice. They waited for a night when their tracks would soon disappear. Then, having made a cover of the sailcloth sack in which they had brought the boy and stretched it on withes and made it fast to the sleigh box, they put the sleeping boy in the sleigh, with hot stones wrapped in paper and a robe of fur to keep him warm, hitched the dog to it and came over hill and trail to the little pond awhile after midnight. Here they buckled a ring of bells on the dog's neck and released him. He made for his home on the clear ice, the bells and his bark sounding as he ran. They at the cabin heard him coming and opened their door to dog and traveler. So came my hero in a little red sleigh and was adopted by the settler and his wife and reared by them with generous affection. Well, he goes to school and learns rapidly and comes to manhood. It's a pretty story—that of his life in the big woods. But now for the love tale. He meets a young lady—sweet, tender, graceful, charming."

"A moment," said Darrel, raising his hand. "Prithee, boy, ring down the curtain for a brief parley. Thou say'st they were Syrians—they that stole the lad. Now, tell me, hast thou reason for that?"

"Ample," said Trove. "When they took him out of the sleigh the first words he spoke were 'Anah jouban.' He used them many times, and while he forgot they remembered them. Now, 'Anah jouban' is a phrase of the Syrian tongue, meaning, 'I am hungry.'"

"Very well," said the old man, with emphasis, "and sailors. That is a just inference. It was a big port, and far people came on the four winds. Very well! Now, for the young lady. An' away with thy book unless I love her."

"She is from life—a simple hearted girl, frank and beautiful and"— Trove hesitated, looking into the dying fire.

"Noble, boy. Make sure o' that, an' nobler, too, than girls are apt to be. If Euclidian would measure height with her say that it stand upon tiptoes."

"So I have planned. The young man loves her. She is in every thought and purpose. She has become as the rock on which his hope is founded. Now he loves honor, too, and all things of good report. He has been reared a Puritan. By chance, one day, it comes to him that his father was a thief."

The boy paused. For a moment they heard only the voices of the night.

"He dreaded to tell her," Trove continued, "yet he could not ask her to be his wife without telling. Then the question. Had he a right to tell? For his father had not suffered the penalty of the law and, mind you, men thought him honest."

"'Tis just," said Darrel. "But tell me, how came he to know his father was a thief?"

"That I am thinking of, and before I answer, is there more you can tell me of him or his people?"

Darrel rose and, lighting a torch of pine, stuck it in the ground; then he opened his leathern pocketbook and took out a number of cuttings, much worn and apparently from old newspapers. He put on his glasses and began to examine the cuttings.

"The other day," said he, "I found an account of his mother's death. I had forgotten, but her death was an odd tragedy."

And the tinker began reading slowly as follows:

"She an' her mother, a lady deaf an' feeble, were alone, saving the servants in a remote corner o' the house. A sound woke her in the still night. She lay awhile, listening... Was it her husband returning without his key? She rose, feeling her way in the dark an' trembling with the fear of a nervous woman. Descending stairs, she came into a room o' many windows. The shades were up, an' there was dim moonlight in the room. A door with panels o' thick glass led to the garden walk. Beyond it were the dark forms of men. One was peering in, his face at a panel, another kneeling at the lock. Suddenly the door opened. The lady fell fainting, with a loud cry. Next day the kidnaped boy was born."

Darrel stopped reading, put the clipping into his pocketbook and smothered the torch.

"It seems the woman died the same day," said he.

"And was me mother" the words came in a broken voice.

Half a moment of silence followed them; then Darrel rose slowly, and a tremulous, deep sigh came from the lips of Trove.

"Thy mother, boy!" Darrel whispered.

The fire had burned low, and the great shadow of the night lay dark upon them. Trove got to his feet and came to the side of Darrel.

"Tell me, for God's sake, man, tell me where is my father!" said he.

"Hush, boy! Listen. Hear the wind in the trees," said Darrel.

There was a breath of silence, broken by the hoot of an owl and the stir of high branches. "Ye might as well ask o' the wind or the wild owl," Darrel said. "I cannot tell thee. Be calm, boy, and say how thou hast come to know."

Again they sat down together, and presently Trove told him of those silent men who had ever haunted the dark and ghostly house of his inheritance.

"'Tis thy mother's terror—an' thy father's house—I make no doubt," said Darrel presently in a deep voice. "But, boy, I cannot tell any man where is thy father, not even thee, nor his name or the least thing tending to point him out until—until I am released o' me vow. Be content. If I can find the man ere long thou shalt have word o' him."

Trove leaped against the breast of

(To be continued)

DISEASES OF MEN

Thousands of young and middle-aged men are annually swept to a premature grave through IMPRUDENT HABITS, EXCESSES AND BLOOD DISEASES. If you have any of the following symptoms consult us before it is too late. Are you nervous and weak, despondent and gloomy, specks before the eyes with dark circles under them, weak back, kidneys irritable, palpitation of the heart, bashful, excitable dreams, sediment in urine poor memory, lifeless, distrustful, lack energy and strength, tired morning pimples on the face, eyes sunken, hollow cheeks, careworn expression, lings, restless nights, changeable moods, nerve weakness, premature decay, bone pains, hair loose, sore throat, etc.?

YOU ARE SUFFERING FROM LOST VITALITY.

We cure Varicocele, Stricture, Blood Poison, Nervous Debility, Kidney and Bladder Diseases. Consultation Free. If unable to call, write for Question Blank for Home Treatment.

Lax-ets 5 Cents Sweet to Eat A Candy Bowel Laxative

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even-numbered section of Dominion Lands in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 15 or 1500 feet. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent. collected on the output after it exceeds $10,000.

W. W. CORY,

Deputy of the Minister of the Interior.

Do You Seek Health?

Consult Dr. Hamilton And You Will Be Shown the Way.

Thousands are in the same boat—all sickly, bilious and feeling far from well.

Trouble is, the system is clogged with impurities which need to be cleared away.

Before downright sickness arrives you should cleanse and purify the system with Dr. Hamilton's Pills.

At once you feel their mighty influence building up weak spots, clearing out disease, and putting you again on your feet.

These purely vegetable pills change your tired, worn-out condition to one of health and vigor, because they supply the body with nourishing blood that builds up and enlivens the entire system.

Mr. John Whitley, of Stanwood, P. O., Ont., knows the merit of Dr. Hamilton's Pills, and says: "I wouldn't be alive today had it not been for Dr. Hamilton's Pills. Last winter I was sick with grippe, and when spring came I was weak, bilious and rheumatic. I used enough medicine to cure twenty times, but I didn't get any help till I tried Dr. Hamilton's Pills. They purified my blood, took the yellow color out of my face, put new tone in my stomach, and increased my appetite. The bilious attacks and rheumatic pains gradually departed, and Dr. Hamilton's Pills made a new man of me. I proved their merit, and proclaim them a medicine for all men."

If better health and prompt recovery are important, get Dr. Hamilton's Pills of Mandrake and Butternut today. At all dealers. 25c. per box, or five boxes for $1.00. By mail from N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS.

Xmas Decorations.

See us for Christmas decorations, we have a nice assortment of red holly wreaths with bell suspended in center, festooning twelve feet long, lanterns in five and ten-cent size, candles, etc. Times Bookstore.

Triangular Local Civic Fight.

It now looks as though a triangular duel will be fought for the water commissionership rendered vacant by Mr. W. H. Moore's term expiring. It is more than possible that Messrs. V. Eastwood, and E. F. Mason will contest honors with the former commissioner.

Business Change at Warsaw.

Mr. Levi Payne, who lives a short distance from Warsaw and who has for the past year been the local agent for the Deering Implement Manufacturing Co., has disposed of his business. The purchaser is Mr. Bowley Bamblin, of Dummer, and the business changed hands last Monday.

A Contradiction.

(To the Editor of The Times.)

Sir,—Hearing from several people that a rumor has been circulated that I have sold my practice and intend to leave the city, I herein most emphatically state that I have not the slightest intention of giving up practice here, and shall feel obliged if you will give my denial publicity by finding space for this letter in your paper.

Thanking you in anticipation,

Yours faithfully,

T. W. H. YOUNG.

FEATHER BEDS WANTED

Your last chance to sell us your old Feather Beds. Positively the highest cash price ever paid in this city. Renovating done also.

FEATHER COMPANY, corner Charlotte and Aylmer.

THE NEW TERM

at the

PETERBOROUGH BUSINESS COLLEGE

opens on

TUESDAY, SEP. 4, 1906

Intending students should make application as soon as possible, or call at the College or address

W. PRINGLE,

Opposite Post Office, Principal.

LOCAL INCIDENTS

By The Times Man on the Street

—Ennismore is to have a cow-testing association.

—A sheep and goats meeting was held at the barracks last night.

—The House of Refuge at Lindsay, has only one inmate, a native of Omemee.

—See our south window display of 25-cent articles. Big saving by buying at Times Bookstore.

—Brand new burnt leather novelties now in. See our novelties and get prices Times Bookstore.

—Get your Xmas numbers of magazines and Toronto Globe at Times Bookstore. Our price only 45 cents each.

—The annual meeting of Royal Black Preceptory, No. 281, was held yesterday evening in the Orange Hall, Simcoe street.

—A local degree team from the Black Preceptory will go to Lakefield today, to form a branch of the Preceptory there.

—The Times has it on good authority that, notwithstanding rumors to the contrary, Dr. Young has no intention of leaving the city.

—The Young Men's Guild of St. Paul's church held their regular monthly meeting last night at the residence of Rev. Dr. Torrance.

Leave your renewal order for 1907 with us for any paper or magazine. We will be responsible and save you the trouble of writing. Times Bookstore.

—The annual meeting of St. Luke's Chapter of the Brotherhood of St. Andrew was held last night at the rectory, when the officers of the year were elected.

—The Christmas Kermiss, which will be conducted by the Sisters of St. Joseph, in the Market Hall, opens December 17th to 21st, gives promise of being a most successful affair.

—The Omemee Brass Band has been reorganized, the village instruments being given over to the adjoining farmers' sons, who are likely to become permanent residents.

—The regular meeting of Court Peterborough, No. 29, C.O.F., was held in their hall, Simcoe street, last night, when the nominations of officers for the ensuing term took place.

—The meeting of the Ladies Literary Society of St. Peter's T.A.S. has been postponed till Friday evening, December 14, when Rev. Father Kelly will deliver a lecture on Edmund Burke.

SOCIAL AND PERSONAL

—Mr. Louis Perry has gone to Pittsburg, where he will reside in future.

—Mrs. Cahill, of Peterborough, is the guest of her daughter, Mrs. J. J. English.—Hastings Star.

—Mr. J. M. Gemmell was in Lindsay yesterday, in the interests of the Gemmell cornet factory.

—Miss Mary Wilson, daughter of Rev. J. P. Wilson, of Belleville, is a guest of Mrs. (Dr.) McClelland.

—Dr. Hall, a former resident of the city, now living in the Northwest, is in the city renewing old acquaintances.

—Mrs. William McCallum of Peterborough, is visiting Mrs. Chas. Wells, 44 Brunswick street.—Brantford Exposition.

—Mrs. C. G. Graham will receive at her apartments, Grand Central block, this afternoon, and not again until the New Year.

—Mr. W. D. Ketchenson, of Midland, collector of notes and accounts, is in the city for a few days for the purpose of buying property here.

—Mrs. (Hon.) Hamilton, who has been visiting at St. Luke's rectory for the past few days, left yesterday morning for Fenelon Falls, where she will make an extended visit with her son, Mr. R. M. Hamilton.

Mr. McMartin's Success.

Mr. D. McMartin, of Deseronto, is spending a few days in town the guest of the Munro House. Mr. McMartin is one of Ontario's veteran millwrights. He left Peterborough some years ago to take charge of the mills at Deseronto, and is now superintendent of what is known as Rathburn's Stove mill, being the largest mill belonging to that company. Mr. McMartin reports a splendid season, the mill running steadily without any break or hitch. There are few men today in Canada that have any better knowledge of what constitutes an up-to-date saw mill, than Mr. McMartin. His many friends in Peterborough, are pleased to see him once more amongst them.

Omemee Holds Good Entertainment.

The repeated Omemee "Temple of Fame" entertainment, held in that village last week in aid of the Public Library, exceeded the most sanguine expectations. Everyone was pleased. The costumes were superb. The display of diamonds and jewels worn by the queens was estimated at $5,000. The proceeds, amounting to $75.00, will be used in aid of the library.

Snow Bylaw Still in Force.

The Chief of Police wishes it understood that the snow bylaw has not been repealed—it is still very much in force, and the police department intends to see that its provisions are observed by the citizens. The penalty for failure to observe the law will be followed by punishment which the measure provides.

Local Option Deal at Apsley.

Thirty ratepayers of Apsley have petitioned the township council asking them to submit a local option bylaw at the approaching municipal election. As the petition was insufficiently signed and presented too late, the council declined to take any action on the matter.

Habit-forming Medicines.

Whatever may be the fact as to many of the so-called patent medicines containing injurious ingredients so broadly published in some journals of more or less influence, this publicity has certainly been of great benefit in arousing needed attention to this subject. It has, in a considerable measure, resulted in the most intelligent people avoiding such foods and medicines as may be fairly suspected of containing the injurious ingredients complained of. Recognizing this fact some time ago, Dr. Pierce, of Buffalo, N. Y., "took time by the forelock," as it were, and published broadcast all the ingredients of which his popular medicines are composed. Thus he has completely forestalled all harping critics and all opposition that might otherwise be urged against his medicines, because they are now OF KNOWN COMPOSITION. Furthermore, from the formula printed on every bottle wrapper, it will be seen that these medicines contain no alcohol or other habit-forming drugs. Neither do they contain any narcotics or injurious agents, their ingredients being purely vegetable, extracted from the roots of medicinal plants found growing in the depths of our American forests and of well recognized curative virtues.

Instead of alcohol, which even in small portions long continued, as in obstinate cases of diseases, becomes highly objectionable from its tendency to produce a craving for stimulants, Dr. Pierce employs chemically pure, triple-refined glycerine, which of itself is a valuable remedy in many cases of chronic diseases, being a superior demulcent, antiseptic, antiferment and supporting nutritive. It enhances the curative action of the Golden Seal root, Stone root, Black Cherrybark and Bloodroot, contained in "Golden Medical Discovery," in all bronchial, throat and lung affections attended with severe coughs. As will be seen from the writings of the eminent Drs. Grover Coe, of New York; Bartholow, of Jefferson Medical College, Phila.; Scudder, of Cincinnati; Ellingwood, of Chicago; Hale, of Chicago, and others, who stand as leaders in their several schools of practice, the foregoing agents are *the very best* ingredients that Dr. Pierce could have chosen to make up his famous "Discovery" for the cure of not only bronchial, throat and lung affections, but also of chronic catarrh in all its various forms wherever located.

BY-LAW NUMBER

A By-law to aid the Rapid Tool Company (Limited.)

Passed the day of 1907.

WHEREAS the Rapid Tool Company (Limited) proposes to establish in the City of Peterborough a manufacturing establishment for making auger bits and other tools and to purchase the land and buildings formerly occupied by the Canadian Ultimator Company, being parts of Lots 18, 19 and 21 south of Hunter Street east, formerly Elizabeth Street, according to Corporate Plan 1A for the City of Peterborough, formerly known as the Village of Ashburnham, more particularly described as follows:—Commencing at the north west angle of said lot 21, thence southerly along the westerly limit of said lot 21 and in line with the same extended southerly across lot 19, thence in the same direction to a point 24 links southerly from the northern boundary of said lot 18, thence easterly in a line parallel with the southern boundary of said lot 18 to the easterly boundary of said lot 18, thence northerly along the easterly boundary of said lots 18, 19 and 21 to the north east angle of said lot 21, thence westerly along the northern boundary of said lot 21 to the place of commencement, and to erect thereon additional buildings at a cost of at least Three thousand dollars, and to equip the same with the necessary plant and machinery at a cost of at least Sixteen thousand dollars, and to employ therein within six months after operations are commenced at least twenty-five hands, and has applied to the Council of the City of Peterborough for aid in establishing the same by a grant of Twelve hundred dollars, being the value of the said land so to be purchased, exclusive of the buildings thereon, and by granting partial exemption from taxation for a period of ten years by fixing the assessment of the said manufacturing establishment at the said sum of Twelve hundred dollars.

AND WHEREAS it is desirable and in the public interest to encourage the promotion of the said industry as aforesaid.

AND WHEREAS it will be necessary to borrow the sum of Twelve hundred dollars, the amount required as aforesaid, by the issue of debentures for the same, which said sum of Twelve hundred dollars is the amount of the debt intended to be created by this By-law.

AND WHEREAS the amount of the whole rateable property of the Municipality, according to the last revised assessment roll, is the sum of Six million nine hundred and fifty-four thousand seven hundred and thirty-one dollars ($6,954,731).

AND WHEREAS the amount of the existing debentures debt of the Municipality, exclusive of local improvement debts but including the debt of Two hundred and ninety-two thousand dollars ($292,000) incurred for the purchase and improvement of the waterworks, is the sum of seven hundred and four thousand and fifty-five dollars and nine cents ($704,055.09) and there is no part of the principal or interest in arrear.

AND WHEREAS it will require the sum of Forty-eight dollars ($44) to be raised annually for a period of twenty years, the currency of the debentures to be issued under and by virtue of this By-law for paying the interest on the said debt, and the sum of Forty-two dollars and forty-five cents ($42.45) to be raised annually during the said period for providing a sinking fund for the payment of the same at maturity; such last mentioned sum being sufficient, with the estimated interest on the investment thereof, to discharge the said debt when the same becomes due, making in all the sum of Ninety dollars and forty-five cents ($86.45) to be raised annually as aforesaid, by special rate on the whole rateable property of the Municipality.

THE CORPORATION OF THE CITY OF PETERBOROUGH BY THE COUNCIL THEREOF THEREFORE ENACTS AS FOLLOWS:

1. This By-law shall take effect on the final passing thereof.

2. It shall and may be lawful for the Corporation of the said City of Peterborough to borrow the sum of Twelve hundred dollars and to issue debentures of the Corporation for the same, such debentures to be sealed with the Corporate Seal of the City of Peterborough and to be signed by the Mayor and Treasurer and countersigned by the Secretary of the Commissioners of the Peterborough City Trust, and to be payable within twenty year after the issue thereof and to bear interest at the rate of four per centum per annum payable half-yearly on the thirtieth day of June and the thirty-first day of December in each year and to have coupons attached thereto for the payment of such interest; such debentures as to principal and interest to be payable at the office of the secretary of the Commissioners of the Peterborough City Trust in the City of Peterborough.

3. There shall be raised and levied during each year of the currency of the said debentures, by special rate upon all the rateable property in the City of Peterborough liable thereto, the sum of Forty-eight dollars ($48) for payment of the interest on the said debt and the sum of Forty-two dollars and forty-five cents ($42.45) as a sinking fund for the payment of the said debt at the maturity thereof when the said debentures become payable making together the sum of Ninety dollars and forty-five cents ($90.45) to be raised annually for the purposes aforesaid.

4. The proceeds of the debentures to be issued under and pursuant to this By-law when sold shall be given to the Rapid Tool Company (Limited) to aid the said Company in the promotion of the said manufacturing establishment by the payment of the purchase money of the said land above described upon and only upon and subject to the terms and conditions hereinafter mentioned, and until the said conditions shall have been fully performed and satisfied, the said Company shall not be entitled to the said money or any part thereof or to any interest in or right to the same.

The conditions upon which the said grant shall be made are as follows:—

1. That the said Company shall obtain a good title in fee simple to the said land free from all encumbrances.

2. That the said Company shall on or before the first day of January, 1907, erect on the said land an additional building suitable for its purposes at a cost of at least Three thousand dollars and instal in the same and in the building now on the said land at least Sixteen thousand dollars' worth of plant and machinery suitable for the manufacture of auger bits and other tools, and shall on or before the said date have the said manufacturing establishment in running order and in actual operation and shall within six months thereafter employ therein at least twenty-five hands.

3. That the said Company shall execute an agreement in form approved of by the City Solicitor, which may be registered against the said land, providing that the said land shall be held by the said Company subject to the conditions that in the event of the same, within the period of ten years from the date of the payment over to the the said Company of the amount paid to it under the terms of this By-law, ceasing to be bona fide used for the manufacture of auger bits and other tools or other manufacturing business approved of by the City Council substantially in accordance with the capacity thereof for the period of twelve consecutive months, or ceasing to employ in said business at least an average of twenty-five hands for at least ten months in any year, that the said land and buildings and machinery thereon shall become the absolute property of the Corporation of the City of Peterborough and free from any claim, therein of the said Company or its assigns; unless the said Company or its assigns shall within six months after such period of twelve months for which the said land shall have ceased to be used as aforesaid, pay the Corporation of the City of Peterborough the full sum of Twelve hundred dollars.

4. PROVIDED ALWAYS that if the failure to so use the said land is due to strikes or to the destruction of the buildings or machinery by fire or tempest, the time during which the said land shall so cease to be used in consequence of such strikes or destruction of the buildings or machinery (not exceeding in either case one year) shall not be counted in the said period of twelve months which entitles the Corporation to the ownership of said land or to be paid the sum aforesaid.

5. PROVIDED the said Company shall erect, equip, occupy and use the said buildings on the said land within the time hereinbefore limited, the assessment of the said land used exclusively for manufacturing purposes and the buildings, plant, machinery and fixtures thereon used exclusively for manufacturing purposes on which taxes are to be levied shall, except as to school taxes, be fixed and remain fixed at the sum of Twelve hundred dollars for a period of ten years, commencing on the first day of January, 1907, and the return and oath of the Assessor or Assessors in respect thereof shall be amended accordingly; but the said land shall also be liable for all frontage and local improvement assessments, rate and taxes, and taxes for school purposes that may be charged against the same—provided, however, that if the said Company shall at any time within the said term of ten years fail or neglect to carry on the said manufacturing business as above provided for the time above stated, or shall fail or neglect to carry out any of the terms of this By-law or shall not have in its employment in said business at least an average of twenty-five hands for at least ten months in the year, then such fixed assessment shall cease and the said lands, buildings, plant, machinery and fixtures shall be assessed as provided by the Assessment Act then in force, and further provided that the event of any petition being presented to the Council for any local improvement or the City Council desiring to construct any such work, the said Company will not take any action to oppose such petition or work, an agreement to this effect to be furnished by the Company.

6. The said Company shall prior to the first day of March in each year file with the City Clerk a Statutory Declaration made by an officer of the Company who shall therein state his knowledge of the facts, proving that the Company has complied with and is observing all the terms, conditions and provisions of this By-law and those contained in the said Agreement and on neglect of the said Company to furnish such declaration it shall be prima facie taken that such terms, conditions and provisions have not been performed, observed and kept.

7. The votes of the electors of the City of Peterborough qualified to vote upon a By-law for creating debts shall be taken upon this By-law on the same day as the annual election for the Municipal Council for the year 1907 and the polls will be held during the same hours, at the same places and by the same Deputy Returning Officers and Poll Clerks as are appointed and fixed for the said annual Municipal elections.

8. The eighth day of January, 1907, at the hour of twelve o'clock noon and the City Clerk's Office are hereby fixed as the time when, and the place where, the Clerk will sum up the number of votes given for and against the By-law.

9. The fifth day of January, 1907, at the hour of twelve o'clock noon and the office of the City Clerk are hereby fixed as the time and place for the appointment of persons to attend at the various polling places and at the final summing up of the votes by the Clerk respectively, on behalf of the persons interested in and promoting or opposing the passing of the By-law respectively.

Mayor.

Clerk

NOTICE

Take notice that the foregoing is a true copy of a proposed By-law which has been taken into consideration and which will be finally passed by the Council of the City of Peterborough (in the event of the assent of the electors being obtained thereto) after one month from the first publication hereof in the Morning Times newspaper, the date of which first publication is the seventh day of December, 1906, and that at the hour, day and place therein fixed for taking the votes of the electors the polls will be held.

S. R. ARMSTRONG,
City Clerk.

How's This?

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIV. NO. 288 PETERBOROUGH, ONTARIO, SATURDAY, DECEMBER 8 1906 PRICE TWO CENTS

STEEL AND COAL COMPANIES HAVE COME TO AGREEMENT

It Was Signed Yesterday by James Ross and J. H. Plummer

TWO YEARS' AGREEMENT

Nova Scotia Steel Co. will Pay a Higher Price for its Coal.

Montreal, Dec. 8.—Early yesterday afternoon James Ross and J. H. Plummer signed an agreement between the Dominion Coal and Steel companies.

The agreement is for a two years' contract, the steel company paying a much higher price for its supply, but will have the right to pick its coal. The question of the rights of the steel company under the old contract will be submitted to the courts. The contract goes into force at once.

Montreal, Dec. 8.—All day Friday and all night through till four o'clock yesterday morning, the leading officials of the Dominion Iron and Steel Company and the Dominion Coal Company strove for a settlement of the big trouble that is now threatening a crisis in cidney.

Twice the officials of the two companies had almost become certain that a settlement had been reached, and twice at the very last hour all plans were upset.

The cause of the break in both instances was the price the steel company should pay for coal that the Dominion Coal Company will supply. After a long meeting in the afternoon at the Windsor Hotel, which was attended by Hon. Mr. Fielding, the officials of both companies agreed on a basis. On the steel side it was accepted by President Plummer and Vice-President Forget, and on the coal side agreed to by Mr. Jas. Reid Wilson and Mr. F. L. Winklyn. It was then thought to be settled, and all there would be to do would be to sign the papers. The terms of the agreement were then submitted to Mr. James Ross, the president of the coal company, at his home, but he would not accept them, and he refused to endorse the action of his representatives.

He was willing to agree as to the price, but he insisted that the agreement should only be made out a short time as the courts might decide whether, by the old contract, the steel company had the right to bid its coal. An all-night session of St. James Club was no sufficient to enable the companies to agree on a new basis.

The steel company at noon stated that they were waiting for Mr. Ross to sign the agreement, while the coal company claimed that they were waiting for word from Mr. Plummer of the steel company, and that they had promised him not to make any public announcement till they had got it.

A settlement must be reached soon now, as a few more snowstorms will make it impossible for the steel company to get coal to its plant.

Six Years in Kingston For Stealing P.O. Letters

Wm. J. Leroy, Who Plundered a Mail Bag and Hid Contents.

Toronto, Dec. 8.—Six years in the Kingston Penitentiary, was the sentence passed by Magistrate Denison yesterday upon William J. Le Roy, who pleaded guilty to stealing two mail bags while in the G.T.R. mail car.

Le Roy was a brakeman, and was discharged some time ago. Using his acquaintance among the men as a cover, he travelled in a mail car. About a week ago he kicked a bag of mail out of a car at Milton, and one at South Parkdale, and returned to rifle them of their contents.

"This is a very serious charge," said his Worship, "and the lowest term is three years. Parliament has been very severe on this class of crime. I sentence him to six years in the Kingston Penitentiary on each charge, the sentences to run concurrently."

Post Office Inspector Henderson prosecuted, on behalf of the Government. The letters, it will be remembered, were found open and thrown into a water tank at the Iroquois Hotel. Le Roy found a couple of money orders in the letters, and signed and cashed them.

ATHLETIC WORLD

BY OUR SPORTING EDITOR.

CURLING.

There will be curling in the Charlotte street rink tonight. Workmen yesterday were busy making alterations and ice at the rink, and it is expected that everything will be in shape to start the rousin game tonight. The cold weather has helped greatly in getting good sheets of ice. Now the demands for brooms, Scotch bonnets and other articles "Scotch" will be in demand.

HOCKEY.

"Billy" Breen, the popular trainer of the Peterborough hockey team, has arrived in town from Toronto to get the boys in shape. Practices will commence early next week, and Billy hopes that the boys will be able to land the O.H.A. senior championship.

Holding a Seat in a Close Constituency.

City Council of 1907 Will Miss Three Ideal Chairmen

Three valued members of the City Council are retiring from the Board this year. Ald. Hicks, chairman board of Works, will run for mayor; Ald. Frank Adams, chairman Fire, Water and Light Committee, assumes the city treasurership on January first; and Ald. E. F. Mason, the city's capable Finance Minister, will offer himself as a candidate for Water Commissioner. Then it is very probable that Ald. McWilliams, the present chairman of the Manufacturers' Committee, will contest the mayoralty with his colleague, Ald. Hicks. In this way the council of 1907 will be materially weakened by the loss of the chairmen of the four committees, even though one of the ambitious fathers is elected presiding officer. The year 1906 has been a particularly strenuous one for committee work, and consequently the practical experience thus gained by the several chairmen will render it somewhat of a difficult matter to satisfactorily replace them, no matter how capable their successors may be. Whoever assumes a chairmanship on Peterborough's City Council these days must be prepared to devote considerable time to his duties, which are not limited by any means to merely presiding at the meetings of his special committee. The most difficult of these chairmanships to fill with credit is that of chairman of the Board of Works, and the exceptional work done in this department this year by Ald. Hicks has demanded from him more time than most men are in a position to give in a service for which there is no monetary return. That Ald. Hicks has been a capable, faithful and unselfish Board of Work's chairman is too well known to need further comment. And now he comes before his fellow citizens as candidate for mayor with hard-earned experience in municipal work on a Board from which has heretofore been selected some of our best chief magistrates.

* * * *

ALD. ADAMS'S SUCCESSOR.

No. Five Ward should not forget that their representative's successor as chairman of the Fire, Water and Light Committee is Ald. Johnston, who, mainly speaking, should assume the interests of ex-Ald. Adams ward the balance of the year, now that he has stepped into his shoes on the City Council Board. But there, that should not be a difficult task to undertake now that the diversion of the creek in Ashburnham has passed council and been embodied in a bylaw on which ratepayers will vote on January 7th. That particular creek took up considerable time of the council this year, Ald. Adams contending that its diversion should be paid for by general tax, on the ground of its being a public need, while his Worship argued that it should be paid for by frontage tax, as it mainly meandered through private property. The worthy couple measured swords on this question many an hour, but Ald. Adams held his ground like a gladiator of old, and finally won out. Some say that Frank Adams would not have accepted the city treasurership had this measure been still in abeyance, but that's a debatable point. However, the future city treasurer was a model alderman, and will unquestionably prove a worthy successor to Felix Brownscombe.

* * * *

CIVIC COMMITTEES.

There have been but four Standing Committees in the City Council this year, and some aldermen have expressed their dissatisfaction at the work having been limited to so few committees. Not, however, as a reflection on the capability or discharge of duty of the several chairmen, but on general principles. They argue that the responsibility embodied in committee chairmanship should be more generously distributed amongst the city fathers. We may look for additional committees in the council of 1907.

HE WILL BE MISSED.

It is hard to conceive of our City Council not including Mr. Henry Best, so long has he been connected with that body, and with untiring energy and activity Mayor Best is a veritable walking encyclopaedia on municipal matters, and his advice will unquestionably be much in demands Citizens should bear in mind with gratitude that he is the father of our sewer system, of municipal ownership of the water works, and a strong advocate of city assumption of light, power, street railway and all other public systems that could be advantageously operated by the corporation. He did not oppose city ownership of a public steam heating system from a point of merit or demerit, but on the ground that there were more important measures in view. Besides, his Worship says he has experienced so vast a quantity of "hot air" during his municipal career, that he naturally fights shy of any measure of that nature.

* * * *

ALDERMEN IN THE FIELD

From advice to hand, we announce that Ald. Graham has signified his intention of retiring from the council, while Aldermen Tovey, Elliott, Johnson, Wilson, Duncan, Ball and McIntyre will seek re-election. 'Tis a pity that Ald. Graham cannot see his way clear to remain in harness. The year's experience makes him a desirable candidate.

Daily Happenings in Court Room and Station.

Jas. Scanlon, a recent importation from Merry England, who has been under surveillance in the county jail for some weeks will, leave in charge of P. C. Mcharry Scanlon, it seems is non-compos-mentis, or in the vernacular, "Batty," P. C. Mcharry will take him to Mimico Asylum where his homocidal threats as well as his expressed determination to turn a deaf ear to the natural telepathic message from his stomach, by eating nothing, will be carefully looked after.

Y. M. C. A. Branch in Millbrook

The Millbrook Reporter says, A branch of the Young Men's Christian Association was organized in town on Tuesday evening by the Rev. R. H. Noxon, of Port Hope, in the rooms over Mr. J. Armour's store, provided by the Sunday School of the Presbyterian church. Any young man of good, moral character, desirous of becoming a member can give his name to the secretary and if found eligible by the committee appointed on membership, will be admitted on payment of $1.00 in advance, to all the privileges of the association. Rooms open every evening for members only.

STUDENTS BURIED IN RUINS OF BURNING CHAPTER HOUSE

Fraternity House at University Was Destroyed by Fire Yesterday

FOUR STUDENTS ARE DYING

Several of the Students and Volunteer Firemen Were Killed.

Ithaca, N.Y., Dec. 8.—Early yesterday, the beautiful Chi Psi fraternity house caught fire and soon the first floor was aflame. Before the fire department could arrive, O. L. Schmuck of Hanover, Pa., had jumped from the third storey window, and was severely injured, so that it is feared he will die in the Cornell infirmary, where he was taken.

Three of Ithaca's volunteer firemen, all of them well known and respected citizens, were killed while fighting the flames. Four students lie in the infirmary at the point of death, while at the time of writing it is not known how many are in the ruins.

The chapter house, which was the celebrated mansion built by Mrs. Jennie McGraw Fiske, on the campus, overlooking Cayuga Lake, but never occupied by her because of her premature death, was a beautiful structure of sandstone.

THE FIREMEN KILLED.

The firemen killed were Attorney A. S. Rothwell, a graduate of Cornell, Ray Lauden, and John Kearney. They were manipulating a hose on the north side of the building which the wall collapsed on them, and pinned them, to slowly roast under the burning debris. When the fire department arrived on the scene the screams of two men appearing at the windows of the south-west tower, over the main entrance, were heard. For some reason he men hesitated to jump from the burning pyre, and when the firemen got within the range of the flames the tower collapsed and the men were burned beneath the ruins. They are supposed to be W. W. Crouse, Minneapolis and H. M. Nimms of Geneseo.

The burning chapter house reared like an inferno for some while before help arrived, and the scenes were indescribable. While the walls tottered above the students and firemen fought for life. Those on the south side of the building were all rescued, but those on the north side were penned in by the flames.

BURIED IN THE RUINS.

Among those who lie in the ruins are a prominent Minneapolis boy, who is dying from burns received by jumping from the third storey window, and a Cornell student from Geneseo. Both of these men have been rescued from the ruins, but the Minneapolis boy is dying, while the Geneseo man is not expected to live. Besides the dead and dying, there are a number of students who are more or less injured, who jumped from the burning building.

C. J. Kappa, a freshman member of the University, is missing, and is supposed to be buried in the ruins.

Ithaca is also mourning deeply in the memories of the future statesmen, and it will be several years before the ruins will be cool enough to undertake any real work. Agonized men and boys have been carried into Cummings' morgue. It is that of O. L. Schmuck of Hanover, Pa.

The university is paralyzed by the catastrophe. It is the most terrible disaster of the kind that has ever taken place at Cornell, though at the Delta Chi chapter house five years ago many lives were lost.

Schmuck's death brings the list of probable dead up to six, including the three volunteer firemen.

Local Turf Club is Reorganized

Notwithstanding the fact that for many months past, races and horse-racing in Peterborough, seemed to be a dead letter, it must be noted that the local Turf Club is not dead.

The newly reorganized Turf Club met in their quarters yesterday, and viewed the grounds at the Driving Park for a term of five years. A new feature will be presented to the lovers of driving during the evening sports when the races on the track are over each one who wants to drive will be welcomed, and many a merry exhibition of speed will be seen there, while the evening sports are as well as the summer months.

The club will once again on Monday afternoon to appoint officers for the ensuing year, and general business including arrangements for a good race meeting, that would be now the leading event. Such men as Dr. Jameson, Martin Cosgrove, Jas. Crowe, A. J. Olsen, J. A. Barnes, Chas. Nixon, J. Cottingham, R. S. Jackson, Geo. White, Geo. Lapsley and Jas. Neely, are the men who went to the rescue of the Turf Club, and they determined to do all in their power to make local racing a success.

It is to be hoped that they may have every success, as no doubt they will, their motto will be "Fair play, no favors, British fair play to all."

Mr. Eardley-Wilmot Leaving for Perth

The many friends of Mr. K. Eardley-Wilmott, will regret to hear, that the popular manager of the Bank of Montreal here, has received notice of his transfer to the management of the Perth branch of that bank. Mr. Wilmott will be succeeded by Mr. Montmambert, of Lindsay.

Who Shall Control Local Education?

As noted before in these columns, and once more owing to the vital importance of the subject, it might be reiterated that the seven new members of the new Board of Education for by "Statute or Statutes." [illegible] as between the Separate and Public [illegible] committees or offices, as yet unnamed, it might be noted that the one who retire or stand for re-election according to individual principles, that all of the four have considerably energetically and capably filled their positions with credit both to the city and to themselves. Whilst the city wants the best material to fill important positions as these, which directly affect the education of our growing sons and daughters, it is a matter worthy of serious consideration whether to be "off with the old love" before ascertaining the qualities and possibilities of a possible new love.

Y. M. C. A. Gymnasium Much in Demand

Business and Professional Men's Class is Steadily Growing in Popularity.

Nothing can be more exhilirating [illegible] ful than an hour's exercise in the Y.M.C.A. gymnasium, under the capable instruction of Mr. Herbert Dingman, followed by shower or needle baths. The appointments at this institution are all that can be desired, which fact is fully appreciated by the class of business and professional men that meets each Monday and Thursday evening from five to six p.m.

This class is steadily growing in numbers and popularity, and Mr. Dingman's courteous and gentlemanly handling of the class goes a long way towards making its semi-weekly gathering an event eagerly looked forward to by its members.

Mr. A. W. Cressman Gives a Banquet

Mr. and Mrs. Cressman entertained the male employes of his large dry-goods and tailoring establishment at their home on Brock street, and a highly enjoyable time was spent. The tables groaned with their burden of eatables and nothing was left undone by the genial host and charming hostess to give their guests a good time. After justice had been done to the repast there were speeches and toasts and afterwards a merry time was spent in the drawing room during the evening employer and employes had a mutual benefit talk regarding the business in which they were engaged.

Before the guests departed three cheers and a tiger were given for the host and hostess.

Two weeks ago Mrs. Cressman entertained their female employes.

Such actions as these forge a link of friendship between employer and employe that must strengthen the chain that connects with ultimate success for both.

Daughters of England Elect Officers

The Daughters of England, of this city, have elected the following officers for the ensuing year:

Pres.—Mrs. Wolstenholm.
Vice-Pres.—Mrs. A. Davidson.
Secretary—Mrs. S. Mitchell.
Treasurer—Mrs. Thomas.
Chaplain—Miss Taylor.
1st Guide—Mrs. Simmons.
2nd Guide—Mrs. Anderson.
3rd Guide—Mrs. Evans.
4th Guide—Mrs. Stocker.
Inner Guard—Miss Young.
Outer Guard—Mrs. W. Taylor.
Trustees—Mrs. Geakins, Mrs. Nash, and Mrs. Shore.
Auditors—Mrs. Tovey, Mrs. Fred Thomas and Mrs. Oliver.
Medical Officer—Dr. T. H. Young.

Idyl Wyld is to be Popularized

It is rumored that a company is being formed to purchase the popular summer hotel at Idyl Wyld from the Calcutt B. & M. Company, to enlarge and renovate it.

The negotiations in progress are said to also include the purchase from the Calcutt Company of the steamer City of Peterborough, now at the Ashburnham dock. The steamer will be overhauled and made the equal of any boat on the Otonabee at the present time. The company, it is said, will also control one or two other steamers.

Should the deal substantiate, with the acknowledged beauties and healthfulness of Idyl Wyld, and the commodious steamer City of Peterborough, fully modernized, the company will have a veritable gold mine.

Head-on Collision on Charlotte Street

About 11.15 p.m. last night, two gentlemen, one an ecclesiastic from over the line and the other a skilled musician from the sunny shores of Italy, had a lively set to on Charlotte street, just west of the Greek restaurant. It seems that the two parties referred to were meeting each other on the sidewalk. The pulpit exhorter proceeding east, and the curly-haired artist west, when suddenly the first named looked behind him, and almost instantly there was a collision, and both instruments and books were mixed up on the icy sidewalk. Both blamed each other and a demand for an apology was clearly audible, but the cur with the bronzed complexion did not appear to understand and quickly grabbed the nose of his adversary, not forgetting to play the role of cat severely. An early "Harvard" training was soon exhibited from the other side and a quick right and left soon mixed the man of "mosaic" with the snow and giving the same a tint of red. The timely arrival of the man who does the silver button act put an end to the laughable, international scrap on neutral ground.

Argued the Price While Men Drowned

Ottawa, Dec. 8.—Hon. Mr. Brodeur, the Minister of Marine and Fisheries, has ordered a searching investigation into the circumstances under which several members of a Norwegian schooner wrecked at East Point, P.E.I., a short time ago, were allowed to drown when their lives might have been saved had aid been rendered promptly. Mr. Brodeur is unable to understand why proper steps to accomplish the rescue of the castaways were not taken in view of the fact that Agent Bell of Charlottetown, was told by telegraph to do everything in his power to save the shipwrecked mariners.

This message was sent in response to an urgent wire from Lloyd's agent that a Government steamer be ordered to the scene of the wreck. The steamer went to East Point as directed, but, it is alleged, could not get near enough to take off the survivors, and returned to Charlottetown. It was then proposed to send a tugboat by special train from Charlottetown. For this service $60 was demanded by the officers of the Government railway. Mr. Brodeur wants to know why Agent Bell did not pay this money himself when human lives were at stake, or obtain sanction from Ottawa to do so. Nobody here would have complained of the expenditure for such a purpose, and there are no rules or regulations that debar Government officers from immediate action where it is a question of saving lives.

The Prince Edward Island officials will also, no doubt, be asked to explain why they stopped to barter over the price of a special train when drowning men were calling for aid.

Doukhobors Wanted to Build the G. T. P.

New York, Dec. 8.—A special despatch to the Sun from St. Petersburg says:

Peter Stefanowitch Verreguine, leader of the Doukhobors in Canada, has arrived here for the purpose of engaging 10,000 Russian workmen to work for two years under contract in railroad construction in Canada. Alexander Stolypin, the Prime Minister's brother, a well-known writer, publishes a favorable account of the Doukhobors, who, he says, are satisfied with the authorities and employers of Canada. He adds that the outbursts of religious ecstacy, noted a few years ago, have been subdued since the arrival in Canada of Verreguine, who is the absolute head of the colony. He reports that they worked so well on the construction of the transcontinental railroad that he is authorized to offer free transportation to Canada and repatriation after two years to 10,000 workmen, who will be lodged by the railroad authorities and paid forty roubles monthly. Those already there have lived so economically that they have made large savings, which, on their return to Russia, they intend to invest in land purchases, believing he improved methods of cultivation which they have learned in Canada can be applied to agriculture in Russia.

ROYAL Baking Powder

ABSOLUTELY PURE

Healthful cream of tartar, derived solely from grapes, refined to absolute purity, is the active principle of every pound of Royal Baking Powder.

Hence it is that Royal Baking Powder renders the food remarkable both for its fine flavor and healthfulness.

No alum, no phosphate—which are the principal elements of the so-called cheap baking powders—and which are derived from bones, rock and sulphuric acid.

ROYAL BAKING POWDER CO., NEW YORK.

SLEEP

Did you, sleepless one, ever try a dish of GRAPE NUTS and CREAM just before bed-time.

Surely you never did or you would'nt train with the "sleep-less squad."

IT'S A BAD PRACTICE to load up the stomach with a promiscuous variety of rich, indigestible food at night because it "tastes" good.

STRENGTH WITHOUT BULK is requirement of an ideal food for the last bite before going to bed. The food that is concentrated so that a sufficient amount for all purposes will not distend the stomach; the food that is practically predigested so that the organs can, without undue effort, absorb it wholly; the food that contains the tissue-repairing and energy-making elements from clean field grains—that contains the Phosphate of Potash which combines, by vital process, with Albumen to repair the gray matter in brain and nerve centers—that's

Grape-Nuts

TRY A DISH—about four heaping teaspoonfuls with cream or milk, and a little sugar if desired, eaten slowly before retiring, if you're hungry, and notice how well you sleep and how fresh you feel in the morning.

"There's a Reason"

WHY SO WEARY?

Always Restless and Weak Isn't Natural—But It's Dangerous.

You have to work hard. This uses up lost of nerve force and tears down the body faster than it can build up.

The result is a half-dead feeling you can't shake off. The water in your blood must be turned into nutriment and building material.

This is just what happens in using Ferrozone, which renews the blood and nerves, and makes each organ do the work that nature expects of it.

Ferrozone quickly increases your weight, brings appetite and healthy color, instills a reserve of vigor into the system that defies weariness, exhaustion, debility, or sickness of any kind.

The enormous strengthening power of Ferrozone is proved in the case of Mrs. Edward Hill, of Orr Lake, Ont., who says:

"Two years ago I had a nervous breakdown. At night I tossed restlessly in bed, unable to get any rest from sleep. In the morning I suffered from over-powering weakness. My appetite was poor. I grew pale, thin and despondent. A slight hacking cough also added to my burden.

"My doctor said to try Ferrozone, and it did me good in a few days. I increased in strength, the nervous sensations disappeared, and with my appetite came back my color and good spirits. I have gained over ten pounds in weight, and now my age is 56. I consider Ferrozone is a marvel." (Signed) Mrs. Edward Hill.

REMEMBER THIS: Ferrozone is a true tonic—not an alcoholic stimulant. Fifty chocolate-coated tablets in a box for fifty cents, or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

UNION LABEL

PETERBOROUGH, DECEMBER 8, 1906

GOVERNMENT CONTROL OF CROWN LANDS

Mr. McKenzie King, the Deputy Minister of Labor, defends his journey to Indianapolis in order to bring the Lethbridge coal strike to an end on the ground that the people of the West were freezing and that it was no time to stand on his official dignity. With this everybody will be in hearty agreement. We quite agree with The Star that as the circumstances stand, Mr. King and Premier Scott were abundantly justified in taking the shortest road to the breaking of the fuel famine which was threatening the lives of Western settlers, and damaging the reputation of the entire prairie country. They have no need to apologize; they are to be congratulated on their courage.

But this will not make the conditions which compelled this journey any more palatable to the Canadian people. The Toronto Globe points out that this journey to an American city might have been undertaken to bring a group of capitalists to an appreciation of the crisis; but this is rather an aggravation than an amelioration of the circumstance. What our people object to is being compelled to go—in the person of their representatives—on their knees to anybody in the world for the privilege of getting our own natural wealth out of the earth at a time when the lack of it may mean death to the settler and vast damage to the country. We would not be willing to find ourselves in this attitude toward any set of men in Canada; and the humble pilgrimage to Indianapolis was only a dramatic presentation to us of the humiliation and the folly of being in such a situation.

Mr. John Herron, a member from Alberta, has given notice of a resolution declaring against the sale of coal lands to private persons under conditions which fail to provide for an immediate supply of coal at a reasonable price, adequate to the requirements of the people. This resolution should carry, and should then become the basis of our public policy. We cannot afford to let men, women and children freeze on our prairies—or in our cities—when there is plenty of coal to save them awaiting the pick of the miner in Canadian pits. The mining must go on, no matter how many wage disputes may be brought forward; and if the people in control will not do the mining, other people must be at once put in charge.

The representatives of the Canadian Government should have power enough in their hands to compel the settlement of such differences without having to journey, hat in hand, to any American city.

To have beautiful, perfect, pink, velvet-like lips, apply at bedtime a little coating of D. Sheop's Green Salve. Then, next morning, notice carefully the affect. Dry, cracked, or colorless lips mean feverishness, and are as well ill appearing. Dr. Sheop's Green Salve is a scientific healing ointment, that will quickly correct any skin blemish or ailment. Get a free trial box at our store and be convinced. Large, Glass Jars, 25 cents. J. D. Daly.

Assault Charge Laid Against Preacher

St. Thomas People Say That Rev. Mr. Charlton of Mapleton Was Altogether too Strenuous.

St. Thomas, Dec. 7.—Rev. Mr. Charlton, pastor of the Disciples' Church at Mapleton, a few miles east of this city, has been summoned to appear before County Police Magistrate Hunt on Friday morning on a charge of assaulting Clinton Smith of St. Thomas.

At the close of a large tea meeting a bus load of young men and ladies drove down from St. Thomas. They arrived a little late, and were compelled to take a back seat. It is reported that some mischievous boys who were sitting behind them were guilty of misbehavior which caused the pastor and others annoyance.

After the performance, the St. Thomas people were awaiting their bus to come for them, when Mr. Charlton, it is alleged, went to them and made remarks which the St. Thomas people resented as slightingly. The pastor, it is said, then struck young Smith in the face and kicked him out. He also attacked the others who made no resistance, saying: "We are not here to fight."

It is supposed that Mr. Charlton thought they were responsible for the trouble.

WRECKED IN FUNDY BAY

Report of Death of Schooner Emma A. Harvey's Captain Confirmed

Halifax, Dec. 7.—Further details of the wrecking of the American schooner, Emma A. Harvey, at Scott's Cove, Digby Gut, confirm the report that Captain Berry is dead. He became exhausted, and was frozen to death. The captain and crew were washed overboard, and one seaman is missing. The vessel went to pieces immediately on striking.

A number of fishermen for the American schooner Rebecca W. Hadley, from Salem, Mass., for St. John, were narrowly averted. On Saturday night she lost a foresail, a new jib and one of the anchors. On Tuesday Captain Scott clipped his anchors, and managed to reach Digby Gut, where his vessel went ashore. No lives were lost.

MUSIC AS A CAREER.

Opinion of Mme. Schumann-Heink, the Prima Donna.

"I have been asked if music is a fitting career for a woman," says Mme. Schumann-Heink. "I most decidedly say that it is. Women have won distinction in every branch of the art. They have won renown as singers, pianists, violinists, cellists as well as composers, and I know of one instance as a manager. I have sung with clubs where the director of the organization was a woman and have also been invited to sing during this season with an orchestra composed entirely of women, including the tympani player. The same opportunities are open to a woman as to a man. They must all begin alike. Take myself for an example. I recall as though it were a dream the years of study, first under one teacher and then another, some celebrated, some not, before I discovered that I might dare to hope for even a small success. It was at a musical festival in Berlin where I had my first chance. But when it came I was prepared for it, though I was very shabby and even hungry at that time and, I must add, very thin. It was two great men who led the applause that evening, Brahms and Joachim, and when they both kissed my hand I knew that brighter days were coming and the lifetime of innumerable hardships was passing.

"The prospects for the success of the American girl singers are unlimited. The young women of this country are endowed with the gift of extraordinary vocal organs, and among them one must look for our great voices. But they are too impatient to win at a leap the highest prizes. They select a teacher (the most important of decisions) almost flippantly. A good teacher is a genius. There are perhaps a few left in this big world of ours. I do not say whether their headquarters are in America or Europe. But to the student I say emphatically, seek with prayer and fasting until this rara avis is discovered. Downright hard work, with patience and perseverance added, is the only thing which will make one succeed not only in music, but in any profession."—Brooklyn Eagle.

HYOMEI CURES CATARRH

Costs Nothing Unless it Gives Relief—Sold Under Guarantee.

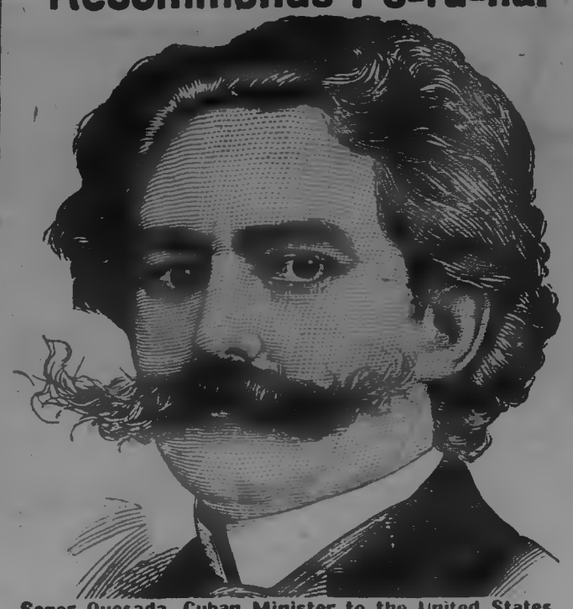
In many instances Hyomei has cured catarrh when the patient has suffered from childhood. Quite a few people in Peterborough, who have been unable for years to get a good night's sleep on account of the disagreeable tickling and dropping at the back of the throat, have obtained quick relief from a few treatments with Hyomei, and the continued use has made a complete and lasting cure.

There is no stomach dosing when one uses Hyomei. Simply breathe its medicated healing through the pocket inhaler that comes with every outfit, and all catarrhal germs will be killed and the mucous membrance will be healed.

A complete Hyomei outfit costs but $1, sufficient for at least two weeks treatment, making it one of the most economical methods of curing catarrh. If the outfit does not complete a cure, extra bottles of Hyomei, if needed, can be bought for 50 cents. Remember that there is no risk in buying Hyomei. It costs nothing unless it cures.

All druggists should be able to supply you with Hyomei or we will send it by mail on receipt of price, and every package is sold with the distinct understanding that it costs nothing unless it cures. Write us today for a symptom blank, which we will send you free, together with treatise on Catarrh and how to cure it. When you fill in and return to us the symptom blank, our consulting physician will give your case the best care and attention, and write you a letter of advice without charge. Booth's Hyomei Company, Buffalo, N.Y.

CUBAN MINISTER TO THE U. S.
Recommends Pe-ru-na.



Senor Quesada, Cuban Minister to the United States.

Senor Quesada, Cuban Minister to the United States, is an orator born. In an article in The Outlook for July, 1900, by George Kennan, who heard Quesada speak at the Esteban Theater, Matanzas, Cuba, he said: "I have seen many audiences under the spell of eloquent speech and in the grip of strong emotional excitement, but I have rarely witnessed such a scene as at the close of Quesada's eulogy upon the dead patriot, Marti." In a letter to The Peruna Drug M'f'g. Co., written from Washington, D. C., Senor Quesada says:

"Peruna I can recommend as a very good medicine. It is an excellent strengthening tonic, and it is also an efficacious cure for the almost universal complaint of catarrh."—Gonzalo De Quesada.

Mr. Will A. Hoffman, Hagerstown, Ill., writes:

"I gladly give my testimonial with the thousands of others who have been cured by the use of Peruna.

"I had catarrh of the head and throat. I took cold easily and was dizzy-headed.

"I was all rundown and hardly able to work at all when I began using Peruna.

"But, now, after using it about six months I am well and strong."

There is no remedy in the world which has proven so popular for catarrh as Peruna. It has been used for more than thirty years and cured thousands of cases as proven by our testimonials.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

Delay in Judgements.

Ottawa, Dec. 7.—George Taylor, M. P., has placed the following questions on the order paper of the House of Commons: Is the Government aware that Hon. Justice Meyer has heard several cases at the different Assize Courts throughout The Province of Ontario, and that in many of them he has reserved judgment, and that although in some cases over one year and in other cases over two years have elapsed since he tried such cases, he has not yet seen fit to render judgment thereon, and that this delay has operated to the great injury of litigants? If so, what action does the Government propose to take to procure a speedy delivery of judgment on these several cases so reserved?

WEDDING STATIONERY

WEDDING ANNOUNCEMENTS are always in order. The season for the final result of being a disciple of Cupid finds expression in the Hymeneal ceremony at the altar—that occasion when "two hearts that beat as one" are joined together—pronounced one.

For this auspicious occasion the printing must be chastely dignified—must be appropriate in appearance to this one time of life when everything "best" is donned—when happiness reigns supremely.

Marriage Announcements
Marriage Invitations
Marriage Reception Cards
Post Nuptial Reception Cards

All of these we are able to supply in a proper form and printed artistically. Our work is conducted under the supervision of skilled typographical mechanics and may be unhesitatingly presented to the most fastidious critic.

Our charges for such work are moderate—yet good printing is ever valuable. However, we give quality for our figures, and an order entrusted to our care will be speedily, carefully and satisfactorily executed.

No work can be well done which has to be done hurriedly. Time is necessary for the accomplishment of faultless printing. We will fulfil all expectations if given ample time for completion.

HALL & COMPANY

Fiscal Agents PETERBORO.

"Could the consumptives of any given community be seen at one time, or pass in panorama before the people, public consciousness of the magnitude of the affliction might be aroused. A physical disaster shocks the world and lets loose the sympathy of millions. A few thousand deaths are nothing as compared with the deaths from consumption." LAWRENCE F. FLICK, M.D.,
Medical Director of Henry Phipps Institute for the Study, Treatment and Prevention of Tuberculosis.

Many reasons surely must influence men and women to help in the great work being carried on by the

MUSKOKA FREE HOSPITAL FOR CONSUMPTIVES.

Other hospitals refuse the consumptive. This institution cares for them.

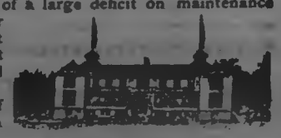
Not a single applicant has ever been refused admission to the Muskoka Free Hospital for Consumptives because of his or her poverty.

Seven hundred and thirty-eight patients have been cared for since the Free Hospital was opened in 1902. Take a week's record:

63 patients in residence; 37 absolutely free, not paying a copper toward their maintenance; 15 paying 50 cents a day or less; 5 paying $4.00 a week; 4 paying $5.00; one paying $7.00.

These figures tell plainly of a large deficit on maintenance account each month. To cover this the trustees are dependent upon the contributions that come to them from friends in all parts of Canada.

Not since the days of George Muller has so great a work of faith been carried on.



ADMINISTRATION BUILDING, MUSKOKA FREE HOSPITAL FOR CONSUMPTIVES.

WILL YOU HELP DIVIDE THIS LOAD WITH THE TRUSTEES?

Contributions may be sent to SIR WM. R. MEREDITH, Kt., Chief Justice, Osgoode Hall, Toronto, or W. J. Gage, Esq., 54 Front Street, W., Toronto.

Applications for admission and all information from J. S. ROBERTSON, Secretary National Sanitarium Association, (Saturday Night Building), 28 Adelaide Street, W., Toronto, Canada.

Strikers Will Be Tried on Charge of Manslaughter

Hull, Que., Dec. 7.—Six Buckingham strikers, Hilaire Charette, J. B. Clement, Louis Landry, G. R. Oroteau, Adelard Hamelin, and Colbert Gaston, have been committed for trial at the next assizes of the Court of King's Bench in this city in March, 1907, on the charges of manslaughter for the death of Detective P. W. Warner, and rioting. All six gave bail in $600, with two sureties.

The trial of Alex. Mulcahey, J. C. Cummings, Frank Kearnan, T. J. Thompson, P. Picard, A. Lalonde, W. Miranda, Jos. Delorme, and R. Engrem for manslaughter in connection with the death of Thos. Belanger and Frances Theriault in the strike riot of October 8 was adjourned till next Wednesday at the same hour and place. Mr. Henry Aylen, K.C., is ill, and his associates decline to continue their defence without him. The judge is also in poor health, and the adjournment is agreeable.

Dr. Rodrigue's trial for neglect of duty as a peace officer in not trying to stop the riot was also adjourned till next Wednesday.

Patsy Doodle

By Harriet Batcheler Bradner

Copyright, 1906, by Ruby Douglas

Hadley's horse was stepping slowly down the country road, with an occasional toss of his high bred head whenever a familiar fly alighted on his glossy coat. The reins lay inertly in the young doctor's hands, for his mind was far afield. After a long silence he turned to the girl beside him and asked in a voice that he could not keep quite steady:

"Your answer is final, then? You won't marry me? And you—you don't love me?" he added, with a helpless movement of his head. "Why, Elisabeth, I can't realize it; I really cannot." And the blue eyes he turned on her were full of tears.

"I—Edward," she began, "Edward, I can't bear to hurt you, but"— And her voice lost itself in a quick sob.

The young man put a quivering hand over the ones she had locked in her lap.

"Don't cry, little Bess," he said huskily. "It hurts me terribly to see you. If you can't love me, you can't, I suppose, and I'll have to bear it like many another man. But I—well, I loved you so much that it didn't seem possible that you could help liking me—just a little."

That this humble, suffering man could be the same cold, unmoved person who had, only a short time since, with such reluctance and ill concealed impatience, left her for the bedside of a dying old woman seemed incredible to Elizabeth. But she clung to her decision to give him up, a course of action made imperative by the dictates of her reason, so she answered hesitatingly:

"I am so sorry, Edward, but I can't."

They rode along in silence, the thoroughbred moving with nearly noiseless steps, and as they were turning an abrupt bend in the road half a mile

RAISED HIM WITH A GENTLENESS OF MOVEMENT WHICH WAS A REVELATION.

farther down a thin groan struck up from the tall wayside weeds. Hadley brought his horse to a standstill by a violent jerk.

"What's that?" he asked sharply. "Listen!"

Again the sound was repeated—a faint, piteous note of pain.

"It's a baby," declared Elizabeth, trembling, "and it's hurt."

Hadley was already poised between the wheels of the runabout and in an instant was striding through the long grass, which he suddenly stooped to part. After an appreciable space he straightened up and held out a hand to Elizabeth, who had followed him, and the girl's fingers closed tightly over it as she leaned forward to peer into the grass.

"Oh, Ned, a puppy!" she exclaimed, relief and fresh pity blending in her voice, for at their feet lay a poor little morsel of a dog. His little black nose was dry and bleached with pain, and the soft curly white of his hair, through which the skin showed faintly pink, was soiled by blood and dirt, and, saddest of all, one tiny hind leg lay shattered and limp in a pool of blood.

"Some brute has run over him and chucked him in the gutter to die," Hadley said between his teeth. "I only wish I knew who it was."

In a moment he stooped and, slipping his hands under the little creature, raised him with a gentleness of movement which was a revelation to Elizabeth and which filled her eyes with sudden tears.

"I'll have to ask you to drive," said the doctor as he got in the runabout after her; "it would hurt cruelly to put him down." And then as he saw the anxious questioning of her eyes he answered: "I think I can fix him up all right. The leg is badly broken, but he's so young I think it will mend quickly." He fell to watching the quivering heart beat against the tiny ribs. The tip of a pale, little tongue just showed in the dry mouth, and a great brown ear fringed with black drooped listlessly against the white pulsing throat.

"Isn't he beautiful?" sighed the girl. "How like a little hurt child he looks! What does make people so careless and so cruel?" As she turned her head sorrowfully away her glance fell upon a small boy standing by the roadside.

"Little boy," she called, stopping the horse, "do you know whose dog this is?"

A pair of stolid eyes were obediently focused upon the puppy.

"Yep," he announced after a moment's survey; "that's Sammy Casey's Patsy Doodle. No; you can't find Sammy. Him an' his maw moved to Plattsville day 'for' yeste'day. She's a widow woman. Course they didn't take him—dorgs is too easy got—an' they had 'nough to cart along 'ithout Patsy Doodle. Why, they had three"— But, her interest in the Caseys' movements having been satisfied, Elizabeth suddenly touched the horse with the whip, and in a moment they had left the discursive urchin far behind.

Once in Hadley's office the little dog was deposited upon the table and his broken leg bound up with deft and tender fingers. With the intelligence often vouchsafed his kind, Patsy Doodle seemed content to lie quite still and relaxed in the atmosphere of sympathy. So motionless was his attitude that they thought he was sleeping, but when Elizabeth withdrew her hand from the head she had been softly stroking the great brown eyes, still bloodshot with pain, opened immediately with an anxious expression, and the puppy lifted his drooping ears inquiringly.

"See, Bess; he misses your touch," said Hadley, dropping the towel with which he was drying his hands.

With a murmur of tenderness, Elisabeth slipped her hand under the soft little head, and after a snuggling movement of the nose, which was becoming moist again, Patsy Doodle gave a little breathing of content and, closing his beautiful eyes, fell asleep like a tired child.

When the office had been restored to its former immaculate order Hadley walked to the open window and stood looking moodily out upon the summer street, but when Elizabeth stirred in her chair he turned quickly, for his mind was centered only upon the occupants of the office. She beckoned him, and he came across at once, seating himself on a corner of the table.

For a moment neither spoke; then the girl lifted her face and said in a tone that thrilled her companion:

"Ned, dear, I've done you a horrible injustice."

Hadley leaned forward suddenly. "How?" he asked, with eager eyes.

Elizabeth caught a fluttering breath. "You remember the night they brought you the message that that old lady was dying and how you hated to go? Well, I thought your profession had made you cold and hard and unfeeling, as it has so many men, and after you had gone I—I decided that I couldn't love a man like that"— Her voice trailed off uncertainly.

The doctor's eyes darkened. "That's another and the worst of the tricks that miserable old woman has played me!" he declared hotly. "Sweetheart" his eyes claimed her attention—"I knew there wasn't a thing on earth the matter with her when they sent for me. Some member of her family had probably got up sufficient nerve to put into execution a long cherished plan or something of that sort. She'd been dying regularly for the last two years whenever things didn't go to suit her. And to think she came so near separating us!" He slipped his hand under the one in which the little dog's head lay. "I owe everything to the intervention of Sammy Casey's Patsy Doodle."

"Our Patsy Doodle," gently corrected Elizabeth.

A Difficult Matter.

There was strong family feeling in Brookby whenever any question affecting a member of the little community arose. The matter of Abel Wood's arrest illustrated the state of affairs.

"You see, we all knew he'd been dishonest in his dealings and that he'd ought to be put away for a spell, and the warrant was issued," said Mr. Hall, explaining to a visitor what seemed like an unnecessary delay in a simple process of the law, "but 'twas kind of hard for us to settle on the best place to arrest him.

"You see, it had got to be done either at his mother's—that's the only good woman for extry scrubbing in the place—or else at his uncle's—that's the express agent, and none too obliging even when he's feeling pleasant—or else at his brother-in-law's—that's the only man in town that's got a fust class carpenter's set-out, monkey wrench and all. Anyway, the sheriff, being his fust cousin, made it kind of awkward, now I tell you.

"Seems to me we did pretty well to get him arrested inside of a week, considering what drawbacks we had to contend with."

To Run the Gantlet.

"To run the gantlet" originated in Germany and traveled thence to England, finally becoming domesticated in America. In both the German and English armies and navies about the time of the settlement of America running the gantlet was a punishment for misdemeanor, the soldiers of a company or regiment being placed in two lines facing each other, each man armed with a switch. The culprit ran between the two files and received upon his bare back the switches of his comrades. An officer stood by to see that the punishment was properly enforced, and any soldier who failed to do his duty was himself liable to make the journey between the two files. The Indians along the coast of Virginia are said to have observed this punishment inflicted upon some sailors of an English man-of-war and immediately adopted the idea for torturing their enemies; hence came the belief that the punishment or torture was peculiar to the aborigines of North America.

50,000 SHARES

OF A

RICH GOLD MINE

IN NEW ONTARIO ALLOTED TO PETERBORO

The undersigned has secured an allottment of 50,000 shares of a rich gold mine in New Ontario. The mine promises to be one of the richest in the Country, and adjoins the great Bloom Mine which is estimated to be worth over $25,000,000. This stock has a par value of $1.00 and will be sold for 50c. a share for the next 30 days. It probably will be worth many times its present value in a short time. Now is the time to invest. There is no risk—it is a sure thing Money needed for developement. For further particulars apply to.

9,600 FEET

Sixty six mining claims.
A crosscut tunnel now in 4,000 feet.
5,000 feet of drifts, shafts and laterals.
A complete 750 h.p. turbine electric power plant.
Numerous Veins Explored.
A Big Industrial and Mining Proposition Combined.
A Strong Directorate.

This is real mining.

The Palmer Mountain Tunnel and Power Company has 66 lods mining claims back of it on Palmer Mountain, near the Town of Loomis, Okanogan County, Washington—about 12 miles south of the boundary of British Columbia. A new railway line is nearly completed and will run within 12 miles of the property. Steamers ply on the Okanogan River to within 28 miles of our properties. There is water—not only for mining purposes, but with unlimited possibilities for power generation. There is timber, there are large, well defined veins proved at great depth—and there is development enough done to make this one of the biggest and best mining propositions in the country.

INTERIOR OF TUNNEL

We can do more with $10 ore on our properties than the desert miners can do with $40 or even higher grade ore. We can make money because we have the FACILITIES on our ground. Our ore can be mined, milled, cyanided and bullion produced for not exceeding $2.50 a ton.

Our immence crosscut bore—a picture of which we show herewith—is now in 4,000 feet, is 9 by 9 in the clear (as large as any of the big transportation and drainage tunnels), and is well timbered, equipped with track, ore cars and everything else essential. In the picture shown herewith, the large pipe running at the top of the right side of the tunnel, is for ventilation purposes and connects with a large, powerful blower.

Recent development on the mountain proves that we shall open up at tunnel level (2,500 feet beneath the surface) an enormous body of copper ore.

We have opened up much $10 ore, and we have a higher grade running up to $50 a ton. This is where the big profit comes from. In the nearly TWO MILES OF WORKINGS we have all the facilities for handling a very large production. Back of it all we have a capable mining and business management. We should be very glad to tell you the complete story. We can only hint at it here.

DARREL of THE BLESSED ISLES

By IRVING BACHELLER,

Author of "Eben Holden," "D'ri and I," Etc.

COPYRIGHT, 1903, BY LOTHROP PUBLISHING COMPANY

Darrel, shaking with emotion. His tale had come to an odd and fateful climax.

The old man stroked his head tenderly.

"Ah, boy," said he, "I know thy heart. I shall make haste—I promise thee I shall make haste. But if the good God should bring thy father to thee an' thy head to shame an' sorrow for his sin, forgive him, in the name o' Christ, forgive him. Aye, boy, thou must forgive all that trespass against thee."

"If I ever see him he shall know I am not ungrateful," said the young man.

Trove and Darrel walked to the clearing above Faraway. At a corner on the high hills, where northward they could see smoke and spire of distant villages, each took his way, one leading to Hillsborough, the other to Allen's.

"Goodby. An' when I return I hope to hear the rest o' thy tale," said Darrel as they parted.

"Only God is wise enough to finish it," said the young man.

"Well, God help us; 'tis a world to see.'" Darrel quoted, waving his hand. "If thy heart oppress thee, steer for the Blessed Isles."

CHAPTER XIX.

A BIG maple sheltered the house of the Widow Vaughn. After the noon hour of a summer day its tide of shadow began flowing fathoms deep over house and garden to the near field, where finally it joined the great flood of night. The maple was indeed a robin's inn at some crossing of the invisible roads of the air. Its green dome towered high above and fell to the gable end of the little house. Its deep and leafy thatch hid every timber of its frame save the rough column. Its trunk was the main beam, each limb a corridor, each tier of limbs a floor, and branch rose above branch like steps in a stairway. Up and down the high dome of the maple were a thousand balconies overlooking the meadow.

From its highest tier of a summer morning the notes of the bobolink came rushing off his lyre, and farther down the golden robin sounded his piccolo. But chiefly it was the home and refuge of the familiar red breasted robin. The inn had its ancient customs. Each young bird, leaving his cradle, climbed his own stairway till he came out upon a balcony and got a first timid look at field and sky. There he might try his wings and keep in the world he knew by using bill and claw on the lower tiers.

At dawn the great hall of the maple rang with music, for every lodger paid his score with song. Therein it was ever cool and clean and shady though the sun were hot. Its every nook and cranny was often swept and dusted by the wind. Its branches leading up and outward to the green wall were as innumerable stairways. Each separate home was ont on rocking beams, with its own flicker of skylight overhead. For a time at dusk there was a continual flutter of weary wings at the lower entrance, a good night twitter and a sound of tiny feet climbing the stairways in that gloomy hall. At last there was a moment of gossip and then silence on every floor.

There seemed to be a night watch in the lower hall, and if any green young bird were late and noisy going up to his home he got a shaking and probably lost a few feathers from the nape of his neck. Long before daybreak those hungry, half clad little people of the nests began to worry and crowd their mothers. At first the old birds tried to quiet them with caressing movements and had at last to hold their places with bill and claw. As light came an old cock peered about him, stretched his wings, climbed a stairway and blew his trumpet on the outer wall. The robin's day had begun.

Mid-autumn, when its people shivered and found fault and talked of moving, the maple tried to please them with new and brighter colors—gold, with the warmth of summer in its look; scarlet, suggesting love and the June roses. Soon it stood bare and deserted. Then what was there in the creak-and-whisper chorus of the old tree for one listening in the night? Belike it might be many things, according to the ear, but was it not often something to make one think of that solemn message: "Man that is born of woman is of few days and full of trouble?" They who lived in that small house under the tree knew little of all that passed in the big yard. Trumpet blasts of fame, thunder of rise and downfall, came faintly to them. There the delights of art and luxury were unknown. Yet those simple folk were acquainted with pleasure and even with thrilling and impressive incidents. Field and garden teemed with eventful life, and hard by was the great city of the woods.

CHAPTER XX

TROVE was three days in Brier Dale after he came out of the woods. The filly was now a sleek and shapely animal, past three years of age. He began at once breaking her to the saddle, and, that done, mounting, he started for Robin's Inn. He carried a game rooster in a sack for the boy Tom. All came out with a word of welcome. Even the small dog grew noisy with delight. Tunk Hosely, who had come to work for Mrs. Vaughn, took the mare and led her away, his shoulder leaning with an added sense of horsemanship. Polly began to hurry dinner; for sing with the table and changing the position of every dish until it seemed as if she would never be quite satisfied. Covered with the sacred old china and table linen of her grandmother, it had, when Polly was done with it, a very smart appearance indeed. Then she called the boys and bade them wash their hands and faces and whispered a warning to each while her mother announced that dinner was ready.

"Paul, what's an adjective?" said the teacher as they sat down.

"A word applied to a noun to qualify or limit its meaning" the boy answered glibly.

"Right! And what adjective would you apply to this table?"

The boy thought a moment.

"Grand!" said he tentatively.

"Correct! I'm going to have just such a dinner every day on my farm."

"Then you'll have to have Polly too," said Tom innocently.

"Well, you can spare her."

"No, sir," the boy answered. "You ain't good to her. She cries every time you go away."

There was an awkward silence, and the widow began to laugh and Polly and Trove to blush deeply.

"Maybe she whispered, an' he give her a talkin' to," said Paul.

"Have you heard about Ezra Tower?" said Mrs. Vaughn, shaking her head at the boys and changing the topic with shrewd diplomacy.

"Much; but nothing new," said Trove.

"Well, he swears he'll never cross the Fadden bridge or speak to anybody in Pleasant valley."

"Why?"

"The taxes. He don't believe in improvements, and when he tried to make a speech in town meeting they all jeered him. There ain't any one good enough for him to speak to now, but himself an'—an' his Creator."

In the midst of dinner they heard an outcry in the yard. Tom's gamecock had challenged the old rooster, and the two were leaping and striking with foot and wing. Before help came the old rooster was badly cut in the neck and breast. Tunk rescued him and brought him to the wood shed, where Trove sewed up his wounds. He had scarcely finished when there came a louder outcry among the fowls. Looking out they saw a gobbler striding slowly up the path and leading the cock with a firm hold on the back of his neck. The whole flock of hens were following. The rooster held back and came on with long but unequal strides. Never halting, the turkey led him into the full publicity of the open yard. Now the cock was lifted so his feet came only to the top of the grass; now his head was bent low, and his feet fell heavily. Through it all the gobbler bore himself with dignity and firmness. There was no show of wrath or unnecessary violence. He swung the cock around near the foot of the maple tree and walked him back and then returned with him. Half his journey the poor cock was reaching for the grass and was then lowered quickly so he had to walk with bent knees.

Lax-ets 5 Cents Sweet to Take A Candy Bowel Laxative

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even-numbered section of Dominion Lands in Manitoba or the Northwest Provinces (except sections 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 15 0x1500 feet. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may obtain a crown grant therefor, upon complying with other requirements, purchase price $1 an acre.

The patent provides for the payment of a royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A five miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent. collected on the output after it exceeds $10,000.

W. W. CORY,

Deputy of the Minister of the Interior.

BANK OF MONTREAL

Proceedings at the Eighty-ninth Annual Meeting of Shareholders.

VERY SATISFACTORY REPORT

President Reviews General Trade of Country, Which Shows Advance Over Last Year

The eighty-ninth annual general meeting of the Shareholders of the Bank of Montreal was held in the Board Room of the Institution yesterday, at noon.

There were present: Hon. Sir George Drummond, K.C.M.G., president; Mr. E. S. Clouston, Vice-president and General Manager; Sir William C. Macdonald, Hon. Robert Mackay, Messrs. James Ross, A. T. Paterson, E. B. Angus, Meghen Burke, E. S. Lyman, K.C., Angus W. Hooper, James Tasker, H. A. Bous, George Durnford, Henry Dobell, J. S. Keech, M. S. Foley, John Beard, R. G. Starke, H. Cockshutt, W. Buckler, James Kirby, K.C.; James Crathern, Lieut.-Col. Prevost, H. Paton, W. Stanway, A. G. Ross, W. D. Gilean, Rev. G. H. Parker (Compton), M. O'Shaughnessy, John Turnbull, J. Scott.

On the motion of Mr. R. B. Angus, Sir George Drummond, President, was unanimously voted to the chair, and on the motion of Mr. W. Stanway, seconded by Mr. James Tasker, it was resolved; "That the following be appointed to act as scrutineers; Messrs. E. S. Lyman, K.C., and Angus W. Hooper; and that Mr. James Aird be secretary of the meeting."

THE DIRECTORS' REPORT.

The report of the Directors to the Shareholders at the eighty-ninth annual general meeting, was then read by Mr. E. S. Clouston, Vice-President, as follows;

The Directors have pleasure in presenting the Report, showing the result of the Bank's business for the year ended 31st October, 1906.

Balance of Profit and Loss Account, 31st October, 1905		$ 801,855.41
Profits for the year ending 31st October, 1906, after deducting charges of management, and making full provision for all bad and doubtful debts		1,797,976.43
Dividend 2½ per cent. paid 1st March 1906	$ 360,000.00	
Dividend 2½ per cent. paid 1st June, 1906	360,000.00	
Dividend 2½ per cent daid 1st September 1906	360,000.00	
Dividend 2½ per cent. payable 1st December 1906	360,000.00	
	$1,440,000.00	
Amount credited to Rest Account	1,000,000.00	
		2,440,000.00
Balance of Profit and Loss carried forward		$ 159,831.84

The sub-agencies at Fort Rouge (Winnipeg) and Ste. Anne de Bellevue, mentioned in our last report as about to be established, were opened shortly afterward. Since the last Annual Meeting branches have also been opened in the city of Mexico, and at Saskatoon, and sub-agencies at Fenelon Falls, St. Henri, Montreal; Upper town, Quebec, and Bank street, Ottawa.

The Ontario Bank having intimated that it was in difficulties and would have to suspend, this bank, on 13th October last, assumed all its liabilities, under a guarantee of other banks against loss, and it is now being liquidated.

In view of the change in the number of directors made by resolution of the shareholders at the last Annual Meeting, and in order to bring the By-Laws of the bank into accord with the Bank Act, as at present, it has been thought well by the directors to have the existing by-laws consolidated and amended to date. This has been done, and they are now placed before you for confirmation.

All the offices of the bank, including the Head Office, have been inspected during the past year.

G. A. DRUMMOND,
President.

THE GENERAL STATEMENT.

The General Statement on 31st October, 1906, is as follows:—

LIABILITIES.

Capital Stock		$ 14,400,000.00
Rest	$ 11,000,000.00

	102,099,330.14	
	$168,001,173.12	

Bank of Montreal,
Montreal, 31st October, 1906.

E. S. CLOUSTON,
General Manager.

THE VICE-PRESIDENT

The Vice-President then spoke as follows;

"As the President will deal with the business of the country generally, I will only refer to the statement of the affairs of the bank presented to you. You will notice that the circulation are increased of about $11,000,000 on deposits bearing interest, also about $13,000,000 on our current accounts. Large things took place principally during the last month of our financial year, and are the result of our undertaking the liquidation of the affairs of the Ontario Bank. The profits show an increase of $160,000, due partly to the good rates ruling in London and New York, where we are compelled to carry a considerable portion of our reserve funds. The other things are of minor importance, and do not call for any special comment.

When in October the deplorable condition of the Ontario Bank was submitted for the consideration of a number of banks, it was thought best, in the interests of all concerned, that the bank should be liquidated, and, with the view of carrying any settlement, which would probably be detrimental to the interests of the commercial community generally, it was decided that this Bank should undertake to assume all the liabilities of the Ontario Bank, under a guarantee from other banks in the event of the assets being insufficient to discharge them. This Bank is a party to the guarantee, and we have agreed in addition to pay $150,000 for the good-will of the business. We do not anticipate that there will be any claim under the guarantee. The liquidation is proceeding quietly, without any public excitement or disorganization of the business of the country, with a minimum loss cost to the shareholders of the Ontario Bank, and to which the case of a dollar to other shareholders or depositors. The record of Canadian banks in this respect to exceptional. During the last quarter of a century, by failures of banks, which could be organized under our present banking laws, the loss to depositors has been under $750,000. The noteholders, of course, have lost nothing. I speak only of banks that could be organized under our present acts. Other banks during that period failed, involving loss to both depositors and noteholders, but they were acting under old charters and under conditions which do not now exist—in one case there was no double liability. Out of the 12 banks that have suspended since 1880, five only could obtain charters under our present system.

With respect to the general business of the country, I can only repeat my remarks of last year, that we are still in the full flood tide of prosperity. Railway earnings continue large, immigration is satisfactory, and the farming community share with manufacturers and merchants the general well-being; but in its wake it is feared will follow overexpansion, inflated values and increasing speculations, particularly in real estate and mining stocks, leaving wreckage behind when the tide ebbs.

There is still time to set one's house in order and keep it there, but the tardy should remember that the prolongation of the day of grace may add to the severity of the day of reckoning.

THE PRESIDENT'S REMARKS.

The President, in moving the adoption of the directors' report, said:

In accordance with a practice of many years' standing in this Bank, I attempt a brief review of the general trade of the country.

Beyond question the general condition is one of great prosperity.

In all or nearly all branches of trade, manufacture and commerce considerable advances in the volume of trade have taken place, as compared with the preceding year.

The port of Montreal is now, it is satisfactory to note, much more widely recognized as the eastern port of the Dominion, and its efficiency the concern not of the province of Quebec specially, but of the whole Dominion. It is therefore not entirely satisfactory to note that the business of the year now ending shows little, if any, advance over the previous year.

The improvements of the port proceed but slowly, and much remains to be done in the harbor, the channel, and the gulf, to make it possible to claim Montreal as a rapid port.

The present extreme rates of marine insurance are a great disadvantage. Upon the whole the shipping business shows a fair season's business, due in part to a greatly increased importation of goods and increased passenger trade, by well satisfied.

In this connection, it is in the highest degree satisfactory to note the improved volume of passenger business, the largest by the appearance on the route of four new steamers of the Allan and Canadian Pacific Railway Company. Texas boats, if not the pioneers, do much to remove the reproach which forced Canadian travel to New York and Boston, and prevented a more unitary general travel from reaching Canada, in effect joining Canada and Canadian interests in the background. We have the shores as a route from Europe, and are only beginning to secure a reasonable share of a business which may include not Canada alone, but a large portion of the Western United States.

Taking in detail, I may say the various important departments of trade and commerce have done well.

The hardware trade reports a larger business during the past year than at any former period in the trade's history."

The new application of iron and steel in building structures added to the demand for other standard purposes have caused a further increase and unexpected activity in many enterprises.

The city roads trade is reported as never better, and an active demand is said to exist. I may here state that a much better and more extensive route now in Montreal.

In woollens the report is that while still under a cloud from the operation of the preferential tariff it is better than last year, prices of all classes having advanced.

In cottons, advances in prices and an active demand are reported. Here again buyers are said to be taking goods costing seven to eight cents a yard when a year ago four to five cents sufficed.

Boots and shoes—The demand has been good. Prices are said to have not advanced in proportion to the advance in the raw material, though they from 5 to 20 per cent. above last year.

In leather a large business has been done in the home trade, an advance of one to two cents per pound. Raw hides having advanced all round about 25 per cent.

Wool has brought very high prices during the year.

Something of the value to the farming community of the cheese and butter trade may be found from the following figures.

Cheese—The cheese exported to Great Britain during the present season, was of the value of $22,401,432.

Butter—Of butter, $4,433,891, and including what remains to be sent out we reach a total of over $3 millions of dollars. To these must be added the home consumption, which is every year growing in volume and importance.

The great feature of the hour is, however, the development of the North Western provinces—Manitoba, Saskatchewan, and Alberta — in which the capacity to produce excellent qualities of all kinds of cereals seems to be measured beyond question.

Of wheat alone the present crop is estimated at 85 million bushels, the quality undisputed; the area under cultivation is greater than last year, but the yield per acre is about 19 bushels, as against 26 last year.

If the other grains, such as oats, barley and timothy, are taken into account, and cattle exported to the value of eight millions of dollars, we are assured that the farmers here, shared in the general prosperity.

The number of acres of Canadian Pacific lands sold from January 1st to October 31st, 1906, is 1,080,000, as against 653,000 acres in the corresponding period of 1905.

The number of immigrants entering Canada through Canadian Pacific gateways from January 1st to November 7th, 1906, is 132,000 as against 96,000 in the corresponding period of last year.

The best evidence of the extraordinary activity of trade is to be found in the railway traffic, which is trying to the utmost the resources of the roads; new rolling stock is being put into service as quickly as acquired, and the demand is still unappeased.

In addition we have three great trunk lines engaged in active construction.—The Grand Trunk to reach the Pacific, the Canadian Northern and the Canadian Pacific in great stretches of extension, the pace being only limited by the supply of labor.

The current complaint is of the increased cost of living, and it is an interesting question how far this is due to any increased cost of, or advance in the price of, gold, or to an advance in the style of living and the increased use of luxuries. Doubtless both enter into the case, but this is too large a subject for adequate treatment on this occasion.

In this matter some evidence may be adduced from the fact that the duty goods and other trades report the more costly class of goods now being sold.

There is abroad in the world at large a prevalent idea that capital and corporations of all kinds are antagonistic to the general welfare. Now it would be an interesting question how much of our present prosperity is founded on substantial realizations of our own, and how much is due to an increased confidence in our future on the part of outside capitalists.

The absurdity of regarding capital with suspicion is evidenced by the fact that the vast additions to our railways and other enterprises essential to the opening up of our country would be impossible without the aid of outside capital.

It would be contrary to all experience to hope for an unbroken continuance of the present condition of prosperity—periods of reaction and of suspended enterprise may be expected, but we may be assured that the surest means of postponing their coming and dealing with the bad times when they come, is the exercise of prudence and caution in prosperous times like the present.

I beg to move: "That the report of the directors now read, be adopted and printed for distribution among the shareholders." If any shareholder has any questions to ask, we shall be pleased to answer them.

The motion for the adoption of the report was seconded by the Vice-President, after which Rev. G. H. Parker asked several questions in regard to dividends, and also as to the Bank's premises, which were replied to by the President and the Vice-President.

Mr. H. A. Bous spoke on the dividend question, and advocated the possibility of higher dividends in the future.

The report was then unanimously adopted.

CONFIRM AMENDED BYLAWS.

It was moved by the President; "Resolved that the consolidated amended By-laws of the Shareholders of the Bank of Montreal, laid before the Shareholders and read, be and the same are hereby confirmed, adopted and passed by this meeting of shareholders, and that the same be sealed with the Corporate Seal of the Bank, countersigned by the President thereof."

This was seconded by the Vice-President, who remarked: "I think it is hardly necessary to read the by-laws through, they are before the shareholders, and the changes are small and few. In paragraph III. the number of directors is increased from nine to ten. Paragraph VI. governs the election of an honorary president, which is a new position. No. X. had to be changed in order to enable us to carry out the quarterly dividends and the closing of the books. By No. XI. under the old by-laws, if we appoint any local director, I had to be qualified to the extent of twenty shares. We have thought it was hardly necessary to ask a local director for any qualification. No. XIII. has been strickened out as is provided for in a footnote."

The motion was then adopted, after which Mr. B. A. Bous moved:

"That the thanks of the meeting be presented to the President and Directors for their attention to the affairs of the Bank."

This was seconded by Mr. Henry Lyman, and was concurred in unanimously.

Mr. A. T. Paterson moved,

"That the thanks of the meeting be given to the General Manager, the Assistant General Manager, the Inspector, the Managers and other Officers of the Bank for their services during the past year."

In making the motion, Mr. Paterson said that the importance of the staff to the Bank was a point which must be patent to everybody. The success of the Bank depended, in the first place, upon the chief officers, but the subordinate staff had a hand in carrying out their several offices. The extension of a bank's business necessarily carried with it an augmentation of the staff. When he first joined the Board of the Bank of Montreal the staff was under 300; now it was, he believed, somewhat over 1,000.

Sir William Macdonald seconded the motion, which was unanimously adopted.

The Vice-President thanked the Shareholders, on behalf of himself and staff, for their kind expression of appreciation.

Mr. H. Paton moved, seconded by Mr. John Turnbull;

"That the ballot now open for the election of Directors be kept open until two o'clock, unless fifteen minutes elapse without a vote being cast, when it shall be closed, and until that time and for that purpose only this meeting be continued."

This was unanimously concurred in

THE DIRECTORS.

The ballot resulted in the election of the following directors;

R. B. ANGUS.
E. S. CLOUSTON.
THE HON. SIR GEORGE A. DRUMMOND, K.C.M.G.
E. B. GREENSHIELDS.
HON. ROBERT MACKAY.
SIR WM. C. MACDONALD,
A. T. PATERSON,
ROBERT G. REID,
JAMES ROSS.
THE RIGHT HON. LORD STRATHCONA AND MOUNT ROYAL, G. C. M. G.

Bathroom.

There is much danger of slipping in a bathtub, especially by old people. This can be prevented, however, if one will buy a corrugated rubber mat which may be put in the bottom of the bathtub. This is really quite necessary. Then there are pieces of rubber fastened by clips to the side of the tub to prevent slipping. The shelves and towel racks of some of the finest bath rooms are now made of glass. They are much easier to keep clean than the nickel and brass fittings. The finest and most serviceable bathtubs are of porcelain, but great care should be taken in the cleaning. Sand soaps are apt to take off the polish. A really complete bathroom is fitted up with foot tub (as well as the regular tub), wash basin, medicine closet, electrical curler and other necessary toilet articles.

Golden Mousse.

For golden mousse beat well the yolks of three eggs, add a tablespoonful of pure maple sirup and cook, stirring constantly until the mixture makes a thick coating on the spoon. Remove from the fire, add three tablespoonfuls of sweet orange juice and half a tablespoonful of lemon juice, beating until the mixture becomes light and cold. Beat the whites of four eggs to a stiff froth, with a pinch of salt, and pour slowly into them two tablespoonfuls of boiling sirup cooked to the string stage. Add this to the yolks, put the two mixtures into a mold and pack in ice and salt for four hours. A few white grapes or candied cherries may be placed in the bottom of the mold before the mousse is poured in. This may be served with whipped cream.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

WALDING, KINNAN & MARVIN,

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

HEALTH AND BEAUTY.

Braid the hair every night into four or five strands, and it will make the hair appear softer and thicker as well as naturally wavy.

Remember that facial eruptions are caused usually by autoinfection; so keep the digestive organs active, bathe daily and drink plenty of water.

To develop the neck bathe it with warm water, then rub with olive oil, using a rotary motion. In the morning use cold water and rub with alcohol.

Rub cocoa butter or mutton tallow into your nails every night and gently press the adherent skin away from the roots. The hangnails will soon disappear.

The constant use of toilet pumice with a lather of toilet soap will keep the growth of superfluous hair invisible, but it will not permanently remove it.

Breathing exercises, vocal culture, calisthenics and cold salt water sponge baths will develop a full, high chest. They must be practiced with regularity, however, to be of benefit.

Wall Sanitation.

Disease germs lurk in cracks and crannies of walls, and even fumigation does not always reach them unless the old coverings are thoroughly scraped from the walls. Yet many people from economy or carelessness do have one paper pasted over another, regardless of the fact that even though there has been no contagious disease in the house, the wall papers have absorbed all sorts of uncleanliness from a long period of exposure. The papers themselves, particularly those of a cheaper grade, are excellent harbors for germs or may exhale poisons owing to the dyes used in their coloring. The idea of putting a clean paper on top of its dusty predecessor is like putting a clean frock over a soiled one. Such a method of dressing would disgust the heart of a cleanly woman, and why should she not treat her house as she would herself?

TENDERS FOR MINING LANDS

IN PURSUANCE of an Order-in-Council, dated 22nd November, 1906, tenders will be received by the undersigned at the Department of Lands, Forests & Mines, Toronto, Ont., up to the hour of one o'clock in the afternoon of Thursday, the 20th day of December, 1906, for the purchase of those portions of the beds of Cobalt Lake and Kerr Lake situated in the Township of Coleman, in the District of Nipissing, now the property of the Crown, together with the mines, minerals and mining rights therein and thereunder, the same being described as follows:—

PARCEL NUMBER ONE.

Land covered by water of Cobalt Lake. Being composed of the land covered by water of all that portion of Cobalt Lake situate in the Township of Coleman, in the District of Nipissing, lying south and east of the south-easterly limit of the right-of-way of the Temiskaming & Northern Ontario Railway and Cobalt station grounds, together with the islets in the said portion of said Lake, excepting thereout and therefrom that portion of Cobalt Lake designated as mining location J. B., containing four acres, granted by letters patent, dated 31st July, 1905, to James H. McKinley, Ernest J. Darragh, Robert Gorman and William Anderson, said portion of Lake hereby offered for sale containing by admeasurement forty-six acres, more or less.

PARCEL NUMBER TWO.

Land covered by water of Kerr Lake. Being composed of land covered by the water of Kerr Lake, in the Township of Coleman, in the District of Nipissing, excepting thereout and therefrom those portions surveyed and designated as mining locations J. B. J, J. B. 10 and J. B. 11, containing by admeasurement two acres, four acres and twelve acres respectively, the two former locations, J. B. 9 and J. B. 10, having been granted by letters patent, dated 22nd June, 1905, to the Canada Iron Furnace Company, Limited, and J. B. 11 having been granted by letters patent, dated 20th June, 1905, to Jacob A. Jacobs, said portion of Lake hereby offered for sale containing by admeasurement twenty-three acres, more or less.

Parcel Number 1 carries with it the right to mines and minerals in the adjacent one-half of the road allowance on the east shore of Cobalt Lake, and lying between the mining locations R. L. 401 and R. L. 404 and the water's edge, provided the veins or deposits extend from the bed of the Lake into or under the said road allowance. See 4 Edward VII., Chapter 23, Section 30.

The boundaries of both parcels will be surveyed and delimited on the ground before the day of sale.

Tenders are to be for each parcel separately, and are to name a lump sum for each parcel, without royalty, payable in full within fifteen days of acceptance of tender.

A marked cheque for ten per cent. of the price offered must accompany each tender, to be forfeited upon non-payment of the balance of the purchase money within the prescribed time.

Tenders to be enclosed in sealed envelopes, marked on the outside in plain letters, "Tender for Cobalt Lake," or "Tender for Kerr Lake," as the case may be, and to be addressed to the Minister of Lands, Forests & Mines, Toronto, Ont.

The highest or any tender not necessarily accepted.

F. COCHRANE,
Minister of Lands, Forests and Mines.
Toronto, Ont., 22nd November, 1906.

LOCAL INCIDENTS

By The Times Man on the Street

—The dredge Trent is laid up for the winter.

—Today is Bargain Day at the Times Bookstore.

—See the south window of the Times Bookstore for 25c bargains.

—The Government steam dredge has been tied up for the winter at Young's Point.

—The annual meeting of Central Smith cheese factory was held on Thursday afternoon.

—Times Bookstore is Santa Claus headquarters for dolls, games, toys and children's notions.

—The regular meeting of Court Peterborough, No. 29, C.O.F., was held in their hall, Simcoe street, yesterday evening.

—Lindsay Post says: It is said that Mr. John Reynolds, the iceman, is already using this year's ice. The cakes are about five or six inches thick.

—The first annual meeting of the stockholders of the Selwyn Dairy Co., will be held in the Temperance Hall, Selwyn, on Tuesday, Dec. 11th at 2.30 p.m.

—Mr G. Walter Greene has been appointed exclusive agent in Peterborough, of the Canadian Fairbanks Company, for the sale of their transmission goods.

—County Constable Archie Moore went to Toronto yesterday morning with a party named Nugent, of Smith township, who has been committed to the insane asylum.

—A Harvelock widower with nine children, is alleged not to give proper attention to his numerous progeny. He will likely be given a chance to explain matters to the county magistrate soon.

—Miss Henderson, a deaconess from the Home in Toronto, will address the congregation of George street Methodist church on Sunday evening in reference to the work of the Order of Deaconesses.

—On Wednesday evening a happy event was celebrated at the residence of Mr and Mrs. T. Braden, when Mrs. Ada E. Nelson, a sister of the hostess, became the bride of Mr. R B. Nichols, of Memphis, Tenn.

—A fine specimen of black fox was taken near Churchill by Walter Ledgerwood, and the pelt now adorns the show room of Messrs. Simmons & Co., of Orillia. Mr. Simmons, it is understood, values the skin at $500.

—The appeal by the defendant in the case of Moon vs. Mather, both parties of Stirling, has been dismissed with costs. Mrs. Moon got $35 damages and full cost of action on a judgment at Belleville last spring.

—Lindsay Post: Keep off the river ice for a few days longer—it is still unsafe. Yesterday a young man from the country undertook to cross above the iron bridge, and broke through, but managed to get out unaided. Skaters should heed this warning.

—Yesterday morning P. C. Mahaffy was seen walking north on George street, with a diminutive specimen of the canine breed. The dog was about the size of a crumpled rose-bud and the officer was frequently asked, "Where did you arrest that terror to the community?"

Bank of Montreal Annual Statement

Elsewhere will be found the annual statement of the Bank of Montreal—Canada's greatest financial institute—which was presented to the shareholders at their annual meeting on Monday last.

In presenting this most satisfactory report, both Sir George Drummond, the president, and Mr. Clouston, the vice-president and general manager, took occasion to repeat the warning of a year ago that times of prosperity may not be expected to remain with us always, but should be utilized in making preparation for the lean years, which are sure to come. Most interesting of all, however, to the remarks of the President, was his protest against the growing prevalence of the idea that capital and corporations of all kinds are antagonistic to the general welfare. Canada is merely in the infancy of development stage. The greater portion of that which is to be done must be done with capital secured abroad. The difficulty of securing it under the most favorable circumstances will be great, to induce its owners to invest it in a country in which there are pronounced opposition to regard the capitalist as a modern bandit and will be an impossibility. The present era of prosperity has been in no small measure due to our industries, expansion, and yet all that has happened appears merely as an indication of that what may be expected, provided that the men who own the capital which we require are not made timid by the expectation —in Parliament and out of it—of the doctrine of the right of the state to confiscate, or, failing that, of undue regulation by means of state-controlled and financed competition. It is well that heed should be paid to the warning.

The bank's business is itself an index to the country's growth. It added, during the year, one million dollars to its reserve fund, which is now eleven millions, the capital stock being fourteen million four hundred thousand dollars. The magnitude of the trust placed in the Bank of Montreal by the people of Canada is shown by the fact that in addition to this capital stock of twenty-five millions, it has on deposit the enormous total of one hundred and thirty millions of dollars.

If "taken at the Sneeze Stage" Preventics—a toothsome candy Tablet—will surely and quickly check an approaching cold or Lagrippe. When you first catch cold—or feel it coming on—take Dr. Shoop's Preventics, and the prompt effect will certainly surprise and please you. Preventics, sure, if supply the proverbial "ounce of prevention." Sold in 5-cent and 25-cent boxes by J. D. Tully.

SOCIAL AND PERSONAL

—Mr J. H. dela Fosse, of Lakefield, was in the city yesterday.

—Mr Thos. Simmons, of Buckingham, Que., is at the Stonedon.

—Mr. Chas. A. Watt, of Genanoque, is registered at the National.

—Hon. J. R Stratton, of Peterborough, is in the city.—Ottawa Citizen.

—Miss Florence Attwood of Lakefield is visiting friends in the city.

—Millbrook Reporter says: Miss Eileen Fair, of Peterborough, is visiting her aunt, Miss Ida Fair.

—Mr R. M. Dennistoun is in Toronto attending a meeting of the Benchers of the Law Society.

—Mr A. O'Brien of Peterborough is in town, working on the Bell telephone system.—Lindsay Post.

—Rev. H. M. Manning, pastor of Charlotte street Methodist church, is confined to his room with an attack of bronchitis.

—Mrs. J. Jeffries, 176 London St., will receive for the last time, previous to her removal to Toronto, on Monday next, December 10th from three to six o'clock in the afternoon.

Milk Licenses Were Granted Yesterday

Yesterday morning the, in all probability, last meeting of the local Board of Health was held. The most important business transacted was the granting of licenses for sale of milk. The sanitary inspector made his report and in the majority of cases the cows and buildings were found in good condition. One application was turned down. It stated that in a little old shed at the rear of the man's house were kept three cows. The stables were filthy and the odor very bad, the hay was found to be damp and dirty. In a corner of the yard is a pig-pen. The manure is knee deep. Needless to say the owner of these three cows was refused the right to sell milk.

The members present were Messrs. Wm. Eyres, chairman; Dr. Burgham, A. Parker, R. Neill, and Dr. Bingham, medical health officer.

There were several applications for vending milk received, but in certain isolated cases changes of a sanitary nature will have to be adopted previous to obtaining license.

It was moved that all the applications for licenses be granted, to sell milk where the report of the inspector was satisfactory.—Carried.

Those who received licenses in the city were: W. J. Hooper, Wm. Eyres, Rich. Bibby, Robt. Cox, Fred Cunningham, J. T. Bothwell, John Hrummell, Rich. Holland, Mrs. Hudson, Joseph Foster and John Scott.

Those who received licenses in the township of Smith, as reported by Mr. W. J. Cullen, sanitary inspector of that township, who had inspected the premises and found them satisfactory, are: James McCrea, Robt. McMullen, Francis Dick, T. J. Hetherington, Sidney Middleton, George Walton, Robt. Edmuson, F. Sanderson, H. Milburn, Mr. Polson, E. McEwen, John Stothart, H. Lang, Isaac Hetherington, Geo. Raper, Thomas Chapman, Wm. Brown, B. Middleton, Mr. Carr, Isaac Milburn, E. Sanderson, E. Milburn, Mr. Metcalf, Thos. Stothart, and William Hetherington.

Mr. Geo. W. Bennett, secretary of the local Board of Health of North Monaghan, reported that the following have satisfactorily carried out the conditions of the Health Act, Wm. Dummitt, Mr. Hunter, James Lillico.

Mr Jas. J. Allen, secretary of the Board of Health of Douro, made a similar report from his township, and licenses have been granted Edwin Curtis and Thos. Beck.

Catarrh of the nose and throat should lead you to at least ask us for a free trial box of Dr. Shoop's Catarrh Cure. Nothing so surely proves merit as a real, actual test—and Dr. Shoop, to prove this, earnestly desires that we let you make that test. This creamy, snow White healing balm, soothes the throat and nostrils, and quickly purifies a foul or feverish breath. Call and investigate. J. D. Tully.

New Gas Pipes Laid This Year

Both to accommodate customers by a better flow, and to save a hitherto large annual loss by leakage, the gas department of the Quaker Oats Co., with Mr Larmonth as manager, has this fall laid many new gas mains. These include pipes on Simcoe St., from the gas house to Rubidge St., along Rubidge to Hunter, along Hunter to Park, on Park from Wellar to Seymour, along Weller to Monaghan Road, on Belmont from Weller to Homewood avenue, on Homewood from Belmont to Monaghan Road, on Walton from Weller to Homewood, six hundred feet on Charlotte street west of Park, on Aylmer, from Simcoe to Townsend, on Water from Brock to Dublin, on Dublin from Water to George.

A Farewell Address.

Rev. F. J. Snott, pastor of Murray street Baptist church, will deliver a farewell address to men in the Y.M.C.A., tomorrow afternoon at four o'clock. The rev. gentleman is shortly leaving for South America, and this will be the last time many men will have an opportunity of hearing one of his eloquent discourses. The Y.M.C.A. auditorium should be crowded on the occasion.

Do You Want to Know What You Swallow?

There is a growing sentiment in this country in favor of MEDICINES OF KNOWN COMPOSITION. It is but natural that one should have some interest in the composition of that which he or she is expected to swallow, whether it be food, drink or medicine.

Recognizing this growing disposition on the part of the public, and satisfied that the fullest publicity can only add to the well-earned reputation of his medicines, Dr. R. V. Pierce, of Buffalo, N. Y., has "taken time by the forelock," as it were, and is publishing broadcast a list of all the ingredients entering into his leading medicines, the "Golden Medical Discovery" the popular liver invigorator, stomach tonic, blood purifier and heart regulator; also of his "Favorite Prescription" for weak, over-worked, broken-down, nervous and invalid women.

This bold and out-spoken movement on the part of Dr. Pierce, has, by showing exactly what his well-known medicines are composed of, completely disarmed all harping critics who have heretofore unjustly attacked them. A little pamphlet has been compiled, from the standard medical authorities of all the several schools of practice, showing the strong endorsements by leading medical writers of the several ingredients which enter into Dr. Pierce's medicines. A copy of this little book is mailed free to any one desiring to learn more concerning the valuable, native, medicinal plants which enter into the composition of Dr. Pierce's medicines. Address Dr. Pierce as above.

Dr. Pierce's Pleasant Pellets are tiny, sugar-coated anti-bilious granules. They regulate and invigorate stomach, Liver and Bowels. Do not forget the "pill" if you require a cure constipation. One or two easy doses is a laxative and regulator, three or four for an active cathartic. Once tried always used.

$50,000 GIVEN AWAY. The People's Common Sense Medical Adviser, a book that sold to the extent of 500,000 copies a few years ago, at $1.50 per copy. Last year we gave away $30,000 worth of these invaluable books. This year we shall give away $50,000 worth of them. Will you share in the benefit? If so, send only 21 one-cent stamps to cover cost of mailing only, for book in stiff paper covers, or 50 stamps for cloth-bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

By-Law No.

A By-Law to Provide for Borrowing a further Sum of Twenty-One Thousand Dollars to Pay for the Erection and Equipment of a Collegiate Institute in the City of Peterborough.

Passed the day of 1907.

WHEREAS By-law Number 1077 of the Corporation of the Town of Peterborough passed by the Council thereof on the 20th day of May, 1904, after having been submitted to and having received the assent of the duly qualified electors of the Town of Peterborough authorized the borrowing of the sum of Fifty thousand dollars for the purchase of a site and to pay for the erection of a Collegiate Institute in the Town of Peterborough and the said site has been purchased for the sum of Ten thousand dollars, but the Board of Education for the said City has represented to the Council of the City of Peterborough that in order to Collegiate Institute a further sum of Twenty-one thousand dollars will be required and has by resolution of the said Board requested the said Council to submit a By-law for the purpose of authorizing the borrowing of such additional sum to the votes of the duly qualified electors of the said City.

AND WHEREAS under the provisions of the High Schools Act the said Council is required to comply with such request and it is therefore necessary for the said Council to pass this By-law to be submitted to the votes of the duly qualified electors of the said City of Peterborough to authorize the borrowing of the said additional sum of Twenty-one thousand dollars for the purposes aforesaid, which is the amount of the debt intended to be created by this By-law, and it is advisable to submit the same on the same day as the annual election for the Municipal Council of the said City for the year 1907.

AND WHEREAS in order to raise the said sum of Twenty-one thousand dollars, it will be necessary to issue the debentures of the Corporation of the City of Peterborough for the said amount.

AND WHEREAS the amount of the whole rateable property of the Municipality liable for Collegiate Institute rates according to the last revised assessment roll, being for the year 1907, is the sum of six million nine hundred and fifty-four thousand seven hundred and thirty-one dollars ($6,954,731).

AND WHEREAS the amount of the existing debenture debt of the Municipality, exclusive of local improvement debts but including the debt of Two hundred and ninety-two thousand dollars ($292,000) incurred for the purchase and improvement of the water-works system is the sum of Seven hundred and four thousand and fifty-five dollars and nine cents ($704,055.09) and there is no part of the principal or interest in arrear.

AND WHEREAS it will require the sum of Eight hundred and forty dollars ($840) to be raised annually for a period of thirty years, the currency of the debentures to be issued under and by virtue of this By-law to pay the interest of the said debt and the sum of Four hundred and six dollars and eighty cents ($406.80) to be raised annually during the said period as a sinking fund for the payment of the said debt, such last mentioned sum being sufficient with the estimated interest on the investment thereof to discharge the said debt when the same becomes payable, making in all the sum of Twelve hundred and forty-six dollars and eighty cents ($246.80) to be raised annually as aforesaid, by a special rate upon the whole rateable property of the Municipality liable for Collegiate Institute rates.

THE CORPORATION OF THE CITY OF PETERBOROUGH BY THE COUNCIL THEREOF THEREFORE ENACTS AS FOLLOWS:

1. This By-law shall take effect on the final passing thereof.

2. It shall be lawful for the Council of the said City of Peterborough to borrow the sum of Twenty-one thousand dollars for the purposes aforesaid, and to issue the debentures of the said Corporation for the said sum, such debentures to be sealed with the Corporate Seal of the City of Peterborough and to be signed by the Mayor and Treasurer and countersigned by the Secretary of the Commissioners of the Peterborough City Trust, and to be made payable within thirty years after the issue thereof, and to bear interest at the rate of four per centum per annum, payable half-yearly on the thirtieth day of June and the thirty-first day of December in each year, and to have coupons attached thereto for the payment of such interest; such debentures as to principal and interest to be payable at the offices of the Secretary of the Commissioners of the Peterborough City Trust in the City of Peterborough.

3. There shall be raised and levied during each year of the currency of the said debentures by a special rate upon all the rateable property of the Municipality liable for Collegiate Institute rates the sum of Eight hundred and forty dollars ($840) for payment of the interest, and the sum of Four hundred and six dollars and eighty cents ($406.80) as a sinking fund for the payment of the said debt at the maturity thereof, making together the sum of Twelve hundred and forty-six dollars and eighty cents ($1,246.80) to be raised annually as aforesaid.

4. The proceeds of the said debentures when sold shall be handed over to the Board of Education for the City of Peterborough to be applied in paying for the erection and equipment of the Collegiate Institute in the City of Peterborough.

5. The votes of the electors of the City of Peterborough qualified to vote upon By-laws for creating debts shall be taken upon this By-law on the same day as the annual election for the Municipal Council for the year 1907 and the polls will be held during the same hours, at the same places and by the same Deputy Returning Officers and Poll Clerks as are appointed and fixed for the said Municipal election.

6. The eighth day of January, 1907, at the hour of twelve o'clock noon and the City Clerk's office are hereby fixed as the time when, and the place where, the Clerk will sum up the number of votes given for and against the By-law.

7. The fifth day of January, 1907, at the hour of twelve o'clock noon and the office of the City Clerk are hereby fixed as the time and place for the appointment of persons to attend at the various polling places and at the final summing up of the votes by the Clerk respectively, on behalf of the persons interested in and promoting or opposing the passing of the By-law respectively.

Mayor.
Clerk

NOTICE

Take notice that the foregoing is a true copy of a proposed By-law which has been taken into consideration and which will be finally passed by the Council of the City of Peterborough (in the event of the assent of the electors being obtained thereto) after one month from the first publication hereof in the Morning Times newspaper, the date of which first publication is the eighth day of December, 1906, and that at the hour, day and place therein fixed for taking the votes of the electors the polls will be held.

S. R. ARMSTRONG
City Clerk.

VOL XXXIV. NO. 289 PETERBOROUGH, ONTARIO, MONDAY, DECEMBER 10 1906 PRICE TWO CENTS

ENGLISH LORD TO SHINE SHOES IN UNCLE SAM'S NAVY

Sir Henry Eugene Robinson, Enlists as Menial at Pittsburg

LATE OF THE KING'S OWN

Served Throughout the Boer War With the Imperial Yeomanry

Pittsburg, Pa., Dec. 9.—Sir Henry Eugence Robinson, of Philip Haugh Manor, Wells End, Eng., formerly an officer in the King's Own Regiment, who served throughout the Boer war with the Imperial Yeomanry in South Africa, shipped yesterday, at the navy recruiting station at 417 Fourth avenue, this city, as a mess attendant.

At least the claim to knighthood and distinguished service under Great Britain's banner was made by a well educated chap of soldierly appearance, whose shabby clothes and unprepossessing outward appearance rather belied his contentions. But he signed for four years service with Uncle Sam under that name, going as a menial when he learned that he could not ship at any superior rating because he is an alien.

Commander C. H. Harlow and Chief Master-at-Arms Dan Carroll nearly fainted when he started to sign the enlistment papers with "Sir Henry."

"Bold on for he," said Carroll; "none of your foo shines."

"Oh it's all right," responded the lord. "I'm Sir Henry Eugene Robinson of Philip Manor, no right. Beastly tough, you know, to be in my present state, but it's all in a life time."

WILL SHINE OFFICERS' SHOES.

Sir Henry wanted to enlist in some clerical capacity, saying he had a knowledge of stenography and typewriting. In answering the preliminary questions he admitted he was an alien and was told he could not be accepted in any capacity other than that of a mess attendant. Making beds, caring for the officers' quarters, shining their shoes and other menial duties, it was explained to him, would be his portion if he did so. But the prospect didn't worry him. He passed satisfactorily the physical examination and it was not until he came to sign the papers that his identity came out.

He explained that he early entered the English army for a career, but after being in the service some time, dissipation and reckless living gradually sent him downward. His father, since dead, disowned him, the estate went to a brother, who, giving him a sum of money, told him that his room was better than his company. When the doer was broke out he went to South Africa with the Imperial Yeomanry, serving until peace was declared. Then he resigned and since that time he has been wandering about the face of the earth as a "remittance man." Six months ago when he was in the west the remittance stopped. In his wanderings he reached Pittsburg last week and the sight of the navy recruiting station brought him to a realization that by enlisting he could find himself provided for so long as he cared to serve.

One of Sir Henry's claims to distinction is a complete suit of tattoo marks, a collection of tattooed marks of various colors of the tattooed man's body, some of which he is expected to carry. On his breast are linked the crossed Union Jack and American flags, entwined in a ring and a lighthouse. On his right forearm are a dagger, a cannon and a pennant, beneath all a ship. On his left arm are a dagger, piercing a heart, the words "true love," a ring, the crest of the Prince of Wales, the letters "I.Y." South Africa, 1902," a girl, a horseshoe, crossed flags and a thistle. A dagger appears on his right leg and the letters "H.R." on his right leg. Sir Henry left for Virginia, Pa., the H. & O. for Philadelphia where he will be assigned to duty on the Lancaster. His pay is to be $16 a month.

CHECK FORGER IS $25 AHEAD

Visited Orillia and Found Merchants Ready to Cash His Bogus Paper

HIS BUSINESS-LIKE METHOD

Bought a Cutter and Specified Car Upon Which it Was to be Shipped.

Orillia, Dec. 9.—The other morning a rather well-dressed young fellow of about twenty-three, walked into Messrs. Charles McPherson & Son's shop and made inquiries about a cutter. He represented himself as a cattle buyer, and said that if there was room for a cutter in a car he was sending he would buy one. He gave the name of Wallace Gregg, and casually mentioned that he was a distant relative of The Dominion Bank, who had recommended him to come to McPherson's. In the afternoon he came back again, and finding Mr. Frank McPherson engaged said 'O, you're busy, I'll call again.' Shortly after four he did come, and 'close up that cutter deal,' as he said, gave the number of the car in which he wished the cutter he had chosen placed, with full instructions, and proffered a check for $66 in payment. The price of the cutter was $42, and he was given $13 change.

The check proved to be drawn by H. J. Bennie, on the Orillia branch of the Dominion Bank, in favor of James Gregg and sons, and was endorsed by W. J. Gregg. When getting his cash away about half-past five, Mr. Frank McPherson, on examining the check more closely, noticed that the endorsation was in the same peculiar cramped handwriting as the face, and tried to call up the bank, but failed. Meantime Gregg, or whatever his name may be, who had been strolling at the Orillia House, had left town on the afternoon train.

During the afternoon the same individual visited Mr. Johnson Ogle's on West street, and purchased $12 17 worth of groceries. He proffered a check for $30, drawn by R. H. Smith in favor of "Rev. W. J. Scott," and purporting to be endorsed by that gentleman, and got the change. Next day, when he presented the check Mr. Ogle found it to be worthless. Chief Goodman has sent out a description of the forger with a request that he be arrested on sight.

Judging by the personal description given of the man, and by the similarity in his style of operation, it is quite possible he is the same party who worked this city a few weeks ago.

ATHLETIC WORLD

BY OUR SPORTING EDITOR.

BOWLING.

A bowling league, including about eight teams has been formed in Peterborough, with headquarters at the Majestic Bowling alleys on Hunter street. A schedule of games for the season will shortly be issued in these columns. Owing to the excellence of the alleys here, local bowlers are enthusiastically patronizing them.

• • • •

CURLING.

The curling season opened on Saturday night, with six rinks from town or business. The ice was in splendid shape and the customary lung exercise worked as hard as usual.

• • • •

HOCKEY.

This year the local O.H.A. seniors will spend an off week. This means the same nights and hours as last year, Monday, Wednesday and Friday, from seven to eight o'clock, and the other teams as follows.

Tuesday and Friday, 5 to 6, Bankers.

Tuesday, 7 to 8, Charlotte street.

Tuesday, 10 to 11, Strathconas.

Saturday, 7 to 8, Auburns.

• • • •

Now that Peterborough is in the senior series of the O.H.A., it might be noted that the grouping of this series is as follows:

Group No. 1.—Argonauts, Toronto; Peterboroughs; Marlboros, Toronto; Midland, 15th Regiment, Kingston. With instructions to Midland and Kingston to play a sudden death game at either Toronto or Peterborough. Convener, C. G. Graham, Peterborough. Meet at Peterborough.

Boy Fell Twenty-Two Ft. and Broke no Bones

Markham, Dec. 10.—Lloyd, the five-year-old son of Peter H. Reesor of Sutton street, fell twenty-two feet from a beam in his father's barn to the board floor below the other afternoon. He was picked up an unconscious condition and carried to the house. Dr. Macdonald, who was called, found no bones broken, and that the lad was suffering from concussion of the brain and internal injuries, and held out hopes for recovery. The lad did not regain consciousness for three days, but appears to be progressing favorably now. Lloyd was playing in the hay mow with his brother Maxwell and a cousin, and one of them walked across a board from the mow to a beam, Lloyd, unnoticed, attempted to follow, and fell.

Not Hiding Behind Mother's Skirts

Prof. Wrong Says That It is an Insult to Canada to Suggest That She Stands Only by British Protection.

London Dec. 10.—Prof. Wrong, in a letter to the Spectator, referring to the editor's recital of the horrors to Canada of a war with the States, says:

"It is an affair to the United States to say that her people will make war on us without a just cause as it is insulting to Canada to suggest that, hiding behind the mother country's skirts, she makes claims which she would not dare to make were she standing alone. If the people and press of England do not see that every utterance of this kind tends to drive Canada and Great Britain further apart they are less astute than I supposed them to be. It would be vain to say more."

The editor in a footnote says, "We would ask those who have read Prof. Wrong's letter to read also that which follows, and not to imagine that the common sense statesmanlike view therein expressed is without support in Canada. We believe it to be much nearer the authentic voice of the Dominion than that set forth by Prof. Wrong."

E. W. Trout of Toronto, in the Spectator protests strongly against such sentiments going abroad as those expressed by Prof. Wrong.

ONTARIO'S NEW FARM

A Site in Nipissing Chosen by the Minister of Agriculture.

The township of Newmarket in the district of Nipissing, has been chosen as the site of an experimental farm for New Ontario. The farm will be 640 acres in extent, and is on the line of the Temiskaming and Northern Ontario Railway, about 200 miles north-west of North Bay, and thirty-five miles west of Lake Abitibi.

Nipissing district is a well-drained, well-timbered country, having a clay loam soil. A number of bushmen will do a lot of preparatory work during the winter, and next season a grant will be passed by the Government for suitable buildings and other necessities.

—Invitations are out for a large progressive bridge whist party to-morrow evening, given by Mrs. R. H. Hall and Mrs. Coulthard.

DISMISSED AMBASSADOR DEFENDS WIFE'S CONDUCT

Declares That She Was Not Guilty of Intriguing With Vatican

AMERICAN AMBASSADRESS

Roosevelt Addressed Mrs Storer as "My Dear Maria."

Chicago, Dec. 9.—The Chicago Tribune in its Washington despatches says that an extraordinary letter has been addressed by Bellamy Storer to President Roosevelt and the members of his cabinet in regard to his dismissal from the post of ambassador of the United States to Austria-Hungary.

Mr. Storer was dismissed because of his wife's supposed interference in affairs of the Roman Catholic Church and her alleged misuse of letters from the president. It was also charged that Mrs Storer had meddled with French politics by taking part in an anti-Republican intrigue to promote the marriage of Victor Bonaparte with a member of the Orleans family. Both of these charges Mr Storer denies, and on the other hand declares that the president's interest in the selection of Archbishop Ireland as a cardinal was not due to Storer or Storer's wife, but to the president alone.

The correspondence shows the familiar relations of the president and the Storers from the time Mr. Roosevelt was governor of New York just after the Spanish war. Some of the Roosevelt letters to Storer were addressed "My Dear Bellamy," and to his wife, "My Dear Maria." and Mrs. Storer addressed the president as "Dear Theodore."

Mr. Storer asserts that Roosevelt himself, while governor of New York, urged the Storers to use their influence with the Vatican for Ireland's promotion, believing the prelates well known patriotism would aid in solving the problems connected with the Catholic Church in the Philippines.

WOMAN'S MEDDLING.

One letter of the president to Mrs Storer, dated Dec. 11, 1905, after the efforts of the Storers in behalf of Archbishop Ireland began to attract attention, contains the following passage:

"Your direct or implied complaint of and reflections upon my own personal conduct give me no concern but I am very grieved concerned at the mischievous effect your letter must have in misrepresenting the position of the United States government and by the far-reaching governmental mischief your misconception may at any time cause.

"Your letters not only convey a totally wrong impression of my attitude, but they are such as to have no business to write in the limited position of your husband as our diplomatic servant.

"His letter of Cardinal Merry Del Val to you of Nov. 23, as a reply to you, expressing gratification that you have been unsuccessful in matters with which you have properly no concern. I need not, at least be enough to show you how exceedingly unwise and improper your action is in writing to me as you did.

REFUSED FOR AN AMBASSADRESS.

"I am informed that the wife of an ambassador of the United States never before has written such a letter to the president, and I am sure you will readily understand why I could not and have absolutely refused such a request.

"You say you have come to realize that it is out of the question for me knowingly to permit the wife of one of our diplomats to engage in ecclesiastical intrigues to influence the Vatican."

After referring to the report that Mrs. Storer was known in Europe as the "American Ambassadress" to dame Mr. Roosevelt, goes on:

"I must ask you to give me this positive promise in writing, if, indeed, it is to continue in the service, and if you even unintentionally create it, I shall have to ask for Bellamy's resignation, for I can no longer afford to have the chance of scandal being brought on in the entire American diplomatic service, and on the government itself, by such indiscreet and hindered action as this has been."

MADE HIM ANGRY.

"I cannot trust myself to express fully the feeling of indignation with which I read the letter to Mrs Storer," said Mr. Storer, "though I was in the public service I felt, and still feel, that I had just some of the rights which a man has to judge of the propriety of letters addressed to his wife and to resent an improper communication. I did not know then what I have since learned, that the letter was not even written for my wife's eyes for more alone, but had been shown to others before it was sent, and thus used to make a case against a lady, a trusting friend, who could not be heard in her own defence.

"My wife was deliberately accused of having quoted isolated sentences from the president's letters to convince other persons that he was doing exactly what, as he asserts, he had explicitly stated in writing that he would not do.

"The charge of shameful conduct was based on no evidence which could even have misled the writer into a hasty judgment, but was in answer to a letter which, whether approved or not, at least furnishes no such evidence either in itself or in its enclosures."

"In concluding the letter, the former ambassador says: "I write this letter without the knowledge of Archbishop Ireland."

Mr. C. E. Allwood Was In the Capital

Mr. C. E. Allwood of the Novel-Ti Company, Water street, has returned from Ottawa where he was a member of the deputation of sectile manufacturers, who waited upon Hon. Wm. Patterson, Minister of Customs, asking for a restoration of the old policy under which they brought in silk to be made into ties at tar per cent. The new duties are 37 1-2 per cent. under the general tariff, 35 per cent. under the intermediate and 30 per cent. under the British preference.

Bishop of Qu'Appelle Is Severely Scored

Writer in Manchester Guardian Says His Appeal Was Somewhat Grotesque and Profane Bathos.

London, Dec. 8.—A writer in the Manchester Guardian, referring to the speech of the Bishop of Qu'Appelle at the meeting of the Society for the Propagation of the Gospel in Foreign Parts, says: "One wondered whether the bishop was well informed, or, if so, whether he was discreet when he went so far as to hint at a leaning of Western Canada towards a union with the United States, and when he based on that fear an appeal to make the English Church and prayer a bond of empire and a corrective to centrifugal tendencies. To connect such great spiritual endeavors with motives as secular and political strikes one as somewhat grotesque and almost profane bathos."

FOUR KILLED IN WRECK

Freight and Special Collide on Maine Central Railway.

Lewiston, Maine, Dec. 8.—Four persons were killed and three others seriously injured in a head-on collision between a special and a regular freight train on the Maine Central Railroad near the small station of Annabessacook, late last night. The wreck was said to be due to a misunderstanding of orders. Both trains were going so fast when they met that eight of the thirteen cars of the special were hurled over the engine and demolished, with the greater part of the contents. The track was blocked for hours.

The dead are; Fireman Hodges of the special; Engineer Forrest Fletcher of the regular train; Engineer Hartman of the special, and Brakeman Rowe.

The dead and injured men were nearly all riding in the engine.

Shah is Reported Dead But Officialdom Doubts

International Complication in Territorial Aggression in Persia May Come.

London, Dec. 9.—A despatch received here yesterday from Paris announced that it was reported there that the Shah of Persia was dead. Neither the Persian Legation nor the Persian Bank here has received anything confirmatory of the rumor. The British Foreign Office also discredits the report.

THE GERMAN POLICY.

Berlin, Dec. 9.—Although the German Foreign Office does not believe that the Shah of Persia is so near to death as it is generally reported from Teheran, it is well understood that his passing cannot long be delayed, as his complicated liver and kidney maladies are in their final stages.

Germany is popularly supposed, in Great Britain and France especially, to be pursuing mysterious political objects with the ultimate design of acquiring territorial advantages in Persia.

The German policy, the Associated Press is informed, is simply equal trade privileges in Persia for all nations. In other words, the policy of Germany in Persia is identical in its broad outlines, with her Moroccan policy, and will doubtless be upheld firmly if necessary. The principle of the German policy in Persia has been clearly explained to the foreign offices of Great Britain and Russia and misunderstandings, such as those which arose the Moroccan question serious, are not likely to arise.

Russia is more the rival of Germany for the trade of Persia than Great Britain, possessing, as she does a tariff under which the customs due on overland imports are lower than those imposed on sea-borne imports, and both Great Britain and Germany have a community of interest in obtaining an equalization of the seaport and land frontier dues.

NORWAY MAY HELP G.T.P.

By Use of Norwegian Vessels, Coasting Privileges are Available

Vancouver, B.C., Dec. 9—The G.T.P. has one more chance to get bonded supplies through to British Columbia via Chicago and Seattle, and north to Prince Rupert.

This is by chartering Norwegian vessels. By consent of an imperial arrangement with Norway, the merchant fleet of Norway is entitled to the enjoyment of coasting privileges anywhere in the British Empire. So even if the Dominion government should enforce the coasting laws in British Columbia, and thus prevent American ships handling bonded goods, such as G.T.P. supplies via Seattle, as the C.P.R. desires, and the Vancouver board of trade has asked, the G.T.P. can win out on Norwegian craft.

BODY ON BARB WIRE FENCE

Brutal Murder is Committed Near Syddey, N.S.—Robbery the Motive.

Sydney, N.S., Dec. 9.—At noon yesterday the body of Angus Shelanne was found hanging over the barb wire fence that runs along the Sydney and Louisburg Railway in a terribly mutilated condition. The man was last seen Monday evening near where the body was found. The theory is a quarrel. Shelanne had a little money when he left home, but only 6¢ was found on his person.

Swimming in the Lake Saturday

Kingston, Dec. 10.—On Saturday morning Mayor Mowat and his 17-year-old friend, "Jim" Stewart, son of ex-Ald. James Stewart, had their morning dip in the lake, off the Yacht Club Wharf. The temperature was several degrees below the zero point.

"We have had our last plunge this season," said Mayor Mowat. "Ice is forming, and in walking across the wharf our feet stick to the icy boards. We have both enjoyed the cold season for bathing."

ESTABLISHED 1882

The Toronto General Trusts Corporation

The Pioneer Trusts Corporation of Canada

Paid-Up Capital, $1,000,000
Reserve Fund, 300,000

Acts as an Executor, Administrator, Trustee, Receiver, Committee of Lunatics, Etc., Etc.

The Trusts Corporation is equipped to perform the duties of these offices as no private trustee can. Its officers in each department are specialists. The employment of the Corporation ensures efficiency, security and economy in the administration of a trust.

Trust funds to loan on mortgages at lowest current rates.

J. W. LANGMUIR, Managing Director

Wives Want the Estate of an Indian Don Juan

Charlottetown, P.E.I., Dec. 10.—Recently Commissioner McEwen of Morrell was engaged in taking evidence in this city on a rather interesting case, the scenes from which are laid in Prince Edward Island and Cape Breton.

The facts are as follows. About the year 1868, a half-breed Indian, James Nolan, drifted from Guysborough County, Nova Scotia, in a boat to West St. Peter's, P.E.I. There he married in 1870 one Phoebe McAdam. All went well until the year 1882, when there suddenly appeared an Indian woman, from Bathurst, N.B., looking for Mr. Nolan. At the time he was shingling a roof of a house, with another man, when the woman approached the building in true Indian fashion, skulking behind a tree. She could not see Nolan from her point of view, and asked the man with him if he was there. Nolan, who instructed him to reply in the negative, quietly descended from the roof, disappeared from West St. Peter's, and removed to Orapaud, where he lived under the name of James Strong, deserting his first wife, Phoebe McAdam. He later went to St. Peter's, Breton, where he married again. During a change, he deserted wife number two—now deceased—and fled to Sydney, where he engaged in the liquor business, and where he married wife number three. In Sydney he accumulated considerable property, and died in 1903 worth about $20,000.

During his life he bought and sold a number of lots of land in and around Sydney. According to Nova Scotia law, his wife is entitled to dower rights of one-third of the profits on all these. In his will he recognized the children of all three marriages. His wife number one, learning of his death, came to Cape Breton to recover her rights, brought an action against wife number three for her share of the property, and won the case, on appeal to the Supreme Court of Nova Scotia. She then sought to recover her rights of all the land Nolan had owned during his lifetime, these lands passing through different hands. In two cases they were owned by loan companies, who had advanced money on mortgages.

The present case on which evidence is being taken on the island was for dower on land bought by John R. Larkins, formerly a resident of Richmond, Prince Edward Island. Larkins pleaded in his defence that none of the three wives named were legally married to Nolan, because previous to his coming in Prince Edward Island he was married to an Indian woman in Bathurst, N.B., the same woman that came to look for him when he was engaged in shingling the house in St. Peter's. To make the case further complicated, Phoebe McAdam had heard shortly after Nolan's disappearance that he was drowned, and after waiting for three years, married one Donald McFarland of St. Peter's, in 1885. The point arose during the stage of the litigation as to whether she was entitled to the dower from Nolan's property, having married when he was alive, but the court decided that her marriage with McEachern did not affect her right. Nolan had altogether six children by three wives, a number of whom are now married. At Sydney he went under the name of James McAdam. This case has attracted considerable attention in Cape Breton, having come up at different times under different judges. Mrs. McEachern first learned that Nolan was living through a letter that he sent to St. Peter's enquiring her whereabouts. There are at present five cases pending brought by the McAdam woman against the last wife, against Larkins, against the Yarmouth Loan Company, against Mr. McKinnon, and against the Canada Loan Company.

SIXTEEN TEAMS IN SIX-DAY RACE

International Grind Will Commence in Madison Square Garden.

New York, Dec. 8.—Sixteen teams of bicyclists gathered from every quarter of the globe will start on Sunday night on the long journey of the annual international six-day bicycle race in Madison Square Garden.

The release yesterday from Ellis Island of the championship French team, the George brothers, who recently won the first six-day race ever held in Europe, completed the list of entries, which was held open until the last moment, awaiting a decision in their case.

The champions of Europe, Asia and Africa, as well as the very best riders in America, will go to the post.

DO NOT BE A BURDEN

Some Good Advice to Readers of the Times.

A weak stomach and its resulting ills are not natural. With proper care and the use of Mi-o-na stomach tablets, the very worst cases of indigestion or stomach trouble can be completely cured.

It is a sin to deprive oneself of enjoyment in life and become a burden to others through indigestion.

The backaches, headaches, distress after eating, loss of appetite, gulping up of undigested food and gases are not natural. Mi-o-na stomach tablets used for a few days before meals will so strengthen the digestive organs that you can eat anything you want without fear of distress or resulting sickness.

The directions for taking Mi-o-na emphasize the difference between this remedy and the ordinary medicine that is given for indigestion. Mi-o-na is to be used before meals, strengthening the digestive system for the food which is to be eaten, while the ordinary remedy is taken after meals, and simply digests the food without strengthening the stomach.

We absolutely agree that your money will be refunded should you buy a 50-cent box of Mi-o-na stomach tablets and not be satisfied with the results. Mi-o-na is sold by druggists everywhere, or will be sent by mail on receipt of price, 50 cents.

Write today for a free sample package, and also give us your symptoms, and one of the best known stomach specialists will give your case his careful and personal attention without charge. Booth's Hyomei Company, Buffalo, N. Y.

Dr. Lapponi is Dead Was Pope's Physician

Before Losing Consciousness He Said That the Pope Was Strong as it Would Live Long.

Rome, Dec. 8.—Dr. Lapponi, physician to the Pope, died at seven o'clock yesterday morning. He had been seriously ill for some time of cancer of the stomach, and pneumonia setting in he could not in his weakened condition withstand its ravages.

When Dr. Lapponi was sinking the Pope sent him the Apostolic benediction, and when the news of his death reached the Pontiff he was exceedingly grieved.

It is reported that before losing consciousness Dr. Lapponi, referring to the Pope, said; "He has a strong constitution, and, having studied him carefully, I think he will live longer than Leo XIII."

The deceased physician was very popular in Rome, both among the clericals as well as with the anti-clericals.

Mrs. Amos Jones Passes Away

Following on an operation performed on Friday, Mrs. Amos Jones, of Douro, passed away in the Nicholls Hospital on Saturday morning.

The late Mrs. Jones was formerly a Miss Minnie Evans of Rochester, in which city she was married to Mr. Jones, they lived in the vicinity of Bridgenorth for a number of years, and later moved to Douro, where they have resided for the past two years.

The funeral will take place on tomorrow afternoon at two o'clock, from the family residence, lot 11, con. 6, Douro, to the Little Lake cemetery.

Crowded Cars Collide

Montreal, Dec. 8.—Two crowded cars collided on the slippery rails on a steep grade on Bleury street last night. The fuse of one car blew out and, as the brakes would not work, it crashed into a car behind it. Norman Boucher, a messenger boy, was probably fatally injured. Joe. Bowie, Samuel Morin, George Weller, Minnie O'Donell, G. W. Scott and Florence O'Donell were seriously injured.

PALE AND ANXIOUS

Your Countenance Indicates the Body's Awful Struggle for Health.

Impossible to work or think clearly when there is no reserve of vigor, no nourishment in the blood, no supply of nerve energy.

The life of the half-sick man is pitiful, in fact, almost criminal, when bounding strength is so quickly derived from Ferrozone.

This nutritive tonic is guaranteed to strengthen all men, women and children. Weak organs get new force, vital energy is generated. Muscle and fat are added, healthy color is restored, and the blood fairly tingles with new-found life.

Read the evidence of Jno. Carter, of 34 King St. East, Toronto, who says: "After a severe attack of Grippe my health was almost shattered. I suffered constantly from nervousness and dyspepsia. At night I would waken with terrible palpitation and heart pains. Work became a great effort. At ten in the morning I was so tired and weak I could hardly work another minute.

"Then came a bad attack of rheumatism, which laid me up in bed. I could scarcely lift the weight of a pound, and to stoop or bend was impossible. My druggist recommended Ferrozone, and he knew what he was talking about, for it rebuilt my strength, gave me abundant appetite, better blood, and new nerve energy. The rheumatism has disappeared. I weigh more, feel refreshed and vigorous, and am able to work ten hours a day. Ferrozone did it all."

You will be steadied, toned and strengthened for all time to come with Ferrozone. Get the genuine in 50c boxes or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U.S.A., or Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterboro are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year, strictly in advance.

UNION LABEL

PETERBOROUGH, DECEMBER 7 1906

PROGRESS OF RELIGIOUS LIBERTY

A few months ago the constitution of Bolivia was amended so as at last to permit freedom of public worship to all churches. This concession had long been sought by the denominations which have heretofore conducted missions in that country under the greatest difficulties, and the receipt of the text of the law at London and Washington was the occasion of great rejoicing by the men who are seeking to promote religious liberty throughout the world.

Russia is one country in which much reform is needed, and while some progress has been made during the revolutionary turmoil, as for example the grant of freedom to the Roman Catholics of Poland to worship as they see fit, a great deal more must be accomplished.

Spain is also backward, for the Protestant churches there are not allowed to show themselves publicly under any circumstances. They may not have a cross or other religious emblem upon any buildings they use for worship, and the doors must remain closed so as not to attract attention to their services. These restrictions are imbedded in the constitution, which provides that "no ceremonies nor manifestations in public except those of the religion of the state will be permitted."

The work that is being done to secure the breaking down of these restrictions all over the world is noble in its ideals and in its methods, for it is in no sense narrow or biased. It labors as readily to secure concessions in behalf of a religion in one state as it does to secure concessions from that same religion in behalf of other religions in another state. It can appeal only to ideas of equity and enlightenment, but for all that it is not devoid of its satisfactory successes.

THEY WERE DECEIVED

Discussing the efforts of President Gompers of the A. F. L. to launch an independent labor party, the San Francisco Chronicle explains: "One would think the shocking example of San Francisco would be a sufficient warning. Union labor, and union labor only, is responsible for the disgraceful municipal administration with which this city is now cursed. There is no disposition to harp on it, for there is hearty repentance on the part of the honest union men who allowed themselves to be deceived by demagogues. But the fact cannot be denied, and for the warning of others it cannot be permitted to be forgotten."

TO DEAL WITH THE HINDUS.

The Immigration Department has despatched an official to British Columbia to carry out the clause of the Immigration Act which authorizes the deportation of recent arrivals who have been unable to support themselves, and are becoming a burden on the rest of the community. Among those who will be dealt with under this clause will probably be a considerable number of the Hindus who have been landing of late in such large numbers in British Columbia.

Deputations on the New Tariff

Ottawa, Dec. 6.—A deputation of necktie manufacturers waited on the Government yesterday, asking a restoration of the duty rate of 10 per cent. that was formerly allowed on silks when imported for the manufacture of ties. There were several complaints laid before the Tariff Commission that silk actually used in the making of waists and other wearing apparel was brought in under the new duty rate that was supposed to apply to ties alone. In the revision silk fabrics carry a rate of 20 per cent. under the high tariff; 17 1-2 per cent. under the intermediate tariff, and 17 1-2 per cent. under the British preference. In his budget speech the Finance Minister admitted that, if the manufacturers still had to import their silks from Germany, they would be at a disadvantage, but the re-arranged duties will encourage importations from Britain and from continental countries like Switzerland, that have been in the rapid development.

Another deputation, interested in the wheat lead industry, applied for increased protection in that product.

The Sewing Room.

The more important things that will make a sewing room a comfort and a pleasure are an old pier glass, which can either be hung or mounted, and if possible a piece of furniture of the "dresser" variety, which will give a mirror opposite. This can be turned to afford a full length view of both back and front of the figure. A kitchen table long enough to hold a skirt, with an extra leaf along the back so that it can be made square for cutting out circular skirts or capes, is also an addition. Then a scrapbasket, workbaskets and a hamper in which to keep rolls of lining and materials which may be wanted at any moment, with a low folding table, a low and a high chair and the machine, and your sewing room is properly equipped. The presence of a "Judy," or padded form, and a tree rack, on which half finished garments can be hung, is also of great convenience.

Sponging Woolen Goods.

Few people know how to sponge a piece of woolen goods, and the majority of woolens are better for having been sponged, although some, such as cashmere, henrietta, challis and veiling, do not require it. All goods known as cloths must be sponged, or they will not give satisfactory wear. To do this leave the original crease down the center and lay over the cloth pieces of thoroughly wet muslin. On an old broom handle or a slat from a bed roll the cloth, commencing at one end, and see as you roll that the whole inside surface is covered with the wet muslin. Allow the cloth to remain in this way for twenty-four hours, when it should be unrolled and hung over a line to dry.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

Education Bill Passed

London, Dec. 6.—The Education bill passed its third reading in the House of Lords last night by 108 votes to 28. The tone of the speeches by both Lord Crewe, Liberal, and Lord Lansdowne, the leader of The Opposition, indicated that a settlement is still not impossible. Lord Lansdowne admitted that he would be sorry to see the Bill a failure. It is understood that negotiations, with a view to compromise, are going on between the Opposition leaders in the House of Lords and the Government in the House of Commons. It is said that the Duke of Devonshire and the Archbishop of Canterbury are in favor of a compromise.

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific Nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend

Dr. Shoop's Restorative

J. D. TULLY.

For Coughs

We know a remedy over sixty years old. Thousands of people have never been without it during all these years. Once in the family, it stays; the one household remedy for coughs and colds. The more you consult your doctor about Ayer's Cherry Pectoral, the better for you, and the better for us as well. Ask him all about it.

We have no secrets! We publish the formula of all our medicines! J. C. Ayer Co., Lowell, Mass.

9,600 FEET

Sixty six mining claims.
A crosscut tunnel now in 4,000 feet.
8,600 feet of drifts, shafts and laterals.
A complete 750 h.p. turbine electric power plant.
Numerous Veins Explored.
A Big Industrial and Mining Proposition Combined.
A Strong Directorate.

This is real mining.

The Palmer Mountain Tunnel and Power Company has 66 lode mining claims back of it on Palmer Mountain, near the Town of Loomis, Okanogan County, Washington—about 12 miles south of the boundary of British Columbia. A new railway line is nearly completed and will run within 12 miles of the property. Steamers ply on the Okanogan River to within 28 miles of our properties. There is water—not only for mining purposes, but with unlimited possibilities for power genera-

INTERIOR OF TUNNEL

tion. There is timber, there are large, well defined veins proved at great depth—and there is development enough done to make this one of the biggest and best mining propositions in the country.

We can do more with $10 ore on our properties than the desert miners can do with $40 or even higher grade ore. We can make money because we have the FACILITIES on our ground. Our ore can be mined, milled, cyanided and bullion produced for not exceeding $2.50 a ton.

Our immense crosscut bore—a picture of which we show herewith—is now in 4,000 feet, is 9 by 9 in the clear (as large as any of the big transportation and drainage tunnels), and is well timbered, equipped with track, ore cars and everything else essential. In the picture shown herewith, the large pipe running at the top of the right side of the tunnel, is for ventilation purposes and connects with a large, powerful blower.

Recent development on the mountain proves that we shall open up at tunnel level (3,500 feet beneath the surface) an enormous body of copper ore.

We have opened up much $10 ore, and we have a higher grade running up to $50 a ton. This is where the big profit comes from. In the nearly TWO MILES OF WORKINGS we have all the facilities for handling a very large production. Back of it all we have a capable mining and business management. We should be very glad to tell you the complete story. We can only hint at it here.

COLORADO SPRINGS, COLORADO

DARREL of THE BLESSED ISLES

By IRVING BACHELLER,

Author of "Eben Holden," "D'ri and I," Etc.

COPYRIGHT, 1906, BY LOTHROP PUBLISHING COMPANY

Again and again the gobbler walked up and down with him before the assembled flock. Hens and geese cackled loudly and clapped their wings. Applause and derision rose high each time the poor cock swung around reaching for the grass, but the gobbler continued his even stride, deliberately and, as it seemed, thoughtfully, applying correction to the quarrelsome bird. Walking the grass tips had begun to tire those reaching legs. The cock soon straddled along with a serious eye and an open mouth, but the gobbler gave him no rest. When at length he released his hold the gamecock lay weary and wild eyed, with no more fight in him than a bunch of rags. Soon he rose and ran away and hid himself in the stable. The culprit fowl was then tried, convicted and sentenced to the block.

"It's the fate of all fighters that have only a selfish cause," said the teacher. He was sitting on the grass. Polly and Tom and Paul beside him.

"Look here," said he suddenly. "I'll show you another fight."

All gathered about him. Down among the grass roots an ant stood facing a big, hairy spider. The ant backed away presently and made a little detour, the spider turning quickly and edging toward him. The ant stood motionless, the spider on tiptoe, with daggers drawn. The big, hairy spider leaped like a lion to its prey. They could see her striking with the fatal knives, her great body quivering with fierce energy. The little ant was hidden beneath it. Some uttered a cry of pity, and Paul was for taking sides.

"Wait a moment," said the teacher, restraining his hand. The spider had begun to tremble in a curious manner.

"Look now," said Trove, with some excitement.

Her legs had begun to let go and were straightening stiff on both sides of her. In a moment she tilted sideways and lay still. They saw a twinkle of black legs and the ant making off in the stubble. They picked up the spider's body; it was now only an empty shell. Her big stomach had been torn away and lay in little strips and chunks down at the roots of the stubble.

"It's the end of a bit of history," said the teacher as he tore away the curved blades of the spider and put them in Polly's palm.

"Let's see where the ant goes."

He got down upon his hands and knees and watched the little black tiger, now hurrying for his lair. In a moment he was joined by others, and presently they came into a smooth little avenue under the grass. It took them into the edge of the meadow, around a stalk of mullein, where there were a number of webs.

"There's where she lived—this hairy old woman," said the teacher—"up there in that tower. See her snares in the grass—four of them?"

He rapped on the stalk of mullein with a stick, peering into the dusty little cavern of silk near the top of it.

"Sure enough! Here is where she lived, for the house is empty and there's living prey in the snares."

"What a weird old thing!" said Polly. "Can you tell us more about her?"

"Well, every summer," said Trove, "a great city grows up in the field. There are shady streets in it, no wider than a cricket's back, and millions living in nest and tower and cave and cavern. Among its people are toilers and idlers, laws and lawbreakers, thieves and highwaymen, grand folk and plain folk. Here is the home of the greatest criminal in the city of the field. See! It is between two leaves, one serving as roof, the other as floor and portico. Here is a long cell that comes out of her sitting room and slopes away to the big snare below. Look at her sheets of silk in the grass. It's like a washing that's been hung out to dry. From each a slender cord of silk runs to the main cable. Even a fly's kick or a stroke of his tiny wing must have gone up the tower and shaken the floor of the old lady, maybe, with a sort of thunder. Then she ran out and down the cable to rush upon her helpless prey.

"She was an arrant highwayman, this old lady—a creature of craft and violence. She was no sooner married than she slew her husband—a timid thing smaller than she—and ate him at one meal. You know the ants are a busy people. This road was probably a thoroughfare for their freight—eggs and cattle and wild rice. I'll warrant she used to lie and wait for them, and woe to the little traveler if she caught him unawares, for she could nip him in two with a single thrust of her knives. Then she would seize the egg he bore and make off with it. Now, the ants are cunning. They found her downstairs and cut her off from her home and drove her away into the grass jungle. I've no doubt she faced a score of them, but, being a swift climber, with lots of rope in her pocket, was able to get away. The soldier ants began to beat the jungle. They separated, content to meet her singly, knowing she would refuse to fight if confronted by more than one. And you know what happened to her."

All that afternoon they spent in the city of the field. The life of the birds in the great maple interested them most of all. In the evening he played checkers with Polly and told her of school life in the village of Hillsborough—the work and play of the students.

"Oh, I do wish I could go," said she presently, with a deep sigh.

He thought of the $82 in his pocket and longed to tell her all that he was planning for her sake.

Mrs. Vaughn went above stairs with the children.

Then Trove took Polly's hand. They looked deeply into each other's eyes a moment, both smiling.

"It's your move," said she, smiling as her glance fell.

He moved all the checkers.

There came a breath of silence and a

STRICTURE AND KIDNEY DISEASE CURED.

G. E. WRIGHT.

"I had stricture for eleven years. It finally brought on Bright's Disease of the Kidneys. I had an uncomfortable shooting pain in the groin and feeling as though something was in the urethra. My back was weak and I could scarcely stoop over. Urine was full of sediment. Had a desire to urinate frequently. Family doctors, so-called specialists, patent medicines, electric belts, all failed. I was discouraged. I had spent hundreds of dollars in vain. Finally I consulted Drs. Kennedy & Kergan as the last resort. I had heard a great deal about them and concluded from the fact that they had been established over 25 years that they understood their business. I am delighted with the results. In one week I felt better and in a few weeks was entirely cured. Have gained fifteen pounds in weight."
G. E. WRIGHT, Lansing.

Lax-ets 5¢ Sweet to Eat — A Candy Bowel Laxative

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Land in Manitoba, Saskatchewan or Alberta, not reserved, may be homesteaded upon by any person who is sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres, more or less.

Entry must be made personally at the local office for the district in which the land is situate.

HOMESTEAD DUTIES. A settler who has obtained entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of the three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 15 0x1500 feet. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent. collected on the output after it exceeds $10,000.

W. W. CORY,

Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

ADVERTISE IN THE TIMES.

All Eyes Are on Nevada

Fortunes are being made Every Day

Co-operation is your opportunity for making honest money.

THE NEVADA QUEEN GOLD MINING COMPANY

Has a most wonderful showing of surface ores, equaling the best found in Tonopah, Goldfield, Fairview, Manhattan and Bullfrog. Gold, Silver and Copper assays show extremely high values.

THE RUSH IS ON!

Many operators are investing large sums of money in the district which is connected by rail with Goldfield. If you wish to be benefitted come in with us. We promise a fair and square deal. The Officers are mining men of good reputation—References of the best. Investigate.

100,000 SHARES

To be sold for FIVE CENTS each for developments only. 100 shares $5.00, the minimum of any one subscription.

Our proposition is worthy of immediate consideration.

A GOOD MINE

pays larger dividends than any other enterprise in the world.

We believe our stock will be selling at ten times the present price within one year. We own SIX CLAIMS (120 acres), fully paid for—no debts; work in progress. We need money to develop the same into what we believe a dividend paying bonanza.

Yours the opportunity? Again we say, Investigate.

For stock and further information, address

IMPROVE YOUR COMPLEXION

Give Up Cosmetics And Seek The Cause of Your Bad Color.

When it's so easy to bring back the bloom of youth, to remove the blemishes and fill the hollows, isn't it foolish to plaster on cosmetics?

Sallowed skin and fallen in cheeks are produced by disorders of the alimentary canal.

Remove the cause—correct the condition that keeps you from looking as you ought. Use Dr. Hamilton's Pills and very soon you'll have a complexion to be proud of.

Just imagine how much happier you will feel when those pimples and murky look have gone.

Balmy loods came to Miss Vrooman, a well known resident of Belfast, from using Dr. Hamilton's Pills. I used to look so yellow I thought it might be jaundice. There was simply no color in my cheeks at all. Today my skin is clear and never gets that murky, dull appearance, it had before. Dr. Hamilton's Pills have also given me a good appetite and improved my general health also."

Not only the complexion, but every organ of the body is strengthened, cleansed and made healthy by Dr. Hamilton's Pills. Buoyancy, vim and a feeling of vigor invariably follow their use. Sold in yellow boxes by all dealers; 25c. per box or five boxes for $1.00, or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS.

Xmas Decorations.

See us for Christmas decorations, we have a nice assortment of red bells, wreaths with bell suspended in center, festooning twelve feet long, lanterns in five and ten-cent size, candles, etc. Times Bookstore.

Another Letter Box for the City.

Another letter box for residents of the west end of the city has arrived, and will be placed in position at the corner of Edinburgh and Stewart streets, at the extreme summit of the Smithstown hill.

Preparing for Teachers' Convention.

A good program is being prepared by the executive of the Peterborough Teachers' Association, who discussed matters at the meeting held in the Y.M.C.A. It includes Addresses by prominent educationists. The date for the convention will be announced shortly.

Club Ball Christmas Week.

The Peterborough Club is now making arrangements for their annual ball to be held in the premises of that institution in the Bank of Commerce Building. The ball will probably be held on the Friday of Christmas week, and will undoubtedly be a great social success as was their ball of last year.

Local Traveller Leaves Today.

Mr. J. Hardill the popular local traveller for Messrs. T. Kinnear & Co., who recently completed their splendid new warehouse on George street, leaves today on his northern trip. Mr. Hardill is one of the best known commercial men in this section of Ontario, and will doubtless bring home a well filled order book.

Mr. Matchett for School Board.

The name of Mr. M. W. Matchett of the East Ward, is now mentioned as a possible candidate for election to the Board of Education to fill one of the vacancies created by the retiring of four of the present members. Should Mr. Matchett decide to accept a nomination he would be likely to poll a large vote in his ward which will try to secure a representative.

LOCAL INCIDENTS

By The Times Man on the Street

—Brock street rink opened Saturday night.

—See the south window of the Times Bookstore for 25c bargains.

—The Government steam dredge has been tied up for the winter at Young's Point.

—A children's service was held in St. Luke's church yesterday morning.

—Times Bookstore is Santa Claus headquarters for dolls, games, toys and children's notions.

—All Y.M.C.A. boys who want the rink to go this year, are asked to hand in their names by this afternoon.

—Mr. George Cochrane, agent for the Children's Aid Society, has received a cheque from a friend for $50 for the Society.

—Mr. G. Walter Greene has been appointed exclusive agent in Peterborough, of the Canadian Fairbanks Company.

—A regular meeting of the Board of Education will take place at the secretary's office, 437 George street, tonight at 7.45 o'clock.

—The first annual meeting of the stockholders of the Selwyn Dairy Co., will be held in the Temperance Hall, Selwyn, on Tuesday, Dec. 11th, at 2.30 p.m.

—County Constable Archie Moore went to Toronto Saturday morning with Jas. Nugent, of Smith township, who has been committed on the Insane Asylum.

—Rev. A. E. Langfeldt has in his possession considerable old clothing and wishes to inform any desiring the same that they may have it by applying to him.

—The Children's Aid Society acknowledge with thanks the following donations; Mrs. Jacob White, Dummer, $5.00; Ladies' Aid Charlotte streets church, $5.00.

—The next meeting of the Central Ontario Medical Society will be held in the Ontario Bank Chambers on Thursday evening, December 13th. A number of interesting papers will be read by local medical men.

—Johnston Pandash will leave this week for Ottawa for the purpose of interviewing Sir Wilfrid Laurier and the Indian agent at Ottawa in reference to the claims the Rice Lake Indians have against the Crown.

—Mr. Robt. Stuart, of Uxbridge, will be in the city today when a meeting of the special committee will be held in reference to the offer of the Peterborough Light & Power Co. The meeting will be either today or tomorrow.

Club's Premises Under Consideration

The officers of the Peterborough Club, which is now in most successful condition for the coming year are as follows:

President—Judge Weller.
Vice-President—Dr. Beecher.
Sec.-Treas.—W. R. Morris.

The lease of the present premises expires next summer and the question of releasing or procuring another building is now under consideration by the executive whose decision will probably be made known this week.

Rink Club Elects Officers.

The Rink Club in connection with Knox church has elected the following officers;

President—Rev. A. Bright.
Secretary—Herbert McCammon.
Treasurer—Reuben Laing.

The open air rink which is located at the corner of Reid and Wolfe streets, will be opened about the middle of this week.

Mather Lost His Appeal.

The appeal by the defendant in the case of Moon vs. Mather, both parties of Stirling, has been dismissed with costs. Mrs. Moon got $350 damages and full cost of action on a judgment at Belleville last spring. She charged Mather with injuring her business by passing uncomplimentary remarks, about the Scott House of which she is lessee. The appeal was not sustained and Mr Mather is in for all costs.

HARMFUL STOMACH DOSING

No Need of it When Hyomei is Used to Cure Catarrh.

Physicians and scientists agree that the less medicine one swallows, the better. It is in keeping with this idea that Hyomei is recommended by leading physicians throughout this and other catarrhal sections.

When this treatment is used in catarrhal troubles, there is no stomach dosing, for the medicine is taken in with the air you breathe, and goes right to the spot where the catarrhal germs are present, healing the inflamed and irritated mucous membrane, killing the disease germs and entering the blood with the oxygen, driving all catarrhal germs from the system.

Do not try to cure catarrh of the head by putting medicine into your stomach—this is neither a scientific nor common-sense treatment. Breathe the healing balsams of Hyomei and in a few days you will notice relief, and its continued use will result in a complete and lasting cure.

The complete Hyomei outfit costs but $1.00, extra bottles, if needed, 50 cents. We do not want anyone's money unless Hyomei gives relief and cure, and we absolutely agree that money will be refunded unless the remedy gives satisfaction.

All druggists should be able to supply you with Hyomei or we will send it by mail on receipt of price, and every package is sold with the distinct understanding that it costs nothing unless it cures. Write us today for a symptom blank, which we will send you free, together with treatise on Catarrh and how to cure it. When you fill in and return to us the symptom blank, our consulting physician will give your case the best care and attention, and write you a letter of advice without charge. Booth's Hyomei Company, Buffalo, N. Y.

SOCIAL AND PERSONAL

—Mr Wm. McIlroy spent Saturday in Toronto.

—Messrs F. A Kilbourn and H. Sherin, of Lakefield, were registered at the Oriental on Saturday.

—Miss Mabel Bradburn of Peterborough, has been visiting Miss Cora Spry.—Barrie Examiner.

—Mr and Mrs. R. B. Lundy will leave today for St. Augustine, Florida where they will spend the winter months.

—Mrs. B. Cooney has raised in his hot-houses a lemon weighing 19 ounces. This is a record for Peterborough.

—Miss Mary Wilson, daughter of Rev. J. P. Wilson, is a guest of Mrs. (Dr.) McClelland, Peterborough.—Belleville Ontario.

—Mrs. J. J. Jeffries will receive for the last time in Peterborough this afternoon at her home, 176 London street, from 3 to 6 o'clock.

—Mr Masterambert, of Lindsay, the new manager of the Bank of Montreal, in this city, is expected to enter upon his duties on Wednesday next.

—We regret to note that Rev Mr. Manning, pastor of the Charlotte street church is confined to his residence, with a serious attack of bronchitis.

—Mr. G. C. Kirton, of the Bank of Montreal staff, who some time ago received notice of his transfer to Vancouver, will, it is learned remain in the city.

—Mr. L. H. Elliott, of the Ontario Branch of the Montreal Bank, has been transferred to Kingston, and left Saturday night for that place. Mr. Elliott has made many friends in his short residence here.

—Mr M. H Trumpour, who accompanied the Albert College basketball team of Belleville to the city Friday night, was called away early Saturday morning on account of the sudden death of his grandfather.

Accident to G.T.R. on Saturday

The G.T.R. train due here at 11.45 a.m. came to grief at Omemee, and as a result did not reach here.

According to the statement of the railway officials here, some repairs were being made to the main line at Omemee, and the siding was being used for traffic. Just as the engine was going on to the siding, it jumped the rails, taking with it the tender and the baggage coach, all being dumped into the ditch.

The engineer, Peter McCloskey, and Albert Bishop, the fireman, were both injured. They were brought to the Nicholls Hospital, where they are both reported to be doing well, their injuries being more or less of a nature.

The passenger coaches remained on the rails, and their occupants, beyond a shaking up, received no injuries.

The Lakefield train was despatched to the scene of the wreck to convey the passengers and mail to the city.

Large Market on Saturday

Owing to the good sleighing, Saturday's market was unusually crowded. The sleighing in the country is splendid, and scores of farmers drove into town with their produce.

Prices did not show much change from those ruling the preceding week. Turkeys sold at $1.50 to $2.25 each, according to size, geese changed hands at 90c to $1.25 each, ducks were quoted at $1.25 to $1.50 per pair and chickens changed hands at 70c. to 80c. per pair.

Eggs were scarce and in good demand at 25c. to 30c. per doz.

Potatoes ranged from 90c. to $1.00 per bag and sold readily. Other vegetables were unchanged.

Education Board Meets Tonight

The Board of Education will meet tonight, to wind up this season's business as will be the last meeting of the present Board.

Among other matters to come before the meeting will be the report of the committee appointed to investigate the public school curriculum, with a view to making changes that would prove beneficial. Mr. Pringle as chairman of the committee, and it is understood that he had an important report to present.

Prepares for Business at Eighty-two

On Saturday morning one of Peterborough's most hustling business men, who daily himself manufacturers and sells the product of his industry, placed a handsome new delivery rig in service.

The manufacturer we refer to is Mr. William Croft the ginger beer manufacturer, who is a youth of over eighty years, or to be exact was eighty-two years of age last Tuesday. We would like to find another town or city where a man two years past the eighty mark, but only does a strenuous day's work six times a week, but who has put into commission a new outfit preparatory to future years of work.

Mr. Howson, Sec'y. of Lock Works.

Mr E. Howson, of this city, has been appointed in succession to Mr Frank Adams, as secretary of the Peterborough Lock Manufacturing Company, and will commence his duties today. Mr. Howson is a young man of energy and application, and was for a couple of years in the office of the company, before accepting a position with Mr. W. H. Hill.

Trust to Nature.

A great many Americans, both men and women, are thin, pale and puny, with poor circulation, because they have ill-treated their stomachs by hasty eating or too much eating, by consuming alcoholic beverages, or by too close confinement to home, office or factory, and in consequence the stomach must be treated in a natural way before they can rectify their earlier mistakes. The muscles in many such people, in fact in every weary, thin and thin-blooded person, do their work with great difficulty. As a result fatigue comes early, is extreme and lasts long. The demand for nutritive aid is ahead of the supply. To insure perfect health every tissue, bone, nerve and muscle should take from the blood certain materials and return to it certain others. It is necessary to prepare the stomach for the work of taking up from the food what is necessary to make pure, rich, red blood. We must go to Nature for the remedy. There were certain roots known to the Indians of this country before the advent of the white man, which later came to the knowledge of the settlers and which are now growing rapidly in professional favor for the cure of obstinate stomach and liver troubles. These are found to be safe and positive in their cleansing and invigorating effect upon the stomach, liver and blood. These are: Golden Seal root, Queen's root, Stone root, Bloodroot, Mandrake root. Then there is Black Cherry bark. The medicinal principles residing in these native roots when extracted with glycerine as a solvent make the most reliable and efficient stomach tonic and liver invigorator, when combined in just the right proportions, as in Dr. Pierce's Golden Medical Discovery. When there is bankrupt vitality—such as results from exhaustion, bad nutrition—and poor blood, the body acquires vigor and the nerves, blood and all the tissues feel the favorable effect of this sovereign remedy.

Although some physicians have been aware of the high medicinal value of the above mentioned plants, yet few have used pure glycerine as a solvent and usually the doctors' prescriptions called for the ingredients in varying amounts, with alcohol.

The "Golden Medical Discovery" is a scientific preparation compounded of the glyceric extracts of the above mentioned vegetable ingredients and contains no alcohol or harmful habit-forming drugs.

POLICE NEWS

Daily Happenings in Court Room and Station.

On Saturday morning a poorly clad boy, 14 years of age, was charged, before County Magistrate Geo. Edmison, charged with the heinous crime of Arson.

It was alleged that he in company with his brother who is some three or four years younger, set fire to a haystack belonging to W. Teal, of Cordova, some two weeks ago.

Mr. Cochrane who arrested him, relates that the family are in a pitiful condition. The boy brought to Peterborough, was the only person whom the mother had to cut the wood and do the chores, his little brother, jointly accused with him, being so ill that the constable left him at his home.

The young prisoner was taken to the Shelter on Friday night and fitted out with underclothing and an overcoat by Mr. Henry. He pleaded not guilty to the charge. The magistrate remanded him and the trial will come off as soon as possible at Havelock. The little fellow was given his liberty by the Magistrate on promising to appear in Havelock when ever called upon.

INVESTORS! SPECULATORS!

While the Mining craze is raging let us call your attention to an INDUSTRIAL STOCK which can be purchased at an advance OF $10.00 PER SHARE in the next 60 days, and, if you wish to participate in this ADVANCE, also one of a R. R. Stock on which there is to be a dividend declared, WIRE US AT ONCE.

The Industrial referred to is that of a large Paper Company, organized for the manufacture of paper from Straw, which is going to REVOLUTIONIZE THE PAPER INDUSTRY of the Country, and this being foretold by the Trust and other well known interests, they have sought to gain control of this Company which is being consolidated into one GIGANTIC ENTERPRISE, and its stock, now selling at $1.75 to $2.00, WILL ADVANCE TO $10.00 TO $15.00 per share in the next FEW DAYS. There is no gamble in this investment, for the new concern has assets of $7,000,000 and the capitalization is only $10,000,000. For a QUICK, PROFITABLE turn we know of nothing better, as some of the insiders in Wall Street are the largest investors in this stock.

Write us immediately, when we will give full particulars regarding Company, but will state in advance that to get the full benefits of this advance it is necessary to ACT QUICKLY. Remember that the stock is only $2.00 now; get in before the combine goes into effect.

MR. JAMES STEVENSON'S SERVICES RECOGNIZED

Member of Local Board of Education Honored Last Night

PORTRAIT WAS PRESENTED

Curriculum for Schools Considered and Suggestions Made.

Last night the Board of Education held their inaugural meeting for the year with Chairman [illegible] presiding. There were present, besides Hayes, Hall, Fair, Bright, Ackerman, Dr. Morrison, Crimo, Dr. Burnham and Hamilton.

The minutes of the preceding meeting were read and confirmed.

A communication was read from Mr. Herbert A. Neal, asking that for the purpose the Board schools be asked to raise a substantial donation for erecting a suitable memorial to the late memory of A. E. Neal, who fought for his country, and who wrote "Ah, Maple Leaf," but death prevented him from writing more. The request was referred to the trustees.

Dr. Burnham moved that this matter be left in the hands of the special and the Separate committee.

The following accounts were ordered paid on confirmation of the reports of the several committees:

L. & P. Co.	5.00
[illegible]	1.50
P. Lumley Co.	3.27
P. Wain Co's	13.76
G. Gray	2.00
R. Hutchison Co.	6.85
R. J. Hamilton	9.65
Peterboro	38.25
[illegible]	1.00
Mrs. Preston, scrub.	13.50
Miss Merrick, scrub.	2.25

Mr. Crimo, chairman of the Property Committee, reported that they had repaired the house roof on Charlotte street, the cost of the work being $62.5 this work was considered necessary [illegible] of the proposed enlargement [illegible] Ward. We recommend that the [illegible] be asked to make a [illegible] on the work, that the work [illegible] Carried.

Mr. Prince brought up the question of nuisance on the south road [illegible] was shown that there was $10,000 on the building. This matter was referred back for future consideration.

The following accounts were ordered paid.

St. Gregor & Reid	$150.00
Jas. Boggs	165.00
Geo. Barrett	1.50
Morning Co.	8.50
W. J. Cooper	3.00
St. Gregor & Reid	7,10.00
Rutherford Bros.	300.00
W. Langford	150.00

Mr. Hall, chairman of the Committee on Appointments, moved that Mr. S. J. Stubbs, M.A., of Smiths Falls, be appointed English master at the Collegiate Institute at an salary of $1100, to begin on Jan. 3rd. That Miss M. Hallett of Orillia, succeed Miss Outton at $375 to begin with.

Mr. Prince, chairman of the committee to enquire into the public school curriculum recommended that the inspector once more call attention of the teachers to the instructions which he appears to have given, being assured that if such are faithfully carried out there would be little complaint. The committee recommended that as soon as possible this Board introduce manual training, domestic science, music and physical training into our public schools.

The account of Mr. Beleghem was ordered paid on confirmation as the goods had been supplied for some time.—Carried.

At this juncture, Mr. James Stevenson, for many years chairman and for fifty-five years a member of the Board of Education, by previously extended invitation, entered the Board room and was greeted with hearty applause.

Chairman Ferguson, after the usual courtesy given greetings, had been extended, read an address, which had been beautifully inscribed in most conspicuous manner at the Peterborough Business College. The address, on parchment paper, contained a [illegible] of Mr. Stevenson, was introduced by a few appropriate words, and with [illegible] by many a hearty cheer like the cordial [illegible] was [illegible] Stevenson, [illegible] Board of Education.

"Dear [illegible],—We could [illegible] with other colleagues as the years [illegible] education, take [illegible] to [illegible] the [illegible] to [illegible] and [illegible] opportunity of expressing to you our [illegible] for you many [illegible] Queen as a citizen, and [illegible] regard for you as a [illegible] in the [illegible] community.

"As a citizen of Peterborough, you have always taken a great [illegible] to contribute to the public good, and as a man you have ever been among the foremost in every consideration for the unfortunate.

"But it is more especially of your services as a member of the Board of Education that we desire to speak on this evening. Your long connection with the Board, a connection extending over a period of 55 years, is we believe unprecedented, and we feel that such lengthened and [illegible] services should receive some suitable mark of recognition.

"We therefore take this opportunity of asking your permission for your portrait to be hung up in the Board room, so that your fellow citizens are likely to forget the pleasant associations of the past, but that our successors may know that we did not altogether disregard public spirit among our citizens.

"That you may be long spared to your family and your friends is our earnest prayer.

(Signed)
WILLIAM FERGUSON,
Chairman.
W. G. SCORROW,
Secretary.

Peterborough, Dec. 10th, 06.

Dr. Burnham then made the presentation of the address.

Mr. Hamilton said he had been a colleague of Mr. Stevenson for many years and although they had not always agreed, Mr. Stevenson had always done what he could for Peterborough. He moved a vote of thanks to Mr. Stevenson for his most public-spirited gift to any citizen in Peterborough. No man in Peterborough has done so much for public affairs in Peterborough. During Mr. Stevenson's terms at Ottawa he used to bring with him maps and pictures. He had to thank Mr. Stevenson for his warm-heartedness both towards the public and the Board. He was pleased to be given the opportunity of presenting Mr. Stevenson with a token of our esteem.

Mr. Stevenson, in response, said he did not know how to thank the donors. He had tried to do his part in educational matters in this city. He has been connected with educational matters since the original log schoolhouse was replaced by a more modern structure. He then, for a man of his mature years, made a concise and humorous address, reviewing the years gone by and the trials of the school Board. He noted that several citizens had asked him to run for member of the Board again, but his deafness had decided him not to take part in any public affairs again. He had the kindest feelings towards the Board and thanked them most sincerely for their kindly remembrance.

It was decided to have the illuminated address to Mr. Stevenson suitably framed before presenting it finally.

After some comparatively unimportant matters were considered the Board adjourned.

A FRIEND'S ADVICE

Something Worth Listening To.

A young New Brunswick man was advised by a friend to eat Grape-Nuts because he was all run down from a spell of fever. He tells the story:

"Last spring I had an attack of fever that left me in a very weak condition. I had to quit work; had no appetite, was nervous and discouraged.

"A friend advised me to eat Grape-Nuts, but I paid no attention to him and kept getting worse in this way [illegible]

"I took many kinds of medicine but none of them seemed to help me. My system was completely run down, my blood got out of order from want of proper food, and was very sick. I broke out on my neck and was weak I could hardly walk.

"One day my wife ordered some Grape-Nuts and induced me to eat some. I felt better and that night rested fine. As I continued to eat the food every day, I grew stronger steadily and now have regained my former good health. I would not be without Grape-Nuts as I believe it is the most healthgiving food in the world." Name given by Postum Co., Battle Creek, Mich. Read the book "The Road to Wellville," in pkgs. "There's a reason."

Mrs. Thompson's Hands Frozen

An old lady, 82 years of age, by name Mrs. W. Thompson, a resident of the east end may possibly lose both of her hands as a result of frost.

It seems that Mrs. Wm. Thompson, who lives with her daughter-in-law west out of the house for a few minutes, and o the house for a minutes, and, during her absence, Mrs. Thompson went outdoors and fell in the snow. Before anyone could come to her assistance both hands were frozen to the wrists. Some children passing called some Indians who used their hands thawed out, and did their best to relieve her sufferings until a doctor could be procured.

Mrs. Thompson may possibly retain the use of her hands but the old lady has had a severe shock.

Falls From 14th Floor is Caught at the 11th

Window Cleaner on New York Skyscraper Has Remarkable Escape From Death.

New York, Dec. 9.—Herman Spellen, a window cleaner, had a remarkable escape from instant death yesterday.

He was standing on a window ledge of the 14th floor of the Mutual Life Building on Liberty street, when he lost his balance and fell backward. He turned a complete somersault in the air and landed on a projection three storeys below.

Some men who were working in the hallway on the 11th floor saw Spellen strike the ledge and they opened the window and hauled him to safety before he could roll off into the shaft.

He was taken to a hospital suffering from a fracture of the skull.

—The Owls' Society held a weekly meeting last night.

Twenty-four years ago, Otonabee Lodge, No. 13, I.O.O.F., was resuscitated. Messrs. W. F. Green of 223 Water street, and D. Beleghem, Hunter street, are the only members of that order, initiated that night, who still live in Peterborough, and are members of the Order.

STR. MONARCH A COMPLETE WRECK

Passengers and Crew Were Saved and Will Be Taken to Fort William

BOAT WAS WORTH $85,000

Belonged to the Northern Navigation Company Whose Steamer "Ionic" is Also in Trouble.

Toronto, Dec. 11.—The following despatch was received yesterday by H. C. Hammond, president of the Northern Navigation Company, from H. H. Gildersleeve, general manager of the company, who is at Fort William:

Captain McMaster of steamer Edmonton reported Monarch total wreck; only pilot house out of water now, at east end of Isle Royale, about three miles from Passenger Island. Passengers and crews, forty all, on Saturday, reported safe on small island near wreck. Tugs Whalen and Grace gone to relief at seven o'clock this morning; if weather is quiet, they should be back by ten tonight. Fully insured. Please wire Collins, wood and Garnis, Huronic expected to leave tomorrow. Weather turning milder.

ALL ARE SAFE.

Sarnia, Dec. 11.—The steamer Monarch is reported from Port Arthur by Capt McMaster of the steamer Edmonton, to be sunk in fifty feet of water at the east end of Isle Royale, three miles from Passage Island, with only the pilot house showing out of the water.

The passengers and crew, forty souls in all, are safe on a small island adjoining. The tug Whalen has gone out from Port Arthur, and will return with passengers tonight. The Monarch is in command of Capt. Edward Robertson, of Sarnia, one of the best navigators on the lakes. The crew comprises Capt. Edward Robertson, 1st mate, Dan McLaughlin, Parkhill; second mate, Wm. McCallum, Watersmeet; third mate, Malcolm McMurray, Barrow; first engineer, Sumner Beatty, Collingwood; second engineer, David Myers, Collingwood; cabin waiter, John Skinner, Toronto; purser, Reginald Drummond, Bracebridge; stewards, Wm. Hunter, Brockville; head waiter, Stephen Parker; stewardess, Miss Jay McCormick, Watford; firemen, W. Hamilton of Collingwood, and others.

The wrecked boat left Fort Wyllam with the following cargo at four o'clock on Saturday, 3,000 No. 1 northern wheat, one car mess of pork, one car oats for Goderich, one car flour for Goderich, about car of sundries for Sarnia, one car of sundries for Bonfield, and some flour for the Soo. Outside.

The Monarch was one of the most handsome boats on the lake. It is a wooden boat, and has never been in any important accident. Her captain has a fine reputation as a careful navigator.

SOME MAY HAVE PERISHED.

Port William, Dec. 11.—Tugs left here yesterday, with provisions and doctors, to rescue the survivors of the steamer Monarch. There is no shelter on the island, and it is feared that some of the survivors may have perished from exposure.

POLICE NEWS

Daily Happenings in Court Room and Station.

Yesterday morning the members of the Tired and Weary Club were out in good force to enjoy the non-cuttable atmosphere of the police court, and witness the trial of three youths charged with unlawfully loitering on George street contrary to the law. Magistrate Dumble said that this custom was all too common among a large number of young men, and the only way to wipe out the habit is to adopt severe measures.

The boys were fined $2 each, to be paid in ten days, or the equivalent stoppage at Castle Neabitt.

The Italian colony at Lakefield on Sunday night had a row, as is usual in quarrels between the sons of Sunny Italy, the knife was fourished, Drink was on the cause of the trouble. The offender of the law has been arrested, and he will appear this week before the county magistrate.

On Sunday while at work at the Cement Company's establishment, the arrested man, Dominico Tamboni, and Gamelo D'Elio began quarreling over something, the latter has aided his fellow workman.

Tamboni struck the other with an iron bar on the head, knocking him down and inflicting a deep gash. The foreman then noticed the quarrel and stopped it as soon as it began. Tamboni instantly drew a knife on Dom. Colasanto. Wm. Downie was summoned and the Italian was arrested. The other is expected to Magistrate Edmison to go to trial yesterday morning, as an interpreter could be found and the prisoner was brought to the city and appeared before the magistrate. Mr. Monoco, Q. Hunter street, acted as interpreter.

After hearing the story, the magistrate laid a charge of assault, causing bodily harm, against Tamboni, and he will come up for trial here on Thursday morning at 11 o'clock, when a large number of witnesses will be present.

Yesterday afternoon P. C. Adams gathered in a Englishman hailing from Lakefield, who by the time the goes to press is looking for coal room prisoner for his head and vaseline ointment so that he may doctor his head gear, as a result of his supposed struggle. European blood being too much stimulated by too frequent internal application of Canadian extract of rye or corn. He will explain matters to the "beak" this morning.

Mr. John Whyte Was Laid to Rest

Many expressions of heart-felt sympathy were heard when it became known that Mr. John Whyte, a former local manufacturer had passed away in Campbellford. The late Mr. Whyte was 82 years of age, and was born at Dumblane, Scotland. Mr. Whyte came to Canada in 1849 and settled in Peterborough in 1853.

For many years the deceased was a partner of the late Mr. Wilson Hamilton. Mr. Whyte retired from the partnership after some years through the requirements of his health. He afterwards conducted a foundry business with his brother, the late Mr. J. A. Whyte, Sr., the business now carried on by Mr. C. Walter Green.

[illegible] ago, Mr. Whyte removed to Campbellford where he and his brother carried on a large and lucrative business. About three years ago, Mr. Whyte disposed of his business in Campbellford and retired. He has since been living in Campbellford, Peterborough and Toronto.

Mr. Whyte was a staunch supporter of the Presbyterian church and a member of St. Paul's church, during his residency. His wife predeceased him by some 25 years.

Mr. Whyte leaves to mourn his loss three sisters, Mrs. Jas. Rutherford, of Grand Forks, North Dakota, Miss Ross, of North Dakota, and Miss Christina Munroe, Hunter street, and two sons, John Cameron, Thos. Tucker and Wm. Hamilton.

Large Lizards Were Let Loose

Yesterday quite a little ceremony was enacted at the creek at Charlotte street when Messrs. W. Snowdon and M. O. Tooley, with due ceremony, released the two of a huge lizards to escape and allowed two huge lizards to escape and make their homes anew in the creek that passes through the center of the city.

These lizards, measuring about 12 inches in length were captured in Lake Erie, and were sent by a friend to Mr. David Johnston the efficient game inspector.

Not only is the size of these lizards remarkable, but their construction is well worth note. These amphibious reptiles, some 12 inches long, have a bright red fringe just back of the head, which latter is singularly like that of a dog. They are spotted with yellow and red marks like a brook trout, and in fact owing to their size dubbed, by the many who saw them, "Elephant trout."

It is now up to those who make a habit of imbibing more than libration would allow should they see these lizards or their progeny, not to go "batty," or commit suicide thinking they have got the "D. T.s." The lizards are in the city and will probably survive the winter months.

Plate Glass Broken on George Street

Yesterday the large plate glass door to the north of Messrs. Geo. Matthews & Company's entrance to their lower George street store, was filled temporarily with boards. It seems that on Saturday night a pedestrian on George street made a misstep. He was entering the store above noted, when he tripped and fell against the large plate glass skylight window. The glass was totally destroyed, much of it being scattered around the floor. The damage, it is understood, was covered by insurance, and will soon be repaired.

THREE CHILDREN PERISH IN FIRE AT TORONTO

George, Edith and Marjory Aged 6, 4, and 2 Yrs. Respectively

THEIR HOME IN RUINS

Father and Mother, Mr. and Mrs. G. Baker, Frantic With Grief

Toronto, Dec. 11.—His three children burned to death, and the home in which he has labored for two years a total wreck by fire, George Baker of Kew Beach, mourned in frantic grief in a neighboring home at noon yesterday.

In another house nearby the wife and mother, bereft of her whole progeny, was crazed with the anguish of her sorrow. Three times she arose to break from the house to go to the place where her loved ones were lying cold in death, and as many times was restrained by the hands of those who feared the consequences should she see the charred bodies of the little ones.

WHEN THE FIREMEN CAME

At 11.20 yesterday morning a fire alarm was sent in to the Kew Beach station by a little boy who saw flames issuing from No. 3 Butler avenue. The brigade responded promptly, but when the back door of the house was opened the flames burst forth, and it was evident that the place was a furnace. It was a small two-storey frame house worth about one thousand dollars. Three hundred dollars' worth of furniture was also a total loss. But, worst of all, the firemen knew that three little children were somewhere in the midst of the flames.

FOUND THE BODIES.

Captain Dainton of Kew Beach passed a ladder into the house and entered an upper window. In one of the bedrooms on the first floor he came upon the little bodies of Georgie, aged 6, and Edith, aged 4, lying side by side, on the floor. In another room, on a bed, in a corner, the third, little Marjory, aged 2, was found. Death, however, had claimed the little victim before the firemen had reached them.

DOOR WAS LOCKED.

The latter discovered that the door of the room in which the children were sleeping was locked. Evidently the little ones, in some way, had locked the door on leaving the bedroom.

Mrs. Harper, the next-door neighbor, into whose house the bodies of the children were carried, said that she was taking to her baker, John Davis.

"Oh, there's smoke from Baker's," he said. "I wonder if the house is on fire?"

"We both ran around to the back," said Mrs. Harper, "as the front door was locked. Mr. Davis called for an axe.

A SCREAM FOR MOTHER.

"I heard one just one scream from one of the children, "O mamma," and then the firemen came. I didn't know that Mrs. Baker was out, although I knew that Mrs. White, 64 Kippendavie avenue, who was sick, had sent for her."

The bereaved father, an employee at Williams' mill, is known as a careful and conscientious workman, with ambitions to have a house of his own. For the past two years he has labored at the house which has now been destroyed, building it with his own hands at nights and in spare moments. His wife, who was absent on an errand of mercy to the sick when the fire took place, was a general favorite.

Just how the blaze started she cannot explain. The children may have done something to cause a fire down stairs, and then have run upstairs in fright.

THE FATHER'S GRIEF.

When Baker came up and saw his house in ruins, and learned of the death of his three children, he was overcome with grief. Feeling in his pocket, he brought forth forth a small pen-knife, with which he attempted to cut his throat. William Raine and John McIlveen of Kenilworth avenue, forcibly restrained him from injuring himself. He was then taken into a neighbor's house where friends called to his welfare.

Dan. Belleghem Will Have Care of Ambulance

The Committee so Decided Last Night -Recommended that Mr Comstock Have Contract Next Year.

The Fire, Water and Gas Committee met last night when there were present, Chairman A. E. Johnston, and Aldermen Elliott, Graham, Hall, Massie and Dunn.

It was decided that the committee meet at the new fire hall to decide whether the four stalls at the south end be finished now or not.

A. E. Graham moved, seconded by Alderman Dunn, that the contract for the new fire hall be awarded to [illegible] for the sum of $620, but that the specifications be amended that no iron stalls be put in, and that the floor be made of cement. The committee decided that Mr [illegible] should be asked to [illegible] the [illegible] and [illegible] the [illegible] and [illegible] the [illegible] and

HOW CONSUMPTION STARTS

Tired When You Waken—Languid All Day—Nerves Worn Out—Snap All Gone.

Your limbs feel "draggy" and excessively weak. A night's sleep seldom brings satisfying rest. Continuous headaches, exhaustion and nervous sensations destroy your health. Soon every spark of vitality is used up Then you catch tuberculosis.

Start today. Build up, get new nerve force, and overcome this process of decay. Use Ferrozone, which physicians consider the most vitalizing, uplifting tonic ever made.

Ferrozone cures because it can furnish the body with sufficient nutriment and building material.

Think of the instant effect—at once the appetite increases, delightful color in the cheeks proves that rich, red blood is being circulated. Tired muscles are invigorated, flesh and weight are added. Nerve force develops, End bounding, joyous health is firmly established.

This is certain—Ferrozone restores failing strength from any cause. The experience of Mr. Thos Dowd, of Schreiber, Ont., proves this.

"Household worries and cares had about exhausted my strength. I was weak and miserable. My cheeks lacked the color of health, and occasionally I had spells of rheumatism. Then my appetite fell off, and nothing could tempt me to eat. Worn-out feelings, chills and despondency filled my very being. I became anaemic and dwindled down to a shadow. Consumption was very near. Ferrozone put strength in my body with a rush. It built me up, strong, virile and happy, and I have been well ever since."

Ferrozone cures sickness by curing the real cause—lack of blood and nerve tone. It keeps people at their best—fit, ready and anxious for work. In 50c. boxes only, six for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

TIMES PRINTING COMPANY,
Publishers and Proprietors,

UNION LABEL

PETERBOROUGH, DECEMBER 11 1906

COUNTY COUNCIL ACT

In and for the year 1907, and thereafter, the council of every county or union of counties in the province shall be constituted as follows: Every town not separated from the county for municipal purposes and every township and village shall be represented in such council by the reeve of such town, township or village municipality, and in addition to the reeve, by a deputy reeve or reeves as follows: If the municipality have the names of more than 1,000 and not more than 2,000 persons on the last revised voters' list of the municipality as qualified to vote at the municipal elections, then by a first deputy reeve; if the municipality have more than 2,000 and not more than 3,000 such names on the list, then by a first deputy reeve, a second deputy reeve and a third deputy reeve. Such reeves and deputy reeves shall be elected by general vote in the manner provided by the Consolidated Municipal Act of 1903, for the election of mayors of towns and reeves and councillors in villages and townships, and they shall be members of the council of the municipality in which they were elected. In counting the names of voters of voters referred to in the preceding subsection the names of the same person shall not be counted more than once, whether the name of such person appears on the voters' only once or more than once. The foregoing is a synopsis of the County Council Act which comes into force the first of next year and upon which the action will be held. This change in the act will have the effect of preventing a majority of the present members of the county council being returned and next year's council will practically be composed of new and untried men. The very best men in each municipality in the county should be chosen and every legitimate effort made to elect them.

Boys Got Nickels.

Port Arthur, Dec. 10.—There was an unusual scene the other night, when Port Arthur lost street car No. 18 by fire. The car took fire on Cumberland street, and was a total loss, though the brigade was on hand promptly. Several of the nearby hydrants were frozen. Conductor Richardson went to procure water to put out the blaze he left his cash box containing the day's receipts, amounting to about $25, in the car. Some boys got onto this, and they soon had the box out of the car and smashed open, and for some time they scrambled around in the snow gathering the nickels.

Will Naturalize the Japs in the States

Washington, Dec. 10.—Favorable action by Congress on the recommendation of the President in his annual message that an Act be passed specifically providing for the naturalization of Japanese who come to the United States intending to become American citizens, will go far to secure a continuance of friendly relations between the United States and Japan, in the opinion of Viscount Aoki, the Japanese Ambassador. "Of course," said Viscount Aoki, "no nation likes to see its subjects leave to take up a permanent abode in a foreign land and lose all relations with the fatherland, but in many cases it cannot be helped."

The ambassador expressed the belief that there were not so many Japanese in this country to take advantage of naturalization if it were granted, but he thought that such an opportunity should be afforded upon along with the citizens of other countries. He said he did not think it probable that those Japanese who were emigrating in large numbers to Hawaii and the Pacific Coast would avail themselves of naturalization because of the fact that they [illegible] to return to Japan. Viscount Aoki said he had received no information in the outcome of the test case which will be brought in the California courts.

FRIENDSHIP

Practical Suggestions That Women Should Take to Heart.

Never let a question of money arise if you wish to have your friendship live. Ask consideration, ask mental help, but do everything that is possible. Economize in every way that you can before asking money from your friend.

You will find that if you ask your friends for money, though the money itself may have been given cheerfully, willingly, that something is lost, the joy is not just as it was.

Respect your friend's religion. Your knowledge is not so great that you can say that you alone are right, and if your friend is good and sweet and kind and sympathetic, why should you wish to change the sect of the church she attends?

Consider the weaknesses of your friend. Remember her life's story as you know it, her surroundings and the story of her soul as you read it, and be sympathetic and bear patiently with her as only a real friend can.

Always credit her with doing the best that she can, and if you do not quite understand something give her the benefit of a doubt and think that in the beginning she started with the intention of doing something kindly to you.

Constant consideration is the secret of friendship.

KITCHEN HELPS.

When finely chopped nuts are needed for salads or sandwiches run the nuts through the meat chopper.

Plenty of shelves and drawers or a patent kitchen cabinet are great helps in the woman whose time is spent in cooking.

Select a dozen or so of the smoothest and largest splints from the new broom and lay them away to use in testing cake when it is baking.

Every kitchen outfit should have a measuring glass that is marked to measure teaspoonfuls, tablespoonfuls and gills as well as halves, thirds and quarters.

A heavy chalk mark laid a finger's distance from the sugar box and all around (there must be no space not covered) will surely prevent ants from troubling.

Bind with table oilcloth the pieces of carpet used on the kitchen floor. The oilcloth will wear three times as long as binding. Cut in one and one-half inch strips, stitch on the machine with longest stitch, turn over and stitch again.

How's This?

50,000 SHARES

OF A

RICH GOLD MINE

IN NEW ONTARIO ALLOTED TO PETERBORO

The undersigned has secured an allotment of 50,000 shares of a rich gold mine in New Ontario. The mine promises to be one of the richest in the Country, and adjoins the great Bloom Mine, which is estimated to be worth over $25,000,000. This stock has par value of $1.00 and will be sold for 50c. a share for the next 30 days. It probably will be worth many times its present value in a short time. Now is the time to invest. There is no risk—it is a sure thing Money needed for developement. For further particulars apply to

THOS. PATTERSON & CO.
BROKERS,
161 SIMCOE STREET PETERBORO.

9,600 FEET

Sixty six mining claims.
A crosscut tunnel now in 4,000 feet.
5,600 feet of drifts, shafts and laterals.
A complete 750 h.p turbine electric power plant.
Numerous Veins exposed.
A big industrial and Mining Proposition Combined.
A Strong Directorate.

This is real mining.

The Palmer Mountain Tunnel and Power Company has 66 lode mining claims back of it on Palmer Mountain, near the Town of Loomis, Okanogan County, Washington—about 13 miles south of the boundary of British Columbia. A new railway line is nearly completed and will run within 12 miles of the property. Steamers ply on the Okanogan River to within 24 miles of our properties. There is water—not only for mining purposes, but with unlimited possibilities for power generation. There is timber, there are large, well defined veins proved at great depth—and there is development enough done to make this one of the biggest and best mining propositions in the country.

INTERIOR OF TUNNEL

We can do more with $10 ore on our properties than the desert miners can do with $40 or even higher grade ore. We can make money because we have the FACILITIES on our ground. Our ore can be mined, milled, cyanided and bullion produced for not exceeding $2.50 a ton.

Our immence crosscut bore—a picture of which we show herewith—is now in 4,000 feet, is 9 by 9 in the clear (as large as any of the big transportation and drainage tunnels), and is well timbered, equipped with track, ore cars and everything else essential. In the picture shown herewith, the large pipe running at the top of the right side of the tunnel, is for ventilation purposes and connects with a large, powerful blower.

Recent development on the mountain proves that we shall open up at tunnel level (3,500 feet beneath the surface) an enormous body of copper ore.

We have opened up much $10 ore, and we have a higher grade running up to $50 a ton. This is where the big profit comes from. In the nearly TWO MILES OF WORKINGS we have all the facilities for handling a very large production. Back of it all we have a capable mining and business management. We should be very glad to tell you the complete story. We can only hint at it here.

great surge of happiness that swept every checker off the board and left the two with flushed faces. Then, as Mrs. Vaughn was coming downstairs, the checkers began to rattle into position.

"I won," said he as the door opened.

"But he didn't play fair," said Polly. "Children, I'm afraid you're playing more love than checkers," said the widow. "You're both too young to think of marriage."

Those two looked thunderstruck and

"It's your move," said she.

checkerboard, Polly's chin resting on her hand. She had begun to smile.

"I'm sure Mr. Trove has no such thought in his head," said she, still looking at the board.

"Your mother is right. We're both very young," said Trove.

"I believe you're afraid of her," said Polly, looking up at him with a smile.

"I'm only thinking of your welfare," said Mrs. Vaughn gently. "Young love should be stored away, and if it keeps, why, then it's all right."

"Like preserves!" said Polly soberly, as if she were not able to see the point.

Against the protest of Polly and her mother Trove went to sweep in the sugar shanty, a quarter of a mile or so back in the woods. On his first trip with the drove he had developed fondness for sleeping out of doors. The shanty was a rude structure of logs with an open front. Tunk went ahead, bearing a pine torch, while Trove followed, the blanket over his shoulder.

CHAPTER XXI.

WHEN Trove woke in the morning a package covered with white paper lay on the blanket near his hand. He rose and picked it up and saw his own name in a strange handwriting on the wrapper. He turned it, looking curiously at seal and superscription. Tearing it open, he found to his great surprise a brief note and a roll of money. "Herein is a gift for Mr. Sidney Trove," said the note. "The gift is from a friend unknown, who prays God that wisdom may go with it, so it prove a blessing to both."

Trove counted the money carefully. There were $3,000 in bank bills. He sat a moment thinking; then he rose and began searching for tracks around the shanty. He found none, however, in the dead leaves which he could distinguish from those of Tunk and himself.

"It must be from my father," said he—a thought that troubled him deeply, for it seemed to bring ill news—that his father would never make himself known.

"He must have seen me last night," Trove went on. "He must even have been near me—so near he could have touched me with his hand. If I had only wakened!"

He put the money in his pocket and made ready to go. He would leave at once in quest of Darrel and take counsel of him. It was early, and he could see the first light of the sun high in the tall towers of hemlock. The forest rang with bird songs. He went to the brook near by and drank of its clear, cold water and bathed in it. Then he walked slowly to Robin's Inn, where Mrs. Vaughn had begun building a fire. She observed the troubled look in his face, but said nothing of it then. Trove greeted her and went to the stable to feed his mare.

Then he went in to breakfast. An hour later he bade them all goodby and set out for Allen's. A new fear began to weigh upon him as he traveled. Was this a part of that evil scheme, and had his father begun now to scatter what he had never any right to touch? Whoever brought him that big roll of money had robbed him of his peace. Even his ribs, against which it chafed as he rode along, began to feel sore. Home at last, he put up the mare and went to tell his mother that he must be off for Hillsborough.

"My son," said she, her arms about his neck, "our eyes are growing dim and for a long time have seen little of you."

"And I feel the loss," Trove answered. "I have things to do there and shall return tonight."

"You look troubled," was her answer. "Poor boy! I pray God to keep you unspotted of the world." She was ever fearing unhappy news of the mystery—that something evil would come out of it.

As Trove rode away he took account of all he owed those good people who had been mother and father to him. What a pleasure it would give him to lay that goodly sum in the lap of his mother and bid her spend it with no thought of economy.

The mare knew him as one may know a brother. There was in her manner some subtle understanding of his mood. Her master saw it in the poise of her head, in the shift of her

STRICTURE AND KIDNEY DISEASE CURED.

G. E. WRIGHT.

"I had stricture for eleven years. It finally brought on Bright's Disease of the Kidneys. I had an uncomfortable shooting pain in the groin and feeling as though something was in the urethra. My back was weak and I could scarcely stoop over. Urine was full of sediment. Had a desire to urinate frequently. Family doctors, so-called specialists, patent medicines, electric belts, all failed. I was discouraged. I had spent hundreds of dollars in vain. Finally I consulted Drs. Kennedy & Kergan as the last resort. I had heard a great deal about them and concluded from the fact that they had been established over 25 years that they understood their business. I am delighted with the results. In one week I felt better and in a few weeks was entirely cured. Have gained sixteen pounds in weight."

G. E. WRIGHT, Lansing.

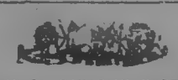
Lax-ets 5 Cents A Candy Bowel Laxative



SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Land in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quarts.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 15 0x1500 feet. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,

Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

ADVERTISE IN THE TIMES.

Are You Often Bilious?

Read This and Learn How to Prevent Attacks.

Biliousness is merely a term applied to a condition that exists when the body is over-loaded with bile.

The complexion turns yellow, eyes look dull, pimples, itching and eczema break out, headaches are ever present.

Biliousness has two great causes, constipation and defective liver action.

When Dr. Hamilton's Pills are taken they not only correct the bowels, but act directly on the liver, regulating its true secretion.

Unlike ordinary medicines which purge and give temporary relief, Dr Hamilton's Pills remove the condition which causes biliousness; thus permanent cures are effected.

Dr. Hamilton's Pills do cure biliousness and liver ills under all circumstances.

We prove this by the statement of Mr. Fenwick Laddington, of New Harbor, N.S., who writes. "Three months ago I had no expectation of ever getting free from periodical bilious attacks. They were preceded by dizziness and dreadful headaches. If I stooped over my head would swim and a nauseous feeling crept into my stomach.

Dr. Hamilton's Pills fixed up my liver, drove all the bile out of my blood and made me a well man in a few months. Today I enjoy a good appetite, excellent digestion, and the best of health. Dr. Hamilton's Pills did it all."

Get Dr Hamilton's Pills today. Sold by all dealers: 25c per box or five boxes for $1.00. By mail from N. C. Polson & Co., Hartford, Conn, U.S.A., and Kingston, Ont.

St. John's Church Notes.

The Y.P.A. of St. John's church met last night as did the Girls Auxiliary. Today at 2.30 the Women's Auxiliary will hold its monthly meeting, and the Girls' Guild at eight o'clock The Brotherhood of St. Andrew will meet on Wednesday night.

Bessemer Ore to Be Shipped.

The Marmora Herald says; The spur line to Bessemer Iron Mine will be finished in a few days, when the shipment of a 200,000-ton contract will begin. A crusher is being installed to break the ore to the proper fineness for smelting. An air compressor will be installed.

Rev. H. H. Manning to Rest.

It is rumored that Rev. H. M. Manning, pastor of the Charlotte street Methodist church will be given six months' or a year's rest. He is suffering from a throat trouble which makes it impossible for him to preach or take charge of the work of the church, and his physician has ordered a complete rest.

Evangelistic Services Postponed.

The series of special evangelistic services which have been conducted in the Charlotte street Methodist church during the last few weeks have been closed for the present, the physical condition of the pastor making it impossible for him to continue the work. The meetings have been of an encouraging nature, and it is expected that as a result there will be a number of new members added to the church.

After the pastor is able to resume, his work a reception service for new members will be held.

LOCAL INCIDENTS

By The Times Man on the Street

—A meeting of the Charity Board met last night.

—The Fire, Water and Light Committee met last night.

—The local curling rinks will be only 12 feet wide this winter.

—Wednesday, at the Park street church, Mr. Wm. Bray will assist the pastor.

—W. Gillette, the murderer of Grace Brown, will sit in the electric chair on Jan. 23rd.

—Eight new members took the pledge at the meeting of St. Peter's T.A.S. on Sunday.

—The Board of Education held their wasding-up meeting last night. Particulars on front page.

—Rev. W. Major has concluded his powerful and interesting series of sermons to young men in All Saints' church.

—It is generally rumored that Alf Graham is to retire this year. It is the city loses an honest supporter of her, and her citizen's rights.

—There is a bunch of keys at the police station. Who owns them? There are a steel chain attached and a brass tag showing "225 P.O." inscribed thereon.

—Mr Peake, of Toronto, will address a public meeting of Dan Spence Council, Royal Templars of Temperance in the Foresters' Hall, George street, this evening.

—Speaking of the coming municipal elections, it is said that Aldermen Tovey, Johnston, Duncan, Elliott, Ball and McIntyre will all be in the race for office for next year.

—This evening a cottage prayer meeting, will be held in connection with Park street church work, at Mr. C. Laufman's Lake street, Deacon Culpen will assist the pastor.

—Today the regular meeting of the Peterborough Presbytery will be held in Port Hope, when some more than usually important matters will be under consideration by that body.

—The effects of the Midland Hotel, Lakefield, W. J. Leahy, proprietor, were sold yesterday by auction by Mr. Charles Stephenson, auctioneer. A number drove out from this city to attend the sale.

—Today the Sherbrooke Street Rubber Club will put in their time bowling over rubbers in Douro. This club includes men who like ginger beer to those who sell the usual accompaniments.

—The Sunday school anniversary of Mark street Methodist church will be observed on Sunday, December 23. Rev. James Dion, B.A., of Toronto, a former pastor, will preach both morning and evening.

—The annual meeting of the Children's Aid Society, will be held tomorrow afternoon at three o'clock, in the city council chamber. Reports will be presented and officers elected for the coming year.

—Mr. J. H. Gardiner, the local auctioneer, went to Port Hope, to make a valuation on real estate and timber sale for Mr. Anson Dunbar, of lots 21, con. 3, township of Hope. The timber includes maple, beech and cedar.

—The lakes were open on the 1st, but the cold snap on Saturday night after the wind storm calmed, did the trick, and on Sunday morning, December 2nd, the lakes were sheeted over with ice. This is an exceptionally late season.—Bobcaygeon Independence.

—Mr. P. Simon the tailor at No. 405 George street, yesterday had a handsome new sign placed in front of his store. The sign reads "B. & you go look in here, P. Simons & Co." The sign which is one of Messrs. J. J. Turner & Sons' masterpieces, is colored in delicate shades of green and gold, and presents a very attractive appearance.

St Paul's Church Notes.

Next Sunday morning, at St. Paul's church nominations will be received for six new elders of the church, the decision having been reached to add this number to those already holding office in that capacity. The pastor, Rev. Dr. Torrance will preach a special sermon on the subject "Duties of Eldership," which will be of special interest.

HAVE YOU CATARRH?

Breathe Hyomei and Get Relief and Cure. Sold Under Guarantee.

If you have catarrh, with offensive breath, burning pains in the throat, coughing, raising of mucous, difficulty in breathing, sneezing, hoarseness, discharge from the nose, pecking and dropping at the back of the throat, especially at night, coughing spasms, etc., begin the use of Hyomei at once.

Its inhaling connection will give relief in a few days and its continued use will completely drive all catarrhal germs from the system.

Hyomei contains Nature's healing oils and balsams, the germ-killing properties of the pine forests, and goes with the air you breathe to the most remote cells of the respiratory organs, searching out and killing all catarrhal germs and soothing and healing any irritation there may be in the mucous membranes. It is easy and pleasant to use Hyomei, pleasanter than most of the stomach dosing, as its healing air is breathed through a neat pocket inhaler, which can be carried in the purse or vest pocket, and carries inhalation to just the spot where relief is needed.

The complete Hyomei outfit costs but $1.00, extra bottles, if needed, by mail, 50c. We do not want anybody's money unless Hyomei gives relief and cure, and we absolutely agree that money will be refunded unless the remedy gives satisfaction.

All druggists should be able to supply you with Hyomei or we will send it by mail on receipt of price, and every package is sold with the distinct understanding that it costs nothing unless it cures. Write us today for a symptom blank, which we will send you free, together with treatise on Catarrh and how to cure it. When you fill in and return to us the symptom blank, our consulting physician will give your case the best care and attention, and write you a letter of advice without charge. Booth's Hyomei Company, Buffalo, N. Y.

SOCIAL AND PERSONAL

—Lt.-Col. A. MacDonald, Winnipeg, was in the city yesterday.

—Mr. D. M. Rogers of Victoria, B. C., is registered at the National.

—Mr. H. K. Manning, of Victoria College, Toronto, a home for the Christmas season.

—Mrs. Geo. Jobbitt, of Peterborough, was the guest of Mrs. S. Brookshire last week.—Fenelon Falls Star.

—Mr. E. Beatty of Chicago, is in the city on a week's visit to his mother, Mrs. George Milne, Sherbrooke street.

—Mr. J. Holder Stowe, of Mammoth, Montana, is the guest of his sister, Mrs. R. F. M. Williams, for the Christmas season.

—Mrs. Garrett Snider, London street, left yesterday morning for Toronto and Maple, on a visit to friends and relatives.

—Mr and Mrs. A. Wanless, of Owen Sound, spent Sunday in the city, the guests of Mrs. T. Anderson, 213 London street.

—Mrs. B. Miller and daughter, of Brampton, are visiting Mrs. Miller's parents Rev. H. Manning and Mrs. Manning at the Charlotte street Methodist parsonage.

—Mr Hugh Porter, King street, arrived home yesterday from Wolseley, Assiniboine, where he was visiting his eldest son, Norman Porter, buyer for the North Star Grain Company.

—Mr T. Kinnear of T. Kinnear & Co., who recently erected that handsome wholesale grocery house on George street, near the C.P.R. station was in the city on the day on Mr. Darey the local manager.

—Mr W. R. Barefoot, who was for a few months in Miss Morton's studio, Lindsay, and R. M. Roy's Peterborough, is now at Ottawa, where he has an excellent position in the Topley studio on Sparks street. Mr. Barefoot's many friends will be pleased to hear of his success.—Lindsay Post.

St. Luke's Church Notes.

This week the following meetings will be held in St. Luke's church;

On Thursday evening at 8 o'clock an open meeting of the Brotherhood of St. Andrew will be held.

On Friday the annual oyster supper and entertainment of the Mothers' Guild takes place.

Next Sunday the Rev. Dr. O'Meara principal of Wycliffe College, will preach at the evening service.

The Men's Guild will repeat their two days at Stewart's Hill this evening. The bus will leave the post office at 6.30 sharp and all those taking part in the program are requested to be there sharp on time. Those living in east ward may meet the bus at the corner of Hunter and Mark streets at 6.40.

Military Club at Cobourg.

It will be of local interest to learn that a Cobourg despatch says;

At a meeting held at the new armoury here of the officers of the 16th Midland Field Battery, Cobourg Garrison Artillery, and the 40th Northumberland Regiment, a military club was organized. The following officers were elected;

Hon President — Col. J. Vance Gravely.

President—Major H. J. Speigrove.

Vice-President—Capt. H. C. Emmett.

Secretary-Treasurer—Captain Chas. McCallum.

Visitors From Regina Here.

Mr. and Mrs. Frank Adams and two children arrived at one a.m. yesterday from Regina, and registered at the Peterborough House. They left yesterday at noon for Springville, where they will visit for a few weeks before returning to Regina. Mr. Adams' parents reside in the city and this is his first visit here for years.

Local Board of Trade to Meet.

The Board of Trade will hold an important meeting on Tuesday, December 18, when some subjects of more than usual interest to the citizens of Peterborough will be discussed. The municipal ownership proposition, will be dealt with as will cheap power and the proposal to hold a National Dairy Show in this city.

All Saints' Church Notes.

The announcements for All Saints' church this week are as follows:

This afternoon, 2.30, Women's Auxiliary. Brotherhood social at eight o'clock, Tuesday, Thursday, 4.15, p.m. Junior W.A., evening service at 8 o'clock, choir practice at 8.30; Friday, Christmas present sale under the auspices of the Girls Guild, commencing at four o'clock.

SPECIAL NOTICE!

All members are particularly requested to attend a regular meeting of Peterborough Lodge, No 136, Ancient Order United Workmen, Tuesday, Dec. 11, at eight o'clock, p.m. Business of importance. Nine delegates election of officers. By Order,

J. J. TURNER,
Master Workman.

Former Local Pastor Here.

Rev J. P. Wilson, pastor of the Bridge street Methodist church Belleville, and former pastor of the George street Methodist church here, was in the city yesterday, on his way home from Lindsay where he spent Sunday preaching anniversary sermons at Cambridge street church, for Rev. Dr. Bishop.

—Times Booklets are Santa Claus headquarters for stocking games, toys and children's novelties.

—See the south window of the [illegible] Bargains.

Dr. Pierce's Favorite Prescription

Is a powerful, invigorating tonic, imparting health and strength in particular to the organs distinctly feminine. The local, womanly health is so intimately related to the general health that when diseases of the delicate womanly organs are cured the whole body gains in health and strength. For weak and sickly women who are "worn-out," "run-down" or debilitated, especially for women who work in store, office or schoolroom, who sit at the typewriter or sewing machine or bear heavy household burdens, and for nursing mothers, Dr. Pierce's Favorite Prescription has proven a priceless benefit because of its health-restoring and strength-giving powers.

As a soothing and strengthening nervine, "Favorite Prescription" is unequaled and is invaluable in allaying nervous irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea or St. Vitus's dance, and other distressing nervous symptoms commonly attendant upon functional and organic disease of the womanly organs. It induces refreshing sleep and relieves mental anxiety and despondency.

Cures obstinate cases. "Favorite Prescription" is a positive cure for the most complicated and obstinate cases of "female weakness," painful periods, irregularities, prolapsus or falling of the pelvic organs, weak back, bearing-down sensations, chronic congestion, inflammation and ulceration.

Dr. Pierce's medicines are made from harmless but efficient medical roots found growing in our American forests. The Indians knew of the marvelous curative value of some of these roots and imparted that knowledge to some of the friendlier whites, and gradually some of the more progressive physicians came to test and use them, and ever since they have grown in favor by reason of their superior curative virtues and their safe and harmless qualities.

Your druggists sell the "FAVORITE PRESCRIPTION" and also that famous alterative, blood purifier and stomach tonic, the "GOLDEN MEDICAL DISCOVERY." Write to Dr. Pierce about your case. He is an experienced physician and will treat your case as confidential and without charge for correspondence. Address him at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., of which he is chief consulting physician.

Rev. Dr Bishop Here Sunday.

Missionary sermons will be preached in the George street Methodist church next Sunday by Rev. Dr. Bishop of the Cambridge street Methodist church, Lindsay. This will be the first visit of Dr. Bishop to Peterborough, and no doubt a large number of persons will be anxious to hear him. In view of the fact that Peterborough has recently sent one of her daughters to China, to go along with her husband, in missionary work, this subject is one of more than ordinary interest.

WHAT TO GIVE FOR CHRISTMAS

Is a question that is uppermost in the minds of Everyone just now.

Why not Give a Telephone

It may be used by the whole family and will give them pleasure throughout the year.

It will be a benefit to your relatives, friends and acquaintances who desire to "call" you.

Special arrangements have been made for these Christmas Gift Telephones.

If you would have one installed as your Christmas Gift Call or Write Contract Department.

PUBLIC WORSHIP STOPS IN FRANCE AFTER TO-DAY

The Bonds of Church and State in French Republic Broken

POPE REFUSED THE TERMS

Government Preparing to take Over All the Church Property.

Paris, Dec. 12.—A most serious deadlock exists today in France between

Paris, Dec. 12.—After a meeting of the Cabinet Ministers yesterday, it was announced that on Dec. 14th Premier Clemenceau will ask Parliament to suppress the pensions of the clergy, to liquidate the public property of Catholics, and to distribute the presbyteries, seminaries, and so on.

It also is stated positively that the Government has decided to expel from France, Mgr. Montagnini, secretary of the Papa. Nuncature at Paris, who has represented the Vatican here since the recall of the Papal Nuncio.

BOND NOW BROKEN.

Paris, Dec. 12.—This is a historic day for France. The struggle which began in 1880, with the banishment of the Jesuits, ended yesterday with the legal rupture of the bond which for practically a thousand years had united Church and State. By refusing to make the required declaration under the Public Meeting Law of 1881, public Catholic worship, except by schismatic organizations, today becomes illegal.

The scenes in some of the churches were touching. Not in years had there been such an attendance at mass. The manner of women was especially conspicuous, indicating the religious significance of the manifestation. Although seven-eighths of the inhabitants of the city nominally are Catholics, in no parts of the city were the churches crowded. Even at Notre Dame Cathedral, where a solemn high mass was celebrated, the edifice was only half filled. The officiating clergy read the regular offices for the week as usual, without referring to their illegal status tomorrow. Nevertheless, the depression of the Catholics was manifest.

Many women emerged from the cathedral weeping, and lingered outside to discuss what to do when the clergy are turned out of their churches.

It is becoming more apparent that both the Government officials and higher ecclesiastics are resisting the advice of intemperate-minded persons. Minister of Public Worship Briand announces that the Government "cannot be driven into the trap of closing the churches," and Cardinal Richeria, Archbishop of Paris, has strongly censured the placarding of appeals to the churches to ink violent resistance to the officers of the law.

"No violence," he said, "but passive resistance to the unjust law, after exhausting all protests at every step."

This is the disposition so far as the higher ecclesiastics are concerned, but their followers evidently have no intention to submit, and are prepared to assume the role of martyrs, abandon the churches, and organize private worship.

Cardinal Richard and many of the bishops already have begun the removal of their private effects from the episcopal mansions, and the clergy are preparing to leave their rectories and move into hired lodgings. It is announced that the parish priests have received many offers of places in which to hold religious services, but there is no indication that they intend to take advantage of the one remaining chance to retain their churches, namely, by making the declarations called for by law.

CHURCHES CLOSED TODAY.

The Government continues to present a calm front. Receivers have been appointed everywhere to assume charge of the sequestered property, and three policemen will be stationed today at the doors of all the churches to report law violations. But, as such violations can only be tried in the police courts, and the fines for all the offences are only 15 francs fine and 15 days' imprisonment, with the right of appeal, severer measures are necessary.

The Government probably will accept the bill introduced in the Chamber of Deputies yesterday by M. Munier, Republican, providing that all buildings, presbyteries, and so on, occupied by ecclesiastics shall definitely escheat to the State, the departments, and the communes upon the enactment of the law providing for the separation of Church and State, and at once make arrangements that the sequestered property shall not be used, like the hospitals for special purposes or public charities, to suppress the pensions of the clergy who do not conform with the laws of 1905 and 1901, and to summon all the priests of military age to the colors, to serve their time in the army with other Frenchmen liable to military duty.

PEOPLE FAVOR THE STATE.

The republican press says the temper of the people forms a more hostile attitude toward the Vatican. The Republique Francaise declares: "The time has passed when a pope could successfully threaten to release French subjects from their allegiance. Declare on the law will only expose the priests to being regarded as the subjects of a foreign power, by which they would forfeit their rights as Frenchmen."

Signor Mirrabelli, Republican, yesterday in the chamber of deputies introduced a resolution, which was adopted, congratulating France on its anti-clerical policy, "as tending to secularize the State, and render the human conscience independent."

Paris, Dec. 12.—Manager Montagnini, secretary of the Papal Nunciature here since the recall of the Nuncio, was arrested yesterday upon an order expelling him from France, and was conducted to the frontier last night.

STOMACH'S IMPORTANCE

How to Strengthen it so that It Will Act as it Should.

The stomach is the principal organ concerned in the digestion of food. If it is weak, inactive or out of order and unable to properly digest the food, the body will soon be in a state of semi-starvation.

Then, too, when the stomach is weak, the food is not properly digested and lies in it for hours, decomposing, fermenting, and rotting poisonous gases and products that are absorbed into the blood, poisoning the system and impoverishing the blood.

To enjoy good health, it is absolutely necessary that the stomach and digestive organs should be strong, and no other remedy equals Mi-o-na in strengthening and giving tone to the whole digestive system.

Relief from the use of Mi-o-na is permanent and lasting. Use Mi-o-na for a few days, and the digestion will be good, the appetite keen, and there will be no nausea or distress after eating, no sleeplessness, no nervousness, and the headaches, backaches and disturbed heart action that are the direct result of a weakened stomach will soon be overcome.

We absolutely agree that your money will be refunded should you buy a 50-cent box of Mi-o-na stomach tablets and not be satisfied with the results. Mi-o-na is sold by druggists everywhere, or will be sent by mail on receipt of price, 50 cents.

Write today for a free sample package, and also give us your symptoms, and one of the best known stomach specialists will give your case his careful and personal attention without charge. Booth's Hyomei Company, Buffalo, N. Y.

INVESTORS! SPECULATORS!

While the Mining craze is raging let us call your attention to an INDUSTRIAL STOCK which can be purchased at an advance OF $1.00 PER SHARE in the next 60 days, and, if you wish to participate in this ADVANCE, also one of a R. R. Stock on which there is to be a dividend declared, WIRE US AT ONCE.

The Industrial referred to is that of a large Paper Company, organized for the manufacture of paper from Straw, which is going to REVOLUTIONIZE THE PAPER INDUSTRY of the Country, and this being foretold by the Trust and other well known interests, they have sought to gain control of this Company which is being consolidated into one GIGANTIC ENTERPRISE, and its stock, now selling at $1.75 to $2.00, WILL ADVANCE TO $10.00 TO $15.00 per share in the next FEW DAYS. There is no gamble in this investment, for the new concern has assets of $7,000,000 and the capitalization is only $10,000,000. For a QUICK, PROFITABLE turn we know of nothing better, as some of the insiders in Wall Street are the largest investors in this stock.

Write us immediately, when we will give full particulars regarding Company, but will state in advance that to get the full benefits of this advance it is necessary to ACT QUICKLY. Remember that the stock is only $2.00 now; get in before the combine goes into effect.

Arthur O. Gandy & Co.

Bankers and Brokers,

Established 1902. 6 WALL STREET, NEW YORK

Mr. and Mrs. Rogers Highly Honored

A pleasing function was enacted at Co. J. Z. Rogers' residence, in the east ward, when the rector and members of St. Luke's church, augmented by deputations from the Women's Auxiliary and Mothers' Guild, showed conclusively their regard for Mr. R. B. Rogers during the city do gooder in Campbellford.

Mr. Frank Adams, the people's church warden, read the following address:

R. B. ROGERS, Esq., C.E.:

Dear Mr. Rogers.—It is with much regret that we say "goodbye" to you, previous to your leaving us for your new sphere of labor at Campbellford. Since the foundation of the church and parish you have been a most devoted and loyal member. The church is indebted to you for your ever ready help and support. In the years gone by you have been a Sunday school teacher, a member of the choir, a lay delegate and member of the Advisory Board. In all departments of church life and work we could always depend upon you for advice and assistance, both of which were magnificently and readily given.

It is thus a great loss that we experience by your and your family's removal. We know well that your place can hardly be filled by any one, for no one could be more loyal and more devoted to his church than you are.

We ask you to accept a small token of our regard and affection, and to take with you the assurance of our hearty appreciation of and your good deeds, and that you may experience all that measure for your good of the Lord upon you, both spiritually and temporally.

On behalf of the congregation of St. Luke's church.

E. A. LANGRELL, M.A., Rector.
G. F. WARREN,
F. ADAMS,
Churchwardens.

The rector's warden, Mr. G. F. Warren, presented Mr. Rogers with a gold-headed cane, suitably engraved.

Mrs. John Butcher, as secretary of the W.A., read a most appropriate address to Mrs. Rogers, while Mrs. F. Gaskins presented her with a beautifully worked center-piece.

The Mother's Guild read a suitable address, and Mrs. John Strain presented Mrs. Rogers with a cut-glass dish.

Both Mr. and Mrs. Rogers were deeply affected by these tokens of kindness and expressed their warm appreciation of them.

The rector added his personal regret at losing Mr. Rogers and his family and expressed the hope that some day they might come once again.

Bachelor Social at All Saints'

Last night a bachelors' social was held by the Men's Guild of All Saints church, which proved a most successful affair. As was expected the attendance was not as large as might have been, owing to counter attractions. A most enjoyable program was rendered, which was opened by an instrumental by Miss Ida Maholland, which was most warmly appreciated. Mr. F. Russell gave a song, which was followed by Messrs. McLaren and Gaven in a humorous duet, most admirably rendered. Specia, mention must be made of Miss Marguerite Fanning, who sang "Wait me around again, Willie." The little girl has a voice that will before long bring her into the front rank.

The evening was brought to a close by giving attention to the inner man, and a vote of thanks was passed to those who put on the splendid program.

Local Turf Club Elects Officers

Yesterday afternoon the Peterborough Turf Club, under new management, held a meeting to elect officers for the ensuing year.

Those present expressed themselves as having every confidence in the future of the club. The matter of winter races was discussed and is receiving consideration by the executive. It is expected however, that Peterborough will have winter racing and judging by the hopeful tone of those present at yesterday's meeting, there is every reason to believe that the moribund condition that has recently existed in local racing circles, will be revived.

The officers elected at yesterday's meeting were as follows:

President—P. J. Cunan.
Treasurer—R. H. Jackson.
Secretary—James O'Shea.
Track Manager—Martin Cassers.

CANADA DEFENDED AGAINST SLANDER

Writers in the Yorkshire Very Severe on Critics of This Country

IN DEFENCE OF CANADA

Letters Protesting Against Canada and Canadians Being Slandered.

London, Dec. 12.—At the annual meeting of the subscribers to the Sheltering Home for destitute children at Liverpool, Miss Birt said that the results of training and change in environment encourage the directors, of the Homes to persevere, especially when they contrasted the thousands of happy boys and girls comfortably domiciled on Canadian farms with their condition when they first sought assistance at the Homes. After describing the progress work at the Knowlton Home in Canada, Miss Birt read a few of the hundreds of letters received every year from the young emigrants in Canada. They were all written in a tone which indicated how the children were enjoying the comfort and happiness of their new surroundings.

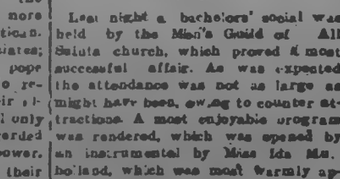
IN DEFENCE OF CANADA.

"Another Yorkshireman," in Yorkshire Herald protests against the slanderous expressions made by "Good Old Yorkshireman," regarding Canadians and their manners in same journal. E. B. Calverley, president of the Yorkshire society in Montreal, quoted the Canadian Associated Press cable of November 26th, urges on Bishop Ridley and declares that no man has the right to give to the press such a false and slanderous statement, let alone a Bishop. There are three other letters in the Yorkshire Herald protesting against Canada and Canadians being slandered.

Team Collides With a Street Car

One Horse is Dead and the Other Seriously Injured.

Yesterday afternoon about 1.30 a team belonging to Mr. Seybrook of South Monaghan, whilst standing attached to a sleigh in front of Elliott's pump store on George street, took fright and ran away. In their furious flight the team, owned by



consequences, did not notice a street car coming south on George street. At the corner of Charlotte street the team collided with the car. Fortunately no one was in the sleigh at the time. One of the horses received a bad gash, and the other one sustained injuries that resulted in its death, the skull being fractured. Dr. Blanchard, V.S., was called in and looked after the injured animals. One was taken to a nearby barn, but the other, as intimated, lay for some time on George street. As the poor creature breathed the exhalation was quite noticeable through the wound on its forehead. The horse subsequently died. The accident, according to all reports obtainable, was in no way the fault of the street car motor man. No one on the car was hurt, however the latter dash board in front of the car was indented by the collision, and several panes of glass broken.

At 6.30 Dr. Blanchard took P.C. Adams revolver, and ended the horse's sufferings by one well aimed shot.

Miss Emma Junkin Now Mrs. F. P. Wood

Miss Emma Junkin, daughter of Mr. and Mrs. Robert Junkin, is now the bride of Mr. Frank Porter Wood, son of Mr. and Mrs. John Wood, of Peterborough. The wedding ceremony was performed at the residence of the bride's parents, Crescent road, Rosedale, Monday afternoon, the Rev. Dr. Talling officiating. The bride, who wore a cream satin dress, was given away by her father. Her sister, Miss Nora Junkin, and Miss Pauline Ivey, London, Ont., were bridesmaids. Mr. Wallace Wood, Peterborough, was best man. Mr. and Mrs. Woods left for New York en route to the continent, the going away dress being of becoming green cloth with toque to match.

THE CRADLE IN FLAMES

Little Baby Burned to Death at Galt—Mother Severely Burned.

Galt, Dec. 12.—While the mother was outside procuring a pail of water yesterday, a young child of Mr. and Mrs. Archie Pettigrew, South Water street, was fatally burned. When Mrs. Pettigrew learned of the blaze she immediately rushed into the house and rescued the child from the blazing cradle, severely burning herself. The child cannot live.

The fire, which did about $300 damage, was probably caused by two other children playing around the stove. The burned baby is about a year and a half old. The father works in a woolen mill.

WITH THE PUCK CHASERS

It is more than probable that the Peterborough seniors will have a game with the Marlboros in Toronto on Christmas Day. At the meeting tonight it will be finally decided.

• • • •

An important meeting of the City Hockey League was held yesterday evening in the Y.M.C.A. hall.

• • • •

A meeting of representatives from the different teams of Group No. 1 of the O.H.A. senior series will be held at the Oriental Hotel this evening, to draw up the schedule of games. Mr. O. G. Graham, is secretary of the group.

• • • •

The Peterborough Hockey Team has arranged for two fast games during the holiday week. Arrangements are about completed, whereby Queen's senior team will play here on Friday evening, December 28. This will be a fast, contest, and the evening game for the season. It is expected that Princeton University boys will be here on Monday, December 31st, and will try conclusions with the Peterborough's. A lively exhibition of hockey may be expected.

• • • •

The following circular has been sent to the clubs of the Ontario Hockey Association by Secretary W. A. Hewitt:

Secretary Hockey Club, —I have been instructed by the Executive Committee to secure from your club, a full list of officers, for the purpose of keeping a permanent record of all clubs connected with the association. I also desire to notify you that all club colors must be registered with me by the 15th inst. Also kindly furnish ice area of rink. Enclosed find certificates for players, which must be signed by the players themselves and the president and secretary of the club and forwarded to me. They will then be passed upon by the committee and, if considered satisfactory, will be returned to the secretary of the club. It is imperative that these certificates be sent in at an early date as none will be returned to the club at the last moment. No player will be allowed to compete in any series without a certificate, under any circumstances whatever. In the junior series age declarations must be made by the parents or guardians of the players on forms supplied by the association.

• • • •

Kingston Whig: "Shearer" Elliott has not yet made any arrangements as to the hockey season, but has no doubt, he says, a fortune in the Eastern Canada Hockey league and also the Ontario Hockey Association.

• • • •

Belleville Intelligencer: It would appear that the O.H.A. senior hockey series will be a two group one, as there are only two groups in the senior series this season, as in group one, and have to play a sudden death game with Montreal on neutral ice, the team to play the first round, do not make for large accumulations of revenue. But then, what do the "amateur" teams care for revenue?

The above state of affairs, as this paper has remarked before, shows that hockey in this district will never be what it used to be when Belleville, Port Hope, Kingston, and Peterborough were all in the game with strong teams. The O.H.A. jumped on Belleville two years in succession, and killed the game in this city. With Belleville out, Port Hope, Kingston and Peterborough, have found it difficult to keep up interest in the game. This would all have been different had Belleville been treated fairly.

• • • •

Harry Brown, the Belleville hockey player, who played point for Smith's Falls last year in the Stanley Cup games against Ottawa, has engaged with Houghton, Mich., for the coming season at a salary of $900. He will play cover-point.

• • • •

Berlin, Dec. 12.—The Seibert family Western champions, are out, with a desire to meet the Hall tribe of Toronto in home-and-home games.

• • • •

The Berlin seniors' first game will be with the Marlboros in Berlin, on December 21. Galt plays the senior champions Christmas.

• • • •

Belleville, Dec. 12.—Belleville's junior O.H.A. team has suffered a serious loss in the removal to Toronto of Lane Spangenberg of the Bank of Commerce, who has to report at the head office today. His place will be hard to fill.

ALMOST INSANE WITH COLD, HUNGER, AND THE EXPOSURE

Passengers of Steamer Monarch Had a Terrible Experience

A MIRACULOUS ESCAPE

Captain Had to Use Violence to Keep Them from Lying Down

Fort William, Dec. 12.—Having been stated for three days and three nights on a bit of rock in the middle of Lake Superior, without shelter from the freezing temperature, ice covered by continuous gales, and with nothing to eat but flour and water, forty-one persons, the passengers and crew of the ill-fated Monarch, arrived in Port Arthur last night, on the tugs Whalen and Laura Grace One man, James Jacques, of Point Edward, a watchman, was drowned and G. Farquhar, a passenger, en route to his home in Sault Ste. Marie, only died as a result of the hardships experienced.

Several of the crew were frozen about the hands and feet, and all are suffering mentally from the terrible ordeal. The tugs sent to the rescue arrived at Isle Royale at ten o'clock Monday forenoon, but owing to the peculiar condition of the shore near the scene of the accident, the tugs were unable to approach nearer than three miles from the party. All of the survivors with the exception of Farquhar, were able to walk to the tugs, but the latter, who had contracted what appears to be a severe case of pneumonia, had to be carried the entire distance.

Some completely overcome, and others rendered almost insane with fatigue, hunger, and exposure, the party gained the boats after a three hours' journey on foot across the island. The only woman present, Mrs. Gregory, an employe of the Monarch, when taken aboard, fell fainting to the deck, while others, their spirit completely gone, walked the decks and cried.

VIOLENCE THREATENED.

That there were not more fatalities is attributed to the heroic vigilance of Captain Robertson of the wrecked ship. To restrain them from abandoning hope, and lying down in the snow, and from falling from sheer fatigue into the fire kept constantly burning, Capt. Robertson time after time found it necessary to threaten men with personal violence, and even then it was only by exercising the greatest diligence that he kept his charges moving. The wreck occurred at 9.05 at night, during a blinding snow storm, which made it impossible to discern objects at a distance of a hundred feet.

Thirty minutes before the vessel struck Captain Robertson discovered that his compass had frozen, and almost at the same time that we had lost our bearings. He then rang for half-speed, and trusted to his eyesight and Providence. He did not see the rock that wrecked the steamer until after the vessel had struck. The craft immediately listed, and began to fill rapidly. The fact that the bow was fast on the rock was all that kept the steamer from sinking at once. The stern was completely submerged within twenty minutes.

THROWN 30 FEET.

Charles McLaughlin, brother of the first mate, was the first to volunteer to take a line ashore. A rope was tied around his waist, and he was swung to a projecting rock thirty feet from the steamer. The first two attempts were unsuccessful, and he narrowly escaped death by being dashed by the waves against the vessel. Once the rope broke, and it was thought that he was surely lost, but he grasped the rock, to which he clung until he had regained sufficient strength to climb to the surface. A line was thrown, and he made it fast. Down this line thirty six of the party climbed hand-over-hand, to safety. Mrs. Gregory, W. Hunter, the steward; and two passengers were taken across in a yawl, but Jacques, in an attempt to jump into the boat, slipped, and fell into the lake. His companions heard shouts but were powerless to lend assistance.

Captain Robertson remained alone on the steamer all night, notwithstanding that the sailors expected every minute that the craft would be dashed to pieces. There are no buildings on the north shore of the island, and the men were compelled to make a windbreak of branches. Fire was lighted, but until Sunday morning there was nothing to eat. It was then that the storm abated sufficiently to permit the sailors to gain the bow of the Monarch, which remained above the surface, and secured a bag of flour. They afterwards subsisted on hardtack, baked in ashes. The women and passengers, with the exception of Farquhar, suffered no serious consequences. The party, upon arrival here, were made comfortable on board the steamer Huronic.

Captain Robertson, seen immediately after arrival, at first was thankful that the loss of life was not greater. He missed that treacherous Caribou Rocks only by a few feet, and how he managed to pass them without sending the ship and all hands to the bottom will always be a mystery to him.

It was stated by a deck-hand that the Monarch, which has a capacity of only 1,500 tons, was carrying 1,600 on this trip. This statement has not been confirmed.

A Great Ottawa Mining Enterprise

One of Cobalt's Most Promising Mines to be Pushed.

Cobalt the rich at silver producing section of the world, contains no more promising and success-assured mine than that owned and operated by the Ottawa Cobalt and Silver Mining Company, Limited, whose head offices are at Ottawa.

This company has forty acres in lot 6, con. 1, in the township of Bucke, which is situated about three-quarters of a mile north-west of the celebrated Trethewey mine, and is of exactly the same formation. There are several well defined veins, from which splendid nuggets of native silver have been taken.

This mine is no prospect, as the silver has been found in paying quantities, and considerable work has already been done.

The organizers have such faith in this mine that they have taken their entire interest in stock. Only 25,000 shares of stock are being issued at present for development purposes at par value, viz. $1 each. There are 75,000 shares to be issued, and it is expected that by the time the first 25,000 are fully taken, the mine will be a shipper and thus more than self supporting.

The directors of this company are all prominent and successful capitalists of Ottawa, with Mr. D. O'Connor, the well-known Ottawa contractor, as president. All communications or applications for stock should be addressed to Mr. D. O'Connor, President of the Ottawa Cobalt and Silver Mining Co., Ottawa.

A Local Business Change.

Mr. M. Pappas yesterday handed over his shoe shine parlor at 320 George street, to his nephews, to enable these boys to make their own living. This effectually does away with the absurd rumors current some weeks ago that Mr. Pappas was not using these boys right. In this transaction Mr. Pappas simply handed over the parlor leaving the boys to pay him when they want.

Mr. Pappas has obtained a license to operate a billiard room in the town of Oshawa, the license being signed by the Mayor of Oshawa.

POLICE NEWS

Daily Happenings in Court Room and Station.

Vincent McGee, a young man from Lakefield, who was at yesterday's session of the police court charged with being d. & d., pleaded guilty, but he vowed he would never touch the stuff again. If allowed to go he had just been in the country two months, and it was the first time he was found drunk. The magistrate allowed him to go with a warning.

BLUE BLOOD

May Be Aristocratic, But It's Liable to Cause Cold Hands and Feet.

Wherever the idea that blue-blooded ancestry is the best may have originated, the fact is, physiologically speaking, blue blood is bad blood.

That is to say, the blood in the veins which is dark and appears blue through the white skin, is that portion of the blood stream laden with the waste or refuse material of the system, after the red blood (arterial) has carried real food to the tissues. "Red blood" is today the mark of Nature's aristocrat.

When, from imperfect nutrition, the blood loses its rich red color and becomes dark or "blue" the result is cold hands and feet, and more or less palpitation of the heart, as well as general weakness. Coffee drinking, in many persons, causes blue blood and does not insure any coat-of-arms or ancient pedigree—except the ancient habit of coffee drinking itself. A "blue-blooded" woman writes:

"I drank coffee for ten years, my head was dizzy, I had constant heartburn, could not sleep nights, my hands and feet were cold summer and winter, my blood was poor and thin (Blue Blood!)

Seeing so much said in praise of Postum in the papers, my husband and I decided to try it. That was more than a year ago, and we have used it ever since.

"Now my head is not dizzy, my hands and feet are always warm, my nerves are steady and I can sleep all night. A few weeks ago, calling at a friend's house, they said, 'What in the world have you been doing? You look ten years younger. I never saw you look so well.'

"When I told them it was on account of Postum, that I had quit drinking coffee, they could hardly believe it. But some time after that they told me they had been using Postum, too, had quit coffee and were so much better every way." Name given by Postum Co., Battle Creek. Mich. Don't fail to read booklet, "The Road to Wellville," in pkgs. "There's a reason."

THE SCOURGE OF CONSUMPTION

Thousands Are Dying—If Tired, Languid or Run Down Get Protection Before Too Late.

No child, man or woman is safe from consumption unless their blood is pure, rich and nourishing.

Allow the blood to become thin, and immediately the whole system grows weak. The lungs are deprived of resisting power and the ever-present tubercular bacilli develops.

The most positive protection against consumption is Ferrozone, which restores the blood to full strength. Weak organs are instantly strengthened. Worn-out tissues are rebuilt. New life is given to the lungs and all danger of consumption is destroyed.

Mrs. E. J. Richardson, Manotick, Ont., tells as follows of her enormous gain in health from Ferrozone: "For two years I was not well. I was thin and anaemic. Towards spring I fell into a condition of nervous exhaustion. A dead tiredness hung over me like a load of lead. Housework of any kind I simply couldn't do. A bad cough developed that worried me greatly for I thought it might be tubercular. When I first read of Ferrozone I was convinced it was good. I took it regularly for eight weeks and the change in my condition was wonderful. My cheeks filled out and became clear and rosy. I gained eight pounds and now am strong and vigorous as possible."

Ferrozone feeds, nourishes and tones up the body—it sends the thrill and vim of robust health from head to foot—makes you feel better at once. Won't you use Ferrozone? Price 50c. per box, or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

IRELAND IMPROVING

Ireland and the Irish question have not been so conspicuous of late as in former years and this may be regarded as a sign of progress toward a better state of things in the Emerald Isle. Meanwhile causes for Irish discontent have been removed to some extent and there seems to be a disposition on the part of the present government to continue that work. In consequence of the attitude of the governemnt there is more of the sense of corporation with it on the part of Ireland than has been known for many years.

The argument of the Irish cause is getting on to grounds that are solid and that will be presented convincingly without excess of emotion. Irishmen cannot see why Ireland should not be a free and, therefore, a sovereign nation, and Englishmen cannot endure the thought of an independent nation so near their country as Ireland is.

It is easy to see that discontent existing in Ireland and disadvantage of the people may be removed without in the least effecting the international bond and it is in the line of arguing in favor of relief from such restriction that Irish leadership is achieving its highest triumphs at present though with the least attention from the public.

An effort to escape death by consumption is being made by Charles Battersby, thirty-five years old, of Wrentham, Massachusetts. He has suffered with tuberculosus for several years, and has tried the climates of California, Saranac Lake and Arizona, but none of these places have been of any benefit to him. Mr Battersby has now decided to build a house in the tops of two adjoining pine trees on his farm, and he will spend the winter there. Access to the tree-top home will be had by means of a rope ladder, which Battersby will pull up each night.

FIVE TRAIN ROBBERS ARRESTED

One Still Missing—Got Loot Amounting to $110,000.

St. Louis, Dec. 10.—A despatch from Paestine, Texas, says:

It has been earned from reliable sources that six men composed the band of train robbers who robbed the Pacific Express car and murderously assaulted Messenger Grisett, and threw him from the rapidly moving train at Ryan siding, near Bodwater, on Saturday night when northbound Cotton Belt train No. 4 was held up. Of these, five are under arrest, and are said to have been identified by Messenger Grisett when taken before him at the hospital.

Notwithstanding the assertions of the officials of the express company to the effect that not more than $2000 was secured, it has been learned from reliable sources that the amount was close to $110,000.

Preston on Canada's Rapid Development

London, Dec. 11.—W. T. R. Preston, in the course of a very long interview with a representative of a Capetown newspaper said: "From being the least known and appreciated of all the British colonies, Canada now occupies a foremost place among the nations of the world."

When asked, Is South Africa likely to find a market for its products in the Dominion, for Capetown, for example, Mr. Preston replied; "Canada is a very strong temperance country, and if you are sending over liquor I do not think you will do at all well but with milder liquors there is no reason why you should not find an exceedingly profitable market."

"There is no racial question in Canada," said Mr. Preston. "That trouble was over long ago."

BABY'S HAIR.

How to Make It Curl When It Is Inclined to Be Straight.

Straight hair is certainly not becoming to small children, however pretty the color may be, and mamma and nurse may be excused if they resort to fair means so as to induce a natural curl in babyhood.

It has often been noticed that where a little care has been taken to foster an inclination toward wavy hair in earliest youth this has resulted in a becoming growth in later years, and by means of brushing and washing the head in the correct fashion much may be done to encourage a tendency to curl when the child is young.

A baby's hair should always be brushed upward instead of downward, and as each lock is treated it should be given a little twist with the finger, this operation having a particularly good and lasting effect when the hair is damp. Persevered in daily, this will be found to work wonders, even in cases where the natural growth was perfectly straight, although it must be noted that for the first week or two before the hair has become accustomed to the upward trend the effect is hardly pleasing.

One of the best shampoos for a child's hair, especially when long and thick, consists of a well beaten egg made into a froth with hot water and rubbed into the roots of the hair. Borax and ammonia, especially the latter, should be sparingly used, ammonia in particular being inclined to damage the color and shimmer of fair hair, while it frequently causes it to become brittle and split at the ends.

THE ATHLETIC LIFE.

Power Existing Without Use of Its Good Results.

Athletics add a more sane system of living have put an end to fainting by women. That is the opinion of an eminent physician who as a young man used to visit a score of "fainting ladies," as he laughingly puts it, each day.

"Not many years ago it was the fashion for a woman to scream and drop down into a dead faint at the least provocation," said the doctor recently. "But now women are ashamed to faint. It is too kittenish. All women want to appear strong even if they are naturally weak. And as a sex they are considerably more robust and more fascinating than they were a few years back.

"The reason for it is that women go in for more outdoor life and recreation than did their mothers or their grandmothers. They may partake of more highly seasoned food and eat more than is good for them at times, but they lead a more athletic life and for that reason do not have to faint, legitimately or otherwise, no matter what the shock may be. We are going to have a stronger race in consequence. For every woman who faints over a sudden shock there are scores who are satisfied to scream and let it go at that. Fainting women are exceptions these days."—New York Press.

Scorched Linens.

It is said that when linens are badly scorched the spot can be removed if treated in the following manner: Extract the juice from two peeled onion and put it into an agate or granite vessel. Add to it half an ounce of white castile soap cut into small pieces and two ounces of fuller's earth. Mix them together and then stir in a cup of vinegar. Stand the vessel over the fire and let its contents thoroughly boil. When the mixture has become cool spread it over the scorched linen and let it dry upon the cloth. When well dried wash out the linen.

Constipation

Baked sweet apples, with some people, bring prompt relief for Constipation. With others, coarse all-wheat bread will have the same effect. Nature undoubtedly has a vegetable remedy to relieve every ailment known to man, if physicians can but find Nature's way to health. And this is strikingly true with regard to Constipation.

The bark of a certain tree in California—Cascara Sagrada—offers a most excellent aid to this end. But, combined with Egyptian Senna, Slippery Elm Bark, Solid Extract of Prunes, etc., this same Cascara bark is given its greatest possible power to correct constipation. A toothsome Candy Tablet, called Lax-ets, is now made at the Dr. Shoop Laboratories, from this ingredients and most effective prescription. Its effect on Constipation, Biliousness, Sour Stomach, Bad Breath, Sallow Complexion, etc., is indeed prompt and satisfying.

No griping, no unpleasant after effects are experienced, and Lax-ets are put up in beautiful Hologrophed metal boxes at 5 cents and 25 cents per box.

For something new, nice, economical and effective, try a box of

Lax-ets

J. D. TULLY.

Out of Sorts?

It's your liver! In nearly every case it's the liver. That means constipation, biliousness, dyspepsia, poor blood, headaches. Your doctor will tell you that good health demands at least one good, free movement of the bowels each day. Ask him if he knows any laxative better than Ayer's Pills. We have no secrets! We publish the formulas of all our medicines. J. C. Ayer Co., Lowell, Mass.

248 MURRAY STREET

TENDERS FOR MINING LANDS

IN PURSUANCE of an Order-in-Council, dated 22nd November, 1906 tenders will be received by the undersigned at the Department of Lands, Forests & Mines, Toronto, Ont., up to the hour of one o'clock in the afternoon of Thursday, the 20th day of December, 1906, for the purchase of those portions of the beds of Cobalt Lake and Kerr Lake situated in the Township of Coleman, in the District of Nipissing, now the property of the Crown, together with the mines, minerals and mining rights therein and thereunder, the same being described as follows:—

PARCEL NUMBER ONE.

Land covered by water of Cobalt Lake. Being composed of the land covered by water of all that portion of Cobalt Lake situate in the Township of Coleman, in the District of Nipissing, lying south and east of the south-easterly limit of the right-of-way of the Temiskaming & Northern Ontario Railway and Cobalt station grounds, together with the islets in the said portion of said Lake, excepting thereout and therefrom that portion of Cobalt Lake designated as mining location J. B., containing four acres, granted by letters patent, dated 31st July, 1906, to James H. McKinley, Ernest J. Larragh, Robert Gorman and William Anderson, said portion of Lake hereby offered for sale containing by admeasurement forty-six acres, more or less.

PARCEL NUMBER TWO.

Land covered by water of Kerr Lake. Being composed of land covered by the water of Kerr Lake, in the Township of Coleman, in the District of Nipissing, excepting thereout and therefrom those portions surveyed and designated as mining locations J. B 2, J. B. 10 and J. B. 11, containing by admeasurement two acres, four acres and twelve acres respectively, the two former locations, J. B. 9 and J. B. 10, having been granted by letters patent, dated 22nd June, 1906, to the Canada Iron Furnace Company, Limited, and J. B. 11 having been granted by letters patent, dated 20th June, 1906, to Jacob A. Jacobs, said portion of Lake hereby offered for sale containing by admeasurement twenty-three acres, more or less.

Parcel Number 1 carries with it the right to mines and minerals in the adjacent one-half of the road allowance on the east shore of Cobalt Lake, and lying between the mining locations R. L. 491 and R. L. 494 and the water's edge, provided the veins or deposits extend from the bed of the Lake into or under the said road allowance. See 4 Edward VII., Chapter 23, Section 30

The boundaries of both parcels will be surveyed and delimited on the ground before the day of sale.

Tenders are to be for each parcel separately, and are to name a lump sum for each parcel, without royalty payable in full within fifteen days of acceptance of tender.

A marked cheque for ten per cent. of the price offered must accompany each tender, to be forfeited upon non-payment of the balance of the purchase money within the prescribed time.

Tenders to be enclosed in sealed envelopes, marked on the outside in plain letters, "Tender for Cobalt Lake," or "Tender for Kerr Lake," as the case may be, and to be addressed to the Minister of Lands, Forests & Mines, Toronto, Ont.

The highest or any tender not necessarily accepted.

F. COCHRANE,
Minister of Lands, Forests and Mines

BY-LAW NUMBER

A By-Law to Authorize the Borrowing of the Sum of Fifteen Hundred Dollars for the Purpose of Constructing a Main Sewer on the Right of Way of the Grand Trunk Railway Company from Smith Street to Aylmer Street in the City of Peterborough.

Passed the day of 1907.

WHEREAS it is necessary in order to drain a portion of the City lying north-west of the Grand Trunk Railway and between Smith street and Dublin street to construct a main sewer along the right of way of the said Railway from Smith street to connect with the present sewer on Aylmer street and to authorize the borrowing of the sum of Fifteen hundred dollars for that purpose, being the estimated cost of the said work and which is the amount of the debt intended to be created by this By-law.

AND WHEREAS in order to raise the said sum of Fifteen hundred dollars it will be necessary to issue the debentures of the Corporation for the said amount.

AND WHEREAS the amount of the whole rateable property of the Municipality, according to the last revised assessment roll, being for the year 1907, is the sum of six million nine hundred and fifty-four thousand seven hundred and thirty-one dollars ($6,954,731).

AND WHEREAS the amount of the existing debenture debt of the Municipality, exclusive of local improvement debts, but including the debt of $232,000 incurred for the purchase and improvement of the waterworks, is the sum of Seven hundred and four thousand and fifty-five dollars and nine cents ($704,055.09), and there is no part of the principal or interest in arrear.

AND WHEREAS it will require the sum of Sixty dollars ($60) to be raised annually for a period of thirty years, the currency of the debentures to be issued under and by virtue of this By-law, for paying the interest on the said debts, and the sum of Twenty-nine dollars and ten cents ($29.10) to be raised annually during the said period for providing a sinking fund for the payment of the same at maturity—such last mentioned sum being sufficient, with the estimated interest on the investment thereof, to discharge the said debt when the same becomes due, making in all the sum of Eighty-nine dollars and ten cents ($89.10) to be raised annually as aforesaid, by special rate on the whole rateable property of the Municipality.

THE CORPORATION OF THE CITY OF PETERBOROUGH BY THE COUNCIL THEREOF THEREFORE ENACTS AS FOLLOWS:

1. This By-law shall take effect on the final passing thereof.

2. It shall be lawful for the Council of the said City of Peterborough to borrow the sum of Fifteen hundred hundred dollars and to issue the debentures of the said Corporation for the said sum, such debentures to be sealed with the Corporate Seal of the City of Peterborough and to be signed by the Mayor and Treasurer and countersigned by the Secretary of the Commissioners of the Peterborough City Trust, and to be made payable within thirty years after the issue thereof, and to bear interest at the rate of four per centum per annum payable half-yearly on the thirtieth day of June and the thirty-first day of December in each year and to have coupons attached thereto for the payment of such interest; such debentures as to principal and interest to be payable at the office of the Secretary of the Commissioners of the Peterborough City Trust in the City of Peterborough.

3. There shall be raised and levied during each year of the currency of the said debentures by a special rate upon all the rateable property of the Municipality, the sum of Sixty dollars ($60) for payment of the interest and the sum of Twenty-nine dollars and ten cents ($29.10) as a sinking fund for the payment of the said debt at maturity thereof, making together the sum of Eighty-nine dollars and ten cents ($89.10) to be raised annually as aforesaid.

4. The proceeds of the said debentures when sold shall be applied to pay for the construction of the said main sewer.

5. The votes of the electors of the City of Peterborough qualified to vote upon By-laws for creating debts shall be taken upon this By-law on the same day as the annual election for Municipal Council for the year 1907 and the polls will be held during the same hours, at the same places and by the same Deputy Returning Officers and Poll Clerks as are appointed and fixed for the said annual Municipal election.

6. The eighth day of January, 1907 at the hour of twelve o'clock noon and the City Clerk's Office are hereby fixed as the time when, and the place where, the Clerk will sum up the number of votes given for and against the By-law.

7. The fifty day of January, 1907, at the hour of twelve o'clock noon and the office of the City Clerk are hereby fixed as the time and place for the appointment of persons to attend at the various polling places at the final summing up of the votes by the Clerk respectively, on behalf of the persons interested in and promoting or opposing the passing of the By-law respectively.

Mayor.
Clerk.

NOTICE

Take notice that the foregoing is a true copy of a proposed By-law which has been taken into consideration and which will be finally passed by the Council of the City of Peterborough (in the event of the assent of the electors being obtained thereto) after one month from the first publication hereof in the Morning Times newspaper, the date of which first publication is the fifth day of December, 1906, and that at the hour, day and place therein fixed for taking the votes of the electors the polls will be held.

S. B. ARMSTRONG,
City Clerk.

Our acreage was all selected for the excellent indications of oil long before any one else was in the field. Experts say we will get a light gravity paraffine oil worth around $2.00 per barrel.

HALL & COMPANY

Fiscal Agents PETERBORO.

The Ottawa Cobalt and Silver Mining Company

OTTAWA, ONT.

Incorporated under the Ontario Mining Companies Act.—No Personal Liability.

Authorized Capital, $250,000; Subscribed Capital, $50,000; Unissued and in Treasury, $200,000.

DIRECTORS

D. O'CONNOR JR. ESQ., Contractor, President, Ottawa.
W. J. KIDD Esq., Barrister, Vice-President, Ottawa.
JAMES WILSON Esq., Wholesale Merchant, Ottawa.
ROBERT GORMAN Esq., Gentleman, Ottawa.
J. OGLE CARSS Esq., Barrister, Ottawa.
SOLICITORS—KIDD & CARSS, Ottawa.
BANKERS—THE CROWN BANK OF CANADA, Ottawa.

PROPERTY AND LOCATION

The property consists of forty acres being the south-west quarter of the north half of lot 6 in concession 1 Township of Bucke. The property of this Company lies about three-quarters of a mile north-west from the celebrated Hargraves mine and is immediately on the same formation. Vein matter was found on this property right from the surface and subsequent prospecting has revealed several well defined veins. On the main vein several nuggets of native silver were found. A shaft had been sunk to a depth of fourteen feet, when the property was taken over by this Company.

WORK ON THE PROPERTY

At present a camp is being built and active development work is being proceeded with. One half of the Company's property is still unprospected.

BUSINESS PROPOSITION

Of all Cobalt Mining Companies none can show a sounder business basis than this. The organizers had such confidence in the property that they have taken their entire interest in stock and have pooled same for six months, evidencing the fact of their absolute confidence in the value of the Company's property at the par value of $1.00 per share. ONLY 25000 shares are being issued at the present time for active development work. It is confidently expected that this will be sufficient to make this property a shipper, and if so the public can at a glance see what the value of these shares will be, having regard to the fact that only 75,000 shares of the Company will have been issued. The stock is not being offered outside of Ottawa as the Directors feel confident this small amount will be oversubscribed here. Address.

DARREL of THE BLESSED ISLES

By IRVING BACHELLER,

Author of "Eben Holden," "D'ri and I," Etc.

COPYRIGHT, 1903, BY LOTHROP PUBLISHING COMPANY

ears and in her tender way of feeling for his hand. She, too, was looking right and left in the fields. There were the scenes of a boyhood newly but forever gone. "That's where you overtook me on the way to school," said he to Phyllis, for so the tinker had named her.

She drew at the rein, starting playfully as she heard his voice and shaking his hand as if to say: "Oh, master, give me the rein. I will bear you swiftly to happiness."

Trove looked down at her proudly, patting the silken arch of her neck. If, as Darrel had once told him, God took note of the look of one's horses, she was fit for the last journey. Arriving at Hillsborough, he tied her in the sheds and took his way to the Sign of the Dial. Darrel was working at his little bench. He turned, wearily, his face paler than Trove had ever seen it, his eyes deeper under their fringe of silvered hair.

"An' God be praised, the boy!" said he, rising quickly. "Canst thou make a jest, boy—a merry jest?"

"Not until you have told me what's the matter."

"Illness an' the food o' bitter fancy," said the tinker, with a sad face.

"Bitter fancy?"

"Yes, an' o' thee, boy. Had I gathered care in the broad fields all me life an' heaped it on thy back I could not have done worse by thee."

Darrel put his hand upon the boy's shoulder, surveying him from head to feet.

"But, marry," he added, "'tis a mighty thigh an' a broad back."

"Have you seen my father?"

"Yes."

There was a moment of silence, and Trove began to change color.

"And what did he say?"

"That he will bear his burden alone."

Then for a moment silence and the ticking of the clocks.

"And I shall never know my father?" said Trove presently, his lips trembling. "God, sir, I insist upon it! I have a right to his name and to his shame also." The young man sank upon a chair, covering his face.

"Nay, boy, it is not wise," said Darrel tenderly. "Take thought of it. Thou'rt young. The time is near when thy father can make restitution, aye, an' acknowledge his sin before the world. All very near to him, saving thyself, are dead. Now, whatever comes, it can do thee no harm."

"But I care not for disgrace, and often you have told me that I should live and speak the truth, even though it burn me to the bone."

"So have I, boy, so have I. But suppose it burn others to the bone. It will burn thy wife an' thy children an' thy children's children and them that have reared thee, an' it would burn thy father most of all."

Trove was utterly silenced. His father was bent on keeping his own disgrace.

"Mind thee, boy, the law o' truth is great, but the law o' love is greater. A lie for the sake o' love—think o' that

"Nay, boy, it is not wise."

a long time, think until thy heart is worn with all fondness an' thy soul is ready for its God, then judge it."

"But when he makes confession I shall know and go to him and stand by his side," the young man remarked.

"Nay, boy, rid thy mind o' that. If ye were to hear of his crime ye'd never know it was thy father's."

"It is a bitter sorrow, but I shall make the best of it," said Trove.

"Ay, make the best of it. Trust now in the deep sea, an' God guide thee."

"But I ask your help. Will you read that?" said Trove, handing him the mysterious note that came with the roll of money.

"Aw how much came with it?" said Darrel as he read the lines.

"Three thousand dollars. Here they are. I do not know what to do with them."

"'Tis a large sum, an' maybe from thy father," said Darrel, looking down at the money. "Possibly, quite possibly, it is from thy father."

"And what shall I do with the money? It is cursed. I can make no use of it."

"Ah, boy, of one thing be sure. It is not the stolen money. For many years thy father hath been a frugal man, saving, ever saving, the poor fruit of his toil. Nay, boy, if it come o' thy father, have no fear o' that. For a time put thy money in the bank."

"Then my father lives near me, where I may be meeting him every day?"

"No," said Darrel, shaking his head. Then lifting his finger and looking into the eyes of Trove he spoke slowly and with deep feeling. "Now that ye know his will, I warn ye, boy, seek him no more. Were ye to meet him now an' know him for thy father an' yet refuse [illegible] ye'd think thee a monster [illegible]

STRICTURE AND KIDNEY DISEASE CURED.

G. E. Wright.

"I had stricture for eleven years. It finally brought on Bright's Disease of the Kidneys. I had an uncomfortable shooting pain in the groin and feeling as though something was in the urethra. My back was weak and I could scarcely stoop over. Urine was full of sediment. Had a desire to urinate frequently. Family doctors, so-called specialists, patent medicines, electric belts, all failed. I was discouraged. I had spent hundreds of dollars in vain. Finally I consulted Drs. Kennedy & Kergan as the last resort. I had heard a great deal about them and concluded from the fact that they had been established over 25 years that they understood their business. I am delighted with the results, in one week I felt better and in a few weeks was entirely cured. Have gained fifteen pounds in weight."

G. E. WRIGHT, Lansing.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even-numbered section of Dominion Lands in Manitoba or the Northwest Provinces (except 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $25 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 15 by 1500 feet. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having surveyed and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claim—generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent. collected on the output after it exceeds $10,000.

W. W. CORY.

Deputy of the Minister of the Interior.

Look For Blood Humors

They Crop Out Constantly, Showing the System Needs Purifying.

You're not satisfied with your looks. How can you be with such disfiguring pimples, such rough un even skin?

Blood is full of humors, and it's no wonder you look and feel poorly.

You are languid,
Appetite is miserable,
Sleep is hard to get,
Snap and vim are lacking.

High time to improve matters—but what's the proper remedy?

Experience proves that Dr. Hamilton's Pills give instant effect. They tone the entire system, fortify the blood, and impart a feeling of new life in a few days.

Unlike strong purgatives, Dr. Hamilton's Pills are exceedingly mild. They are made from concentrated vegetable extracts such as Mandrake and Butternut, and can be taken by young or old, with absolute safety.

"I learnt something very valuable after using Dr. Hamilton's Pills," writes Miss Effie Thomson of Meriden. "I used to have ugly pimples that much embarrassed me. The tonic and purifying effect of Dr. Hamilton's Pills completely restored me. My health is splendid and my complexion a great credit to this marvelous medicine."

Let your medicine be Dr. Hamilton's Pills. They do cure so speedily. Sold by all dealers. 25c per box, or five boxes for $1. By mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS.

Pocket Book Lost.

On Saturday last between corner George and Charlotte streets and G.T.R. depot, a pocket book containing ticket to Lakefield, and some bills. The finder will be rewarded by leaving same at Times Bookstore.

Xmas Decorations.

See us for Christmas decorations, we have a nice assortment of red holly, wreaths with bell suspended in center, festooning twelve feet long, lanterns in five and ten-cent size, candles, etc. Times Bookstore.

Both Telephones at the Rink.

There will be two telephones at the local curling rink this season, the Bell and Mitchine. They have already been installed. The number of the Bell 'phone is 564 and that of the Mitchine 'phone 127. This is the first year that there has been a machine 'phone at the rink.

Rapid Tool Co. to Get Busy Jan. 2nd.

The Rapid Tool Company, now have all their machinery installed, and ready for making their wonderful bits. The bits will be first made on January 2d. This is the most rapidly constructed and equipped factory of its size in Canada. Building operations began on Aug. 31st, and by Dec. 15th, the factory will be complete. The delay in making the bits is caused by lack of dies which are now being made as quickly as possible.

Woodmen Elect Officers.

Sherwood Forest Camp, No. 50, Woodmen of the World, has elected the following officers for the ensuing term:

Past Con. Com.—T. Duncan.
Con. Com.—R. N. F. Jones.
Adv. Lieut.—F. Arnsby.
Banker—J. Kyle.
Clerk—A. A. Heakill.
Escort—A. H. Dryland.
Watchman—Geo. Worney.
Sentry—Wm. Tayler.
Managers—R. Wasam, D. McKercher, R. Goodsborough.

The new elected officers will be installed on Monday, Jan. 14.

LOCAL INCIDENTS

By The Times Man on the Street

—Ald McWilliams is out for the mayoralty.

—The social Bible Class of the Y.M.C.A., led by Dr. Middleton, held their monthly social last night.

—It is expected that the Radial Railway Company's rink and toboggan slide will be formally opened tonight.

—The pupils of Mr. Cecil Carl Forsyth gave a recital in St. Andrew's Sunday school rooms yesterday evening.

—A Bachelors' Social was given in All Saints' church school room yesterday evening under the auspices of the Young Men's Guild.

—The regular meeting of Court Stanley, No. 7,680, A.O.F., was held yesterday evening in the S.O.E. Hall, when officers for the coming term were elected.

—Rev. Dr. O'Meara, principal of Wycliffe College, Toronto, will preach in St. John's church on Sunday morning next, and in St. Luke's church in the evening.

—The new studio at 113 Simcoe street, which has been secured by the Peterborough branch of the Women's Art Association, will be opened on Thursday afternoon.

—Mr. Jas. Flynn, late proprietor of Hotel Royal, has purchased Mr. Parker's fine brick residence on Dennistoun avenue; we understand the price paid was a heavy one.

—An open meeting of Dan Spence Council, Royal Templars of Temperance, was held in the Foresters Hall, George street, yesterday evening. Mr. Peake, of Toronto, gave an address.

—Rev. Dr. Bishop, pastor of Cambridge street Methodist church, Lindsay, will preach missionary sermons in George street church on Sunday next. He will also address the men's meeting at the Y.M.C.A. in the afternoon.

—The new rooms of the Young Men's Club of George street church, on George street, will be formally opened on Friday evening. The rooms are now ready. The papers and magazines will be here before the formal opening on Friday night.

WHAT IS CATARRH?

Simple Way to Overcome the Dangers of this Disagreeable Disease.

Catarrh is an inflammation of the mucous membrane of the nose, throat and lungs, with many annoying symptoms. In this climate there are few who do not suffer from this disagreeable disease, often in a chronic and dangerous state.

Fortunately, within the last few years, a simple and reliable treatment for catarrhal troubles has been found—Hyomei, a combination of healing and germ-killing balsams, that, when breathed through the neat pocket inhaler that comes with every outfit, reaches the tiniest cells in the respiratory organs, carrying its healing and health-giving properties to every part where the catarrhal poison is present.

Used in this way, Hyomei kills all catarrhal germs, drives the poison from the system and heals all irritation that may be present in the mucous membrane.

If you have the ordinary catarrhal symptoms, such as offensive breath, morning pains in the throat, cough, raising of mucous, difficulty in breathing, sneezing, hoarseness, discharge from the nose, droppings in the throat, coughing spasms, etc., begin the use of Hyomei at once.

The complete Hyomei outfit costs but $1.00, extra bottles, if needed, 50 cents. We do not want anyone's money unless Hyomei gives relief and cure, and we absolutely agree that money will be refunded unless the remedy gives satisfaction.

All druggists should be able to supply you with Hyomei or we will send it by mail on receipt of price, and every package is sold with the distinct understanding that it costs nothing unless it cures. Write us today for the symptom blank, which we will send you free, together with treatise on Catarrh and how to cure it. When you fill in and return to us the symptom blank, our consulting physician will give your case the best care and attention, and write you a letter of advice without charge. Booth's Hyomei Company, Buffalo, N. Y.

Xmas Party at the Y. M. C. A.

A Christmas party will be held at the Y.W.C.A. rooms this evening at eight o'clock. All young women are cordially invited to attend. There will be a musical program, games and refreshments. Miss Coventry will have charge of the games and Miss Bradd the musical program. A pleasant time is anticipated by all.

Mr. Lowry Hurt in an Elevator.

As Mr. S. W. Lowry, an employe of Messrs. Robert Fair & Co., was on top of the elevator car, and had to ascend slowly, whilst oiling the slides, he failed to stop it in time. The result was that his hip and side were injured. The Dan Spence ambulance was called, and Mr. Lowry was taken to St. Joseph's hospital. It is expected that he will be around again in a day or two.

The Best Guaranty of Merit is Open Publicity.

Every bottle of Dr. Pierce's world famed medicines leaving the great laboratory at Buffalo, N. Y., has printed upon its wrapper all the ingredients entering into its composition. This fact alone places Dr. Pierce's Family Medicines on a *close call by themselves*. They cannot be classed with patent or secret medicines because they are neither. This is why so many unprejudiced physicians prescribe them and recommend them to their patients. They know what they are composed of, and that the ingredients are those endorsed by the most eminent medical authorities.

The further fact that neither Dr. Pierce's Golden Medical Discovery, the great stomach tonic, liver invigorator, heart regulator and blood purifier, nor his "Favorite Prescription" for weak, overworked, broken-down, nervous women contains any alcohol, also entitles them to a place all by themselves.

Many years ago, Dr. Pierce discovered that chemically pure glycerine, of proper strength, is a better solvent and preservative of the medicinal principles residing in our indigenous, or native, medicinal plants than is alcohol; and, furthermore, that it possesses valuable medicinal properties of its own, being demulcent, nutritive, antiseptic, and a most efficient antiferment.

Neither of the above medicines contains alcohol, or any harmful, habit-forming drug, as will be seen from a glance at the formula printed on each bottle wrapper. They are safe to use and potent to cure.

Not only do physicians prescribe the above, non-secret medicines largely, but the most intelligent people employ them—people who would not think of using the ordinary patent, or secret medicines. Every ingredient entering into the composition of Dr. Pierce's medicines has the strongest kind of an endorsement from leading medical writers of the several schools of practice. No other medicines put up for like purposes has any such *professional* endorsement.

Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. One "Pellet" is a gentle laxative, and two a mild cathartic. Druggists sell them, and nothing is "just as good." Easy to take as candy.

SOCIAL AND PERSONAL

—Dr Morrison was in Toronto on business yesterday.

—Mr C. L. Owen of Campbellford, was in the city yesterday.

—Mrs Donald M. Potter will receive this afternoon, and not again until after New Years.

—Mr. A. Montizambert of Lindsay, the newly appointed manager of the Bank of Montreal branch here, is in the city.

—Miss Edith Scott, east ward, returned home yesterday after a three weeks' visit with relatives in Galt and Woodstock.

—Messrs. William and Sydney Kingdon, who have been spending the past few months in the Old Country have returned to the city.

—Mr W. J. Francis, C.E., of the Dominion Engineering and Construction Company, Montreal, formerly of Peterborough, is in the city.

—Mr. Geo. Wilkins and family, and Mr. C. F. Allen, who have been employed by the W. Hamilton Manufacturing Co., left last night for Hamilton.

—Mr William Croft yesterday received a telephone message from Kingston, stating that his daughter Mrs A. McNeil, matron of the Rockwood hospital in that city, is improving. Mrs McNeil has had a very severe attack of pneumonia, and her many friends in this city will be pleased to learn of her convalescence.

Great Money Made in Oil Stocks

Now is the right time to get in on the ground floor and buy a most promising oil stock, viz. that of the Nevada Home Oil Co., incorporated under the laws of Arizona.

It is well known in financial circles that there is more money made in buying oil stocks in a new field than in any other line of investment. The Nevada Home Oil Company has a capital stock of $1,500,000, the shares having a par value of $1.00 each, full paid and non-assessable.

This company has 700,000 shares of treasury stock and 13,760 acres of selected lands. Their acreage was all selected for the excellent indication of oil long before any one else was on the field.

It is reported by experts on oil properties that the Nevada Home Oil Company will get a light gravity paraffine oil worth about $2 per barrel. This company's directorate has some of the best known financiers of the United States, in control of its business and will undoubtedly make a great success of their property.

For a limited time only the company are offering shares of their stock at 5 cents per share of a par value of $1 as noted above. For full particulars address the Nevada Home Oil Co., Lock Box 54, Las Vegas, Nevada.

Y. M. C. A. Debating Club Meet.

The Y.M.C.A. Debating Club will hold its regular fortnightly meeting this evening at eight o'clock. The following program, one of the best, is offered:—

Current Events—By Mr. R. Cooke.
Review—"The Man from Glengarry" by Mr. Boyd.
Review—"The Prospector"—Mr Howarth.
Debate—"Should Canada Encourage Immigration?"
Affirmative—Chas. Coleman.
Negative—Frank Simpson.

Mr. McWilliams Will Run.

There are two candidates now for the honorable position of Mayor of this city. As before noted, Mr. R. Hicks an able and experienced city father, has decided to run for this position under most favorable auspices.

Now Ald. McWilliams has definitely decided to enter the race for that position. Mr. McWilliams' past career both in the council and elsewhere is too well known to require comment. Mr. McWilliams will undoubtedly put up a stiff fight for the office.

BY-LAW NUMBER ____

A By-law to Provide for Borrowing the Sum of Thirteen Thousand Eight Hundred and Fifty Dollars for the Purpose of Reconstructing and Repairing Bridges in the City of Peterborough.

Passed the day of 1907.

WHEREAS it is necessary to rebuild the bridges over the Creek on Brock and King streets in the said City of Peterborough and to repair the bridges over said Creek on Reid and and Dalhousie streets, and it is desirable in order to make the said bridges more permanent that the ones to be rebuilt should be constructed of iron and surfaced with concrete, and those to be repaired should also be surfaced with concrete, and it is estimated that the cost thereof will be the sum of Thirteen Thousand eight hundred and fifty dollars, and it is desirable to pass this By-law, to be submitted to the vote of the duly qualified electors of the said City of Peterborough on the same day as the annual election for the Municipal Council of the said City for the year 1907, to authorize the borrowing of the said sum of $13,850 for the purposes aforesaid, which is the amount of the debt intended to be created by this By-law.

AND WHEREAS in order to raise the said sum of Thirteen thousand and fifty dollars it will be necessary to issue the debentures of the Corporation of the City of Peterborough for the said amount.

AND WHEREAS the amount of the whole rateable property of the Municipality, according to the last revised assessment roll, being for the year 1907, is the sum of Six million nine hundred and fifty-four thousand seven hundred and thirty-one dollars ($6,954,731).

AND WHEREAS the amount of the existing debenture debt of the Municipality, exclusive of local improvement debts, but including the debt of $291,000 incurred for the purchase and improvement of the waterworks, is the sum of Seven hundred and four thousand and fifty-five dollars and nine cents ($704,055.09), and there is no part of the principal or interest in arrear.

AND WHEREAS it will require the sum of Five hundred and fifty-four dollars ($554) to be raised annually for a period of twenty years, the currency of the debentures to be issued under and by virtue of this By-law, for paying the interest on the said debt, and the sum of Four hundred and eighty-nine dollars and seventy-five cents ($449.75) to be raised annually during the said period for providing a sinking fund for the payment of the same at maturity—such last mentioned sum being sufficient, with the estimated interest on the investment thereof, to discharge the said debt when the same becomes due, making in all the sum of One thousand and forty-three dollars and seventy-five cents ($1,043.75) to be raised annually as aforesaid, by rate on the whole rateable property of the Municipality.

THE CORPORATION OF THE CITY OF PETERBOROUGH BY THE COUNCIL THEREOF THEREFORE ENACTS AS FOLLOWS:

1. This By-law shall take effect on the final passing thereof.

2. It shall be lawful for the Council of the said City of Peterborough to borrow the sum of Thirteen thousand eight hundred and fifty dollars and to issue the debentures of the said Corporation for the said sum, such debentures to be sealed with the Corporate Seal of the City of Peterborough and to be signed by the Mayor and Treasurer and countersigned by the Secretary of the Commissioners of the Peterborough City Trust, and to be made payable within twenty years after the issue thereof, and to bear interest at the rate of four per centum per annum payable half-yearly on the thirtieth day of June and the thirty-first day of December in each year and to have coupons attached thereto for the payment of such interest; such debentures as to principal and interest to be payable at the office of the Secretary of the Commissioners of the Peterborough City Trust in the City of Peterborough.

3. There shall be raised and levied during each year of the currency of the said debentures by a special rate upon all the rateable property of the Municipality, the sum of Five hundred and fifty-four dollars ($551) for payment of interest and the sum of Four hundred and eighty-nine dollars and seventy-five cents ($449.75) as a sinking fund for the payment of the said debt at the maturity thereof, making together the sum of One thousand and forty-three dollars and seventy-five cents ($1,043.75) to be raised annually as aforesaid.

4. The proceeds of the said debentures when sold shall be applied in rebuilding and repairing and surfacing with concrete the said bridges.

5. The votes of the electors of the City of Peterborough qualified to vote upon By-laws for creating debts shall be taken upon this By-law on the same day as the annual election for Municipal Council for the year 1907 and the polls will be held during the same hours, at the same places and by the same Deputy Returning Officers and Poll Clerks as are appointed and fixed for the said annual Municipal election.

6. The eighth day of January, 1907, at the hour of twelve o'clock noon and the City Clerk's Office are hereby fixed as the time when, and the place where, the Clerk will sum up the number of votes given for and against the By-law.

7. The fifth day of January, 1907, at the hour of twelve o'clock noon and the office of the City Clerk are hereby fixed as the time and place for the appointment of persons to attend at the various polling places at the final summing up of the votes by the Clerk respectively, on behalf of the persons interested in and promoting or opposing the passing of the By-law respectively.

Mayor.
Clerk.

NOTICE

Take notice that the foregoing is a true copy of a proposed By-law which has been taken into consideration and which will be finally passed by the Council of the City of Peterborough (in the event of the assent of the electors being obtained thereto) after one month from the first publication hereof in the Morning Times newspaper, the date of which first publication is the fifth day of December, 1906, and that at the hour, day and place therein fixed for taking the votes of the electors the polls will be held.

S. B. ARMSTRONG,
City Clerk.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

The Morning Times

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIV. NO. 292 PETERBOROUGH, ONTARIO, THURSDAY, DECEMBER 13, 1906 PRICE TWO CENTS

FARMS OF ONTARIO PRODUCE IMMENSE WEALTH

W. M. Hays, Assistant U. S. Secretary of Agriculture, at Guelph

APPLE PRODUCTION WASTED

Many Addresses Given at the Ontario Experimental Union.

Guelph, Dec. 13.—In a paper before the Ontario Experimental Union yesterday on "The Improvement of Plants and Animals," W. M. Hays, Assistant Secretary of Agriculture for the United States, said that the Ontario Experimental Union was one of the brightest stars in the whole realm of agricultural organizations throughout the world. Co-operation between the State and the individual in the matter of agriculture was an absolute necessity, if the farm and the farm home were to be retained to the farmer and saved from the modern tendency to centralize all industries in the hands of the few.

"Ontario and Minnesota have led," he said, "in point of time in developing State plant-breeding establishments, and in proving two facts of mighty import to these commonwealths and to the world. The first of these facts is that the world's staple crops can be so improved in their powers of heredity that they will yield twenty-five per cent. more value per acre. The second of these facts is that this remarkable increase can be accomplished at a cost of one-tenth of one per cent. of the increased value of the crop."

BIG MONEY IN IT

Professor Hays proceeded to apply these statements to the Province of Ontario. In forty years, twice the length of time the experimental station at Guelph had been at work there would be a 25 per cent. increase in the value of Ontario's farm production, or $25,000,000 annually. The cost of that increase, or a one-thousandth part, would be $25,000 annually, leaving a net profit to the Province of $24,975,000 annually, or $999,000,000 in forty years. If these figures were based on sound evidence, they represented an economic enterprise of more concern to legislative bodies than all their tariff and taxation schedules combined. If the proposition were one hundredth part true, if the cost of breeding should be ten times the estimated cost, and the increased yield of crops possible thus to produce only one-tenth that claimed, still the cost would be only one-tenth of the increased production.

Mr. Hays estimated the increase in the value of Ontario crops due to the work of the Experimental Union at $3,000,000 per annum. Assuming that only half of this was due to the improved varieties distributed, and the other half to better farming, there remained $1,500,000 per annum, or $40,000,000 for the ten-year period to represent the farmers' profits from the work of the Union. And this represented only a part of the work of experimentation conducted. The cost during the past decade on all the work on all kinds of crops which might properly be charged to the improvement of field crops had been under $60,000, which was the one-tenth of one per cent. of the improvements perfected.

APPLES WASTED.

Robert Thompson, of St. Catharines, in discussing the subject of Ontario's commercial interests, declared that the farmers of Ontario were not properly taking advantage of their opportunities to make money out of fruit-growing. Of a total crop of some 50,000,000 bushels of apples in Ontario only one-half was saved through neglect of proper spraying, proper selections, etc. Two-thirds of the crop of fruit had been sent out to the Canadian West, under the direction of railroads, and almost without exception the shipments had been unqualified success. The future of Ontario's trade in fruit with Western Canada promised much larger profits to our fruit-growers. The market was unlimited. The only thing needed was proper packing and shipping, proper labeling, and more aggressive efforts to capture the market.

hockey rink is 175x80 feet.

• • • •

Belleville Intelligencer: Manager Arnott now has a splendid rink with a splendid outlook for a prosperous season. When one first enters the rink he is struck with the similarity to the old one. In fact there is good reason for this, because the style of architecture and the appointments are practically the same. The main difference is in the length and breadth of the ice surface, which is considerably larger. At the southern end will be found two reserved seats, instead of at the side, as formerly. The two galleries on both sides are the same as the old rink, and the band will be housed over the entrance as formerly.

• • • •

Percy Lesuer and Hatold Armstrong, two of the new Ottawa hockey team recruits, went to Ottawa from Smith's Falls especially to participate in the practice of the Ottawas. It will be a week before either of the new men take to the ice opposition in that city. Lesueur occupies a position in the Union Bank, while Armstrong is similarly located in the Bank of Ottawa.

Representatives to city league meeting—H. Morgan F. J. Whitcroft.
Auditors—W. J. Crowley and A. M. Regan.
Trainer—E. Dillon.

MORE TARIFF DEPUTATIONS

Quebec Boot and Shoe Manufacturers Want More Protection.

Ottawa, Dec. 12.—The Government received yesterday requests for the re-construction of several items in the new Customs tariff. A large deputation of boot and shoe manufacturers from Quebec, asked for the increase of the rate on boots and shoes from 25 per cent. to 35 per cent. This plea is based on the relatively high rate of taxation imposed on the raw material and equipment for their factories, and the same representations were addressed to the Tariff Commission, when it visited Quebec last year.

Two deputations are also on hand from Halifax, one of sugar refiners, seeking the same relative rate of protection as they enjoyed before the recent revision. The other, made up of wholesale importers, asking for more direct encouragement of the import trade from the British West Indies.

BIG DRY DOCK FOR THIS LAKE

It Will Be Built at Ogdensburg by a Boston Syndicate.

Ogdensburg, N.Y., Dec. 12.—The contract was let yesterday for the erection in this city of a drydock and shipyard carriage large enough to handle any vessel that can pass through the Welland canal. Boston parties secured the contract for the work, at $30,000.

The shipyard will be of great advantage to marine interests on the St. Lawrence River and Lake Ontario. The nearest American drydock of such proportions at present is at Buffalo.

AFTER TYPHOID

The Insatiable Appetite Must Be Carefully Watched.

An attack of typhoid fever usually leaves one with an enormous appetite. The wasted body cries out for food material to repair the loss of body tissues.

If care is not used, the weakened digestive organs may be overwhelmed before they have become strong.

There is no food that has the tissue-building and energy-producing qualities equal to Grape-Nuts.

This food is predigested—the organs are relieved of the necessity of digesting it; it is concentrated—affording much nourishment with little bulk; contains all the essential food elements for repair and energy. It is therefore valuable under conditions of health as well as convalescence.

A Calif. young lady learned the truth about Grape-Nuts. She writes:

"About four years ago I had a severe attack of typhoid fever. After recovering I had a wild longing for food which nothing seemed to satisfy.

"I tried the best of everything, but was always weak and hungry. A change to a milder climate did not matter matters—and did not agree with me.

"A friend persuaded me to try Grape-Nuts. To my great surprise I did not experience that hungry feeling between meals. It was a great relief and I kept on eating it with great benefit.

"Grape-Nuts not only relieved that wild craving for food, but made me stronger in mind and body—relieved me of headaches, weakness, strengthened my nerves so that I was easily able to do my work.

"I have never tired of Grape-Nuts as one does of most cereal foods. My friends were so surprised at my improved condition after eating Grape-Nuts regularly, that many have benefited by my experience. Name given by Postum Co., Battle Creek Mich. Read the famous little book, "The Road to Wellville," in pkgs. "There's a reason."

A BANQUET FOR CAPT. ROBERTSON

Port Arthur Will Show Sympathy for Captain of the Steamer Monarch

PASSENGERS DOING WELL

James Jacques, the Sailor Who Was Lost, Suffering from Temporary Blindness at the Time.

Port Arthur, Dec. 13.—Capt. Robertson and a number of the passengers and crew of the ill-fated steamer Monarch, are still in town, and now nearly recovered from the effects of their most trying experience.

Captain Robertson says that after leaving Port Arthur harbor the log was put out. This was carefully watched at Thunder Cape. some 13 miles out from this port, the log was examined and found to be correct. When nearing Passage Island lighthouse, two flashes of the light were seen, although it was snowing heavily. The light then became visible, and he was running with his compass and log. A strong gale was blowing from the north. On again examining the log only ten miles was registered from Thunder Cape, which he knew from experience was incorrect. The log had become frozen. He altered his course one point north to counterbalance the force of the wind, which he knew would drift the boat slightly from her course.

This evidently was not enough, for even with these precautions, naturally considered she had drifted in the narrow passage to the jutting rocks on the shores of Isle Royale. She now lies on a ledge rock at an angle of about 45 degrees, with her stern in the water. The depth of the water below is in the neighborhood of 200 feet. There is every possibility of her slipping off and going to the bottom.

WILL BANQUET CAPTAIN.

Captain Robertson has been the recipient of the sympathy of every citizen of the two towns. His many friends here have arranged a banquet and a presentation to be given in his honor. Contrary to rumors of his retirement from active service, the captain will again be a frequent visitor to this port next year in command of another vessel of the company.

WAS TEMPORARILY BLIND.

It develops that James Jacques, the sailor who was lost on the Monarch, was suffering from an attack of temporary blindness, a malady from which he had suffered at intervals for several years. For two days his vision was so obscure that it was impossible for him to discern objects at a distance of three or four feet. Although advised by fellow-sailors to go ashore, he seemed possessed of the opinion that he was going to be set adrift on the abandoned vessel. Excitement actuated by a fear of being deserted, it is believed, prompted him to attempt to reach the lifeboat unassisted. His body was never seen after it struck the water.

H. H. Gildersleeve, general manager of the Northern Navigation Co., owners of the Monarch, which went ashore, states that no attempt will be made to salvage the steamer.

AMERICAN COMBINES

Britain Refuses Sanction to Scheme to Combat Two of Them.

London, Dec. 12.—The British Government has refused its sanction to a scheme, proposed by a powerful syndicate, to bring cattle and sheep from South America, Canada and elsewhere to the British island of Alderney, where it was planned to slaughter them and distribute the carcasses. A Great Britain. The hides and by-products were to be treated for the benefit of the British leather industry with the view of combatting the American beef and leather combines.

Ontario Bank to Pay 40 Per Cent.

Shareholders of the Defunct Bank Will Get Forty Cents on the Dollar.

A Toronto despatch says:

When all the liabilities are paid be assets of the defunct Ontario Bank will amount to about $980,000, and in addition $150,000 will be paid over by the Bank of Montreal, for the business of the bank. This was the announcement made by Mr. A. D. Provart, the curator, at the special general meeting of the shareholders held in the central offices on Scott street, Tuesday afternoon. In the assets, however, must be included some bad debts, the total amount of which was not stated. The assets include the bank's premises.

This statement came as a welcome relief to the shareholders, who, in many instances, were fearful of incurring a double liability. It was estimated from the above statement that a dividend of 40 per cent. would be paid on the shares after the bank is wound up.

The meeting was called to order about 2.30 o'clock, and the utmost precautions were taken to exclude all but bona-fide holders of stock. Several persons who had proxies were turned away. About 100 were present. The following directors were unanimously elected.—Mr. H. C. Hammond, Mr. E. R. Wood, Mr. Chalmir Gnowski, M.. Barrow Cumberland and Mr George Reedy. Mr. Hammond was elected to the chair and will probably be appointed president at the directors' meeting today.

At the outset of the meeting Mr George R. P. Cockburn, the president, took the chair and read a statement on behalf of himself and the other retiring directors in regard to their connections with the bank.

An Englishman's View of Canadian Press

London, Dec. 13.—At the Royal Colonial Institute, Mr. Arthur Weckett read a paper on the colonial press and took a line of high and cordial appreciation of the press and pressmen as a whole. He referred to the right hold which home and foreign news possessed generally.

Canada, in proportion to her population, had a large number of progressive papers, but the Old Country had nothing to learn from the Canadian press, which, he Canadian journal was largely dominated by the manufacturing interests. It was curious fact that while London letters reflecting British opinion went to Australasia and the United States he knew of no London letter sent to Canada, except one or two to big important papers. Space was devoted to local interests rather than to the interests of the Empire, but the papers from a journalistic point of view were quite excellent.

If there was a fault, it was to be found in the absence of a British bias. Concluding, Mr. Weckett urged the danger in transmitting news to the colonies through foreign agencies, and said he was filled with a feeling of pride that his colleagues in distant lands were maintaining the dignity of their calling and proving themselves worthy of the title of gentlemen of the press.

Discussing the paper, Prof. Dewar eulogized the Imperial work of the Canadian Associated Press, and suggested an Imperial news agency. Mr. Donald McMaster asked why the Canadian press should have a critical bias; there was not a single paper with British antipathy.

NO PEACE YET BETWEEN FRANCE AND THE VATICAN

Application for Right to Hold Usual Religious Services Refused

MIGHT CONCILIATE VATICAN

Seized Documents May Prove the Existence of a Conspiracy.

Paris, Dec. 13.—The day of grace granted to local churches in the execution of the law providing for the separation of Church and State postponed until today the measures for its enforcement. The delay, however, was only caused by the excitement caused by the expulsion from Rheims yesterday of Mgr. Montagnini, secretary to the Papal Nuncio at Paris.

Prosecutions have been begun against the extremonstrine abbes of the Churches of St. Pierre Du Gros Caillou, St. Augustin, and St. Roch, where the greatest resistance to the taking of the inventories occurred and it has been decided immediately to take over the buildings belonging to the ecclesiastics, stop the pensions of the clergy, compel aspirants to the priesthood to fulfill their military obligations, and if necessary, treat the clergy as subjects of a foreign power. This constitutes a sufficient demonstration of the spirit with which the Government intends to meet resistance. The reception of Premier Clemenceau's speech in the Chamber of Deputies also shows that he has the Parliament at his back. Nevertheless, M. Clemenceau was careful to say that there still was time for the Catholics to conform with the law.

LAYMEN FILE APPLICATION

That the rank and file of the Liberal Catholics disapprove of the intransigeant attitude of the authorities at Rome was evidenced by the fact that M. Martinet, editor of the Renaissance, and Felix Robin, filed on their own initiative, with Prefect of Police Lepine yesterday, an application under the public meetings law of 1881 for permission to hold religious meetings in all the churches.

It was at first announced that the Government had instructed the prefect to accept the application, but it developed later that he only formally acknowledged its receipt, and decided that a general application covering all the churches was irregular.

He also announced that unless applications were filed by two authorized persons in behalf of each church measures for reporting violations of the law would commence at the time limit for early mass today.

It turns out that the papers seized at the Papal Nunciature yesterday placed in the Government's hands important evidence which may prove embarrassing to the Vatican if upon examination they implicate the dignitaries of the Church in the conspiracy to bring about a rupture with the Vatican. Recent instructions from Cardinal Merry Del Val, the papal secretary of State, a mass of letters from prelates all over the world, and reports in the handwriting of deputies of the Right part.

M. Jaures, the Socialist leader, asserts in his paper that the seized documents even prove the existence of a conspiracy.

MIGHT CONCILIATE VATICAN.

Rome Dec 13 — The Vatican authorities qualify the action of the French Government "as having Mgr. Montagnini accompanied to the frontier by police as being "an odious action showing a desire to insult hospitality on those who because of their weakness cannot retaliate."

I believe even now that, notwithstanding the gravity of the situation, France would not find it difficult to conciliate the Vatican if negotiations were opened. In the meanwhile, all the Vatican forces have been mobilized to take part in the campaign. Even Father Wernz, the General of the Jesuits has joined the belligerents.

The latest instructions sent to the French clergy are, in substance, that they are to look upon the situation from its worst possible aspect and organize private religious services.

Y. L. M. of St. Andrew's Elect Officers

The Young Ladies Mission Circle of St. Andrew's church at their annual meeting, held in the manse, with Miss Bertram president, in the chair, elected the following officers for the ensuing year:

President—Miss D. Langford.
1st Vice-Pres.—Miss M. Edmonson.
2nd Vice-Pres. — Miss Mamie Thompson.
Sec.—Miss Lizzie Smith.
Treas.—Miss D. Kennedy.
Convenor of Clothing Committee — Miss Sadlis.
Convener of Refreshment Committee—Miss Rena Langford.
Organist—Miss Rose.

AN EAGLE AT OAKVILLE

Measured Six Feet Eight Inches from Tip to Tip.

Oakville, Dec. 12.—George Gorrie, a well-known local huntsman, shot an eagle here measuring six feet eight inches from top to tip of the wings. The eagle was sailing along the lake shore watching for offal. This is the second eagle that Mr. Gorrie has shot here.

OUT OF SORTS

People Not Really Sick Are Often Most In Need of Care.

The people who actually are most in need of kind words and medical treatment are not those who are really sick, but just "out of sorts."

The old-time energy, force, strength and happy spirits are lacking, the physical and mental powers are lagging; there is poor appetite, and they cannot get the good out of the food they eat. In nine cases out of ten, this results directly from a weakened stomach, and no other treatment equals Mi-o-na to restore strength and health.

When the nerves and muscles are weak, if there is sleeplessness, irritability, and specks before the eyes, when the head aches and there is a dull pain in the back, and there is any distress and heaviness in the stomach, dizziness, and sometimes nausea, the use of Mi-o-na stomach tablets for a few days will make a world of improvement, and continued use for a reasonable time will restore perfect health.

These tablets are not mere digestives; they absolutely strengthen all the organs of digestion, so that there is good appetite, perfect digestion and strong nerves, when they are used.

We absolutely agree that your money will be refunded should you buy a 50-cent box of Mi-o-na stomach tablets and not be satisfied with the results. Mi-o-na is sold by druggists everywhere, or will be sent by mail on receipt of price, 50 cents.

Write today for a free sample package, and also give us your symptoms, and one of the best known stomach specialists will give your case his careful and personal attention without charge. Booth's Hyomei Company, Buffalo, N. Y.

Woman's Art Ass'n Opens Today

The formal opening of the new studios of the Woman's Art Association at 213 Simcoe street, take place this afternoon at two o'clock. The tea at today's opening will be in charge of Mrs. R. M. Dennistoun and is open to the public. The exhibition of arts and crafts which will also be open to the public, promises to create great interest and is deserving of hearty patronage. The studio will be kept open on Friday and Saturday afternoons from 3 to 6 o'clock.

Delay in Building New Normal Schools

Will Probably Not Be Opened Before Next September.

A despatch from Toronto says that owing to unavoidable delay in obtaining sites and completing arrangements of the building of the four additional Normal schools at Hamilton, Stratford, Peterborough and North Bay respectively, they will probably not be opened until September, 1908.

In the meantime the Education Department expects to promptly commence the remodelling of the old Normal schools, all of which will be enlarged to accommodate twice the present number of students.

The recent visit of Mr. A. H. U. Colquhoun, deputy minister, and Dr. John Seath, superintendent, to London, had, it is understood, to deal with this matter. The work of reorganizing and enlarging the London Normal school will commence as early as data.

SPORTING TOPICS

THE TURF.

A Times representative yesterday interviewed Messrs. P. O'Connor, president, and Mr. Connors, track manager of the local Turf Club, regarding the probability of a winter meet in Peterborough. These gentlemen were both enthusiastic regarding the prospects for races this season. Whilst nothing definite is yet decided, it might be safely said that there will be four classes in the winter meet. Arrangements are now in progress to get the track into shape. There is not enough snow there at present to have scrapers on the track, but during the afternoon several local horsemen speeded their horses round, thus breaking a fairly good track, which will soon be in first-class shape.

NO LABORERS IN ST. PIERRE

Sydney, N.S., Dec. 13.—With fifty-five passengers, all of whom are for different parts of Quebec, the steamer Miquelon arrived in port yesterday after an exceedingly rough passage. Dr. Brisson, immigration agent for the Quebec Government, met the immigrants, and will escort them to Quebec and Montreal. From statements made by passengers, the colony of St. Pierre is being very rapidly depopulated. There is scarcely a fishing man to be found in St. Pierre, they declared, and a few left the island recently before the close of navigation. The place is reduced to great straits because of the need of laborers and mechanics. Complaint is made that it was impossible for them to secure meat to repair vessels this spring. The local papers are urging an appeal to the home Government for some measure to keep the native born at home, and promise that the matter will be taken up at once.

The council to send delegates to France to attend the general council of the colonies takes place on December 20th, and the principal part of the delegates from St. Pierre will be urging the French Government to stay the tide of immigration and provide work for the masses, who are now obliged to give up their homes in search of work in the West of Canada. The papers admit that almost any measure may prove too late, as the majority of the working classes have left the island.

Does Consumption Begin in Childhood?

Stuttgart, Germany, Dec. 13.—Professor Von Behring read a paper here last night before the Society for the Cure of Sick in the Colonies on his method of treating tuberculosis. According to Prof. Von Behring's view consumption is the "last verse of the song of which the first verse was sung in the infant's cradle."

In other words, he believes that the bacilli of tuberculosis find their way into the human system through milk. His theory directly contradicts Dr. Robert Koch's doctrines, that tuberculous milk is not dangerous, and that consumption in most cases is contracted as a result of breathing. Prof. Von Behring holds that the germs reach the lungs through the lymphatics and blood vessels. He contradicted Dr. Koch flatly in the matter of tuberculous milk, which Dr. Koch considers to be most harmless. Prof. Von Behring, on the other hand, says that germs on a tuberculous cow are no more dangerous than the germs originating from another human being. The professor intends to recommend his remedy, called "Tuberculin," as a preventative of tuberculosis in infants. It was expected that during his talk Prof. Von Behring would communicate the secret of his remedial preparation, but he failed to do so.

Piles get quick relief from Dr. Sheop's Magic Ointment. Remember it's made alone for Piles—and it works with certainty and satisfaction. Itching, painful, protruding, or blind piles disappear like magic by the use. Try it and send J. D. Tully.

Mr. R. Hicks Wants a Clean Canvas

(To the Editor of The Times.)

Sir,—Will you permit me to say a few words regarding the statement made by Ald. McWilliams that he "has the first right to the mayor's chair."

Lest the ratepayers may assume there is some truth in the statement I wish to point out the fact and allow me to say that I am slightly better entitled to seniority in this respect than Ald. McWilliams.

I have been elected alderman for three years consecutively and during each year the ratepayers are in a position to judge of the services which I have rendered.

Mr. McWilliams has also been an alderman for three years, but not consecutively, he having dropped out to suit his own convenience, after having served two years.

I am pleased to notice that Ald. McWilliams positively states what we had already agreed to, that is, to conduct our campaign free from personal feeling. I fully appreciate the spirit in this respect. I am as anxious as he is to make the campaign a clean one. We were both school boys together, and "since the parting of the ways" I do not know of any event in our lives that would excuse us from being anything but fair aspirants for civic honors.

Yours, etc.,
R. HICKS.

Grand Jury Present Their Report

Yesterday morning the Grand Jury in connection with the general sessions presented the following report to his Honor Judge Weller;

Your Grand Jury beg leave to present the following report;

We have had only one case of a criminal character presented to us, in which we have found a true bill. We deem it a matter for sincere congratulation that there is so little crime to be found in this county and we trust that happy condition may continue for many years.

We have, as directed by your Honor, visited the county jail, and found everything in excellent condition, and are well satisfied with the work of the officers of the jail. We found 13 inmates, of whom four were old men, who are not there for any crime. We are glad to know that the conditions of affairs will shortly be put an end to by the opening of the county house of refuge, and we trust that arrangements will be speedily made for the care of such unfortunate residents of the city, in as good manner as has been provided by the county.

In view of the excellent reports of previous grand juries and of the knowledge of many of us, we did not consider it necessary to visit the hospitals or charitable institutions.

TIREDNESS MEANS DANGER!

Indicates Pasty Blood and Worn-Out Nerves—Build Up, or Total Collapse will Surely Follow.

When you're tired all day, bothered by trifles, exhausted with nervousness, be sure there is something wrong.

You need bracing up, need more nourishment in the blood, need a powerful nutritive to vitalize the nerves and distribute force and staying power to all over-worked organs.

The most marvelous success is Ferrozone, a nourishing tonic so scientific as to be the admiration of every physician. Ferrozone performs wonders for people in poor health; it acts directly on the blood, enriching it with strength and new life that is at once dispatched to all parts of the body. Ferrozone feeds the nerves and vital energies, supplies force, determination and joyous, buoyant spirits.

A case where there was lassitude and lack of strength is told by Mr. David Brown, of post-office box No. 99, Boston, Ont.. "About a year ago my health commenced to fail. My hands and feet seemed always cold. I felt worn-out and exhausted, weak as a little child. My face twitched. My limbs and arms commenced to lose their sense of feeling and finally my left side was perfectly numb. All my color left. My appetite ran down. Ferrozone was the first to give me any help. I improved with it very quickly. It toned up the blood and started circulation, so that the numbness gradually disappeared. My condition was perfectly cured by Ferrozone, and I have been well ever since. (Signed) "David Brown."

SPECIAL NOTICE—To get satisfactory results be sure you get Ferrozone only. Fifty cents per box or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U. S. A.

MAN NEVER SATISFIED

Discontent is never so common as when prosperity is abundant. Men are never so noisily miserable as they are when they have nothing to complain about.

That is why we hear so much nowadays of social unrest. The country is rich beyond the visions of the people of other nations. The whir of the loom, the sound of the forge, the noise of the factory are heard in ever-increasing volume everywhere. Everybody has employment at higher wages, than have ever been paid in Canada before. The farmer is prosperous as he has never been since Adam tilled the soil. Canadians are better fed, better clothed, better housed and better amused than they ever have been. Yet we hear the cry of discontent.

It is human nature, that is all. The more one has the more he wants. Instead of thanking the Giver of all Good that we are so much better off than most, we grieve because we are so much less well off than a few. Our eyes are continually turned towards those who have more comforts than we have. We envy them, and sometimes so earnestly that we lose all sense of gratitude for our own easy condition. The more comfort and leisure we have the more energy possesses us to complain that we have less than others.

A period of hard times would change the present condition of grumbling and turn us into a nation of thankful people. We should not have so much to be thankful for, and for that reason we should be more thankful for what we have.

It is strange, but it is true, that there is never happiness enough in this world to go around, nor prosperity enough. Those who have little want much, and those who have much want more, and everybody is discontented except those few persons who know that there is no happiness in laying up treasures for one's self "where moth and rust corrupt and where thieves break through and steal."

And now it is announced that J. Pierpont Morgan has been robbed of many thousands of dollars by one of his trusted employes. This is sad, but it illustrates the pernicious influence of an evil example. That the most distinguished financial pirate of the century should have been cheated by his own underling reminds us somehow of Butler's—

Big fleas have little fleas
Upon their backs to bite 'em
And little fleas have smaller fleas
And so, ad infinitum,

Canadian Credit is Higher than Britain's

London, Dec. 12.—In the House of Commons yesterday Mr. Arthur Fell asked the Chancellor of the Exchequer whether his attention had been called to the fact that Canadian three per cents. now stood at a higher price than some of the securities guaranteed by the British Government; whether the credit of any colony ever before stood higher than the credit of the Mother Country, and what steps he could take to remedy the condition.

Mr. Asquith replied that the comparative credit of the two countries could not be fairly judged by the relative prices of two stocks, one of which was directly charged upon the revenues of the first country, while the other was merely guaranteed by an indirect charge on the revenues of the second country. The date at which the stocks were respectively redeemable was also a material circumstance.

A comparison between the yield of Canadian three per cents, and that of consols showed it incorrect to say that the credit of the colony stood higher than that of the Mother Country.

A HOUSE GOWN.

Besides Being Attractive It Is a Real Economy.

So many girls spend all their available money for street and party clothes, quite content to look shabby and ungroomed while about their own home. Any cast off piece of finery or an antediluvian walking skirt is sufficiently good for "around the house."

This idea is indicative of a frivolous nature and slovenliness and should be avoided by all self respecting young women. An attractive appearance when about the house is greatly to be desired, and it is a real saving of money, too, to have a decided change of clothing for indoor wear.

The real economy is to provide oneself with a house dress of some sort. It is worth the effort and the few minutes to change one's dress as soon as one comes into the house. Street boots are exchanged for light slippers—a great saving on feet, stockings, shoes, carpets and nerves—and the boots are put away with trees. Boot trees are a necessary indulgence in the economical girl's scheme. Boots will last twice as long with their help.

Any girl who can hold a needle can make herself a "negligee" more or less elaborate, but always dainty. She should also be able to make herself a shirt waist suit of some lightweight, durable stuff—pongee, foulard cashmere—that with the aid of fresh collars and cuffs will always look attractive in the house.—Boston Traveler

If "taken at the Sneeze Stage" Preventics—a toothsome candy Tablet—will surely and quickly check an approaching cold or Lagrippe. When you first catch cold—or feel it coming on—take Dr. Shoop's Preventics, and the prompt effect will certainly surprise and please you. Preventics, surely supply the proverbial "ounce of prevention." Sold in 5-cent and 25-cent boxes by J. D. Tully.

Bad Importations.

Englishmen introduced the rabbit to Australia, where it ruined vast areas of valuable land. Weasels sent to correct the mistake found ground birds good eating and let the rabbits alone. Scotsmen bestowed the thistle upon New Zealand and then wished they hadn't. A pretty water weed of which Englishmen are fond was transplanted to New Zealand and throve so that it dams broad rivers. The mongoose sent to Jamaica to kill off the cane rats exterminated them and developed a fine liking for poultry.

"It Suits to a T."

The clause, "It suits to a T," meaning it fits exactly, is as old as the familiar instrument, the T square or T rule (so called from its resemblance to the letter T), used by mechanics and draftsmen for making angles true and for obtaining perpendiculars. The expression was in common use in the time of Dr. Johnson, who is quoted by Boswell as saying of Wharburton, "You see they'd have fitted him to a T."

The Changing Frenchman.

There was a time when having to cross the frontiers of his native land was regarded by a Frenchman as the greatest hardship he could undergo. Today he is the rival of the Anglo Saxon where love of travel and adventure are concerned.

Save of His Umbrella.

Departing Guest—Dear me, what a wet night! I wonder if you could give me the loan of an umbrella? Host—Certainly, but—well, the fact is, I think I would be the better for a walk. I'll just take a turn home with you and shelter you by the way."

Bright Boy.

"Can you stand on your head?" asked a visitor of little Dudley.

"No," he replied. "It's too high up."

To grief there is a limit; not so to fear.—Pliny the Younger.

Reasonable Supposition.

Binks—I believe that Mary does not love me any longer. Jinks—Did she say as much? Binks—No, but she let her little sister sit in the parlor with us last evening.—Woman's Home Companion.

The Ottawa Cobalt and Silver Mining Company
OTTAWA, ONT.

Incorporated under the Ontario Mining Companies Act.—No Personal Liability.

Authorized Capital, $250,000; Subscribed Capital, $50,000; Unissued and in Treasury, $200,000.

DIRECTORS

D. O'CONNOR JR. ESQ., Contractor, President, Ottawa.
W. J. KIDD Esq., Barrister, Vice-President, Ottawa.
JAMES WILSON Esq., Wholesale Merchant, Ottawa.
ROBERT GORMAN Esq., Gentleman, Ottawa.
J. OGLE CARSS Esq., Barrister, Ottawa.
SOLICITORS—KIDD & CARSS, Ottawa.
BANKERS—THE CROWN BANK OF CANADA, Ottawa.

PROPERTY AND LOCATION

The property consists of forty acres being the south-west quarter of the north half of lot 6 in concession 1 Township of Bucke. The property of this Company lies about three-quarters of a mile north-west from the celebrated Frotheway mine and is adjacent to the same formation. Vein matter was found in this property right from the surface and subsequent prospecting has revealed several well defined veins. On the main vein several nuggets of native silver were found. A shaft had been sunk to a depth of fourteen feet, when the property was taken over by this Company.

WORK ON THE PROPERTY

At present a camp is being built and active development work is being proceeded with. One half of the Company's property is still unprospected.

BUSINESS PROPOSITION

Of all Cobalt Mining Companies none can show a sounder business basis than this. The organizers had such confidence in the property that they have taken their entire interest in stock and have pooled same for six months, evidencing the fact of their absolute confidence in the value of the Company's property at the par value of $1.00 per share. ONLY 25000 shares are being issued at the present time for active development work. It is confidently expected that this will be sufficient to make this property a shipper, and if so the public can at a glance see what the value of these shares will be, having regard to the fact that only 75,000 shares of the Company will have been issued. The stock is not being offered outside of Ottawa as the Directors feel confident this small amount will be oversubscribed here. Address.

CHAPTER XXII.

THE rickety stairway seemed to creak with surprise at the slowness of his feet as Trove descended. It was circus day, and there were few in the street. Neither looking to the right nor left he hurried to the bank of Hillsborough and left his money. Then, mounting his mare, he turned to the wooded hills and went away at a swift gallop. When the village lay far behind them and the sun was low he drew rein to let the mare breathe and turned, looking down the long stairway of hills. Presently he could hear a galloping horse and a faint hallоо down the valley out of which he had just come. He stopped, listening, and soon a man and horse, the latter nearly spent with fast travel, came up the pike.

"Well, by heaven! You gave me a hard chase," said the man.

"Do you wish to see me?" Trove inquired.

"Yes. My name is Spinnel. I am connected with the bank of Hillsborough. Your name is Trove—Sidney Trove?"

"Yes, sir."

"You deposited $3,000 today?"

"I did."

"Well, I've come to see you and ask a few questions. I've no authority, and you can do as you like about answering."

The man pulled up near Trove and took a notebook and pencil out of his pocket.

"First, how came you by that money?" said he, with some show of excitement in his manner.

"That is my business," said Trove coolly.

"There's more or less truth in that," said the other. "But I'll explain. Night before last the bank in Milldam was robbed and the clerk, who slept there, badly hurt. Now, I've no doubt you're all right, but here's a curious fact—the sum taken was about $3,000."

Trove began to change color. He dismounted, looking up at the stranger and holding both horses by the bit.

"And they think me a thief?" he demanded.

"No," was the quick reply. "They've no doubt you can explain everything."

"I'll tell you all I know about the money," said Trove. "But come, let's begin the hocus pocus."

They led them, and, walking slowly, Trove told of his night in the sugar bush. Something in the manner of Spinnel slowed his feet and words. The story was finished. They stopped, turning face to face.

"It's grossly improbable," Trove suggested thoughtfully.

"Well, it ain't the kind o' thing that happens every day or two," said the other. "If you're innocent, you won't mind my looking you over a little to see if you have wounds or weapons. Understand, I've no authority, but if you wish, I'll do it."

"Glad to have you. Here's a hunting knife and a flint and some bird shot," Trove answered as he began to empty his pockets.

Spinnel examined the hunting knife and looked carefully at each pocket.

"Would you mind taking off your coat?" he inquired.

The young man removed his coat, uncovering a small spatter of blood on a shirt sleeve.

"There's no use going any further with this," said the young man impatiently. "Come on home with me, and I'll go back with you in the morning and prove my innocence."

The two mounted their horses and rode a long way in silence.

"It is possible," said Trove presently, "that the robber was a man that knew me and, being close pressed, planned to divert suspicion."

Save that of the stranger, there was no sleep at the little house in Briar Dale that night. But, oddly, for Mary and Theron Allen it became a night of dear and lasting memories of their son. He sat long with them under the pine trees, and for the first time they saw and felt his strength and were as children before it.

"It's all a school," said he calmly. "And I'm just beginning to study the Book of Trouble. It's full of rather tough problems, but I'm not going to flunk or fail in it."

CHAPTER XXIII.

TROVE and the bank official were in Hillsborough soon after sunrise the morning of that memorable day. The young man rapped loudly on the bread door at the sign of the Dial, but within all was silent. The day before Darrel had spoken of going off to the river towns and must have started. A lonely feeling came into the boy's heart as he turned away. He went promptly to the house of the district attorney and told all he knew of the money that he had put in the bank. He recounted all that took place the afternoon of his stay at Robin's Inn—the battles of the cocks, and the spider, and how the wounded fowl had probably sprinkled his sleeve with blood.

In half an hour news of the young man's trouble had gone to every house in the village. Soon a score of his schoolmates and half the faculty were at his side—there in the room of justice. Theron Allen arrived at 9 o'clock, although at that hour two responsible men had already given a bail bond. After dinner Trove, a constable and the attorney rode to Robin's Inn. The news had arrived before them, but only the two boys and Tunk were at home. The latter stood in front of the stable, looking earnestly up the road.

"Hello!" said he, gazing curiously at horse and men as they came up to the door. He seemed to be eying the attorney with hopeful anticipation.

"Tunk," said Trove cheerfully, "you have a mournful eye."

Tunk advanced slowly, still gazing, both hands in his trousers pockets.

"Ex Tower just went by," said he,

STRICTURE AND KIDNEY DISEASE CURED.

G. E. WRIGHT.

"I had stricture for eleven years. It finally brought on Bright's Disease of the Kidneys. I had an uncomfortable shooting pain in the groin and feeling as though something was in the urethra. My back was weak and I could scarcely sleep over. Urine was full of sediment. Had a desire to urinate frequently. Family doctors, so-called specialists, patent medicines, electric belts, all failed. I was discouraged. I had spent hundreds of dollars in vain. Finally I consulted Drs. Kennedy & Kergan as the last resort. I had heard a great deal about them and concluded from the fact that they had been established over 25 years that they understood their business. I am delighted with the results. In one week I felt better and in a few weeks was entirely cured. Have gained sixteen pounds in weight."

G. E. WRIGHT, Lansing.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even-numbered section of Dominion Lands in Manitoba or the Northwest Provinces (except 8 and 26, not reserved), may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 15 or 1500 feet. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,

Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

All Eyes Are on Nevada

Fortunes are being made Every Day

Co-operation is your opportunity for making honest money.

THE NEVADA QUEEN GOLD MINING COMPANY

Has a most wonderful showing of surface ores, equaling the best found in Tonopah, Goldfield, Fairview, Manhattan and Bullfrog. Gold, Silver and Copper assays show extremely high values.

THE RUSH IS ON!

Many operators are investing large sums of money in the district which is connected by rail with Goldfield. If you wish to be benefitted come in with us. We promise a fair and square deal. The Officers are mining men of good reputation—References of the best. Investigate.

100,000 SHARES

To be sold for FIVE CENTS each for development only. 100 shares $5.00, the minimum of any one subscription.

Our proposition is worthy of immediate consideration.

A GOOD MINE

pays larger dividends than any other enterprise in the world.

We believe our stock will be selling at ten times the present price within one year. We own SIX CLAIMS (120 acres), fully paid for—no debts; work in progress. We need money to develop the same into what we believe a dividend paying bonanza.

Yours the opportunity! Again we say investigate.

ADVERTISE IN THE TIMES

Sin Against Health

Why the Usefulness of All Organs is Destroyed by Costiveness.

Most important to health and comfort is the proper action of the bowels.

By nature these organs are intended for the removal of the waste particles of matter which accumulate in the system.

Retain these wastes and you poison the blood, ruin digestion, cripple the nerves and cause anaemia.

Bodily costiveness is best overcome by Dr. Hamilton's Pills, which establish regularity that is exactly consistent with nature.

Not a drastic purgative—not even a pain or sensation of grip, because Dr. Hamilton's Pills are vegetable and free from irritating widely advertised remedies.

In every case Dr. Hamilton's Pills do cure and bring sure relief from headache, biliousness and other manifestations of constipation.

Jas. MacDonnell, of Walkerton, writes: "Since I was comparatively a young man I have not enjoyed real good health.

"My appetite was good and strength kept up, yet I knew something was wrong.

"Frequently I took bilious attacks and violent headaches. My stomach was disordered, skin was murky, under my eyes were heavy dark rings.

"Last winter I read through the Poison's almanac and decided my trouble was constipation. I used Dr. Hamilton's Pills, and can hardly tell the help they have been. I am now as fresh, strong and well as a boy."

Just try this wonderful magic of Dr. Hamilton's Pills. Sold by all dealers 25c. per box, or five boxes for $1.00. By mail from N. C. Polsman & Co., Hartford, Conn., U.S.A., or Kingston, Ont.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS.

Pocket Book Lost.

On Saturday last between corner George and Charlotte streets and G.T.R. depot, a pocket book containing ticket to Lakefield, and some bills. The finder will be rewarded by leaving same at Times Bookstore.

Xmas Decorations.

See us for Christmas decorations, we have a nice assortment of red bells, wreaths with bell suspended in center, festooning twelve feet long, lanterns in five and ten-cent size, candles, etc. Times Bookstore.

Lindsay Man Has a Contract.

Lindsay Post says: Mr. Samuel Howe, of this town, and a couple of assistants, have been at work for a couple of weeks at points along the Canadian Northern R.R. Mr. Howe has the contract for the eave-troughing and other tin work on all stations between Beaverton and Parry Sound, about a dozen in number.

Dr. Morrison After Mayoralty.

It now seems that, all things considered the mayoralty contest will be a triangular duel, it being generally current rumor yesterday that Dr. M. A. Morrison is out with his hatchet after scalps of all possible opponents for the honor of filling the upholstered and soft-backed mayor's chair. Dr. Morrison is a member of the Local Board of Education, and a well-known citizen.

Dr. Middleton's Oyster Supper.

Dr. Middleton's supper to the Y.M.C.A. Social Bible Class, was well attended and a great success. Readings were given by George Martin and John Evans and a debate, "Resolved, that a navy is of more service to a country than an army." Ross Little and M. Gurney took the affirmative and G. Martin and J. Evans, the negative. The latter won, after a spirited series of arguments.

THE NEW TERM

at the

PETERBOROUGH BUSINESS COLLEGE

opens on

TUESDAY SEP. 4, 1906

Intending students should make application as soon as possible.

Call at the College or address

W. H. ENGLE,

Opposite Post Office, Principal.

LOCAL INCIDENTS

By The Times Man on the Street

—Several local citizens are taking in the Guelph Provincial Fair.

—Times Bookstore for the largest and best assortment of children's novelties for Xmas.

—The regular monthly meeting of the Trades and Labor Council was held yesterday evening.

—Mr Keenor, soloist of the George street church, will sing at the Y.M.C.A. on Sunday at four o'clock.

—Xmas post cards, calendars and cards. Prices start as two for five cents for nice cards. Times Bookstore.

—Forty cents on the dollar is better to Ontario Bank shareholders than a demand for increased liability.

—The Knox church open air rink corner of Wolfe and Reid streets will be opened on Friday night next for the season.

—A good program with subsequent refreshments were enjoyed by those attending the Y.W.C.A. social yesterday evening.

—Bargains galore in fancy China and bric-a-brac at Times Bookstore. See our south window for twenty-five cent bargains.

—A regular meeting of the Central Ontario Medical Association will be held in the Ontario Bank Chambers this evening at 8.30.

—The unusually severe weather during the past few days has caused the bursting of a number of water pipes throughout the city.

—Rev E. A. Langfeldt will hold the last cottage meeting this year, on Wednesday at the residence of Mrs W. E. Chamberlain, Dooro.

—The next chapter of the Rural Deanery of Peterborough and Northumberland meets in All Saints' church here on Tuesday, January 8th.

—The License Commissioners have transferred the license of the Royal hotel from Flynn to Kelly, And the American hotel from Holland to Flynn.

—Mr. W. H. Moore, will lecture this evening before the Young Conservative Club on William Lyon Mackenzie. The public is cordially invited to attend.

—A meeting of the Ladies' Literary Society of St. Peter's T. A. S. will be held on Friday evening, Dec. 14. Rev. Father Kelly will deliver a lecture on "Edmund Burke."

—Both Canadian and Dominion Express Companies are already getting busy handling the rush inseparable from Christmas presents. They expect business to quadruple as Christmas approaches.

—Yesterday Mr. Billy Gould wheat out in the country, caught a chicken hawk, which was most aggressive and strictly alive as demonstrated by its furious bites given to all who tampered with it.

—James Burns appeared before the Magistrate yesterday morning on a charge of being drunk on a public street. He pleaded guilty, and the magistrate imposed a fine of $2. to be paid in ten days.

—The annual meeting of the Women's Foreign Missionary Society, will be held in the school room of St. Paul's church on Friday, Dec. 14, at 3.30 p.m. Mrs. Rose of Lindsay, will address the meeting.

—The street railway rink opens tonight with the 57th Regt. Band in attendance. Should the weather during the day turn warm the first opening may be postponed, but at present writing this seems improbable.

DO NOT DOSE THE STOMACH

Cure Catarrh by Breathing Hyomei Sold Under Guarantee.

The only scientific and common sense way to treat catarrh of the nose and throat is by a local application that will kill the catarrhal germs.

Ordinary stomach dosing is worse than useless. Taking medicine into the stomach to cure catarrh of the head can have no good effect, and often leads to serious derangement of the digestive organs.

By breathing Hyomei three or four times daily through the neat pocket inhaler that comes with every outfit, its medicated, healing air penetrates to the most remote parts of the nose, throat and lungs, searches out and kills all catarrhal germs, and soothes and heals any irritation in the mucous membrane.

Our faith in the wonderful merit of Hyomei as a cure for catarrh is shown by the guarantee given with every Hyomei outfit that the money will be refunded unless the treatment gives satisfaction.

The complete Hyomei outfit costs but $1.00, extra bottles, if needed, 50 cents. We do not want anyone's money unless Hyomei gives relief and cure, and we absolutely agree that money will be refunded unless the remedy gives satisfaction.

All druggists should be able to supply you with Hyomei or we will send it by mail on receipt of price, and every package is sold with the distinct understanding that it costs nothing unless it cures. Write us today for a symptom blank, which we will send you free, together with treatise on Catarrh and how to cure it. When you fill in and return to us the symptom blank, our consulting physician will give your case the best care and attention, and write you a letter of advice without charge. Booth's Hyomei Company, Buffalo, N. Y.

New Gas System on Exhibition.

Mr. Brentnall who is here looking after the interests of the firm which proposes a central system of heating by steam, has now in the office of R. Birks & Co., on Simcoe street near George street, a small automatically working plant for making gas from carbide by a recently discovered process. This gas mentioned in a former issue of The Times, is well worth a visit to see in active process of self-manufacture. Without going into the question of its safety, cost or reliability, the gas as made there certainly makes a regular 32-candle power electric light look sick by comparison.

SOCIAL AND PERSONAL

—Mr. R. J. Bird, of Chicago, is in the city.

—Mr. Cecil Bethune, of Ottawa, is registered at the National.

—Mr. and Mrs. Percy Fitzgerald have returned home from their wedding tour.

—Mr. Robt. Ferguson, a leading farmer of South Monaghan, was in the city yesterday.

—Mr. James Edgar and family have moved into their new residence, corner of Park and Weller streets.

—Mr. Chas. McNulty of Asphodel who is a brother of the Reeve of that township, was in the city yesterday.

—Mr. James Y. Jones, of Peterborough, is a visitor in the city. He is staying with his uncle. — Guelph Herald.

—Mr. Clifford Caldwell, who has been visiting his parents at 497 Euclid avenue, for the past three weeks, has returned to Peterborough.—Toronto Star.

—Mr. Jas. Bell, an old Peterborough boy, and now purser of the steamer Micanaan, plying between Toronto and Hamilton, is in the city, and will spend Christmas here. The Micanaan was laid up for the winter Saturday night.

—Mr. Montizambert, the new manager of the Bank of Montreal, is in the city, and has taken charge of the Ontario branch of the office. Mr. E. Hardy-Wilmot will remain in Peterborough, until the beginning of the new year, when he will leave for Perth.

THE YULETIDE KERMESS

The Catholic ladies of the city will hold a grand bazaar next week in aid of the chapel at Mount St. Joseph. Everything is in readiness for the opening on Monday and judging from the enthusiasm with which those in charge of the various booths are entering into the final preparations the bazaar will be most successful. The multitude and variety of useful and beautiful articles displayed will give an excellent opportunity for making selections for Christmas gifts. A novel feature at the Yuletide Kermess will be the Home-made Cooking Booth, where home-made bread, buns, cookies and pies may be had—well, not just for the carrying away.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O.

We, the undersigned, have known F. J. Cheney for the past 15 years and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

WALDING, KINNAN & MARVIN,
Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

Work Stopped on a C. C. E. Co. Building

It is rumored, but not yet verified, that the Dominion Engineering and Construction Company, who have had charge of the work on the new transformer building of the C.C.E. Co., have lost the contract, and that when operations are resumed in the spring a local contractor will be in charge.

However, work on this building has been stopped for the winter. Nothing further will be done until next spring. During the past couple of days only a few men have been at work, and they have been employed putting the job into shape for standing the winter.

Mr. Forsyth's Lecture a Success.

Mr. Cecil Carl Forsyth's second musical lecture given in St. Andrew's Hall, was a great success. Mr. Forsyth gave an outline of the music of Italy, from the time of the early Christian converts at Rome, to the present time. All of the leading Italian composers were dwelt on and the leading events of their lives spoken of. Interspersed throughout the lecture were vocal and instrumental numbers by pupils of Mr. Forsyth. These numbers were all well rendered.

Local Election Matters Hot.

Last night in a leading local hotel, several prominent citizens were discussing the coming mayoralty election. The matter of Dr. Morrison, as noted by last night's Review, being a possible candidate was discussed. One man, himself a Conservative, but a personal friend of Mr. R. Hicks, one of the avowed candidates, digging down to his pocket brought to light a fat roll of bills and remarked "Well, if you fellows have any fun about you, put up or shut up. I don't know whether Morrison or Mc Williams will run, but here's $50 to $40 that Hicks beats the field."

The bet was taken, but when the promoter of the wager offered the same odds in the same amount again, possibly because those present did not have that much with them, his offer was not accepted. Thus was steep odds on one man against a field not yet known.

Catarrh of the nose and throat should lead you to at least ask us for a free trial box of Dr. Shoop's Catarrh Cure. Nothing so surely proven merit as a real, actual test—and Dr. Shoop, to prove this, earnestly desires that we let you make that test. This creamy, Snow White healing balm, soothes the throat and nostrils, and quickly purifies a foul or feverish breath. Call and investigate. J. D. Tully.

They Stand Alone.

Standing out in bold relief, all alone and as a conspicuous example of open, frank and honest dealing with the sick and afflicted, are Dr. Pierce's Favorite Prescription for weak, over-worked, debilitated, nervous, "run-down," pain-racked women, and Dr. Pierce's Golden Medical Discovery, the famous remedy for weak stomach, indigestion, or dyspepsia, torpid liver, or biliousness, all catarrhal affections whether of the stomach, bowels, kidneys, bladder, nasal passages, throat, bronchia, or other mucous passages, also as an effective remedy for all diseases arising from thin, watery or impure blood, as scrofulous and skin affections.

Each bottle of the above medicine bears upon its wrapper a badge of honesty in the full list of ingredients composing it—*printed in plain English*. This frank and open publicity places these medicines in a class *all by themselves*, and is the best guaranty of their merits. They cannot be classed as patent or secret medicines for they are neither—*being of known composition*.

Dr. Pierce feels that he can afford to take the afflicted into his full confidence and lay all the ingredients of his medicines freely before them because the ingredients are such as are endorsed as most strongly praised by scores of the most eminent medical writers as cures for the diseases for which these medicines are recommended. Therefore, the afflicted do not have to rely alone upon Dr. Pierce's recommendation as to the curative value of his medicines for certain easily recognized diseases.

A glance at the printed formula on each bottle will show that no alcohol and no harmful or habit-forming drugs enter into Dr. Pierce's medicines, they being wholly compounded of glyceric extracts of the roots of native, American forest plants. These are best and safest for the cure of most lingering, chronic diseases. Dr. R. V. Pierce can be consulted free, by addressing him at Buffalo, N. Y., and all communications are regarded as sacredly confidential.

It is as easy to be well as ill—and much more comfortable. Constipation is the cause of many forms of illness. Dr. Pierce's Pleasant Pellets cure constipation. They are tiny, sugar-coated granules. One little "Pellet" is a gentle laxative, two a mild cathartic. All dealers in medicines sell them.

BY-LAW NUMBER

A By-Law to authorize the borrowing of the sum of eight thousand dollars for drainage purposes in Wards Numbers 3, 4 and 5, of the City of Peterborough, and to provide that all future payments to be made under By-Law Number 689 of the said Municipality shall be paid by general tax.

Passed the day of 1906.

WHEREAS by Chapter 23 of the Statute of the Province of Ontario, passed in the sixth year of the reign of His Majesty King Edward the Seventh, it is among other things provided that it should be lawful for the Council of the Corporation of the City of Peterborough to undertake and construct the drainage works and diversion of the water course in Ward Number 5 according to the reports, specifications and detailed estimates and plans prepared therefor by the City Engineer and filed in the office of the City Clerk and for the purpose of providing for the diversion of a water course in Wards Numbers 3 and 4 to construct a drain from the right of way of the Grand Trunk Railway to the River Otonabee and that the cost of and incidental to such works should be payable by the Municipality at large by a general tax on the whole rateable property of the Municipality and the said Act further provided that it should be lawful for the said Council, having first obtained the consent of the ratepayers of the City qualified to vote on money by-laws, to pass a by-law authorizing the borrowing on the credit of the Municipality of a sum not exceeding $8,000 to pay the cost of the said works and to issue and dispose of the debentures of the said Corporation therefor to be payable within thirty years from the date of the issue of the same.

AND WHEREAS by the said Act it is recited that in the year 1895 a certain drain was constructed in Wards Number 1 and 2 (which is commonly known as the Park Street Drain) and debentures were issued under By-law Number 689 to pay for same and that the portion payable by the ratepayers by special tax on the lands benefitted has been paid up to the time of the passing of the said Act, but owing to the construction of sewers in the same locality the said property is now assessed for the said sewers and that it is inequitable that the same property should be assessed for both said drain and sewers and that the amount payable by the ratepayers by said special rate being the sum of $111.44 per year for the next eight years should be paid by general tax and it is provided that it should be lawful for the said Council, with the assent of the ratepayers aforesaid, to pass a By-law to provide that all future payments of interest and sinking fund on the debentures issued under said By-Law Number 689 should be paid by general tax sufficient for that purpose on the whole rateable property of the Municipality;

AND WHEREAS before this By-law can be passed the said special rate will be payable for this present year and there will remain only seven yearly payments under the said By-law.

AND WHEREAS it is necessary pursuant to the provisions of the said recited Act to pass this By-law for the purpose of authorizing the borrowing on the credit of the Municipality of the said sum of Eight thousand dollars for the purposes aforesaid, and to provide that all future payments under said By-law Number 689 shall be paid by general tax, and to submit the same to the duly qualified ratepayers as aforesaid.

AND WHEREAS in order to raise the said sum of Eight thousand dollars, which is the amount of the debt intended to be created by this By-law, it will be necessary to issue the debentures of the Corporation for the said amount.

AND WHEREAS the amount of the whole rateable property of the Municipality, according to the last revised assessment roll, being for the year 1907, is the sum of Six million nine hundred and fifty-four thousand seven hundred and thirty-one ($6,954,731).

AND WHEREAS the amount of the existing debentures debt of the Municipality, exclusive of local improvement debts but including the debt of Two hundred and ninety-two thousand dollars ($292,000) incurred for the purchase, lease and improvement of the waterworks, is the sum of seven hundred and four thousand and fifty-five dollars and nine cents ($704,055.09) and there is no part of the principal or interest in arrear.

AND WHEREAS it will require the sum of Three hundred and twenty dollars ($320) to be raised annually for a period of thirty years, the currency of the debentures to be issued under and by virtue of this By-law, for paying the interest on the said debt, and the sum of One hundred and fifty-five dollars ($155) to be raised annually during the said period for providing a sinking fund for the payment of the same at maturity—such last mentioned sum being sufficient, with the estimated interest on the investment thereof, to discharge the said debt when the same becomes due, making in all the sum of Four hundred and seventy-five dollars ($475) to be raised annually as aforesaid, by special rate on the whole rateable property of the Municipality.

AND WHEREAS it will require the sum of Three hundred and eleven dollars and forty-four cents ($311.44) to be raised annually for the period of seven years to pay the interest and sinking fund on the debentures issued said By-law Number 689.

THE CORPORATION OF THE CITY OF PETERBOROUGH BY THE COUNCIL THEREOF THEREFORE ENACTS AS FOLLOWS:

1. This By-law shall take effect on the final passing thereof.

2. It shall be lawful for the Council of the said City of Peterborough to borrow the sum of Eight thousand dollars and to issue the debentures of the said Corporation for the said sum, such debentures to be sealed with the Corporate Seal of the City of Peterborough and to be signed by the Mayor and Treasurer and Countersigned by the Secretary of the Commissioners of the Peterborough City Trust, and to be made payable within thirty years after the issue thereof, and to bear interest at the rate of four per centum per annum payable half-yearly on the thirtieth day of June and the thirty-first day of December in each year and to have coupons attached thereto for the payment of such interest; such debentures as to principal and interest to be payable at the office of the Secretary of the Commissioners of the Peterborough City Trust in the City of Peterborough.

3. There shall be raised and levied during each year of the currency of the said debentures by a special rate upon all the rateable property of the Municipality, the sum of Three hundred and twenty dollars ($320) for payment of the interest and the sum of One hundred and fifty-five dollars as a sinking fund for the payment of the said debt at the maturity thereof making together the sum of Four hundred and seventy-five dollars to be raised annually for the purposes aforesaid.

4. There shall be raised and levied during each year for the next seven years by a special rate sufficient for that purpose upon all the rateable property of the Municipality the sum of Three hundred and eleven dollars and forty-four cents ($311.44) to pay the interest and sinking fund on the debentures issued under said By-law Number 689 and the same shall be so applied.

5. The proceeds of the said debentures when sold shall be applied in payment of the cost of and incidental to the said drainage works in Ward Number 5 and Wards Numbers 3 and 4 of the said City.

6. The votes of the electors of the City of Peterborough qualified to vote upon a By-law for creating debts shall be taken upon this By-law on the same day as the annual election for the Municipal Council for the year 1907 and the polls will be held during the same hours, at the same places and by the same Deputy Returning Officers and Poll Clerks as are appointed and fixed for the said annual Municipal elections.

7. The eighth day of January, 1907, at the hour of twelve o'clock noon and the City Clerk's Office are hereby fixed as the time when, and the place where, the Clerk will sum up the number of votes given for and against the By-law.

8. The fifth day of January, 1907, at the hour of twelve o'clock noon and the office of the City Clerk are hereby fixed as the time and place for the appointment of persons to attend at the various polling places and at the final summing up of the votes by the Clerk respectively, on behalf of the persons interested in and promoting or opposing the passing of the By-law respectively.

Mayor.
Clerk

NOTICE

Take notice that the foregoing is a true copy of a proposed By-law which has been taken into consideration and which will be finally passed by the Council of the City of Peterborough (in the event of the assent of the electors being obtained thereto) after one month from the first publication hereof in the Morning Times newspaper, the date of which first publication is the sixth day of December, 1906, and that at the hour, day and place therein fixed for taking the votes of the electors the polls will be held.

S. B. ARMSTRONG,
City Clerk.

Local Divines at Port Hope.

At the quarterly meeting of the Presbytery of Peterborough, held in St. Paul's church, Port Hope, Rev. Peter Duncan, M.A., moderator of Presbytery, occupied the chair. The following members were present: Rev. Messrs. C. S. Lord, M.A., Grafton; A. C. Reeves, B.A.; Campbellford; D. A. Thompson, B.A., Hastings, clerk of Presbytery; E. F. Torrance, D.D., and J. G. Potter, B.A., Peterborough; Wm. Johnston, Millbrook; James Skene, Baltimore; H. E. Abram, B.A., and E. B. Nellis, Port Hope; Wm. Beattie, Cobourg; W. H. Johnston, Bethesda; and S. S. Burns, B.A., Lakefield.

Port Hope After Trans-Lake Ferry

Port Hope had a delegation at Montreal asking the G.T.R. authorities to appoint that place instead of Cobourg, as the terminus of the ferry across the lake to Port Charlotte, N.Y.

Colored Women Refused Admittance to Toronto Rink

THE MANAGER ADMITTED IT

Defense Claims Damages Can Only Be the Price of the Ticket.

Toronto, Dec. 14.—That the Canadian law is no respecter of color, and that persons who subject colored people to indignities, because they are not white-skinned, are liable for damages, were principles of British justice laid down firmly by Judge Morson in the Tenth Division Court yesterday morning.

The case was that of Taylor v Orpen. Mrs. Taylor and her son were ejected from the floor of the Granite Roller Skating Rink, of which Mr. A. M. Orpen is lessee, because they were colored. In the witness box yesterday morning Mrs Taylor made an eloquent plea, and received the compliments of his honor on the presentation of her case.

Before proceeding with the evidence the name of the defendant was changed from "Granite Rink" to "Mr. A. M. Orpen," the lessee.

MRS. TAYLOR'S STORY.

Mrs. Taylor told her story. She had lived in the city "thirty odd years."

"My little boy went to the rink with other boys. He bought a ticket, and was allowed in. Then the usher sent him out to get his ticket, and his money back."

Mrs Taylor said that when her lad returned home, and told of the circumstances, she immediately took him back and bought a ticket herself. They went in, but the usher ejected them as he did the son.

"Did they say why you couldn't stay on the rink?" asked the judge.

"Yes—they said 'color. I said, 'D you mean to say that I cannot go into the rink because of my color?' They said 'Yes.'

Having explained the circumstances Mrs. Taylor started to plead her case. Mr. Bradford, her counsel, didn't have a chance to say much.

"I am an Anglo-Saxon, and I have lived in this city thirty years," said Mrs. Taylor. "I have nine children seven of whom are sons. Two of my sons have graduated from Canadian universities, and one of them is practicing medicine in The far West at the present time. Never before have I been subjected to such indignities. I consider it a libel on my character, and that the sympathy and trouble which has resulted from the action of the Granite Rink people entitle me to damages."

MANAGER ADMITTED IT.

Mr. Ritchie, who was manager of the rink, admitted that the lad was refused access to the rink floor, on account of his color. The lady was sent to the gallery because that was all the accommodation her ticket called for."

"It is an unbreakable rule," said Mr. Ritchie, "that colored people cannot skate on our rink."

Mr. Ed. Bailey, counsel for Mr. Orpen, said that the sum total of damages that should be allowed was the price of the tickets returned, and the amount had been paid into court.

"The rink people have a perfect right to refuse to sell a ticket to anybody—colored or otherwise—if they so desire," said the judge. "But once a ticket has been sold to any person, they are bound to admit them.

"In this country nobody has a right to subject anybody to indignities because of his color. Be a man or woman, colored, Chinese, or of any race, he or she is entitled to respect and protection. Once these people were sold tickets and allowed into the premises, they were entitled to stay there and have the privileges their ticket calls for. There is no reason that they should have been subjected to outrage."

The judge said they were entitled to damages, and he will look up the law as to the amount.

Funeral of Late Jesse Despres

Yesterday afternoon the last mortal remains of Jesse Despres, who passed away on Tuesday at his father's residence, Walnut Street, were borne, accompanied by many sorrowing friends to the Little Lake cemetery for interment.

The many floral tributes testified to the popularity of the deceased. In the absence of Rev. Dr. Brothers, Rev. J. G. Lewis conducted the funeral service.

The boys of lower I. of the Collegiate Institute, of which deceased was a pupil, had a half holiday, and attended in a body. Mr. J. E. Hodgson represented the staff of teachers. The pupils of lower I. Form sent a handsome wreath, and the teachers a cross. The deceased was a bright and popular student, and his death is greatly regretted.

Good Debate at Y. M. C. A.

The last session of the Y.M.C.A. Debating Club for this year, was largely attended. The first session for 1907 will be held on January 2. Vice-President Reid was in the chair. Mr. H. Cocke gave an able review of the current events of the world. Mr. A. T. Byrd presented a synopsis of "The Man From Glengarry," in a most interesting manner. The main feature of the evening was the open parliament, when "Should Canada encourage immigration?" was the subject for debate. The leaders were Affirmative, Mr. Chas. Coleman; Negative, Fred Roy, while Mr. J. F. Hodgson, was elected speaker. The discussion was one of the liveliest yet held. In summing up, the critic, Mr. Hodgson decided in favor of the negative.

New Chinese Cafe Opens on Saturday

As per adv. In another column, a novelty in restaurants of this city will open on Saturday, under the management of Mr. Geo. Thomas, at 328 George street in the market building.

The new restaurant whilst making a speciality of highest grade Chinese dishes will also supply every kind of European and American viands, cooked by the most accomplished Chinese cook in Canada. A large staff of workmen are now busily engaged in altering their premises to make them suitable to the requirements of a first-class restaurant. There will be four tables in the main store with four private rooms for ladies or gentlemen desiring privacy.

Messrs. MacGregor & Reid are now engaged in wiring up the restaurant, which will be electrically lighted in the most brilliant and modern style. Yesterday a semi-circular pay desk was placed near the George street entrance. The Chinese restaurant will give the public an opportunity to investigate the excellences of "chop-suey," and other world-famed Chinese dishes.

Children's Aid Officers Elected

The annual meeting of that most estimable and admirable local institution, the Children's Aid Society, elected the following officers for the ensuing year, viz.:

Honorary President—J. R. Stratton.

President—J. H. Burnham.

1st Vice President—Mrs. Birdsall.

2nd Vice President—T. F. Matthews.

Secretary and Solicitor—R. M. Denistoun.

Treasurer—P. Campbell.

Agent—Geo. Cochrane.

Managing Committee — Mesdames Best, Peck, Garvin, Davis, Warde O'Sullivan, Montgomery, Tetley Hughes-Charles, Harding, Lloyd, Dr Jessie Birnie, Miss Gow, Miss Dixon Miss Halliday, Miss Burke, Rev. Father McCool, Rev. Dr. Torrance, Rev. J. G. Potter, Rev. E. A. Langford, Rev. J. C. Davidson, Rev. Dr. Crothers, Rev. H. M. Manning, Rev. W. Major, Rev. Webb, Rev. A. H. Brace, His worship the Mayor, Dr. George Burnham, Hughes-Charles, John Hutcheson and Rev. J. O. Lewis.

Francis Burnham very ably filled the chair and delivered a capital extempore speech noting the good work done by the society in saving children who, under other conditions would certainly have gone to the bad.

Secretary P. Campbell read the report as follows:

Total cash receipts for year, $978.23

Total disbursements for the year, $954.78

Balance on hand, $23.55.

Rev. Canon Davidson thought it only proper that the members of the society should show their appreciation of the faithful work of the officers. He, therefore, moved that the thanks of the Society be rendered the retiring officers. Rev. Dr. Torrance seconded the motion and it carried unanimously.

POLICE NEWS

Daily Happenings in Court Room and Station.

With Mr. Minocchio acting as interpreter, an Italian stabbing case was dealt at yesterday's session of the county police court, with relics Magistrate Edmison, holding the scales of Justice. Domenico Tamborino, was charged With assaulting Camillo de Illio, at the works of the Portland Cement Company, at Lakefield last Sunday night. The defendant was fined $2 and costs, amounting in all to $16.60.

Four witnesses were called, including the Italian whom the prisoner was alleged to have struck with an iron bar. The man swore that Tamborino did not mean to strike him but was striking a blow at another man at the time and the iron slipped from his hands.

The foreman gave evidence as to the accused drawing a knife on him and it was for this that the fine was imposed.

The fine was paid by one of Tamborino's friends.

It appears that the injured man was not as badly hurt as at first reported.

It was six o'clock yesterday evening before the trial of Hillier was concluded. Hillier was being tried on a charge of misappropiating certain insurance money from his father-in-law. He was sentenced to three months in jail.

Treasurer—H. McDonald.
Marshal—A. Sennett.
Guard—P. Gorham.
Trustees—Jos. Hilyard, jr., John McDonald, A. Vinnett.
Representative—B. Phelan.
Alternate—Bros Jas. O'Brien.

Peterborough Bishop's Guest at Lindsay

Lindsay Post, referring to the meeting of Branch 77 in that town, in the Parish Hall, for election of officers and other business says:

The members enjoyed a very welcome surprise in the presence of his lordship Bishop McEvoy of London, who, happened to be in Peterborough, visiting his lordship Bishop O'Connor, and who could not resist the temptation to spend a few hours with Ven. Archdeacon Casey, whom he accompanied to the meeting. His lordship was welcomed by the retiring president, Mr. E. J. Gough, and made a happy address on being elected a social member of Branch 77.

MASS SAID IN PARIS CHURCHES

The Formal Application Was Filed and Accepted in the Case of Two Churches

CHARGES AGAINST PRIESTS

Correspondence Seized Shows That the French Bowed to the Papal Decree With Reluctance.

Paris, Dec. 14.—There was an impressive response yesterday morning to the clergy's appeal to their parishioners to attend the first masses celebrated outside the pale of the law. A correspondent of the Associated Press visited a dozen churches, including Notre Dame des Victoires, St. Germain d'Auxerrois, where the signal for the massacre of St. Bartholomew's Day was given; St. Roch, the Madeleine and St. Augustin. Everywhere the front gates were closed, but the worshippers entered through the side portals.

The buildings were well filled. In several places there was music, but nowhere was there any attempt to interfere with the services or create disturbances. There were three policemen stationed outside the portices of the churches to prevent disorders, while policemen in plain clothes on duty inside simply noted the infractions of the law, with the object of making reports to the justices.

Formal charges were entered wherever mass was celebrated, except at the churches of St. Jean L'Evangeliste and St. Blaise de Cheronne, at Pere La Chaise, whose parishioners made application to hold services under the law of 1881. The Vicar of St. Blaise De Cheronne, when induced by his parishioners to take the step said:

"Whatever the consequences I regret nothing. I am a Frenchman above everything."

OUTSIDE OF PARIS.

Early despatches from the departments say that whenever mass was celebrated charges were drawn up and summonses issued.

It is officially stated that the letters of Mgr. Montagnini, the expelled secretary to the Papal Nuncature, here, show that the majority of the French bishops favored observance of the law of 1881, and bowed with reluctance to the Papal decree. The official statement says that the inviolability of the diplomatic correspondence of the Nunciature was scrupulously respected before the rupture between the Vatican and France.

WILL PROTEST TO THE POWERS

Rome, Dec. 14.—Immediately after his arrival here yesterday, Mgr. Montagnini, the expelled secretary of the Papal Nunciature at Paris went to the Vatican and conferred with Pope, Secretary of State Merry del Val, to whom he made a long report on the situation in France. The report of Mgr. Montagnini will be used for a protest to the foreign powers against the action of the French Government. Mgr. Montagnini then went to the Pope, who was much agitated, and asked for minute details of the secretary's expulsion and of the documents seized. Mgr. Montagnini presented dark pictures of the situation.

QUARRELED WITH LOVER

Nineteen-Year-Old Ontario Girl Committed Suicide in Detroit.

Detroit, Mich., Dec. 14.—May Fitzsell, nineteen years of age, whose home is near Kincardine, Ont., is dying at St. Mary's Hospital. On December 4th, after a quarrel with her lover, during which it is alleged that he struck her, she took a dose of corrosive sublimate. She was terribly burned about the mouth and throat and stomach. Last night it was found necessary to remove her from the house where she was employed to the hospital. Her recovery is not looked for.

Slim Girl Footpad Working Winnipeg

Winnipeg, Dec. 14.—A woman footpad, slim of figure, short of stature, dressed all in black, and wearing a black veil, is operating in Winnipeg. According to descriptions of her operations, she looks like a "little lady," and does her work like a professional.

Between 5.30 and 6 o'clock the other evening a young lady residing on George street had a startling en-

"Heads I Win—Tails You Lose"

is he unfair game coffee plays with many persons. Give it up and get a "square deal" by using well-made

POSTUM

"There's a Reason"

Get the little book "The Road to Wellville" in each pkg.

counter with this woman on the east side of Main street, near Logan Avenue, down which she was about to turn on her way home. No person was in sight in either direction for nearly a block, when she observed the black-dressed lady on the opposite side of the street crossing swiftly to her. Coming close up to her intended victim, so close indeed as to frighten her, the mysterious individual gasped; "Can you tell me where Eaton's store is?"

"You had better take a Portage avenue car, and ask the conductor to put you off," and at the same moment she felt a tug at her chatelaine bag. She looked in astonishment at the little woman, who released her grasp of the bag and decamped in quick order up the street.

The young lady looked in all directions for a policeman to whom she could point out the figure of the fleeing woman, and, seeing none, went home and reported the occurrence to her family.

The sick customer had the appearance of having come from the C.P.R. depot, and carried a little satchel. She looked about 25 years of age, but a black veil obscured her features, so they could not be described. The intended victim is sure, however, that she would recognize the woman immediately if she saw her again.

SPORTING TOPICS

Arrangements have been completed whereby the Peterborough senior hockey team will play an exhibition game with the Marlboros in Toronto on Christmas night, representatives of the two teams having completed the details. The Marlboros will appear in an exhibition game here at a later date.

• • • •

Kingston News; Even without "Marty" Walsh and Dick Wilson, whose removal to the Canadian Soo was a loss to hockey circles, there is still good material in the city for a senior hockey team. Potter and Richardson are a speedy duet to start the forward line. Van Horne, Constantine, and Hiscock, are strong defence men, who have given excellent account of themselves in the past, and who have lost none of their old-time vim. There is a large field of players from which to pick the other two from.

• • • •

Representatives from the clubs in group No. 1, senior series, Ontario Hockey Association, in session at the Oriental Hotel have drawn up the following schedule for this season;

Jan. 4.—Argos at Kingston.
Jan. 5.—Midland at Marlboros.
Jan. 11.—Kings on at Peterborough.
Jan. 12.—Marlboros at Argos.
Jan. 18.—Peterborough at Marlboros.
Jan. 16.—Argos at Midland.
Jan. 21.—Midland at Peterborough.
Jan. 23.—Midland at Argos.
Jan. 23.—Marlboros at Kingston.
Jan. 26.—Peterborough at Argos.
Jan. 28.—Marlboros at Midland.

14th Regiment, Kingston.—F. H. MacNee.
Peterborough—J. T. McCabe and H. Morgan.

TRIED TO ESCAPE

Robert Thompson Will Stay an Additional Year in the Penitentiary.

Kingston, Dec. 13.—Robert Thompson, sent to the penitentiary for ten years for burglary, made an attempt last fall to escape, but was intercepted. He was sent up for trial, and before Judge Price in the General Sessions he was convicted and an additional year added to his prison term.

DISSOLVE THE REICHSTAG

New Elections in Germany if Supplementary Appropriations Are Not Granted.

Berlin, Dec. 13.—Emperor William has authorized Chancellor Von Bulow to dissolve the Reichstag and order new elections if the supplementary appropriations asked for by the Government are not granted by the House.

Norwood Man's Loss by Fire.

Fire swept through the business portion of McLeod, Alta., on Friday last, burning five or six business establishments, including the store of Mr. Robert H. Richardson, youngest son of Mr. Wm. Richardson, sr., of Norwood, who carried a large stock of men's furnishings. The fire started in a Chinese laundry.

—Mr. Austen Dunn and Mr. Pat Curran leave this morning for Strathcona, to look over some property Mr. Dunn saw when he visited that place this fall.

—Mr. Jas. Kelly, the new proprietor takes charge of the Royal Hotel this morning. Mr. Jas. Flynn, the retiring proprietor, will take up his residence in this city.

CHURCH POLITY IS NOW THE STICKING POINT

Committee on Church Union Consider the Recommendations

MANAGEMENT QUESTION

How Shall the Local Affairs of Each Church Be Conducted?

Toronto, Dec. 14.—A long and warm discussion attended the report of the sub-committee on Church Polity of Government yesterday at the meeting of the joint committee on Church Union at the Metropolitan church. The main objections taken to the report as submitted was that it was too indefinite. It was the opinion of most of the members of the committee that a definite, clear and business-like system of church government be laid down and, that the matter should not be acted upon hastily.

WHAT WAS RECOMMENDED.

The sub-committee reported the following recommendations.

1. That the local affairs of the individual church, charge, circuit or congregation, be managed by the congregation directly or by local quarterly sessions or committees, subject to the general legislation, principles and discipline of the united church, and that such board, sessions or committees be constituted and elected or appointed as at present, or elected at the option of such church, charge circuit or congregation.

2. That the formulation of a plan for the organization of new charges be left to the General Assembly, Conference or Council of the united church, which plan may at any time be adopted by any existing church, charge, circuit or congregation.

MORE DETAILS WANTED.

It was decided that these statements were not sufficiently clear, and that a more detailed report should be arranged before it was sent on to the governing bodies of the different churches. Accordingly the question was referred back to the sub-committee, before the remaining articles in the report were discussed.

The special committee on correspondence with the Anglicans and Baptists recommended the appointment of other committees to confer with representatives of their denominations. The Baptist Union of the Maritime Provinces deemed organic union impossible but were willing to consider federal union.

PRINCIPAL SHAW'S VIEWS.

"The friendly spirit shown by the Anglican Church and Baptist Church of Canada is most cordially appreciated," said Principal Shaw of Wesley College, Montreal, "and is fully reciprocated by the Methodist, Presbyterian and Congregational. Churches now negotiating for church union. It is probable that committees will be appointed to go further into the matter, and, if possible, arrange a satisfactory basis of union for the five Canadian evangelical churches."

WITHOUT A TIME LIMIT.

The report of the sub-committee on the ministry was submitted, and the first recommendation passed. This was that the pastoral term shall be without a time limit, though subsequent clauses modified this. The committee endeavored to adopt the best features of existing pastorates.

Institute for the Blind Investigation

Brantford, Dec. 13.—The enquiry this morning at the Ontario Institute for the Blind enquiry was taken up with the defence of Engineer Wilson, charged with giving information about pupils to Liberal workers at the last Provincial election.

He denied the charge. Mr. Davies, a Liberal canvasser, who swore Mr. Wilson had given information, was recalled at his own request, and said that he had made a mistake. He had asked for information, but Wilson did not furnish it. Wilson told a similar story.

Mr. Gardiner's evidence, which is known to be a complete denial and explanation of Truax' charges, may possibly open this afternoon.

Richard Hall & Sons Give to Brigade.

Yesterday Mr. W. P. Atkinson, treasurer of the Peterborough Fire Department, received a cheque from Messrs. Rich. Hall & Sons, for the sum of $15, together with a letter, thanking the firemen for their prompt and efficient services in connection with the good work done in extinguishing the blaze at that emporium.

Leave your renewal order for 1907 with us for any paper or magazine. We will be responsible and save you the trouble of writing. Times Bookstore.

Peterborough Boy in Good Position

Mr. T. J. Nicholl, a former Peterborough boy, and now one of the most prominent figures in railway matters in the United States, in writing to Peterborough friends, states that he has been appointed president of the Chicago General Railway Company. His father, Mr. T. H. Nicholl, who was for years civil engineer for the town and county of Peterborough, died last July, and was buried in Roubeaster.

Collar Bone Broken in Sleigh Accident

Yesterday morning as the little five-year-old son of Mr. Henry Smith, of 63 Hunter street east, was sleigh riding, he met with a somewhat serious accident, when his sled ran into a telephone pole.

The little fellow was rendered unconscious and had his collar bone broken. He was taken to his home, where the fracture was reduced by Dr. Young, assisted by Dr. Grey. He is now progressing favorably.

—The annual meeting of the Women's Foreign Missionary Society, will be held in the school room of St. Paul's church on Friday, Dec. 3, at 3.30 p.m. Mrs. Rose of Lindsay, will address the meeting.

Kansas City Portland Cement Co.

We invite attention of investors to the stock of the Kansas City Portland Cement Co. The preferred stock draws 7 per cent. from date. With each share preferred a share common is given as a bonus. Capitalization conservative. No promotion stock. Every share sold for cash. Officers and directors successful local business men. The plant is nearing completion. No industry in the Southwest shows greater earning capacity than Portland Cement Companies. In many cases the common stocks are selling around par. The Kansas City proposition will have an advantage of 25c. per barrel in freight over any Cement entering this market. This alone is sufficient to pay dividends on the preferred stock. We recommend the purchase of this stock, and believe the common stock alone will be selling at par within a year. Write or call for prospectus and full information.

Headquarters for Portland Cement Stocks.

We Offer For Sale All or any Part of

CLAWSON-STREAN BROKERAGE CO., KANSAS CITY, MO.

The Ottawa Cobalt and Silver Mining Company

OTTAWA, ONT.

Incorporated under the Ontario Mining Companies Act.—No Personal Liability.

Authorized Capital, $250,000; Subscribed Capital, $50,000; Unissued and in Treasury, $200,000.

DIRECTORS

D. O'CONNOR JR. ESQ., Contractor, President, Ottawa.
W. J. KIDD Esq., Barrister, Vice-President, Ottawa.
JAMES WILSON Esq., Wholesale Merchant, Ottawa.
ROBERT GORMAN Esq., Gentleman, Ottawa.
J. OGLE CARSS Esq., Barrister, Ottawa.
SOLICITORS—KIDD & CARSS, Ottawa.
BANKERS—THE CROWN BANK OF CANADA, Ottawa.

PROPERTY AND LOCATION

The property consists of forty acres being the south-west quarter of the north half of lot 6 in concession 1 Township of Bucke. The property of this Company lies about three-quarters of a mile north-west from the celebrated Trethewey mine and is identically of the same formation. Vein matter was found in this property right from the surface and subsequent prospecting has revealed several well defined veins. On the main vein several nuggets of native silver were found. A shaft had been sunk to a depth of fourteen feet, when the property was taken over by this Company.

WORK ON THE PROPERTY

At present a camp is being built and active development work is being proceeded with. One half of this Company's property is still unprospected.

BUSINESS PROPOSITION

Of all Cobalt Mining Companies none can show a sounder business basis than this. The organizers had such confidence in the property that they have taken their entire interest in stock and have pooled same for six months, evidencing the fact of their absolute confidence in the value of the Company's property at the par value of $1.00 per share. ONLY 25000 shares are being issued at the present time for active development work. It is confidently expected that this will be sufficient to make this property a shipper, and if so the public can at a glance see what the value of these shares will be, having regard to the fact that only 75,000 shares of the Company will have been issued. The stock is not being offered outside of Ottawa as the Directors feel confident this small amount will be oversubscribed here. Address.

D. O'CONNOR, President, - - OTTAWA, ONT

HEALTH FOR WOMEN

Mrs. Emma Daigle, of Moncton, N. B. Sends an Open Letter to All Sufferers.

Most women are tired when they wake up. Housework drags along with great difficulty. Nervousness is always present, headaches seldom depart, tears are ever ready to flow.

But there is a cure, a true specific for women's ills that restored a prominent lady in Moncton, Mrs. Daigle, who tells the following experience:

"About a year ago I had a serious sickness, sort of a general breakdown. My digestion failed entirely and I was able to eat but very little. I took violent stomach pains and suffered terribly from headaches. My doctor said it was "nerve exhaustion" and I might never be well. My troubles increased, for as I grew weaker I became subject to neuralgia and rheumatism. Sleep finally forsook me and I almost lost heart. Different medicines didn't help. Doctors couldn't do me any good. I was desperate when I heard of Ferrozone. The first box convinced me it was just what I needed. It toned up my stomach, gave me a splendid appetite and then my recovery seemed easier. Ferrozone increased my weight several pounds, has restored my nerves, gave me a good color and strength such as I never had before. For the weak and sickly I can truthfully recommend Ferrozone." (Signed) Emma Daigle.

REMEMBER: No mere stimulant or alcoholic concoction can take the place of the nerve and blood nourishment contained in Ferrozone. This true tonic always does what is claimed for it. Sold everywhere in 50c. boxes or six for $2.50. By mail from N. C. Polson & Co., Hartford, Conn, U. S. A., and Kingston, Ont.

ONTARIO'S IMMIGRATION

The statement made by Hon. Mr. Oliver, Dominion Minister of the Interior in the House of Commons a few days ago, that of the immigrants arriving this year during the season of navigation, 27,183 were located in Ontario, a larger number than in any other of the Provinces, undoubtedly came as a surprise to very many Canadians. According to the statement Mr. Oliver presented to the House, the number locating in Quebec and the Eastern Province was 22,243, 26,394 in Manitoba, 17,541 in Saskatchewan, 17,187 in Alberta, and 12,541 in British Columbia. Presumably these figures refer only to those immigrants who arrived by water, but even if such is the case the proportion settling east of Lake Superior is quite large, being nearly one-half of the total.

In Ontario there is always a keen demand for farm laborers, and it is an easy matter for the farming communities to absorb all of that class of immigrants that offer. These take the place of Ontario-born boys who have left for the prairies, and in their turn, after they have gained some knowledge of farming conditions in Canada, these immigrants in large numbers will probably find their way west of Winnipeg. It is nevertheless surprising to see the influx into the older Provinces.

MORE TARIFF DEPUTATIONS

Quebec Boot and Shoe Manufacturers Want More Protection.

Ottawa, Dec. 12.—The Government received yesterday requests for the reconstruction of several items in the new Customs tariff. A large deputation of boot and shoe manufacturers from Quebec, asked for the increase of the rate on boots and shoes from 25 per cent. to 35 per cent. This plea is based on the relatively high rate of taxation imposed on the raw material and equipment for their factories, and the same representations were addressed to the Tariff Commission, when it visited Quebec last year.

Two deputations are also on hand from Halifax, one of sugar refiners, seeking the same relative rate of protection as they enjoyed before the recent revision. The other, made up of wholesale importers, asking for more direct encouragement of the import trade from the British West Indies.

Xmas Decorations.

See us for Christmas decorations, we have a nice assortment of red balls, wreaths with bell suspended in center, festooning twelve feet long, lanterns in five and ten cent size, candles, etc. Times Bookstore.

This Season of Navigation Was Disastrous

Detroit, Mich., Dec. 12.—The 1907 season of navigation is practically over, and to date has cost 187 lives and over $2,000,000 in money. There have been but two or three big storms, that of November 22 proving the most disastrous, in which 41 lives were lost, including the Jones in Georgian Bay and Resolute off Toronto. Two or three days before the Canadian steamers Theano and Strathmore were wrecked on Lake Superior. Canadian boats especially have suffered this year, the steamer Monarch of the Northern Navigation Company completing a remarkably run of mishaps to Canadian vessels, which started early in the season, when on May 30 the Erin was run down and cut in two in the St. Clair River by the steamer Cowle, and five of the Erin's crew were drowned.

Fort William, Dec. 12.—Noon today marks the official close of navigation on the great lakes. In order that ports of the vessels which left before the expiration of time limit should go east without cargoes, the grain elevators at the heads of the lakes were kept continuously in operation until the last boat sailed. The season in the grain trade has been a fairly successful one, yet not nearly as much wheat was sent East as during last year. This was largely due to the fact that grain was not brought down rapidly enought from the West. The storage houses are practically empty, the grain not having been moved by rail.

BIG DRY DOCK FOR THIS LAKE

It Will Be Built at Ogdensburg by a Boston Syndicate.

Ogdensburg, N.Y., Dec. 12.—The contract was let yesterday for the erection in this city of a drydock and shipyard carriage large enough to handle any vessel that can pass through the Welland canal. Boston parties secured the contract for the work, at $30,000.

The shipyard will be of great advantage to marine interests on the St. Lawrence River and Lake Ontario.

The nearest American drydock of such proportions at present is at Buffalo.

August.

"August," the name of the month, is accented on the first syllable. "August," the adjective, is accented on the second syllable. This is due, no doubt, to the fact that, though both started from the Latin "augustus," they have arrived by different routes. The adjective is the French "auguste," while "August," commemorating the Roman emperor's title, is the French "août" and the middle English "augst" or "aust." "July" used to rhyme with "duly," even in Johnson's time, as it had done centuries earlier and as it does in southern Scotland to this day.

In the Air.

Farmer Greene (who has been knocked down by a balloon anchor)—Gol dern 'em! I'll hev th' law on 'em! Whar's th' sheriff? Farmer Brown—No use kicking, Josh! Them critters is above the law, I reckon!

It is not enough to run; one must start in time.—French Proverb.

To Send Commission to Canada

London, Dec. 13.—In the House of Commons yesterday the Premier informed Mr. Thomas Cairns that the Government thought it unnecessary to adopt the suggestion to send a commission to Canada to enquire into the condition of the herds. There were other circumstances bearing on the question of the importation of Canadian cattle, and the Government was quite prepared to accept the official Canadian reports. The prohibition was a precautionary measure, the justification for which did not entirely depend upon whether any particular country was free from disease or not.

Weak Kidneys

Weak Kidneys, surely point to weak kidney Nerves. The Kidneys, like the Heart, and the Stomach, find their weakness, not in the organ itself, but in the nerves that control and guide and strengthen them. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the Kidneys alone, is futile. It is a waste of time, and of money as well.

If your back aches or is weak, if the urine scalds, or is dark and strong, if you have symptoms of Bright's or other distressing or dangerous kidney disease, try Dr. Shoop's Restorative a month—Tablets or Liquid—and see what it can and will do for you. Druggist recommend and sell

9,600 FEET
Sixty six mining claims.
A crosscut tunnel now in 4,000 feet.
5,600 feet of drifts, shafts and laterals.
A complete 750 h.p. turbine electric power plant.
Numerous Veins explored.
A Big Industrial and Mining Proposition Combined.
A Strong Directorate.
This is real mining.

The Palmer Mountain Tunnel and Power Company has 66 lode mining claims back of it on Palmer Mountain, near the Town of Loomis, Okanogan County, Washington—about 12 miles south of the boundary of British Columbia. A new railway line is nearly completed and will run within 12 miles of the property. Steamers ply on the Okanogan River to within 28 miles of our properties. There is water—not only for mining purposes, but with unlimited possibilities for power generation. There is timber, there are large, well defined veins proved at great depth—and there is development enough done to make this one of the biggest and best mining propositions in the country.

INTERIOR OF TUNNEL

We can do more with $10 ore on our properties than the desert miners can do with $10 or even higher grade ore. We can make money because we have the FACILITIES on our ground. Our ore can be mined, milled, cyanided and bullion produced for not exceeding $2.50 a ton.

Our immence crosscut bore—a picture of which we show herewith—is now in 4,000 feet, is 9 by 9 in the clear (as large as any of the big transportation and drainage tunnels), and is well timbered, equipped with track, ore cars and everything else essential. In the picture shown herewith, the large pipe running at the top of the right side of the tunnel, is for ventilation purposes and connects with a large, powerful blower.

Recent development on the mountain proves that we shall open up at tunnel level (2,500 feet beneath the surface) an enormous body of copper ore.

We have opened up much $10 ore, and we have a higher grade running up to $50 a ton. This is where the big profit comes from. In the nearly TWO MILES OF WORKINGS we have all the facilities for handling a very large production. Back of it all we have a capable mining and business management. We should be very glad to tell you the complete story. We can only hint at it here.

For particulars, apply to

DARREL of THE BLESSED ISLES

By IRVING BACHELLER,

Author of "Eben Holden," "D'ri and I," Etc.

COPYRIGHT, 1906, BY LOTHROP PUBLISHING COMPANY

with suppressed feeling. "Said you was arrested for murder."

"I presume you were surprised."

"Waal," said he, "Ez ain't said a word before in six months."

Tunk opened the horse's mouth and stood a moment peering thoughtfully at his teeth.

"Kind of unexpected to be spoke to by Ez Tower," he added, turning his eyes upon them with the same curious look.

The interrogation of Tunk and the two boys began immediately. The story of the fowl corroborated, the sugar bush became an object of investigation. Milldam was ten miles away, and it was quite possible for the young man to have ridden there and back between the hour when Tunk left him and that of sunrise, when he met Mrs. Vaughn at her door. Trove and Tunk Hosely went with the officers down a lane to the pasture and thence into the wood by a path they followed that night to and from the shanty.

They discovered nothing new save one remarkable circumstance that baffled Trove and renewed the waning suspicion of the men of the law. On almost a straight line from bush to barn were tracks of a man that showed plainly where they came out of the grass upon the garden soil. Now, the strange part of it lay in this fact—the boots of Sidney Trove exactly fitted the tracks. They followed the footprints carefully into the meadow grass and up to the stalk of the mullein. Near the top of it was the abandoned home of the spider and around it were the four snares Trove had observed, now full of prey.

"Do not disturb the grass here," said Trove, "and I will prove to you that the tracks were made before the night in question. Do you see the four webs?"

"Yes," said the attorney.

"The tracks go under them," said Trove, "and must, therefore, have been made before the webs. I will prove to you that the webs were spun before 2 o'clock of the day before yesterday. At that hour I saw the spinner die. See, her hair is deserted."

He broke the stalk of mullein and the cables of spider silk that led away from it, and all inspected the empty hair. Then he told of that deadly battle in the grass.

"But these webs might have been the work of another spider," said the attorney.

"It matters not," Trove insisted, "for the webs were spun at least twelve hours before the crime. One of them contains the body of a red butterfly with starred wings. We cut the wings that day, and Miss Vaughn put them in a book she was reading."

Paul brought the wings, which exactly fitted the tiny torso of the butterfly. They could discern the footprints, one of which had broken the ant's road, while another was completely covered by the butterfly snare.

"Those tracks were made before the webs, that is evident," said the attorney. "Do you know who made the tracks?"

"I do not," was the answer of the young man.

Trove remained at Robin's Inn that night, and after the men had gone he recalled a circumstance that was like a flash of lightning in the dark of his great mystery.

Once at the Sign of the Dial his friend the tinker had shown him a pair of new boots. He remembered they were of the same size and shape as those he wore.

"We could wear the same boots," he had remarked to Darrel.

"Had I to do such penance I should be damned," the tinker had answered. "Look, boy, mine are the larger by far. There's a man coming to see me at the Christmas time, a man o' busy feet. That pair in your hands I bought for him."

"Day before yesterday," said Tunk that evening, "I was up in the sugar bush after a bit o' hickory, an' I see a man there, an' I didn't have no idee who 'twas. He was tall and had white hair an' whiskers an' a short blue coat. When I first see him he was settin' on a log, but 'fore I come nigh he got up an' made off."

Although meager, the description was sufficient. Trove had no longer any doubt of this—that the stranger he had seen at Darrel's had been hiding in the bush that day whose events were now so important.

Whoever had brought the money, he must have known much of the plans and habits of the young man, and, the night before Trove's arrival at Robin's Inn, he came probably to the sugar bush, where he spent the next day in hiding.

The young man was deeply troubled. Polly and her mother sat well into the night with him, hearing the story of his life, which he told in full, saving only the sin of his father. Of that he had neither the right nor the heart to tell.

"God only knows what is the next chapter," said he at last. "It may rob me of all that I love in this world."

"But not of me," said Polly, whispering in his ear.

"I wish I were sure of that," he answered.

* * * * * * *

Among those who got off the train at Hillsborough one day was a big, handsome youth of some twenty years. In all the crowd there were none had ever seen him before. Dressed in the height of fashion, he was a figure so extraordinary that all eyes observed him as he made his way to the tavern. Trove and Polly and Mrs. Vaughn were in that curious throng on the platform, where a depot was being built.

"My! What a splendid looking fellow!" said Polly as the stranger passed.

Trove had a swift pang of jealousy that moment. Turning, he saw Riley Brooks standing near them in a group of villagers.

"I tell you, he's a thief," the boy

STRICTURE AND KIDNEY DISEASE CURED.

G. E. Wright.

"I had stricture for eleven years. It finally brought on Bright's Disease of the Kidneys. I had an uncomfortable shooting pain in the groin and feeling as though something was in the urethra. My back was weak and I could scarcely sweep over. Urine was full of sediment. Had a desire to urinate frequently. Family doctors, so-called specialists, patent medicines, electric belts, all failed. I was discouraged. I had spent hundreds of dollars in vain. Finally I consulted Drs. Kennedy & Kergan as the last resort. I had heard a great deal about them and concluded from the fact that they had been established over 25 years that they understood their business. I am delighted with the results. In one week I felt better and in a few weeks was entirely cured. Have gained nineteen pounds in weight."

G. E. WRIGHT, Lansing.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even-numbered section of Dominion Land in Manitoba or the Northwest Provinces (except 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTHWEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 15 0x1500 feet.

The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may apply for a crown grant, after having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty at 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent. collected on the output after it exceeds $10,000.

W. W. CORY.

Deputy of the Minister of the Interior.

Stop That Headache!

Foolish to Suffer When a Simple Remedy Will Prevent and Cure.

Ever stop to think what caused your headaches?

Probably not. Then look to the bowels and stomach, and you'll find plenty of cause. Chances are you'll find constipation, liver is sluggish, stomach overburdened with half-digested food.

No wonder you are dull, tired, restless day and night.

You need the cleansing influence of Dr. Hamilton's Pills which cure your condition in short order.

Being composed of nature's vegetable remedies Dr. Hamilton's Pills possess great power, yet they are harmless. They aid all organs connected with the stomach, liver and bowels. In consequence food is properly digested, the blood is pure and nourishing, the body is kept strong and resists disease.

Headaches never come to those who use Dr. Hamilton's Pills, and this fact is vouched for by the Assistant Manager of the Poultry Success Magazine, of Springfield, O., Mr. J. H. Callander, who writes: "No better medicine than Dr. Hamilton's Pills. We use them regularly and know of marvelous cures that resisted everything else. They cleanse the whole system, act as a tonic on the blood, enliven digestion, keep the stomach, and make you feel strong and well. For headaches, indigestion, and stomach disorders I am confident that the one prescription is Dr. Hamilton's Pills."

You can rely on Dr. Hamilton's Pills with implicit confidence; their effect is wonderful. Sold by all dealers. Price 25c. per box, five boxes for $1.00 or by mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS.

Pocket Book Lost.

On Saturday last between corner George and Charlotte streets and G. T.R. depot, a pocket book containing ticket to Lakefield, and some bills. The finder will be rewarded by leaving same at Times Bookstore.

Great Crowd at Jackson Park.

The skating rink at Jackson Park, operated under auspices of the Street Railway Company, seems to be as popular this as last year. The opening night resulted in the rink being crowded by some 600 skaters all eager for this healthy and enjoyable exercise in the fresh air. Many who had their own toboggans went down the excellent slide. The slide however has not been formally opened for the season yet pending the coming of more snow and ice.

Auburn Mills' Employes' Generosity

The employes of Auburn Woolen Mills have made a handsome presentation to Mrs. Emily Webb, 197 Water street, the woman, who as noted in several former issues of The Times, has lost a limb, and whom kind sympathizers gave a sewing machine some months ago. Her only source of support was what her son made in the Auburn Mills. The subscription taken up at the Mills realized $41, which has been presented, and thankfully acknowledged by the recipient and her son.

THE YULETIDE KERMESS

The Catholic ladies of the city will hold a grand bazaar next week in aid of the chapel at Mount St. Joseph. Everything is in readiness for the opening on Monday and judging from the enthusiasm with which those arranging the various booths are entering into the final preparations the bazaar will be most successful. The multitude and variety of useful and beautiful articles displayed will give an excellent opportunity for making selections for Christmas gifts. A novel feature at the Yuletide Kermess will be the Home-made Cooking Booth, where home-made bread, buns, cookies and pies may be had—well, not just for the carrying away.

THE NEW TERM

at the

PETERBOROUGH BUSINESS COLLEGE

opens on

TUESDAY SEP. 4, 1906

Intending students should make application as soon as possible

READ AND YOU WILL LEARN

That the leading medical writers and teachers of all the several schools of practice endorse and recommend, in the strongest terms possible, each and every ingredient entering into the composition of Dr. Pierce's Golden Medical Discovery for the cure of weak stomach, dyspepsia, catarrh of stomach, "liver complaint," torpid liver, or biliousness, chronic bowel affections, and all catarrhal diseases of whatever region, name or nature. It is also a specific remedy for all such chronic or long standing cases of catarrhal affections and their resultants, as bronchial, throat and lung diseases (except consumption) accompanied with severe coughs. It is not so good for acute colds and coughs, but for lingering, or chronic cases it is especially efficacious in producing perfect cures. It contains Black Cherry bark, Golden Seal root, Bloodroot, Stone root, Mandrake root and Queen's root—all of which are highly praised as remedies for all the above mentioned affections by such eminent medical writers and teachers as Prof. Bartholow, of Jefferson Med. College; Prof. Hare, of the Univ. of Pa.; Prof. Finley Ellingwood, M. D., of Bennett Med. College, Chicago; Prof. John King, M. D., late of Cincinnati; Prof. John M. Scudder, M. D., late of Cincinnati; Prof. Edwin M. Hale, M. D., of Hahnemann Med. College, Chicago, and scores of others equally eminent in their several schools of practice.

The "Golden Medical Discovery" is the only medicine put up for sale through druggists for like purposes, that has any such *professional* endorsement—worth more than any number of ordinary testimonials. Open publicity of its formula on the bottle wrapper is the best possible guaranty of its merits. A glance at this published formula will show that "Golden Medical Discovery" contains no poisonous or harmful agents and no alcohol—chemically pure, triple-refined glycerine being used instead. Glycerine is entirely unobjectionable and besides is a most useful ingredient in the cure of all stomach as well as bronchial, throat and lung affections. There is the highest medical authority for its use in all such cases. The "Discovery" is a concentrated glyceric extract of native, medicinal roots and is safe and reliable.

A booklet of extracts from eminent medical authorities, endorsing its ingredients mailed *free* on request. Address Dr. R. V. Pierce, Buffalo, N. Y.

BY-LAW NUMBER

A By-law to aid the Rapid Tool Company (Limited.)

Passed the day of 1907

WHEREAS the Rapid Tool Company (Limited) proposes to establish in the City of Peterborough a manufacturing establishment for making auger bits and other tools and to purchase the land and buildings formerly occupied by the Canadian Ultimator Company, being parts of Lots 18, 19 and 21 south of Hunter Street east, formerly Elizabeth Street, according to Corporate Plan 1A for the City of Peterborough, formerly known as the Village of Ashburnham, more particularly described as follows:—Commencing at the north west angle of said lot 21, thence southerly along the westerly limit of said lot 21 and in line with the same extended southerly across lot 19, thence in the same direction to a point 24 links southerly from the northern boundary of said lot 18, thence easterly in a line parallel with the southern boundary of said lot 18 to the easterly boundary of said lot 18, thence northerly along the easterly boundary of said lots 18, 19 and 21 to the north east angle of said lot 21, thence westerly along the northern boundary of said lot 21 to the place of commencement, and to erect thereon additional buildings at a cost of at least Three thousand dollars, and to equip the same with the necessary plant and machinery at a cost of at least Sixteen thousand dollars, and to employ therein within six months after operations are commenced at least twenty-five hands, and has applied to the Council of the City of Peterborough for aid in establishing the same by a grant of Twelve hundred dollars, being the value of the said land so to be purchased, exclusive of the buildings thereon and by granting partial exemption from taxation for a period of ten years by fixing the assessment of the said manufacturing establishment at the said sum of Twelve hundred dollars.

AND WHEREAS it is desirable and in the public interest to encourage the promotion of the said industry as aforesaid.

AND WHEREAS it will be necessary to borrow the sum of Twelve hundred dollars, the amount required as aforesaid, by the issue of debentures for the same, which said sum of Twelve hundred dollars is the amount of the debt intended to be created by this By-law.

AND WHEREAS the amount of the whole rateable property of the Municipality, according to the last revised assessment roll, is the sum of Six million nine hundred and fifty-four thousand seven hundred and thirty-one dollars ($6,954,731).

AND WHEREAS the amount of the existing debentures debt of the Municipality, exclusive of local improvement debts, but including the debt of Two hundred and ninety-two thousand dollars ($292,000) incurred for the purchase and improvement of the waterworks, is the sum of seven hundred and four thousand and fifty-five dollars and nine cents ($704,055.09) and there is no part of the principal or interest in arrear.

AND WHEREAS it will require the sum of Forty-eight dollars ($48) to be raised annually for a period of twenty years, the currency of the debentures to be issued under and by virtue of this By-law for paying the interest on the said debt, and the sum of Forty-two dollars and forty-five cents ($42.45) to be raised annually during the said period for providing a sinking fund for the payment of the same at maturity; such last mentioned sum being sufficient, with the estimated interest on the investment thereof, to discharge the said debt when the same becomes due, making in all the sum of Ninety dollars and forty-five cents ($90.45) to be raised annually as aforesaid, by special rate on the whole rateable property of the Municipality.

THE CORPORATION OF THE CITY OF PETERBOROUGH BY THE COUNCIL THEREOF THEREFORE ENACTS AS FOLLOWS:

1. This By-law shall take effect on the final passing thereof.

2. It shall and may be lawful for the Corporation of the said City of Peterborough to borrow the sum of Twelve hundred dollars and to issue debentures of the Corporation for the same, such debentures to be sealed with the Corporate Seal of the City of Peterborough and to be signed by the Mayor and Treasurer and Countersigned by the Secretary of the Commissioners of the Peterborough City Trust, and to be payable within twenty year after the issue thereof and to bear interest at the rate of four per centum per annum payable half-yearly on the thirtieth day of June and the thirty-first day of December in each year and to have coupons attached thereto for the payment of such interest; such debentures as to principal and interest to be payable at the office of the Secretary of the Commissioners of the Peterborough City Trust in the City of Peterborough.

3. There shall be raised and levied during each year of the currency of the said debentures, by special rate upon all the rateable property in the City of Peterborough liable thereto, the sum of Forty-eight dollars ($48) for payment of the interest on the said debt and the sum of Forty-two dollars and forty-five cents ($42.45) as a sinking fund for the payment of the said debt at the maturity thereof when the said debentures become payable making together the sum of Ninety dollars and forty-five cents ($90.45) to be raised annually for the purposes aforesaid.

4. The proceeds of the debentures to be issued under and pursuant to this By-law when sold shall be given to the Rapid Tool Company (Limited) to aid the said Company in the promotion of the said manufacturing establishment by the payment of the purchase money of the said land above described upon and only upon and subject to the terms and conditions hereinafter mentioned, and until the said conditions shall have been fully performed and satisfied, the said Company shall not be entitled to the said money or any part thereof or to any interest in or right to the same.

The conditions upon which the said grant shall be made are as follows:—

1. That the said Company shall obtain a good title in fee simple to the said land free from all encumbrances.

2. That the said Company shall on or before the first day of January, 1907, erect on the said land an additional building suitable for its purposes at a cost of at least Three thousand dollars and instal in the same and in the building now on the said land at least Sixteen thousand dollars' worth of plant and machinery suitable for the manufacture of auger bits and other tools, and shall on or before the said date have the said manufacturing establishment in running order and in actual operation and shall within six months thereafter employ therein at least twenty-five hands.

3. That the said Company shall execute an agreement in form approved of by the City Solicitor, which may be registered against the said land, providing that the said land shall be held by the said Company subject to the conditions that in the event of the same, within the period of ten years from the date of the payment over to the the said Company of the amount paid to it under the terms of this By-law, ceasing to be bona fide used for the manufacture of auger bits and other tools or other manufacturing business approved of by the City Council substantially in accordance with the capacity thereof for the period of twelve consecutive months, or ceasing to employ in said business at least an average of twenty-five hands for at least ten months in any year, that the said land and buildings and machinery thereon shall become the absolute property of the Corporation of the City of Peterborough and free from any claim thereto or therein of the said Company or its assigns; unless the said Company or its assigns shall within six months after such period of twelve months for which the said land shall have ceased to be used as aforesaid, pay the Corporation of the City of Peterborough the full sum of Twelve hundred dollars.

4. PROVIDED ALWAYS that if the failure to so use the said land is due to strikes or to the destruction of the buildings or machinery by fire or tempest, the time during which the said land shall so cease to be used in consequence of such strikes or destruction of the buildings or machinery (not exceeding in either case one year) shall not be counted in the said period of twelve months which entitles the Corporation to the ownership of said land or to be paid the sum aforesaid.

5. PROVIDED the said Company shall erect, equip, occupy and use the said buildings on the said land within the time hereinbefore limited, the assessment of the said land used exclusively for manufacturing purposes and the buildings, plant, machinery and fixtures thereon used exclusively for manufacturing purposes on which taxes are to be levied shall, except as to school taxes, be fixed and remain fixed at the sum of Twelve hundred dollars for a period of ten years, commencing on the first day of January, 1907, and the return and oath of the Assessor or Assessors in respect thereof shall be amended accordingly; but the said land shall also be liable for all frontage and local improvement assessments, rate and taxes, and taxes for school purposes that may be charged against the same—provided, however, that if the said Company shall at any time within the said term of ten years fail or neglect to carry on the said manufacturing business as above provided for the time above stated, or shall fail or neglect to carry out any of the terms of this By-law or shall not have in its employment in said business at least an average of twenty-five hands for at least ten months in the year, then such fixed assessment shall cease and the said lands, buildings, plant, machinery and fixtures shall be assessed as provided by the Assessment Act then in force, and further provided that the event of any petition being presented to the Council for any local improvement or the City Council desiring to construct any such work, the said Company will not take any action to oppose such petition or work, an agreement to this effect to be furnished by the Company.

6. The said Company shall prior to the first day of March in each year file with the City Clerk a Statutory Declaration made by an officer of the Company who shall therein state his knowledge of the facts proving that the Company has complied with and is observing all the terms, conditions and provisions of this By-law and those contained in the said Agreement and on neglect of the said Company to furnish such declaration it shall be prima facie taken that such terms, conditions and provisions have not been performed, observed and kept.

7. The votes of the electors of the City of Peterborough qualified to vote upon a By-law for creating debts shall be taken upon this By-law on the same day as the annual election for the Municipal Council for the year 1907 and the polls will be held during the same hours, at the same places and by the same Deputy Returning Officers and Poll Clerks as are appointed and fixed for the said annual Municipal elections.

8. The eighth day of January, 1907 at the hour of twelve o'clock noon and the City Clerk's Office are hereby fixed as the time when, and the place where, the Clerk will sum up the number of votes given for and against the By-law.

9. The fifth day of January, 1907, at the hour of twelve o'clock noon and the office of the City Clerk are hereby fixed as the time and place for the appointment of persons to attend at the various polling places and at the final summing up of the votes by the Clerk respectively, on behalf of the persons interested in and promoting or opposing the passing of the By-law respectively.

Mayor.
Clerk

NOTICE

Take notice that the foregoing is a true copy of a proposed By-law which has been taken into consideration and which will be finally passed by the Council of the City of Peterborough (in the event of the assent of the electors being obtained thereto) after one month from the first publication hereof in the Morning Times newspaper, the date of which first publication is the seventh day of December, 1906, and that at the hour, day and place therein fixed for taking the votes of the electors the polls will be held.

S. B. ARMSTRONG,
City Clerk.

Mrs. W. Swanston Has Passed Away

One of the oldest residents of Peterborough in the person of Mrs William Swanston has passed away at her residence, Fraser street east This news will come as a shock to her very many friends in this city and county.

The late Mrs. Swanston was born eighty-four years ago, and at the age of 30, removed to Canada with her husband from Scotland.

The late Mr. and Mrs. Swanston had ten children of whom Miss Annie, Messrs. William, John and James and Mrs. Wright, are at present in the city.

The funeral will take place this afternoon at two o'clock to the Little Lake cemetery.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIV, NO. 294 PETERBOROUGH, ONTARIO, SATURDAY, DECEMBER 15 1906 PRICE TWO CENTS

NEW BLOOD FOR THE CITY'S NEXT CHIEF EXECUTIVE

Contest Now Seems to be Between Messrs. McWilliams and Hicks

EITHER CANDIDATE GOOD

It Now Seems Probable That Dr. Morrison Will Decline to Stand.

Next January the election for Mayor of Peterborough, seems to be indicative of a most strenuous battle of the ballots. It can now be assumed that no triangular duel will be fought, as Dr. Morrison, a seemingly possible candidate, has practically announced his determination not to be a candidate.

One important factor in the coming struggle as to whom will fill the red upholstered chair in the City Council chamber, is that the contest between Messrs. R. F. McWilliams and Robert Hicks will be carried on in a gentlemanly and non-mud-throwing manner. No matter which of these gentlemen may be elected, the city will be the gainer by having young, and in either case, good, live, strenuous blood operating the arteries of our city's civic system.

Mr. R. F. McWilliams is one of the brightest of Peterborough's sawyers, a young man who has had extended experience in civic matters. Mr. McWilliams has for several years, occupied an honorable and honored position in the city council and has demonstrated, frequently, not only his interest in the advancement of Peterborough's progress, but has done things for Peterborough. Mr. McWilliams is one of the most gifted speakers in the city and always commands attention and respect when addressing outside bodies, whether the Ontario Government or deputations from possible local locating industries.

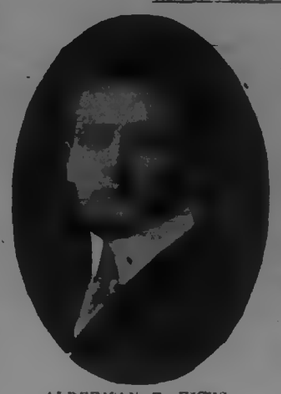
On the other hand, Mr. Robt. Hicks, the other candidate for our mayoralty, has served three years as a member of the council with credit to himself and to the city's interest.

Mr. Hicks is a prominent business man and the head of a large local industry, and has of course, as has every man worth his salt in public affairs made a few enemies.

Still in view of the fact that Mr. Hicks has evolved from the position of representative of an outside firm of manufacturers to the position of being in sole control of a large industry, there is every reason to believe that should he be made mayor, the city would undoubtedly gain the advantage of his intelligent and strenuous system of business.

Whether our next mayor be Mr. McWilliams or Mr. Hicks, in either case our citizens will benefit by having an active and aggressive young man, well worthy to cope with the requirements of this important office. The only regret that may be felt, after the electoral ballots are counted is that a good man was left.

THE MAYORALTY CANDIDATES.



ALDERMAN R. HICKS.

ALDERMAN R. F. M'WILLIAMS.

The Richest Mine in Cobalt Is Found on Gillies' Limit

Toronto, Dec. 15.—A telegram was received yesterday at the Bureau of Mines from Mr. E. T. Corkill, who is in charge of the Government mining operations on the Gillies Limit. In it he states that on drifting in from the trial shaft at the 50-foot level an enormous body of very high-grade silver cobalt ore was encountered. This, according to opinions expressed in the Department, means that this mine is the richest, both in quantity and value of ore, yet discovered in the Cobalt District. As some of the mines at present in operation are valued as high as $10,000,000, this means that the Province of Ontario has become enriched to even more than that amount at present prices.

Another Government party is working on a different vein about one mile distant, and at twenty-five feet it has shown such large promise that a contract will probably be let at once for the sinking of a development shaft. It is reported that the values in this vein are also high.

As a result of the telegram Prof W. G. Miller leaves for the north today, although he had intended to spend Christmas in Toronto.

Clung to Window Sash In Freezing Weather

James Ballantyne's Very Narrow Escape in a Fire in His Building in Winnipeg.

Winnipeg, Dec. 15.—Two floors of the Winnipeg Saddlery Company's warehouse on Market square were gutted by fire yesterday, entailing a loss of $30,000, which was covered by insurance.

James Billington, one of the proprietors, had a narrow escape from being suffocated, as he stood in the window of the top floor, waiting for the big aerial ladder to reach him, that he might descend to safety. The remainder of the twenty workmen on the upper floor fled to the roof, as other avenues of escape were cut off, and stood there in the freezing atmosphere until ladders were placed for them to descend.

Like the captain of a ship Mr Billington waited until his employes had reached the roof, and then found his escape cut off. He clung to the outer sash of a six-storey window until the big ladder was raised, and, although the firemen worked rapidly, it seemed like hours before he was rescued from his perilous position.

House of Commons Reject Ammendments

London, Dec. 15.—The hostility between the House of Lords and the House of Commons has now reached an open stage. The Lower House, after debating the matter all day, Wednesday night rejected all of the amendments of the House of Lords to the Education bill by a vote of 416 to 107, the Irish members voting with the Government. On a motion by Augustine Birrell, president of the Board of Education, a committee was appointed to draw up the reasons for the rejection of the amendments.

The final scene was one of intense excitement. Lord Lansdowne, the leader of the Opposition in the upper chamber, and many other peers were in the galleries, and listened to the concluding speeches. Mr. Birrell who throughout the debates has maintained a conciliatory attitude repudiated on behalf of the Government the idea of being offensive toward the peers.

IS BRITAIN INCAPABLE OF EMPIRE? ASKS THE TIMES

British Journal Says that England's Fiscal Policy Must Be Changed

REDUCTION IN PREFERENCE

Empire Will Be Brought Face to Face With Disruption.

London, Dec. 15.—The Times, in a special article and editorially, discusses the meaning of the new Canadian tariff to the Empire, adding that between Mr. Chamberlain's policy and the existing state of things there is no longer any question. They have now to decide between a preferential system in which Great Britain is included and one from which Britain is excluded and her place taken by rival preferential trade. Reciprocal trade, the colonies means to have. The only question is, with whom?

The Times editorially says: "It is a tariff intermediate that the importance of Mr. Fielding's departure lies. Its announcement is practically equivalent to an invitation from the Canadian Government to the world at large, and the United States in particular, to enter into commercial negotiations on a basis of reciprocal concessions. What would the acceptance of that invitation involve? For us it would undoubtedly, even as the Canadian offer stands at present, mean a very considerable reduction in the preference enjoyed by this country, but it requires very little acquaintance with the process of bargaining which accompanies the framing of commercial treaties not to realize that in practice the Canadian intermediate tariff would be substantially reduced in the course of arriving at an agreement. The British preference would consequently be still further narrowed, if it did not disappear entirely.

"It is impossible to contemplate the effect of this upon our trade with any satisfaction, but the misfortune is one which cannot be averted as long as we cling to our present economic policy. Those who have nothing to bargain with cannot complain if their interests are not consulted. Here we no duty, no Imperial obligation, to use every effort to avert the possibility of the absorption of Canada into the United States? Can we afford to let economic theories, whether true or false, stand in the way of measures which safeguard the Empire against that danger? It is not an abstract question of free trade or protection that the Government of this country has to decide, but an urgent concrete issue of imperial unity or disruption.

"What its attitude is to that issue will be shown at the forthcoming imperial conference. If it is an attitude of sympathy and goodwill; of readiness to further any measure conducive to unity, then the danger may be averted, even if it may not be possible to secure immediately that economic bond of union against which the Government is now hopelessly committed. But if the Government's attitude is merely one of polite reserve and profuse hospitality veiling its real indifference, then Canada and her sister States will inevitably come to the conclusion that England is incapable of Empire, political or economic, and will turn their attention elsewhere."

SPORTING TOPICS

THE TURF.

An evening contemporary of last night said "Mr. H. Cook, now in Oshawa, will return to Peterborough at an early date to take charge of a number of local horses, etc."

A Times representative seeing this last night called upon several officers of the recently reorganized Peterborough Turf Club, and was assured by them that Mr. Cook is not now in good standing with the Association, and that he will not be allowed to race or partake in anyway in the local coming races. This is a matter not fully understood by individual papers, so that these posted on the points can decide for themselves.

BASKET.

Arrangements are being made with the Midland basketball team for a game here on New Year's night. Their opponents will be the Arrows. Midland gave the Arrows a hard game a few weeks ago.

• • • •

The Alerts go to Toronto on New Year's day, and the Harriers will likely be in Brantford or Hamilton.

• • • •

HOCKEY.

The seniors had a practice yesterday evening in the Brock street rink. The boys will play the Marlboros in Toronto on Christmas night. The team will leave for the Queen City on the 5.10 p.m. C.P.R. train Christmas Day. The players will thus be able to have their Christmas dinner at home.

More Women Suffragettes in Jail

London, Dec. 15.—Five of the female suffragists arrested for attempting to hold a meeting within the precincts of Parliament last night, resulting in an exciting scuffle with the police, were sentenced to pay fines of $5 each, or in default to go to jail for a fortnight. Following the precedent in the cases of the earlier prosecutions, the women elected to go to prison.

Charles Wadsworth's Mysterious Death

Niagara Falls, Dec. 15.—Shortly before six o'clock last night, Charles Wadsworth, of Queenston, was pulled out of the river in front of the dock at Lewiston. His rescuers saw him struggling in the water holding fast to a valise, and this was landed with him. Wadsworth was laid out on the dock. Those about believed him to be dead, and sent for Coroner Walker.

Dr. Ramus viewed the body about seven o'clock, and he found, even at that hour, rigor mortis had not set in. He considered that Wadsworth was not dead when pulled out of the river, but that his life might have been saved by prompt medical attendance.

Coroner Walker laid the valise aside to dry, and while his back was turned, somebody stole it.

As Wadsworth was seen about the Hotel Cornell at five o'clock, and his watch had stopped at 5.55 o'clock, there is a suspicion that somebody, who was trying to secure the valise, threw him into the river. Wadsworth was 65 years old, and a member of the Victoria Park police force at Queenston. Coroner Walker will make a full investigation.

Home Circle Elects Officers for Next Year

Peterborough Home Circle, No. 193 at their meeting held in Foresters' Hall, elected the following officers for the ensuing year:

Leader—Bro. Dr. Morgan.
Vice-Leader—Bro. Wm. Nesbo.
Past Leader—Sister Anderson.
Financial Secretary — Sister Mrs. Booth.
Treasurer—Bro. Sergt.-Major Britain.
Recording Secretary —Sister Mamie Kitney.
Marshal—Bro. Worboy.
Warden—Sister E. Wilson.
Chaplain—Bro. Snell.
Guard—Bro. Hugh Ross.

King Oscar Failing.

Stockholm, Dec. 15.— King Oscar, whose health for some time has occasioned anxiety, and who yesterday exhibited symptoms of heart weakness, today is failing fast.

All is Quiet Now in France

Paris, Dec. 15.—The first day of the regime of the separation of Church and State having passed without grave disorders, public interest in the details of the continuation of the struggle already is flagging. It is now apparent that the resistance of the clergy will be purely passive, and that there is no prospect of religious passions being aroused unless the churches are closed. The government, therefore, a ruling cabinet council, abolished the extraordinary measures which the Cabinet is preparing.

In the meantime, in this city, except in two churches where regular services were held, the police again took notes of attendance and the singing during mass.

Cardinal Richard, Archbishop of Paris, is awaiting expulsion from the Archbishop Mansion. The Government however, desires to avoid even the appearance of force in the case of the aged prelate, who is in bad health, in the hope that he will take part soon of his own volition.

The Action, a violent Socialist organ, yesterday made an attack on the Government and created an uproar by calling attention to the fact that the Catholic Gymnastic Societies had numbers of rifles. There is not the slightest evidence, however, that armed resistance is contemplated.

Catarrh of the nose and throat should lead you to at least ask us for a free trial box of Dr. Shoop's Catarrh Cure. Nothing so surely proves merit as a real, actual test—and Dr. Shoop, to prove this, earnestly desires that we let you make that test. This creamy, Snow White healing balm, soothes the throat and nostrils and quickly purifies a foul or feverish breath. Call and obtain it today. J. D. Tully.

County Judge Protects the Constable

Belleville, Dec. 15—Judge Deroche gave an interesting decision in the county court yesterday. Last March a man named Egerton Garrison was arrested in the village of Actinolite for resisting arrest. Next morning he was tried by two new justices of the peace, Mr. Joseph James, Actinolite, and Dr. Bowlby, Tweed, and sentenced to six months at hard labor. After serving three weeks he was allowed out on bail, and then entered action to quash the conviction.

Judge Deroche said the constable who arrested Garrison made a big mistake, as the constable himself was the first cause of the breach of the peace. He also said Garrison should have been given a chance to secure witnesses, and, in any event, the penalty was too severe. However, in order to protect the justices and constables from an action for damages, he would confirm the previous judgment, and sentenced Garrison to one day more in jail.

Had Better Stay Away.

One of Peterborough's greatest heroes, and a member of numerous orders, from the street lassies association to the high order of "dipping from a drunk," and by name Cecil Shanahan was fined on the evidence of P. C. Newhall, $2.00 and costs amounting to $6.75. Cecil was too shy or ashamed to appear in answer to the summons and took a sea-side trip to Port Hope, where he had better take a cool header into the lake than ridding Peterborough of a great nuisance.

Reichstag Dissolved.

Berlin, Dec. 15.—The Reichstag yesterday, by 178 to 168 votes, rejected the supplementary budget for German Southwest Africa, and Chancellor Von Buelow read an Imperial message dissolving Parliament.

Suit Case and $10,000 Stolen

Fort William, Dec. 15.—During the few minutes that he was absent from a train on which he was a passenger, securing a lunch at a depot restaurant here, F. A. Healey a prominent Winnipeg business man, had stolen from his coach a suit case containing ten thousand dollars in notes and negotiable paper. The valise, smashed open with a knife has been recovered, but there is no clue to the whereabouts of the papers. Although the theft occurred on the Transcontinental Railway, the police are keeping the matter secret until yesterday.

Mr. Healey was on his way from Winnipeg to St. Catharines, Ont., where he intended to close a business transaction. When the train arrived here, he walked across the street to a lunch counter, where he remained less than ten minutes. When he returned the suit case was not to be found. He reported the matter to the police, and did not resume his journey east until Thursday morning.

Yesterday the valise was found by a laborer in the west end of the city, but three-quarters of a mile from the C.P.R. track, but a little iron box in which the papers were contained was gone. The police say that the box contained no cash and that the contents are valueless to anyone but the owner. They also declare that they have absolutely no clue to the thieves. A large reward will be offered for the recovery of the papers.

Governor Melnnes of the Yukon at Ottawa

Ottawa, Dec. 15.—Governor McInnes of the Yukon, who reached Ottawa last evening to discuss several matters of Yukon concern with the Federal authorities, was received by Sir Wilfrid Laurier, and will take up the matter at once that brought him here.

One of the principal of these is a proposal that the Commissioner-in-Council should have the authority to deal with all applications for water power in the Yukon. At present these have all to be made to Ottawa, and the necessary negotiations between Ottawa and Dawson involve a good deal that might be overcome by leaving these questions to the local authorities altogether.

Mr. McInnes claims that by year after next, when the Guggenheims have accomplished the installation of plant for the economic handling of their numerous properties, the output of the Yukon gold field, will show a very large increase over the five and a half millions that it yielded for the past season.

Lindsay Woman Found Dead in Field

Lindsay, Dec. 15.—Wednesday morning an aged woman named Mary Heenan, who resided alone in a small house east of Lindsay, about four miles on what is known as the Downeyville road, was found lying dead in a neighbor's field, not far from her own premises. She was often advised by friends to take up her abode in the county house of refuge, but refused. Last Saturday, a bitterly cold day, she walked to Lindsay to do a little shopping, and none of the neighbors suspected that she had never returned until yesterday, when a man named Partington visited the house, found it empty, and afterwards found the body in a field. The deceased having taken a short cut home, she evidently became benumbed, as a small bundle was under her head, and she seemed to have lain down for a rest.

ADVERTISE IN THE TIMES.

Crew Will Likely Lose Limbs by Amputation

Ottawa, Dec. 15.—The Liberal members from Manitoba, Saskatchewan and Alberta represented yesterday to Mr. Fielding that they had accepted the new tariff as a fair compromise but they declare that the tariff changes announced in November would require any increase in the tariff as asked for by the manufacturers. These gentlemen stated to the Minister that the manufacturers were not considering their own interests in asking for the raising of the duties. It was stated that the Canadian manufacturer cannot supply the domestic market in some cases, and that some Canadian goods needed in the West are not as good as the imported articles. There should be no reason, the members declared, for protecting inferior manufactures. The feeling of resentment caused by an increase of duties would hurt the Canadian manufacturer.

Five More Sections of G. T. P. Surveyed

Ottawa, Dec. 15.—The Transcontinental Railway Commission will invite tenders in the near future for the construction of five more sections of the new road. Location surveys have been completed over these sections, and all that remains is to complete the forms on which offers will be submitted. One section extends from Moncton to Chipmans, some fifty miles; another from Grand Falls to the boundary between New Brunswick and Quebec, another fifty miles; a third from this inter-provincial boundary westward to Quebec about one hundred miles; a fourth from La Tuque on the St. Maurice River, westward about forty miles; and the fifth eastward from Lake Abitibi about 150 miles.

The above program of construction work leaves the choice of routes across a portion of New Brunswick still open. The commission some time ago had re-surveys of what are known as the river route and the central, and has not yet received the final reports thereon. It is expected that the supplies for the Lake Abitibi section will be taken up by the Ontario Government line from Nrth Bay as far as the latter extends. No doubt part of the material will be taken in on the ice during the present winter.

Baby in Pickering Has Smallpox

Toronto, Dec. 15.—The attention of the Provincial Board of Health having been drawn to the fact that an infant which was ill near Rosebank, in Pickering Township, was showing suspicious symptoms, Dr. Bell, the inspector, paid a visit, and at once diagnosed the case as one of smallpox. The manner in which the infant contracted the disease remains a mystery, but precautions to prevent its spread were immediately taken.

To have beautiful, perfect, pink, velvet-like lips, apply at bedtime a light coating of Dr. Shoop's Green Salve. Then, next morning, notice carefully the effect. Dry, cracked, or colorless lips mean feverishness and are as well ill appearing. Dr. Shoop's Green Salve is a soft, creamy healing ointment, that will quickly correct any skin blemish or ailment. Get a free trial box at our store and be convinced. Large Glass Jars, 25 cents. J. D. Tully.

ADVERTISE IN THE TIMES.

Charlotte St. Champions Were Duly Honored

The banquet tendered to the Charlotte street church guild baseball team was well attended and as successfully carried out.

The Charlotte street baseball team have for three years in succession been champions of the Peterborough Guild League and are now the permanent possessors of the "Examiner" trophy, which had to be won three consecutive years by one club before passing into their possession.

The banquet was a fitting recognition of the good work done by these clever ball players. The rooms were appropriately decorated, and the young ladies of the church, who enthusiastically acted as amateur waitresses, filled their positions admirably.

In the absence of Mr. R. Neill, Dr. Morrison filled the position of toast master most acceptably.

A most interesting evening, interspersed with songs, music and a fine toast list, caused the hours to pass on flying feet.

REBELS BECOME DANGEROUS

Serious Trouble Threatened in Chinese Province of Hunan.

New York, Dec. 14.—A despatch to the Times from Hankow says official telegrams from Shang-Sha indicate that the disturbances in Hunan Province are becoming increasingly serious.

The rebels, whose object is anti-dynastic, are reported to be several thousand strong, and well armed. They have attacked the town of Liu-Yang, and the officials fear that unless checked they will move on Chang-Sha, where the Government's military force is small. Viceroy Chang-Chi-Tung has despatched 2,000 foreign drilled troops, with six nurses and guns. This force is expected to reach Yo-Chau today.

Separate School Elections Dec. 26th

The nomination of Separate school trustees for the coming year will be held on Wednesday, December 26, from the hour of twelve to one o'clock in the new St. Peter's school, Reid street. This will be the first time in many years that the nominations have been held in any other place than at the Murray street Separate school, which is now a thing of the past. Henceforth the proceedings will be conducted in the handsome new Separate school building.

A New Form of Torture.

New York, Dec. 15.—A London despatch, published here, says a correspondent at Odessa, describing instances of police repression there, writes of one man who has just finished a six months' sentence in jail for a political offence. Throughout his imprisonment night and day, a phonograph fixed in his cell unremittingly grossed out the Russian national anthem "to teach him patriotism." He is now a hopeless idiot. Other prisoners have been confined in cells illuminated by a blinding blue light, with the result that they were made imbeciles within a few months.

—Just received a special lot of cloth bound books—some but the very best authors. Suitable for Xmas gifts. On sale at 20 cents each, or six for one dollar. Times Bookstore.

Rabbit Shooters Were Called Down

On Thursday several well-known local sports went on a rabbit-shooting expedition to the township of Otonabee. Arriving at a swamp where all present had for several years past shot rabbits, the party got busy with guns, cockscrews, etc.

It seems however, that the swamp in question, has recently changed proprietors. The new owners hearing the popping of the guns, etc., rushed down and capturing several of the hunters red-handed gave them his views on raiding his private preserves, threatening all kinds of legal proceedings. He even told the sportsmen that he liked to see the little bunnies running round in the summer and that those present had no right to shoot them.

Fortunately a gentleman well known to every farmer in the riding, and a member of the party happened along. When he introduced his friends the new proprietor told the sportsmen to go ahead and shoot "all those ——— rabbits they wanted to." The result was a total bag of 13.

Canadian Patents Recently Taken Out

Mr. M. O'Keefe Buys Local Property

Another Family Has Been Added to Peterboro's Population.

Another family has been added to Peterborough's population. Mr. Michael O'Keefe, brother of Mr. Jas. O'Keefe, of this city, will reside in this city. Mr. O'Keefe has given his 60-acre farm, in Asphodel township, to his sons, Joseph and Thomas, and has bought the Dack property in Douro township, on the Trent canal, just outside the city limits. He will take up his residence there with his wife and the other members of his family. The place consists of about twelve acres, and has on it a fine brick residence, good stable and a fine orchard. The property has a rear frontage on the canal.

If "taken at the Sneeze Stage" preventics—a toothsome candy Tablet—will surely and quickly check an approaching cold or Lagrippe. When you first catch cold—or feel it coming on—take Dr. Shoop's Preventics, and the prompt effect will certainly surprise and please you. Preventics, surely supply the proverbial "ounce of prevention." Sold in 5-cent and 25-cent boxes by J. D. Tully.

All Thin, Pale Women

Can Learn the Cause of Their Nervous, Used-up Condition.

With women, ill-health is usually traceable to nerve exhaustion. Feeling run-down and tired most of the time is nature's warning that more nerve-force is required.

You must build up, nourish the body, vitalize the nerves, get more flesh and blood.

It's the abundant nutriment and building material in Ferrozone that enables it to cure so many sick women. It increases the appetite, adds weight and strength, restores lost color and develops a surplus of energy and nerve force that defies sickness of any kind. There is living proof in Mrs. Daniel Ferguson, Jr., of Prescott, Ont. Read her statement:

"A year ago my health failed. I grew thin and exceedingly pale. At times I was prostrated with nervous and sick headache. All day I was tired. At night it was difficult to obtain restful sleep. My appetite was variable and indigestion bothered me considerably. I became nervous and suffered from heart palpitation. You could scarcely believe the benefit I derived in one week from Ferrozone. Color came back to my cheeks. My vitality and appetite increased, renewed nerve force and better spirits came also. Ferrozone did a world of good and made me well."

Remember this: No alcoholic stimulant can nourish and build up like Ferrozone. Fifty cents per box or six boxes for $2.50 At all dealers, or N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U. S. A.

MORE MESSAGES FROM MARS

Boston has been fairly thrilled by a course of lectures on Mars which Professor Percival Lowell has been delivering. Astronomer Lowell has been facetiously dubbed "the agent-general for Mars," but as yet he is not inviting emigration to that planet or advertising in detail its advantages and attractions. What he does say, however, is fascinating, and, in the word of Boston contemporaries, "sublime."

The Lowell observatory at Flagstaff, Ariz., is said to be ideally situated for observations, and the professor has recorded in "annals" the results of indefatigable study and earnest reflection. Professor Lowell is satisfied that Mars is inhabitable and inhabited—that it is peopled by beings even more intellectual and advanced than ourselves. This is rather calculated to grieve the true Bostonian, by the way, but for the present his scientific curiosity overpowers his desire for distinction as the sole of the universe.

In his popular lectures Professor Lowell dwells on the more picturesque and romantic phases of the question. He speaks of the polar snows, the zones of luxuriant vegetation, the stretches of desert, the dust clouds that he has observed on Mars. He reverts to the Martian "canals," and expresses the opinion that the bands that appear and disappear with the changing seasons are ingenious and remarkable irrigation ditches. There are no seas on Mars, and the sole source of moisture is in the melting polar snows, which do for the Martians what the Nile does for the Egyptians.

The winters are rather cold on Mars, but the summers are long and warm, and on the whole the inhabitants are in easy circumstances of temperature. The landscape is level, but there is compensation in the extraordinary purity of the air, the brilliancy of the sky.

All the evidence leads Professor Lowell to infer that there is a high order of life on Mars. The mind of the Martian is revealed by his works, by his control of his physical environment. Besides, life is much older there, and the Martian has had a longer period than the inhabitants of this terraqueous planet to develop his brain and his social nature.

Professor Lowell is inclined to think, however, that with all their superiority the Martian philosophers are in the dark as to the state of affairs on the earth. He believes them to hold that life is impossible on our little globe—and in this respect, at any rate, the joke's on them. Too bad we can't have fun with them, but science doesn't despair.

Piles get quick relief from Dr. Sheep's Magic Ointment. Remember it's made a cure for Piles—and it works with certainty and satisfaction. Itching, painful, protruding, or blind piles disappear like magic by its use. Buy it and cast J. D. Tully.

Doukhobors are Good Railway Laborers

Regina, Sask., Dec 13.—Much interest has been created throughout the West by the report from St. Petersburg that Peter Verigin, the chief of the 22 Doukhobor colonies in Saskatchewan, is there to secure ten thousand Doukhobors for railroad work. The story is not credited by those familiar with Doukhobors business here. This is the center of the settlements of these people, and when Verigin left two months ago with two friends, it was understood that he would bring back only a few friends of those already here.

There has been a big demand for Doukhobor help on the railroad construction in Saskatchewan this year, and several large contracts are being handled by these people, even the women in some cases working on the track. They are declared to be the best class of labor available. The demand during the summer was in times the supply, and from the number of employment agents trying to make terms for next year for large bodies of men for this work, apparently the ten thousand Verigin is reported to be bringing over will not be sufficient to fill the orders.

MARY CAMPBELL.

The Lassie Who Was the Original of "Highland Mary."

The original of "Highland Mary" was Mary Campbell, a highland lassie who was a servant at Castle Montgomery, with whom Burns became acquainted during his residence at Mossgiel. To her he addressed the lines, "Will ye go to the Indies, my Mary?" and many others. In a note to one of his poems on Mary, Burns says: "After a pretty long time of the most ardent reciprocal feeling we met by appointment on the second Sunday of May in a sequestered spot by the banks of the Ayr, where we spent a day in taking a farewell before she should embark for the west highlands to arrange matters among her friends for our projected change of life. At the close of the autumn following she crossed the sea to meet me at Greenock, where she had scarce landed when she was seized with a malignant fever, which hurried my dear girl to her grave before I could even hear of her illness." The love which Burns felt for Mary Campbell appears to have been deeper than any he ever felt before or after. Years later, when he was married and had a family, her memory inspired the pathetic lines "To Mary In Heaven," which breathe the soul of tender melancholy.—London Tit-Bits.

The Earth's Insides.

Is the earth made up of three concentric spheres? A physician says that such is the case. The solid nucleus he supposes to be between 3,000 and 7,000 miles in diameter, and this is surrounded by a liquid substratum, outside of which is the crust, variously estimated at 70 to 200 miles in thickness. More than two centuries ago a similar theory, including the slow rotation of the inner solid sphere on a different axis from that of the entire globe, was held by Dr. Edmund Halley to account for the changes in the earth's magnetism. The axis of the nucleus was thought to have been originally that of the entire globe, and to the change of its course was attributed the deluge. The earth's internal heat, it is now pointed out, may be accounted for by the friction of the different rotating bodies.

"Look here," remarked a violinist resentfully, "you were talking all through my solo."

"Oh, don't worry about that!" replied the man addressed. "I assure you I wasn't saying anything that you would particularly want to hear."

Theory and Practice.

"I am going to hitch my wagon to a star!" exclaimed the enthusiastic young dramatist.

"Don't you do it, my boy," said the experienced manager. "She'll be sure to kick over the traces."

Today.

Live today as though it was the only day you had to live. This is the secret of the forceful life, the life of vitality and beauty, the only life that is worth while.

HYOMEI CURES CATARRH

Costs Nothing Unless it Gives Relief—Sold Under Guarantee

In many instances Hyomei has cured catarrh when the patient has suffered from childhood. Quite a few people in Peterborough, who have been unable for years to get a good night's sleep on account of the disagreeable hawking and dropping at the back of the throat, have obtained quick relief from a few treatments with Hyomei, and the continued use has made a complete and lasting cure.

There is no stomach dosing when one uses Hyomei. Simply breathe its medicated dealing through the pocket inhaler that comes with every outfit, and all catarrhal germs will be killed and the mucous membranes will be healed.

A complete Hyomei outfit costs but $1, sufficient for at least two weeks treatment, making it one of the most economical methods of curing catarrh. If the outfit does not complete a cure, extra bottles of Hyomei, if needed, can be bought for 50 cents. Remember that there is no risk in buying Hyomei. It costs nothing unless it cures.

All druggists should be able to supply you with Hyomei or we will send it by mail on receipt of price, and every package is sold with the distinct understanding that it costs nothing unless it cures. Write us today for a symptom blank, which we will send you free, together with treatise on Catarrh and how to cure it. When you fill in and return to us the symptom blank, our consulting physician will give your case the best care and attention, and write you a letter of advice without charge. Booth's Hyomei Company, Buffalo, N.Y.

New Constitution For the Transvaal

London, Dec. 14.—Letters patent were issued yesterday, granting a constitution to the Transvaal. The terms were fully outlined by Mr. Winston Churchill, Under Secretary for the Colonies, in the House of Commons, July 31st.

There is no change in the revision as finally approved by King Edward. Members of the Legislature will receive a salary of $1,500 yearly.

Under the letters patent the recruiting of Chinese for work in the Transvaal will cease immediately, and the future system of Chinese labor must be stopped a year after the first meeting of the Legislature, which is given the right to put an end to the system earlier if it considers.

RAISULI'S SOFT ANSWER

Moroccan Bandit Chief Says He Wants Peace.

London, Dec. 14.—The Times correspondent at Tangier has sent the following cable despatch:—Raisuli has sent me a statement, in which he says the use of his name by the public enemies who are agitating the mountain tribes was unauthorized. He desires to live in peace with the Europeans as long as they are actuated by legitimate feelings towards his country, and do not attempt to interfere in internal affairs. He is aware that forces are being sent to Tangier by the Sultan for the sole purpose of putting an end to his career. He proposes to allow them to reach the vicinity of Tangier, then he will inquire from them their mission and demand that they place themselves under his orders. Should a refusal ensue he will attack and drive them inside the walls of Tangier. He regrets that should this be necessary, it may occasion loss of life and loss of property to Europeans in the outskirts of the town. In spite of Raisuli's statement, there is no doubt he is stirring up agitation among the tribes.

To Defend English Trade Marks.

London, Dec. 15.—At a meeting of the Manchester Chamber of Commerce, correspondence was received from the Sheffield Chamber stating that it was not desired that British Consuls should undertake the prosecution of offences against private trade marks. But in certain flagrant cases of injury to the trade of the country where the names of English towns are fraudulently used the Sheffield Chamber suggests that it would be simple for the Consular officers to report to the Home Government, and that if one or two cases were dealt with it would have a far reaching effect in suppressing the evil. The Manchester Chamber assured the Sheffield Chamber of its support.

WHAT TO GIVE FOR CHRISTMAS

Is a question that is uppermost in the minds of Everyone just now.

Why not Give a Telephone

It may be used by the whole family and will give them pleasure throughout the year.

It will be a benefit to your relatives, friends and acquaintances who desire to "call" you.

Special arrangements have been made for these Christmas Gift Telephones.

If you would have one installed as your Christmas Gift Call or Write Contract Department.

AFFLICTED WITH CATARRH— LIFE HAD BECOME A BURDEN.

Pe-ru-na, Used As a Last Resort, Affords Complete Relief.

MRS. F. CARR.

The Relief Experienced By Mrs. Carr Through the Use of Pe-ru-na, After Having Tried the Best Professional Treatment in Vain, Is a Matter of No Small Wonder Among Her Many Friends.

Mrs. F. Carr, Vineland, Ont., Can., writes:

"For several years I was afflicted with catarrh, which made life a burden.

"The coughing and hacking which accompanied the disease was terrible.

"The complaint finally extended to the stomach and I was in a wretched condition.

"I tried different remedies and the best professional treatment all in vain.

"Finally, as a last resort, I tried Peruna upon the recommendation of my sister in Hamilton.

"I could see steady improvement and after using four bottles of that precious medicine I was feeling well again, my old trouble being completely a thing of the past.

"To-day I would not take one thousand dollars for what this grand medicine has done for me."

Many women owe their lives to Peruna. A great many more owe their health to Peruna.

A multitude of women throughout Canada are using Peruna as a preventative and a relief from catarrhal coughs and colds.

We have in our files a great number of letters from grateful women who have been benefited by Peruna, with permission to use these letters in public print.

Catarrh would not be such a curse to the human race if people thoroughly understood its nature.

Catarrh is a disease which never improves of its own accord, but becomes deeper seated the longer it is neglected.

It should be treated at once to prevent it from making inroads upon vital organs.

COLORADO SPRINGS, COLORADO

DARREL of THE BLESSED ISLES

By IRVING BACHELLER,

Author of "Eben Holden," "D'ri and I," Etc.

COPYRIGHT, 1906, BY LOTHROP PUBLISHING COMPANY.

heard him saying, and the words seemed to blister as they fell, and ever after when he thought of them a great sternness lay like a shadow on his brow.

"I must go," said he, calmly turning to Polly. "Let me help you into the wagon."

When they were gone he stood a moment thinking. He felt as if he were friendless and alone.

"You're a giant today," said a friend, passing him, but Trove made no answer. Roused incomprehensibly, his heavy muscles had become tense, and he had an odd consciousness of their power. The people were scattering, and he walked slowly down the street. The sun was low, but he thought not of home or where he should spend the night. It was now the third day after his arrest. Since noon he had been looking for Darrel, but the tinker's door had been locked for days, according to the carpenter who was at work below. For an hour Trove walked, passing up and down before that familiar stairway, in the hope of seeing his friend. Daylight was dim when the tinker stopped by the stairs and began to feel for his key. The young man was quickly at the side of Darrel.

"God be praised!" said the latter. "Here is the old Trove—the strong an' noble Trove. I know of thy trouble, boy, far off on the road, an' I have made haste to come to thee."

CHAPTER XXIV.

TROVE had been reciting the history of his trouble and had finished with bitter words.

"Shame on thee, boy," said the tinker as Trove sat before him with tears of anger in his eyes. "Watch yonder pendulum and say not a word until it has ticked forty times. For what are thy learning an' thy mighty thews if they do not bear thee up in time o' trouble? Now is thy trial come before the Judge of all. Up with thy head, boy, an' be acquitted o' weakness an' fear an' evil passion."

"We deserve better of him," said Trove, speaking of Elkey Brooke. "When all others hated him we were kind to the old sinner, and it has done him no good."

"Ah, but has it done thee good? There's the question," said Darrel, his hand upon the boy's arm.

"I believe it has," said Trove, with a look of surprise.

"It was thee I thought of, boy. I had never much thought o' him."

That moment Trove saw farther into the depth of Darrel's heart than ever before. It startled him. Surely here was a man that passed all understanding.

Darrel crossed to his bench and began to wind the clocks.

"Put away thy unhappiness," said he gently. "No harm shall come to thee. 'Tis only a passing cloud."

"You're right, and I'm not going to be a fool," said Trove. "It has brought me one item of good fortune."

"An' that is?"

"I have discovered who is my father."

"An' know ye where he is now?" the tinker inquired.

"No; but I know it is he to whom you gave the boots at Christmas time."

"Hush, boy," said Darrel in a whisper, his hand raised.

He crossed to the bench, returning quickly and drawing his chair in front of the young man.

"Once upon a time," he whispered, sitting down and touching the palm of his open hand with the index finger of the other, "a youth held in his hand a cup, rare an' costly, an' it was full o' happiness, an' he was tempted to drink. 'Ho, there, me youth,' said one who saw him, 'that is the happiness of another.' But he tasted the cup, an' it was bitter, an' he let it fall, an' the other lost his great possession. Now, that bitter taste was ever on the tongue o' the youth, so that his own cup had always the flavor o' woe."

The tinker paused a moment, looking steraly into the face of the young man.

"I adjure thee, boy, touch not the cup of another's happiness, or it may imbitter thy tongue. But if thou be foolish an' take it up, mind ye do not drop it."

"I shall be careful—I shall neither taste nor drop it," said Trove.

"God bless thee, boy! Thou'rt come to a great law—who drains the cup of another's happiness shall find it bitter, but who drains the cup of another's bitterness shall find it sweet."

A silence followed, in which Trove sat looking at the old man whose words were like those of a prophet. "I have no longer any right to seek my father," he thought. "And, though I meet him face to face, I must let him go his way."

Suddenly there came a rap at the door, and when Darrel opened it they saw only a letter hanging to the latch. It contained these words, but no signature:

"There'll be a bonfire and some fun tonight at 12 in the middle of Cook's field. Messrs. Trove and Darrel are invited."

"Curious," said Darrel. "It has the look o' mischief."

"Oh, it's only the boys and a bit of skylarking," said Trove. "Let's go and see what's up. It's near the time."

The streets were dark and silent as they left the shop. They went up a street beyond the village limits and looked off in Cook's field, but saw no

"Down to your knees, man."

light there. While they stood looking a flame rose and spread. Soon they could see figures in the light, and, climbing the fence, they hastened across an open pasture. Coming near, they saw a score of men with masks upon their faces.

"Give him the tar and feathers," said a strange voice.

"Not if he will confess an' seek forgiveness," another answered.

"Down to your knees, man, an' make no outcry, an' see you repeat the words carefully as I speak them or you go home in tar and feathers."

They could hear the sound of a scuffle and shortly the phrases of a prayer spoken by one voice and repeated by another.

They were far back in the gloom, but could hear each word of that which follows: "O God, forgive me—I am a liar and a hypocrite—I have the tongue of scandal and deceit—I have robbed the poor—I have defamed the good—and, Lord, I am sick—with the rottenness of my own heart. And hereafter—I will shoot no more—and speak no evil of any one. Amen."

"Now go to your home, Riley Brooks," said the voice, "an' hereafter mind your tongue or you shall ride a rail in tar and feathers."

They could see the crowd scatter, and some passed near them, running away in the darkness.

"Stoop there an' say not a word," the tinker whispered, crouching in the grass.

When all were out of hearing they started for the little shop.

"Hereafter," said Darrel as they walked along, "God send he be more careful with the happiness of other men. I do assure thee, boy, it is bitter, bitter, bitter!"

CHAPTER XXV.

TROVE had much to help him—youth, a cheerful temperament, a counselor of unfailing wisdom. Long after they were gone he recalled the sadness and worry of those days with satisfaction, for thereafter the shock of trouble was never able to surprise and overthrow him.

After due examination he had been kept in bail to await the action of the grand jury, soon to meet. Now, there were none thought him guilty save one or two afflicted with the evil tongue. It seemed to him a dead issue and gave him no worry. One thing, however, preyed upon his peace—the knowledge that his father was a thief. A conviction was ever boring in upon him that he had no right to love Polly. A base injustice it would be, he thought, to marry her without telling what he had no right to tell. But he was ever hoping for some word of his father—news that might set him free. He had planned to visit Polly, and on a certain day Darrel was to meet him at Robin's Inn. The young man waited in some doubt of his duty, and that day came, one of the late summer, when he and Darrel went afoot to the Inn, crossing hill and valley as the crow flies, stopping here and there at lakes of shadow in a hot amber sea of light. They sat long to hear the drowning in the stubble and let their thought drift slowly as the ship becalmed.

"Some days," said Darrel, "the soul in me is like a toy skiff, tossing in the ripples of a duck pond an' mayhap stranding on a reed or lily. An' then," he added, with kindling eye and voice, "she is a great ship, her sails league long an' high, her masthead raking the stars, her hull in the infinite sea."

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even-numbered section of Dominion Lands in Manitoba or the Northwest Provinces (except 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following regulations:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTHWEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 15 0x1500 feet. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,

Deputy of the Minister of the Interior.

STRICTURE AND KIDNEY DISEASE CURED.

G. E. Wright.

"I had stricture for eleven years. It finally brought on Bright's Disease of the Kidneys. I had an uncomfortable shooting pain in the groin and fearing as much something was in the urethra. My back was weak and I could scarcely stoop over. Urine was full of sediment. Had a desire to urinate frequently. Family doctors, so-called specialists, patent medicines, electric belts, all failed. I was discouraged. I had spent hundreds of dollars in vain. Finally I consulted Drs. Kennedy & Kergan on the last resort. I had heard a great deal about them and concluded from the fact that they had been established over 25 years that they understood their business. I am delighted with the results. In one week I felt better and in a few weeks was entirely cured. Have gained sixteen pounds in weight."

G. E. WRIGHT, Lansing.

One of the greatest opportunities for making large profits in mining stocks is now offered to the public. The Coeur D'Alene Mining District is rapidly becoming one of the greatest mining camps in existence. For every dollar expended twenty dollars has been taken out. Last year over $8,000,000 was produced from this district alone. This is not a new mining district, but one that has been working for years, and the ore bodies are permanent and increase in value with depth.

If you are interested write for our Weekly Market Letter and Quotation Sheet, also map of the Coeur D'Alene Mining District, which we will send free upon request.

We want agents in every city throughout Canada and United States.

LEGEND OF THE TOPAZ.

Why the Jewel Is Called the Stone of Gratitude.

The topaz is called the stone of gratitude, and the old Roman books record the following legend, from which the stone derives this attribute:

The blind Emperor Theodosius used to hang a brazen gong before his palace gates and sit beside it on certain days, hearing and putting to rights the grievances of any of his subjects. Those who wished for his advice and help had but to sound the gong, and immediately admission into the presence of Caesar was obtained. One day a great snake crept up to the gate and struck the brazen gong with her coils, and Theodosius gave orders that no one should molest the creature and bade her tell him of her wish.

The snake bent her crest lowly in homage and straightway told the following tale:

Her nest was at the base of the gateway tower, and while she had gone to find food for her young brood a strange beast, covered with sharp needles, had invaded her home, killed the nestlings and now held possession of the little dwelling. Would Caesar grant her justice?

The emperor gave orders for the porcupine to be slain and the mother to be restored to her desolate nest. Night fell, and the sleeping world had forgotten the emperor's kindly deed, but with the early dawn a great serpent glided into the palace, up the steps and into the royal chamber and laid upon each of the emperor's closed eyelids a gleaming topaz.

When the Emperor Theodosius awoke he was no longer blind, for the mother snake had paid her debt of gratitude.

PASSPORTS IN FRANCE.

The Kind That Were Issued in the Time of Louis XVI.

The mysterious cards of the Count de Vergennes each contained a brief history in cipher of those to whom they were given. De Vergennes was Louis XVI.'s minister of foreign affairs, and when strangers of a suspicious character were about to enter France he issued to them these strange cards, which acted as passports, and were also intended to give information concerning the bearer without his knowledge.

In the first place, its color indicated the nationality of the man who carried it. The person's age, approximately, was told by the shape of the card. A fillet around the border of the card told whether he was a bachelor, married or a widower. Dots gave information as to his position and fortune, and the expression of his face was shown by a decorative flower.

The stranger's religion was told by the punctuation after his name. If he was a Catholic it was a period, if a Jew a dash, if he was a Lutheran a semicolon and no stop at all indicated him a nonbeliever.

So a man's morals, character and appearance were pointed out by the pattern of his passport, and the authorities could tell at a glance whether he was a gamester or a preacher, a physician or a lawyer, and whether he was to be put under surveillance or allowed to go free.

Materialistic Man.

Sir James Crichton-Browne, the English physician, speaking before some members of his profession, protested against the tendency to adopt too materialistic an explanation of man. The raw material of a medical practice became a mere contrivance of matter and force; the brain of this poor consumer of pills and potions a "gluelike substance, nine-tenths water, with a little phosphorus thrown in." "They left us man," said Sir James, with a smashing figure, "a motor car, self made and self started, with no passengers and no chauffeur, moved by a series of explosions or redistributions of energy, and rushing on to inevitable destruction."

A Prayer.

Send some one, Lord, to love the best that is in me and to accept nothing less from me, to touch me with the searching tenderness of the passion for the ideal, to demand everything from me for my own sake, to give me so much that I cannot think of myself and to ask so much that I can keep nothing back, to console me by making me strong before sorrow comes, to help me so to live that while I part with many things by the way I lose nothing of the gift of life.—Hamilton W. Mabie.

Maude Was Willing.

A strict housewife said to a new maid, "I forgot to tell you, Maude, that if you break anything I'll have to take it out of your wages."

But Maude, whom two days had heartily sickened of her berth, replied, with a merry laugh: "Do it, ma'am; do it. I've just broke the hundred dollar vase in the parlor, and if you can take that out of $4—for I'm leavin' at the end of the week—why, you'll be mighty clever."—Argonaut.

The Other One.

"What is the meaning of 'alter ego?'" asked the teacher of the beginners' class in Latin.

"The other I," said the boy with the curly hair.

"Give a sentence containing the phrase."

"He winked his other I."

Long Sighted.

New Nurse—But why don't you want to take your bath, Johnny?

Little Johnny—'Cause somebody said the good die young, and I don't want to take chances on being drowned. See?—Exchange.

Anxiety does not empty tomorrow of its sorrow; it empties today of its strength.—Maclaren.

Robert Thompson Will Stay an Additional Year in the Penitentiary.

Kingston, Dec. 13.—Robert Thompson, sent to the penitentiary for ten years for burglary, made an attempt last fall to escape, but was intercepted. He was still up for trial, and before Judge Price in the Assizes Sessions he was convicted and an additional year added to his prison term.

EARLY GENIUS.

Men Who Were Young in Years, but Old in Works.

Davy made his epochal experiment of melting ice by friction when but twenty. Young was no older when he made his first communication to the Royal society and was in his twenty-seventh year when he first actively espoused the undulatory theory. Fresnel was twenty-six when he made his first important discoveries in the same field, and Arago, who at once became his champion, was then but two years his senior.

Forbes was under thirty when he discovered the polarization of heat, which pointed the way to Mohr, then thirty-one, to the mechanical equivalent. Joule was twenty-two in 1840, when his great work was begun, and Mayer, whose discoveries date from the same year, was then twenty-six, which was also the age of Helmholtz when he published his independent discovery of the same law. William Thomson was a youth just past his majority when he came to the aid of Joule before the British society and but seven years older when he formulated his own doctrine of dissipation of energy. And Clausius and Rankine, who are usually mentioned with Thomson as the great developers of thermo-dynamics, were both far advanced with their novel studies before they were thirty. We may well agree with the father of inductive science that "the man who is young in years may be old in hours."—Exchange.

CHINESE SKILL WITH AXES.

Carpenters of Cathay Will Compare With Occidentals.

In judging the performance of the native Chinese workman it is almost impossible to avoid the popular bias that addiction to their own methods and tools invariably bespeaks fatuous conservatism. Though this is in many cases true, it will often be found on careful observation that what has passed for a stubborn blindness to the virtue of innovation is in reality a keener perception of comparative merits than the judge himself was aware of.

This is particularly true of Chinese carpenters. While most of their commonest tools differ in some radical way from our own, it is never safe to assume the superiority of the western product. Their small ax, for example, is a beautifully balanced tool, and they are remarkably adept in the use of it, being able to work as true a surface therewith as can be obtained with an ads in the hands of the white man.

On heavy work it is customary for two to hew together on opposite sides, striking alternate blows. Both hands are used, and the recover is over the shoulder, alternate right and left. There is a freedom of swing with an accuracy of delivery that is a treat to watch, and the rapidity of blows is almost bewildering.

The Great Bustard.

The great bustard (Otis tarda), a bird still found in the southern provinces of Russia, is the heaviest European fowl. In size it exceeds the Norwegian blackcock. The old males attain a weight of thirty-five pounds, and where food is plentiful specimens weighing thirty-eight pounds and even forty pounds have been captured. These birds have disappeared from western Europe, where once they were almost as numerous as partridges, and are seen only in small flocks in the sand hills skirting the lower valley of the Dnieper and here and there along the north coast of the Caspian. The hen lays eggs as big as ordinary pears. A larger and heavier bird, the cassowary, is incapable of flight, but it can kick with the strength of a mule and uses the sharp, bony quills of its wings as a cook uses his spurs.

Granted In Advance.

The young doctor who had lately settled in Shrubville had ample opportunities to learn humility if nothing else in his chosen field. One day he was hailed by an elderly man, who requested him to step in and see his wife, who was ailing. At the close of his visit the young doctor asked for a private word with the man.

"Your wife's case is somewhat complicated," he said, "and with your permission I should like to call the Brookfield physician in consultation."

"Permission!" echoed the man indignantly. "I told her I knew she ought to have a good doctor, but she was afraid you'd be offended if she did."

"Paradise Lost."

Milton's "Paradise Lost" was commenced between 1639 and 1642 and completed about the time of the "great fire of London" in September, 1666. Its author composed it in passages of from ten to twenty lines at a time and then dictated them to an amanuensis, usually some attached friend. It was first published in 1667 by one Samuel Simmons, and a second edition appeared in 1674. For these two editions Milton received £10 and his widow £8 more.—London Graphic.

Over and Above.

"Mother, does Dr. Smith wear his everyday clothes under that long white gown when he preaches?" asked a little girl who had seen the edge of the minister's trousers under his robe.

"Yes, dear," was the reply.

"Well," she continued, "now I know why it is called a surplus."

Good For Luncheon.

"At luncheon I had something which was excellent, but not substantial."

"What was it?"

"An excellent appetite."—Il Diavolo Rosa.

The two greatest stimulants in the world are love and debt.—Beaumont.

Delirious Patient in Cab of Engine

Winnipeg, Dec. 14.—Clad only in a light night robe, T. R. Rush, a patient in the St. Boniface Hospital, escaped from that institution the other afternoon at 5.10 and ran across the Red River to the Canadian Northern sheds, where he mounted the cab of an engine. His experience in the bitter cold was a terrible one, though he did not appear to feel it at the time, nor after being returned to the hospital, though he had been out in the cold almost unprotected for about 45 minutes.

Rush was admitted to the hospital a few nights previously, and until his escape was given every attention. He was quiet previous to his running away, and was not considered violent in any way. While the back of the nurse was turned he jumped from the bed in a fit of delirium, and, breaking a window, he jumped outside and dashed across the ice of the river. The orderly from the hospital rushed after him, but was unable to catch up until the patient stopped at a locomotive and mounted the cab of the railroad sheds.

Police Constable Sabolka was also on the scene, and the patient was given the best possible care until conveyed to the hospital in a well-heated ambulance. As he was suffering from incipient pneumonia at the time of the attack of delirium, the occurrence can hardly help having ill results.

YOUR MONEY'S WORTH

Easy Way to Get Full Value for Every Half Dollar You Spend.

In your search for health, you who suffer with stomach trouble, do not try a remedy where the proprietor has not sufficient faith in its virtue to sell it under a guarantee that the money will be refunded unless it gives relief and cure.

It is in this way that Mi-o-na stomach tablets are sold, with a positive guarantee that the purchase price will be refunded on demand if it does not cure indigestion, strengthen the whole digestive system and restore the health to those who use it.

If the head aches, if the back and side are painful, if there is distress and nausea after eating, if you are sleepless, nervous, and out of sorts, you can with perfect confidence get a 50-cent box of Mi-o-na, knowing that the remedy will cost you absolutely nothing unless it gives you freedom from all ills and pains and restores you to health.

No one thing is the cause of more sufferings and pain than indigestion. Many cases of so-called kidney disease, heart trouble and nervousness are only different ways in which a weakened digestive system shows itself.

Use Mi-o-na stomach tablets and your ill-health will soon be gone, and you will forget that you have ever had indigestion or its resulting ills.

We absolutely agree that your money will be refunded should you buy a 50-cent box of Mi-o-na stomach tablets and not be satisfied with the results. Mi-o-na is sold by druggists everywhere, or will be sent by mail on receipt of price, 50 cents.

Write today for a free sample package, and also give us your symptoms, and one of the best known stomach specialists will give your case his careful and personal attention without charge. Booth Dyspepsia Company, Buffalo, N.Y.

DAVID P. TAFF

The Land Man

535 Kansas Avenue, TOPEKA, KANSAS

9,600 FEET

Sixty six mining claims.

A crosscut tunnel now in 4,000 feet.

5,000 feet of drifts, shafts and laterals.

A complete 750 h.p turbine electric power plant.

Numerous Veins explored.

A Big Industrial and Mining Proposition Combined.

A Strong Directorate.

This is real mining.

The Palmer Mountain Tunnel and Power Company has 66 lode mining claims back of it on Palmer Mountain, near the Town of Loomis, Okanogan County, Washington—about 13 miles south of the boundary of British Columbia. A new railway line is nearly completed and will run within 13 miles of the property. Steamers ply on the Okanogan River to within 23 miles of our properties. There is water—not only for mining purposes, but with unlimited possibilities for power generation. There is timber, there are large, well defined veins proved at great depth—and there is development enough done to make this one of the biggest and best mining propositions in the country.

INTERIOR OF TUNNEL

We can do more with $10 ore on our properties than the desert miners can do with $40 or even higher grade ore. We can make money because we have the FACILITIES on our ground. Our ore can be mined, milled, cyanided and bullion produced for not exceeding $2.50 a ton.

Our immence crosscut bore—a picture of which we show herewith—is now in 4,000 feet, is 8 by 9 in the clear (as large as any of the big transportation and drainage tunnels), and is well timbered, equipped with track, ore cars and everything else essential. In the picture shown herewith, the large pipe running at the top of the right side of the tunnel, is for ventilation purposes and connects with a large, powerful blower.

Recent development on the mountain proves that we shall open up at tunnel level (3,500 feet beneath the surface) an enormous body of copper ore.

We have opened up much $10 ore, and we have a higher grade running up to $50 a ton. This is where the big profit comes from. In the nearly TWO MILES OF WORKINGS we have all the facilities for handling a very large production. Back of it all we have a capable mining and business management. We should be very glad to tell you the complete story. We can only hint at it here.

Lax-ets 5 Cents Sweet to Eat
A Candy Bowel Laxative

Daisy's Trunk

By GEORGE STAIR.

Copyright, 1906, by Homer Sprague

"You should have sent your trunk on in the train ahead," said Compton. "Just now there is a press of baggage, and you cannot get your trunk out in time to get the other train."

"But I must," insisted Daisy, with pretty imperiousness. "If I lose that train the yacht will have left and I shall miss the trip. She will be sent south next month, and I shall not have another chance."

"I'll see what I can do," he volunteered. "But I am afraid that it looks very much like a hopeless case."

"You can do it," said Daisy confidently as she settled back in her seat with the air of one who dismisses discussion. Somehow Compton gave one confidence in his powers of accomplishment. Ever since she had been a child she had let him do things for her. He had always seemed a handy man, and precisely because he was so handy he had urged his suit on her in vain.

Just now Dick Tomlin was the favored suitor. Dick was to meet her at the station and take her over to the other railroad, where she would connect with the train for the shore where her brother was waiting for her on his yacht.

In spite of her liking for Tomlin she was glad when Frank Compton's form loomed up in the aisle of the car. Dick was not a good manager. With Frank along she knew that her trunk would be assured.

Compton sank into the seat beside her. "I suppose there is some favored swain waiting for you," he suggested.

Daisy blushed.

"Dick Tomlin said he might be there," she admitted.

Compton smiled.

"If he said that he might be there, be assured that he will," he said gravely. "Will he be the one, Daisy?"

"You are always thinking about my getting married," she pouted. "I don't

"LET ME HAVE YOUR CHECK," HE SAID QUIETLY.

see why we can't just be good friends, Frank."

"Because I want to be something better than good friends," he explained. "I want you for my wife and you merely laugh at the idea."

"I've known you ages," she explained. "You seem more like a big brother."

"So a newcomer wins the prize," he sighed.

"Please don't speak about it," pleaded Daisy. "You know I hate to hurt you."

Compton settled back in his seat with a sigh. That was the explanation of it all. Daisy had known him all her life. It was the new face that won her attention. There was no hope for him. The train was pulling into the station before he roused himself.

"Let me have your check," he said quietly. "Tomlin will look after you. I will try to get the trunk."

She gave him a grateful look as she handed him the square of brass. "You're an awful comfort, Frank," she said softly. "I'm sorry I can't—can't"—

"It's all right," he said, as he gathered up her belongings.

Tell Tomlin to get a hansom and send the driver after me. I'll have the trunk for him."

He helped her down the steps and, after seeing that Tomlin was there, went in search of the trunk. Truck after truck was run down the platform, and at last he recognized the little steamer trunk with its big red D.

Quickly he explained to the helper the necessity for having the trunk immediately, but the baggage handlers were tired and cross and not disposed to extend any favors.

"Can't do it," he said sharply. "The trunks have got to be checked up before they can go out. That will take half an hour."

Compton passed the man a bill. "Suppose you transfer the check to me," he said. "You can check me up instead of the trunk. Then if there's any trouble you have me to answer for it."

For a moment the man stood still as the idea sank in; then, with a laugh, he jerked off the trunk, slipped off the strap and fastened it to Compton's arm. The cabman stepped up to shoulder the baggage, and the hauler grinned.

"Jump up there with the rest of the trunks until I can run you into the room," he laughed.

Compton fell in with the joke and took his place on top of the pile of baggage.

For the next half hour he was compelled to sit in the stuffy room until the baggagemaster found time to attend to him. Then the two checks were verified, the tag was taken from his arm, and he was permitted to go.

Three weeks later he ran into Daisy on the street. "How is my trunk?" she asked, with a smile.

"You got it, I hope?" he said quickly.

"I mean my substitute trunk," she explained. "The Potters told me about it. It seems that they saw you make the exchange."

"It was the only way to avoid a delay," he said. "That accounts for my not coming to say goodby."

"You are a dear old fellow," she said softly. "When I heard the story from the Potters and remembered how Dick complained because you were on the train with me I saw the difference between you two and"—

"And?" he questioned.

"The contrast was in your favor," she said hurriedly. "Frank, if you want to ask a certain question again I think that perhaps"—

"Here is the jeweler's," suggested Compton. "Let's get the ring."

"I want one with a seal like a trunk check," she said as she followed. "I planned it all out on the boat."

"Bless the trunk check," said Compton fervently.

Still First In all Hearts.

Teachers and pupils of a high school in New Jersey were amazed one morning when the principal suddenly ordered all the classes to assemble in the auditorium. Their amazement increased, says a writer in the New York Press, when he began to address them on "George Washington, the Father of Our Country."

When the principal finished his remarks he paused impressively for a moment and then went on in his severest tone:

"The bust of George Washington which stood upon the pedestal in the reception room has been removed and placed upon the floor, with its face in the corner. Until the culprit, whoever he or she may be, comes to the front and makes a public confession of the misdemeanor not a soul will be permitted to leave this building. Remember, there will be no other punishment imposed than the open and public confession."

There was a great sensation. Teachers exchanged glances; pupils fidgeted round, awed and frightened. The principal, holding himself very erect, faced them solemnly.

"I am waiting," said he.

Then the janitor stepped forward and relieved the situation.

"It's up to me," he said. "The roof was leakin' mighty bad, an' the bust of Mr. Washington were in the drip, an' I t'ought it proper to move it to keep the rain from sp'ilin' it, an' I meant no insoolt by turnin' his face to the wall, sir."

"The school is dismissed," said the principal.

A Contented Town.

A man who had been born and reared in a small town in the interior went to one of the large cities, engaged in business and accumulated a fortune. After a lapse of twenty-five years he made a visit to his native village. Desiring to do something for the place, he rented a vacant building on the principal street for a long term of years and telegraphed an order for a first class chemical engine and other appurtenances.

Having previously secured the promise of the village trustees that a volunteer fire department would be organized at once, he had the satisfaction of seeing the engine installed in the building before he went away.

A few days after his return to the city a friend in the little town sent him a copy of the local paper. It contained a full account of his philanthropic action and expressed the gratitude of the citizens for his liberality, but wound up thus:

"There is a general feeling, however, that with his vast wealth it wouldn't have hurt him a bit if he had given us instead a system of waterworks and a regular steam fire engine, with a span of bay horses and a paid fire department. Then we could have crowded over every town in the county. As it is, we are merely on a par with Pilgrimville and Kohankus, and if we go to putting on airs they'll give us the laugh."

Inquire and Enquire.

"While you are on the subject of spelling," says a correspondent, "can you kindly explain why business men persist in writing 'enquire' and 'enquiry' for 'inquire' and 'inquiry?' The word is pronounced 'in,' and 'in' clearly expresses the meaning."

The explanation, we think, must be that business men are too much given to the study of the older classics of our language. In the romance of "Gamgeddes," for example, the business man reads that:

Of every man he enquery'd the certainte
Whiche of his men were de.. and w. che were taken.

And they have noted that Child's test of "The Baliff's Daughter of Islington" says that:

To fatre London she would go
Her true love to enquire.

Congreve spells it with an "e," but Milton with an "i." Spenser spelled it with an "i," but the translators of the "Authorized Version" spelled it with an "e." So the honors are perhaps easy as regards the classics. But there is no doubt that the "i" has it all its own way in the practice of modern writers of regrets.—London News.

Element of Violence.

Rome, Dec. 15.—It is held here that the expulsion of Mgr. Montagnini from France introduces an element of violence into the struggle between France and the Vatican. The Corriere dela Sera states the conviction that the Holy See would be found accommodating in case any Government in Paris wished to treat with the Pope.

By-Law No.____

A By-Law to Provide for Borrowing a Further Sum of Twenty-One Thousand Dollars to Pay for the Erection and Equipment of a Collegiate Institute in the City of Peterborough.

Passed the day of 1907.

WHEREAS By-law Number 1077 of the Corporation of the Town of Peterborough passed by the Council thereof on the 20th day of May, 1904, after having been submitted to and having received the assent of the duly qualified electors of the Town of Peterborough authorized the borrowing of the sum of fifty thousand dollars for the purchase of a site and to pay for the erection of a Collegiate Institute in the Town of Peterborough and the said site has been purchased for the sum of Ten thousand dollars, but the Board of Education for the said City has represented to the Council of the City of Peterborough that in order to erect and properly equip a suitable Collegiate Institute a further sum of Twenty-one thousand dollars will be required and has by resolution of the said Board requested the said Council to submit a By-law for the purpose of authorizing the borrowing of such additional sum to the votes of the duly qualified electors of the said City.

AND WHEREAS under the provisions of the High Schools Act the said Council is required to comply with such request and it is therefore necessary for the said Council to pass this By-law to be submitted to the votes of the duly qualified electors of the said City of Peterborough to authorize the borrowing of the said additional sum of Twenty-one thousand dollars for the purposes aforesaid, which is the amount of the debt intended to be created by this By-law, and it is advisable to submit the same on the same day as the annual election for the Municipal Council of the said City for the year 1907.

AND WHEREAS in order to raise the said sum of Twenty-one thousand dollars, it will be necessary to issue the debentures of the Corporation of the City of Peterborough for the said amount.

AND WHEREAS the amount of the whole rateable property of the Municipality liable for Collegiate Institute rates according to the last revised assessment roll, being for the year 1907, is the sum of Six million nine hundred and fifty-four thousand seven hundred and thirty-one dollars ($6,954,731).

AND WHEREAS the amount of the existing debenture debt of the Municipality, exclusive of local improvement debts but including the debt of Two hundred and ninety-two thousand dollars ($292,000) incurred for the purchase and improvement of the water-works system is the sum of Seven hundred and four thousand and fifty-five dollars and nine cents ($704,055.09) and there is no part of the principal or interest in arrear.

AND WHEREAS it will require the sum of Eight hundred and forty dollars ($840) to be raised annually for a period of thirty years, the currency of the debentures to be issued under and by virtue of this By-law to pay the interest of the said debt and the sum of Four hundred and six dollars and eighty cents ($406.80) to be raised annually during the said period as a sinking fund for the payment of the said debt, such last mentioned sum being sufficient with the estimated interest on the investment thereof to discharge the said debt when the same becomes payable, making in all the sum of Twelve hundred and forty-six dollars and eighty cents ($246.80) to be raised annually as aforesaid, by a special rate upon the whole rateable property of the Municipality liable for Collegiate Institute rates.

THE CORPORATION OF THE CITY OF PETERBOROUGH BY THE COUNCIL THEREOF THEREFORE ENACTS AS FOLLOWS:

1. This By-law shall take effect on the final passing thereof.

2. It shall be lawful for the Council of the said City of Peterborough to borrow the sum of Twenty-one thousand dollars for the purposes aforesaid, and to issue the debentures of the said Corporation for the said sum, such debentures to be sealed with the Corporate Seal of the City of Peterborough and to be signed by the Mayor and Treasurer and countersigned by the Secretary of the Commissioners of the Peterborough City Trust, and to be made payable within thirty years after the issue thereof, and to bear interest at the rate of four per centum per annum, payable half-yearly on the thirtieth day of June and the thirty-first day of December in each year, and to have coupons attached thereto for the payment of such interest; such debentures as to principal and interest to be payable at the offices of the Secretary of the Commissioners of the Peterborough City Trust in the City of Peterborough.

3. There shall be raised and levied during each year of the currency of the said debentures by a special rate upon all the rateable property of the Municipality liable for Collegiate Institute rates the sum of Eight hundred and forty dollars ($840) for payment of the interest, and the sum of Four hundred and six dollars and eighty cents ($406.80) as a sinking fund for the payment of the said debt at the maturity thereof, making together the sum of Twelve hundred and forty-six dollars and eighty cents ($1246.80) to be raised annually as aforesaid.

4. The proceeds of the said debentures when sold shall be handed over to the Board of Education for the City of Peterborough to be applied in paying for the erection and equipment of the Collegiate Institute in the City of Peterborough.

5. The votes of the electors of the City of Peterborough qualified to vote upon By-laws for creating debts shall be taken upon this By-law on the same day as the annual election for the Municipal Council for the year 1907 and the polls will be held during the same hours, at the same places and by the same Deputy Returning Officers and Poll Clerks as are appointed and fixed for the said Municipal election.

6. The eighth day of January, 1907, at the hour of twelve o'clock noon and the City Clerk's office are hereby fixed as the time when, and the place where, the Clerk will sum up the number of votes given for and against the By-law.

7. The fifth day of January, 1907, at the hour of twelve o'clock noon and the office of the City Clerk are hereby fixed as the time and place for the appointment of persons to attend at the various polling places and at the final summing up of the votes by the Clerk respectively, on behalf of the persons interested in and promoting or opposing the passing of the By-law respectively.

Mayor.
Clerk

NOTICE

Take notice that the foregoing is a true copy of a proposed By-law which has been taken into consideration and which will be finally passed by the Council of the City of Peterborough (in the event of the assent of the electors being obtained thereto) after one month from the first publication hereof in the Morning Times newspaper, the date of which first publication is the eighth day of December, 1906, and that at the hour, day and place therein fixed for taking the votes of the electors the polls will be held.

S. R. ARMSTRONG
City Clerk.

OTTAWA, ONT.

Architectural Competition for Departmental and Justice Building.

COMPETITIVE drawings are invited for Departmental and Justice Buildings to be erected for the Dominion Government at Ottawa, Ont.

The author of the best design will be awarded a premium of $3,000, the second best $4,000, the third best $2,000, and the fourth best $1,000.

Drawings will be received not later than April 15th, 1907, and are to be addressed to the Secretary of the Department of Public Works, Ottawa.

This competition is open to Canadian Architects who have been resident in Canada for one year or more.

Conditions of competition stating requirements of buildings and maps showing site &c. may be had on application to the undersigned.

By order,
FRED. GELINAS,
Secretary.

Department of Public Works,
Ottawa, December 12, 1906.

Newspapers will not be paid for this advertisement if they insert it without authority from this Department.

TENDERS FOR MINING LANDS

IN PURSUANCE of an Order-in-Council, dated 22nd November, 1906 tenders will be received by the undersigned at the Department of Lands, Forests & Mines, Toronto, Ont., up to the hour of one o'clock in the afternoon of Thursday, the 20th day of December, 1906, for the purchase of those portions of the beds of Cobalt Lake and Kerr Lake situated in the Township of Coleman, in the District of Nipissing, now the property of the Crown, together with the mines, minerals and mining rights therein and thereunder, the same being described as follows:—

PARCEL NUMBER ONE.

Land covered by water of Cobalt Lake. Being composed of the land covered by water of all that portion of Cobalt Lake situate in the Township of Coleman, in the District of Nipissing, lying south and east of the south-easterly limit of the right-of-way of the Temiskaming & Northern Ontario Railway and Cobalt station grounds, together with the islets in the said portion of said Lake, excepting thereout and therefrom that portion of Cobalt Lake designated as mining location J. B, containing four acres, granted by letters patent, dated 31st July, 1905, to James H. McKinley, Ernest J. Larragh, Robert Gorman and William Anderson, said portion of Lake hereby offered for sale containing by admeasurement forty-six acres, more or less.

PARCEL NUMBER TWO.

Land covered by water of Kerr Lake. Being composed of land covered by the water of Kerr Lake, in the Township of Coleman, in the District of Nipissing, excepting thereout and therefrom those portions surveyed and designated as mining locations J. B 2, J. B. 10 and J. B. 11, containing by admeasurement two acres, four acres and twelve acres respectively, the two former locations. J. B. 9 and J. B. 12, having been granted by letters patent, dated 22nd June, 1905, to the Canada Iron Furnace Company, Limited, and J. B. 11 having been granted by letters patent, dated 30th June, 1905, to Jacob A. Jacobs, said portion of Lake hereby offered for sale containing by admeasurement twenty-three acres, more or less.

Parcel Number 1 carries with it the right to mines and minerals in the adjacent one-half of the road allowance on the east shore of Cobalt Lake, and lying between the mining locations R. L. 404 and R. L. 404 and the water's edge, provided the veins or deposits extend from the bed of the Lake into or under the said road allowance. See 4 Edward VII., Chapter 23, Section 20

The boundaries of both parcels will be surveyed and delimited on the ground before the day of sale.

Tenders are to be for each parcel separately, and are to name a lump sum for each parcel, without royalty, payable in full within fifteen days of acceptance of tender.

A marked cheque for ten per cent. of the price offered must accompany each tender, to be forfeited upon non-payment of the balance of the purchase money within the prescribed time.

Tenders to be enclosed in sealed envelopes, marked on the outside in plain letters, "Tender for Cobalt Lake," or "Tender for Kerr Lake," as the case may be, and to be addressed to the Minister of Lands, Forests & Mines, Toronto, Ont.

The highest or any tender not necessarily accepted.

F. COCHRANE,
Minister of Lands, Forests and Mines.

Toronto, Ont., 22nd November, 1906.

The Ottawa Cobalt and Silver Mining Company

OTTAWA, ONT.

Incorporated under the Ontario Mining Companies Act.—No Personal Liability.

Authorized Capital, $250,000; Subscribed Capital, $50,000; Unissued and in Treasury, $200,000.

DIRECTORS

D. O'CONNOR JR. ESQ., Contractor, President, Ottawa.
W. J. KIDD Esq., Barrister, Vice-President, Ottawa.
JAMES WILSON Esq., Wholesale Merchant, Ottawa.
ROBERT GORMAN Esq., Gentleman, Ottawa.
J. OGLE CARSS Esq., Barrister, Ottawa.
SOLICITORS—KIDD & CARSS, Ottawa.
BANKERS—THE CROWN BANK OF CANADA, Ottawa.

PROPERTY AND LOCATION

The property consists of forty acres being the south-west quarter of the north half of lot 6 in concession 1 Township of Bucke. The property of this Company lies about three-quarters of a mile north-west from the celebrated Trethewey mine and is identically of the same formation. Vein matter was found in this property right from the surface and subsequent prospecting has revealed several well defined veins. On the main vein several nuggets of native silver were found. A shaft had been sunk to a depth of fourteen feet, when the property was taken over by this Company.

WORK ON THE PROPERTY

At present a camp is being built and active development work is being proceeded with. One half of the Company's property is still unprospected.

BUSINESS PROPOSITION

Of all Cobalt Mining Companies none can show a sounder business basis than this. The organizers had such confidence in the property that they have taken their entire interest in stock and have pooled same for six months, evidencing the fact of their absolute confidence in the value of the Company's property at the par value of $1.00 per share. ONLY 25000 shares are being issued at the present time for active development work It is confidently expected that this will be sufficient to make this property a shipper, and if so the public can at a glance see what the value of these shares will be, having regard to the fact that only 75,000 shares of the Company will have been issued. The stock is not being offered outside of Ottawa as the Directors feel confident this small amount will be oversubscribed here. Address

D. O'CONNOR, President, - - OTTAWA, ONT

Proper Medicine For The Blood

Proved DAILY

Drives Away That Tired Feeling; Makes You Feel Brisk.

To every one is sure to come that tired, exhausted feeling.

When the blood is weak, thin and debilitated, circulation is slow, and in consequence the system is contracted with poisons and wastes that should be driven off.

The sensible person puts on the tonic action of experience and cleanses his system with a course of Dr. Hamilton's Pills of Mandrake and Butternut.

No medicine can be more certain to quickly cure. Convenient to take, just one pill at bedtime; safe, because entirely vegetable; satisfying, because proved by thousands that Dr. Hamilton's Pills set you up in a few days.

From Chautauqua Pt., N. S., comes the following from Mrs. W. A. Reynolds: "A year ago my health became to fail. I lost appetite, became nervous and sleepless. My weight ran down, I became thin, hollow-cheeked, and had black rings under my eyes. I really felt as if the shears of life had left me and when spring time arrived I was in the 'Slough.' I used of Dr. Hamilton's Pills, and used five boxes at once.

"Within a month my appetite and color were good. I gained strength and felt like a new woman. New life and vigor returned, and my friends scarcely knew me. A medicine that will do this should be in every home."

Good health means much to you. Success and happiness depend upon it. The maintenance and source of health is found in Dr. Hamilton's Pills 25c. per box, or five boxes for $1.00, at all dealers, or by mail from N. C. Polson and Co., Hartford, Conn., U. S. A., and Kingston, Ont.

LOCAL INCIDENTS

By The Times Man on the Street

—The Times has to thank Mr. R. R. Hall, M.P., for sending us parliamentary papers.

—Times Bookstore for the largest and best assortment of children's novelties for Xmas.

—The Dominion Express Co., has put on an extra delivery vehicle for the Xmas trade.

—It was yesterday rumored that J. B. Hespeler intends to run as labor candidate for the city council. This is doubtless a joke.

—Bargains galore in fancy china and bric-a-brac at Times Bookstore. See our south window for twenty-five cent bargains.

—If Jack Frost only visits Peterborough today, hundreds of boys and girls will visit the Jackson Park rink this afternoon and evening.

—Preparatory Communion service was conducted in St. Andrew's church yesterday evening. The pastor was assisted by Rev. Dr. Marsh of Springville.

—These past few days the quotation, "The Wicked Stand in slippery places," has been fully proven, and lots of unparliamentary language resulted.

—The Charlotte street Baseball team desire to return thanks for the splendid banquet given them by the Young Men's Guild and the ladies of the congregation.

—The side dam on the Dickson Co's raceway, in Lakefield, has been undergoing a course of repairs during the past few weeks. The dam is now in first-class condition.

—Doctors Greer, McNulty and Frederick read most valuable and interesting papers before the Central Ontario Medical Association's meeting on Thursday night.

—The formal opening of the Woman's Art Association was very largely attended, there being over fifty people in attendance. Mrs. H. M. Dennistoun served a very enjoyable tea.

—Yesterday Porters' "Delicatessen," had a handsome new sign over their new double stores. This firm has within the past two days purchased two tons of poultry for the Christmas trade.

—Mr. W. McCallum the George St. restaurateur, has introduced a new line in his business, viz., that of cooking chickens, turkeys, or other fowl for housewives wanting to save time and trouble.

—There is a rumor flitting round that the C.P.R. has purchased the Bridgewater railroad or excuse for one, the charter of which has been held by the G.T.R. for one year somber of years.—Minor Review.

—With a large attendance present the Mothers' Guild of St. Luke's church, held their annual oyster supper yesterday evening. Rev. Dr. Dickens gave an address, Miss Orothers rendered violin selections and there was a character sketch, entitled "Aunty Doleful."

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

WALDING, KINNAN & MARVIN,
Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

Sound Stock That Pays Seven Per Cent.

Good Opportunity to Purchase Portland Cement Stock.

As is well known, Portland cement is a commodity that is used everywhere, and for which the demand is increasing rapidly.

The Clawson-Strean Brokerage Co. of Kansas City, Mo., a well known and reliable firm are now recommending the purchase of Kansas City Portland Cement Company's stock. The preferred stock draws seven per cent. from date, and with each share sold a share of the common stock of that company is given as a bonus. The company is able to sell their cement at 25 cents a barrel cheaper than other companies owing to advantageous freight rates, which in itself pays a dividend. In all probability the common stock will be worth par within a year. For prospectus of this and also of other Portland Cement Companies' stock address Messrs. Clawson-Strean Brokerage Co., Kansas City, Mo.

Rain Prevents Band Last Night.

Owing to the inclement weather and rain of yesterday, the band did not play at Jackson Park skating rink as advertised in the evening papers. However, on Tuesday of next week, and every Tuesday and Friday following, throughout the season the band will be at this popular place of amusement until the end of the season. Arrangements have been completed whereby the patrons of the street cars going to Jackson Park will find themselves well treated and every thing arranged for their comfort and pleasure.

Mrs. Swanston Laid to Rest.

The funeral of the late Mrs. Ann Swanston took place yesterday afternoon from her late residence, Hunter street, to the Little Lake cemetery. The obsequies were largely attended and many floral tributes testified to the high esteem in which the deceased was held. Rev. J. G. Potter, conducted the service at the house and grave.

SOCIAL AND PERSONAL

—Mr. R. Norman Jolliffe was in the city yesterday.

—Mr. D. G. Thompson of Cedarhill was in the city yesterday.

—Mr. Geo. Lancaster of Peterborough, is visiting friends in Kinmount.

—Mrs. William Gallen of Burleigh, is visiting Mrs. Thos. Campbell, Gilmour street.

—Mr. Charles Curtis is in Toronto attending the provincial convention of brickmakers.

—Mrs. Geo. Jobbitt, of Peterborough, spent a few days last week the guest of Mrs. A. Brokenshire.—Fenelon Falls Gazette.

—Mrs. John Nugent, Brock street, entertained a number of friends in honor of Mrs. J. Jeffries, who is leaving shortly for Toronto.

—Mr. Ernest Beattie, who manages large plumbing establishment at 1822 Wabash Ave., Chicago, is visiting his mother Mrs. Milne of Sherbrooke street.

—Mr. and Mrs. S. H. Craig, Hespeler, formerly of Peterborough, were in the city yesterday attending the funeral of Mrs. Craig's mother, the late Mrs. Swanston.

—Invitations have been issued this week for the wedding of Miss Mabel May Chambers, of Blairton Station, to Mr. Mr. John K. Young, of Toronto. The ceremony will take place in St. John's church, Havelock, on the 26th inst., at 7.30 p.m.

Uncle Sam Stops Man From Peterboro'

The Toronto World says:—A chilled and hungry looking young Englishman named Harold Spencer, wandered around the streets rather disconsolately all day yesterday, for he had happened upon peculiarly hard luck within the subsequent 24 hours and had travelled a long distance, partly against his will. He had been on his way from Peterborough to Amsterdam, N.Y., but was not allowed to proceed into the United States, because he did not possess the $2 for the fee necessary for the admission of aliens, and the authorities provided him with a ticket back to Peterborough.

It was on Monday morning that he left Peterborough for Uncle Sam's country. He got, he says, as far as Buffalo, where, with an Italian from Toronto, whom he could not understand, he was detained, and told that his ticket to Amsterdam and his two baggage checks would not help to admit him to the country unless he had some money. He hadn't. The two men were put in a barn-like place, locked up and told to be ready for the return train in the morning. Spencer says he had been fasting all the previous day, but he got nothing to eat. He reached Toronto at 11 a.m. yesterday, and had to stay over till five o'clock for the Peterborough train. The young man is pronouncedly English, having left his native land less than three months ago. He has been working as a carpet weaver in Peterborough, and decided to go to Amsterdam in response to a telegram from his uncle, named Moran, who lives there. Some good fellows got acquainted with him and his story on Yonge street, and he looked brighter after they had provided him with a sandwich, a glass of beer, some cigarettes and some small silver sufficient to feed him till he gets back to Peterborough.

Peterborough Folk For Old Country

A Toronto despatch of yesterday says:

The Empress of Britain, which was said for the Old Country from St. John's, N.B., today will carry over 1,200 passengers, the largest number ever taken by one boat from the shores of the Dominion. From east and west and south and north the passengers came into the Union Depot yesterday morning en route for St. John. There were 147 from Chicago and district, 150 from the west and Vancouver, and these numbers were added to by about 200 Scotchmen and Englishmen going home to spend Christmas. The majority have been in Canada only a year or two. They all intend coming back to Canada again. "The Maple Leaf" was sung as the train pulled out of the depot.

About half a dozen from Peterborough are passengers, bound for their homes across the sea.

Improvements at the C. P. R. Ticket Office

A great improvement in decorative effect has been accomplished in the local C.P.R. ticket offices. The new paper is a green tapestry ingrain with a three foot red burlap connected by an oak railing run round the office. The general design includes the Three Sister Mountains, a scene on the C.P.R., in the Rocky Mountains. The color effect is several shades of green with silver mountain tops.

Mr. Wm. Mellroy is getting a new quarter-cut oak ticket cabinet as well as a number of other pieces of new furniture.

"THERE'S A REASON."

Read "The Needle Wellville in pkgs.

Eminent Doctors Praise Its Ingredients.

We refer to that boon to weak, nervous, suffering women known as "Dr. Pierce's Favorite Prescription."

Dr John Fyfe one of the Editorial Staff of THE ECLECTIC MEDICAL REVIEW says of Unicorn root, (*Helonias Dioica*) which is one of the chief ingredients of the "Favorite Prescription":

"A remedy which invariably acts as a uterine invigorator * * * makes for normal activity of the entire reproductive system." He continues "in Helonias we have a medicament which more fully answers the above purposes than any other drug with which I am acquainted. In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent." Dr. Fyfe further says: "The following are among the leading indications for Helonias (Unicorn root). Pain or aching in the back, with leucorrhœa; atonic (weak) conditions of the reproductive organs of women, mental depression and irritability, associated with chronic diseases of the reproductive organs of women, constant sensation of heat in the region of the kidneys; menorrhagia (flooding), due to a weakened condition of the reproductive system; amenorrhœa (suppressed or absent monthly periods) arising from or accompanying an abnormal condition of the digestive organs and anæmic (thin blood) habit; dragging sensations in the extreme lower part of the abdomen."

If more or less of the above symptoms are present, no invalid woman can do better than take Dr. Pierce's Favorite Prescription, one of the leading ingredients of which is Unicorn root, or Helonias, and the medical properties of which it most faithfully represents.

Of Golden Seal root, another prominent ingredient of "Favorite Prescription," Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says:

"It is an important remedy in disorders of the womb. In all catarrhal conditions * * * and general enfeeblement, it is useful."

Prof. John M. Scudder, M. D., late of Cincinnati, says of Golden Seal root:

"In relation to its general effects on the system, *there is no medicine in use about which there is such general unanimity of opinion.* It is *universally* regarded as the tonic useful in all debilitated states."

Prof. Bartholow, M. D., of Jefferson Medical College, says of Golden Seal:

"Valuable in uterine hemorrhage, menorrhagia (flooding) and congestive dysmenorrhœa (painful menstruation)."

Dr. Pierce's Favorite Prescription faithfully represents all the above named ingredients and cures the diseases for which they are recommended.

POLICE NEWS

Daily Happenings in Court Room and Station.

Melbourne Eaton, a watchmaker, who said he came from Belleville, appeared before the magistrate at the police court yesterday morning and pleaded guilty to the charge of being drunk in a public place. He had nothing but thirty cents in his possession, so he could not pay a fine. He promised, if allowed to go he would return to his home near Belleville. The magistrate gave him some good, sound advice and permission to take either a "side-door Pullman" or the tie track for the Bay city.

At a special session of the police court yesterday morning, Robt. G. Baker, who resides in this city, pleaded guilty to the charge of stealing a large quantity of copper and pieces of brass from the Canadian General Electric Co. The magistrate committed him to six months in Central Prison.

It seems that large quantities of copper and brass have been taken within the last two months from the C.G.E. Baker was employed at the works and he claimed that part of what he took was secured on the scrap pile. Suspicion as to who had taken the brass and copper was aroused, and on Thursday, Mr. E. G. Patterson whilst in Toronto, procured from Franklin Bros., of that city, several letters which Baker had written asking them for prices on copper and brass.

Mr. Patterson produced the letters written to Franklin Bros. by Baker, who acknowledged writing them. He had shipped them about 75 lbs. of brass and 14 lbs. of copper.

A detective from Toronto, came down here Thursday evening, and succeeded in getting him yesterday morning. About ten o'clock, the detectives, having a description of Baker, walked into the post office and spotted his man. He told him to come down to the police station, stating that probably the matter could be settled quietly. When about half way down Baker tried to get away, but after a swift run up Water to Brock street and turning down this thoroughfare to George street he was captured in front of Messrs. Oke's fruit store. Some ten prize of different kinds joined in the chase.

When searched in the station a cheque for $15.40 from Franklin Bros., Toronto, was found on him and also a letter.

Baker at first pleaded not guilty, but Mr. Patterson produced pieces of brass which had been taken from the works, and the letters which the accused had written, when he then pleaded guilty. Mr. Patterson said the brass articles in court were only made in Peterborough and Schenectady, and Baker, therefore, must have taken them from the works here.

The magistrate thought that as they were worth $15.40 to Baker they were worth that to the company and that the prisoner had deliberately stolen them. Franklin Bros. will regain the copper and brass to the C.G.E. and they will receive their cheque for $15.40.

Baker was sentenced to six months imprisonment in the Central Prison, Toronto.

Springville Presbyterians Active.

Springville Presbyterians will hold a grand entertainment on Dec. 20th. On Wednesday evening after the usual weekly choir practice the choir accepted the invitation of Rev. Dr. and Mrs. Marsh to spend a social hour at their home. The subject of holding services Sunday night was discussed and in all probability will be conducted.

THE YULETIDE KERMESS

The Catholic ladies of the city will hold a grand bazaar next week in aid of the chapel at Mount St. Joseph Everything is in readiness for the opening on Monday and judging from the enthusiasm with which those in charge of the various booths are entering into the final preparations the bazaar will be most successful. The multitude and variety of useful and beautiful articles displayed will give an excellent opportunity for making selections for Christmas gifts. A novel feature at the Yuletide Kermess will be the Home-made Cooking Booth, where home-made bread, buns, cookies and pies may be had—well, not just for the carrying away.

RUSSIA HAS STIFFENED UP SINCE JAP.-U. S. TROUBLE

Prospects of Renewal of Hostilities Weighed by German Diplomats

TROOPS SENT TO HONOLULU

U. S. Soldiers to be Rushed to Island in Anticipation of Trouble

Berlin, Dec. 16.—The relations between the United States and Japan excite extraordinary interest both in the government and diplomatic circles here.

Emperor William discussed the question with several persons recently and is thoroughly informed regarding President Roosevelt's personal views on the subject. It is believed that Russia's more resolute attitude against Japan's requests for trade and colonization rights on the Amur River and in Siberia and her fishery privileges on the adjacent Russian coasts is partly due to the discussion of the California school question between the United States and Japan.

The Russian foreign office has been subjected to steady diplomatic pressure on the part of Japan in behalf of her efforts to obtain these far reaching rights and has been impressed as much by this as by Japan's firmness.

The result is that the idea has been created at the Russian foreign office that Japan might make her exhibitions the occasion for a renewal of the war with Russia.

This idea pervaded the conversations which the foreign minister, M. Iswolsky, has with the government officials and others whom he met here on the occasion of his visit to Berlin six weeks ago.

Among German military and naval officers the possibility for a conflict between the United States and Japan has been quite freely discussed and the professional views appear to agree that Japan would take the Philippine Islands and place upon the United States the necessity of conducting across the Pacific prolonged sea and land campaigns, which would call forth immense exertions against great natural obstacles.

It was known here in June that the British admiralty had considered theoretically the possibility of war between Japan and the United States as likely to occur within 25 years, and some of the British naval men are reported to have expressed the belief that the contest would occur within five years.

In any case it is certain that several European foreign officers are at present making enquiries regarding the temper of the Japanese people and the government of Japan.

TROOPS ORDERED TO SCENE.

San Francisco, Dec. 16.—The Examiner publishes this despatch from Honolulu:

The officers of the transport Thomas have announced that two regiments are to be rushed immediately to the island in anticipation of trouble with the Japanese. It is understood the Mikado was extremely anxious to secure possession of the island of Lanai, which is private property.

The island is 60 miles from Honolulu, and could be used as an excellent naval base against the United States or any foreign power. It has two splendid harbors of sufficient depth to accommodate a large fleet of vessels.

Last night Attorney George D. Gear secured an injunction against Governor Carter and Land Commissioner Pratt to prevent their selling the lands to a syndicate. It is understood that the syndicate represents the Japanese government, or persons who ultimately expect to dispose of the island to Japan.

Dr. Morrison Not a Candidate

(To the Editor of The Times.)

Sir,—As my name has been mentioned during the last day or two as a possible municipal candidate, I wish to state that, while I have had strong representations made to me by my friends and citizens in general, why I should offer myself as a candidate for that position, and after thoughtful consideration I have decided that the time necessary to the faithful discharge of the duties connected with the office of Police magistrate of so progressive a young city as Peterborough now is, would be more than I could spare from my practice.

I am very sorry not to be able to comply with the wishes of my many friends in this matter, and express my thanks to those who so kindly volunteered their support. I will be a candidate for the School Board and, if elected, will do the utmost to further the education of our children.

Thanking you, Mr. Editor,

Yours truly,

M. A. MORRISON.

Major Langford May Be Candidate

It is now rumored that Major Wm. Langford a leading local contractor, having been asked by a large number of friends and admirers to become a candidate for the mayoralty, is seriously considering the proposition.

Mr. Langford is not only a successful and wealthy business man, but has had a wide experience in civic matters having been a member of the council for a decade and having served on various committees of the council.

Should Mr. Langford decide to run for mayor, he would doubtless poll a large vote.

Mexico to Head Off U.S. Trust Evil

Mexico City, Dec. 16.—In a speech before congress, Minister of Finance, Limantour explained the reasons for the railroad merger just consummated, in which the National and Mexican Central lines become the property of the republic.

He declared that if this step had not been taken, the great railroad lines of the United States would have stepped in and absorbed all the properties now controlled by this government. This explained, would saddle on the Mexican people one of the great trust evils suffered by the citizens of the United States.

He maintained that the government did not contemplate the merger, and was forced to do so by the aggressive attitude assumed by certain great railway systems of the United States.

Mr. Chas. Curtis Vice-President.

Mr. Charles Curtis, the well-known local brick manufacturer, has returned from Toronto, where he attended the annual meeting of the Clay Manufacturers' Association. The gathering was one of the most successful ever held. Mr. Curtis was elected one of the vice-presidents. Mr. A. J. Fox, M.P.P., of Lindsay, was chosen as a member of the executive committee.

It was decided to hold the next meeting in Ottawa in 1907.

More Doukhobors Will Come to Canada

A. Kinahin of Moscow, Who Brought Out Some of the First, is Well Pleased.

Winnipeg, Dec. 16.—To ascertain the conditions which exist and the progress which has been made among the Doukhobor colonies in Canada during the past seven years, is the mission which brings A. Konshin of Moscow to Winnipeg. Mr. Konshin himself accompanied a party of Doukhobors from Russia to Canada seven years ago, and acted as interpreter on behalf of the many Russian immigrants when they first arrived in Western Canada.

The opinion which he has formed of them since they have taken up their work in Manitoba and the West is evident by the confidence which he expresses in their future and the profound admiration for their industry and integrity. He maintains that as a people they have been a great surprise, and that prosperity of a still more substantial character is bound to come, even the most sanguine not yet realizing the extent of the development that will take place during the next ten years.

MORE TO FOLLOW.

"The projects of Peter Veregin, who recently left Canada, and has now arrived in St. Petersburg, are unknown to me," said Konshin. "Whether or not he intends to bring 10,000 Doukhobors to Canada is something I cannot positively state. The first intimation I received of such a plan was by reading it in a local paper. There is no doubt that Canada has gained a reputation as a land of possibilities, and this fact is known in Russia almost as well as in any other European country. An effort which will ultimately be proved successful was made to bring a large number of Doukhobors to Canada, and from the reports I have received they have displayed a marvelous degree of persistence and industry. Because of this fact alone a great number more will in all probability come to Western Canada."

Oliver Dusty in Training.

Mr. Oliver Dusty, an old Peterborough boy, well known in local athletic circles, Saturday wrote his father Mr. Chas. Dusty, that he is training for a two-mile skating race at Miletta, Manc., near Brandon. We will venture a small wager that the Peterborough boy wins.

New Subjects in the Schools

It is rumored that after the Christmas vacation that the curriculum of the local schools will be changed to include cardboard cutting, clay moulding, paper folding and crayon and water coloring in addition to the objects now taught.

RAILWAY MEN VERY SCARCE

Both Construction Hands and Train Crews Being Eagerly Sought in the West

GOSSIP OF STEEL HIGHWAY

Canadian Pacific Will Extend Its Lines Into Northern Alberta to Compete With the C. N. R.

Winnipeg, Dec. 15.—"Railroad construction in the West next year will be on a scale of unparalleled extent," said a prominent railroad man Saturday.

The C.P.R. has a big program on for next year. The numerous lines started last season will be completed and carried forward, notably the through line connecting Winnipeg and Edmonton. One of the principal extensions to be pushed forward by the C.P.R. is the line from Moosejaw to Alberta's capital, which will open a vast territory hitherto untapped. Big improvements are slated for Moosejaw and likewise for Brandon in the way of yard extensions.

The Canadian Northern also will not be behind its rivals in the race. Its energies will be devoted principally to the completion of the main line through to the coast and extensions north from Edmonton into the Peace River country.

IN NORTHERN ALBERTA.

The northern part of Alberta and Saskatchewan promises to see probably greater railroad expansion and rivalry than any other portion of the country. The C.P.R. has up to the present devoted its attention solely to the south, but that it intends to invade the territory of its rival the Canadian Northern, is seen in the announcement that it will build a branch from Bradenbury to Kamsack. From Bradenbury south it will build connecting its various east and west lines. From Kamsock it is expected it will extend northward. This news is the most important announced for a long time, and the move is a strategic one on the part of the C.P.R.

Hill's surveyors are known to have been at work in the northern portion of Manitoba this fall, and it is thought that it is the intention to push the Brandon, Saskatchewan, and Hudson's Bay line north in time probably to Fort Churchill.

Completing His 60,000 Mile Walk

Remarkable Performance of 78-Year-Old Man—Jim Reynolds Outdone

London, Dec. 17.—Mark Ali, an old man of 78 years of age, who claims to be the world's champion long-distance walker, reached London once more yesterday at the completion of another stage of a remarkable self-imposed task.

An engineer by trade, he was unable to get employment in the early part of 1900, chiefly through being an old, and in August of that year set off to walk 60,000 miles in seven years.

The idea of the enterprise was to disprove a theory, which Ali attributes to engineering employers, that after a man has reached 45 years of age he is useless for manual labor.

Some gentlemen who were desirous of disproving this theory agreed to pay Ali £500 if he could walk 60,000 miles in seven years earning his living at his trade, and that he should not beg, sell photographs of himself or picture postcards, make speeches, or exhibit himself at music halls. All these conditions, he says, he has faithfully observed. He has been all over the three kingdoms and has visited France, Spain, Switzerland, Belgium, Holland, Italy, and Germany, but failed to get into Russia.

Having passed through every town of note in the British Isles on nine separate occasions, "Ali has arrived back in London, having tramped 58,000 miles of his journey. He asserts he is well ahead of time, as he usually walks 200 miles in six days, or at the rate of 1,000 miles per month.

As he walks Mark Ali wears a small Union Jack tied round his arm, and by this mark he has twice been recognized by the King. He starts again next week via New Haven to walk 4,000 miles in France, and hopes to finish well before the expiration of his time next August.

Was the Dominion Turned Down?

When Offer of Reciprocal Preference Rejected by Imperial Gov't.

London, Dec. 17.—The Review believes that there are Russian and German representatives at Ottawa at work on a tariff arrangement with Canada, and says: "Did the Canadian government offer this country a special preference in return for a reciprocal preference on our side, and did the imperial government decline the offer and say to Premier Laurier, you are free to make your own arrangements with foreign powers? If this is the inner history of the matter the imperial position is serious enough."

The Saturday Review says if the government had specially designed to irritate Newfoundland over questions of American fishing rights they could not have adopted a style better suited to their object than that of their despatches.

The Outlook says the reputation of neither Elgin nor Sir Edward Grey for tactful diplomacy will be enhanced by the correspondence published on the Newfound fishery dispute.

Terrorists Fail to Kill Ex-Governor of Moscow

St. Petersburg, Dec. 17. —"Another attempt on the life of Admiral Dubasoff, ex-governor of Moscow, was made yesterday, but he escaped with slight injuries. Dubasoff was driving at noon in a public street, on his way to the Tauride palace, when two men hurled a bomb at his carriage.

It exploded with great force, but only slightly wounded the admiral.

The would-be assassins were arrested.

Dubasoff had a remarkable escape.

The terrorists made a determined attack upon him. One man approached the admiral and fired several shots at him with a revolver, but missed.

The terrorists then threw a bomb at Dubasoff, which exploded and wounded the admiral in the leg.

A bystander seized the admiral's assailant, whereupon a second terrorist appeared and went through exactly the same performance.

The second bomb thrown, however, did not explode, and Dubasoff, although injured, closed with the terrorist and held him until he was arrested.

Admiral Dubasoff was appointed governor-general of Moscow in December, 1905. Several attempts have been made upon his life. His health broke down and he resigned his post.

When the admiral became governor-general of Moscow the revolutionists entered into a conspiracy to murder him. The plot failed.

In January Dubasoff was advised that an attempt would be made at the ceremony of blessing of the waters to assassinate him, and Princess Kostoveka was arrested and charged with being an accessory to the conspiracy.

Berlin, Dec. 17.—King Haakon, Queen Maud and Crown Prince Olaf of Norway, arrived at Potsdam yesterday from England, and were received at the station by Emperor William, the empress, the crown prince and crown princess, the other sons of the emperor, Princess Victoria and many officials.

The emperor warmly welcomed King Haakon, kissing him on both cheeks.

DR. CRICHTON WINS APPEAL ON THE CHARGES ALLEGED

Divisional Court Renders a Decision of Much Interest

IMPROPER TO ADVERTISE

Medical Council Has Not Arbitrary Powers of the Law Society.

Toronto, Dec. 17.—Judgment in the appeal of Dr. Crichton of Castleton from the ruling of the Medical Council, striking his name from the rolls for "disgraceful and infamous conduct," in a professional sense, in having advertised a la grippe cure, was given out by the division court on Saturday.

The court allows the appeal, without costs, and declares that his name should be restored to the register, but without prejudice to the question as to whether, on a subsequent enquiry, there may not be proper ground found for erasing his name. The case was argued before Chancellor Boyd and Justices Magee and Mayhew.

In summing up the case, The chancellor goes on to say that the Medical Council does not appear to possess such extensive power to discipline and exclude delinquents as has been given by the legislature to the Law Society.

"To the benchers is entrusted power to enquire into the conduct of lawyers, who are charged with professional misconduct or with conduct unbecoming a member of the Law Society," says the chancellor. "So to a more limited extent, in medicine. If one has been admitted to practice on certain explicit conditions and has given an undertaking to observe them, i.e., a promise not to advertise in any offensive way, by breach of that engagement, it might well be regarded, if wilfully and deliberately made, as disgraceful conduct in a professional respect."

After referring to previous decisions, the chancellor says that such an element is wanting in the case at hand.

"The conclusion I reach is that there may not have been a fair enquiry in the Crichton case, and the appeal is allowed, and, in consequence, his name, if struck off, should be restored to the register. But this judgment is to be without prejudice to the question whether, in a subsequent enquiry, there may not appear to be proper grounds for erasing his name.

RIGHT AND WRONG.

"As to costs, I cannot say that this proceeding has been frivolous or vexatious. The conduct of the appellant has been such as to provoke complaint and invite investigation. He has offended against the provisions of the Ontario code of ethics, which declare it to be derogatory to the dignity and prestige of the profession to resort to the practice of secrecy, on the one hand, and publicity, on the other, which, though not in force when he was registered, yet declares the professional standard of conduct, which he has disregarded, to set up a trade standard for himself; so that, while, in the result, he may be right legally, he is wrong professionally. Having regard to this and other considerations, I do not think that the council, who are discharging a quasi-public duty, should be called upon to pay the costs of the investigation.

NOT CONVICTED ON CHARGE.

Justice Magee says in his summing up:

"This man was entitled to the individual judgment of each member of the council, and from the report of what took place, I am satisfied he had it. Complaint was made through out trial that Dr. Crichton refused to make the formulae of his medicine public. This was said to be against proper practice. It may be so, but he was not charged with that and was not convicted of it.

"I would allow the appeal and order the name to be reinstated. I have not overlooked the fact that it was objected to our admitting the proceedings of the council when the vote was taken upon this appeal, but I think they are admissible."

ASSUMED THE POWER.

Judge Magee's finding:

"I concur fully in the admirable judgment of my lord the chancellor, and have but little to add as to the proceedings taken against the appellant.

"The committee did not comply with the statute and bylaws, by ascertaining or reporting facts upon which the council could act, but they simply laid before the council the evidence and assumed to themselves the duty of the council, in finding the accused guilty. The unfairness of the course pursued is manifest on a reference to what occurred when the report was presented and the resolution for erasing the name passed."

Dr. Adams: "May I ask if there is anything in the statement that the accused made before he left the room, that no man is allowed to, should give his vote unless he has had the evidence in both trials. I for one have not had the opportunity."

The President: "I think the registrar caused Mr. Hone to place a copy of the evidence before every member seated."

Mr. Cherry: "Any man, if he is satisfied with the finding of the committee, has a perfect right to vote; there is no onus on him to read over any more evidence than he wants to."

"Thus the committee not only undertook to investigate charges of infamous and disgraceful conduct which had not been deputed to them to enquire into, but they also undertook to enquire into, but they also undertook to find it proven and to adduce matters which had not been contained in the charges made, and the council were informed they should act upon that.

"The appeal should be allowed and the appellant's name restored if erased, in the register."

Valuable Gift to Local Y. M. C. A.

At a special meeting of the Y.M.C.A. Board of Directors, with President R. E. Harding in the chair, Mr. Rich. Hall, co-executor with Mr. O. McGill of the Nicholls estate, the former gentleman made a most gratifying announcement.

He noted that the Nicholls estate would donate $4,500 for the purchase of the lot to the south of the Y.M.C.A. building, which has a frontage of one hundred feet.

He added that he and Mr. McGill who hold the Association building and land, as trustees, wished to be relieved of their duties and requested that the Board recommend a new Board of Trustees.

Mr. Shook, 1st vice-president of the Association moved a resolution accepting the generous proposition.

Mr. R. J. Kidd, 2nd vice-president, seconded the motion.

At Mr. Hall's request the board, by ballot, recommended the following to compose the Board of Trustees; Messrs. B. F. Ackerman, G. M. Roger, Dr. W. D. Scott, J. J. Bowden, R. J. Kidd.

Young Peoples' Sleighing Party.

St. John's Young People's Society will go out sleigh driving this evening and on their return, refreshments will be served in the school house. They will meet in St. John's school house at 7.30 and sleighs will leave the rear of the church on Brock street at eight o'clock. The young people of St. John's church are cordially invited to be present. A special invitation is extended to the members of the Mikado Minstrel troupe.

Coal Mine Prey to Flames Loss Will Be Half Million

Sydney, C.B., Dec. 16.—Fire, which started in the sub-colliery yesterday evening, is raging this morning with unabated fury and there seems to be no earthly means of saving the mine. At two o'clock this morning the entire colliery equipment above and below ground, including two air compressors, valued at $60,000, at trestle work and screening plant, had been destroyed. The home stretching across the fire district has been destroyed and firemen were left without means of fighting the flames. Outside departments have been called in.

Everything above ground, even the cars standing on the track, is gone, and fire is now devouring the debris, while below it is eating its way rapidly into the coal and colliery workings. The destruction of screening plant leaves the company without means of screening coal for market except at No. 6 and Bridgeport. The extent of damage is placed now at $500,000, but with the loss of colliery output it will probably reach half a million. The mine will be flooded and arrangements to that effect are now being carried out. It will be the third time for the mine to be flooded. There were four hours lost in sending in an alarm of fire.

American Deported for Insanity

Chester Jones Sent Back to Detroit by Toronto Authorities.

Detroit, Dec. 17.—Chester Jones, a former Detroiter, was deported from Toronto and turned over to the United States immigration officers at Detroit.

This is the first time anyone has been deported from Ontario and the United States at Detroit in the history of the local immigration office. Jones is 21 years old, and for some time was a resident of Detroit. He was born in this country, and had become a citizen when he went over to Toronto last September. While there, insanity developed, and he became a public charge in the province. His case came to the notice of the Canadian superintendent of immigration and he was turned back.

He is now at Red Cross Hospital until arrangements can be made to receive him at the County Insane Asylum at Elgin.

Each to Serve a 12-Year Sentence

Mitchell Brothers Straightway Sent on the Trip to Kingston.

Sandwich, Dec. 16.—William and Walter Mitchell, colored, of Detroit, are now on their way to Kingston Penitentiary, each to serve a 12-year sentence, imposed by Judge Horn. Owing to their previous record it was deemed advisable by Sheriff Iler to at once remove the men from the county jail to prison. The two brothers were convicted of robbery on the high seas, an aggravated assault and common assault on Robert Smith, colored, while on an excursion on the Canadian steamer Premier to Walpole Island, River St. Clair, last July.

J. W. Hanna, who appeared for the prisoners, will appeal the convictions on the grounds that the case should have been tried in Lambton County, to which Walpole Island is attached, and also that there was no proof that the crime was committed while the boat was in Canadian waters.

THIRTY-ONE SAILORS MISSING

Tug Left Ship For Short Time and Now Cannot Find Her.

Duluth, Minn., Dec. 17.—While being towed towed to Duluth by the wrecking steamer Manistique, the steamer Ireland came into collision, and was disabled. the tug George Crosby, which was assisting the Manistique, took the crew off the Ireland, and in doing so one man was lost. This Crosby came into Hayfield and reported the loss of one life and returned to look for the Manistique, but reports that she is unable to find any trace of the vessel, and fears that she and her crew of 21 men are lost.

There is a heavy sea running near Hayfield, and the Ireland, which is at anchor near Apostle Island, is also in danger.

When Run-Down, "Draggy," Used-up

You Lack the Vigor, Courage and Staying Power that "Ferrozone" Can Supply.

Night comes and it's hard to sleep. Morning dawns and the anxious, tired feeling is still there. Don't neglect this gradual decline; it can't cure itself. But by forming rich, pure blood, Ferrozone will quickly supply the nutriment and building material your system craves.

Instantly you are aware that some powerful force is building up your depleted energies. At once you feel toned, tested, strengthened. Search the world over and you won't find anything to tone up a weak system like Ferrozone. Physicians claim it is the most strengthening, uplifting medicine ever discovered.

No more spells of tiredness, but bounding, joyful health when you take Ferrozone, of which Mrs. H. S. Gold, of Dewsman, Man., speaks in the following words of praise:

"I state my case because I think it may assist other women to health. A year ago I was almost a wreck. I was pale and emaciated, suffering from nervousness and hysteria. Little things going wrong in the house bothered me. The doctor advised different treatments but they didn't help. He said my low condition was due to weakness that might never be cured. Ferrozone had a peculiar grateful effect and built me up quickly. The ills I suffered from are cured. I am now strong and vigorous and was made so by Ferrozone."

Why not cast aside the chains of sickness and enter the bright, happy life of robust health. Let Ferrozone help you—let it cure you once and forever. Price 50c. per box or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

PETERBOROUGH, DECEMBER 13 1906

Is James Bryce Going to the United States

London, Dec. 15.—Parliamentary circles here show much interest in the prospect of James Bryce's appointment to the Ambassadorship at Washington, and some of the Irish members asked the Chief Secretary for Ireland if they might congratulate him. Mr. Bryce did not deny the report, but merely replied, "You must not believe everything you hear."

Should Mr. Bryce go to Washington it is by no means certain that Winston Spencer Churchill, now Under Secretary for the Colonies will take his place in the Cabinet, as has been suggested. Thomas Shaw, the Lord Advocate for Scotland, and a man of great ability, is said to be anxious to obtain the Irish Chief Secretaryship. The fact that filling the vacancy will involve a by-election favors the appointment of Mr. Shaw, whose seat is safe, whereas Churchill's seat at Manchester is regarded as being far from secure.

REBELS BECOME DANGEROUS

Serious Trouble Threatened in Chinese Province of Yunnan.

New York, Dec. 14.—A despatch to the Times from Hankow says official telegrams from Shang Shu Indicate that the disturbances in Yunnan Province are becoming increasingly serious.

The rebels, whose object is anti-dynastic, are reported to be several thousand strong, and well armed. They have attacked the town of Liu Yang, and the officials fear that unless checked they will move on Changsha, where the Government's military force is small. Viceroy Chang Chih-tung has despatched 2,000 regular troops, with six modern field guns. This force is supported to reach Yu-Chau today.

A New Form of Torture

New York, Dec. 14.—A London despatch, published here, says a correspondent at Odessa, describing the scenes on prison ships there, writes of one man who has just finished a six months' sentence in after a political offence. Throughout the imprisonment night and day, a phonograph fixed in his cell unremittingly ground out the Russian national anthem "to teach him patriotism." He is now a hopeless idiot. Other prisoners have been confined in cells illuminated by a blinding blue light, with the result that they were made imbeciles within a few months.

Farmers Against Tariff Increases

Sault Ste. Marie, Mich., Dec. 15.—The crew of the steamer Golspie, which was wrecked at Bruin Point on the north shore of Lake Superior on Dec. 4, were brought here yesterday morning by the tug Andrew J. Smith. Five of the steamer and hands, feet and legs so badly frozen during their exposure before being picked up that they had to be taken to the General Hospital. It is probable that some amputations will have to be made. The names of the men who had limbs frozen are Arthur Green, London, England, James Thornburn, Glasgow; Wm. McDonald, Glasgow; John Downey, Belfast, and J. H. Keetley, Hendersfield, England.

PEWS FOR OLD MAIDS.

Quaint Distinctions in the Old Hatfield Meeting House.

Around three sides, about on a level with the pulpit, in the old meeting house at Hatfield, Mass., extended the galleries, reached by staircases on the northeast and southeast corners, where, in the front seats, sat the singers, treble on the north and basses on the south and, counters and tenors on the east. The next two rows of seats were occupied by children, girls in the north and boys in the south, and frolicsome youngsters they were, if we may judge by the frequency with which the town was obliged to renew the brass tips to the staves of the tithing men, three of whom were always on duty to keep the youth from disorder.

Behind the children and still higher in square pews against the wall sat the young men and maidens, the latter to the north and the former on the south. One gallery pew was reserved for colored men and one for colored women, and, queerest of all, a high square pew over the north stairway was assigned to old maids and a similar pew over the south stairs to old bachelors. Just how many years these two classes had to number before they were promoted from the lower seats in the synagogue the records do not state, but that they sat in those exalted seats Samuel Dwight Partridge, to whom we are indebted for the description of the old meeting house, assures us is beyond question. The square pews on the floor were assigned to householders, according to wealth and social position.

Mary, queen of scots.

Mary, queen of Scots, must have believed in phonetic spelling, for she wrote to her son in 1570:

Dear Son—I sam thir bearers to see now and bring me word how ye do and to remember now to learne in tyme to love, knaw and feir God, and mixt yat, conforme to Goddis command and good nature, to remember ye dewtie aneut his yat has borne now in hir eyes. I send now a buik to learne ye samya, and I pray God now may learne yai begenning, and that he will give now his blessing, as I do hartile give now myne, in help now sall deserve it quhan now come to discretion. Your loving and good moder,

MARIE R.

The Turks and the Crescent.

When Philip of Macedon approached by night with his troops to scale the walls of Byzantium the moon, then new or in crescent, shone out and discovered his design to the besieged, who repulsed him. The crescent was after that adopted as the favorite badge of the city. When the Turks took Byzantium they found the crescent in every public place and, believing it to possess some magical power, adopted it themselves.

BY THE TRACK ALL NIGHT

Eugenia Falls, Dec. 15.—Sam Fisher of this village was coming home from Markdale last night, and instead of taking the wagon road turned upon the railroad track. The night train from Toronto struck and destroyed the cutter, though the horse was uninjured. Mr. Fisher lay beside the track all night, and was found by the section men in the morning in an unconscious condition. At present he is very ill in Markdale.

Two years ago his brother George was killed in the same way, and at the same spot.

Ottawa, Dec. 15.—The Cabinet has under consideration the case of an Indian named Windy Bear, who was recently condemned to hang for the murder of a fellow-Indian in a quarrel.

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, it uniformly cures all curable cases of this heretofore much dreaded disease. Those mud-like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We will, and in confidence recommend

Dr. Shoop's Rheumatic Remedy

The Ottawa Cobalt and Silver Mining Company

OTTAWA, ONT.

Incorporated under the Ontario Mining Companies Act.—No Personal Liability.

Authorized Capital, $250,000; Subscribed Capital, $50,000; Unissued and in Treasury, $200,000.

DIRECTORS

D. O'CONNOR JR. ESQ., Contractor, President, Ottawa.
W. J. KIDD Esq., Barrister, Vice-President, Ottawa.
JAMES WILSON Esq., Wholesale Merchant, Ottawa.
ROBERT GORMAN Esq., Gentleman, Ottawa.
J. OGLE CARSS Esq., Barrister, Ottawa.
SOLICITORS—KIDD & CARSS, Ottawa.
BANKERS—THE CROWN BANK OF CANADA, Ottawa.

PROPERTY AND LOCATION

The property consists of forty acres being the south-west quarter of the north half of lot 6 in concession 1 Township of Rucke. The property of this Company lies about three-quarters of a mile north-west from the celebrated Tretheway mine and is identically of the same formation. Vein matter was found in this property right from the surface and subsequent prospecting has revealed several well defined veins. On the main vein several nuggets of native silver were found. A shaft had been sunk to a depth of fourteen feet, when the property was taken over by this Company.

WORK ON THE PROPERTY

At present a camp is being built and active development work is being proceeded with. One half of the Company's property is still unprospected.

BUSINESS PROPOSITION

Of all Cobalt Mining Companies none can show a sounder business basis than this. The organizers had such confidence in the property that they have taken their entire interest in stock and have pooled same for six months, evidencing the fact of their absolute confidence in the value of the Company's property at the par value of $1.00 per share. ONLY 25000 shares are being issued at the present time for active development work. It is confidently expected that this will be sufficient to make this property a shipper, and if so the public can at a glance see what the value of these shares will be, having regard to the fact that only 75,000 shares of the Company will have been issued. The stock is not being offered outside of Ottawa as the Directors feel confident this small amount will be oversubscribed here. Address.

D. O'CONNOR, President, - - OTTAWA, ONT

All Eyes Are on Nevada

Fortunes are being made Every Day.

Co-operation is your opportunity for making honest money.

THE NEVADA QUEEN GOLD MINING COMPANY

Has a most wonderful showing of surface ores, equaling the best found in Tonopah, Goldfield, Fairview, Manhattan and Bullfrog. Gold, Silver and Copper assays show extremely high values.

THE RUSH IS ON!

Many operators are investing large sums of money in the district which is connected by rail with Goldfield. If you wish to be benefitted come in with us. We promise a fair and square deal. The Officers are mining men of good reputation—References of the best. Investigate.

100,000 SHARES

To be sold for FIVE CENTS each for developments only. 100 shares $5.00, the minimum of any one subscription.
Our proposition is worthy of immediate consideration.

A GOOD MINE

pays larger dividends than any other enterprise in the world.
We believe our stock will be selling at ten times the present price within one year. We own SIX CLAIMS (120 acres), fully paid for—no debts; work in progress. We need money to develop the same into what we believe a dividend paying bonanza.
Yours the opportunity! Again we say, Investigate.

Architectural Competition for Departmental and Justice Building.

COMPETITIVE drawings are invited for Departmental and Justice Buildings to be erected for the Dominion Government at Ottawa, Ont.

The author of the best design will be awarded a premium of $3,000, the second best $2,000, the third best $2,000, and the fourth best $1,000.

Drawings will be received not later than April 15th, 1907, and are to be addressed to the Secretary of the Department of Public Works, Ottawa.

This competition is open to Canadian Architects who have been resident in Canada for one year or more.

Conditions of competition stating requirements of buildings and maps showing site can be had on application to the undersigned.

By order,
FRED. GELINAS,
Secretary.

Department of Public Works,
Ottawa, December 12, 1906.

Newspapers will not be paid for this advertisement if they insert it without authority from this Department.

9,600 FEET

Sixty six mining claims.
A crosscut tunnel now in 4,000 feet.
8,600 feet of drifts, shafts and laterals.
A complete 750 h.p turbine electric power plant.
Numerous Veins Explored.
A Big Industrial and Mining Proposition Combined.
A Strong Directorate.
This is real mining.

The Palmer Mountain Tunnel and Power Company has 66 lode mining claims back of it on Palmer Mountain, near the Town of Loomis, Okanogan County, Washington—about 13 miles south of the boundary of British Columbia. A new railway line is nearly completed and will run within 13 miles of the property. Steamers ply on the Okanogan River to within 25 miles of our properties. There is water—not only for mining purposes, but with unlimited possibilities for power generation. There is timber, there are large, well defined veins proved at great depth—and there is development enough done to make this one of the biggest and best mining propositions in the country.

INTERIOR OF TUNNEL

We can do more with $10 ore on our properties than the desert miners can do with $40 or even higher grade ore. We can make money because we have the FACILITIES on our ground. Our ore can be mined, milled, cyanided and bullion produced for not exceeding $2.50 a ton.

Our immense crosscut bore—a picture of which we show herewith—is now in 4,000 feet, is 9 by 9 in the clear (as large as any of the big transportation and drainage tunnels), and is well timbered, equipped with track, ore cars and everything else essential. In the picture shown herewith, the large pipe running at the top of the right side of the tunnel, is for ventilation purposes and connects with a large, powerful blower.

Recent development on the mountain proves that we shall open up at tunnel level (3,500 feet beneath the surface) an enormous body of copper ore.

We have opened up much $10 ore, and we have a higher grade running up to $50 a ton. This is where the big profit comes from. In the nearly TWO MILES OF WORKINGS we have all the facilities for handling a very large production. Back of it all we have a capable mining and business management. We should be very glad to tell you the complete story. We can only hint at it here.

DARREL of THE BLESSED ISLES

By IRVING BACHELLER,

Author of "Eben Holden," "D'ri and I," Etc.

COPYRIGHT, 1905, BY LOTHROP PUBLISHING COMPANY

"Well," said Trove, sighing. "I'm still in the ripples of the duck pond."

"An' see they do not swamp thee," said Darrel, with a smile that seemed to say, "Poor weakling, your trouble is only as the ripples of a tiny pool." They went on slowly, over green pastures, halting at a brook in the woods. There again they rested in a cool shade of pines, Darrel lighting his pipe.

"I envy thee, boy," said the tinker, "entering on thy life work in this great land—a country blest o' God. To thee all high things are possible. Where I was born, let a poor lad have great hope in him, an' all—aye, all—even those he loved, rose up to cry him down. Here in this land all cheer an' bid him godspeed. An' here is to be the great theater o' the world's action. Many of high hope in the broad earth shall come, an' here they shall do their work. An' its spirit shall spread like the rising waters, aye, it shall flood the world, boy, it shall flood the world."

Trove made no reply, but he thought much and deeply of what the tinker said. They lay back awhile on the needle carpet, thinking. They could hear the murmur of the brook and a woodpecker drumming on a dead tree.

"He head is busy as yon woodpecker's," Darrel went on. "It's the soul fire in this great, free garden o' God—it's America. Have ye felt it, boy?"

"Yes; it is in your eyes and on your tongue," said Trove.

"Ah, boy, 'tis only God's oxygen. Think o' the poor fools withering on cracker barrels in Hillsborough an' wearing away 'the lag end o' their lewdness.' I have no patience with the like o' them. I'd rather be a butcher's clerk an' carry with me the redolence o' ham."

In Hillsborough, where all spoke of him as an odd man of great learning, there were none, saving Trove and two or three others, that knew the tinker well, for he took no part in the roaring gossip of shop and store.

"Hath it ever occurred to thee," said Darrel as they walked along, "that a fool is blind to his folly, a wise man to his wisdom?"

When they were through the edge of the wilderness and came out on Cedar hill and saw below them the great round shadow of Robin's Inn they began to hasten their steps. They could see Polly reading a book under the big tree.

"What ho, the little queen," said Darrel as they came near. "Now, put upon her brow 'an odeorous chaplet o' sweet summer buds.'"

She came to meet them in a pretty pink dress and slippers and white stockings.

"Fair lady, I bring thee flowers," said Darrel, handing her a bouquet. "They are from the great garden o' the fields."

"And I bring a crown," said Trove as he kissed her and put a wreath of clover and wild roses on her brow.

"I thought something dreadful had happened," said Polly, with tears in her eyes. "For three days I've been dressed up waiting."

"An' a grand dress it is," said Darrel, surveying her pretty figure.

"I've nearly worn it out waiting," said she, looking down, her voice trembling.

"Tut, tut, girl—'tis a lovely dress," the tinker insisted.

"Fair lady, I bring thee flowers."

"It is one my mother wore when she was a girl," said Polly proudly. "It was made over."

"O-oh, God love thee, child!" said the tinker in a tone of great admiration. "'Tis beautiful."

"And you came through the woods!" said Polly.

"Through wood and field," was Trove's answer.

"I wonder you knew the way."

"The little god o' love, he shot his arrows, an' we followed them as the hunter follows the bee," said Darrel.

"It was nice of you to bring the flowers," said Polly. "They are beautiful."

"But not like those in thy cheeks, dear child. Where is the good mother?" said Darrel.

"She and the boys are gone a-berrying, and I have been making jelly. We're going to have a party tonight for your birthday."

"'An' rise up before the hoary head an' honor the face o' the old man,'" said Darrel thoughtfully. "But, child, honor is not for them that, tinker clocks."

"'Honor and fame from no condition rise,'" said Polly, who sat in a chair knitting.

"True, dear girl. Thy lips are sweeter than the poet's thought."

"You'll turn my head." The girl was laughing as she spoke.

"An it turn to me, I shall be happy," said the tinker, smiling, and then he began to feel the buttons on his waistcoat.

(To be continued)

DISCOURAGED MEN

IS LIFE WORTH LIVING

MEN, you become disheartened when you feel the symptoms of Nervous Debility and decline stealing upon you. You haven't the nerve or ambition you used to have. You feel you are not the man you ought to be. You feel like giving up in despair. You get nervous and weak, have little ambition, pain in the back over kidneys, drains at night, hollow eyes, tired mornings, prefer to be alone, distrustful, variable appetite, looseness of hair, poor circulation — you have Nervous Debility. Our New Method Treatment is your refuge. It will strengthen all weak organs, vitalize the nervous system, purify the blood and restore you to a manly condition.

Pay When Cured.

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any weakness? Our New Method Treatment will cure you. What it has done for others it will do for you. CONSULTATION FREE. No matter who has treated you, write for an honest opinion Free of Charge. Charges reasonable. SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even-numbered section of Dominion Lands in Manitoba or the Northwest Provinces (except sections 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral place, may locate a claim 15 0x1500 feet. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY.

Deputy of the Minister of the Interior.

House Clean -- Your System!

Keep it Pure and Clean if You Desire Good Health.

The inside of your body requires attention just the same as the out side.

A great accumulation of effete matter is clinging to the various organs and must be moved off.

Some good laxative and tonic should be used.

The system must be relieved of its burden, if you are to enjoy a happy, healthy summer.

Physicians who have examined the formula of Dr. Hamilton's Mandrake and Butternut Pills say no medicine could be better.

Whether ill or not, thousands rely on Dr. Hamilton's Pills which are truly marvelous in preventing debility and sickness.

Begin Dr. Hamilton's Pills without delay. You'll feel stronger, eat better, digest better, sleep sounder, and gain more in weight.

Mr. E. Maynard, an old resident of New Westminster, B.C., writes: "I don't say Dr. Hamilton's Pills will cure everything, but they made a quick job of building up my run-down system. I had kidney disease and constipation and was wholly unfitted for work. Pains shot through my limbs and lodged in my back. Headaches often made me desperate. I had no appetite, an awful color, and felt despondent sometimes. I was a little rheumatic. After a few days I began to mend, and kept up Dr. Hamilton's Pills till I was restored to my present tip-top condition."

Can you afford to miss the benefit of this marvel-working medicine. Think of it. All dealers sell Dr. Hamilton's Pills, 25c. per box, or five boxes for $1.00. By mail from N. C. Polson and Co., Hartford, Conn., U. S.A., and Kingston, Ont.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS.

Toronto Divine Preached Here.

Rev. Dr. O'Meara, principal of Wycliffe College, Toronto, preached in St. John's church yesterday morning and in St. Luke's church in the evening.

Xmas Decorations.

See us for Christmas decorations. We have a nice assortment of red bells, wreaths with bell suspended in center, festooning twelve feet long, lanterns in five and ten-cent size, candles, etc. Times Bookstore.

Aldermen for Re-Election.

Ald. W. J. Johnston, chairman of the Fire, Water and Light Committee is out again for aldermanic honors. Aldermen Wilson, Tovey, McIntyre, Elliott, Ball and Duncan will all take part in the coming municipal election as candidates for the council. Ald. Adams, owing to acceptance of the city treasurership, will of course retire, as will local finance minister Mason still Ald. Graham, pressure of business necessitating the city losing their valuable services.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

WALDING, KINNAN & MARVIN,
Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

THE NEW TERM

at the

PETERBOROUGH BUSINESS COLLEGE

opens on

TUESDAY, SEP. 4, 1906

Intending students should make application as soon as possible.

Call at the College or address

W. H. INGLE,
Opposite Post Office. Principal.

LOCAL INCIDENTS

By The Times Man on the Street

—The Young Men's Club of George street church, has been formally opened.

—Mr. H. Cook the well-known local druggist has purchased a store in Trenton.

—Tomorrow night a meeting of the Fire, Water and Light Committee will be held.

—Times Bookstore for the largest and best assortment of children's games for Xmas.

—Miss Lillian Moore sang a solo at the evening service in St. Luke's church yesterday.

—Mr. J. B. Craig, who conducted a general store at Havelock, has assigned to Mr. R. Lee.

—Tim Alert, Mr. Chas. Martin's fast pacer, whose record is 2.12 1-4, will be here this week.

—Local drygoods stores beginning Thursday evening, will keep open until Christmas later than usual.

—A meeting of the whole council will be held tonight to wind up several matters before the end of the year.

—Xmas post cards, calendars and carus. Prices Start at two or five cents for nice cards. Times Bookstore.

—Election of officers will take place at the meeting of Court Langton, Canadian Order of Foresters, tomorrow evening.

—License Inspector Stewart was on the war-path Saturday night, having been seen to enter several hotels after legal hours.

—The band will play at Jackson Park rink tomorrow evening and every Tuesday and Friday following throughout the season.

—The annual meeting of the W.F.M.S. of St. Andrew's church will be be held in St. Andrew's hall tomorrow afternoon at three o'clock.

—Mr. S. W. Lowry, porter for R. Hair & Co., who was slightly injured while oiling the elevator slides on Tuesday last, is again on duty.

Leave your renewal order for 1907 with us for any paper or magazine. We will be responsible and save you the trouble of writing. Times Bookstore.

—Corinthian Lodge, A.F. & A.M. will hold its regular monthly communication on Friday evening, when officers will be elected for the coming year.

—Rev. G. J. Bishop, D.D., one of Canada's most eloquent speakers, preached yesterday afternoon at the Y.M.C.A., his subject being "The Sacredness of the Body."

—Rev. Father Kelly's lecture on Edmund Burke under auspices of the Ladies Literary Society of St. Peter's T.A.S. was an interesting and masterly handling of his subject.

—Mr. Harry McEwen, who has been confined to St. Joseph's hospital for the past few weeks, as a result of an accident, he received at the Quaker Oats Company's mills, was taken to his home on Waterford street, on Saturday.

—This will be a busy week at the city building. Besides the committee of the whole council and the Fire, Water and Light Committee, the Board of Works and the Finance Committee will likely hold a meeting and then the council will meet either this week, or right after Christmas.

THE YULETIDE KERMESS

The Catholic ladies of the city will hold a grand bazaar next week in aid of the chapel at Mount St. Joseph. Everything is in readiness for the opening on Monday and judging from the enthusiasm with which home in charge of the various booths are entering into the final preparations the bazaar will be most successful. The multitude and variety of useful and beautiful articles displayed will give an excellent opportunity for making selections for Christmas gifts. A more feature at the Yuletide Kermess will be the Home-made Cooking Booth, where home-made bread, buns, cookies and pies may be had—well, not just for the carrying away.

New Bank Opens In Hastings Today

This morning the Bank of Toronto opens a branch in Hastings, in Dr. Coughlin's building, pending the erection of a building for their own use in that burg. Mr. Peter Campbell, manager of the Peterborough branch will assist at the opening. The manager of the Hastings branch has not yet been named, a Toronto man acting as temporary manager. Mr. J. D. Lundy of the Keene branch will act as accountant of the Hastings office.

Chosen Friends Elect Officers.

The local branch of the Canadian Order of Chosen Friends have elected the following officers for next year:

Past Chief Coun.—Wm. Miles.
Chief Coun.—M. A. Anderson.
Vice. Coun.—W. G. Hazlitt.
Recorder—A. Gibbs, accountant.
Asst. Recorder—M. Watt.
Treasurer—J. McGill, reclamation.
Prosecutor—M. Freebure.
Warden—E. Bowe.

Ottawa Power Co. Not to Buy.

Owing to certain rumors current recently to the effect that the Ottawa Power Co., are considering the purchase of the Peterborough Light & Power Company's business it is but right to state that Mr. Meldrum, manager of the former company denies this rumor in toto. Mr. Meldrum thinks that his company has already a sufficiently wide spread system of poles and wires to accommodate their large and growing business.

ADVERTISE IN THE TIMES.

SOCIAL AND PERSONAL

—Mr. D. Mallwee, Brandon, Man., was a guest at the Oriental Saturday.

—Mayor Downie of Campbellford, was registered at the Snowdon on Saturday.

—Messrs. J. B. Peoples will oppose Reeve J. Johnston for the reeveship of Belmont.

—Mr. G. A. Gillespie, of Peterborough, was in town on Thursday.—Lindsay Post.

—Mr. and Mrs. J. McLeires of Cobden, Ont., registered at the Snowdon House on Saturday.

—Miss Alma Dawson, of Montreal, niece of Mrs. (Rev.) J. C. Potter, who has been visiting at St. Andrew's Manse, returned home on Saturday.

—Mr. G. D. Linton, of Campbellford, a brother of Mr. Frank Linton, city, has successfully passed the junior examinations of the Ontario College of Pharmacy, Toronto.

—Rev. James Deane, of Norwood, preached at both services in the Park street Baptist church yesterday. Rev. A. H. Brace, the pastor, preached in the Baptist church, Cavanington.

POLICE NEWS

Daily Happenings in Court Room and Station.

It will be remembered by our readers that some time since The Times noted that Fred Picard of Harvey assaulted Dennis Daly, a formerly assaulted Dennis Daly, a former employee of the Queen's Hotel, on Nov 28th, in Ennismore.

Picard's trial was held Friday before County Magistrate Edmison Crown Attorney Wood acted for the Crown and Mr. D. O'Connell defended Picard.

Dennis Daly the first witness called said that the prisoner, Fred Picard, was in Peterborough on Wednesday, Nov. 28th, when he saw Picard at the Cavanagh House. He said he had engaged with Lawrence Twomey, of Ennismore, about a week before Picard had asked him to go to work in Harvey, and witness had stated that he might go. On Wednesday, November 28th, both Picard and Twomey met at the Cavanagh hotel and spoke on to witness services.

At noon witness and Twomey had driven out to the latter's farm in Ennismore, arriving there towards evening. Daly stated that while he was alone in the house, after dark, two men entered the house and one of them, Picard, struck him between the eyes, knocking him over on the floor, and otherwise seriously assaulted him. Witness was left lying on the floor in a semi-unconscious condition. The two men then left the house and a few minutes afterwards Twomey came in from the barn and found witness with his head covered with blood.

To Mr. O'Connell, Daly admitted having had a few drinks that day. Several other witness were heard, and one, Mr. Cavanagh testified to Picard having been in his hotel the night of the alleged assault, thus proving an alibi for the prisoner, who was discharged.

On Saturday afternoon the young man a member of the Uncle Toms Cabin Co. that played here the preceding evening was released, after arrest on a serious charge.

It seems that the above mentioned company had registered at the Palace Temperance Hotel, and the young man in question was shown his room. He went up to wash. When he had performed his ablutions he returned to the dining room and had dinner. After dinner the cook happened to go up to her room, which was the one the young man had been in, and discovered that a gold watch and $15 had been stolen from under the pillow or mattress. She reported the matter at once to Mr. Darcy, who issued a warrant for the actor's arrest.

After he had been duly arraigned an appointment in the Hotel du Coup the second police magistrate were interviewed, and so was Mr. Darcy. Everything was done to save the prisoner released, as all his associates believed him innocent. His record so far as known is above suspicion.

Magistrate Dumble, upon hearing the circumstances, gave permission to release the young fellow, if Mr. Darcy would withdraw the charge, because there was little evidence against the fellow. The proprietor of the temperance hotel however, held to the opinion, that he had the right man, until it was nearly time to catch the train, when he relented, and the young man rejoined the company.

Yesterday afternoon a young Englishman who had been working for a local hotel, but who had left his job about two weeks ago, and who returns to work there today, went to the hotel yard to take a look round. Two other employes picked a quarrel with the Englishman and gave him a bad beating up. The victim came to the police station, with his face covered with blood, and a lump the size of a hen's egg on his head. Arrests will likely follow.

Last night, about six o'clock, P. C. Newhall gathered in a young man named George Able, who was drunk and using unparliamentary language. He will face the music at this morning's court.

On Saturday morning George Robertson, 73 years of age was given accommodations at Castle Woobett until such time as the Lakefield House of Refuge is ready for the accommodation of guests.

Eminent Doctors Praise its Ingredients.

We refer to that boon to weak, sorrowful, suffering women known as Dr. Pierce's Favorite Prescription.

Dr. John Fyfe one of the Editorial Staff of THE ECLECTIC MEDICAL REVIEW says of Unicorn root (*Helonias Dioica*) which is one of the chief ingredients of the "Favorite Prescription":

"A remedy which invariably acts as a genuine invigorator . . . makes for normal activity of the entire reproductive system." He continues "In Helonias we have a medicament which more fully answers the above purposes than any other drug with which I am acquainted. In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent." Dr. Fyfe further says: "The following are among the leading indications for Helonias (Unicorn root). Pain or aching in the back, with leucorrhœa, chronic (weak) conditions of the reproductive organs of women, mental depression and irritability, associated with chronic diseases of the reproductive organs of women, constant sensation of heat in the region of the kidneys; hemorrhagia (flooding), due to a weakened condition of the reproductive system, amenorrhœa (suppressed or absent monthly periods), arising from or accompanying abnormal conditions of the digestive organs and anæmic (thin blood) habit; dragging sensations in the extreme lower part of the abdomen."

If more or less of the above symptoms are present, no invalid woman can do better than take Dr. Pierce's Favorite Prescription, one of the leading ingredients of which is Unicorn root, or Helonias, and the medical properties of which it most faithfully represents.

Of Golden Seal root, another prominent ingredient of "Favorite Prescription," Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says: "It is an important remedy in disorders of the womb. In all catarrhal conditions . . . and general enfeeblement, it is useful."

Prof. John M. Scudder, M. D., late of Cincinnati, says of Golden Seal root: "In relation to its general effects on the system, there is no medicine on use about which there is such general unanimity of opinion. It is universally regarded as the tonic useful in all debilitated states."

Prof. Bartholow, M. D., of Jefferson Medical College, says of Golden Seal: "Valuable in uterine hemorrhage, menorrhagia (flooding) and congestive dysmenorrhœa (painful menstruation)."

Dr. Pierce's Favorite Prescription faithfully represents all the above named ingredients and cures the diseases for which they are recommended.

PETERBOROUGH, THE ELECTRIC CITY

AND HOME OF THE FAMOUS LIFT LOCK,

FAST BECOMING AN INDUSTRIAL CENTRE

Wonderful Development During the Past Few Years

A Short Sketch of the Early Settlement and Subsequent Progress of the City.

To a majority of the readers of The Times a short sketch of the early settlement and subsequent progress of Peterborough will be of special interest. In view of the steady advancement of the city, especially during the past few years, it is important to know something of its starting point, and the names of those who assisted in laying the foundation of what is destined to be, in the near future, one of Canada's most prosperous cities.

It was in the year 1818, in which year the town reserve was made in the township of North Monaghan, which, at that time, was but sparsely settled. In the year 1823 the town was laid out by actual survey by Mr. Richard Birdsall, land surveyor, under the direction of Honorable Zacheus Burnham, to whom the government assigned the work.

About the year 1819 a party of gentlemen from Cobourg and vicinity arrived in Peterborough, having rowed up the Otonabee in a skiff, for the purpose of selecting a proper place for

E. R. D. HALL, CITY SOLICITOR.

the erection of a grist mill. The gentlemen who came here on that occasion were Messrs. Adam Scott, Barnabus Bletcher, John Edmison, Charles Fothergill, Thomas Ward and John Farrelly. Much prospecting was done and it was found that by making a small outlay a fine mill site could be obtained near the corner of Water and King streets. Mr. Adam Scott a few years afterwards erected a grist mill and saw mill, both under one roof, at this place, and in honor of him the embryo village was named Scott's Plains.

In 1827 the name of the settlement was changed to Peterborough, in honor of the Honorable Peter Robinson, who had been identified with the bringing out of numerous parties of immigrants and settling them in the neighboring townships. The first store opened here was conducted by a Mr. Sewart, his successor was Mr. George Grey Bethune, of Cobourg, who conducted the business on a larger scale and associated with him Messrs. Green, McDonald and Valentine Tupper.

The first hotel was opened by Mr. John Boates, on the south side of the market square. The town was then growing rapidly in importance and population, which it has continued to do ever since.

It is now nearly one hundred years since this prosperous and progressive business centre had its start, and it is safe to say that under the prevailing conditions none of the smaller cities of Canada can look back with such pride upon their career as can this thriving and up-to-date city.

Peterborough is fast becoming an industrial centre, chiefly on account of its cheap electric power developed from the various dams on the river. Amongst these may be mentioned: The American Cereal Company; The Canadian General Electric Company; The Peterborough Cereal Company; The The Canadian Cordage Company; The Wm. Hamilton Manufacturing Company; The Peter Hamilton Manufacturing Company; The Dickson Lumber Company; The Peterborough Lumber Company, The A. McDonald Lumber Company; The Central Milling Company; The Auburn Woollen Company; The G. W. Green Manufacturing Company; Peterborough Canoe Company; Wm. English Canoe Company; Canadian Canoe Company; Calcutt Brewing & Malting Company; Curtis Bros. Brick Manufacturing Company; Georgs Fitzgerald & Co., Carriage Works; J. J. Turner & Sons, Tents and Awnings; Peterborough Laundry Company; Fanning's Steam Laundry; Peterborough Radial Railway Company; Wilson Gasoline Engine Company; B. F. Ackerman, Son & Company, Harness; Novel-Tie, Limited; E. H. Mann, Planing Mill Company; Ed. Wand, Planing Mill; The George Matthews Company; The Peterborough Lock Manufacturing Company; Peterborough Shovel Company; Wm. Faint, Woollen Manufacturing Company; The Peterborough Creamery Company; The Sandstone Brick Company.

In addition to the above there are a number of other industries, employing from 10 to 75 persons each. There are also a number of industries under way, including:

The Coates Manufacturing Company; The Brinton Carpet Manufacturing Company, The Rapid Tool Company; The Peterborough Feather Company; The Prepayment Meter Company.

The financial and banking institutions in Peterborough are represented by branches of the following banks: The Bank of Montreal, Dominion Bank, Ottawa, Bank, Canadian Bank of Commerce, Bank of Nova Scotia, Royal Bank of Canada, and Bank of Toronto, as well as several Loan and Investment Companies.

The hotels Peterborough is away above the average of cities of its size in Canada. They are as follows: The Oriental, The National, The Snowden, The Munro House, The Crown Hotel, The Queen's, The Cavanagh House, The New Oxford, The Commercial House, The Hotel Royal, The American House, The Maple Leaf, The Albion, The Southern, The City Hotel, The Peterborough House, The Montreal House, The Windsor, The Palace Temperance Hotel.

In churches Peterborough has just reason to feel proud, all of which are substantially built and desirably located.

The Street Railway is one of the institutions of which our citizens have reason to feel proud. It gives an excellent service, and is up-to-date in every respect. Mr. J. H. Larmonth, the Manager, is, without doubt, "the right man in the right place."

We are protected by an up-to-date and trust-worthy Fire Department, who are always alert and ready to fight the flames and protect our commercial establishments and homes.

Beautiful buildings have been erected by the Young Men's Christian Association and the Young Women's Christian Association, the latter structure having been recently opened and enjoys the reputation of being one of the finest of its kind in the province.

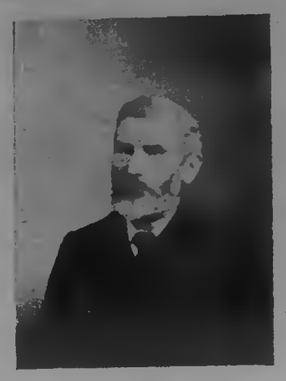
The hospital accommodation of Peterborough is unexcelled, being represented by the Nicholls' Hospital and St. Joseph's Hospital. Both institutions are modern in every respect, have reliable and clever medical attendants, and are in every way equipped to undertake and care for the most delicate cases.

The stores and business houses are strictly first class in every respect and will compare favorably with any of their kind in any city of like size in Canada. The stocks carried by our merchants are large and complete and the prices are consistent. The proprietors are bright, progressive men, who believe in doing their share towards helping the city in which they reside.

The city is well governed, the Council being composed of gentlemen who cheerfully give much of their time to the service of the people without any reward, except what comes from the knowledge that they are doing their duty in building up a prosperous city. The members of the Council are: His Worship Mayor Best and Aldermen Robert Hicks, Frank Adams, E. F. Mason, Geo. E. Elliott, W. Johnston, Geo. Tovey, James Graham, George Hall, George Duncan, T. Wilson, A. McIntyre, R. F. McWilliams.

In the executive of the city this record would be incomplete without reference to the City Clerk. Mr. S. R. Armstrong, who fills this important office, is without a doubt one of the most capable municipal clerks in the province. He is courteous to a fault, and never tires in his efforts to promote the best interests of the city. Mr. Brownscombe, the City Treasurer, who, we regret to say, is retiring in a few days, is also one of the most capable and popular officials that ever held office under the Council.

As a city of homes Peterborough cannot be surpassed. Its beautiful walks, parks and drives are famous throughout the country, while the stranger within the gates of this picturesque eastern city are overwhelmed with kindness and hospitality.



MAYOR HENRY BEST.

S. R. ARMSTRONG, CITY CLERK.

SANDSTONE BRICK CO.

One of Peterborough's latest and most successful industries is that of the Peterborough Sandstone Brick Company, Limited. The Company's plant is situated in the south western outskirts of the city. The plant is one of the most complete of its kind in Canada, and the quality of the bricks manufactured has been highly satisfactory to contractors and builders.

Sandlime bricks are now a popular building product in Peterborough, as is evidenced by the fact that, whilst the Peterborough Sandstone Brick Company's factory has been in operation since July 1st only, there are in the city today upwards of 50 houses built of this product. In addition to this there is a number of buildings in Port Hope, Lakefield, Havelock, Millbrook, Hastings and Belleville, which have been erected with the product of this Company.

The plant of the Peterborough Sandstone Brick Company has a daily capacity of 20,000 bricks the year through. The bricks have been tested by various architects and the results have been extremely satisfactory.

The Manager of the Company is Mr. Wm. Harstone, whose City office is No. 257 Water street. The other officers of the Company are: Mr. J. J. English, President; Mr. J. J. Hartley, Vice-President, and Mr. E. S. Clarry, Secretary.

SCOTT AND HOGG

Now that real cold winter weather is with us it is very desirable for every prudent householder to remember that his coal bin should be filled to guard against the stormy blasts of a Canadian winter.

Such householders will make no mistake in placing their order with Messrs. Scott & Hogg to attend to. They handle the best grades of anthracite coal, and strongly recommend D. L. & W. Scranton coal to every householder as the banner coal for domestic use, and Rutts Cannel for for open fireplaces. Place your orders with Scott & Hogg at once and avoid the rush.

ST. JOHN'S CHURCH.

ROYAL BANK OF CANADA

The most recent addition to chartered banks in Peterborough is the Royal Bank of Canada. It is of very high standing in the Dominion, having, in 1906, total assets of $42,000,000, deposits of $30,000,000, and a capital and reserve fund of $8,100,000, as compared with similar figures in the year 1900, which were, total assets, $17,000,000; deposits $12,000,000; capital and reserve, $3,700,000; thus showing an enormous increase both in business transactions and solidity.

The Royal Bank is a bank of strength and progress, a title which the above figures show is well deserved. It is in a position to transact all kinds of banking business and has correspondents all over the world. They have branches in Alberta, Manitoba, New Brunswick, Newfoundland, Nova Scotia, Ontario, Prince Edward Island, Quebec, Saskatchewan, and agencies in New York and Cuba—in all 83 branches.

The local branch was recently opened at 18 Hunter street, adjoining the Canadian Bank of Commerce and opposite the Postoffice, and they have also acquired the premises at 191 Hunter street; the two are now being connected into one large and handsome banking establishment.

The Royal Bank has taken their present premises for a term of years, and, when the improvements now in progress are completed, the bank will have one of the most convenient offices in this city.

Mr. Fulton is well known to the business men of this city, as is Mr. Graham Ferguson, a son of Mr. W. G. Ferguson, of Peterborough. Mr. F. W. Simpson is a son of Mr. W. J. Simpson, of Smith, and is widely and favorably known throughout this district. The customers of the local branch of this bank will therefore find themselves at home, and not among strangers.

A Savings bank is one of the features, where deposits of $1 and upwards are received.

The large number of branches, taken with its arrangements with other banks, enables the Royal Bank to make collections at very low rates, and our manufacturers and jobbers will find it to their interest to consult the "Royal" upon the subject. As before stated the capital and reserve of the bank amount together to $8,100,000, and the bank's liquid assets at last statement were over $25,000,000, giving assurance to borrowers of ample means to meet all their legitimate requirements. Farmers' accounts and the accounts of cheesemakers receive most favorable terms.

J. H. McCLELLAN

Mr. McClellan, the Superintendent of the Trent Valley Canal, has ably filled this responsible position since the fall of 1904, during which time the main feature of its management has been the adoption of new water levels on the various lakes that act as reservoirs along the system north of Peterborough. This has enabled the different power companies to maintain a uniform supply of power through all seasons of the year, and has resulted in continuous operation of the many factories depending upon water for their electric power, whereas, before Mr. McClellan's acceptance of his present office, it was a frequent occurrence for many of our local factories to close down at times, owing to lack of water.

Mr. McClellan has been largely instrumental in forwarding and putting this policy into operation, and has been heartily supported by the Dominion Government.

Under the direction of Mr. McClellan, during the past few years, a number of improvements have been made along the canal. New lock gates have been placed on a number of locks, new landing piers have been erected at various points, including Young's Point, Lovesick and Buckhorn. The channels of the river have been deepened, thus making better facilities for navigation purposes. The entire system of the canal owes much to Mr. McClellan's intelligent superintendency.

FELIX BROWNSCOMBE, The Retiring City Treasurer.

CANADIAN BANK OF COMMERCE

The Canadian Bank of Commerce has the largest strictly Canadian business in Canada, its discounts in Canada being practically all confined to this country, thus demonstrating the vast and the bank has been in the up-building of Canada's industries and mercantile success.

This bank handles accounts of private parties manufacturers, merchants and traders on favorable terms, and has superior facilities for making collections on all points in Canada and the United States.

New York drafts and all Foreign exchange bought and sold. Dealers in municipal and other bonds and debentures.

Special attention is directed to the Savings Bank. Deposits of one dollar and upwards received, and interest allowed at current rates.

The officers of the bank are: Honourable Geo. A. Cox, President; B. E. Walker, General Manager; Alexander Laird, Assistant General Manager.

Capital Paid Up, $10,000,000. Reserve, $4,500,000; Total Assets, $113,927,519.

FRANK ADAMS

Mr. Frank Adams, who for nearly thirteen years has been Secretary-Treasurer of the Peterborough Lock Manufacturing Company, will, on January 1st, assume the responsible position of City Treasurer, succeeding Mr. Felix Brownscombe, who recently resigned.

Mr. Adams has always taken great interest in, and given valuable assistance towards, the management of our civic government. He was a member of the Council of Asphodel and Reeve of that village for six years previous to its union with the City of Peterborough. Since the amalgamation, and during the three years in the united Councils, Mr. Adams has been Chairman of the Finance Committee, Board of Works, and Fire, Water and Light Committee, which position he now occupies. Previous to accepting the Secretaryship of the Lock Works, Mr. Adams was for six years with the Peterborough Water Works Company.

EX-ALD. FRANK ADAMS, The Newly Appointed City Treasurer.

DEMETRIE BROS.

The stranger who enters within the good City of Peterborough, and who, whilst there, seeks for a high-class confectionery store and restaurant, cannot do better than to call upon Messrs. Demetrie Bros' splendid establishment at the corner of George and Charlotte streets. Outside the Cities of Toronto and Montreal, there does not exist a confectionery store, with restaurant attached, but still separated, that, in modern fixtures and high-class goods sold, excels or even, perhaps, equals what is to be found at Demetrie Bros.

Messrs. Demetrie Bros, who opened this grand store only about a year ago, are men of wide experience in their line of business, and, being a wealthy concern, have spared neither trouble nor expense to have the Peterborough establishment as near perfection as is possible. This enterprising firm own not only the large stores in Peterborough, but operate somewhat similar establishments in Ottawa, Toronto, Montreal and Kingston.

DEMETRIE'S STORE.

As one enters the confectionery from George street a vista of plate glass mirrors on every wall reflects high-grade counters, show cases, etc., piled deep with luscious and toothsome sweetmeats of every kind, from the candy that children buy five cents' worth of, and want good bulk, to the highest grades of French fruits and bon-bons of all kinds sold either in bulk, or enclosed in tasty, and if desired, expensive fancy boxes. Messrs. Demetrie employ one of the most celebrated candy makers in the Dominion and make the goods fresh daily. This firm also makes a specialty of high-class fruits in season. In the large confectionery, screened by rows of beautiful palms, are dozens of small tables where delicious ice cream of their own make is always in demand.

The soda fountain in the establishment, immediately to the north of the main entrance, equals anything in Canada, being of polished onyx, 10 long, and with 17 different fruit and other flavors; this fountain is particularly popular.

To the rear of the confectionery, connected by a swinging cherry wood door, is Demetrie Bros. new restaurant. Here are many new tables, covered always by absolutely clean napery and handsome glass and silver-ware. The chef of the restaurant, which also opens on Charlotte street, is an expert cook. The whole large establishment is under the personal supervision of Mr. George Andreacopulos, who sees that everything is kept first-class and clean.

YOUNG MEN'S CHRISTIAN ASSOCIATION BUILDING.

IMPERIAL PAPER MILLS AT STURGEON FALLS

Among the rapidly growing towns of New Ontario is Sturgeon Falls, situated on the main line of the Canadian Pacific Railway.

Sturgeon Falls lies on the border of the wonderful mineral belt of New Ontario, and is a progressive, prosperous town of about 1,500 inhabitants.

A few years ago Sturgeon Falls, with a population of about 700 people, was dependent entirely on such small lumbering business as arose from its position on the Sturgeon River, and its present prosperity is largely attributable to the building of the Imperial Paper Mills, which were opened in 1901. This Company has a large and well equipped plant turning out daily sixty tons of ground wood pulp, seventy tons of sulphite pulp, and from fifty to sixty tons of paper, and in its bush operations gives employ-ployment to nearly 1,000 people.

The Company's business has made it necessary to further extend the Company's plan: by the erection of other two paper machines which will increase the production to about one hundred and twenty tons of paper per day. The large part of this consumption is taken up in Canada, while many tons are also shipped to Australia and New Zealand, as well as to England.

Since the Company started work the progress of the town has been steady. There is a good system of waterworks and sewerage, the streets are lighted by electricity supplied by the Imperial Paper Mills, and the Town Council has not been backward in laying down concrete sidewalks all over the town.

Attracted by the convenience of Sturgeon Falls, the Northern Ontario Reduction and Refining Company have fixed on Sturgeon Falls as the site for the large plant they are now putting up. This Company has designed a plant capable of treating 300 tons of ore per day, and are making rapid progress with the work of construction.

Proposals have been made to establish an iron foundry in Sturgeon Falls, and other industries will doubtless find their home there.

Sturgeon Falls is fast becoming known as the starting point for many excursions to Lake Nipissing and the French River. The Nipissing Transportation and Trading Company, having its head quarters at Sturgeon Falls during the summer, runs a daily service by the "Elgin Lewis" to Monetteville and the French River. This Company is building a beautiful hotel on one of the Islands of the West Arm, which will be ready for operation early next summer, and should prove an additional attraction to those seeking rest and pleasure during their summer vacation. The French River and Nipissing Navigation Company also run boats to the French River and Callender for the accommodation of the tourist trade.

BANK OF OTTAWA

Prominent among the banks now located in Peterborough stands the Bank of Ottawa, opened here about a year and a half ago, with Mr. A. A. Hollingshead as Manager.

This Bank, which is ranked as one of the strongest in the Dominion, has a paid-up capital of $3,000,000, and a reserve fund amounting to $3,150,000, and operates some sixty branches in Canada.

The head office of the Bank of Ottawa, as signified by its name, are in the Capital. The General Manager is Mr. George Burn, and its Assistant General Manager is Mr. D. M. Finnie, and Messrs. W. Duthie and C. G. Pennock are the Inspectors.

The local branch is advantageously situated in the very center of Peterborough's main thoroughfare, where crossed by its next most important street, viz., Hunter street. The premises of the Bank of Ottawa here are handsomely furnished, with a view to strictly utilitarian requirements; however, owing to the rapidly increasing business of the bank lately, it is proposed to shortly have the present interior remodelled.

Mr. A. A. Hollingshead, the Local Manager, although a young man, has had a very thorough training in

STEAMER "ELGIN LEWIS."

detail of banking business, which, coupled with his local popularity, has resulted in his working up a very large clientele for his bank in Peterborough. There is, at present, a staff of eight in the local branch. Undoubtedly the Bank of Ottawa displayed great judgment in locating a branch in Peterborough, as well as in their choice of the local manager.

It is worthy of note that this bank in Peterborough enjoys a very large patronage from the farming community, who receive uniformly courteous treatment.

PETERBOROUGH TYPEWRITING AGENCY

The Peterborough Typewriting Agency is a great convenience to people who may not have a sufficient amount of correspondance to warrant the employ of a permanent stenographer.

Clergymen, secretaries of societies, and others have found this Agency a great benefit to them.

In addition to doing such work as correspondance, the Peterborough Typewriting Agency carries a complete line of typewriter supplies. Everything used in connection with a typewriter may be procured there. They supply the largest concerns in Peterborough with their carbon paper, ribbons, oils, etc. The Agency has telephone communication, being No. 656.

ST. PETER'S CATHEDRAL.

ST ANDREW'S CHURCH.

SOUTHERN HOTEL

Among Peterborough's modern hotels one that has always enjoyed a large patronage is the Southern. The hotel has recently been purchased by Mr. Charles R Nixon, an experienced man in the business. Mr. Nixon has operated the Bradburn House in Omemee, the King Edward in Lindsay and also a large summer resort at Little Current, Manitoulin Island. This last named hotel was destroyed by fire on August 11th.

Mr. Nixon is an old Peterborough boy and still owns a valuable farm in the Township of Emily, some six miles from the City.

It might be noted that the new proprietor, Mr. Nixon, is greatly enlarging the premises. Immediately to the south, a large staff of workmen have been engaged in erecting an addition, immediately adjoining and connected by archways and doors to the original building, which latter is a substantial stone building. The addition is 36 x 60 feet in size; also to the rear a large building to be used as a kitchen, 20 x 40 feet in size, is being erected.

When the new addition is fully completed, the bar will be moved into it and, as Mr. Nixon has already ordered a complete new back and up-to-date fixtures, and will only keep the best quality of goods, there is no doubt but what this feature of the hotel will receive a liberal patronage. The proprietor of the Southern has secured the services of Messrs. Jas. Bell, of Toronto, and Duncan Johnston, of this city, as wine clerks.

The present dining room will also be greatly enlarged and will be under the personal supervision of Mrs. Nixon, who will see that only the choicest of meals are served.

One important feature of this hotel is the splendid stable and yard accommodation which are second to none in the city. With the high recommendations and practical experience brought to the Southern by Mr. Nixon, together with its favorable and central location, this hotel cannot but sustain and increase its business.

QUEEN'S HOTEL

Handy to the G. T. R. depot, being within half a block of that station, and on Charlotte street at the corner

of Aylmer street, and right on the way to George street and the business centre of the city.

The proprietor, Mr. M. C. Tooley, is an old hotel man and knows just how to cater to his patrons' wants. The Queen's Hotel, whilst not as large as some others in this city, is kept scrupulously clean and neat and those putting up at that house find themselves in neatly furnished rooms surrounded by an air of homelike comfort. Mr. Tooley enjoys a large trade, having almost daily to turn away would-be customers. Owing to his possessing a comfortable competency outside his business, Mr. Tooley insists on having only the best on his tables and in the bar. Mr. Tooley himself is decidedly popular among his large circle of friends, whose patronage is regular from day to day.

Mr. Tooley is fortunate in having as bar clerks Messrs. Chas Dusty and William Evans, both of these gentlemen being very popular.

PETERBOROUGH HOUSE

In front rank among local hotels that cater especially to the farmers, and mechanics, and others of the best class of working men, is the Peterborough House.

This hotel, formerly called the Clancy House and operated by Mr. John Clancy for many years, was purchased some months ago and now operated by Mr. James Head, a gentleman with a wide experience in the hotel business, extending over many years both in Canada and the Old Country. The Peterborough House site and building has been occupied as a hotel for some twenty-four years, and is well and favorably known throughout this and the surrounding counties. Mr. Head the proprietor, makes a specialty of having first class and lagers in the perfect condition that can only be attained by long experience and close application to business.

One great point of interest in connection with the Peterborough House is the commodious yard room and convenient stables; in this yard as many as one hundred and more rigs of various kinds are often to be seen on a Saturday. An experienced and polite hostler is always in attendance.

Mr. Head has recently repainted and repapered the entire hotel, which is clean and sweet from cellar to attic. Those desiring a clean, neat and well managed hotel at moderate prices cannot do better than give the Peterborough House a call.

HOTEL NATIONAL

Very few cities in Canada have as comfortable, homelike and, for the size of Peterborough, as elaborately furnished, splendidly decorated, modernly planned and conveniently situated an hotel as is the National Hotel on Charlotte street. The National Hotel is almost at the corner of Peterborough's leading street, and within a few minutes' walk of both the G. T. R. and C. P. R. Depots.

The proprietor, Mr. J. A. Lawless, an hotel man of many years experience, has spared neither trouble nor expense to have the National not only a desirable resort for the travelling public, but has a place that is a credit to this city.

One of the many new features recently added to this hotel is a grand large dining hall, 56 x 32 feet in size, which is magnificently furnished and up-to-date in every particular. Its large windows overlook Charlotte street and command a partial view of George street. A handsome large marble lavatory is another of the recent improvements, the former commodious lavatory was removed to make room for some ten feet addition to the bar and to facilitate a remodelling of some of the sample rooms. The new lavatory is tile-floored, and has the most modern marble top basins with silver plated exposed plumbing. Every feature is of the most expensive and sanitary type, this room alone costing over $1,500.

The recently enlarged bar is one of the handsomest in Canada. Its lighting system of many expensive electro-[illegible] is second to none. Here only the best goods are served by expert wine clerks.

The new tile-floored hallway leading from the front vestibule leads to the ten well fitted sample rooms, where commercial travellers have every facility for both handling their trunks and displaying their goods. Mr. Lawless makes a specialty of looking after commercial mens' requirements.

The upper floors have recently been re-carpeted throughout, and every room equipped with brass-mounted iron bedsteads, with new "Marshall" sanitary matresses, which are generally considered superior to all others. All the upstairs, as well as the lower part of the house, has been re-papered and re-painted throughout.

One prominent feature of the National is its growing popularity among societies, clubs, etc., for public dinners and banquets.

In a word, Mr. Lawless has in the National a hotel that is growing in daily favor and increasing its long-time patronage.

THE PALACE LIVERY

Messrs. Bruce Lee & Co., whose extensive barns are most centrally located between Simcoe and Charlotte streets, in front of the Peterborough Lock Works, are among the most progressive and enterprising livery stable men in Peterborough. To get to Messrs. Bruce Lee's barns one can enter from Simcoe street, in front of the Lock Works, or by the Snowden House from Charlotte street.

Mr. Lee gives his whole personal attention to the livery business, so that his horses and rigs are always in strictly first-class order. Mr. Lee sees personally that all customers get just the kind of horse they want; a timid lady can be sure that, if her wants are made known, she will get a horse she is absolutely safe with; as well as a commercial traveller or others wanting a swift steed can procure what he wants. Bruce Lee & Co can, night or day, be reached by Telephone No. 286, or by calling at 193 Simcoe street.

THE BANK OF MONTREAL

In the recent local bank trouble, owing to the Ontario Bank's failure, when the Bank of Montreal averted an otherwise assured panic by paying off all depositors in the former in full, it might be noted that the Montreal Bank was greatly appreciated here and consequently little trouble caused in Peterborough.

Now that the Bank of Montreal has acquired the magnificently equipped premises of the defunct Bank of Ontario, the former will doubtless shortly move their business across Water street to their presumably new home. With their splendid quarters recently acquired, the large and rapidly increasing business of the Bank of Montreal here, will be able to be more comfortably attended to, and with greater ease, than in their present almost outgrown quarters. The Bank of Montreal is one of the strongest in the world, having a paid-up capital of $11,400,000, a rest of $10,000,000, and undivided profits of $927,418.

Mr. K. Eardley-Wilmot, the Local Manager, is one of the most highly respected gentlemen in the city, and has the full confidence of the bank's many local customers.

THE WESTERN BANK

In the Western Bank the country has a well-managed and vigorous financial institution, and one that is rapidly progressing. The headquarters of the Bank are in Oshawa, where most of the Directors reside. The Bank has twenty-five branches. It has a paid-up capital of $550,000, a rest account of $300,000, assets of $6,000,000, and deposits of $5,000,000. Mr. T. H. McMillan, the General Manager, and the other officers of the Bank are to be congratulated on the splendid position the Bank has attained.

NOBLE'S TEMPERANCE HOUSE

In every town and city, as well as among the travelling public, there are hundreds of people who prefer to either stop as transients or board at a place where no liquor is sold. For the information of such, and they are numerous, we might say that Mrs. L. O. Noble, at 264 Hunter street, operates a Temperance House that is well deserving of a notice in Industrial Peterborough.

Mrs. Noble has had a long experience in the art of satisfying customers who seek good meals and comfortable rooms.

In her Temperance House Mrs. Noble insists on and has everything kept clean and comfortable for her guests. The large dining room comfortably seats thirty-five diners at once at the six large tables. Possibly the most important feature of a dining room is what those present dine on, and here Mrs. Noble excels as her guests get only the best in the market, cooked right under her personal supervision. There is a public parlor on the ground floor for the use of Mrs. Noble's guests. The present premises are to be greatly enlarged in the near future so that the proprietress may be able to accommodate more guests.

In connection with the business Mr. Noble runs a large cartage business, keeping four teams and four waggons always ready. For either the hotel part or for expressage use Telephone No. 27.

THE DOMINION BANK

It is only recently that the Dominion Bank of Canada opened its doors to the public of this city, and in doing so made a most fortunate selection in their local manager, when the Bank was lucky enough to retain the services of Mr. John Crane, formerly local manager of the Ontario Bank here.

So much has been said through the press of the Dominion concerning the failure of the Ontario Bank that it is almost a work of supererogation on our part to note that, had every branch of that bank been managed as Mr. Crane controlled the Peterborough

JOHN CRANE.

agency, the Ontario Bank would, today, be in flourishing condition. However, now that Mr. Crane has taken hold of the local branch of the Dominion Bank, after declinging flattering offers made to him on decease of the Ontario Bank, it is of interest to our readers to learn that the New York Mercantile & Financial Times says concerning the Dominion Bank, in part, after noting the strength of Canada's banks, as follows:

Unquestionably no individual institution exemplifies these progressive qualities in more marked degree than the Dominion Bank, the headquarters of which are located in Toronto. This is one of Canada's strongest and most prosperous financial institutions, and its record since its organization in 1871 has been pregnant with fruitful achievement. It has enjoyed a uniformly active and successful career, and is now transacting a large and steadily increasing business through its head offices and its fifty odd branches throughout the Dominion, more especially in all parts of the Ontario and in the great and growing North-West section.

The strength and stability of the Dominion Bank are attested by the fact that it has an authorized capital of $4,866,666, of which $3,666,666 is fully paid, while its reserve fund and undivided profits amount to nearly $1,000,000, in excess of its paid-up capital. The deposits are now $13,300,000, while the assets at the present time amount to the handsome total of $42,000,000. These are figures which portray more eloquently than words the great success and prosperity of the Dominion Bank.

As is well known to financiers throughout Canada the Dominion Bank's executive is composed of some of the strongest and most reliable men of our broad area. With Mr Crane at the helm of the local branch, there is no doubt but what the Dominion Bank will attribute a good share of its dividend-paying ability to the Peterborough branch.

HOTEL ROYAL

Among Peterborough's smaller hotels that receives a large and respectable patronage is the Hotel Royal on Hunter street. The Hotel Royal is fortunate in having one of the largest and best yards in the city, and always has a responsible hostler in charge to wait on and assist patrons of the hotel. It is a common thing on market days to see as many as sixty farmers' teams comfortably attended to in this yard. The hotel itself is comfortable and kept in most cleanly manner.

Mr. James Kelly, who recently purchased this hotel from Mr. Flynn, will at once proceed to make several important improvements in both the interior and exterior of the hotel. Mr Kelly will undoubtedly hold and increase the business of the Hotel Royal, having a host of friends in the city where he has carried on a large teaming business.

QUAKER OATS COMPANY

During the past few years Peterborough has become a Mecca for sightseers, our Kawartha Lakes as well as the growing importance industrially and commercially of this city, bringing thousands of visitors here annually.

Among the chief points of interest to visitors, and second only perhaps, to the world famed Lift Lock, are those huge and modernly constructed mills of The Quaker Oats Company.

"Quaker Oats" is now a household word wherever the Anglo-Saxon tongue is intelligible, both from the fact that from the smallest city to the remotest country hamlet, Quaker Oats is advertised, and more particularly owing to the excellence of the various brands of cereals manufactured by the world-famed concern.

Owing to the world-wide knowledge of Quaker products it may be of interest to learn that the American Cereal Company was first formed about the year 1886, the company being an amalgamation of a number of comparatively small oat-meal mills in the United States, amongst them being the Crowell Mill, of Ravenna, O., which first manufactured "Quaker Oats." Mr H. P. Crowell, of that mill, is today President of the present Quaker Oats Company.

"Victor Oats" now the Quaker Oats Company's leading bulk brand, was made by Messrs. Douglas & Stuart in their mills at Cedar Rapids, Ia., and Chicago, Ill., previous to the amalgamation, as above noted. Mr Robert Stuart, of that firm, is now Treasurer of the Quaker Oats Company, with headquarters in Chicago, and mills at various points, including Peterborough.

After the amalgamation of several mills into the American Cereal Company, the first mills to be greatly enlarged were those at Cedar Rapids, Ia., and at Akron, O. Previous to amalgamation, up to the time of the fire there some two years ago, the Cedar Rapids mill was the largest oat-meal mill in the world, and is still, since reconstruction, the largest in the world making oat-meal exclusively. The mill at Akron, O., is the largest mill in the world turning out assorted cereals.

When the local mill first began to manufacture, practically all their output was shipped to the various countries in Europe, as well as to Australia and South Africa; in fact the wide world is their market. Now the demand for Quaker products is growing so rapidly in Canada that arrangements are being made to supply the domestic trade, and it is not beyond possibility that the Canadian market alone will soon consume the entire output of the Peterborough plant.

The immense local plant of this company about a year ago added a new branch to the Peterborough mill, viz., the manufacture of high-grade flour. When started and until November 20th ultimo, the local mill turned out six hundred barrels of flour per diem; on the last mentioned date a modern and up-to-date lot of machinery, which had taken some weeks to instal, enabled the local factory to manufacture two thousand barrels a day. The flour manufactured by this company is chiefly consumed, at present, in Canada. The mechanical appliances and plant in the Peterborough mill, and the perfection of the machinery here, is such that no mill in the world can produce better or more satisfactory goods of their kind than made here; in addition to this the quality of wheat grown in Canada is so good that the resulting product of this mill is the best that can possibly be manufactured.

It is most interesting in the various plants of the Quaker Oats Company to follow the numerous processes involved in turning the grain, as it comes from the elevator, to the finished product ready for shipment. One great feature of the process of manufacture of the various Quaker brand goods is the absolute cleanliness demanded and practised in the manufacture of every product. For instance, in making Quaker Oats or Pettijohn Breakfast Food, the oats or wheat, respectively, are, after going through various cleans processes by machinery, then rolled out into the familiar products as noted. The meal, when made, is carried by automatic machinery and being, on the way being mechanically divested of all dust and other impurities, to immense hoppers. From these it is carried automatically to long tables where hundreds of girls, in regulation hygienic garb, complete the sealing of the goods into packages for shipment. From the elevator to the consumer not a grain is touched by a human hand until the housewife, who has bought a package, cooks the same.

Following is a partial list of the goods manufactured in the local factory: Quaker Oats, in 5c. and 25c packages; Quaker Rice, in 10c. packages; Quaker Best Cornmeal, in 10c. packages, Pettijohns Breakfast Food, made from Pacific Coast wheat, in 10c packages; Apitezo Biscuits (for breakfast), in 15c. packages; Apitezo Grains, in 10c. packages; Banner Oats, in 25c. packages; Saxon Oats, in 25c. packages. Zest, the company new breakfast food, "tread yto eat," in 10c. packages; Cereta Wheat Food, in 10c. packages; Quaker Flour (made from Manitoba hard wheat entirely), in various sized packages; and Molac Dairy Feed. The Molac Feed contains molasses and grain and is used for inducing a copious flow of milk from cows.

In reference to the Banner Cattle Feed, made here, it might be noted that, in addition to an enormous general demand for the same, the company supplys this feed to cattle shippers in Montreal, St. John and other exporting seaports. All feed for cattle shipped on the trans-Atlantic steamers must be inspected by a Dominion Government inspector. It is interesting to note that not one single sack of Banner Cattle Feed has been rejected, so perfect is it in composition and nourishing qualities.

A great feature of the Quaker Oats Company's products is the handsome silverware offered as premiums. In every ten cent package of Quaker Oats, and in every package of Quaker Rice, Cereta Wheat Food, Zest, Pettijohn and Quaker Best Cornmeal, is a coupon which has a value. These coupons are good for "Glenwood Silverware," which, in design and workmanship, is the equal of the finest silverware made. It is a dainty floral pattern with the popular French gray finish, heavily plated with pure silver, 999 fine, and will last for years. The company gives, when such are mailed to the Peterborough factory of the Quaker Oats Company, 1 teaspoon for 6 coupons; 1 butter knife for 12 coupons; 1 tablespoon for 12 coupons; 1 sugar shell for 12 coupons; 1 table fork for 12 coupons; 1 table knife for 24 coupons; 1 pickle fork for 14 coupons.

ST. JOSEPH'S HOSPITAL

DONALD McKERCHER, V.S.

Those desiring to secure a smart turnout for long or short drives, drawn by well groomed horses, sent on order in quick time, cannot do better than to call on Dr. D McKercher at his fine barns at 191 Hunter street.

Dr. McKercher operates and gives his personal supervision to one of the best furnished and up-to-date livery barns in the city. One specialty of Dr. McKercher's livery barns is the close attention the proprietor and his staff pay to individual orders for horses. Let a timid lady want "a safe horse" for her own nervous driving, she can rely on not getting a horse that may run away; should a traveller or other man want a speedy horse to cover the required mileage quickly, Dr. McKercher's barns will surely supply his needs.

The doctor is himself a graduate of the Ontario Veterinary College of Toronto, and carries on an extensive veterinary practice. Dr McKercher has, since beginning practice here, succeeded in making some eminent cures in the various channels of the veterinary profession, and is held in high repute by all who know him.

THE SUN LIFE ASSURANCE COMPANY OF CANADA

The Sun Life of Canada has issued an official statement giving the results of the investigation of the Company by the Royal Commission. The investigation was a very severe one, probing to the bottom the wide and varied transactions of the Company for the past 15 years. The Company is to be congratulated upon its most excellent showing. It has come through the investigation triumphantly, and as far as the Company's interests are concerned [illegible] Commissioner's dealing with it is the best advertisement it has ever had. Its investments have been highly profitable and perfectly safe. It is not unusual for the best companies do not in their annual statements reveal their real strength. It is, however, the case with the Sun Life of Canada for they have a contingent Fund of over $1,000,000 which they do not include in their actual assets.

It was shown that "no director has ever obtained any financial profit or advantage of any kind out of the Co. save by means of sales, loans or any such arrangement of any kind whatever directly or indirectly." Another interesting feature that was brought out was that the Sun Life of Canada lives up to the estimates it gives to policyholders. The average amount paid to policyholders has been about 91 per cent. of the estimate. This is an unprecedented record. Statements were filed with the Commissioners showing that $100 is on hand for every $100 required to pay the Amounts called for by the present estimates for every Deferred Dividend policy on the books.

And still another important point was brought out. The directors reduced the proportion of profits accruing to the shareholders from 20 per cent. (the original ratio) to 5 per cent., so that the policyholders now get 95 per cent. of the profits and the shareholders only 5 per cent. The investigation was so satisfactory that Commissioner Kent at the closing hours of the last session speaking on the suggestion of voting power being given to policyholders said "It seems to me that in the conduct of the Sun Life business there is nothing to be desired as far as the present generation is concerned. If you were immortal I would not say anything further about it. If, by sound judgment, hard work and just discrimination you have put the Sun Life on the pinnacle of a successful Company, another management with other attributes might just as easily squander it. . . The directors have done their duty nobly; there is no complaint to be made against them, or any one of them. Who can say whether the future management will continue the present high standard of your company?"

We wish to offer the Company our hearty congratulations on their most excellent showing and would request all our readers to carefully read the statement that appears in another part of this paper.

WEDDING STATIONERY

WEDDING ANNOUNCEMENTS are always in order. The season for the final result of being a disciple of Cupid finds expression in the thousand ceremonies at the altar—that occasion when "two hearts that beat as one" are joined together—pronounced one.

For the auspicious occasion the printing must be chastely dignified—must be appropriate in appearance to this one time of life when everything "best" is donned—when happiness reigns supreme.

Marriage Announcements
Marriage Invitations
Marriage Reception Cards
Post Nuptial Reception Cards

All of these we are able to supply in a proper form and printed artistically. Our work is conducted under the supervision of skilled typographical mechanics and may be unhesitatingly presented to the most fastidious critic.

Our charges for such work are moderate—yet good printing is ever valuable. However, we give quality for our figures, and an order entrusted to our care will be speedily, carefully and satisfactorily executed.

No work can be well done which has to be done hurriedly. Time is necessary for the accomplishment of faultless printing. We will fulfil all expectations if given ample time for completion.

SOVEREIGN BANK

The self-early statement recently issued by the Sovereign Bank of Canada and which appeared in these columns, is the most satisfactory in its history, and we are justified in stating that, viewed from every point, it far surpasses the achievements of any other bank (for the same period) in the history of Canadian banking.

M. D. M. Stewart, the General Manager, in building up the business of the bank has displayed great vigour and ingenuity, and at the same time he has not forgotten to exercise great care in selecting his risks. At almost every annual meeting this point has been emphasized—that conservatism in the making of loans is the management's policy. How the profits have grown is shown by the following statement:

For the year ending 30th, April, 1897..... $ 61,233
For the year ending 30th, April, 1898..... 119,761
For the year ending 30th, April, 1899..... 133,975
For the year ending 30th, April, 1900..... 187,467

A five per cent. dividend was inaugurated in the bank's second year. Two years ago it was increased to six, which is the present rate. It is expected that the profits for the current year will be much larger, because it is only in the last six months that the bank has had the benefit of the new capital paid in by the Dresdner Bank of Berlin, Germany, and other shareholders.

The large number of branch banks opened recently has been the subject of much comment and some criticism, but the powers that be in the Sovereign Bank are not afraid that Canadian expansion is becoming painfully fast. They have increased the number of their branches to 55 and sub-offices to 22, and for the present at least are keeping out of the West, where competition seems to be unusually keen, and are cultivating blocks of territory of proved richness by methods which are producing profits and very materially increasing business.

From the comparative figures submitted with the last half-yearly statement it will be seen that in four years time the bank's paid-up capital has been increased by $2,769,242, its reserve fund and undivided profits by $1,056,847, its bank note circulation by $7,000, its deposits by $13,497,190, its cash on hand and at bankers by $4,525,745, its bonds, debentures, etc., by $4,173,468, its call loans by $2,983,-868, and its commercial loans and discounts by $13,782,641. Its assets have an expansion of $21,483,198. Figures such as these cannot fail to be instructive, indicating as they do the confidence of the public in the management of the institution, and a well-grounded belief in its stability and progressiveness.

Many Times' readers living in Havelock, Marmora, Stirling, Tweed, etc., have been customers of the Sovereign Bank since it opened at the points mentioned, and will testify to the uniform courtesy they have met with at the hands of the officials of this bank, which in no small measure accounts for its phenomenal success.

WHY SO WEARY?

Always Restless and Weak Isn't Natural—But It's Dangerous.

You have to work hard. This uses up lost of nerve force and tears down the body faster than it can build up, the result is a half-dead feeling you can't shake off. The water in your blood must be turned into nutriment and building material.

This is just what happens in using Ferrozone, which renews the blood and nerves, and makes each organ do the work that nature expects of it.

Ferrozone quickly increases your weight, brings appetite and healthy color, instills a reserve of vigor into the system that defies weariness, exhaustion, debility, or sickness of any kind.

The enormous strengthening power of Ferrozone is proved in the case of Mrs. Edward Hill, of Orr Lake, Ont., who says:

"Two years ago I had a nervous breakdown. At night I tossed restlessly in bed, unable to get any rest from sleep. In the morning I suffered from over-powering weakness. My appetite was poor. I grew pale, thin and despondent. A slight hacking cough also added to my burden.

"My doctor said to try Ferrozone, and it did me good in a few days. I increased in strength, the nervous sensations disappeared, and with my appetite came back my color and good spirits. I have gained over ten pounds in weight, and as my age is 56, I consider Ferrozone is a marvel." (Signed) Mrs. Edward Hill.

REMEMBER THIS: Ferrozone is a true tonic—not an alcoholic stimulant. Fifty chocolate-coated tablets in a box for fifty cents, or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

Architectural Competition for Departmental and Justice Building.

COMPETITIVE drawings are invited for Departmental and Justice Buildings to be erected for the Dominion Government at Ottawa, Ont.

The author of the best design will be awarded a premium of $5,000, the second best $4,000, the third best $2,000, and the fourth best $1,000.

Drawings will be received not later than April 15th, 1901, and are to be addressed to the Secretary of the Department of Public Works, Ottawa.

This competition is open to Canadian Architects who have been resident in Canada for one year or more.

Conditions of competition stating requirements of buildings and maps showing site &c. may be had on application to the undersigned.

By order,
FRED. GELINAS,
Secretary.

Department of Public Works,
Ottawa, December 12, 1900.

Newspapers will not be paid for this advertisement if they insert it without authority from this Department.

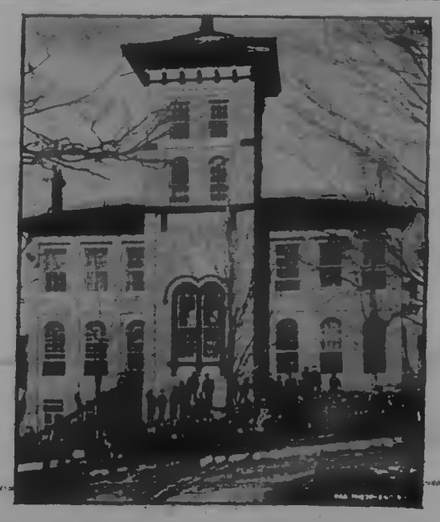
PETERBOROUGH STREET RAILWAY

Peterborough is fortunate in having one of the best equipped and managed street railroads of any town or city its size on the continent. Some years ago the local street railway was inaugurated, but owing to various reasons became moribund. Since the great boom this city has had the Quaker Oats Company got control of the local street car system and placed Mr. J. H. Larmonth as manager. Mr. Larmonth has, assisted by the rapidly growing population and augmented industrial importance of the city, made a great success of the street car system. Not only do the cars now convey passengers to all parts west of the Otonabee River, but Mr. Larmonth has made a specialty of introducing amusements both in summer and winter at Jackson Park which act as great feeders to the system. It is not beyond possibility that the Peterborough Radial Railway Co. may soon extend their lines to the East Ward and also to some of our leading summer resorts.

NEW OXFORD HOTEL

One of the oldest established and most successful hotels in Peterborough is the New Oxford House on Simcoe street, formerly known as the C. P. R. Hotel.

This hotel was purchased some months ago by Mrs. W. Bowman, who for some years operated the Oxford House on George street, adjacent to the C. P. R. station. Mrs. Bowman, during all the time she operated the latter house, ran a place that stood well both in the sight of the citizens at large and in that of the License Commissioners. In all the years Mrs. Bowman operated the Oxford House not one single conviction was ever made against her for infraction of the license laws. When, owing to its inadequate yard accommodation, the license was taken from that hotel,



THE CENTRAL SCHOOL

Mrs. Bowman promptly purchased the C. P. R. Hotel and re-christened it the New Oxford. When she bought this place the license, owing to her past creditable record, was promptly transferred to her.

As soon as Mrs. Bowman secured the present hotel she at once proceeded to make many improvements both in the interior and exterior of the place. As the New Oxford now stands, it is kept in excellent style, has commodious yard room, and, as Mrs. Bowman personally supervises the culinary department and dining room, guests are assured of and get admirably cooked and well served meals. The bar is supplied with the choicest goods and is presided over by Messrs. Dan Foley and E. Glendinning, both practical and popular men in their business. The New Oxford, whilst a $1 per day hotel, offer meals and other comforts that compare favorably with more expensive hostelries.

"TRAPPER TO WEARER"

The above is the conscientiously carried out motto of Messrs. T. Harris & Co., corner of George and Simcoe streets. Mr. Barrie personally supervises all fur cutting and making. This firm, in making a specialty of fur jackets, muffs, ruffs and every kind of fur goods for Christmas as all the year round. Mr. Barrie imports direct from the best manufacturers of hats and caps in England.

FOWL ROASTED

The [illegible] season is here and, [illegible] excitement of killing and [illegible] one is inclined to look ahead to our Christmas dinner and roast turkey. To many a good woman the thoughts of preparation for the big festivities is discouraging. She sees herself dressing the turkey ready and all Christmas morning basting around the hot fire watching it roast, and the recollection of past years are not the most pleasant. Mr. W. J. McCallum, the old and well known restaurateur, is prepared to relieve the housewife of a lot of hard labor. He has engaged a first-class chef, Mr. John Jewitt, of London, Eng., who is a specialist in roasting all kinds of fowl and meats. He has had a wide experience, and is very highly recommended by leading cafes and restaurants in London. In future, anyone, so wishing, can, at any time, get a nicely dressed and well roasted chicken, duck or turkey, ready for the table, at McCallum's Restaurant, and the price is most reasonable.

THE SNOWDEN HOUSE

One of the most popular hotels in Peterborough, and one favorably known by commercial men throughout the whole province, is the Snowden House, Charlotte street. This house, which is large and modernly constructed and furnished, is within about two minutes' walk from the G. T. R. Depot, and within easy reach of the C. P. R. Station.

The hotel was built by the present owner, Mr. William Snowden, who still operates it. As the management of the hotel is under the personal supervision of Mr. Snowden, assisted by his two sons, Messrs. Herbert and Harold Snowden, it is needless to say that everything is in first-class condition, and that both dining room and bar are furnished with only the best in the market. The hotel has large yard room and has a splendid livery adjoining, so that travellers or guests can get conveyances in short order. This hotel, which is exceptionally well lighted and bright, has a large number of bed rooms most comfortably and richly furnished. Over the large concrete steps leading to the front entrance is a large balcony entirely closed in with glass, so that those wanting sunshine, without cold, in the winter can sit out there.

Mr. Snowden, who has been many years in the hotel business and has made a competency, is about to dispose of the business, as well as the building, so that any wanting a first-class hotel business has a good opportunity to acquire the Snowden House.

JOHN MERVIN

Mr. John Mervin, corner of Aylmer and Hunter streets, operates an up-to-date and invariably well-stocked meat market. Mr. Mervin is a hustler in his business, and always has the best of meats of all kinds, both fresh and salt.

His Christmas beef is not to be surpassed on the continent. Mr. Mervin being a very large cattle buyer and who always sees that the choicest is kept for his own trade. For this trade Mr. Mervin has, for months, had cattle, lambs, etc., fattening under his personal supervision. One of Mr. Mervin's specialties is ground green bones for chicken feed, an article that is creating a great demand.

THOS. HARRIS & CO.—TRAPPER TO WEARER.

WM. PRINGLE, PETERBOROUGH BUSINESS COLLEGE.

PETERBOROUGH BUSINESS COLLEGE

Many a young man or woman, who has made a success in the strenuous competition for advancement in the world, has had good cause for being glad he or she took a course at the Peterborough Business College.

This leading enterprise has, for the past eleven years, been most successfully conducted by Mr. W. Pringle, the efficient proprietor, and is recognized as one of the best institutions of its kind in the province. Students of both sexes have equal advantage for obtaining a thorough business education. Every facility is at hand for the proper conduct of the various courses of study. There are over one hundred students enrolled on the books of the college, a record of a business increase of over eleven hundred per cent. in eleven years which few institutions in this or any other country can boast. When so desired individual instructions are given, thus ensuring privacy for those desiring such in their course. There are four accomplished tutors with the college, all experts in their individual lines.

Mr. Pringle, the Principal of the College, is a member of the Board of Education, and an acknowledged authority upon all matters appertaining to education.

H. W. STOCK

Mr. H. W. Stock, whose up-to-date and modernly fitted up tailoring establishment is situated at 170 Hunter street, carries a high-class line of imported woollens adapted to the wants of the best class of customers, at prices consistent with the quality, merchandise and workmanship to be found in his shop.

Mr. Stock's store is conveniently situated and is noted for the tasty arrangement of its interior. Handsome grill work and up-to-date fixtures display to good advantage the [illegible] goods shown. Mr. Stock is one of Peterborough's most accomplished cutters, attending to this branch personally, and all his work is done right on the premises.

WILLIAM CROFT

Among the products that Peterborough has reason to be proud of, as being strictly a local manufacture, is the ginger beer manufactured by Mr. William Croft, one of this city's veteran citizens.

Mr. Croft was, for many years, proprietor of the Croft House, on the corner of Water and Hunter streets, and had one of the largest hotel connections in the county, or, in fact, in the country. Not a farmer or traveller that came to Peterborough was ignorant of Mr. Croft's name or the fame of his hostelry. Mr. Croft, some seven years ago, decided to quit the hotel business and entered into the manufacture of a ginger beer that, if advertised and tested in the larger cities, would ensure a large demand for the same.

Mr. Croft's ginger beer factory is situated at the junction of Park, Sherbrooke and Reid streets. Whilst he pays more attention to the purity and excellence of his ginger beer than to gaudy and too often deceptive display labels, etc., his products are favorably known in every hotel and many private houses of this city.

One point in favor of Mr. Croft's ginger beer is that, as the weeks pass by after it is manufactured, in just such ratio does the ginger beer improve. Too many kinds of ginger beer, if kept beyond a certain time, turn sour or get flat. This is due to cheap ingredients and careless manufacture. With Mr. Croft's goods, the ginger beer when new is somewhat sweet; however, by keeping the same for a few weeks or months it gets a sparkel and zest not to be duplicated by any but the highest class of goods. It might be noted that a majority of the various brands of ginger beer is artificially aerated, or has sulphuric acid gas (a product of marble dust and vitroil) inserted. Mr. Croft's ginger beer has no artificial gas pumped in, but ferments by process of nature from chemical action of yeast and choicest ingredients. Were Mr. Croft a younger man, there is no doubt but what his ginger beer would, within a few years, be advertised from ocean to ocean.

CHAS. JAMES

Those who appreciate a good glass of ginger beer, made after an old English formula, should call on Mr. Charles James, 91 Sherbrooke street. Mr. James has been making ginger beer for a quarter of a century in this city and the demand for his goods is ever increasing. Having two rigs on the road, Mr. James, with the assistance of his son and Mr. W. Evans, is noted for prompt delivery when called up by Telephone No. 417.

To have beautiful, perfect, pink, velvet-like lips, apply at bedtime a light coating of Dr. Shoop's Rose Salve. Then, next morning, notice carefully the effect. Dry, cracked, or colorless lips mean feverishness and are as well disappearing. Dr. Shoop's Green Salve is a soft, creamy healing ointment, that will quickly correct any skin blemish or ailment. Get a "try-it" box at our store and be convinced. Large Glass Jars, 25 cents. J. D. Tully.

R. E. ELLIOTT & CO.

Messrs. R. E. Elliott & Co., Real Estate Brokers, with offices at 287 Water street, carry on a large business in selling, buying and renting real estate of all kinds. Their office is most admirably adapted to the requirements of this business, several private offices ensuring absolute secrecy for clients. The front counter is finished in cherry and brass grill work. This firm makes a specialty of handling business in real estate for outside parties, and do a large business in North-West property, buying or selling the same. This firm also attends to renting houses, stores, or other property.

For information regarding property, persons can call personally at the office or call up Telephone No. 125.

RAPID TOOL CO.

An important new addition to Peterborough's immense family of large industrial and manufacturing concerns is that of the Rapid Tool Co., whose recently erected plant is situated on Hunter street, a few doors east of the Otonabee River and almost adjacent to the Trent Valley Canal, and the C.P.R. spur line which supplies the Quaker Oats Company.

As one enters the main door of this factory one enters the commodious suite of offices, the front of which is occupied by the staff of clerks. In the rear of this office is the Superintendent's office, where Mr. P. J. Creedon can be consulted in private, if necessary, in connection with the works. As a visitor leaves the offices he at once enters the large shipping room, where the goods are packed for shipment on appropriately constructed tables and shelving.

The next room south is the polishing department, where the finishing touches are put on the bits and other tools made here, previous to packing for shipment.

After this, and to the south, a few steps lead down to the forge department, where [illegible] and other machinery are noisely finishing the steel bits as they enter and are as quickly manufactured into the noted and up-to-date bits, etc., made by the Rapid Tool Co.

To the north of the forge department is a veritable hive of industry, where a large number of highly-paid and skilled mechanics are busily engaged in the die and tool room making the various parts required for completing the bits and other tools. In this room there is a constant roar and whirl of machinery, deafening and puzzling to a neophyte.

Still further north is a large space devoted to fitting up the various goods, which have previous to arrival here, reached a partial state of completion.

The whole factory is lighted up by a most complete and efficient electric light plant, and their power is derived from several electric motors. The factory is heated by steam radiators throughout.

Mr. Creedon, Superintendent, is the

P. J. CREEDON.

inventor and patentee of the Rapid Tool. It might be noted that some months ago a dual vote was taken as to giving inducements to two companies to locate here, viz., the Peterborough Rolling Mills and the Rapid Tool Co. Now it is too well known here to require comment that, after the elections had been advertised, the Rolling Mills, a few days previous to election, said their company was going elsewhere, bonus or no bonus. This of course so influenced the property owners that they did not turn out to vote in sufficient numbers for the Rapid Tool Co. to get sufficient votes for their bylaw, as required by the act. However, the Rapid Tool Co.'s bonus bylaw will come up again at the January civic elections and, as the enlargement and full development of this enterprising concern is somewhat upon the action of the ratepayers at the January elections, there is no doubt but what the comparatively small assistance they ask for from the city will be readily given. There is, no doubt, a great and growing future for the Rapid Tool Co., and it is now up to the voters of the city to say by their ballots whether an already established industry shall be, at trifling cost to the city, enlarged so that a much greater number of skilled mechanics shall be employed or not.

The officers of the Company are as follows: W. G. Ferguson, President; William Rudkins, Vice-President; G. L. Hay, Secretary-Treasurer; Jas. Davidson, W. S. Davidson, E. B. Powler, Directors; P. J. Creedon, Superintendent.

IMPROVE YOUR COMPLEXION

Give Up Cosmetics And Seek The Cause of Your Bad Color.

When it's so easy to bring back the bloom of youth to remove the blemishes and fill the hollows, isn't it foolish to plaster on cosmetics?

Sallowed skin and fallen in cheeks are produced by disorders of the alimentary canal.

Remove the cause—correct the condition that keeps you from looking as you ought. Use Dr. Hamilton's Pills and very soon you'll have a complexion to be proud of.

Just imagine how much happier you will feel when those pimples and murky look have gone.

Beauty looks came to Miss Vroomen, a well known resident of Belfast, from using Dr. Hamilton's Pills. I used to look so yellow I thought it might be jaundice. There was simply no color in my cheeks at all. Today my skin is clear and never gets that murky, dull appearance, it had before. Dr. Hamilton's Pills have also given me a good appetite and improved my general health also."

Not only the complexion, but every organ of the body is strengthened, cleansed and made healthy by Dr. Hamilton's Pills. Buoyancy, vim and a feeling of vigor invariably follow their use. Sold in yellow boxes by all dealers; 25c. per box or five boxes for $1.00, or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

PETERBOROUGH, DECEMBER 19 1906

CHRISTMAS.

The supreme holiday of Christianity, has become the holiday of all creeds and all races. Over all the earth the spirit of Christianity fills the heads of more people than are ever at any time animated by any other single emotion. It matters not how faultingly or triflingly, the act of good will may be executed; it matters not that men soon again returns to the paths of self seeking—still hope and faith rejoice in the fact that for a time at least an ideal society exists among men, during which the common laws of organized communities are changed, and men seek joy by giving and happiness in promoting the well-being of others.

Good cheer—good will—good deeds! The world round socializes the better impulses of mankind at this joyous season, and the brotherhood of men that Christ came to teach and to found is, if not fully realized, at least visitely foreshadowed.

OUR INDUSTRIAL EDITION.

In presenting our readers with the Industrial edition of The Times, we ask their kind indulgence for its many defects. Those are almost altogether due to the fact that our facilities are somewhat limited in our press department, and will be until we get settled in our new quarters on Hunter street, in the spring, when our new Potton press, which we have already purchased will be erected. We desire to call special attention to the advertisers in this edition. They are among the most enterprising and progressive of our citizens. Read the advertisements as well as the write-ups, and you will be the gainer.

Mr. Harold Dumble Married Yesterday.

Mr. T. Harold Dumble, son of Mr. D. W. Dumble, police magistrate of this city, was yesterday admitted to the great and suffering army of benedicts, his bride being Miss Flora Campbell of Winnipeg. The ceremony was performed in the Prairie city by Rev. Dr. Hart. Mr. Dumble, the fortunate groom, holds an important position with the Bole Drug Co. of Winnipeg, and is well known in local athletic circles. The wedding was celebrated in the presence of a few intimate friends. The groom's brother Mr. Clarence Dumble acted as best man.

The happy couple will reside in Dauphin, Man. Mr. Dumble's many friends in this city will be glad to hear of his marriage.

News of St. John's Church.

Tomorrow night the Brotherhood of St. Andrew of St. John's church will hold a regular meeting. The work of decorating St. John's church for the special Christmas services will begin tomorrow afternoon at two o'clock.

On Friday the annual distribution of Christmas cheer to the poor of the city by the members of the King's Daughters will take place from the Sunday school house.

On Sunday next the Christmas services will be held. There will be celebrations of Holy Communion at 7.30, 8.30 and 12 o'clock morning prayer and sermon at 11 o'clock.

WM LECH & SON

This firm, the oldest established in the city, has been noted, far and near during 45 years, for reliability in doing business. This is one of the principal essentials to depend on when purchasing furs, as there are very few other lines in business where it requiries more caution in guarding against deception.

This season this firm is carrying the largest and most attractive display of fine furs, since they have been in the fur trade. These goods are the production of their own manufacture as their work rooms are busy throughout the whole year. Every customer can depend on Lech's guarantee and be certain of getting the very best value for furs bought.

Every line is represented from the cheapest to the most costly furs. These include such furs as Alaska seal, mink, Hudson Bay sable, ermine, chin chilla, gray squirrel, gray and blue lynx, stone martin, Alaska sable, white and black fox, Persian lamb, Thibet, otter and beaver.

A glance at their show windows and an inspection of their immense stock, will certainly convince intending purchasers, where to buy.

Nothing is so suitable for Xmas presents as furs as they are attractive, useful and durable. For ladies' wear mention might be made of such garments as fur jackets, fur lined coats, muffs, stoles, ties, collarettes and gauntlets in the different varieties. For gentlemen, furs and fur lined coats, collars, gauntlets and caps. For children, fur jackets, caps, mitts, and storm collars. Also a fine selection of robes and rugs. They give a cordial invitation to everyone to visit their establishment, 413 George street, Machine phone 91, Bell phone 96.

PETERBOROUGH CONSERVATORY OF MUSIC

The local Conservatory of Music, located in that fine building at the corner of Hunter and Rubidge streets, under the musical directorship of Mr. Rupert Gliddon, has 29 prominent members of the musical profession on its staff of teachers, who are loyal to Mr. Gliddon. The local Conservatory possesses all the distinguishing features of the older and more world known conservatories. The Peterborough Conservatory has many of the most distinguished

CONSERVATORY OF MUSIC.

and best known performers of the Dominion on its staff, many of whom are on the staff of the Toronto Conservatory.

Since its conception the Conservatory has enjoyed the patronage of most of Peterborough's older citizens. Mr. Gliddon is now recognized as one of the most accomplished musicians in Canada, and since he took hold of this Conservatory has proved himself, not only an accomplished musician out a teacher of rare merit. He is one of the best mediums of giving pupils a thorough knowledge of the principles and practice of music.

After Jan. 1st, a very eminent soloist from Vienna, Austria, Mr. L. Newman will be added to the list of local teachers.

ALBION HOTEL

In the East Ward, recently amalgamated with the city is the Albion Hotel, of which Mr. P. Hogan is the popular proprietor. The Albion is handy to those driving from the eastern townships of this county and to those having business across the Otonabee. The Albion is a fine brick structure of modern arrangement.

Mr. Hogan makes a speciality of his yard efficient hostler always on hand to look after guests' teams and horses. Boarders at the Albion are well treated and well fed, the rooms being well lighted and scrupulously clean. Mr. Hogan has been fifteen years in the same place and has a large number of friends who give him their patronage.

Mr. Hogan has nothing but the best in both bar and on his tables. Mrs. Hogan personally supervising the dining room.

Mr. Hogan, in addition to the hotel owns a blacksmith and grocery store in the east ward, adjacent to the hotel, which later he is offering for sale to any suitable customer.

Mr. Warmington the Albion wine clerk has many friends, thus helping to assure a large trade for this branch of the business.

AMERICAN HOUSE

Mr. Steve. Holland, has for some nine years carried on a successful and lucrative business in the American House, on Hunter street. This hotel has recently been acquired by Mr. David Flynn, an old Peterborough boy.

The American is one of the best $1 a day houses in the city and is centrally located. Mr. Flynn, the new proprietor, intends to place a handsome illuminated lantern in front of the hotel and will make other important improvements and additions, including repapering and repainting the whole hotel. Electric lights are to be placed in front, and a metallic ceiling will be inserted in both the dining room and the bar; the bar fittings will also be changed and improved. The yard of this hotel is large and commodious, and patronized by a large number of farmers. There is every reason to believe, owing to the past success of this place, together with the improvements contemplated that Mr. Flynn will command a large share of Peterborough's patronage.

Piles get quick relief from Dr. Shoop's Magic Ointment. Remember it's made alone for Piles—and it works with certainty and satisfaction. Itching, painful, protruding, or blind piles disappear like magic by its use. Try it and send J. D. Tully.

PETERBOROUGH FUEL AND CARTAGE CO.

Perhaps the oldest man, not in years but in the cartage business in this city is Mr. William Buller, General

WILLIAM BULLER.

Manager of the Peterborough Fuel & Cartage Co., with head offices on Charlotte street.

The Peterborough Fuel & Cartage Company is, just as its name suggests, a company that imports and sells every kind of hard and soft coal and every class of wood. This company does, under the superintendence of Mr. John White, the largest dray and cartage business in the city. Owning many carts of all kinds and huge drays that will move the furniture of a small house at one load, the company is prepared to take contracts for moving every article from a feather pillow to the heaviest safe in Canada. Mr. Buller, an expert in moving valuable household goods, in many cases personally directs the handling of such shipments to ensure safety and lack of damage.

Mr. Buller's experience in the cartage business dates from the time when, as a small boy, he leaned it under his father, the late Mr. Joseph Buller, the latter having conducted a successful cartage business dating back as far as the oldest local citizen's memory extends.

JOHNSTON'S CONSUMPTION MIXTURE

As a remedy that is calling attention to Peterborough from many parts of Canada is Johnston's Oxygenated Consumption Mixture. This is a remedy that he many bonafide original letters in the possession of Johnston & Co, of this city, certify to, as curing the worst a greatest death dealer, consumption, in its worst forms. Johnston & Co. have recently issued a neat pamphlet giving a short treatise on consumption and its treatment. It contains hints as to diet, climatic [illegible] and many genuine letters of gratitude from people who have been saved by use of this great discovery of a local man, Mr. Thos. Johnston. From a letter signed by Mr. and Mrs. T. Henry of this city, we take the following:

Sir,—Our daughter contracted a severe cold in April last. We had two of the best local physicians treat her all summer, and in September, they advised us to end her to the sanitorium. She then weighed 90 lbs. We were then convinced that we were going to lose our girl, when a friend advised us to try Dr. Johnston's Oxygenated Mixture, which we decided to do. In two weeks there was a marked change, and now our girl weighs 116 lbs—a gain of 16 lbs. in two months, with five bottles of medicine. She is now entirely cured.

Signed by Mr. and Mrs. Henry.

A. BLADE & SON

Those wanting either cut flowers, window flowers or other decorations would do well to use Telephone No. 508a, to Blade & Son of 561 Park St.

Messrs. Blade & Son, have especially for the Christmas trade arranged for, and have in stock, a splendid lot of azaleas, begonias, calla lilies,

carnations, Chinese primroses, assorted ferns, fern bowls, hyacinths, primulas, spireas, geraniums, smilax, as well as a well chosen stock of other plants and Cut Flowers.

This firm has always on hand hardy shrubs, including hydrangeas, lilago, phlox roses and other high grade flowering and decorative plants and decorations for wedding, funeral and social functions. Telephone messages attended to by day or night.

LONGO

One of the best furnished fruit stores and which receives a large patronage is that of Mr. Augustine Longo at 144 Hunter street.

Longo's shop, situated within a few doors of the post office, and consequently on a leading street of the city always displays in the window a very choice lot of fruit of every kind, according to season. Besides fruit of all kinds Mr. Longo keeps some fine lines of canned goods and groceries which he sells at moderate prices.

Being a practical man in the business, and an expert judge of fruit, Longo is able to sell the best goods at cheap prices, hence his greatly increasing trade.

For the Christmas trade Mr. Longo has ordered every kind of fruit wanted at this season including California grapes, oranges, lemons, grapefruit, bananas, all kinds of fresh California fruit in boxes, every kind of nuts and raisins. It will pay those wanting good fruit to call at Longo's and see his stock.

SODEN'S BOOKSTORE

A little over a year ago Mr. R. J. Soden, an old Peterborough boy, with a host of friends here, opened an up-to-date book store at 133 Hunter street. These premises having been acquired by the Royal Bank, Mr. Soden quickly secured that large and deep double store at 369 George street, which this enterprising business man has entirely remodelled and handsomely furnished. Mr. Soden has the most complete line of books, stationery, wall paper, toys, etc., ever shown in Peterborough. Not only is the large ground floor filled with all such goods as kept by any first-class stationer, but the upper floor are used as display and salesrooms. A visit to the second floor, made by a child, would result in the scene being perpetually depicted on the child' memory as a glimpse of Fairy Land. Never before was so large and varied a stock of everything connected in a child's mind with Santa Claus hamper of Xmas goods. Toys. Toys. Toys of all kinds, mechanical, and other load the tables.

On the ground floor are goods for Christmas presents that would take column of space to enumerate. High class bibles, prayer and other books, handsome high grade china (of which Mr. Soden has the exclusive agency), everything in fact wanted for Christmas or any time of the year.

Mr. Soden is fortunate in his staff of clerks, who are both prompt and courteous. Orders by telephone No. 588, receive prompt attention.

T. H. CROWLEY

To the knowledge and energy of Peterborough's expert miner and prospector, Mr. T. H. Crowley is due the fact that this city will soon be a shipper and possibly a smelter of silver ores.

At the time of the panic at Sault Ste. Marie, Mr. Crowley, with his son Cecil, went to the Rainy River District, for the Rat Portage Lumber Co., north of Fort Francis, as woodranger. Mr. Crowley then kept his eyes on what lay beneath as well as above the ground, and found the country rich in minerals. After leaving the lumber company's service he went back and located an iron lode with three million tons in sight of 60 per cent. Bessemer grade, also at Pipestone Lake a monster lode of copper pyrites worth $10 a ton. The Government gave him as first discoverer, two grants of 40 acres each. Mr. Crowley has over 1600 acres of valuable mineral lands as well.

Afterwards he went to Grand Rapids, Mich., and interested Ameri-

T. H. CROWLEY.

can capitalists. He succeeded in obtaining sufficient money to place him above want for the rest of his days. Although being financially independent Mr. Crowley's indefatigable energies do not permit him to retire. He has since discovered several valuable mines in Hastings county. Last but not least on Sept. 4th last, he discovered one of the largest bodies of graphite in the world, which is 96 per cent. graphite, in Haliburton county. Later on, he noted to a Times representative that he has made a discovery right in Peterborough county of rich silver ore, which will make the people of this section as elsewhere, proud of this Peterborough man.

Mr. Crowley has recently purchased that valuable property, in the city known as Lundy's Lane.

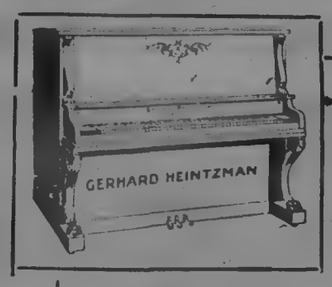
THE PETERBOROUGH HOUSE,
Jas. Head, Proprietor

WINDSOR HOTEL

Some months ago Mr. Arthur Johnston, who for many years operated the Melbourne House, Toronto, purchased the well established and popular Windsor Hotel, on Brock st. near our main thoroughfare.

The Windsor, as noted has for many years been a most popular hotel, both owing to its accessibility, respectability, and its management. This hotel is fortunate, in having large yard room, it being a common occurrence to see from 25 to 30 rigs in that yard on a market day.

Since taking possession Mr. Johnston has made many improvements and insists on the place being scrupulously clean and only supplied in the most first with the best money can buy. Taken in the fewest words the Windsor is a clean, comfortable, home-like hotel, where patrons receive good treatment and always have a good word for the proprietor.



Gerhard Heintzman PIANO

That beautiful mellow-resonant tone so like the cultured human voice is frequently referred to by piano experts as the **Gerhard Heintzman Tone.**

A sensitively responsive touch, substantial construction and durability are also characteristic of the celebrated Gerhard Heintzman Piano.

Other Instruments taken in exchange and easy payment plan for those desiring it. Address the Manufacturers direct.

Gerhard Heintzman

97 Younge-St., Toronto. Limited.

Local Salaried Representative — Machine Phone 22.

M. PAPPAS

One of Peterborough's youngest but still most progressive business men is Mr. M. Pappas, who operates three of the most modernly fitted up establishments in Ontario.

About two years ago, Mr. Pappas at 349 George street, spent some $10,000 in fitting up a tile floored and up-to-date, shoe shine parlor, with nine leather upholstered chairs for customers to sit in as the assistants shined their shoes. Shortly afterwards Mr. Pappas purchased the old established cigar stand operated for many years by Mr. James Dolan, who still manages the cigar store for the new proprietor. Mr. Pappas also secured the [illegible] rooms at the rear of these two shops and put nine new and first-class billiard and pool tables. The cigar store at 337 George street has been completely refitted, silent salesmen introduced, and the walls throughout covered by French plate glass mirrors.

Later on, Mr. Pappas, secured the splendid stand formerly occupied by the Palace Hotel at 344 George street. The top floors were rented to Mr. Darcy as a restaurant. On the ground floor is a magnificently furnished, tile-floored, plate glass mirror walled cigar store, with silent salesmen. To the rear are five absolutely new pool tables of the best kind made in Canada.

Mr. Pappas makes a speciality of selling the highest grade goods cheap as having money and means for buying at lowest cost, he can do this. He is offering in imported cigars, for Christmas presents, Henry Clay, Hock, Olympia and also S. Davis & Sons "Own" clear Havana cigars in boxes of 50 at $5 per box and in 25's at same rate. All domestic 10c. cigars, including Marguerites, Maritana, Arabella, etc, 4 for 25 or 50 in a box for $3 or 25 for $1.50. All 5c. cigars on the market 6 for 25c, or $2 per box of 50 and $1 for 25.

At 344 George street is the best furnished barber shop in the city, and second to none in the Dominion as far as fixtures, etc., go.

F. CLARKE & SON

Among the many fine jewellery stores in Peterborough is included that of Messrs. F. Clarke & Son, only opened a few weeks ago, but still obtaining a large share of local patronage. Messrs. Clarke's splendidly

furnished and richly stocked establishment is situated at the corner of George and Brock streets.

The senior partner, Mr. Frank R. Clarke, is one of Peterborough's "old boys," having carried on a jewellery business here about 20 years ago, on Simcoe street. He afterwards went to Warkworth, where he did a very successful trade in the same line, as well as owning a branch store in Stirling. About six months ago he sold out at a good advantage, and has since become a resident of Peterborough again. Mr. Clarke at once built himself a new residence on Bolivar street, and the next step he took was to open a new jewellery store on George street. The interior has been artistically decorated and fitted with up-to-date jewellery accessories, including handsome plate glass silent salesmen, wall cabinets and fixtures. Mr. Clarke's new stock has been selected with personal regards to the demands of this community. It includes the most elaborate goods in fine gold watches, diamonds, rare gems, presentation gifts, clocks, jewellery and fancy goods, marked at very moderate prices.

Mr. Clarke and his son are both practical watch experts, and frequently receive watches from Warkworth and Stirling for repairs. Mr. Clarke makes a speciality of remaking gold rings and new jewellery out of old style goods.

ALDERMAN HICKS CANED MAYOR BEST LAST NIGHT

Address and Gold-Headed Stick Presented to His Worship By City Fathers, Officials and the Press

At the conclusion of the council meeting last night, the aldermen, city officials and members of the press, banquetted Mayor Best in McCallum's restaurant, where an enjoyable hour of two were spent.

THE ADDRESS.

After the inevitable supper had been disposed of, Ald. Mason, the city's finance minister, read the following address:

To His Worship, Henry Best, esq., Mayor of the City of Peterborough.

Dear Sir,—We, the members of the Council of the City of Peterborough, city officials and representatives of the press, having learned that it is your intention to retire from the council at the end of this year, desire you to accept a small token of the the esteem in which you are held by us, which we hop will also serve to hold us in your remembrance. In common with the citizens generally, we have appreciated and admired your straightforward integrity, your earnest desire to serve the best interests of the city, and your open and frank manner in dealing with all questions. During the fifteen years since you first entered the council you have seen the population of the city increase over fifty per cent., and you have taken no small part in advancing the measures and in doing the work which has aided in this advancement. We remember that you have held the most important positions in the council, including that of chairman of the Board of Works for several years and mayor for two years, and that many important public works have been constructed through your initiative and under your immediate direction, including the first sewers constructed in the city, and the taking over of the waterworks by the municipality. In your retirement the council will lose the services of an experienced, capable, zealous and disinterested member, and we know that the work you have done will not be forgotten. We hope you will enjoy for many years the repose to which you are so justly entitled and that you will not lay aside all interest in public affairs, but that your counsel will be available for those who will administer the affairs of the city.

THE PRESENTATION.

The address was followed by a presentation to his Worship of a handsome gold-headed cane, valued at $20, as a slight token of the esteem in which Mayor Best is held by those with whom he has come in the most active association during his two years term as Mayor of this thriving city.

The presentation was made by Ald. Hicks, candidate for his Worship's shoes, who prefaced the gift with a few appropriate remarks as to the zealous and capable manner in which Mayor Best had administered the city's affairs, and also alluded in complimentary terms to his long years of faithful and disinterested service in councillor and alderman.

Mayor Best was completely taken by surprise. It is customary to throw a few bouquets at a retiring mayor in the council chamber at the city fathers' last meeting of the year, but to be inveigled into a restaurant, and there banquetted and caned, was a card in the game he had not dreamed of in any way. He was more pleased, he said, with that address of esteem and accompanying stick, than had he been given a hundred dollars. His words of thanks were well chosen and reflective of his extreme pleasure. In a review of some important work he regretted to leave unfinished, he freely offered to his successor at all times any advice in his power to give. He spoke in utmost confidence of the city's continued prosperity, and looked for the location here shortly of other big industries, should the city's present policy be pursued.

Mayor Best's colleagues vied with each other in eulogising their retiring chief as one of Peterborough's best mayors.

LOCAL INCIDENTS

By The Times Man on the Street

—The Board of Trade holds an important meeting tonight.

—Last night the City Council met in committee of the whole.

—Mrs. Macgregor has kindly consented to sing "I know that My Redeemer Liveth," at St. Andrew's church, next Sunday evening.

—The regular meeting of the Woman's Auxiliary of the Charlotte street Methodist church will be held this afternoon at three o'clock, in the Guild room.

—A Charlotte street car and the G.T.R. gates on that thoroughfare came into collision. The car, won out although its head light has gone into mourning. The gate may be sent to a match factory for stock.

—Robt Clinkscale has been awarded the tenders for a gun shed for the 57th Field Battery. This work will begin at once in the east ward near the 3rd P.W. Dragoons headquarters.

If "taken at the Sneeze Stage" Preventics—a toothsome candy Tablet—will surely and quickly check an approaching cold or Lagrippe. When you first catch cold—or feel it coming on—take Dr. Shoop's Preventics, and the prompt effect will certainly surprise and please you. Preventics, surely supply the proverbial "ounce of prevention." Sold in 5-cent and 25-cent. boxes by J. D. Tully.

The City Council in Committee of the Whole

Legislation Will Be Asked to Make Water Commissioners a Corporate Body.

The City Council met in Committee of the Whole last night, when there were present his Worship Mayor Henry Best, and Aldermen Ball, McIntyre, Tovey, Hicks, Johnston, Wilson, Duncan, Elliott, Mason and Graham.

The city solicitor asked permission to publish an advertisement outlining the private legislation which the city will apply for at the next session of the local legislature. This was acquiesced in.

Mr. T. F. Matthews and W. H. Moore, water commissioners, appeared before the committee in the interest of charging a tax on all property abutting on the water mains.

Mr. W. H. Moore pointed out that the commissioners in assuming control of the water works decided to charge consumers 10 per cent, on money invested, i.e., 4 per cent on capital account, 3 per cent. for sinking fund and 3 per cent. for maintenance. But the water commissioners are anxious to keep the rate of the householder on a very moderate basis, and at the same time extend the mains for general purposes. In order to do this the commissioners should be empowered to tax all property abutting on the mains. In many cases the mains are laid past vacant property to accommodate water consumers, and in such cases the owners of such vacant property pay not a cent for the consequent increased value of their property. Were all property abutting on the water mains taxed on an equitable basis the general water consumer would be assured a continued moderate charge for their water. Mr. Moore concluded by urging that the legislation be asked to empower the water commissioners to tax all property abutting on the mains, which privilege is in force in the city of Windsor, to the satisfaction of all concerned.

Ald. Tovey suggested that the city seek legislative authority to hold the municipal elections on January first of every year.

This was thought to be a good suggestion.

Ald. Johnston moved, seconded by Ald. Ball,—that legislative authority be sought to carry out agreement with Coates Co., Limited, the right to purchase land for manufactories, to exempt from taxation for ten years, to confirm the by-laws, and the Canadian General Electric Company's bylaw, the right to acquire, develop and dispose of electric power; rights to construct permanent crossings and issue debentures, right of water commissioners to levy and collect a rate on all property bordering on their mains, and to make the commissioners a corporate body, to confirm the debenture bylaws, to confirm bylaws submitted to the people on election day, January 7th, to acquire authority to hold the municipal elections on New Year's day each year.—Carried.

SLEIGH FOR INSPECTOR

Ald. Hicks moved, seconded by Ald. Tovey,—That the street inspector be authorized to purchase a sleigh for distributing sand over the streets this slippery weather.—Carried.

EXTENSION OF TIME.

Ald. Elliott moved, seconded by Ald. Graham,—That the time for the tax collector to return his rolls is extended to February 1st.—Carried.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address: F. J. CHENEY & CO., Toledo, Ohio.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

Mr. L. White Passed Away Last Night

Mr. Zach White, proprietor of the steamer Beaver, a gentleman well known to the citizens of Lakefield and the general travelling public, passed away last night at the Munro House. This popular steamboat man had been in poor health, suffering from tuberculosis for some time. A hemmorhage occurred however last Friday, and Mr. White passed away last night as noted.

The deceased was 23 years of age and was universally beloved by all who knew him. He has been a resident of, or associated with Lakefield for the past nine or ten years. Mr White was unmarried. He is the eldest son of the late Mr. Z. White of Lakefield. It will be remembered that the Str. Beaver was burned at the Lakefield dock some time ago.

The funeral of the late Mr. White will leave the family residence at Lakefield at two p.m. Wednesday for interment.

Former Old Resident of Otonabee Dead

We chronicle with regret the death on Sunday evening of Mrs. Joseph La Rush of the east ward, a life long resident of the county. The deceased died from heart trouble.

Mrs. LaRush, who was 66 years of age, was married to her bereaved husband in 1862, and until when they moved to the city to live, resided ever since in Otonabee.

Besides her husband three daughters and two sons are left to mourn her loss. The daughters are Mrs. B. Thorp of Buffalo; Mrs. Davey, of Smith; and Miss Charlotte, at home. The sons are Mr. Jos. La Rush, Apsley, and Mr. Fred LaRush, of this city.

The funeral will be held this afternoon at one o'clock from the family residence, 114 Robinson street, and proceed to the Keene cemetery for interment.

Dropped Dead at C. P. R. Station

Yesterday evening about 7.30 Dr. Gray, county coroner, received a telephone message that he was wanted at once at the C.P.R station. The doctor at once hastened to the station and there found his services were too late, his prospective patient had died.

It seems that Cyril Mills, a son of Mr. Wm. Mills a wealthy farmer of Flinton, Ont., had been working for some weeks working for Mr. Henry Vannes at Dorset. Mr. Mills, the deceased was on his way home per G.T.R., yesterday at noon, and he and several friends walked to the C.P.R depot, to take the train home.

Suddenly the deceased who was 24 years old, became ill, rapidly sinking into unconsciousness, and soon dropping dead. No inquest was considered necessary by Dr. Gray.

Great Ceremony in the Cathedral

On Sunday next at 10.30 a.m., in St. Peter's cathedral, Rev. Michael O'Leary will be elevated from the diaconate to the priesthood by his Lordship, Bishop O'Connor, assisted by the clergy of the cathedral. Rev. Father O'Leary is a Douro boy and has just completed his series of studies at the Grand Seminary in Montreal. He will arrive in the city on Friday.

THE MONARCH TYPEWRITER

The Monarch Typewriter Company's factory, which is situated at Syracuse, N. Y., was built in the year 1902, but an aggressive selling campaign was not instituted until January, 1906.

The Directors of the Company are S. W. Crandall, President; George W. Dickerman, Vice-President, and Jacob Feibel, Treasurer. All of these gentlemen have had many years experience in the typewriter business, Mr. Crandall having represented the Remington Typewriter Company in Chicago for twenty years, Mr. Dickerman having been formerly President of the United Typewriter & Supplies Company, and Mr. Feibel, the designer and inventor of the machine, has been for many years a well known Patent Attorney in New York City. So the work of setting about to build a modern typewriter started in under the most favorable auspices, as the men who were in charge of this work of building the machine were not enthusiastic inventors, but practical typewriter men and in manufacturing a machine, could bring to bear upon its manufacture the experience they had gained by their many years in the business. As a consequence, the Monarch Visible Typewriter of today contains all the well tested features of the successful machines of the past, together with the new features and principles their experience has proved necessary to the typewriter of the present and of the future.

A modern factory was planned and laid out, particular attention being paid to the fact that it should be as light and airy as possible. The plan being that the manufacture of the Monarch should commence on the first floor of the factory and go on through successive stages until the finished product was passed and ready for shipment on the fifth floor.

The three great essentials of a typewriter are a good type bar, a good firm carriage and a good escapement, and in the Monarch these three great essentials are characteristic of the high development of the Monarch Typewriter throughout. The steel employed in the manufacture of the machines is of the very best quality, subjected to a very severe test before being built into the machine itself.

Referring again to the first great essential of a typewriter, the type bar; in the Monarch the type bar is made of drop forged steel. It is first of all stamped out roughly in the stamping room from a strip of steel. It then goes into the drop forging room where, after being heated white hot in a furnace, it is placed in a steel die and is pressed into the form of the perfect Monarch type bar by a ten ton blow of a hammer that hits each one as it lies in the die. Of course, when the type bar is taken out of the die there is a lot of superfluous metal pressed out all around it. This upon cooling is trimmed and the type bar is sent back to the drop forge where it is trimmed again and is given a cold forging in order to insure the final temper. It is then passed on to the polishing room to have the rough edges polished off. It is then sent to the milling and drilling department and milled for exact thickness throughout, and holes drilled for the different attachments. It then passes on to the nickel plating room, where finally, having been washed and rinsed and electrically cleansed, coppered and nickeled by a longer and more painstaking process than is generally employed, it is finally sent to the inspector of all finished parts, who after careful inspection passes it to the finished parts room. Previous to reaching the final inspector it has passed through the hands of an inspector after each process from the time it started to be stamped out of the piece of steel. The above description of the manufacture of a type bar is a good illustration of the thoroughness and care with which all the parts of the Monarch are made.

Now for the finished machine itself. It is a visible typewriter in the true sense of the word, inasmuch as there is no rods or bars to obstruct the vision. It has a delightful, easy touch, and quick response, the type bar having a snappy whip-like action which enables the operator to do work speedily and accurately and with the least possible effort. The firm rigid carriage, coupled with the broad pivotal, frictionless type bar makes the alignment of the machine perfect. One of the chief points of excellence about the machine is this rigid carriage, meaning by a rigid carriage, a rigidly running carriage—one that does not shift up and down or backward or forward. A typewriter may have a perfect type bar but a wobbly carriage will spoil the work of the best type bar construction ever invented. The Monarch carriage moves on suspended rolls that glide in a hardened raceway, and as the roll bearing is an improvement on the ball bearing and eliminates friction and as the carriage has but one movement, from the right to the left when released by a touch of the key, it moves one space and is held rigid ready for the firm blow of the type bar.

The Monach ribbon movement is a sort of mind-your-own-business mechanism, which makes it possible for the operator to give his attention solely to the writing. By means of this ribbon mechanism, the ribbon moves lengthwise and crosswise automatically, turning when it comes to the end and then repeats the operation indefinitely. This serpentine lengthwise and crosswise movement of the ribbon uses the entire face of the ribbon, which is a great ribbon economy and the automatic ribbon reverse contributes to more rapid and better work on the part of the operator.

The Monarch is equipped with a convertible escapement which enables the machine to be adapted for a rapid or slow operator as the case may be.

During the short time the Monarch has been on the market, it has met with well merited success, not only on account of its visibility, but on account of its durable qualities. This success is testified by the fact that nearly all the leading railways and mercantile houses in the United States and Europe are users of the Monarch. The Company is represented by its own branch offices and dealers throughout the world and the report received the other day from their representative in Australia advising them of the purchase of thirty Monarchs, the largest wholesale or retail order ever given for typewriters in Australia, by a large mercantile house would seem to indicate that the Monarch is appreciated in the Southern Hemisphere. The dealers for the Monarch in Mexico report a continually increasing business month by month and they are now by reason of considerable sales, the leading typewriter house in the Republic of Mexico. On the Continent, the dealer at Venice reports excellent progress and states that he is selling more than any other typewriter company in the district, and the reports received from the various other European dealers are extremely gratifying.

The Monarch Typewriter Company, Limited, was incorporated in March, 1906, for the purpose of selling the machine in Canada with E. R. Heyland as Managing Director. The home office for the Dominion is situated in the Canadian Northern Building, Toronto, Ont. Branch offices and dealerships have been established in all centres from the Atlantic to the Pacific with a large corps of energetic and enthusiastic salesmen. It is safe to say no other typewriter ever brought into Canada has had such a splendid welcome. The largest banks, insurance companies, railroads, mercantile and manufacturing houses are patrons. The latest advice from Vancouver, B. C., report a large order from the school board of that city, which would indicate that the people of the Pacific Province are quick to recognize merit.

Yule-Tide Kermess Is Now Opened

Yesterday the long advertised and eagerly looked for Yule-tide Kermess opened in the city market building. The market hall has been transferred, its usual barn-like appearance into a veritable fairyland. The walls are bidden by flags and hunting and a score of gayly decorated booths with articles for sale, make a scene that for bright colors and attractive appearance has rarely been surpassed in this city.

Christmas is everywhere suggested throughout the hall. Most of the articles displayed are suitable for Christmas gifts and no doubt will be greatly in demand. Everything that a well stocked departmental store could supply is to be found here, and you have the advantage of doing your shopping all on one floor, and amid attractive surroundings. As a result the hall was crowded yesterday afternoon and no doubt will continue to be so until the end of the Kermess on Friday night.

The "fish pond" is in charge of Mrs. W. O'Brien and Miss Annie Simons. The smoking department is well looked after by Miss O'Connell, Mrs. E. Conroy and Miss May Kelly. Mrs. Le Gond, Mrs. Guerard and Mrs. Galvin are temporary clerks waiting on the Corner Grocery store. The other attractive booths are in charge respectively as follows:

Clothing table—Mrs. Peter Simons, jr., Mrs. McCarthy, Mrs. Tom Lane and Mrs. Atchison.

Doll Table—Mrs. H. LeBron, Mrs. F. A. Shannon and Mrs. Hackett.

Prize Table—Mrs. Trombly and Mrs. Tanguey.

Fancy Work Table—Mrs. M. L. Kendry, Mrs. B. Morrow, and Mrs. Kelly.

Confectionery table—Mrs. J. C. Sullivan, Miss Sullivan and Miss Conroy.

Home-cooking Table—Miss Overend.

Collar table—Misses Maud Cahill and L. Coleman.

Handkerchief table—Misses Nellie Simons and Eva Tanguey.

Lottery table—Mrs. D. Donohue, Mrs. M. Moloney, and Mrs. O'Brien.

Cushion table—Mrs. (Dr.) McNulty, Mrs. T. Lepointe and Mrs. G. Hall.

Religious table—Mrs. Lehan and Mrs. Law.

Catarrh of the nose and throat should lead you to at least ask us for a free trial box of Dr. Shoop's Catarrh Cure. Nothing so entirely proves merit as a real, actual test—and Dr. Shoop, to prove this, especially desires that we let you make that test. This creamy, Snow White healing balm, soothes the throat and nostrils, and quickly purifies a foul or feverish breath. Call and investigate. J. D. Tully.

INS AND OUTS

A well known Peterborough tailor says that "narrow trousers for men will be the style in 1907." This great family journal rises to remark that if they are fashionable they will, of course, be widely worn.

• • • • •

Montreal has a chimney sweep who is an opera singer. And this g. f. j. has heard opera singers who ought to be chimney sweeps.

• • • • •

Our little contemporary, the Review, says that "the Duke of Connaught will not visit Canada, as expected." In other words, he Connaught come.

• • • • •

Senator Cox advises young men to buy real estate. But it looks as if about all the real estate worth having had already been purchased.

• • • • •

Count Boni is considering an offer of a theatrical engagement in Canada and the States. He is taking long chances even if eggs are 30 cents a dozen.

• • • • •

The most painful part of a surgical operation is giving up the money to the doctor.

• • • • •

Mr. Fielding admits that Canada may have to borrow money. But why do it in England? Appeal to Canadian financiers. If they refuse, appeal to the Peterborough coal barons.

• • • • •

It has been found that Toronto water is very impure (Loud cheers from Toronto). Everybody will now have a good word to say for Toronto.

• • • • •

One man figures that the world's supply of coal will only last 600 years. The Peterborough coal barons will be inclined to put the price up right away.

• • • • •

One man thought he felt a slight shock of earthquake last night, but it was probably Billy Burton sitting down suddenly on the icy pavement.

• • • • •

Santa Claus is a fine old fellow, but he needs more practice getting down the chimneys where the poor people live.

• • • • •

A contemporary plaintively remarked the other day: "Whatever we want to buy is always up, and what we want to sell is always down." The financial editor of this g. f. j. rises to suggest that our friend invest in an elevator, which will go up or down, as he prefers it.

• • • • •

Why should Port Hope yell at having to pay $6.50 a ton for coal, while Peterborough pays $7.50 in silence?

• • • • •

An excellent Christmas motto is: "Blessed is he that expecteth little, for that is all he'll get."

• • • • •

Never judge a girl's beauty by her photograph.

• • • • •

As merry Christmas comes in sight
Men strive to wear their cheeriest looks,
We hail the day with hearts so light,
And even lighter pocketbooks.

• • • • •

Our little Hunter street contemporary says that Canada can raise no crops in winter. Is the public going to stand and allow a slur upon such a national institution as our ice crop?

• • • • •

Mayor Best says he is out of municipal politics. It is too early even yet to guarantee that His Worship is giving the public the genuine article.

• • • • •

President Roosevelt forgot to mention anything about Count Boni in his message to Congress. That shows how forgetful even great men are.

• • • • •

A local contemporary in a moment of pious reflection, advises young men to pick their friends. It probably meant skin them.

• • • • •

If you keep your ear close to the ground, you may hear a noise like a ton of coal. It is Alderman Hicks preparing his address to the mayoralty electors.

New Official For George St. Church

Mr. George Robertson has been appointed financial secretary for George street Methodist church, to succeed Mr. J. Jeffries, who is moving to Toronto. The appointment will be ratified at the next meeting of the trustees and quarterly boards Wednesday night.

Rev. A. Bright Asked to Accept.

A petition is now in circulation and is receiving a large number of signatures, asking Rev. Alfred Bright to accept the pastorate of Knox church. The petition is being circulated by many young men of this city.

WHAT TO GIVE FOR CHRISTMAS

Is a question that is uppermost in the minds of Everyone just now.

Why not Give a Telephone

It may be used by the whole family and will give them pleasure throughout the year.

It will be a benefit to your relatives, friends and acquaintances who desire to "call" you.

Special arrangements have been made for these Christmas Gift Telephones.

If you would have one installed as your Christmas Gift Call or Write Contract Department.

Dangerous Job on Market Building.

Speaking of Alpine climbers, yesterday a young man engaged in shovelling the snow off the market building to George street, seemed to be in some danger. Every now and then he would slip towards the edge of the roof, seemingly in danger of a plunge to the pavement. Had it not been for a stout rope round his waist he would certainly have made an flight to death with no protecting parachute.

SOCIAL AND PERSONAL

—Miss Phyllis Robertson, of Norwood, was in the city yesterday, looking up Santa Claus.

—Mr. W. J. Dingman, inspector of the inland revenue, with headquarters in Kingston, is in the city on official business.

—Mr. Joseph Hall a brother of Mr. Dave Hall, the Charlotte street tonsorial artist, of Owen Sound, is in the city on a visit.

—Mr Bolton S. Armstrong, of Cincinnati Ohio, is in town, the guest of his mother, who is seriously ill at her home on Water street.

—Mr William Hall, of Toronto, who has for ten years been coming to Peterborough in the interests of Messrs T. E. Braime & Co., ink manufacturers is registered at the Snowden House. After Jan. 1st, Mr. Hall will be in business for himself, manufacturing inks of high grade.

The New Term

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS.

Servant Wanted.

A good general servant wanted. Apply at 201 Hunter street. References required.

Times Serial Omitted Today.

Our serial story entitled "Darrel of the Blessed Isles," is today unfortunately crowded out by more important matter, as our readers can easily see at a glance.

George Street Church Notes.

The Epworth League of George street church met last night when Mrs. McCann leading the meeting.

The regular prayer service will be held on Wednesday evening. A pound social will be held after the prayer service, when donations for the poor will be received.

A joint meeting of the trustee and quarterly boards will be held on Wednesday evening at the close of the prayer service.

Mark Street Church Notes.

Last night in the Mark street church the Epworth league held a meeting, with special music.

The usual weekly prayer meeting will be held tomorrow evening.

A cottage prayer meeting will be held at the residence of Mr. Wright, Sophia street, on Friday evening.

The special services which are being conducted at Simm church, will be continued all this week. Deep interest is being taken in these meetings.

Mrs. Fairbairn Seriously Ill.

The many friends of Mrs. F. M. Fairbairn of Park street, sister of ex-Mayor G. M. Rogers, will deeply regret to learn of that lady's very serious illness in Chicago, where she has gone to visit her daughter. In response to a telegram advising of her condition, her son, Mr. Jack Fairbairn, of Toronto, left for Chicago on Sunday evening, and last night, at his request, Dr. Jessie Birtne, her regular physician here, also started for that city to advise on the case.

Xmas Presents Suggestions.

BOOKS—We can supply books for the whole family from grandma to the baby. Padded Poets and Gift Books.

DOLLS AND TOYS—Dolls and toys, horses and carts, trains, dishes, toy swords, games, beds, cradles, animals, mechanical toys, dressed dolls and kid body dolls, arks, blocks and toys too numerous to mention.

All at prices lower than any place else in town. Come and see us before buying and save money.

TIMES BOOKSTORE.

T. KINNEAR & CO., WHOLESALE GROCERS.

T. KINNEAR & CO.

That the citizens of Peterborough have every faith in the future of our city is too well known to require comment; but, that the leading financiers and merchants, both wholesale and retail, of other towns and cities regard Peterborough as a prosperous and certain-to-succeed city is daily becoming more evident. As a proof of the latter it might be mentioned that Messrs. T. Kinnear & Co., of Toronto, one of the leading Wholesale Grocery Houses, have not only located a branch establishment here, but have erected a handsome building on George street, near the C. P. R. depot. The firm of T. Kinnear & Co. is well known all over the Dominion, this company having for a quarter of a century supplied the retail trade, not only in Ontario, but in other parts of the Dominion with high-grade goods at the closest prices.

The firm of T. Kinnear & Co. dates its history back for nearly ¾ years, and was first launched on the sea of commerce by Mr. Titus Kinnear, one of the brightest and most up-to-date wholesale men in Canada. This firm started first of all in the retail jobbing trade on the East Market Square, and in about seven or eight years they built up one of the largest retail jobbing trades in Toronto.

Mr. Kinnear, himself, has been in the grocery business since the age of sixteen, and his present large establishment in Toronto is within five minutes' walk of where he served his time and acquired his intimate acquaintance with even the smallest details of the grocery business.

In the year 1898 he sold out his interest in the jobbing trade and entered the wholesale business exclusively under the trade name of T. Kinnear & Co. His success in this branch of the business has been phenomenal. There is perhaps no man in the wholesale grocery business in Canada that has a keener scent for bargains, or that is better posted in the quality of goods, than Mr. Kinnear. He learned the grocery business in the cradle, the best houses in Canada, and is thus thoroughly posted in every detail, being thus enabled to not only satisfactorily carry on the wholesale business, but to comprehend the requirements of the retailer and supply his wants.

Mr. Kinnear has always taken a great interest in, and shown great aptitude for teas, and is undoubtedly one of the best judges of teas in this market and knows a bargain in this commodity when such is presented.

This firm buys solely for spot cash, so that when a bargain is offered, whether by the growers in China, India, Ceylon, or Europe, or the home markets, Mr. Kinnear is right on the spot and very often secures the same, thus enabling the retail grocery trade to get the advantage of his knowledge, cash and experience.

The firm of T. Kinnear & Co. stands very high in financial circles, being rated one of the best in the Dominion.

As before noted, Mr. Kinnear having great faith in Peterborough's future and assured growth, has recently purchased a property on our main thoroughfare, and erected thereon a warehouse as shown in the photograph above.

The local warehouse of this firm is not only a handsome structure, but is planned to fill the requirements of its purpose, viz., the easy storage, handling and shipping of every line in the grocery trade.

As one enters the front door from George street, to the right is the private office of the local manager. To the left is the sample room, where samples of all goods that can be conveniently displayed are shown, so that buyers can at once see what they want. In this room are well-covered draw shelves fitted into small space, used for the testing of teas, this, as noted, being a special hobby of Mr. Kinnear's, so that retailers may have thorough confidence in buying teas, knowing that teas bought here will be the best value in the market.

Before proceeding to further describe the local warehouse, it might be noted that this firm, finding their business was increasing so rapidly, decided it was necessary to relieve the pressure on the headquarters, and to build an up-to-date house in this city. The fact of their going to such expense in Peterborough will doubtless be understood and recognized by the local trade.

To revert to the local establishment, it might be noted that the building is a massive stone and brick structure of handsome appearance, which is 75 ft. x 90 ft. in size, and four stories high. The building has a modern elevator of some 5,000 pounds capacity, running from cellar to roof. In the cement-floored cellar are stored canned goods, syrups, fish of all kinds, molasses, figs, resins, lard, and similar heavy goods.

On the first floor, as before noted, is the manager's office and sample room. Passing through swinging glass doors one enters the shipping room, where is also an office for the shipping clerk. To the north there are two sliding doors, which allow goods to be loaded on or unloaded from the company's or other carts and waggons.

The upper floors are used for storing groceries, wooden-ware, and the thousand and one (and more) articles required for the grocery business. The building is lighted throughout by electricity, heated by a large furnace, and contains a commodious burglar-proof vault. Neither trouble nor expense has been spared to make this building suitable for the requirements of the trade. The elevator is operated by an electric motor.

Not only does this progressive and successful firm own their own building in Peterborough, but they also own their Toronto house at 49 Front street east.

The firm of T. Kinnear & Co. attribute their great success to fair trading and liberal treatment of their customers, this firm being in a position to give liberal terms to those wanting such.

This firm, being strong financially, imports its goods direct from the original source of production, and are thus in a position to sell as cheap, if not cheaper than other competitors. Mr. Victor Davey, the local manager, is well and favorably known to the trade in Peterborough and throughout Ontario, and will be glad at all times to have members of the trade, and others interested, call and inspect both the building and stock. Not only does Mr. Davey, the local manager, reside here, but Mr. Misener, the managing salesman, intends to locate in this city, also all the other employees in connection with the local warehouse.

Messrs. Kinnear & Co have located this branch here specially for the accommodation of their customers and for the trade generally in Peterborough and Peterborough territory, and hope that all the local trade will have advantage of this, as they intend to keep a first-class stock of groceries, and the prices will be as low as the goods can be bought for in Montreal, Toronto, or any other wholesale centre, and the trade in many cases will save the freight.

PREPAYMENT METER CO.

One of this City's newest and rapidly growing industries is the Prepayment Meter Co., 214 Hunter street.

The Prepayment Electrical Watt-Meter manufactured by this Company, is the only meter of its kind on the market.

This meter measures the electric energy consumed with perfect precision. It passed through the severe critical tests given by the Government in the Electrical Standards Laboratory at Ottawa, with a record unequalled by any other watt-meter.

It is impossible to tamper with the local without breaking the seals. By simply dropping a five cent piece into the slot this meter automatically allows a value of the current to pass. Messrs. W. H. Collier and A. B. Cunningham have invented and are taking out patents for a recording Meter that will doubtless revolutionize the markets for such goods in every respect. They are now being made in the local factory.

The Directors of this Company are: Messrs. Wm. Hamilton, J. H. Larmonth, A. A. Hollingshead, J. H. McClellan and Parker.

Mr. W. H. Collier is Manager, and Mr. A. B. Cunningham, Mechanical Superintendent.

W. H. COLLIER, B.A., M.E.E.

SICK BOOT HOSPITAL

Mr. W. A. Greenslade operates the "Hospital for Sick Boots" and shoes at the corner of Aylmer and Charlotte streets, where he is prepared to neatly repair and re-sole foot wear requiring attention, with satisfaction guaranteed in every job. Mr. Greenslade will have a fine line of mens' boots and shoes for the Christmas trade. He makes a specialty of invisible patching.

MAPLE LEAF HOTEL

The Maple Leaf Hotel is a house that occupies the place where the first licensed hotel in the City of Peterborough stood, some 68 years ago, when our present East Ward was called the "Scotch Village." The original proprietor of this hotel was Mr. A. H. Downer. For over half a century this spot has been known as the "Male Leaf Hotel." Mr. Geo. Lipsett, the present proprietor, is a worthy successor of a long line of hotel predecessors, and keeps the present Maple Leaf Hotel up in due accordance to its venerable ancestry.

Mr. Lipsett, the proprietor, has one of the largest and best yards in the city, which is particularly suitable for Douro and Otonabee farmers who come to the city.

Mr. Lipsett is an enthusiastic horseman and consequently many of the leading horsemen make the Maple Leaf their headquarters.

PETERBOROUGH LUMBER COMPANY, LIMITED

The Peterborough Lumber Co., Ltd., successors to the Dickson Co., operate an immense mill at Burnham's Point, in the East Ward of this City. The Dickson Co. were one of the oldest and best known industrial firms in the city for many years, having, as are their successors, cut a large majority of the lumber, etc., used in this city.

The Peterborough Lumber Co. has acquired the new large mill, as above noted, which has a daily output of some 80,000 feet of lumber. Orders for lumber, lath, shingles, etc., will be received from contractors and others and promptly filled.

The officers of the new company are Messrs. Dickson Davidson, president, John Thompson, vice-president, and George Linton, secretary-treasurer, with offices at 169 Hunter street.

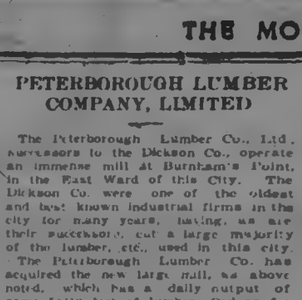
WILLIAM BLACKWELL.

Mr. William Blackwell, one of Peterborough's most accomplished architects and engineers, has his office on Water street, just across from the Bank of Ontario's former premises.

Among some of the more important buildings in this city that Mr. Blackwell has been architect of, are the Y. W.C.A. Building, the Y.M.C.A. Building, the Nicholls' Hospitals, the new Fire Hall, enlargement of the South Ward School, King Edward School, enlargement of the Collegiate Institute, Dr. Scott's residence, and many others. Outside of Peterborough, Mr. Blackwell has erected the Opera House in Lindsay, churches in Madoc and Hastings, etc. Mr. Blackwell's work is his standing monument.

WAND'S PLANING MILL

Mr. E. Wand operates the oldest established planing mill in this city, the present factory, situated just to the north of the Hunter street bridge in the East Ward, having been in operation at the time the present Central school (the oldest here) was building,



being then run by Messrs. Craigie & Stevenson. The mill is run by electric power, and is noted for its prompt and satisfactory work.

The present proprietor and manager, Mr. E. Wand, makes a specialty of all kinds of work done in a planing mill, including sash, doors and in fact every class of finished wood work required by builders, contractors or others. In this city alone are thousands of buildings, the wooden parts of which came from Wand's factory and which have given perfect satisfaction.

JAMES GRAHAM

Mr. James Graham, of 122 Dublin street, is not only one of Peterborough's leading contractors and most respected citizens, but is also one of the City Fathers.

Mr. Graham, in his large contracting and building business, is ably assisted by his two sons, Messrs. Harold Percy, both skilled mechanics and worthy followers of their father's strict and honest way of filling their obligations. Mr. Graham has this year, in the matter of private residences alone, erected a round dozen of high class houses. Among some of the houses recently built by Mr. Graham might be noted those for Mr. J. Fox, of the East Ward; Mr. Harry Nellis fine new residence on Burnham street; Mrs. Rodman, Bolivar, rebuilding for Mr. C. H. Clementi, Walter street; W. Henry, Homewood avenue; A. B. Mirks, Stewart street, an addition for Mr. Richard Hall, Water street; Mr. Dickson Hall's addition; Mr. Curtis, Mrs. West, Stewart street; J. D. Tully, and many others. Mr. Graham's best advertisement is what those for whom he has worked say.

DUNCAN & DOUPE

One of Peterborough's oldest and most reliable firms of painters is to be found at 189 Brock street, opposite G. W. Fitzgerald's Carriage Works, where Messrs. Duncan & Doupe are prepared to take contracts and skillfully do all work in the line of painting, glazing, calsomining and paper hanging.

This firm will always cheerfully give estimates on all classes of work done by their trade, and invariably guarantee satisfaction. This firm has always had a high reputation for first class work and enjoy a large patronage.

The senior partner, Mr. Geo H. Duncan, is one of the City's Aldermen, and both he and his partner, Mr. P. B. Doupe, are skilled exponents of the painters art.

FITZGERALD'S COAL YARD

Mr. J. E. A. Fitzgerald, whose office and yards are at the corner of Brock and Aylmer streets, has one of the most modern plants of the kind in this city. Mr. Fitzgerald, in addition to his extensive coal warehouses and wood yards, has a system of sheds for sawing and splitting wood by machinery, so that orders for any length or size of wood can be delivered at short notice as required.

One specialty of Mr. Fitzgerald's business is the handling and selling of peat, a comparatively new source of heat in this district. Peat, whether in the grate, kitchen stove or furnace, ignites easily, burns freely, and gives a quick and intense heat. Peat should be burned in smaller fire boxes than coal, with less draught, and the ashes retained in, rather than forced out of, the fire boxes. A simple thrusting of a poker through the ashes gives sufficient draught to ensure a hot fire. For cooking stoves peat takes a smaller fire box, and must be renewed somewhat more frequently than hard coal, yet the results are marvellously successful.

Mr. Fitzgerald handles only the highest grades of hard and soft coal, and all kinds of wood and lumber.

THE Y. M. C. A.

The Young Men's Christian Association of Peterborough enjoys ten years' record for highly beneficial work amongst the boys, youths and young men of this thriving city. It has afforded, and is offering that moral, religious, physical and educational advantages which assure to any community the development of exemplary men, whose principles and characteristics will materially aid in eliminating from the world those vicious and contaminating influences that have unfortunately kept in the race with civilization. No city or town can afford to be without a Y. M. C. A., and Peterborough has undoubtedly reaped considerable benefit from the establishment in her midst of so commendable an institution. This should be substantially recognized by our citizens in the way of contributing all the moral and financial support necessary to an aggressive prosecution of this institution's good work, under the efficient superintendence of the General Secretary, Mr. G. H. Williamson. In our Y. M. C. A. at the corner of George and Murray streets, will be found evening educational classes, debating and literary clubs, reading room, practical talks and lectures, bible classes, gymnasium, swimming and other baths, and boys' library. Mr. Evert Bingman, the capable physical director, offers a splendid course of physical exercise for young men, business and professional men, employed boys and school boys.

The establishment of a business and professional men's gymnasium class in our Y. M. C. A. filled a long-felt want. This class meets each Monday and Thursday from five to six p.m., and its members reap so full a measure of pleasure and physical benefit from their recreation that they leave the building renewed with a goodly portion of the vigor and energy of youth.

A photo of Peterborough's Y. M. C. A. will be found on page one.

E. F. MASON & CO.

For nearly thirty years Mr. E. F. Mason, as boy and man, has been engaged in the grocery business at 429 George street, and what Mr. Mason does not know about supplying groceries of the highest grade requires little space.

Mr. Mason, from his intimate knowledge with every detail of the business, has made so great a success that, some five years ago, to meet the requirements of his rapidly growing business, he found it necessary to open a branch store at 451 George street, under the management of Mr. W. H. Dayman.

Mr. Mason has found time, notwithstanding his large business interests, to patriotically devote a good portion of his time towards advancing the city's interests as a member of the Council. Mr. Mason is at present chairman of the Finance Committee of the Council, and has, during his civic career, done much for Peterborough's interests.

It is quite evident to all observers that, from the amount of goods daily arriving, and the immense stock in the two stores mentioned, housewives by calling at either of the Mason Company stores can get everything required for the Yule time requirements.

ANDREW GRAHAM

Mr. Andrew Graham, who has been in this city for some ten or twelve years engaged in the grocery business, last September opened up a modern and well supplied grocery store at the corner of Aylmer and McDonnell streets,

where he keeps everything wanted in groceries from staples to the finest fancy goods.

Mr. Graham has a large trade from private residences and boarding houses in the vicinity of his place of business, and also a large farmers' trade, buying all farm produce direct. Thus his customers are assured of fresh eggs, good butter, etc. at close prices. Having a fine delivery waggon, Mr. Graham makes prompt delivery to customers. Both Telephones, Bell No 489, and Machin No. 472, on the premises.

CURTIS BROS.

One of Peterborough's best known industries is that of Messrs. Curtis Bros. Brick Yard. Some thirty-five years ago Mr. Mark Curtis began the manufacture of brick in Peterborough. His first season's manufacture did not exceed two hundred thousand bricks. The business has increased until the annual output now exceeds four millions. Mr. Curtis, a few years ago, was succeeded by his sons, under whose capable management the business has grown to its present immense proportions. This firm employs about 75 men in the winter, and 60 during the summer season. It requires twelve teams of horses to haul the finished article to the city. Over 2,000 cords of wood are used annually in burning the bricks.

Fully two-thirds of Peterborough's buildings, including the Quaker Oats Co.'s huge buildings, the George Street Church, Fire Hall, Canadian General Electric Works, are made of Curtis Brothers' brick. This firm have some 65 acres of land, and a fine farm of 150 acres adjoining the city.

The firm manufactures red and white brick, drain tile, and cellar flooring. The bricks made thirty-five years ago are to be seen today in many of the principal buildings in the city, and are as good as when made. Any one wanting bricks can call up Messrs. Curtis Bros. by Telephone No. 500.

ROBERT HICKS.

R. HICKS & CO.

Messrs. R. Hicks & Co., whose offices are at 216 Murray street and on Simcoe street near George street, and who succeeded the Rathbun Co., are extensive dealers in sash, doors, lath, house furnishings, cement, lumber, coal and wood of all kinds. Since the new firm has acquired this extensive and diversified business the volume of trade done by them has increased, until at the present time their output has more than quadrupled. The firm has purchased the property at Bethune and Murray streets, and are erecting a large building, where their yard alongside the G. T. R. tracks affords them every facility, enabling the firm to handle their merchandise in a most advantageous way. One large building is kept solely for storing doors, sash, blinds, etc., of all sizes and descriptions, so that contractors, builders or others can depend on having their wants promptly and satisfactorily filled and have good well seasoned goods supplied. There are over 300 feet of coal sheds, which afford ample storage for their large and fast increasing business.

Messrs. Hicks & Co. make a specialty of D. L. & W. and Scranton coal, the demand for this superior class of coal having materially assisted in building up their large business.

One feature of the various branches of Messrs. Hicks & Co.'s business is a wood sawing and splitting shed, where wood is, by electric power, cut to any size ordered by customers.

Mr. Robert Hicks, although at the head of so vast and varied a business, has given, at great inconvenience and expense to himself, a large portion of his time towards promoting the interests of the city in which he received his education at the local schools, by becoming a member of the City Council, during the past three years. During these years Mr. Hicks has been chairman of the Manufacturers' Committee, and is now chairman of the Board of Works. Mr. Hicks is now a candidate for the important and honorable position of Mayor of our growing city and will undoubtedly make a good showing when the ballots are counted. Should he be elected to the Mayoralty, it is to be reasonably inferred that he will devote to the city the same tireless energy that he so successfully gave towards building up his own large business.

ALEXANDER & MILLER

Two young men who have worked up an extensive and rapidly growing electrical business are Messrs. Alexander & Miller, of 289 Brock street. In their store, at the above location, one can procure all goods wanted for electric lighting, or leave orders for wiring, repairing, or all work requiring skilful electrical workers.

Among the many contracts completed outside this city, the jobs being too numerous to mention, are Mr. A. L. Davis' handsome Stoney Lake cottage at Stony Lake, Mr. W. T. Davis' fine house at Bobcaygeon, and extensive work for the Dominion Government at Oshawa, etc.

This firm gives prompt service and guarantees satisfaction in every job.

Coughs Ask your doctor his experience with Ayer's Cherry Pectoral in hard colds, hard coughs, bronchitis, weak throats, weak lungs. Then profit by it. If he has anything better, use that. If he says Ayer's Cherry Pectoral is all right, then use that. Get the best there is, always, for the best is none too good. Keep in mind this—"Sold for over 60 years!" We have no secrets! We publish the formulas of all our medicines! J. C. Ayer Co., Lowell, Mass.

Kansas City **Portland Cement Co.**

We invite attention of investors to the stock of the Kansas City Portland Cement Co. The preferred stock draws 7 per cent. from date. With each share preferred a share common is given as a bonus. Capitalization conservative. No promotion stock. Every share sold for cash. Officers and directors successful local business men. The plant is nearing completion. No industry in the Southwest shows greater earning capacity than Portland Cement Companies. In many cases the common stocks are selling around par. Many companies in the west have an advantage of 30c. per barrel in freight over any Cement entering this market. This alone is sufficient to pay dividends on the preferred stock. We consider both preferred and common stocks, and believe the common stock alone will be selling at par within a year. Write or call for prospectus and full information.

LITTLE LAKE CEMETERY

DAVIS-THOMPSON COMPANY, LIMITED

This well known company is located at No. 418 George street, and is carrying on an extensive insurance and general agency business. Among the various companies this firm represents in Peterborough may be mentioned: The Canadian Express Co., G N. W Telegraph Co.; Royal Insurance Co.; Western Assurance Co; Guardian Assurance Co.; Atlas Assurance Co; London and Lancashire, British America Assurance Co.; Manitoba Assurance Co.; New York Underwriters Agency; Montreal-Canada Insurance Co.; Boiler Inspection and Insurance Co.; Alliance Assurance Co; Aetna Insurance Co.; Phoenix of Brooklyn; Home Insurance Co. of New York; Imperial Guarantee and Accident Insurance Co. of Canada; Canada Accident Assurance Co.; London Mutual Fire Insurance Co., and Lloyd's Plate Glass Insurance Co.

Mr. A. L. Davis is President, and Mr. W. J. Thompson is Vice-President and Local Manager. The business was established in 1864 by Hon. Geo A. Cox, and is being successfully carried on by the present company. By the above list of substantial insurance companies it will be readily appreciated that they sell only insurance that insures.

While Davis-Thompson Company, Ltd., make a specialty of insurance on the larger mercantile and manufacturing establishments of this and other cities, yet the smallest dwelling house will receive the same careful and personal attention.

W. F. JOHNSTON

Prominent among Peterborough's younger generation of barristers is Mr. W F. Johnston, of the law firm of Messrs. Dumble & Johnston. The senior partner, Mr. Dumble, is City Police Magistrate. Mr Johnston is a rising young man, who has already established a reputation for keen judgment and a widespread acquaintance with the intricacies of the law.

CALCUTT BREWING AND MALTING COMPANY

"The beer that makes Peterborough famous" will describe the excellent ales, porter and lager brewed at the old established and ever popular Calcutt Brewery.

This brewery is one of the oldest industries of Peterborough and one that has brought to it a deservedly high reputation. The Calcutt Brewing & Malting Co.'s plant is not run on the principle of a laboratory, where all kinds of chemicals are employed to make beer and lager; here only water, drawn from a deep artesian well, with pure malt and the best hops are used to make their goods. Mr. Harry Nell, the Manager, is an old and experienced maltster and brewer, and has got the science of brewing pure ales and lager down as fine as possible.

It is worthy of note that this brewery never entered the brewers' combine, but through all efforts to get them to join the local brewery stood true to their colors and, getting the active and constant support of their large trade, won out and are today turning out goods of as high grade as the best in Canada. The specialty of their brewery is their "Christmas Brew" which this year is as good as ever and could not be better.

CENTRAL CANADA LOAN AND SAVINGS COMPANY

The Central Canada Loan & Savings Company was established in 1884 by the Hon. Geo. A. Cox, who is still the President of the Company. The paid-up capital of the Company at that time was $[illegible], and the total assets $526,000. In the 21 years in which the Company has been in business the above figures have been increased, until the paid-up capital at the present time is $1,5[illegible], a reserve fund of $1,[illegible] has been built up, and the total assets of the Company have grown until they now represent the imposing figure of $3,[illegible]. The Company has paid a dividend from the year of its inception up to 1901 of 6 per cent; during the years 1901 and 1902 a dividend of 7 per cent. was paid on the capital stock, and in 1903 and 1905 8 per cent. Mr. E. R. Wood is the Vice-President of the Company, and upon the Board of Directors are such well known names as Mr. Richard Hall, J. J Kenny, William Mackenzie, Robert Jaffray, E. P. Taylor, Chester D. Massey, Dr. Potts, and C. A. Vorlow. The Central Canada Loan & Savings Company make a specialty of deposits and debentures, offering every facility for the opening and conducting of savings accounts, and issue a special form of 4 per cent. debenture, repayable on 60 days' notice.

COUNTY CORONER

Dr. J W Gray, whose office and residence are at 361 Sherbrooke street, is Coroner not only for both East and West Peterborough, but also of the United Counties of Northumberland and Durham. Dr. Gray is most popular among his many friends in the city and makes a most efficient officer. During the several important coroner's jury cases that have been tried lately in this city Dr. Gray has shown great judgment and deep discernment. The doctor is a very busy man between his official duties and his large private practice.

B. AND H. B. KENT

Our readers' attention is directed to the announcement of Messrs. B. & H. B. Kent, in [illegible] street, the well known Toronto diamond and Merchants and Men's Outfitters, House. This firm has developed an extraordinary demand for their goods throughout Canada, especially in Ontario, where they enjoy reputation of long establishment, as also in the North-West Provinces, British Columbia and the Maritime Provinces.

Through the agency of their Mail Order System, a department organized a few years ago under progressive and up-to-date methods, their out of town patronage has been marked with wonderful and far reaching results. Their store is situated in the very heart of Ontario's metropolis, amongst the solid business section. A big electric clock, surmounted on an imposing structural pillar, is one of the Toronto Yonge street attractions and serves as a good advertisement to distinguish their premises from others in the neighborhood. Messrs B. & H. B. Kent are perhaps noted firstly for their high reputation as a Diamond House, while their assortments in Gold and Silver Watches, Sterling Silver, Clocks and Opti[illegible] Goods have no rivals outside of New York, comprising as they do the best that the leading foreign and home manufacturers provide. Their mail order business is organized as the leading one in Canada. A child is safe in ordering from the Landsdowne catalogue annually issued.

In all departments of their store striking evidences are noticed of the display of that masterful and artistic taste one might only hope to find in the big European and British centres, but the crowning feature of this firm's business is the one that will appeal to all buyers at this gift-giving season, and that is the divided privileges enjoyed. Because of the large volume of business annually transacted and their available cash buying facilities, Messrs. B & H. B Kent are enabled to offer values that all economic purchasers thoroughly appreciate.

Out-of-town gift-buyers writing for this firm's catalogue may obtain a copy free on request by sending name and address. A lot of valuable information, always helpful, is contained throughout its 96 pages of half-tone illustrations, with prices.

MURTY'S CIGAR FACTORY

One of Peterborough's oldest industries is that of Mr. Anthony Murty's cigar factory at Hunter street west. This factory consists of a [illegible] story brick building, [illegible] feet long by [illegible] feet wide, with [illegible] offices, [illegible] cigars are made, with [illegible] hands employed.

Mr. Murty's leading brand ought it the [illegible] trade, put up in [illegible] and is [illegible] known [illegible] and "Sentinel." Murty's is a union shop, where only skilled employes are engaged. The Sumatra leaf costs from $1.10 to $1.60 a pound in New York. With such goods and a duty of 60 cents per lb. on cigars and 6 cents a pound duty on the raw leaf, it is surprising the goods can be turned out, being equal to those of the same price made in the largest factories.

Mr. Murty considers the present government system of charging a small cigar factory the same annual license as those employing hundreds of hands is an unfair discrimination against the smaller factory, considering the yearly license should be graded according to number of hands employed.

PORTER'S DELICATESSEN

Some months ago Mr. M W. Porter purchased a meat market at 419 George street, and installed Mr. W Fleetwood as assistant. Recently the business had grown so that Mr. Porter was impelled to secure the store just to the north, break down the partition between and combine the two stores under the title of Porter's Delicatessen. This last word describes the compound stores appropriately, as in the north store are displayed most things good to eat. Handsome quartered-oak shelving, 16 feet long, are filled with high-grade sauces, [illegible] goods, etc. In both parts of this large store are [illegible] topped counters. The south part is devoted to the sale of every kind of meats, both salt fresh and specially prepared. To the rear of the store is a room where machines are constantly grinding out sausages, head cheese, etc. In the archway is a handsome cashier's office. One great feature of Porter's Delicatessen is the absolute cleanliness observed. Both Mr. Porter and Mr. Fleetwood enjoy the confidence of their customers and have worked up a large trade.

In addition to the above mentioned lines handled, Mr. Porter has recently inserted a full line of fresh oysters and cured fish.

J. H. GARDINER

More than over or under him Mr. J H. Gardiner, Peterborough County's leading auctioneer, been [illegible] to as "The silver tongued charmer of the public's dollars." Mr. Gardiner has one of the most extensive auctioneering connections in this part of the province, his business being at present mainly confined to outside towns. By reference to past issues of The Times it can be, by actual figures given in several sales of farms, cattle [illegible] etc., made by Mr. Gardiner, be seen that some of the prices obtained by him have been phenomenal.

CHARLES RISHO

Among Peterborough's progressive citizens, and one who has faith in the assured development of this city, and who has placed his money in a large wholesale grocery, is Mr. Charles Rishor. Mr. Rishor, who was [illegible] for the past ten years, travelling for one of Canada's largest wholesale grocery houses, and thus well posted not only in every detail of his business, but who knows the towns and cities of the Dominion, chose Peterborough as the spot to locate his new establishment.

On October 15th Mr. Rishor purchased the successfully conducted business at 56 Simcoe street from Mr. M Carlton, who, during his career as a wholesale grocer, extracted a handsome competency from it.

The new owner has made several important changes in the interior of the premises which are a decided improvement.

Since taking possession, Mr. Rishor has placed several car loads of goods in stock, which now makes it large and well assorted. Mr. Rishor especially drew our attention to a fine display of Riverdale Brand canned goods, packed by the Lakeside Canning Co. of Wellington, which certainly have the handsomest label and appearance that we have ever seen. Every tin is positively guaranteed.

Mr. Rishor and his staff of travellers will cover the Central Ontario district, over which Mr. Rishor is well known.

Mr. Rishor is a large direct importer of [illegible] experience in the [illegible] trade, as well as his intimate acquaintance with the requirements of the retailer, will make his present wholesale house a most advantageous place for the retail grocer to buy his goods.

J. H McCLELLAN,
Superintendent and Purchasing Agent Trent Canal.

THE HYDRAULIC LIFT LOCK.

MASON'S GREEN HOUSES

Mr. Frank Mason, for many years Peterborough's leading horticulturist and green-house owner, has recently made an important addition to his previously extensive series of greenhouses at the corner of Water and Wood streets. The latest green-house is a handsome structure 65 x 24 feet in size, and fitted up in the most modern style. The exterior of this building is really handsome, being made of well matched oval shaped stones cemented together to a height of some eight feet. Above the stone work is a lofty glass roof, admitting all the light that plant propagation demands. Mr. Mason has just had installed a new hot water furnace of latest type, and specially adapted to the requirements of a green-house.

Mr. Mason will have a large quantity of flowers and plants suitable for the Christmas and New Year's trade. These will be for house and window decoration. Also he will have on sale a choice assortment of cut flowers for Christmas trade, in addition to the large quantity always on hand; these flowers will include roses, carnations, violets, lilies of the valley, etc.

The green-houses now operated and owned by Mr. Mason cover an immense space, and are used for propagating and growing various kinds of plants.

In addition to the green-houses, Mr. Mason has a flower store at 108 1-2 George street, where the products of the forcing houses and flowers, bulbs, etc., from England, Germany, Holland and other European countries are sold.

HENRY'S CIGAR FACTORY

One of the most recently organized cigar factories in this city, but one which is working up a large trade both in the city and county, is that of Mr. James Henry, at 167 Hunter street. Mr. Henry is an old and experienced cigarmaker, and this being a union shop only the best of help is employed. The leading brands put up by Mr. Henry are his 10-cent Henry's Professional, equal to any 10-cent goods. His leading 5-cent brand is The Lincoln, with other 5-cent goods including Uncle Joe and Winning Run. The Professor is a 6-inch hand-made long Havana filler, and a splendid value.

The foreman of the factory is Mr. Jas. Hughson, who is an expert cigar maker.

The Sun Life Assurance Company of Canada

RESULTS OF THE INVESTIGATION

The Severe Probing But Revealed Greater Strength—$3,000,000 Better Off Than It Claimed to Be—Investments Absolutely Secure and Highly Profitable—Mr. Kent's Remarks.

Now that the chaff of trifling details has blown away, the management of the Sun Life Assurance Company of Canada desire to draw attention to the really important facts which the investigation by the Royal Commission has brought out.

LARGE PROFITS ON INVESTMENTS.

The most striking feature of the evidence was its [illegible] the [illegible] profitable character of the investments during the past few years the Company has realized a net profit after deducting all losses, not only of principal, but of interest, and after liberally writing down any securities at all doubtful, of over $1,000,000 in hard cash. In addition, the present market value of the securities still owned is about $1,050,000 in excess of their ledger value. Still further, the Company has a contingent fund, consisting chiefly of stocks obtained in years gone by as bonuses in connection with bond purchases, which, though held in the Company's books at a nominal value of $1 for each block, have an approximate value of $3,[illegible]50,000, and that value is increasing steadily. The Company's policy is to hold these securities as a contingent fund, and to only include them in the published list as each block becomes interest bearing, or is sold; in the meantime policyholders have the advantage of the immense additional security thus provided, and may also reasonably expect to have their profits much increased from this source in years to come.

SAFETY THE FIRST CONSIDERATION.

Although the Company has thus made enormous profits, these profits have not been made from speculative securities. The Company carefully avoids such. The profits are the result of a policy of not waiting for investments to come to the Company, but of deliberately looking around and selecting those that are safest and best, and then making use of the company's ability to purchase large blocks (its assets are now $24,000,000) to obtain inside terms, thus cutting out the middle men. Absolute safety is always the first consideration, and profit is essentially secondary. Actual illustrations are, however, more convincing than general statements, and as some attention was given to our investments in the Illinois Traction Company, these may be taken as examples.

ILLINOIS TRACTION COMPANY.

The first investment of the Company in Illinois Traction securities was the purchase of two-thirds of the bonds of the Danville, Urbana & Champaign Railway. These were secured by first mortgage on a new interurban line connecting Danville with the twin cities of Urbana and Champaign, and by a further lien on the public utilities of the three cities, comprising the street railways, electric light and gas plants of each. Were these bonds absolutely safe? The audited net earnings for the [illegible] year [illegible] the [illegible] which they were secured, after deducting every charge of every kind that would rank ahead of the interest on the new bonds, was $[illegible], or [illegible] times the interest charge of the new bonds, including the amount required to complete the interurban, was $50,000. The existing net earnings were therefore already more than two and one-half times the interest charge upon the new bonds. This was without any addition from natural increase, or from the new line. The replacement value of the property was moreover estimated at $1,[illegible],000 in excess of all bonds. Was there any risk in making such a purchase? Although no increase in earnings was needed to make the bonds abundantly safe, the new interurban line has in reality proved highly profitable, and the earnings of the city properties have also steadily increased, so that the surplus, which was two and one-half times the interest charge when the bonds were purchased, is now about $[illegible],000, or seven times the interest charge. The bonds were shortly afterwards sold at an advance in price, without any stock bonus, to an American banking firm, who in turn retailed them at a still higher price to the public, among the purchasers being two of the largest and best American Insurance Companies, which each took a block of $[illegible],000. The security for these bonds is absolute. Better cannot be obtained. Did the fact that the Sun Company made a bargain by which it obtained some bonus stock, which would ordinarily have gone to other parties, in any way lessen that security?

DECATUR RAILWAY & LIGHT CO.

The second purchase of Illinois Traction securities consisted of the bonds of the Decatur Railway and Light Company, which carried a mortgage upon the street railway, electric light and gas properties of the City of Decatur. The audited available net earnings of these properties, without any addition for normal increase or earnings on new property, were over $[illegible],000, to cover an interest charge of $[illegible],000 on the new bonds, or more than $[illegible] for each $1 required. In addition, there was the guarantee of the Illinois Traction Co., whose surplus earnings from other properties already amounted to $[illegible],000, of a further guarantee equal to the entire interest charge, making, with the Decatur earnings, six times the entire interest charge on the new bonds. Where can safer or better bonds be obtained? Was there anything speculative about them? These, too, have since all been sold at an advance in price, the Sun Company retaining the stock bonus.

ILLINOIS CENTRAL TRACTION COMPANY.

This was the third purchase. These bonds were secured by first mortgage upon a new interurban line between Decatur and Springfield, the capital of the state. Connecting two such cities, the success of the line was assured from the start. The bonds were, however, also guaranteed by the Illinois Traction Co., which then had a surplus of $[illegible],000, available from its other properties for the payment of this interest. As the entire interest charge upon the new road when finished would be only $[illegible],000, the interest was already assured two and a half times over, even if the new line earned nothing. It did, however, earn its own entire interest charges in the first eight months of its first year of complete operation, so that, instead of having to call upon the guarantee of the parent company, it earned a surplus of fifty per cent. These bonds, too, were all purchased shortly afterwards by a firm of bankers at an advance in price, without any stock bonus.

Further illustrations could be given, but these cases, which were specially investigated, are enough to show the very high quality of the bonds in which the Sun Life has invested.

The value of the guarantee of the Illinois Traction Co. to any bond may be judged from the fact that its annual gross revenue now exceeds $[illegible],000,000, and that it has a surplus of $[illegible],000, above the total interest charges upon all the bonds of the system. After paying 6 per cent. dividends upon its preferred stock, it is earning about 9 per cent. upon its common stock, that 9 per cent., however, not being paid in cash, but being used for extensions and other capital expenditure, which increase the value of the property. There are over seven hundred shareholders, and the market value of the preferred and common stocks is about $7,000,000. While the first issue of this preferred stock had some water in it, large amounts have since been issued at 87 1-2 and 95 for cash, so that about $[illegible],000 of actual hard cash has been paid in upon the preferred stock, and about $1,[illegible],000 more of value has been put into it in the form of surplus earnings used for extensions. The stock, therefore, has a very solid cash basis. The franchises are long and favorable, and are perpetual for more than two-thirds of the mileage.

The question was asked how long it would take to dispose of the Illinois Traction securities. The company's entire holding could easily be disposed of at a handsome profit within two days. Any person, however, who observes the phenomenal growth of the earnings must realize that the common stock, at least, will not attain its full value for years, and to sell now would merely be to divert into the pockets of brokers immense amounts which would otherwise go to the policyholders.

BENEFIT TO POLICY HOLDERS.

The large profits have enabled the Company to [illegible] all the [illegible] the [illegible] at once place the [illegible] upon all its policies upon a 31-2 per cent., basis a step leading for about $1,[illegible],000. Even by [illegible] standard it had at 31st December last a surplus over all liabilities and capital stock of $1,[illegible],000. This sum has since been largely increased. This does not include the contingent fund of over $3,[illegible],000. The Company has also been enabled to increase the rate of profit paid to policyholders year after year, and it expects to still further increase it.

WRITING DOWN SECURITIES.

The Company has been criticised for writing down its securities before losses actually happened, simply because it feared that losses might perhaps arise. The management claim, however, that this is the only proper course, and that any other would be highly objectionable. If the manager of a bank or loan company were to refrain from writing down securities, merely because losses had not yet actually materialized, he would be condemned as issuing misleading statements. The management consider that they deserve credit instead of censure for the course they took. As regards the so-called writing up, the facts are merely that when large blocks of Illinois Traction preferred and other securities were sufficiently ripe to be transferred from the [illegible] account to the active list, the management had to face the question whether the entire value of these stocks should be added to the surplus, or whether they should be used in part to write down other securities not quite so good. It was decided to substitute these new securities in part for some others that, while not bad, were not entirely satisfactory. Had this not been done, the nominal surplus of the Company would have been increased by about $[illegible],000. In the opinion of the management this course was conservative and proper.

Incidentally, most of the securities then written down have since so improved that comparatively little loss is now expected. The actual losses incurred by the Company have in fact been very trifling when compared with the profits, thus affording a further testimony to the high quality of the securities.

DIRECTORS HAVE NOT PROFITED.

No director has ever obtained any financial profits or advantage of any kind out of the Company, by means of sales, loans or any such arrangement of any kind whatever, directly or indirectly. The charter prohibits directors and officers from borrowing from the Company, and this has been literally lived up to. Directors have been permitted to purchase securities for themselves on precisely the same terms as they were purchasing them for the Company, but that did not injure the policyholders, and it is over, desirable that directors should show their faith in the investments into which they put the Company's money by taking some of the same for themselves. While this has been done, however, they have paid for such investments absolutely with their own money and the Company has not assisted them in financing in any way.

ESTIMATES AND RESULTS.

Over 700 deferred profit policies have matured and in thirty-four per cent. of the cases the amount originally estimated as likely to be received at the end of the term has been realized or exceeded. On all the cases combined the average amount paid has been about ninety-seven per cent of the estimate. The management may be pardoned for being proud of this record. The estimates now in use are lower than the former ones, and premiums are higher, so that present estimates should certainly be realized. Statements were filed showing that $[illegible] is on hand for every $100 required to pay the amounts called for by the present estimates for every deferred profit policy on the books.

STOCKHOLDERS.

The directors have reduced the proportion of profits accruing to shareholders, from 20 per cent., which was the original ratio, and is still usual with British Companies, to only 5 per cent. When the capital was increased in 1[illegible], the new stock was issued at 300 per cent. of the paid-up value, and the dividends of 15 per cent. which have since been paid, therefore yield the stockholders only 5 per cent. upon the amount paid into the Company. As the money earned more than 5 per cent, this new capital has cost the policyholders nothing.

The management gratefully acknowledges Mr. Kent's appreciative remarks at the closing session, in which he stated in connection with his suggestion that voting power might be given to policyholders that "It seems to me that in the conduct of the Sun Life business there is nothing to be desired as far as the present generation is concerned. If you were immortal I would not say anything further about it. If, by sound judgment, hard work and just discrimination you have put the Sun Life on the pinnacle of a successful Company, another management with other attributes might just as easily squander it. . . . The directors have done their duty nobly; there is no complaint to be made against them or any one of them. Who can say whether the future management will continue the present high standard of your Company?"

While the directors and management deeply regret that they do not see the question of voting by policyholders in the same light as Mr. Kent, nevertheless such remarks, coming from one of the commissioners, are intensely appreciated.

JOHN CORKERY.
Secretary Separate School Board.

ORIENTAL HOTEL

For a quarter of a century and more the name of the Oriental Hotel has been well and favorably known by the citizens of Peterborough, commercials and other travellers as a synonym for comfort, elegance and good treatment.

The Oriental is one of the best furnished, most commodious and best managed hotels in the province and is very centrally located, being on Hunter street within a few feet of our main street.

Mr. Geo. N. Graham, the proprietor, has been many years in the business, and is known to a large majority of the travelling public as a genial host, and, incidentally, as one of the best judges of a horse in the province.

The Oriental has recently been remodelled throughout. A handsome lavatory, fitted up throughout with marble and the most sanitary plumbing, has been added at a cost of some $[illegible]. Some twenty new bed rooms, many with private bath rooms attached, and handsomely furnished, have also been added. On entering the hotel one passes from the tile-floored rontunda into perhaps the coolest writing room in Ontario, in this are eight dark-oak wall desks, some six feet apart, for convenience of guests. This room is covered with a beautiful new and heavy carpet, and its walls covered with burlap and an expensive paper.

The office is under the charge of C. G. Graham, with Mr. Thos. McDonough as head clerk. Both of these gentlemen are favorably known to the travelling public, and "Chris" among athletic circles of every branch.

Mr. Geo. Graham, the proprietor, has many times given the use of the Oriental to local charitable societies, such as the King's Daughters, Children's Aid Society, etc., for balls or other entertainments, absolutely free of charge.

ORIENTAL HOTEL DINING ROOM.

ORIENTAL HOTEL BAR.

M. B. McLEAN.

M. B. McLEAN

Mr. M. B. McLean has recently opened up an up-to-date and fully equipped clothes cleaning and pressing establishment at 446 George street, where ladies and gentlemen can get their worn garments made to look like new. Mr. McLean makes a specialty of prompt service, so that any one in a hurry for return of any garment can get the same in short order.

"Mac" has had a wide experience in his trade, having conducted successful shops of the same kind at Sault Ste. Marie Port Arthur and Toronto, where he established in each place an enviable reputation for skillful work and satisfied his customers.

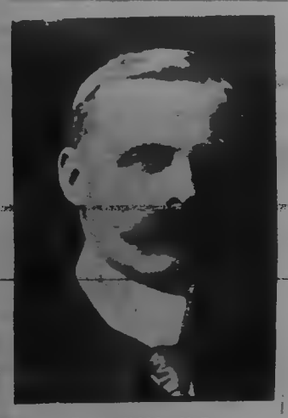
Mr. McLean is local agent for "The House of Hobberlin, Tailors to the Canadian Gentlemen," and can fill orders for the high grade goods of this celebrated firm promptly. In connection with this branch of Mr. McLean's business, he is associated with Mr. Virtel Reynolds. Mr. McLean guarantees satisfaction to all customers.

R. R. HALL, M.P.

Mr. R. R. Hall, the Member for West Peterborough, is one of this city's most progressive and successful men of the younger generation. Mr. Hall is senior partner in the well known law firm of Hall, Medd and Davidson.

Mr. Hall, in addition to his large law business, is interested in several leading industries of Canada, being director the Big Bend Lumber Co. of British Columbia, and other companies.

Mr. Hall has always been regarded as a prominent citizen, and has, since his election to Parliament, displayed in a most practical way that he has the interests of this city and county at heart. During the three



R. R. HALL, M.P.

years Mr. Hall has represented Peterborough in the Ottawa House he has used every energy and all his persuasive powers towards promoting his constituents' interests.

Among some of the practical benefits gained by this city and county by Mr. Hall's interest and perseverance with the Dominion Government might be noted the taxing over by that body of the swing bridges, thus relieving the county of the cost of maintenance, which alone would capitalize at $100,000. This includes the territory containing the Trent Valley Canal system from Lake Simcoe to Healey's Falls. This is also an indirect benefit to other places along the route of the canal.

There has been upwards of $200,000 spent in the improvements on navigation along the completed portions of the canal since Mr. Hall's election, in the way of making, bridging and deepening channels, dredging and building docks and wharves along the canal. Mr. Hall has always been a strong supporter of the completion of the canal, and now that the surveys have been completed and the routes and outlet have been defined, Mr. Hall will do all in his power at the coming session to have both ends of the canal put under contract.

There have been about $70,000 placed in the main estimates towards the local armouries, which will be increased when the supplementary estimates are brought down during the present session.

Among other matters Mr. Hall has attended to is the dredging of the Otonabee River and the consequent large addition to the city's water front, which is of great value to the city. The city's property and local navigation will be further improved in addition by the present session. Mr. Hall has been the means of conferring great advantages both to local navigation and to the manufacturing interests by his legislation for control of the water system of the upper lakes and consequent conservation of the water for power in this city. Mr. Hall is now working hard to get a special Postal Delivery for the city so that every citizens' mail will be delivered right at their doors.

Still another matter worthy of note is the appropriation of $35,000 Mr. Hall has got for the Buckhorn dam, and also an appropriation towards the dam and locks at Burleigh and Lovesick.

J. J. TURNER & SONS

One of Peterborough's busiest hives of industry is the factory on George street owned and operated by Messrs. J. J. Turner & Sons, the world-famed sail, tent and awning makers. In the large factory some sixty skilled employees are turning out daily every article wanted aboard ship, by campers, by the householder, and in fact by people in most classes of life. One feature of this factory is the sign painting department, where skilled and accomplished artists make every kind of sign, banner or illuminated advertising medium required.

This firm gets on average ten to twenty telegrams, outside a vast correspondence, daily from every part of Canada, and many from the trans-Atlantic countries.

MUTUAL LIFE ASSURANCE COMPANY

As a means of investigating the conditions that account for its growth and popularity it may be well to consider, in the light of the things that count with the average person in choosing life insurance, the Company's standing and relation to these things. Regarding its investments the policy of the management has always been conservative and safe. They have sedulously refrained from anything other than admittedly sound propositions, their money being put out exclusively on mortgage loans, principally on farm properties, many of these in recent years in the growing and financially safe west, as well as in first mortgage bonds, municipal debentures and similar absolutely safe investments. Not a dollar of its money is involved in any stock or other speculative security. The consequence has been that throughout its entire history the Company's investment losses have been almost insignificant. It has realized, doubtless largely influenced by its mutual character, that the first and last duty is to conserve its funds for the policyholders, and that, as was said by an officer at a recent annual meeting, its first duty is to seek investments which have not a fluctuating value, and that it should not engage in buying and selling securities with the object of making a gain, or, what is just as likely, after making a purchase trying to prevent a loss. Another substantial factor in the Company's popularity has been its unswerving adherence to the policy adopted at its earliest meetings—prompt payment of all claims. The Company was the first to introduce this practice in Canada, and no other company has ever exceeded it in firm conformity to this most acceptable feature. The Mutual Life unfailingly pays each claim on the very day the claim papers and usual discharge reach its office.

Since organization there have been paid out to policyholders, according to last year's report, as follows: Death claims, $3,130,367.18; matured endowments and annuities, $1,212,729.67; cash surplus, $89,170.72; dividends, values, $1,004,1.5.91; making a total of $5,436,367.76, while it held in reserve and surplus for the security of living policyholders, as at December last, the sum of $5,15[illegible]

The utmost watchfulness and strictness obtain in the selection of risks, with the result that the average death rate is gratifyingly small, having averaged during the past 15 years only 53 per cent. of the expected mortality.

The matter of expense is another thing that the average man looks to in considering a business, and specially in life insurance. On this point the Mutual Life of Canada compares most favorably with any other Canadian company, the ratio of its expenses for the past year to total income being only 17.08 per cent., probably an unequalled record.

In the matter of surplus and reserve the Company is also favorably situated, its surplus for 1905 being $1,263,905 on the Government standard and its reserve, $8,210,084. The rate of progress can be well shown by a comparison of the following figures for decennial periods:

Year	Income	Payment to Policyholder	Assets	Surplus	Assurance in Force
1875	$29,593	$4,625	$53,681	$8,851	$1,177,085
1885	270,697	113,313	753,661	38,892	8,259,361
1895	735,079	328,427	3,123,574	178,798	19,312,477
1905	1,956,518	552,914	9,296,092	1,263,905	44,197,954

its policies include the most up-to-date and advantageous features, and the treatment of policyholders is as liberal and just as could well be asked, among the conditions being the allowance of one month's grace for the payment of premiums, guaranteed surrender values stated in plain figures on the face of policies, besides exceedingly fair options and means of escaping lapses. All these considerations go to show the safe and progressive character of the Company's management, its liberality and fairness towards its policyholders, and make it easy to understand how it has secured so warm a place in popular esteem and rank with the best companies in acknowledged reliability, stability and enterprise. Its confidence in the Canadian public has not been misplaced. The public has most encouragingly responded to its faith in Canadian investments for its funds, and in Canadian lives for its business. A proportionately small amount of its total business is placed outside

T. E. BRADBURN, M. P. P.

of Canada, an idea of which proportion may be gathered from the fact that in 1905, out of a total new business of over $6,000,000, only $65,000 was placed outside of our own country.

From almost entirely local significance the Company has grown to national proportions, so that today it numbers among its policyholders not only residents of every province in the Dominion, but among these the recognized leaders in business circles, men of the most alert financial acumen and indisputable sound business judgment.

It was owing to the national proportions it had assumed that at the annual meeting of 1900 the Company's name was changed to the one it now bears, "The Mutual Life Assurance Company of Canada."

The present directors of the Company are: Robert Melvin, president, Guelph; Alfred Hoskin, K. C., 1st vice-president, Toronto; Hon. Mr. Justice Britton, 2nd vice-president, Osgoode Hall, Toronto; Right Hon. Sir Wilfrid Laurier, P. C., G. C. M. G., Premier of Canada, Ottawa; Francis C. Bruce, Hamilton; J. Kerr Fisken, Toronto; E. P. Clement, K. C., Berlin; W. J. Kidd, B. A., Ottawa; Geo. A. Somerville, London; Walter D. Beardmore, Toronto; Hon. Mr. Justice Garrow, Osgoode Hall, Toronto; Wm. Snider, Waterloo. The present officers at Head Office, Waterloo, are: Geo. Wegenast, manager; W. H Riddell, secretary, Julius H. Roos, treasurer; Charles Ruby, actuary; T. R. Earl, superintendent of agencies; J. H. Webb, M. D., medical director; C. S. Forrest, inspector of loans; Millar & Sims, solicitors.

DR. B. R. POOLE

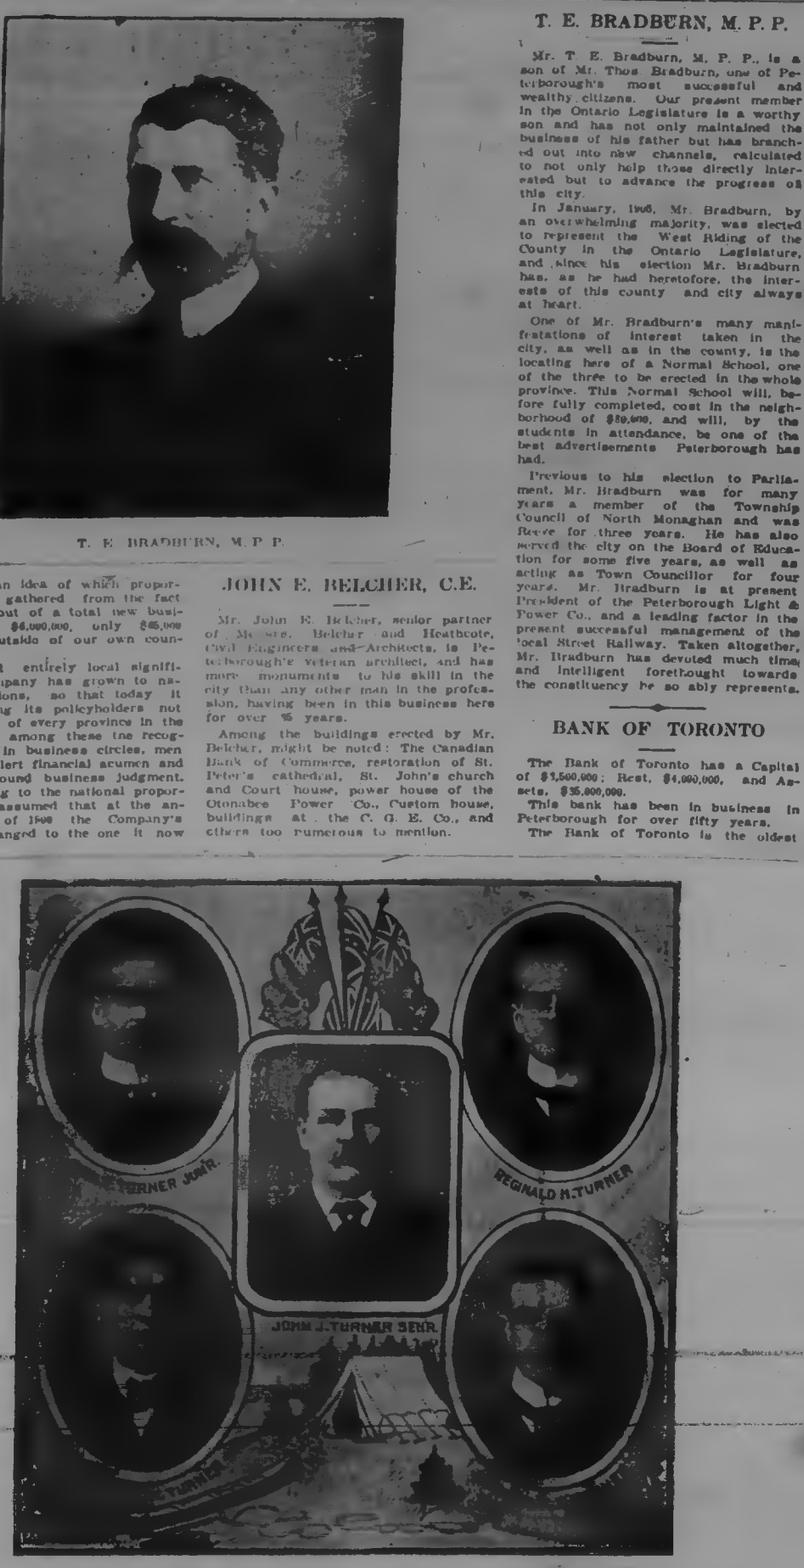
One of Peterborough's best known veterinary surgeons is Bernard R. Poole, 420 Water street, opposite the Postoffice. Dr. Poole obtained his

first knowledge of veterinary science and practice at the Royal Veterinary College, London, England. He is a graduate of the Ontario Veterinary College and Fellow of the O. V. M. A. of Canada. During his 16 years of practical experience the doctor has had great success in all branches of the profession, in treatment of all diseases of horses, cattle and dogs.

One special feature of Dr. Poole's system is to guarantee satisfaction and give a straight forward opinion in all cases. He does not allow loafing in his office by horsemen or others, so that all consultation is ensured privacy, this is particularly important in the case of horses that may be offered for sale, as "bad news travels fast."

Dr. Poole may be consulted at his office and infirmary night or day, or called by Telephone No. 430.

PORTER'S DELICATESSEN.



JOHN E. BELCHER, C.E.

Mr. John E. Belcher, senior partner of Messrs. Belcher and Heathcote, Civil Engineers and Architects, is Peterborough's veteran architect, and has more monuments to his skill in the city than any other man in the profession, having been in this business here for over 45 years.

Among the buildings erected by Mr. Belcher, might be noted: The Canadian Bank of Commerce, restoration of St. Peter's cathedral, St. John's church and Court house, power house of the Otonabee Power Co., Custom house, buildings at the C. G. E. Co., and others too numerous to mention.

Mr. Belcher was for 25 years town engineer, and supervised the outfall sewer to the river.

Mr. Belcher has erected some 16,000 lineal feet of bridges, with their approaches, in this county, and has been architect of over 50 churches of various denominations. He is past President of the Ontario Association of Architects.

His partner, Mr. Heathcote, C. E., is a skilful draughtsman, who has made plans for many leading structures in this city.

J. J. MacPHERSON

Mr. J. J. MacPherson, of 73 Patterson street, is one of Peterborough's most enterprising and successful contractors for brick and stone work. Mr. MacPherson does not limit his extensive business to this city alone but has completed the brick work on several important buildings in other towns and cities. Among some of the more important local buildings for which he has taken contracts, and completed the work most satisfactorily, might be mentioned the Peterborough Cereal Company's extension, Messrs. Kinnear & Company's fine new wholesale warehouse, with its pressed brick front, and many others. In large structures built by Mr. MacPherson is the fine new House of Refuge at Lakefield, where he put in 148,000 in the record time of two weeks, this work being passed as most satisfactory by the county council. Mr. MacPherson has recently completed his contract on the magnificent Bennett's Theatre in Ottawa, where his contract included the laying of 712,000 bricks. The Ottawa Free Press gave Mr. MacPherson a special notice for this job, displaying his portrait.

J. J. MACPHERSON.

T. E. BRADBURN, M. P. P.

Mr. T. E. Bradburn, M. P. P., is a son of Mr. Thos Bradburn, one of Peterborough's most successful and wealthy citizens. Our present member in the Ontario Legislature is a worthy son and has not only maintained the business of his father but has branched out into new channels, calculated to not only help those directly interested but to advance the progress of this city.

In January, 1906, Mr. Bradburn, by an overwhelming majority, was elected to represent the West Riding of the County in the Ontario Legislature, and since his election Mr. Bradburn has, as he had heretofore, the interests of this county and city always at heart.

One of Mr. Bradburn's many manifestations of interest taken in the city, as well as in the county, is the locating here of a Normal School, one of the three to be erected in the whole province. This Normal School will, before fully completed, cost in the neighborhood of $80,000, and will, by the students in attendance, be one of the best advertisements Peterborough has had.

Previous to his election to Parliament, Mr. Bradburn was for many years a member of the Township Council of North Monaghan and was Reeve for three years. He has also served the city on the Board of Education for some five years, as well as acting as Town Councillor for four years. Mr. Bradburn is at present President of the Peterborough Light & Power Co., and a leading factor in the present successful management of the local Street Railway. Taken altogether, Mr. Bradburn has devoted much time and intelligent forethought towards the constituency he so ably represents.

BANK OF TORONTO

The Bank of Toronto has a Capital of $3,500,000; Rest, $4,000,000, and Assets, $35,000,000.

This bank has been in business in Peterborough for over fifty years.

The Bank of Toronto is the oldest bank having its Head Office in the Province of Ontario. It was incorporated in 1855.

The increase in its business has been accompanied by corresponding increase in strength.

The Rest Account has been steadily built up until it is now $500,000 in excess of the Paid-up Capital.

The Local Manager is Mr. Peter Campbell, who has made the Peterborough branch popular in this city. The local branch is situated at the corner of George and Hunter streets.

SAMUEL BELCHER, C.E.

One of Peterborough's oldest civil engineers is Mr. Samuel Belcher, who was engineer in charge of the first granolithic pavements and sewers. Mr. Belcher made the first levels and plans for the original sewers of this city, and was for many years town engineer. He has, since 1884, been connected with the City of Peterborough's public works.

McGREGOR AND REID

Two young men who are doing a large share of Peterborough's plumbing and electrical work are Messrs. MacGregor & Reid. Their shop at 476 George street is replete with every thing wanted to supply or fit up the plumbing and electrician's trade. From the ceiling hang scores of electric fixtures of every design and price. One of their recently added attractions is a handsome glass and brass dome-shaped electrolier, suspended by a very heavy brass chain. In the window, among other goods, is a handsome stationary basin, fitted up with nickel-plated fixtures. In the body of the store are all such goods as might be called for in a high-grade plumbing and electrical establishment.

Possibly the best recommendation a plumbing firm can have is their record and what has been done by them. In this connection it might be noted that Mr. MacGregor has had personal supervision of and filled contracts at the following places in Toronto: The City Hall, King Edward Hotel, Foresters' Temple Building, Confederation Life Building, Union Station Building, Upper Canada College Building, University Building, Evening Telegram Building, Home Life Building, Bell Telephone Building.

In this city Messrs. MacGregor & Reid have completed contracts for either plumbing or electric lighting in the following places in Peterborough: Canadian General Electric Building, Mount St. Joseph, St Joseph's Hospital, Bank of Montreal, Y. W. C. A. Building, Dixon Carpet Co., King Edward Public School, The Dickson Estate, St. Andrew's Presbyterian Church, and over fifty private residences.

With a record of work done, as above noted, there is no doubt but what MacGregor & Reid hold a high place among our local industries.

INTERIOR OF McGREGOR & REID'S STORE.

T. E. BRADBURN, M. P. P.

Mr. T. E. Bradburn, M. P. P., is a son of Mr. Thos Bradburn, one of Peterborough's most successful and wealthy citizens. Our present member in the Ontario Legislature is a worthy son and has not only maintained the business of his father but has branched out into new channels, calculated to not only help those directly interested but to advance the progress of this city.

In January, 1906, Mr. Bradburn, by an overwhelming majority, was elected to represent the West Riding of the County in the Ontario Legislature, and since his election Mr. Bradburn has, as he had heretofore, the interests of this county and city always at heart.

One of Mr. Bradburn's many manifestations of interest taken in the city, as well as in the county, is the locating here of a Normal School, one of the three to be erected in the whole province. This Normal School will, before fully completed, cost in the neighborhood of $80,000, and will, by the students in attendance, be one of the best advertisements Peterborough has had.

Previous to his election to Parliament, Mr. Bradburn was for many years a member of the Township Council of North Monaghan and was Reeve for three years. He has also served the city on the Board of Education for some five years, as well as acting as Town Councillor for four years. Mr. Bradburn is at present President of the Peterborough Light & Power Co., and a leading factor in the present successful management of the local Street Railway. Taken altogether, Mr. Bradburn has devoted much time and intelligent forethought towards the constituency he so ably represents.

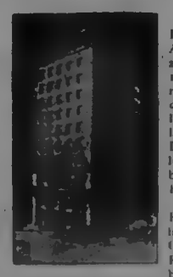
BANK OF TORONTO

The Bank of Toronto has a Capital of $3,500,000; Rest, $4,000,000, and Assets, $35,000,000.

This bank has been in business in Peterborough for over fifty years.

The Bank of Toronto is the oldest

THE UNION BANK OF CANADA



THE UNION BANK OF CANADA was organized in Quebec, in 1865, and commenced business operations the following year, the late Mr. Chas. E. Levey, a retired lumber merchant, being the first President.

Branches of the Bank were established in Montreal, Ottawa and Three Rivers, and the business of the Quebec Provident and Savings Bank taken over.

A branch of the bank was opened at Winnipeg in 1882, followed by another at Lethbridge, N. W. T. in 1886, and at Toronto in 1888. In 1890 a policy was inaugurated of establishing agencies of the bank at the then small, but growing towns of Manitoba and the North-West Territories, the first being opened at Carberry, Man., November of the year. This has been followed at intervals by branches at other points where favorable results could be looked for, and there are now thirty-eight offices of the Union Bank of Canada established in Manitoba, twenty-seven in Saskatchewan, and twenty in Alberta. During this period, opportunities for opening branches in the earlier settled Eastern districts have been taken advantage of, forty-one of these are now in operation in the Province of Ontario, and five, including the Head Office, in the Province of Quebec.

The growth and general development of the Canadian North-West caused by the influx of settlers from Europe, the United States, and from other parts of Canada, and favorable agricultural conditions during the last five years have been fully reflected in the business done by the Union Bank of Canada. Its Paid-up Capital is now $4,000,000, and the amount of its Reserve Fund or Rest, $1,500,000. In 1905 it was decided to erect a modern ten-story building in Winnipeg to be occupied partly by the bank, now and more commodious premises being a necessity, and partly by tenants as offices. This building was completed in November, 1904—it is situated at the south-west corner of Main and William streets, and a view of it is given in this publication. Mr Andrew Thomson, of Quebec, has been President of the Bank for many years, being elected to the position in 1877. Hon John Sharples, of Quebec, is Vice-President. Other Directors of the Bank are: Messrs. E. J. Hale, Wm. Price, and Wm. Shaw, of Quebec; M. B. Davis, Montreal; John Galt, E. S. Drewry, and R. T. Riley, of Winnipeg, and F. E. Kenaston, of Minneapolis. The four last mentioned members of the Board are especially interested in the Western business of the bank. Mr G. H. Balfour was appointed General Manager of the Bank in January, 1904, succeeding the late Mr. E. E. Webb, who had occupied a similar position since in 1886.

MAJESTIC BILLIARD PARLOR

Mr. J. T. Smyth some few months ago opened up a handsomely furnished and admirably supplied billiard room and bowling alley at 358 Water street.

As one enters the doorn one first meets a handsome silent salesman and shelving filled with the choicest brands of cigars and tobaccos. This department is screened off from the large, airy and well lighted billiard parlor by curtains tastily draped.

The billiard parlors contain eight new, modern and thoroughly up-to-date billiard and pool tables of superior weathered oak finish, with furniture and fittings to match.

The bowling alleys, six in number, are constructed wholly of white maple and birch, and, as well as being pleasing to the eye, are pronounced by bowlers to be first-class, and are built on the American standard lines. The fittings also in this room (which is exceptionally large and well ventilated) all harmonize.

Mr. Smyth and his son are always personally on the spot and see that customers get every attention and conveniences.

McCOLLUM BROS.

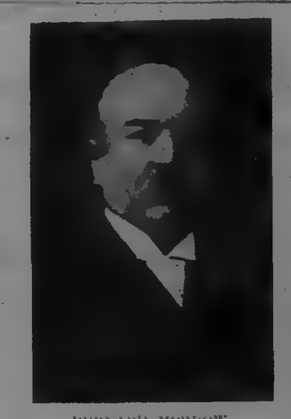
Messrs. McCollum Bros some two years ago disposed of their livery business in Orillia and purchased Mr. R. H Leary's livery business on Water street, two doors from the Postoffice.

McCollum's livery barn is a commodious brick building, two stories in height, and is used entirely for livery purposes, the horse stalls being on the second floor. A comfortable office is at the main entrance, so that ladies calling for rigs are assured comfort and privacy. Hacks or rigs of any kind may be ordered night or day by both Bell and Machine Telephones, the number in each case being 46.

R. WESTCOTT

Mr. R. Wescott, of 127 George street, has been in business for himself at the above noted stand for about a year, during which time he has worked up a large trade and made many friends. The store is well lighted and handsomely furnished.

For the Christmas trade, Mr. Wescott is making a specialty of mens' felt slippers and fancy velvet and carpet slippers. He has cosy slippers for women in velvet and fancy felt; misses' red Romeo slippers, children's red and brown Romeo slippers. There are also mens' and boys' hockey boots. The stock, in short, includes everything wanted in foot gear.



BERNARD MORROW.

COUNTY REGISTRAR

Prominent among those holding responsible positions in this city and county is Mr. Bernard Morrow, the County Registrar.

Mr. Morrow, who is known as a painstaking and efficient official, against whom no real complaints have ever once been laid as to errors or omissions in the pursuance of his duties, is generally known, by all who have business at the Registry Office, as a most capable and courteous official.

Mr. Morrow has now held his present position for some twenty-three years, having succeeded his predecessor in office, the late Col. F. W. Haultain.

Previous to accepting the office of Registrar, Mr. Morrow for over a decade carried on a large and successful grocery store, where he did both a wholesale, jobbing and retail trade. His store was situated on George street in the premises at present occupied by Messrs. Richard Hall & Son.

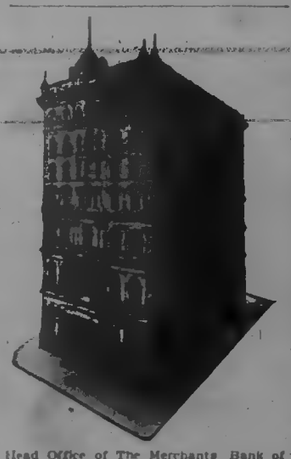
Mr. Morrow's many friends in this city are pleased to note the efficient way in which he has always managed the affairs of the Registry Office.

MERCHANTS BANK OF CANADA

This institution was founded in 1864 by the late Sir Hugh Allan, who was its first President. It was then known as the Merchants' Bank, its business being chiefly confined to the City of Montreal. Its capital was $100,000 Mr. Jackson Rae was the Cashier.

In 1865 the charter of the Bank was amended and its capital increased, to allow of taking over the assets of the Commercial Bank, when its name became "The Merchants' Bank of Canada." This action gave the Bank a large connection in Ontario and Quebec.

In 1877 Mr. Geo. Hague became General Manager. The same year Sir Hugh Allan resigned the Presidency and was succeeded by the Hon. John Hamilton. Mr. Hague retained the position of General Manager until 1897,



Head Office of The Merchants Bank of Canada, Montreal.

when Mr. Thomas Fyshe was associated with him as Joint General Manager, the latter assuming the entire management in 1902. Both these gentlemen have now retired from active service. The present General Manager is Mr. E. F. Hebden, who succeeded Mr. Fyshe Mr. Hebden entered the Bank in June, 1871, and has therefore been 35 years in the service of the institution, twenty years of the period being associated with the management of various branches, and serving ten years as Superintendent and Chief Inspector of the Bank.

The present Paid-up Capital is $6,000,000, and the Reserve Fund $3,671,506. The total Assets are over $51,000,000, and the Deposits $37,000,000. The Bank has 117 Branches and Agencies in Canada, extending from Quebec to the Pacific Coast.

Sir H. Montagu Allan is President, and Mr. Jonathan Hodgson Vice-President. The Board of Directors includes some of the best known business men and capitalists in the Dominion.

A. H. SMITH

Citizens, and particularly those in the East Ward, who desire to have first-class painting, paper-hanging or calsomining done in short order and expert style, would do well to call on Mr. A. H. Smith at 49 Hunter street.

Mr. Smith has had long experience in these branches of the trade, and has good recommends from many citizens for whom he has done work.

We will keep your Clothes in good shape
Let us clean, press and repair them. All garments in good shape in our possession. We are responsible for Waterbury Bros., Toronto. Let us take your measure for a nice suit or Overcoat. Satisfaction guaranteed.

VOL XXXIV, NO 296 PETERBOROUGH, ONTARIO, WEDNESDAY, DECEMBER 19 1906 PRICE TWO CENTS

FARMERS' VIEW ON GOVERNMENT'S TARIFF REVISION

They Want Middle Tariff Extended to the U. S. and Germany

COMMITTEE ON MONK'S BILL

Earl Grey Will Probably Give Information to the Committee.

Ottawa, Dec. 19.—President James McKeag, Vice-President E. C. Drury, and Secretary W. L. Smith, representing the Farmers Association of Ontario, backed by a number of Liberal M.P.'s from Ontario and Quebec, waited on the Government today to voice the views of the farming classes on the Government's tariff revision. They expressed pleasure at the features of the new tariff in which the Government had met the views of the farmers, and urged that further steps might well be taken to lighten the burden of taxation carried by this class of Canadian people. They especially urged that the intermediate tariff should be applied to both the United States and Germany, both of which afforded markets for food products that Canadian farmers would gladly command. Germany, for instance, was becoming more and more a manufacturing nation, and was forced to import foodstuffs, therefore that our own people would be glad to provide. The United States alongside of us is a country of such large extent that many of the border communities can satisfy their wants to better advantage from Canada than from more remote portions of their own country.

WOULD STOP THE BOUNTIKS.

The Farmers Association strongly urged the immediate ending of the system of bounties established for the benefit of certain branches of Canadian industry. The iron and steel bounties instead of being renewed, should be allowed to run out in June next, which would have occurred but for the proposals that Mr. Fielding made in his budget speech.

CO-OPERATIVE SOCIETIES.

The special committee of the House of Commons appointed a few days ago to consider the merits of Mr. F. D. Monk's bill regarding the organization of co-operative societies, banks, etc., for the benefit of the working classes, held its first meeting yesterday, and arranged for the taking of evidence. One of those who has taken a very deep interest in the co-operative movement is his Excellency Earl Grey, who will probably be invited to give the committee the benefit of his knowledge and experience on the subject.

Among those who will attend at next meeting for examination are the Deputy Minister of Labor, Mr. W. L. Mackenzie King, and Mr. Alphonse Desjardins, who has had the experience of many years successful operation of a co-operative bank in Levis. The members of the special committee were all in favor of the object that the proposed legislation seeks to accomplish. Hon. Mr. Aylesworth, Minister of Justice, suggested that the only objection that occurred to him was the constitutional one that legislation of this character came more within the scope of the Provincial Legislatures.

Mr. Monk took the ground, however, that co-operative societies are no more of local concern than many of the services that the Dominion is already administering.

POTATOES IN THE ARCTIC.

John MacCoun, Canadian Government naturalist, than whom no man living has a more comprehensive knowledge of the agricultural possibilities of the Canadian West, declared yesterday that wheat can be grown within three miles of Hudson's Bay. The higher latitudes of Canada were compensated for very often by lower altitudes. He had himself known, he added, of potatoes being grown within the Arctic Circle.

POLICE NEWS

Daily Happenings in Court Room and Station.

Yesterday morning a local hotelman was charged with beating two of his employes out of their wages. The court ruled against him.

County Constable Cochrane has received a telephone message from a woman residing in Otonabee township, to the effect that her husband had been drinking and was threatening to kill her and family. She said that he had chased them around the house with a butcher knife and was making threats to kill them. It seems that the accused is o.k., except when carrying with "red eye."

The county police officials are investigating the matter, and a charge will likely be made against the fellow.

His wife is afraid that he will harm someone as he loses control of himself, when under the influence of liquor.

As foretold in Monday's issue of The Times, two employes of a local hotel engaged in stable work were charged with assaulting a former employe who had been re-employed.

The first witness called was the complainant. It appears that on Sunday evening he entered the stable and spoke to one of the defendants. An argument arose and blows followed. Plaintiff says both defendants abused him.

One of the defendants then went into the box and said plaintiff and the other defendant had a scrap. The other defendant gave his version of the affair. Mr. O'Connell, for the defendants, said that it was only an ordinary fight, and he didn't see why it was necessary to bring it to the police court at all. There had been no serious harm done, and he, therefore, would ask his Worship to treat it just as a slight affair and one which should have been settled out of court.

The magistrate thought it would have been more manly to have settled it out of court, but if people have complaints to make, they must be heard. The young men had assaulted plaintiff, and he would therefore, fine each $2, which they paid.

SPORTING TOPICS

THE TURF.

Yesterday Col. W. Duncan arrived in the city with that well known speeder Mattie Weaver, with a record of 2.20. It is expected she will perform on the local track on New Year's day. Her appearance will be awaited with interest. Col. Duncan has a whole bunch of money burning, and would like somebody to run against him on the mare's chances. Mr. Duncan and his coin may be found at any time at Mr. Lipsett's hotel, the Maple Leaf, East Ward.

• • • •

At a meeting of the newly reorganized Peterborough Turf Club, it was decided to put on three races on New Year's day and to hold the regular winter race meet on January 22nd and 23rd. It has not yet been decided what the classes will be on New Year's day, but $150 has been hung up in prizes.

For the winter race meet on Jan. 22 and 23 there will be four classes, as follows: 2.35, 2.22, 2.18 and free-for-all. The first day the 2.35 and 2.18 classes will be pulled off, leaving the 2.22 and free-for-all for the closing day. There will be $150 in purses for each class, or $600 in all.

Full particulars may be had from President P. Clunan or Mr. Martin Connors, track manager.

HOCKEY.

The following players are requested to be on the ice next Thursday 5.45 this evening:

	Goal.	
Lang		Van Every
	Point.	
Glover		Meyers
	Cover Point.	
Crowley		Waronson
	Center.	
Morgan		Rose
	Rover.	
Whitcroft		Turner
	Right Wing.	
Graham		Easton
	Left Wing.	
McStravick		Watson

• • • •

Brandon News: Roy Armstrong, the Peterborough recruit, formerly of Newmarket and Alliston, and brother of Harold Armstrong, now with the Ottawa's, who was stated to play center for the Brandon team, has not shown good in practice, and has been released.

• • • • •

Ottawa Free Press: Much interest centered on Harold Armstrong. The ex-Smith's Falls man is tall and wiry. He is a splendid skater, and once started on a rush is a difficult man to pull up. He went easy last night, but what was seen of his play here last year made quite an impression on the hockey populace. Armstrong is purely an individual hockeyist, playing more the Western Ontario style of game than that in the East. His defence work is not of the same caliber as his jaunts down the ice. A few games in the E.C.H.L., however, may acquaint him with strenuous methods necessary to break up combination, and in time prove him as good near the nets as his assistance in advancing on his adversaries' goal. Should it come to a question of picking Moore or Armstrong for a place in an important game, the selecting body will have to juggle the very difficult problem of whether a defence man who excels in forward rushes, and lacks the defence play, should be given preference over the defence man who can play defence and does not shine as a forward.

ATHLETICS.

Hamilton's champions of 1906 are summed up in the following by the Herald:

William J. Sherring, long-distance champion of the world.

Dennis Bennett, long-distance champion of Western States.

Robert Kerr, 220-yard champion of Canada.

Thos. Upton, live bird champion of Canada.

Walter P. Thomson, clay bird champion of Canada.

Hamilton football team, champions of Canada.

Hamilton II. football team, intermediate champions of Canada.

Hamilton basketball team, champion intermediates of Canada.

Hamilton basketball team, champions of Canada.

Immediately after the debate a round-table conference was held, embracing the leaders of both sides, including Lord Crewe, the Marquis of Ripon, Lord Privy Seal; Lord Lansdowne, the Marquis of Londonderry, the Archbishop of Canterbury, and others. The result of these deliberations is not known, but the general opinion is that a compromise will be arranged.

Express Trains Rush Coal to Sufferers

Winnipeg, Dec. 19.—Yesterday carloads of wood and coal were being hurried to several points in Manitoba on express trains, the result of pressing appeals made to avoid great hardships where no fuel is to be had. The government officials have urged the railroad officials at Winnipeg to take this action. In some places the yards are closing, and at Brandon the Federal Government gave consent to use post office coal in the hospitals to avoid its closing. The situation at Brandon is most serious. The weather is twenty below, and the fuel very slack everywhere. Winnipeg is burning a most inferior quality of coal.

In spite of the intense cold, a heavy vote was polled in Manitoba municipalities on the telephone question. Both the Government and the Opposition are thoroughly organized and each sanguine of success. Last night closed one of the hottest campaigns the Province has ever witnessed.

Victoria, B.C. Woman Claims Chinese Throne

Victoria, B.C., Dec. 19.—A Manchu Banner woman, married to an English officer of Gordon's army, has announced that she has made claim to the throne of China. The woman, unwilling to make public her name has relatives be assassinated at Pekin, has addressed petition to the British Government, asking that her claim be taken up with China. She says she is a direct lineal descendant of one of the third Duke of Chou, and as such asserts that she has a right to the throne of China prior to that of the Empress-dowager.

With her husband and family the woman has been living in Victoria for twenty-one years since she came from Pekin where a younger brother, who, she says, is next in line to herself to the Chinese throne is now living.

Wedded Six Sisters Took Thirty Years

Mt. Gilead, O., December 18.—After marrying five sisters, all of whom died or were killed, James Craven, yesterday wedded the sixth and last.

Craven met the Lamprecht family in Montana 30 years ago. He established a trading post and married Nora Lamprecht. A jealous half breed Indian shot her.

Four years later Craven married Lamprecht, who was killed by the same Indian. Then he married Effie, and the Indian killed her.

Craven, somewhat discouraged, returned to Ohio, but was not contented. He went back and married Helen, aged 18. He lay in wait and shot the redskin, but his wife was taken ill and died.

Bertha came next. She was thrown from a horse and killed. Craven prevailed upon Lena, the sixth, to come here and marry him.

"There was some attraction, I can't tell what, about the family of Lamprecht girls that I could never see in any other," said Craven after the ceremony.

DANGEROUS AS INDIANS

Race Hostility Urged in Support of Bill to Discharge All Negro Troops.

Washington, December 18.—Representative Slayden of Texas today introduced a bill which provides that "on or before the 30th day of June, 1907, all enlisted men of the army who are negroes or of negro descent shall be discharged from the service of the United States, and thereafter no negro or person of negro descent shall be enlisted or appointed in the army of the United States."

Mr. Slayden said:

"To say that the negroes are brave is not an argument against this measure. The Comanche and Sioux Indians were as brave as men could be. But no one would seriously suggest that we recruit regiments from them and station them near companies of white troops, toward whom they entertain inherent race hostility. The Twenty-fifth infantry is manifestly imbued with the same race hostility and events have shown it to be quite as dangerous as the Sioux and Comanche would be."

BOOMING THIRD TERM

League With 3,000,000 Members Proposes to Force Re-elections.

Chicago, December 18.—The Roosevelt Third Term National League has been formed in Chicago, and today an application for a charter was made at Springfield. Edward A. Horner, formerly of Leadville, Col., is the organizer and president of the league. The national headquarters of the league will be in Chicago. Clubs will be organized in every county and city in the United States.

"We aim to get 3,000,000 members," said Mr. Horner. "It is not our purpose to appeal to politicians. In fact, we don't want them. It is to be a matter which is to come directly from the people and for myself I don't care whether President Roosevelt likes it or not. The people have absolute and implicit confidence in him and we are going to see that they elect him to a third term."

Canadians Will Bid for Cobalt Lake Franchise

Toronto, Dec. 19.—It is not improbable that the bonanza veins of silver ore which are supposed to exist beneath the bed of Cobalt Lake will be mined by a syndicate of Canadian capitalists. The fact that United States syndicates have been casting envious eyes on this big claim, and intend to offer the Government big prices for the concessions, has stimulated the Canadian mining enthusiasts to action. The time for receiving tenders loses today.

MEETING TODAY.

Last week it was reported that a Canadian syndicate had offered $1,200,000 for the mining rights. This was not correct. However, there will be a meeting at the King Edward Hotel this morning to decide upon a price to be offered by an exceedingly strong body of Canadians. Mr. H. Lang, of Cobalt, formerly an alderman of Ottawa, is active in the promotion of the big syndicate. With him are Messrs. G. F. Henderson, Ottawa; Thomas Birkett, Peterborough; Daniel Rochester, Haileybury; Mr. W. D. McPherson, Toronto, and Mr. Lang, together with the other gentlemen above named, are the trustees of the syndicate, which is the Canadian. It is not improbable that another syndicate, which includes Mr. Shirley Ogilvie, Montreal; Mr. A. E. Osler, Toronto, and Dr. Worthington, Sherbrooke, will merge with the Canadian, the whole making one of the strongest syndicates of Canadians which has yet exploited in Cobalt claims.

SUBSCRIPTIONS POURING IN.

Subscriptions to the syndicate have been coming in with a big rush. Checks to the amount of from $1,000 to $20,000 have been pouring in. The fame of the Cobalt Lake mining rights has gone abroad, and the people are hustling in with a rush.

Mexico's Vast Mineral Wealth

Copper Now Added to the Ancient Aztec Land's Mineral Production.

Mexico since long before the days of Montezuma, has been noted for its wondrous mineral wealth. Ever since the days that the galleons of Spain, laden with gold and silver, ran the gauntlet of the Buccaneers, the eyes of the world have covetly looked to Mexico for minerals of all kinds. Sonora, the richest state of Mexico, has ever been a vast source of gold and silver ores, but recently copper, the modern source of demand as great as for gold, has been found in enormous quantities.

The Lluvia de Cobre Mine in Sonora, located some 80 miles from Hermosillo, in Sonora, and only 70 miles from Cargo, on the Sonora Railway, is one of the richest in the world. This property has been examined and reported by competent engineers, including Messrs. J. J. Wood and Thos. Bentley, well known mining engineers, as a mine of great value and likely to become another "Greene Consolidated." The two properties are very similar in every respect. During the past month a tremendous strike in sulphide ore has been made in the Josephine shaft of the Lluvia de Cobre Mine, which averages from 7 1-2 to 35 per cent. of pure copper, and an ore easily smelted. Other finds equally rich have recently been discovered that fully justify the present indications that stock in this mine will soon advance far beyond par value of $1.00 per share.

The first block of stock in this mine, offered at 25 cents per share, was quickly snapped up, and the price recently advanced to 35 cents per share. The president and other officers of this mine, prominent business men of Kansas City, Mo., recently made a thorough personal examination of the Lluvia de Cobre Mine and were highly delighted with the ore discovered and the progress of the work done. Already a steam hoist and much machinery have been installed, as well as an assay office, store and tool houses, etc. Two shifts of workmen are now developing this property, and as labor troubles in this part of Mexico are unknown, uninterrupted work is assured. 120 acres of adjoining property have recently been acquired and added to the 161 acres originally included in the company's property. Timber, fuel and water are abundant and cheap, so that, with the enormously rich ore in almost inexhaustible quantities of Lluvia de Cobre Mine, the latter's success is absolutely assured.

Stock in blocks of from 50 to 10,000 shares in this company are now offered at 35 cents per share of a par value of $1 each. Stock is sold on easy terms and certificates issued when fully paid. For full particulars write at once before the price advances to Chas. M. Gardner, fiscal agent, 711-A, Kansas City Life Building, Kansas City, Mo., or apply in person to Peterborough Brokerage Co., local agents.

Mormons Spit Upon American Flag

Washington, Dec. 19.—"Mormonism is a greater curse to the country than was slavery," declared Mrs. Fred T. Dubois, wife of the Idaho Senator, in an address at Waugh M.E. church here last night. She said that should President Roosevelt make a trip through South Eastern Idaho he would not longer be willing to declare that there is nothing in the Mormon question. Six United States Senators, she said, owe their election to the influence of the Mormon Church. She criticized the attitude of Senator Proctor of Vermont and Senator Hopkins of Illinois for their attitude in the Smoot case. In closing, Mrs. Dubois said: "Mormon children in Utah and Idaho spit upon the American flag."

15 Blind Pigs in Copper Cliff

Toronto Dec. 19.—The License Department at the Parliament Buildings received word that Special Provincial Inspector G. E. Morrison and Provincial Constable Thompson raided Copper Cliff on Sunday last and found no less than fifteen "blind pigs," where liquor was being sold. There is no place licensed for the sale of intoxicating liquor in Copper Cliff, which is a village of 600 inhabitants, and the presumption is that the liquor was imported there from Sudbury for the benefit of the miners. The offenders will all be tried this week, and as the authorities are very desirous of stopping the illicit traffic with the miners, those convicted will probably be severely dealt with.

Peace Between the Two Houses

London, Dec. 19.—When the Education bill, amended by the House of Lords, sent back to the House committee, and returned to the Upper House by the Commons, reached the Lords, the Earl of Crewe, lord president of the council, announced that the Government was not prepared to sacrifice the main principles of the bill, but that, with certain modifications, the most important points might be agreed upon in order to enable the bill to become a law. Lord Crewe added that concessions of a most substantial character would be made. In view of this announcement the House of Lords consented to an adjournment of the debate in order to enable the leaders to reach an agreement.

It is now becoming clear that a historic conflict between the two Houses is not likely to occur. Both Houses are equally desirous of avoiding a conflict, and immediately after Lord Crewe announced in the House of Lords the important concessions the Government was prepared to make it was foreseen that in all probability the bill would be saved.

Big Nations on Friendly Terms

Rome, Dec. 19.—Foreign Minister Tittoni, although not in good health insisted on getting up and going to the chamber of deputies, where he made a statement regarding Italy's foreign policy. He confirmed previous statements regarding Italy's foreign policy. He confirmed previous statements regarding the permanency of the triple alliance, and the good relations existing between Germany and Italy and Austria, and stated that he saw no probability of a conflict between Germany and Great Britain and assured the House that the most friendly relations prevailed among Italy, Great Britain and France.

Weller May or May Not Be Deported

It now seems that it will take $90 to send Thos. Weller back to England. The trouble about getting rid of this undesirable citizen is on account of his having been in Canada before the act regarding the deportation of immigrants was passed, and consequently he does not come within the jurisdiction of the measure.

So that the government will not provide the means for deporting him, and as he has no money of his own, the matter makes a social conundrum.

DO NOT BE A BURDEN

Some Good Advice to Readers of The Times.

A weak stomach and its resulting ills are not natural. With proper care and the use of Mi-o-na stomach tablets, the very worst cases of indigestion or stomach trouble can be completely cured.

It is a sin to deprive oneself of enjoyment in life and become a burden to others through indigestion.

The backaches, headaches, distress after eating, loss of appetite, gulping up of undigested food and gases are not natural. Mi-o-na stomach tablets used for a few days before meals will so strengthen the digestive organs that you can eat anything you want without fear of distress or resulting sickness.

The directions for taking Mi-o-na emphasize the difference between this remedy and the ordinary medicine that is given for indigestion. Mi-o-na is to be used before meals, strengthening the digestive system for the food which is to be eaten, while the ordinary remedy is taken after meals, and simply digests the food without strengthening the stomach.

We absolutely agree that your money will be refunded should you buy a 50-cent box of Mi-o-na stomach tablets and not be satisfied with the results. Mi-o-na is sold by druggists everywhere, or will be sent by mail on receipt of price, 50 cents.

Write today for a free sample package, and also give us your symptoms, and one of the best known stomach specialists will give your case his careful and personal attention without charge. Booth's Hyomei Company, Buffalo, N. Y.

ADVERTISE IN THE TIMES.

BOARD OF TRADE HOLDS A WELL ATTENDED MEETING

Matter of Municipal Ownership Thoroughly Threshed Out

POSSIBLE MAYORS PRESENT

Important Matters Concerning the Future of this City Considered

Last night the Board of Trade held a meeting in the City Council chamber with Mr. D. Hughes-Charles in the chair. Among those present were, Messrs. W. H. Moore, Dean, G. Morrow, Jas. Stevenson, Adam Dawson, John Carnegie, F. Matthews, A. Stevenson, J. Coyle Brown, H. Denne, Van Blaricom and many others.

The minutes of the preceding meeting were read and confirmed.

The secretary, Mr. Quartermaine, then read a communication signed by Mr. R. R. Hall, M.P., addressed to the minister of railways of Canada, asking that the water levels of the lakes and other supplies of the Trent Valley Canal, be kept at a high level. In addition to this a letter from manufacturers in Philadelphia to the same effect was also read. A letter from the Kingston Board of Trade was read, recommending the Dominion Government to deepen the Welland Canal was also read.

Mr. Charles thought that no money should be spent upon the Welland canal until the Trent Valley canal is completed. Mr. Moore thought that the letter should be acknowledged, and that the writers be informed that the local Board has not enough knowledge of the subject to deal with such matters.

Mr. Charles then referred to municipal ownership, talking particularly of the city's buying the gas works. He noted that this matter is now open for discussion.

Mr. Moore said he thought the meeting was called for practical discussion of the subject referred to. The city would have to pay pretty dear to get back the franchise given to the Street Railway Company. In the matter of the gas franchise, it might be noted that in Brandon and other places in the West, the farmers were burning fence rails or their buildings. It is a terrible loss to the city under existing conditions, that the city ever lost the gas franchise. Not a man in the city but is glad that the city has obtained possession of the water works. The speaker then went on to speak of Port Arthur and other places that had acquired local waterworks with beneficial results. The franchises referred to are of the greatest importance to Peterborough.

In Peterborough he thought gas might be reduced to 60c a thousand. By this every man might use gas for cooking purposes. Gas is next to water in importance to Peterborough; this would be a great blow to the high prices of coal in this city. Over the city's dam is passing many horsepower of water at a complete waste. In former days water was allowed to go to waste, thus impelling local factories to go without power. The town was wrong in binding itself up to any company for lighting, the city More than 50 per cent of the prosperity of the city is dependent upon our waterpower.

Mr. McWilliams, after a dead tory argument showed that Mr Stuart of the Quaker Oats Co., had offered to sell the Gas Company, the electric light plants for some $250,000.

Mr. A. Stevenson then went into the advisability or otherwise of municipalities owning the power or otherwise. He then said the C.G.E. Co., and the city are largely tied together.

Mr. Charles said he had always been an advocate of municipal ownership. We want to make Peterborough an attractive residential place, and to attain this there must be cheap light, heat and power.

Mr. McWilliams again spoke as a candidate for the mayoralty, saying that the matter of municipal ownership was a vexed question. The whole question of municipal ownership is dependent upon the class elected to represent the people. If the voters voted as though upon matters affecting their personal interests, things would be all right. He was for municipal ownership. The city should control its own highways and if such rights had been given away, any means should be used to get back the same. The Gas Co., has about 12 miles of gas mains, the gas nowadays. He thought Robt. Stuart had paid a fancy price for the gas and electric plants.

The electric light purchase is more important than that of the Gas Co. Here however the question of power enters. The matter of power, entering into competition with a local company, is a serious consideration. If next year's council goes into holding municipal ownership things can be adjusted.

Mr. B. Hicks—in speaking, thought it was important that the coming executive should give their views on important points affecting municipal ownership.

In regard to the gas proposition, it seems that the council thought if dealing with the gas and electric light busin ss conjunctively. The matter of gas is simply a business proposition whether it would pay the city to buy or not.

Mr. Charles noted that Mr. Stuart's offer of power at $15 a horse power was a good proposition.

Mr. Hicks noted that water running over a dam was not power, it takes money to harness this power.

Mr. Langford said that the city has 1,000 horse power over and above the flow used for drinking water. He advocated using the water now going to waste; if he owned this water this is what he would do.

Ald. McWilliams then referred to the steam heating question, speaking strongly against giving a franchise to such a company.

Mr. V. Eastwood next spoke on the question of municipal ownership.

Mr. Langford got up and showed how the horse power now shown to be owned by the city, was better than property in Cobalt. (Much laughter.)

Ald. Tovey, in view of his knowledge of Glasgow ownership of gas, advocated the system. The lamp referred to by Mr. Moore might go down the river any day.

RAISE SALARIES OF THE CABINET?

Measure May Be Submitted to Legislature Early in the Session.

Toronto, Dec. 18.—It is beginning to be pretty well understood among those on the inside that the Government have in contemplation the question of making a substantial increase in the salaries of the Cabinet Ministers at the next session of the Legislature. Undoubtedly the work in connection with the different departments has vastly increased during the last year or so, and as a corresponding increase has taken place in the revenue, it is felt that such an increase is justified.

The Premier when asked the question today would neither confirm nor deny it, but said, "There is one thing you may be sure of, and that is that if such a measure is brought forward it will not be done in the closing hours of the session, but will be announced in lots of time to be fully debated."

However, he would by no means admit that such a measure has been discussed.

A Yankee Peer Residing in New York

New York, December 18.—Lord Fairfax, after some years' sojourn in London following King Edward's coronation, has decided to remain permanently in America, and has been admitted to the brokerage firm of Messrs. William P. Bonright & Company. Until his last visit to England Lord Fairfax, under the name of Albert Kirby, was in the employ of the New York bankers, Baring, Magoun & Company, in Wall street, but the invitation to be present at the coronation was too much for his republican principles, so he threw up his job and, until quite recently, was a minor lion of the British peerage, for a genuine American peer is something of a novelty in England. He was born in the United States, is thirty-six years of age, is the twelfth baron, and, as he is unmarried, should offer some attraction to title-seeking American maidenhood. The sixth baron—who was a friend of George Washington, and who, republican as he was, probably had a hand in drawing up the constitution—inherited from his mother nearly 6,000,000 acres of land in Virginia, but most of it has since left the family.

RICHEST IN THE WORLD

Osage Indians Participate in Distribution of $310,000 in Cash.

Guthrie, O. T., December 18.—Red Millard, Osage Indian agent, today began the payment of $310,000 to the Osages. This includes $40,000 in interest, $70,000 grass money and $5,000 royalties on gas and oil. The first three days will be devoted to paying full bloods only, after which the payments of others will be made. Agent Millard has announced the mixed bloods need not come to Pawhuska for their money until the last of this week.

The agent requests that the parents or heads of each family have ready and deliver to the agent, when they appear at the pay table, a correct list of their respective families and the age of each member. Parents and guardians will also be required to show regular attendance of eligible children in some recognized school.

At the present the Osages are the richest Indians in the world, it being estimated that with the allotments that they are now taking each member of the tribe will be worth at least $30,000 in lands and annuities.

Ducks Hatched by the Thousand

London, December 19.—Australia has the largest duck farm and the largest incubator in the world. The incubator has a capacity of 11,440 ducks' eggs or 14,080 hens' eggs. The machine is, in fact, a hothouse. It stands in open ground and is constructed of ordinary pine boards, with corrugated iron roof. The egg trays each hold 150 ducks' or 180 hens' eggs, and there are four of these trays end to end in 11 tiers one above the other on each side of the room, making a total of 88.

PALE AND ANXIOUS

Your Countenance Indicates the Body's Awful Struggle for Health.

Impossible to work or think clearly when there is no reserve of vigor, no nourishment in the blood, no supply of nerve energy.

The life of the half-sick man is pitiful, in fact, almost criminal, when bounding strength is so quickly derived from Ferrozone.

This nutritive tonic is guaranteed to strengthen all men, women and children. Weak organs get new force, vital energy is generated. Muscle and fat are added, healthy color is restored, and the blood fairly tingles with new-found life.

Read the evidence of Jno. Carter, of 234 King St. East, Toronto, who says:

"After a severe attack of Grippe my health was almost shattered. I suffered constantly from nervousness and dyspepsia. At night I would waken with terrible palpitation and heart pains. Work became a great effort. At ten in the morning I was so tired and weak I could hardly work another minute.

"Then came a bad attack of rheumatism, which laid me up in bed. I could scarcely lift the weight of a pound, and to stoop or bend was impossible. My druggist recommended Ferrozone, and he knew what he was talking about, for it rebuilt my strength, gave me abundant appetite, better blood, and new nerve energy. The rheumatism has disappeared. I weigh more, feel refreshed and vigorous, and am able to work ten hours a day. Ferrozone did it all."

You will be steadied, toned and strengthened for all time to come with Ferrozone. Get the genuine in 50c boxes or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U. S. A., or Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $2 per year, strictly in advance.

PETERBOROUGH, DECEMBER 18 1906

THE WARD SYSTEM

There is a deep-seated feeling in the minds of many ratepayers that we should go back to the ward system. Some years ago this system was abolished in favor of the present one, with the hope that the personnel of the council would be improved and better legislation would result. That the change has been somewhat disappointing is shown by the dissatisfaction manifest among the people.

The ward and general representation have both commendable features, the chief feature of dissatisfaction with the latter being that every ward is not directly represented in the council, and that aldermen who have no special interest in certain districts are elected to represent them at the council board. On this account it is claimed by some that only portions of the city in which aldermen live are carefully looked after and their interests served.

It is advisable that the people of every ward should have among the aldermen one man at least to whom they may go when they want redress, and by whom their cause will be championed until the wrong complained of shall have been removed. At present a number of the aldermen reside in one ward, and while they have undoubtedly endeavored to serve to the fullest extent the interests of the city as a whole, it is, of course, impossible for an alderman, who is engrossed in his own business and professional affairs, and who lives at one end of the city, to take the same interest in the opposite end as an alderman who resides there.

To have an equal distribution of seats at the council board, so that every portion of the city will be directly represented, it is not necessary to return to the old ward system discarded years ago. This matter can be arranged by the ratepayers themselves if they will turn out to the nomination meeting and place on the list of eligible aldermanic candidates men—tried men, trusty men—from the various wards of the municipality.

While the people have the question of municipal representation under consideration, The Times thinks it would, however, be well for them to give some attention to the proposal which has been endorsed by the Ontario Municipal Association, that aldermen be elected for three-year terms. This proposal would ensure good civic government, by reason of the fact that but three aldermen being elected each year, there would always be a majority of men of municipal experience in the council, while the people, being able to concentrate on the election of three candidates, would be able to select for the vacancies the very best candidates available.

Electric Power in South Africa

British and German Capitalists Unite to Harness Victoria Falls

London, Dec. 17.—British and German capital have united to carry out one of the most interesting engineering undertakings of modern times. It is the harnessing of the Victoria Falls to supply electric power to the Rand and to the innumerable developments of industrial life in the Transvaal and Rhodesia. It is easily the largest single project of this character in the world.

The project is as follows: By a lateral canal on the north side of the river to generate the power at Victoria Falls, and thence transmit it to the Rand. Simultaneously to erect a steam reserve station on the Rand to guard against any interruption of service, and worked in conjunction with this would be a system of hydraulic storage of energy. For this purpose they would prepare an artificial waterfall near the Rand by using all surplus power transmitted from the falls to pump water into a reservoir at a great height. By this means it would be possible in case of breakdown on the main transmission line to supply the whole of the power needed by the mines from generators driven from the reservoir, until either the line had been repaired, or the steam station had had time to get up steam.

THE OLD FARM.

Thought It Brought to One Who Knew It as a Boy.

One morning I was awakened with a strange new joy in my mind. It came to me at that moment with indescribable poignancy, the thought of walking barefoot in cool fresh plow furrows, as I had once done when a boy. So vividly the memory came to me—the high airy world, as it was at that moment, and the boy I was, walking free in the furrows—that the weak tears filled my eyes, the first I had shed in many years. Then I thought of sitting in quiet thickets in old fence corners, the wood behind me rising still, cool, mysterious, and the fields in front stretching away in illimitable pleasantness. I thought of the good smell of cows at milking. You do not know if you do not know! I thought of the sights and sounds, the heat and sweat of the hayfields. I thought of a certain brook I knew when a boy that flowed among alders and wild parsnips, where I waded with a three foot rod for trout. I thought of all these things as a man thinks of his first love. Oh, I craved the soil! I hungered and thirsted for the earth. I was greedy for growing things.

French Sentiment.

A French parricide, who slew his father and mother and was asked upon condemnation what he had to say and why sentence should not be pronounced upon him, entreated the court to have mercy upon a poor orphan. This tale is green with the moss of ages and may not be true, but something like it is true of a woman named Marie Colvet, sentenced by a Paris tribunal to twenty years' imprisonment at hard labor for the murder of her sister. While in court she constantly wore a long crape veil. "Why do you wear this veil?" asked one of the officials, to which she replied that she was in mourning for her sister, showing an affectionate sensibility, the earlier exhibition of which, however, would have been more becoming to her even than the garment.

After Death.

It is very singular how the fact of a man's death often seems to give people a truer idea of his character, whether for good or for evil, than they have ever possessed while he was living and acting among men. Death is so genuine a fact that it excludes falsehood or betrays its emptiness. It is a touchstone that proves the gold and dishonors the baser metal. Could the departed, whoever he may be, return in a week after his decease he would almost invariably find himself at a higher or a lower point than he had formerly occupied in the scale of public appreciation.

A Remarkable Carrier Pigeon.

A remarkable story of the sagacity and physical endurance of a carrier pigeon is told in Nansen's story of his arctic explorations. One day the pigeon tapped at the window of Mrs. Nansen's home in Christiania. It was immediately opened, and the little messenger was covered with kisses and caresses by the explorer's wife. After an absence of thirty months from the cottage the pigeon had brought a note from the explorer over a thousand miles of frozen waste and another thousand of ocean, plain and forest.

Heart Strength

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Positively, not one weak heart in a hundred is, in fact, actually diseased. It is almost always a hidden tiny little nerve that really is all at fault. This obscure nerve—the cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the Heart must continue to fail, and the stomach and kidneys also have their same controlling nerves.

This clearly explains why, as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing Hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative—this popular prescription—is alone directed to these weak and wasting nerve centers. It builds it strengthens; it offers real, genuine heart help.

If you would have strong Hearts, strong digestion, strengthen these nerves—re-establish them as needed, with

BY-LAW NUMBER

A By-law to Provide for Borrowing the Sum of Thirteen Thousand Eight Hundred and Fifty Dollars for the Purpose of Reconstructing and Repairing Bridges in the City of Peterborough.

Passed the day of 1907.

WHEREAS it is necessary to rebuild the bridges over the Creek on Brock and King streets in the said City of Peterborough and to repair the bridges over said Creek on Hield and and Dalhousie streets, and it is desirable in order to make the said bridges more permanent that the ones to be rebuilt should be constructed of iron and surfaced with concrete, and those to be repaired should also be surfaced with concrete, and it is estimated that the cost thereof will be the sum of Thirteen Thousand eight hundred and fifty dollars, and it is desirable to pass this By-law, to be submitted to the vote of the duly qualified electors of the said City of Peterborough on the same day as the annual election for the Municipal Council of the said City for the year 1907, to authorize the borrowing of the said sum of $13,850 for the purposes aforesaid, which is the amount of the debt intended to be created by this By-law.

AND WHEREAS in order to raise the said sum of Thirteen thousand and fifty dollars it will be necessary to issue the debentures of the Corporation of the City of Peterborough for the said amount.

AND WHEREAS the amount of the whole rateable property of the Municipality, according to the last revised assessment roll, being for the year 1907, is the sum of Six million nine hundred and fifty-four thousand seven hundred and thirty-one dollars ($6,954,-731).

AND WHEREAS the amount of the existing debenture debt of the Municipality, exclusive of local improvement debts, but including debt of $291,-000 incurred for the purchase and improvement of the waterworks, is the sum of Seven hundred and four thousand and fifty-five dollars and nine cents ($704,055.09), and there is no part of the principal or interest in arrear.

AND WHEREAS it will require the sum of Five hundred and fifty-four dollars ($554) to be raised annually for a period of twenty years, the currency of the debentures to be issued under and by virtue of this By-law, for paying the interest on the said debt, and the sum of Four hundred and eighty-nine dollars and seventy-five cents ($489.75) to be raised annually during the said period for providing a sinking fund for the payment of the same at maturity—such last mentioned sum being sufficient, with the estimated interest on the investment thereof, to discharge the said debt when the same becomes due, making in all the sum of One thousand and forty-three dollars and seventy-five cents ($1,043.75) to be raised annually as aforesaid, by special rate on the whole rateable property of the Municipality.

THE CORPORATION OF THE CITY OF PETERBOROUGH BY THE COUNCIL THEREOF THEREFORE ENACTS AS FOLLOWS:

1. This By-law shall take effect on the final passing thereof.

2. It shall be lawful for the Council of the said City of Peterborough to borrow the sum of Thirteen Thousand eight hundred and fifty dollars and to issue the debentures of the said Corporation for the said sum, such debentures to be sealed with the Corporate Seal of the City of Peterborough and to be signed by the Mayor and Treasurer and countersigned by the Secretary of the Commissioners of the Peterborough City Trust, and to be made payable within twenty years after the issue thereof, and to bear interest at the rate of four per centum per annum payable half-yearly on the thirtieth day of June and the thirty-first day of December in each year and to have coupons attached thereto for the payment of such interest; such debentures as to principal and interest to be payable at the office of the Secretary of the Commissioners of the Peterborough City Trust in the City of Peterborough.

3. There shall be raised and levied during each year of the currency of the said debentures by a special rate upon all the rateable property of the Municipality, the sum of Five hundred and fifty-four dollars ($554) for payment of interest and the sum of Four hundred and eighty-nine dollars and seventy-five cents ($489.75) as a sinking fund for the payment of the said debt at the maturity thereof, making together the sum of One thousand and forty-three dollars and seventy-five cents ($1,043.75) to be raised annually as aforesaid.

4. The proceeds of the said debentures when sold shall be applied in rebuilding and repairing and surfacing with concrete the said bridges.

5. The votes of the electors of the City of Peterborough qualified to vote upon By-laws for creating debts shall be taken upon this By-law on the same day as the annual election for Municipal Council for the year 1907 and the polls will be held during the same hours, at the same places and by the same Deputy Returning Officers and Poll Clerks as are appointed and fixed for the said annual Municipal election.

6. The eighth day of January, 1907, at the hour of twelve o'clock noon and the City Clerk's Office are hereby fixed as the time when, and the place where, the Clerk will sum up the number of votes given for and against the By-law.

7. The fifth day of January, 1907, at the hour of twelve o'clock noon and the office of the City Clerk are hereby fixed as the time and place for the appointment of persons to attend at the various polling places at the final summing up of the votes by the Clerk respectively, on behalf of the persons interested in and promoting or opposing the passing of the By-law respectively.

Mayor.
Clerk.

NOTICE

Take notice that the foregoing is a true copy of a proposed By-law which has been taken into consideration and which will be finally passed by the Council of the City of Peterborough (in the event of the assent of the electors being obtained thereto) after one month from the first publication hereof in the Morning Times newspaper, the date of which first publication is the fifth day of December, 1906, and that at the hour, day and place therein fixed for taking the votes of the electors the polls will be held.

S. R. ARMSTRONG,
City Clerk.

The Ottawa Cobalt and Silver Mining Company

OTTAWA, ONT.

Incorporated under the Ontario Mining Companies Act.—No Personal Liability.

Authorized Capital, $250,000; Subscribed Capital, $50,000; Unissued and in Treasury, $200,000.

DIRECTORS

D. O'CONNOR JR. ESQ., Contractor, President, Ottawa.
W. J. KIDD Esq., Barrister, Vice-President, Ottawa.
JAMES WILSON Esq., Wholesale Marchant, Ottawa.
ROBERT GORMAN Esq., Gentleman, Ottawa.
J. OGLE CARSS Esq., Barrister, Ottawa.
SOLICITORS—KIDD & CARSS, Ottawa.
BANKERS—THE CROWN BANK OF CANADA, Ottawa.

PROPERTY AND LOCATION

The property consists of forty acres being the south-west quarter of the north half of lot 6 in concession 1 Township of Bucke. The property of this Company lies about three-quarters of a mile north-west from the celebrated Tretheway mine and is identically of the same formation. Vein matter was found in this property right from the surface and subsequent prospecting has revealed several well defined veins. On the main vein several nuggets of native silver were found. A shaft had been sunk to a depth of fourteen feet, when the property was taken over by this Company.

WORK ON THE PROPERTY

At present a camp is being built and active development work is being proceeded with. One half of the Company's property is still unprospected.

BUSINESS PROPOSITION

Of all Cobalt Mining Companies none can show a sounder business basis than this. The organizers had such confidence in the property that they have taken their entire interest in stock and have pooled same for six months, evidencing the fact of their absolute confidence in the value of the Company's property at the par value of $1.00 per share. ONLY 50000 shares are being issued at the present time for active development work. It is confidently expected that this will be sufficient to make this property a shipper, and it is the ambition of the directors that the value of these shares will be, having regard to the fact that only 75,000 shares of the Company will have been issued. The stock is not being offered outside of Ottawa as the directors feel confident this small amount will be oversubscribed here. Address

D. O'CONNOR, President, - - OTTAWA, ONT

All Eyes Are on Nevada

Fortunes are being made Every Day

Co-operation is your opportunity for making honest money.

THE NEVADA QUEEN GOLD MINING COMPANY

Has a most wonderful showing of surface ores, equaling the best found in Tonopah, Goldfield, Fairview, Manhattan and Bullfrog. Gold, Silver and Copper assays show extremely high values.

THE RUSH IS ON!

Many operators are investing large sums of money in the district which is connected by rail with Goldfield. If you wish to be benefitted come in with us. We promise a fair and square deal. The Officers are mining men of good reputation—References of the best. Investigate.

100,000 SHARES

To be sold for FIVE CENTS each for developments only. 100 shares $5.00, the minimum of any one subscription.

Our proposition is worthy of immediate consideration.

A GOOD MINE

pays larger dividends than any other enterprise in the world.

We believe our stock will be selling at ten times the present price within one year. We own SIX CLAIMS (120 acres), fully paid for—no debts; work in progress. We need money to develop the same into what we believe a dividend paying bonanza.

Yours the opportunity! Again we say, Investigate.

For stock and further information, address

The Nevada Queen Gold Mining Co.

L. H. FLANDERS, Sec-Treas., P.O. Box 405, DENVER, Colo

Kansas City Portland Cement Co.

We invite attention of investors to the stock of the Kansas City Portland Cement Co. The preferred stock draws 7 per cent. from date. With each share preferred a share common is given as a bonus. Capitalization conservative. No promotion stock. Every share sold for cash. Officers and directors successful local business men. The plant is nearing completion. No industry in the Southwest shows greater earning capacity than Portland Cement Companies. In many cases the common stocks are selling around par. The Kansas City proposition will have an advantage of 35c. per barrel in freight over any Cement entering this market. This alone is sufficient to pay dividends on the preferred stock. We recommend the purchase of this stock, and believe the common stock a bonanza will be selling at par within a year. Write or call for prospectus and full information.

CLAWSON-STREAN BROKERAGE CO., KANSAS CITY, MO

THE FIRST DIRECTORY.

Quaint Olden Time New York Business and Social Addresses.

In the first directory of New York city, which was issued in 1786, there are some peculiar and quaint entries. For instance, in those days it was not uncommon for medical practitioners to sell drugs, as is shown by the following address, "Samuel Bradhurst, physician and apothecary, 64 Queen (now Pearl) street."

Clergymen of that period were exceedingly precise regarding their titles. Thus, "Abraham Bache, reverend of the Church of England, 20 Smith street," and "Jean Phelan, clergyman of the Church of Rome, 1 Beekman street."

Leon Rogers, tailor, of 6 Broadway, was described as a "breeches maker;" John Bean, 60 Broadway, as "surgeon and tooth puller;" S. Cryger, 69 Cherry street, "punch and porter house;" Jo Delaplaine of 182 Queen street, "Quaker speaker;" D. Hitchcock, 69 Queen street, "house carpenter and undertaker;" John Hogland, 95 Queen street, "fiddler, etc.;" Henry H. Kip, 25 King street, "inspector of pot and pearl ashes;" John Nitchie, 7 Garden street, "starch and hair powder maker;" Samuel B. Webb, 29 Lower Dock street, "gentleman."

In these days, too, there were a great many "gentlewomen" and a few "washwomen." All teachers were then addressed either as "schoolmasters" or "schoolmistresses." The retail dealers on Broadway and Wall and Queen streets called themselves "shopkeepers," the hotel men were "tavern keepers," and the policemen were "watchmen."

THE COLD WATER ORDEAL.

It Was Once an Important Test of Guilt or Innocence.

The cold water ordeal was one of the most important tests of guilt or innocence a few hundred years ago. If the accused floated, he was guilty; if he sank, he was innocent. In the twelfth century some altar vessels were stolen from the cathedral of Laon, and the learned Anselm proposed that a child from each parish and then a child from each household should be put to the test and so on until the guilty one was found. The proposition raised a great outcry, and the people clamored that those who had easiest access to the church be the first to undergo the ordeal.

This looked reasonable enough. So the bishop ordered the six priests of the cathedral to prepare for the test. In the meanwhile Anselm thought to try the experiment himself as a preliminary test. So he was bound and placed in a tub of water. To his great satisfaction as well as discomfort he promptly sank. The day arrived and with it an immense crowd to see the trial. The first priest sank, the second floated, the third sank, the fourth floated, the fifth sank, and then Anselm himself—wonder of wonders—in spite of experiments and protested innocence floated around with the buoyancy of an air bubble. While he was serving his sentence in prison Anselm found time to write a learned treatise on the "Inexpediency of the Water Ordeal and Its Failure in Many Cases."

New Zealand Mocking Birds.

The Poe honey eater is one of the commonest and at the same time handsomest of the New Zealand birds. The neck is ornamented with a frill of curly feathers of a greenish color with white centers, and the throat is adorned with a tuft of white feathers, which has gained for it the popular name of "parson bird," an appellation appropriate not only because of this decoration, but because of the resemblance of its peculiar attitudes when singing to the gesticulations indulged in by exuberant lecturers when wishing to drive home their points. The bird is an excellent mimic and can be taught to repeat short sentences with extraordinary clearness and also to whistle short songs quite as well as a parrot.

Queen Bess' Giant.

Queen Elizabeth had a Flemish porter who was over eight feet high and of great strength, and he was an extremely good natured man. Whenever he met any one who was abnormally tall he used to patronize him in a friendly sort of way, and on one occasion when he met at an inn two soldiers who were over six feet in height he said, "Come under my arms, my little fellows." And, taking them up, he walked down the room with them under his arms as if they had been children, much to their disgust.

Willing to Oblige.

Uncle (to little Bertie, aged five, who is being taken off to bed)—Good night, Bertie. Of course you always remember your aunts and uncles in your prayers? Bertie—Oh, yes, Uncle Felix! Shall I tell you what I say? I say, "God bless Aunty Kitty and make her thin, and God bless Uncle James and make him fat, and God bless Uncle Felix and"—which do you want to be, fat or thin?—Punch.

A Fast Train.

"Is this a fast train?" asked a passenger who was tired of looking at a station at which the train was not supposed to stop.

"Of course it is," was the conductor's reply.

"I thought so. Would you mind my getting out to see what it's fast to?"

Always the Same.

Tailor's Little Boy (walking with his father, sees a street roller)—What's that, papa? Tailor—The street's being newly ironed and pressed.—Figaro.

"Some men can take new furniture and make it look as if it was made a century ago," says a journalist. So can some children.

BIG MEN AND WOMEN. One Day 45 for exact cure. Greatest, most harmless, most certain remedy for all forms of nervous weakness, Drains, Impotency, Spermatorrhoea, Varicocele, Lost Manhood, Impaired Vitality, Nightly Emissions or ulcerations of mucous membranes. Painless, and not nauseous or offensive. Sold by Druggists, or sent in plain wrapper, by express, prepaid, for $5.00, or 6 bottles, $25.00. Pamphlet free. Address THE PEABODY MEDICINE CO., Buffalo, N.Y., U.S.A.

ADVERTISE IN THE TIMES

ATTAR OF ROSES.

How This Delicious and Expensive Perfume Is Made.

The word "attar" is from the Arab "itr" and means perfume. So attar of roses is simply perfume of roses. It is brought from Turkey and the East Indies in small vials and is very costly. Even on the spot where it is manufactured it is extremely dear, because it requires 100,000 well grown roses to yield but 180 grains of attar.

Its high price causes it to be often adulterated with some essential or fixed oil or with spermaceti. However, the adulteration may be detected by testing it in a watch glass with a drop of sulphuric acid. If the attar be pure it will remain colorless, for pure attar of roses is colorless, but if it be adulterated it will become darkened.

In rose fields, where the roses are grown for the purpose of making the attar, the bushes are planted in rows. In the early morning they are laden with beautiful roses, but ere noon comes they are all gathered and their petals distilled in clay stills, with twice their weight of water.

The water that "comes over" is put into perfectly clean vessels and is then carefully covered with damp muslin clothes to keep out dust and insects. It is afterward exposed to the night air or to artificial cold. By morning a film is swept off with a feather and very carefully transferred to a small vial. Night after night this process is repeated until all of the precious oil is separated from the water.

BUSINESS SENSE.

A Well Ordered Desk Means a Well Ordered Mind.

"There's one piece of advice," said the senior partner, "that I'd like to give every young man taking a business position with a desk attached to it. It's this: Keep your desk clean. What I mean by having a desk clean, is keeping everything possible off it except that which is related to the matter in hand. I've observed in my time a good many men in their offices, and I can say that with very few exceptions the real men of affairs are those who are free from clutter.

"With a lot of papers in front of you it's almost a certainty that some hour in the day you're going to be flustered, and very likely it will be just when you want a clear head. The old idea that a mass of material every which way on the desk is a sign that a person is full of business is pretty well outworn. Such a collection not only indicates a lack of order, but also is a sign that nervousness may be expected from the man in the chair. What with filing cabinets and other devices no excuse can be offered nowadays for confusion.

"A well ordered desk means a well ordered mind, a mind taking up one thing at a time and giving it the proper attention. It denotes regularity and concentrated, effective effort."

Many Going Dutch Spelling.

In the good old days when the Dutch were supreme in the administration of the affairs of New Amsterdam everybody knew everybody else, and it mattered little how proper names were spelled. Modern lawyers and civil service reformers would be shocked at the orthographical freedom of the clerks of the burgomaster's court of those times. Here is a sample case taken from the old Dutch records in which the name of a plaintiff is spelled five different ways:

In a case before the court in 1655 Jan "Hackins" is a complainant against the inspector of tobacco, who has certified to Jan "Hockins" that the tobacco was good. The inspector says in his defense that he inspected the tobacco at the request of Jan "Haeckins" on June 28, and aforesaid "Hagins" kept the barrel of tobacco until the 30th without finding out that it was bad. Then Jan "Haskins" has something else to say in the case.

The Charm of a Smile.

A beautiful smile is as potent in the drawing room as on the stage. Every woman can count among her acquaintances the favored few who possess the gift—not a studied, conventional smile that simply tightens the lips across the teeth, but the quick, responsive expression that springs first into the eyes and then to the lips. Another noticeable feature of this gleam of sunshine, which transforms the plainest face and can transfigure the most commonplace surroundings, is that it leaves the features as quickly as it appears.

He Was a Man.

A Scot of Peebles said to his friend MacAndrew, "Mac, I hear ye have fallen in love wi' bonny Kate McAlister."

"Weel, Sanders," Mac replied, "I was near—verry near—daein' it, but the bit lassie had nae siller, so I said to myself, 'Mac, be a man.' And I was a man, and noo I pass her by wi' silent contempt."

Traitor to Her Sex.

"Oh, she's not at all nice," said little Elsie. "She's always wishin' she was a boy."

"Well," replied Mabel, "I wish I was too."

"I know, but she wishes it out loud, so the boys can hear her."

The Battle of Life.

No man lives without jostling and being jostled. In all ways he has to elbow himself through the world, giving and taking offense. His life is a battle in so far as it is an entity at all.—Carlyle.

A Diplomat.

The Child—Mother, which had I better do, go to school in the rain and get soaking wet and probably catch cold and die or just simply get an absent mark against my name?—Exchange.

Kingston, Dec. 18.—J. Ryland was walking along Bilton street yesterday morning when an object fell at his feet and darted for shelter. He made haste to secure it, and found it to be a black lizard six inches long. He believes this reptile fell from the sky. It may have been caught up by the wind at some distant point.

The presence of the salamat in midwinter portends an open season.

50,000 SHARES

OF A

RICH GOLD MINE

IN NEW ONTARIO ALLOTED TO PETERBORO

The undersigned has secured an allottment of 50,000 shares of a rich gold mine in New Ontario. The mine promises to be one of the richest in the Country, and adjoins the great Blum Mine, which is estimated to be worth over $25,000,000. This stock has par value of $1.00 and will be sold for 50c. a share for the next 30 days. It probably will be worth many times its present value in a short time. Now is the time to invest. There is no risk—it is a sure thing. Money needed for developement. For further particulars apply to.

THOS. PATTERSON & CO.
BROKERS,
161 SIMCOE STREET — PETERBORO.

A WOMAN'S CARES.

They Seem to Pursue Her Everywhere Through Life.

"I wish," said the matron, "that some way could be devised to give women vacations. Every summer we hear wails about the poor men who have to stay in the city while their wives flee to seashore and mountain, but really it is the women who never get any vacation. The dictionary defines a vacation as 'intermission of a stated employment.' Now, what intermission of her stated employment does the mother of a family ever get? She may change her environment, but the same old cares and worries are with her still. To a father the material cares of a country cottage may be only an interesting diversion. It is positively exhilarating to him to go walking or swimming or fishing with the children, of whom he sees comparatively little during his working days, but to the mother these things are merely the same old grind. The only way for her to secure an intermission of her stated employment is to get away from her children, and I have yet to learn how that can be accomplished. But it is not only mothers who cannot get any rest. A woman's cares, whether she be married or single, pursue her everywhere. There is no wilderness so wild as to let a woman escape altogether from the cares of the toilet. Neither can she escape unless she flees altogether from society the obligation to be agreeable and entertaining. But who expects a man to be agreeable when he is tired?"—New York Tribune.

DRESS HINTS.

Simplicity of taste in dress is good taste.

In basting the skirt band to the skirt hold the skirt toward you and take care to match the center of the skirt to the center of the belt.

Plush goods and all articles dyed with aniline colors which have faded from exposure to the light will look as bright as new after sponging with chloroform.

A mixture of alcohol, one part, and water, three parts, wonderfully freshens black dresses and suits. They should be sponged all over on the right side, then pressed on the wrong side, while still damp.

It may seem superfluous to mention so simple a matter, yet not all dressmakers or professional seamstresses appreciate the importance of putting patches on with the twill or nap of the goods going the same way in patch and goods patched.

The Right Kind of a Girl.

Let a girl be ever so graceful in the dance, let her be ever so elegant of walk across a drawing room, ever so right in conversation, she must possess some other qualities to convince the great average run of young men that she can be a manager of his home. Frugality, woman instincts of love for home, an eye to the best interests of her husband and the careful training of her children—these are the traits which make the good wife of today and which young men look for in the girls they meet, says Woman's Life. Men may sometimes give the impression that they do not care for common sense in their sweethearts, but there is nothing they so unfailingly demand of their wives.

The Salamander.

Some housewives may not know what the salamander used in cooking is. It is a circular iron plate, to which is attached a long handle. When any article of food is to be browned the salamander is made red hot in the fire and then held over the article. An ordinary fire shovel may be used instead of a salamander, but it is not especially good for the shovel to be heated so intensely.

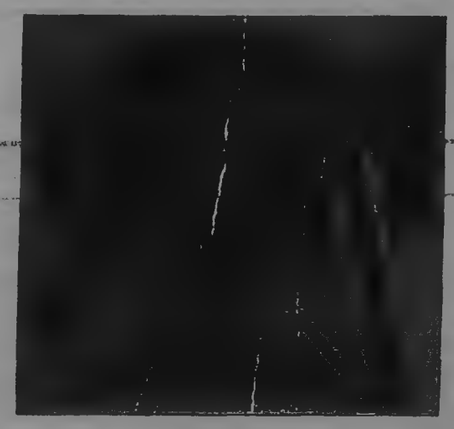
Glass Eyes.

The making of glass eyes, says a writer in London Health, is now so fine an art that an artificial one in a human socket cannot be detected except by an expert. "The most peculiar thing I know of in the trade relates to two of my regular patrons—a man and his wife. They have been married now three years, and to this day neither of them knows that the other is deficient of an eye."

9,600 FEET

Sixty six mining claims.
A crosscut tunnel now in 4,000 feet.
5,600 feet of drifts, shafts and laterals.
A complete 750 h.p turbine electric power plant.
Numerous Veins Explored.
A Big Industrial and Mining Proposition Combined.
A Strong Directorate.
This is real mining.

The Palmer Mountain Tunnel and Power Company has 66 lode mining claims back of it on Palmer Mountain, near the Town of Loomis, Okanogan County, Washington—about 12 miles south of the boundary of British Columbia. A new railway line is nearly completed and will run within 12 miles of the property. Steamers ply on the Okanogan River to within 22 miles of our properties. There is water—not only for mining purposes, but with unlimited possibilities for power generation. There is timber, there are large, well defined veins proved at great depth—and there is development enough done to make this one of the biggest and best mining propositions in the country.



INTERIOR OF TUNNEL

We can do more with $10 ore on our properties than the desert miners can do with $40 or even higher grade ore. We can make money because we have the FACILITIES on our ground. Our ore can be mined, milled, cyanided and bullion produced for not exceeding $3.50 a ton.

Our immense crosscut bore—a picture of which we show herewith—is now in 4,000 feet, is 9 by 9 in the clear (as large as any of the big transportation and drainage tunnels), and is well timbered, equipped with track, ore cars and everything else essential. In the picture shown herewith, the large pipe running at the top of the right side of the tunnel, is for ventilation purposes and connects with a large, powerful blower.

Recent development on the mountain proves that we shall open up at tunnel level (3,500 feet beneath the surface) an enormous body of copper ore.

We have opened up much $10 ore, and we have a higher grade running up to $50 a ton. This is where the big profit comes from. In the nearly TWO MILES OF WORKINGS we have all the facilities for handling a very large production. Back of it all we have a capable mining and business management. We should be very glad to tell you the complete story. We can only hint at it here.

DARREL of THE BLESSED ISLES

By IRVING BACHELLER,

Author of "Eben Holden," "Vri and I," Etc.

COPYRIGHT, 1906, BY LOTHROP PUBLISHING COMPANY

coat. "Loves me, loves me not, loves me, loves me not"—

"She loves you," said Polly, with a smile.

"She loves me—hear that, boy!" said the tinker. "Ah, were she not bespoke! Well, God be praised, I'm happy," he added, filling his pipe.

"And seventy," said Polly.

"Aye, threescore an' ten—small an' close together, now, as I look off at them, like a flock o' pigeons in the sky."

"What do you think?" said Polly as she dropped her knitting. "The two old maids are coming tonight."

"The two old maids," said Darrel. "'Tis a sign an' a wonder."

"Oh, a great change has come over them," Polly went on. "It's all the work o' the teacher. You know he really coaxed them into sliding with him last winter."

"I heard of it. The gay Philander!" said Darrel, laughing merrily. "Ah, he's a wonder with the maidens!"

"I know it," said Polly, with a sigh.

Trove was idly brushing the mat of grass with a walking stick. He loved fun, but he had no conceit for this kind of banter.

"It was one of my best accomplishments," said he, blushing. "I taught them that there was really a world outside their house and that men were not all as lions, seeking whom they might devour."

Soon the widow and her boys came, their pails full of berries.

"We cannot shake hands with you," said Mrs. Vaughn, her fingers red with the berry stain.

"Blood o' the old earth!" said Darrel. "How fares the clock?"

"It's too slow, Polly says."

"Ah, time lags when love is on the way," Darrel answered.

"Foolish child! A little while ago she was a baby, an' now she is in love."

"Ah, let the girl love," said Darrel, patting the red cheek of Polly, "an' bless God she loves a worthy lad."

"You'd better fix the clock," said Polly, smiling. "It is too fast now."

"So is the beat o' thy heart," Darrel answered, a merry look in his eyes, "an' the clock is keeping pace."

Trove got up, with a laugh, and went away, the boys following.

"I'm worried about him," the widow whispered. "For a long time he hasn't been himself."

"It's the trouble, poor lad! 'Twill soon be over," said Darrel hopefully.

There were now tears in the eyes of Polly.

"I do not think he loves me any more," said she, her lips trembling.

"Speak not so, dear child. Indeed he loves thee."

"I have done everything to please him," said Polly in broken words, her face covered with her handkerchief.

"I wondered what was the matter with you, Polly," said her mother tenderly.

"Dear, dear child!" said the tinker, rising and patting her head. "The chaplet on thy brow an' thee weeping, fairest flower of all!"

"I have wished that I was dead!" The words came in a little moan between sobs.

"Because love hath led thee to the great river o' tears? Nay, child: 'tis a winding river an' crosses all the roads."

He had taken her handkerchief and with a tender touch dried her eyes.

"Now I can see thee smiling, an' thy lashes, child—they are like the spray o' the fern tip when the dew is on it."

Polly rose and went away into the house. Darrel wiped his eyes, and the widow sat, her chin upon her hand, looking down sadly and thoughtfully. Darrel was first to speak.

"Did it ever occur to ye, Martha Vaughn, this child o' thine is near a woman, but has seen nothing o' the world?"

"I think of that often," said she, the mother's feeling in her voice.

"Well, if I understand him, it's a point of honor with the boy not to pledge her to marriage until she has seen more o' life an' made sure of her own heart. Now, consider this: Let her go to the school at Hillsborough, an' I'll pay the cost."

The widow looked up at him without speaking.

"I'm an old man near the end o' the journey, an' ye've known me many years," Darrel went on. "There's nothing can be said against it. Nay; I'll have no thanks. Would ye thank the money itself, the bits o' paper? No; nor Roderick Darrel, who in this business is no more worthy o' gratitude. Hush! Who comes?"

It was Polly herself in a short red skirt, her arms bare to the elbows. She began to busy herself about the house.

"Too bad you took off that pretty dress, Polly," said Trove when he returned.

She came near and whispered to him. "This," said she, looking down sadly, "is like the one I wore when you first came."

"Well, first I thought of your arms," said he. "They were so lovely! Then of your eyes and face and queenly, but now I think only of the one thing, Polly."

The girl was happy now and went on with the work, singing, while Trove lent a hand.

A score of people came up the hill from Pleasant valley that night. Trove went after the old maids and came with them in the chaise at supper time. There were two wagon loads of young people, and before dusk torn and their wives came squeezing up the roadway and in at the little gate.

Two or three of the older men wore suits of black broadcloth the stock and rolling collar—relics of "old doctrine" back in Vermont or Massachusetts or Connecticut. Most were in rough homespun over white shirts with no cuffs or collar. All gathered about Darrel, who sat smoking outside the door. He rose and greeted each one of the women with a bow and a compliment. The tinker was a man of unfailing courtesy, and one thing in him was extremely odd—even there in that land of pure democracy—he treated a scrub-woman with the same politeness he would have accorded the finest lady. But he was in no sense a flatterer. None that saw him often were long in ignorance of that. His rebuke was even quicker than his compliment, as many had reason to know.

Half an hour before dark the yard was thronged with people. They listened, with smiles or a faint ripple of merry feeling, as he greeted each.

"Good evening, Mrs. Beach," he would say. "Ah, the snow is falling on thy head. An' the sunlight upon thine, dear girl," he added, taking the hand of the woman's daughter.

"An' here's Mr. Tilly back from the far west," he continued. "How fare ye, sor?"

"I'm well, but a little too fat," said Thurston Tilly.

"Well, sor, unless it make thy heart heavy, be content.

"Good evening Mrs. Hooper. That is a cunning hand with the pies.

"Ah, Mrs. Rood, may the mouse never leave thy meal bag with a tear in his eye.

"Not a gray hair in thy head, Miss Tower, nor even a gray thought.

"An' here's Mrs. Barbour. 'Twill make me sweat to carry me pride now. How goes the battle?"

"The Lord has given me sore affliction," said she.

"Nay, dear woman," said the tinker in that tone so kindly and restless, "do not think the Lord is hitting thee over the ears. It is the law o' life.

"Good evening, elder. What in the

He stood with his arms around the two.

difference between thy work an' mine?"

"I hadn't thought of that."

"Ah, thine is the dial of eternity, mine that o' time." And so he greeted all and sat down, filling his pipe.

"Now, Weston, out with the merry fiddle," said he, "an' see it gives us happy thoughts."

"Do you see that scar?" he heard Tilly saying.

"I do, sor."

"Well, a man shot me there."

"An' what for?" the tinker inquired.

"I was telling him a story. It cured me. Do you carry a gun?"

"I do not, sor."

"Well, then I'll tell you about the man I w—"

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 15 by 1,500 feet.

The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,

Deputy of the Minister of the Interior.

IMPORTANT NEWS FROM THE COPPER BELT OF SONORA

A New Copper Mine that is Destined to Rank Among Mexico's Greatest.

Hermosillo, Mexico, November 3—Local investors are showing unusual interest in copper stocks—particularly in the stocks of Sonora properties that have passed beyond the stage of mere prospects.

The property that is the strongest in public favor is the Lluvia de Cobre, located about 80 miles north from Hermosillo and about 50 miles west from Cabeza on the Sonora Railway. This is considered one of the most valuable copper properties in the state and much of the stock is held by Americans, bankers and mining men of Boston, Philadelphia and other eastern cities.

The property has been examined and reported on by some of the best known copper experts and engineers in the South-West—among the most prominent being Messrs. J. J. Wood and Thomas Bentley, well known as expert assayers through their work in this line for the Banco de Sonora, one of the largest banking institutions of Mexico. Exhaustive reports are also made by D. J. Thompson, L. H. Jackson, and others. The verdict of all is that this is a property of great value, and that from every indication it is soon to become another Greene Consolidated. Those familiar with the great Greene property say that no two properties in America are so nearly alike in every way as are these two kings of Sonora.

During the past month some big developments have been made almost [illegible] which were made in the Josephine shaft some time ago. [illegible] original ledges. This [illegible] penetrated for some thing [illegible] ore body, averaging from 2 per cent to 30 per cent in copper, and is one of the richest smelting ores known in the world's own fluxes.

Following the rich strike the shaft penetrated an [illegible] deposit of iron sprinkled throughout with native copper, and just a few days ago sent into the second layer of sulphides and with every indication present that the permanent sulphide belt will be reached at almost any moment. When that is accomplished the stock of this company should, and no doubt will, advance to the value of par [illegible] first certainly [illegible] per share. Conservative investors are taking up this second offering very rapidly, confident that the price will be more than double that at which [illegible] sold.

The president, vice-president and other officers and directors of the Lluvia de Cobre Mining Co., of Kansas City, Mo., [illegible] special several days at Cinco Minas and were more than gratified with the progress that is being made. Mr. W. T. Lake is in charge of the office in Hermosillo, and Mr. J. C. Worthington, General Manager, is directing the work at the mine.

The property is well equipped for [illegible] and other modern machinery. The [illegible] two tool houses, store houses, and the [illegible] for the [illegible] are all well built and in first class condition. A full crew of men is working in two shifts, and the work of sinking the Josephine shaft [illegible] through the permanent sulphide belt is being pushed with all possible speed. The mines are of the latter class in Mexico industries, are liberal and will paid and well satisfied with the treatment they are receiving from Manager Worthington in the city of Mexico, labor trouble is unknown.

The original holdings of the Lluvia de Cobre Mining Co consisted of about 151 acres, but 120 acres of valuable adjoining property was added by the officers on their recent visit, making the present holdings 271 acres. For additional territory will mean much to the future of the already valuable property. Before the present offering of stock was placed on the market the officers of the company had already been developing the property for two years and had spent thousands of dollars of their own money in carrying the mine to its present stage. The company need larger equipment to carry on the large work outlined, and for that purpose stock is now being sold.

A smelter will probably be a proposition of the early future, but for the present Greene's big custom smelter at Guaymas will handle all the ore when shipments begin. The ore can be milled at a very small cost, owing to its unusually fine smelting qualities. Good wagon roads lead direct from the mine to Cirbo, and the ore can be transported at a very reasonable cost. Timber, fuel and water are near at hand and can be had at very small cost in fact, everything is present in the Lluvia for the making of a very [illegible] and that it will become such is the very [illegible] of many of the most [illegible] mining engineers of Mexico.

LLUVIA DE COBRE HAS HIGH VALUE ORES.

The average of the many assays made on ores taken from all parts of the Lluvia de Cobre property, show an unusually high value.

Some of the most capable and experienced mining engineers in this country and Mexico have examined the Lluvia de Cobre property, and it is the general opinion of all that Lluvia de Cobre ores will run probably higher in value than the ores from many of the world's other greatest copper mines.

Following is a list of some of the worlds greatest copper producers and the average value of the ores handled

Anaconda	1.25
Calumet & Hecla	2.5
Greene Consolidated	7.1
Calcey	1.5
Rio Tinto	4.39
Cobre Verde	3.
Osceola	1.
Parrot	2.

When it is remembered that all these properties are valued at millions of dollars and have paid dividends of many millions more, and that the average valuation of the ores produced by these eight big properties is less than 15 per cent, it will readily be seen what a valuable property we have in the Lluvia de Cobre, with the possibility of opening up an enormous body of ore averaging probably double this amount.

A BIG NEW SMELTER CLOSE AT HAND.

Colonel Greene is now building a large custom smelter at Guaymas on the coast of the Gulf of California. This will be one of the largest and most modern smelters in the State of Sonora, and as it is directly south of our property and at the terminus of the Sonora Railway, it will give us excellent smelting facilities until such time as we have our own smelter in operation.

MINING ACTIVITY IN MEXICO.

(From 1906 Edition of Stevens Copper Handbook, the world's most eminent authority on Copper).

MEXICO—The Republic of Mexico has made relatively greater strides in copper production during the past five years than any other country in the world. Not only has there been a most remarkable relative gain, but the actual gain in output puts Mexico an exceedingly close second to the United States in point of increase. That Mexico will soon lead Spain, and rank second only to the United States, seems assured. The Boleo has long been an important mine, but the copper production of all other Mexican mines was but 1,200 tons so recently as 1896. Since that time the Greene, Inguarran, Dandela, Moctezuma and other great properties have been developed. Those interested in copper will do well to keep an eye on Mexico for the next two years.

Mexico has upwards of 200 smelters of all sorts, mostly very crude, but with a few of the most modern type and of immense size, notable among the latter being the fine plants of the American Smelting and Refining Co. at Aguascalientes, Monterey and San Luis Potosi. There are also fine reduction plants of the Boleo, Green Consolidated, Descubridora and other copper mines of the country.

WATER AND FUEL.

In the development of the Greene property one of the most serious problems that presented itself was the water supply.

No such difficulties are encountered at the Lluvia de Cobre. The property is located in a draw, and water can be secured in sufficient quantities to supply all possible needs at any time in the future.

Fuel timber grows in abundance in the immediate neighborhood and can be cut and prepared for use at a very small cost.

Expert Testimony as to the Lluvia de Cobre Mine

FROM A PROMINENT MINING ENGINEER.

"I have visited the Lluvia de Cobre property various times. My opinion has always been that it was valuable mineral ground. Subsequent development work has proven this opinion to be correct."

H. H. LIGHT, E. M.,
Hermosillo, Mex.

FROM THE MANAGER OF WELLS-FARGO EXPRESS CO. FOR THE STATE OF SONORA.

"I have been to the Lluvia de Cobre properties and can say that in my opinion they have a fine future, with very little development work. I have talked the matter over with expert mining men and find that my opinion is well based and would not be surprised to see this property rise to be among the biggest in the state."

L. P. GAXIOLA.
Hermosillo, Mex.

FROM THE HERMOSILLO MANAGER OF THE LLUVIA DE COBRE MINE.

"I had one of the most beautiful homes in this city, and exchanged it for a block of Lluvia de Cobre stock before there was any amount of work done, and can now get my home back in exchange for ONE-FIFTH of the same stock that I received for the property, so you see that our people here think well of the Lluvia's future."

W. T. LAKE.

The Lluvia de Cobre Mining Co. is really a close corporation, the controlling interest being held by well known Kansas City business men. As to the business standing and integrity of the Officers and Directors of this Company we refer by special permission to The Fidelity Trust Company or The Union Avenue Bank of Commerce, both of Kansas City, Mo.

LLUVIA DE COBRE Stock now 35 Cents a Share - - Par Value $1.00

The original incorporators of the Lluvia de Cobre Mining Company have already expended thousands of dollars of their own money in the purchase and development of the property to its present stage.

These developments prove that the Lluvia de Cobre is destined to become one of the world's leading copper producers, and that it justifies much more extensive and more rapid development than it is now receiving. We want money in order that we may greatly increase the working force, purchase more machinery and equipment of all kinds. We want to rush the work of sinking the Josephine shaft (which at this time has reached a depth of 80 feet) just as rapidly as possible. We want to thoroughly open up other [illegible] property and then install mills, smelters, additional work houses, store houses—everything necessary to make this the really big mine that it can surely be made with the necessary capital behind it.

Only 400,000 shares are to be sold for this purpose, as this will secure sufficient money to meet all requirements. 100,000 shares of this stock will be sold at 35 cents per share. It is no reflection upon the value of this great property to admit that we must seek outside financial assistance. The great Greene Consolidated would not be the immense property it is today had it not been for the aid of the investing public. The Calumet and Hecla, Anaconda, Boston and Montana—these and all other big mining properties owe their present greatness to the co-operation and assistance of the "outside investor."

COPPER IS THE WORLD'S GREATEST FORTUNE MAKER.

Every argument that could be desired points to copper as the king of all mining investments.

Electricity, the one great factor in the modernization of the world, is [illegible] even now the world's supply of copper is not sufficient to supply the demand for this one industry alone.

"Never in memory has copper mining been as profitable as it is today. Not only has the increasing consumption and high market prices initiated prosperity, but the improvements in mining methods have made it possible to handle all grades of ore economically."—The Mining World, March 31, 1906.

"Copper stocks offer the biggest opportunity for money making in the world today."—Thomas W. Lawson.

Lawson, we have verified your conclusions as to the value of copper stocks as an investment."—H. H. Rogers.

No investment is so safe, so permanent, so profitable, so sure to [illegible] as copper.

My Personal Guarantee to Investors

I have told you just what must necessarily be done before this property can be made the big producer that I feel it is destined to become, and have told you that the company needs more money to obtain the results and why you are given the opportunity to assist in furnishing it.

I believe this proposition offers far greater returns per dollar invested than any other investment proposition on the market.

So confident am I of the future of this great property that I have this proposition to make to you

Subscribe at once for as much of this stock as you feel that you can carry, investigate the mine and the men behind it in any and every way you please for thirty days, if you are not entirely satisfied with your investment at the end of that time, you have but to write me to that effect and I will return every cent of your money. I want you to feel that you positively cannot go wrong by making an investment in Lluvia de Cobre stock. I want you to decide the question of making this investment, and I want you to give me your order at the earliest possible moment.

Weigh this proposition in the balance—let the facts in the case, as they impress you, decide its true worth. I leave it to your good judgment as to whether you shall be one of the chosen few who shall [illegible] of the Lluvia de Cobre another Greene Consolidated.

CHAS M GARDNER, Fiscal Agent,
Lluvia de Cobre Mining Co.

JOIN WITH US AND HELP MAKE ANOTHER GREENE CONSOLIDATED.

Send in your order for any amount of stock, from 50 to 10,000 shares. Remit one-fifth cash with your order, and pay the balance in four monthly payments.

By this plan you will secure your whole reservation at the present price of 35 cents per share, no matter how much the price may have advanced in the next five months.

No orders accepted for less than 50 shares. No preferred stock, no bonds. All stock fully paid and non-assessable, par value $1. The stock will rapidly advance in price, but by making your reservation large you will be getting your stock five months from now at the same price as now, while others may be paying several times what you pay.

Upon completion of your payments, certificate will be issued for stock purchased. Should you discontinue payments at any time, you will receive certificate for number of shares paid for.

PAYMENTS FOR FIVE MONTHS.

50 shares	$ 9.50 per month
100 shares	7.00 per month
200 shares	14.00 per month
300 shares	21.00 per month
400 shares	28.00 per month
500 shares	35.00 per month
800 shares	56.00 per month
1000 shares	70.00 per month
1200 shares	84.00 per month
2000 shares	140.00 per month
5000 shares	350.00 per month
10000 shares	700.00 per month

Officers and Directors

The success of any mining company depends first, of course, upon the property itself, but next, and of almost equal importance, is the personnel of the men back of the whole proposition.

We publish herewith a complete list of the officers and directors of the Lluvia de Cobre Mining Co. We do not believe a more trustworthy or more efficient organization was ever effected. Each and every man has made a pronounced and unusual success in some one particular line of business endeavor and is exceptionally well suited to the duties required by his connection with this company.

Investigate this proposition and the men behind it in any and every way you please—and let the verdict of those who know assist you in deciding whether or not these gentlemen are worthy of your trust and confidence.

YANKEE CREWS AND SCULLERS

Barred From English Henley Until Agreement is Completed.

London, Dec. 17.—By a resolution passed by the regatta stewards at Henley, all American crews and scullers are debarred in future from competing at the Henley regatta until the American rowing authorities complete an agreement with the Henley committee such as already exists with the French, German, Dutch, Belgian and Canadian associations.

The question was brought up by Mr Fletcher, the Oxford coach, as an outcome of the trouble in the Vesper Boat Club of Philadelphia last June, and after a lengthy discussion, the general rules of the regatta were ordered to be altered in accordance with this resolution, which was unanimously approved.

"No entries shall be accepted of any crew or sculler [illegible] United Kingdom belonging to a club not affiliated to a [illegible] having an agreement with the committee in charge of the management of the Henley regatta."

Australia is affected by the resolution.

Advantages of Kilts.

The London Tailor and Cutter observes with its usual keen insight into human nature: "No one has yet suggested the utility of kilts. They never bag at the knees, nor do they ever require patching at that part, and their hygienic properties are proverbial."

Where He Saved.

Two residents of a suburban neighborhood were talking of the merits of gas and electricity and their comparative cost. "Well, I haven't figured it out carefully," said the man who used electric light, "but I know I save a lot of [illegible]."

COCHINEAL.

The Way the Tiny Insects Live and How They Are Gathered.

Merry millions of little bugiets support the vast cochineal industries. Where the tiny cochineal insect comes from is something of a mystery, but he does come wherever the nopal plant grows and for a long time was thought to be a seed or a floweret of the plant. The living female insect is twice as large as the male, weighs one-tenth of a grain and loses much weight in drying, so that 70,000 are needed to make one pound. During the rainy season many millions of the creatures are drowned or washed off the plants, so that when the long dry summer comes there are but a few survivors on each plant. But these multiply so rapidly that before long the plants are covered. The last act of the female's life is to deposit a large number of eggs, on which her dead body rests, protecting them from the burning rays of the sun until the little ones emerge. In about six weeks after the beginning of the dry season comes the first harvest. The plantation laborers make the round of the nopalry and with a brush go over the entire plant, sweeping the creatures into a bag. They then are killed by immersion in hot water, by exposure to steam or by drying in hot ovens. The hot water or steam makes them a dark reddish brown or black cochineal. The hot ovens make them a red gray hue or silver cochineal. The females outnumber the males by at least 200 to 1, a fortunate fact for the planter, since the males are of no use to him whatever.

THE CABS OF NEW YORK.

They Are Not an Integral Part of the Life of the City.

The cab is no integral part of New York life. Venice without the gondola were as unthinkable as a woman without hair. No little of London's compelling charm is in its swift rolliux hansoms. These things we know. But one can't think of New York in terms of cabs. Once upon a time I was in exile. Only in memory did the great city rise before me, and what I saw was this: Huge canyons of stone and steel, filled with noise and darkness, through which great yellow worms crawled, one after the other, in mid air. That is the picture of New York that haunts the exile, even as the old-lawed Venetian is obsessed by slim black gondolas cutting across lanes of moonlight. Your true New Yorker is a steam projected, electrically carted person. Only on exceptional moments of gloom or gayety does he ride "in a carriage and pair." He is carriage ridden to a funeral. He cabs it in wifey moments, when the fear of God is not in him. There are only 2,000 licensed cabs and hacks on the island of Manhattan. Others there are, of course, plying piratically in the dark quarters, but even with these thrown in the reckoning is small. No; the New Yorker is not a cabby person.—Vance Thompson in Outing Magazine.

A College in Bokhara.

There lay behind the great arch and the domes and the minarets a retired precinct of ancient trees and shaded walks, a grove in the midst of a city, colonnaded in quadrangle by the pointed arches of the students' cells. Under the trees was a sort of summer house or pavilion. Two or three young men were walking in an avenue against the farther colonnade, and on the stone steps of a wide, shaded pool sat several mullahs on their praying rugs. We visited a number of the students in their cells—monastic little brick walled rooms where they live the year around there are no vacations in Mussulman colleges and for years on end. It is not unusual for a student after passing the primary school to spend as much as fifteen or twenty years at his higher studies, though usually in such a long course he will go through several different colleges in the order of advancement. Quiet men, these students, mild eyed, patient, often middle aged.

Girl Slaves in China.

A native writer in a Chinese publication remarks: "When a girl is sold in China she becomes the slave of her owner and a part of his property. She no longer retains her freeborn rights, but surrenders them all to the will of those who own her. She receives no compensation for her labor, but is obliged to accept such raiment and food as her owners may be pleased to give her. In cases of tyranny or gross cruelty she cannot appeal for redress. She may be resold, given away or cast off in the streets at the arbitrary will of her master. All freedom is denied her, and she remains a tool and chattel in the hands of her owner until she is sold again or until death releases her from her unwilling fate."

Effects of Deafness.

An ear specialist insists that deafness affects all the senses. He says the reason for this is that the ear is only one servant of the sensory service of the human system. Loss of hearing is really a partial paralysis of the brain, but owing to the sympathetic connection of the various sensory nerve centers of the brain the others indirectly concerned have to combat for their very life the demoralizing influence of the affected center.

Consideration of a Motorist.

We hold no brief for the motorists, says the Bystander, but "honor where honor is due." On a country road the other day we saw a motorist deliberately avoid running over an animal on the highway! To be exact, it was a circus elephant.—St. James' Gazette.

In the capital of Honduras all the houses in the poorer quarter are made of mahogany, which costs less than stone there.

OTTAWA, ONT.

Architectural Competition for Departmental and Justice Building.

COMPETITIVE drawings are invited for Departmental and Justice Buildings to be erected for the Dominion Government at Ottawa, Ont.

The author of the best design will be awarded a premium of $5,000, the second best $4,000, the third best $3,000, and the fourth best $2,000.

Drawings will be received not later than April 15th, 1907, and are to be addressed to the Secretary of the Department of Public Works, Ottawa.

This competition is open to Canadian Architects who have been resident in Canada for one year or more.

Conditions of competition stating requirements of buildings and maps showing site &c. may be had on application to the undersigned.

By order,
FRED. GELINAS,
Secretary.

Department of Public Works,
Ottawa, December 13, 1906.

Beware of Mercury

You May be Using this Harmful Drug and Not Know it.

A favorite method of administering this deleterious drug is in cathartic pills. Beware of "quick-result" articles, they may do more harm than good.

Drastic cathartics will weaken the strongest. With old people they are a positive menace to life.

Merely to restore normal bowel action and gently stimulate the liver is all that the wise physician recommends.

To keep the system pure and clean, nothing is so efficacious, as the vegetable pills of Dr. Hamilton, which are composed of such herbs as mandrake, butternut and dandelion; they contain not an atom of any substance that could injure even an infant.

By their certain action on the Liver Dr. Hamilton's Pills cause bile to be secreted which forms the stimulus that moves the bowels; this is nature's own method and the best one.

Mr R. Hannaby, of French River, Ont., writes as follows; "I was inclined to Bilious attacks and frequently was too ill to work. Must remedies purged and weakened my bowels, but Dr Hamilton's Pills greatly stimulated my liver, and by strengthening the stomach made a perfect cure. My health has been just splendid since I used Dr. Hamilton's Pills."

Get Dr. Hamilton's Pills from your druggist or storekeeper. 25c per box or five boxes for $1 By mail from N. C Polson & Co Hartford, Conn., U.S.A., or Kingston, Ont.

Opposite Post Office, Principal.

LOCAL INCIDENTS

By The Times Man on the Street

—The Collegiate Institute exams begin today.

—There are sixteen prisoners in the county jail at present.

—James Kirk a well known Cobourg auctioneer is dead.

—The open air skating rink of Knox church will open on Thursday night next.

—The members of All Saints Guild held a regular meeting yesterday evening.

—The annual Sunday school tea of the Murray street church, was held last night.

—A meeting of the Young Men's Guild of St. Andrew's church was held yesterday.

—An anonymous gift of $5.00 was received by the secretary through the post yesterday morning.

—Major Langford, who has been requested by several large and influential ratepayers to obstest the mayoralty, stated yesterday that he would not be a candidate.

—Local milk dealers think of forcing their patrons to pay seven cents a quart for the lacteal fluid. If so people should get cows or import milk. This combine business is getting too frequent.

Charter Given to Rich. Hall & Son

The last issue of the Ontario Gazette contains the following of local interest.—

"Public notice is hereby given that under the Ontario Companies Act, His Honor, the Lieutenant-Governor-in-Council has, by Letters Patent under the Great Seal of the Province of Ontario, bearing date the 28th day of November, 1906, been pleased to grant a charter, creating and constituting Richard Hall, Samuel Dickson Hall, and Robert Henry Rose, merchants; and Richard Hamilton Hall, student, all of the city of Peterborough, in the county of Peterborough, and Province of Ontario, and John Herbert Hall of the City of Toronto, in the county of York, and Province of Ontario, aforesaid, manufacturer, and any others who have become subscribers to the memorandum of agreement of the company, and their successors, respectively, a corporation for the purposes and objects following, that is to say; '(a) To acquire and take over as a going concern the business now carried on by the said City of Peterborough, by the said Richard Hall and Samuel Dickson Hall, under the style name of Richard Hall & Son; (b) To establish and conduct a general departmental store, and (c) To manufacture, import, export, buy, sell and deal in goods, wares and merchandise, with incidental and subsidiary powers;" the corporate name of the company to be Richard Hall & Son, Limited; the share capital of the company to be one hundred and fifty thousand dollars, divided into one thousand five hundred shares of one hundred dollars each, the Head Office of the company is to be at the said City of Peterborough, and the provisional directors of the company to be Richard Hall, Samuel Dickson Hall and John Herbert Hall, hereinbefore mentioned.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science have proven catarrh to be a constitutional disease and therefore requires constitutional treatment, Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Fire, Water and Light Committee in Session

Fire Alarm System Has Been Overhauled—New Electric Alarm System.

The Fire, Water and Light Committee of the City Council met last night, when the following members were present; Chairman Ald. Johnston and Aldermen Ball, Elliott, Graham and Mason.

Advice was received from T. K. Bradburn that the insurance risk on fire hall expires December 20th.

Ald. Graham moved, seconded by Ald. Elliott,—That this risk be renewed for one month.—Carried

F. Doan, local manager Bell Telephone Co., wrote the committee that the fire alarm system has been overhauled.—Received.

Ald. Ball moved, seconded by Ald. Elliott,—That H. Carveth be instructed to finish the stall in the south half of stable in new fire hall, and wainscoat the bathroom, the cost to be $140, to be paid on certificate of the architect.—Carried.

Ald. Elliott moved, seconded by Ald. Graham,—That the matter of locating the electric light on King St., west of Park street, be left to the hairman.—Carried.

Ald Elliott moved, seconded by Ald Mason.—That the chairman be authorized to interview the Canadian Machine Telephone Co., to obtain information respecting using their poles and conduits for the purpose of the fire alarm system, and to report to the committee.—Carried.

The solicitor asked if information as to J. J. Turner & Sons' bylaw, re fixed assessment be included in notice of legislation. The committee agreed that it should be included.

The committee then adjourned.

Royal Black Preceptory Banquet

Last night a most interesting banquet was held in McCallum's restaurant on George street, when the Royal Black Preceptory, No. 201, Peterborough, entertained their fellow members and friends at an annual banquet. This banquet, held in commemoration of the closing of the Gates of Derry, was enthusiastically attended and patriotically enthusive.

At a few minutes after eight o'clock the members of the Royal Black Preceptory and their invited guests gathered to the strength of about 85 at the Orange Hall on Simcoe street. From this headquarters of local Orangeism, at about 8.30 those assembled repaired to McCallum's restaurant, a few doors south of the Times office. When called to order, those present took their seats with Preceptor W. H. G. Armstrong in the chair. After Mr. McCallum's admirable five-course dinner, consisting of soup, fish, entrees, pieces de resistance, and pastry had been relegated to the department of the interior, speeches and songs became in order A most pleasant evening was spent, and all present had a very enjoyable time. The meeting broke up some time after misguided cocks heralded the approach of day at midnight.

Mr. H. T. Everett, chairman of the committee of management, had done his work well as had Mr. Clarke the secretary.

Local Collegiate Institute Echoes Out

The first issue of Collegiate Echoes the Peterborough Collegiate Institute periodical, was issued from the Review office yesterday It is a great credit to all concerned in its production. There are sixteen pages and cover, fourteen pages being devoted entirely to the literary portion, while there are two pages of advertisements besides those on the cover.

The articles in the Echoes are well written, and give evidence of careful study and hard thinking.

The Echoes will appear monthly during the school year and will be in charge of E. A. Mann, editor-in-chief; G. Crane, M. Burnett, J. Campbell and H. Leary, junior editors, and E. H. Wood, H. Blackwell, and A. H Monroe, business board.

Dr. J. R. Jones Improving.

The many friends in this city of Dr. J. R. Jones of Winnipeg, son-in-law of Mrs. J. F. Dennistoun, will be pleased to learn that since the accident sustained by the doctor, that he is improving. It appears that the doctor's horse, suddenly bolted and upset the cutter. The doctor was thrown against a telegraph pole, and badly shaken up. Mr. R. M Dennistoun, who had intended to leave for Winnipeg yesterday, has cancelled his arrangements.

Mrs. Fairbairn Passed Away.

In our issue of yesterday, The Times noted that Mrs. Fairbairn, a sister of Mr. G. M. Roger of this city, was dangerously ill in Chicago, and that Dr. Jessie Birnie had gone to her aid. We regret to report that word was received yesterday that Mrs. Fairbairn has passed away.

A Trite Saying.

It is a trite saying that no man is stronger than his stomach. Dr. Pierce's Golden Medical Discovery strengthens the stomach—puts it in shape to make pure, rich blood—helps the liver and kidneys to expel the poisons from the body and thus cures both liver and kidney troubles. If you take this natural blood purifier and tonic, you will assist your system in manufacturing each day a pint of rich, red blood, that is invigorating to the brain and nerves. The weak, nervous, run-down, debilitated condition which so many people suffer from, is usually the effect of poisons in the blood; it is often indicated by pimples or boils appearing on the skin, the face becomes thin and the feelings "blue." Dr. Pierce's "Discovery" cures all blood humors as well as being a tonic that makes one vigorous, strong and forceful. It is the only medicine put up for sale through druggists for like purposes that contains neither alcohol nor harmful habit-forming drugs, and the only one, every ingredient of which has the professional endorsement of the leading medical writers of this country. Some of these endorsements are published in a little book of extracts from standard medical works and will be sent to any address free, on receipt of request therefor by letter or postal card, addressed to Dr. R. V. Pierce, Buffalo, N. Y. It tells just what Dr. Pierce's medicines are made of.

The "Words of Praise" for the several ingredients of which Dr. Pierce's medicines are composed, by leaders in all the several schools of medical practice, and recommending them for the cure of the diseases for which the "Golden Medical Discovery" is advised, should have far more weight with the sick and afflicted than any amount of the so-called "testimonials" so conspicuously flaunted before the public by those who are afraid to let the ingredients of which their medicines are composed be known. Bear in mind that the "Golden Medical Discovery" has THE BADGE OF HONESTY on every bottle wrapper, in a full list of its ingredients.

Dr. Pierce's Pleasant Pellets cure constipation, invigorate the liver and regulate stomach and bowels.

Dr. Pierce's great thousand-page illustrated Common Sense Medical Adviser will be sent free, paper-bound, for 21 one-cent stamps, or cloth-bound for 50 stamps. Address Dr. Pierce as above.

BY-LAW NUMBER

A By-Law to Authorize the Borrowing of the Sum of Fifteen Hundred Dollars for the Purpose of Constructing a Main Sewer on the Right of Way of the Grand Trunk Railway Company from Smith Street to Aylmer Street in the City of Peterborough.

Passed the day of 1907.

WHEREAS it is necessary in order to drain a portion of the City lying north-west of the Grand Trunk Railway and between Smith street and Dublin street to construct a main sewer along the right or way of the said Railway from Smith street to connect with the present sewer on Aylmer street and to authorize the borrowing of the sum of Fifteen hundred dollars for that purpose, being the estimated cost of the said work and which is the amount of the debt intended to be created by this By-law.

AND WHEREAS in order to raise the said sum of Fifteen hundred dollars it will be necessary to issue the debentures of the Corporation for the said amount.

AND WHEREAS the amount of the whole rateable property of the Municipality, according to the last revised assessment roll, being for the year 1907, is the sum of six million nine hundred and fifty-four thousand seven hundred and thirty-one dollars ($6,954,731).

AND WHEREAS the amount of the existing debenture debt of the Municipality, exclusive of local improvement debts, but including the debt of $322,000 incurred for the purchase and improvement of the waterworks, is the sum of Seven hundred and four thousand and fifty-five dollars and nine cents ($705,055.09), and there is no part of the principal or interest in arrear.

AND WHEREAS it will require the sum of Sixty dollars ($60) to be raised annually for a period of thirty years, the currency of the debentures to be issued under and by virtue of this By-law, for paying the interest on the said debts, and the sum of Twenty-nine dollars and ten cents ($29.10) to be raised annually during the said period for providing a sinking fund for the payment of the same at maturity—such last mentioned sum being sufficient, with the estimated interest on the investment thereof, to discharge the said debt when the same becomes due, making in all the sum of Eighty-nine dollars and ten cents ($89.10) to be raised annually as aforesaid, by special rate on the whole rateable property of the Municipality.

THE CORPORATION OF THE CITY OF PETERBOROUGH BY THE COUNCIL THEREOF THEREFORE ENACTS AS FOLLOWS:

1. This By-law shall take effect on the final passing thereof.

2. It shall be lawful for the Council of the said City of Peterborough to borrow the sum of Fifteen hundred hundred dollars and to issue the debentures of the said Corporation for the said sum, such debentures to be sealed with the Corporate Seal of the City of Peterborough and to be signed by the Mayor and Treasurer and countersigned by the Secretary of the Commissioners of the Peterborough City Trust, and to be made payable within thirty years after the issue thereof, and to bear interest at the rate of four per centum per annum payable half-yearly on the thirtieth day of June and the thirty-first day of December in each year and to have coupons attached thereto for the payment of such interest; such debentures as to principal and interest to be payable at the office of the Secretary of the Commissioners of the Peterborough City Trust in the City of Peterborough.

3. There shall be raised and levied during each year of the currency of the said debentures by a special rate upon all the rateable property of the Municipality, the sum of Sixty dollars ($60) for payment of the interest and the sum of Twenty-nine dollars and ten cents ($29.10) as a sinking fund for the payment of the said debt at maturity thereof, making together the sum of Eighty-nine dollars and ten cents ($89.10) to be raised annually as aforesaid.

4. The proceeds of the said debentures when sold shall be applied to pay for the construction of the said main sewer.

5. The votes of the electors of the City of Peterborough qualified to vote upon By-laws for creating debts shall be taken upon this By-law on the same day as the annual election for Municipal Council for the year 1907 and the polls will be held during the same hours, at the same places and by the same Deputy Returning Officers and Poll Clerks as are appointed and fixed for the said annual Municipal election.

6. The eighth day of January, 1907, at the hour of twelve o'clock noon and the City Clerk's Office are hereby fixed as the time when, and the place where, the Clerk will sum up the number of votes given for and against the By-law.

7. The fifty day of January, 1907, at the hour of twelve o'clock noon and the office of the City Clerk are hereby fixed as the time and place for the appointment of persons to attend at the various polling places at the final summing up of the votes by the Clerk respectively, on behalf of the persons interested in and promoting or opposing the passing of the By-law respectively.

Mayor.
Clerk.

NOTICE

Take notice that the foregoing is a true copy of a proposed By-law which has been taken into consideration and which will be finally passed by the Council of the City of Peterborough (in the event of the assent of the electors being obtained thereto) after one month from the first publication hereof in the Morning Times newspaper, the date of which first publication is the fifth day of December, 1906, and that at the hour, day and place therein fixed for taking the votes of the electors the polls will be held.

S. R. ARMSTRONG,
City Clerk.

TO PUBLISH SCHOOL BOOKS

Government May Issue New Series of Readers.

It has been asserted on good authority that the Ontario Government has decided to have a complete new set of readers for all classes in the schools. With the exception of phonetic primers for Parts I. and II. of the First Readers authorized three or four years ago, no new readers have been authorized for from 17 to 21 years. The new books, it is alleged, will be modern in every respect, and the subject matter will be adopted largely on the recommendation of the Advisory Council of Education, to whom the question will be referred. No decision has been announced regarding the course to be followed when the interim agreement with the book publishers expires at the end of the present month. It is thought that perhaps the present stock will be sufficient for present needs.

Porter's Delicatessn

M. W. Porter has opened in connection with his meat market, a fine new double store. In the new addition will be found the best brands of

CANNED GOODS

of all kinds, COOKED MEATS, PICKLES, SAUCES, OYSTERS.

SIFTON SURRENDERS AND ADMITS THAT HE'S GUILTY

Will Be Used as Witness In the Other London Election Cases

GETS OUT ON HIS OWN BAIL

Magistrate Would Not Give Statement to the Press.

Toronto, Dec 20.—E. I. Sifton, for whose arrest a warrant has been issued since September 28, in connection with the London election investigation, surrendered to the authorities yesterday morning and was taken into custody.

K. A. DuVernet, Crown counsel in the case, sprang the surprise. After a consultation with Magistrate Denison in the latter's office the counsel for the attorney-general stated, when the magistrate again ascended the bench that Sifton had told his lawyer, J. W. G. Winnett of London, that he was willing to give himself up.

"Mr. Winnett has Sifton with him," said counsel for the Crown. The magistrate asked Sifton to stand up. The charge, the same as in the other London bribery cases, was then read.

"Guilty," said Mr. Sifton at the conclusion.

"I have here a statement made by Sifton," said Mr. DuVernet, "and in it there is enough to substantiate his plea of guilty. I should, however, like the statement under oath."

Mr. J. W. Curry, who just happened to be present, objected to the prisoner making any statements in the box.

"I am appearing for the other defendants in this case, your Worship," said Mr. Curry, "and, of course, no statements made by Sifton can be used against them. The proceedings, so unexpected, are entirely wrong and wholly unfair."

Mr. DuVernet was willing to waive the cross-examination of Sifton, who is held as a Crown witness. The statement made by Sifton was then read by the magistrate privately.

"Is all contained in this statement true?" enquired his Worship.

"Yes."

"Is it in your handwriting?"

"Yes."

"Then, I'll commit you for trial."

"Did anybody suggest to you the making of any such statement?" began Mr DuVernet.

"No."

Mr. Curry interrupted at this juncture.

"Twice burned, shy afterwards," said Mr. Curry. "This is a slap to the newspapers."

"In view of the opposition of my learned friend," said counsel for the attorney-general, "I shall waive on examination. The proceedings are merely taken with a view to obtaining bail for Sifton as he is tobe used as a Crown witness."

His Worship then granted an order for bail in Sifton's own bond of $2500 to appear at the assizes on Jan. 7, 1907.

The statement made by Sifton was not given to the press, the magistrate ordering that it be filed with the other papers relating to the case.

Sifton has been in Buffalo and New York City since September

George Street Merchant Was Honest

Yesterday a locksmith who desires his name omitted, called at a private residence and asked for "The lady of the house." The whole "raison d'etre" of this story is thusly. On Tuesday a child went by her mother went to a locksmith's store on George street near the Peterborough Light and Power Company's offices and purchased an article for 50 cents. Yesterday morning the locksmith called at the residence of the child aforesaid and noted that the child had given his clerk a $4 bill, and that his clerk had taken it, as offered, as a $1 bill. The locksmith simply called to return $3.

It is now time that the Dominion Government change the design of their $4 bills which, without a close investigation, are easily taken for a $1 bill. The difference between a $4 and a $1 bill is very slight. At the same time credit should be given to a man who on discovering a mistake in his own favor, took the trouble to personally call on the party from whom he had reason to believe he got the $4 bill.

CARDINAL LEFT PALACE

Convent and Palace Soon Covered With Music Hall and Other Advertisements.

Paris, Dec. 19.—Shortly after one o'clock yesterday Cardinal Richard left the palace in the Rue de Grenelle. Very soon afterwards both the Archbishop's palace and the now-empty convent of the Sisters of the Sacred Heart were covered with advertisements of music halls and manufactured goods.

In his own account of his departure the Cardinal states that thousands of priests and of the faithful waited to see him leave. The horse of his carriage was unharnessed, and men of the most notable rank insisted on dragging the carriage to the new domicile at the residence of the deputy, M. Denys Cochin.

LULU GLASER TO WED

Will Become Bride of Ralph C. Herz, Formerly Comedian in Her Company.

New York, Dec. 19.—Miss Lulu Glaser acknowledged last night that she is to become the bride of Ralph C. Bers, an English actor, who was formerly leading comedian in her company.

The New-York Tribune Almanac

Of course, it is possible to worry through life without keeping a Tribune Almanac at your elbow, but is it worth while—does it pay? For 25 cents a year this publication supplies you with a really marvellous amount of information, and the man who has it is an authority in his neighborhood. He doesn't have to depend upon his memory when anything comes up about the big events of the preceding year or in relation to our army or navy, or sporting records, or, in fact, almost anything else of record worth knowing. If you have never examined The Tribune Almanac just invest a quarter for one, and see how well pleased you'll be. The 1907 one will be on sale January 1, and may be had from your newsdealer, through your local paper or direct from The Tribune Office, New York.

CHRISTMAS PRESENT SUGGESTIONS

STATIONERY— Magnificently boxed Stationery such as we show cannot be excelled for gifts. Simply superb—we can supply prices, from 15 cents up.

BOOKS—We can supply books for the whole family from grandma to the baby. Padded Poets and Gift Books.

DOLLS AND TOYS—Dolls and toys, horses and carts, tea sets, dishes, toy swords, guns, beds, cradles, animals, mechanical toys, dressed dolls and kid body dolls, arks, blocks and toys too numerous to mention.

All at prices lower than any place else in town. Come and see us before buying and save money.

Jewess Leads Scientists A Witch in Electricity

First Woman to Receive British Society Medal and First Among Civil Engineers.

London, December 20.—Miss Bertha Ayrton, who is already known to some extent in America, can now claim recognition as England's foremost scientist. She is the first woman in the world to be awarded the Royal Society's medal for her own unaided efforts in scientific research. Mme. Curie has the medal, it is true, but it was awarded to her jointly with her husband for their renowned discovery of radium.

Oddly enough, Mrs. Ayrton is also the wife of a renowned scientist, her husband being Prof. W. E. Ayrton, the distinguished electrical engineer and inventor. She is to receive the Royal Society's coveted medal on the last day of this month, the occasion being the annual banquet of the world famous body. It was awarded to her at a recent meeting of the society's council because of her investigations on the electrical arc and also as to the nature of sand ripples.

MEMBER OF ENGINEERS.

Mrs. Ayrton enjoys two other enviable distinctions. She is the only woman member of the Institute of Electrical Engineers and, two years ago was nominated a fellow of the Royal Society. This was the first time the highest tribunal of English science has nominated a woman. It was such an honor that it attracted immense attention everywhere and the opinion was expressed that the election of a woman was illegal. The Royal Society thereupon took the highest judicial opinion, which was that the council had no power to elect a woman. Therefore, Mrs. Ayrton cannot put the magical letters of F.R.S. behind her name.

She is well known in the United States, for she visited there six years ago, and at the electrical congress in Chicago read one of the most interesting of the papers. Mrs. Ayrton is a Jewess. Her father was Levi Marks. Her mother, Alice Marks, was a woman of exceptional abilities, as was also her near relative, Mrs. Herzog, to whose house in London Bertha Ayrton came from her birthplace on the seashore, Portsea, to be educated.

GRADUATED AT SIXTEEN.

At sixteen Mrs. Ayrton had graduated and began to earn her living as a professor at Girton College, Cambridge, then in its infancy as a college for women. She was surely the youngest teacher in the history of Girton. It was there that she took up her first researches into mathematics and physics. She invented a sphygmograph for recording the pulse beats, but finding something similar on the market, abandoned here and patented a fine divider—an instrument for immediately dividing up a line into any number of equal parts.

Leaving Girton to study electricity, she entered the Finsbury Institute as a special student. It was there she met Prof. Ayrton, who was one of the lecturers. It was a romantic meeting—a case of love at first sight, for in a few months' time student and professor were married.

Some Changes Among the C.P.R. Officials

Winnipeg, Dec. 20.—Reports of wholesale changing around and promotions in the operating and passenger departments of the Canadian Pacific Railway received added interest in the statement that Wm. Stitt, now en route from Sydney to Vancouver, is to be appointed general passenger agent of the Western lines, vice C. E. McPherson, who is to be made assistant passenger traffic manager.

Mr. Stitt for the past four or five years has been the general agent of the Canadian-Australian steamship line, of which the C.P.R. is the owner. The position is practically identical with the one held by D. E. Brown at Hong Kong. Mr. Stitt was formerly assistant general passenger agent of C.P.R. at Winnipeg. The position of assistant passenger traffic manager, which it is said Mr. McPherson is to receive, is a new one.

SAILORS SENTENCED

Men of Kniaz Potemkine's Crew to Serve Terms in the Disciplinary Corps.

Sebastopol, Dec. 20.—Fifteen sailors who participated in the mutiny of June, 1905, on board the Russian battleship Kniaz Potemkine, were sentenced yesterday. The leader was condemned to four years penal servitude, and the others to serve terms in the disciplinary corps, ranging from six months to two years.

NATURALIZATION ACT AMENDED

Alien Naturalized in England May Take Oaths at Once Here

LOSS OF THE GOLSPIE

Communication of P. E. I. With Mainland Discussed Seriously and Jokingly.

Ottawa, Dec. 20.—The last sitting of the House before Christmas was that of yesterday. For days everybody has been very listless, the Opposition included. Mr. Frank Oliver trailed his coat-tail across their pathway the other day quite in his old-time way, and failed to elicit a single bark of protest. Sir Wilfrid Laurier rose on the assembly of the House and proposed that instead of making Thursday the adjournment day the House cut its troubles short yesterday. So yesterday it was and the House put through a Government bill, rummaged through the Opposition rag-bag of complaints, and hied away for Christmas holidays.

AMEND NATURALIZATION ACT.

The bill was interesting. It is a fruit of Senatorial activity, the Conscript Fathers having originated and passed it. It is to amend the Naturalization Act. And it deals with the curious grievance of the lack of a common Imperial citizenship. An Irishman comes to Canada, spends his three years, goes through the prescribed procedure, and is naturalized; if he then goes to England, or to Australia he is not recognized there as a British subject; he is once more an alien. So also a man who has been naturalized in England finds on coming to Canada that his privileges have disappeared. This bill aims at a partial remedy of this by providing that such a person on coming to Canada may take the necessary oaths at once without residing here for the three years necessary in the case of aliens who come direct from a foreign country.

TROUBLES OF P.E.I.

Within the Tories' own ranks Mr. Martin, one of three Prince Edward Island Conservatives, hoisted the flag of secession, while the House remained singularly unimpressed. The communications between the mainland and the Island are in their chronic state of badness; it seems that this year the experiment has been tried of maintaining two lines of communication, one ice-breaker plying from Charlottetown and one from Summerside, further to the west, and that it has not been successful. In unusually strong terms Mr. Martin depicted the inconveniences resulting to the merchants from there being only three trips per week; never before had there been such an agitation as there is now. If the carelessness of its interests continued the Province would have to consider secession.

THE GOLSPIE DISASTER.

Another subject raised was the loss of the Golspie and the apparently necessary suffering which attended it. Mr. Boyce recounted the wretched story, and drew attention to the fact that Government officials made no effort to rescue the men though apprised of the disaster five or six days before the sailors reached shore. Capt. Mr. Brodeur should have wired at once to the nearest officials to try to rescue the men; and Mr. Boyce closed with a series of questions. When was the Golspie last inspected? Who was her hull inspected last year? Who made the inspection and what was the report? Why was there no life saving station on the north shore of Lake Superior? Because there were no votes there? One of his similes deserves to be recorded. He complained that vessels are inspected in spring time, when the water is rosy as a millpond.

"He means a flower mill," said Veteran Political Veteran, soothingly.

WAIT FOR THE FACTS.

Mr. Brodeur stated that he had already ordered an investigation, and very reasonably suggested that it would be a good idea to wait till the facts were established.

Mr. Clement was in trouble over the determination of the Michigan Central to abolish Charing Cross. Mr. Emmerson soothed him by promising to direct the attention of the Railway Commission to the difficulty.

Then the Opposition, led by Mr. Foster, rebuked the Government for the slow progress it had made. The Government with virtuous indignation vowed that the progress was excellent.

NOVEL BATTLE FOR JIM JEFFRIES

New York, Dec. 20.—According to the Herald yesterday, "Tex" Rickard, Nevada's prize fight promoter, announced Tuesday his willingness to give a $50,000 purse for a somewhat novel battle, with James J. Jeffries, champion of the world, as the central figure. Rickard will get Jeffries to fight "Philadelphia Jack" O'Brien and "Tommy" Burns to finish in one ring on the same day, the event to take place at Goldfield early in May.

"From what I have been able to gather on my trip through the East and West," said Rickard, "the sporting public is quite satisfied that O'Brien or Burns has no chance individually against Jeffries. They believe, however, that both of them would cause the big fellow to extend himself in one day, so I have decided to try and give the public what it wants.

"I will hang up a purse of $50,000 for the event, and the fighters can divide it as they see fit. Now, it is up to Jeffries, O'Brien, and Burns to meet and sign articles of agreement. I don't think Jeffries can have much cause for complaint. He is a big powerful man, and, as the champion, he should have the best end of the offer if Burns and O'Brien are willing."

A despatch from Los Angeles says Jeffries is away on a hunting trip but his representatives declare it is extremely unlikely that he would accept Rickard's offer.

Montreal Man III Years of Age

Montreal, Dec. 20.—This city has as a resident a man who is today probably the oldest individual on the continent if not in the world. Timothy Collins now lying ill with congestion of the lungs, at his residence, 3 Chomidy street, was born near Cork, Ireland, in 1795, being therefore 111 years of age. Absolutely authenticated documents exist proving that Mr. Collins was born in the year mentioned, that which saw the re-election of General Washington as President of the United States. Collins came out to Canada when he was twenty years of age and became a farmer, which occupation he followed for exceedingly lifetime before retiring. He married about 85 years ago, and his wife died in 1860. There were ten children, of whom two survive, both being men past the middle age. Up to a few days ago Collins was in the best of health, his faculties were clear and, considering the great age of the man he was able to move about with a good deal of vigor. He caught cold however, and congestion of the lungs set in. He is very ill, but his life is not despaired of as he has wonderful vitality.

Albertus Wanted His Father to Feel Bad

Philadelphia, Dec. 20.—By the arrest yesterday of Charles Albertus, who together with his wife and child were reported drowned in the Thoroughfare accident at Atlantic City on October 28, the supposed disappearance of the three bodies has been cleared up. Albertus, it is alleged, had caused a telegram to be sent to his parents in Norristown, Pa., saying that he and his wife and child had lost their lives in the terrible accident in which over 60 persons perished.

Albertus, who has been stopping at a hotel here under the name of John Miller, was arrested on the charge of passing counterfeit $10 and $20 Confederate notes. He said his father had turned him out of his home, and that the telegram had been sent in order to make the elder Albertus "feel bad." He said he does not know the whereabouts of his wife and child.

Sir Wilfrid's Brother Ill.

Ottawa, Dec. 20.—News of a somewhat disquieting character has been received regarding the condition of Mr. Charlemagne Laurier, M.P., for L'Assomption, who is lying ill at St. Lin. Lady Laurier arrived there from Ottawa last evening, and if the patient does not continue to hold his own Sir Wilfrid will probably also go to St. Lin. Mr. Charlemagne Laurier went into the hospital at Montreal for treatment, but left some months ago, and his friends had hope for considerable improvement in his health. So far he has not been able to attend the sittings in the House.

GIRL WOULD NOT ANSWER

Tried to Run Away From the Toronto Commissioner's Court Yesterday.

Toronto, Dec. 20.—It was intimated at yesterday afternoon's session of the commission inquiring into the charges against Governor Van Zant of Toronto jail that the closed session of the court yesterday morning was productive of some very important evidence from a girl whom the governor is said to have visited. But it was the pulling tooth to get it. The girl refused to answer a number of questions, and declined to be cross-examined. At one time she made a break for the door, but Constable Walter Stewart was on the alert and caught her.

A GUARD'S STORY.

Guard Wilfrid Frisby agreed with other witnesses in saying at the afternoon session that certain guards have seemed to have authority above others; whether or not by Van Zant's permission he could not say. Connolly had once said, in a dispute with witness, that he would show him who was running the jail. The governor upheld Frisby in the dispute. Connolly said, "Then I have to take the dirt, do I?" and the governor said, "No, you don't."

The witness told of having been placed in charge of the dining-room. Guard Lowry attempted to take this duty, and Frisby complained to Van Zant, who upheld him. "The governor always decided fairly to me," said the witness.

To Mr. Higgins he added that he always "walked in straight" to the reception room without "knocking." "Since I've heard the evidence here, I wonder I wasn't called down for it," he added.

Guard Thomas Wilson told of having trouble with Connolly, who abused him because he would not permit him to take charge of certain razors. Connolly denied the story, when the governor investigated the complaint, and witness said: "If Connolly can run other people in this jail, he can't run me." This insinuation angered Van Zant.

USED STRONG LANGUAGE.

"If you don't like it you can go to ——," are the words quoted by Wilson as being used by the governor when witness got to laughing at Van Zant in the matter of time when holidays were taken. "I thanked him for his kindness," said Wilson, "and told him that was pretty language for him to use."

PRISONER WAS DRUNK.

Wilson told of a prisoner, Michael Duffy, getting so drunk that he had to help him to bed. He was somewhat had to help him to bed. He was so stupefied with liquor he could not walk.

The witness had seen Michael Burke's wife come to see him when he was under sentence. The wife was allowed to go into the governor's room with her husband.

Wilson also recalled a visit from the wife of Durham, a prisoner on remand. The latter was locked up in his cell for the night, when the governor took the woman right up to him.

There are more women visitors now than under Governor Green, said the witness, and this is partly accounted for by the increase in prisoners.

The witness continued the story of two bigamists from London, and also a woman who were allowed to go unaccompanied to the governor's house to work together, and did not get back until eight o'clock at night.

To Mr. Hearst, Wilson admitted that he has frequently had quarrels with guards and a number of other jail officials. Although these were contradicted, the witness would not admit that he is a quarrelsome man.

TORONTO WOMAN ON TRIAL CHARGED WITH MURDER

Finding of Child Near Church in Port Credit Recalled

HOW THE BODY WAS FOUND

Prisoner Shows Interest Instead of Apprehension.

Brampton, Dec. 20.—In the fall assizes for the county of Peel, now going on here, Hon. Chief Justice Sir William Mulock, is sitting upon his first murder trial, that in which Mrs. Alice Carey, of Toronto, is charged with having caused the death on March 17 last, of an unknown female child, the body of which was found in a wood pile at the rear of the Presbyterian church, Port Credit, on March 24th last.

HOW THE BODY WAS FOUND.

Upon reviewing the case referring particularly to the finding of the coroner and to letters in the case, F. M. Field, of Cobourgh, Crown prosecutor, called Annie McKeith, the young woman, who, as caretaker of the Presbyterian church, Port Credit found the infant's body in the wood pile on the afternoon of March 24th.

"I went out to the shed to get a piece of wood, and saw a piece of brown paper. I turned it over and saw the face of the baby. Then I ran home."

Thus did she tell the story of the discovery which she made between 4 and 5 o'clock in the afternoon.

"The body was between two big sticks with the face down, and there was not a stitch of clothing on it," declared the witness, replying to a question by Mr. Godfrey.

NOTICED A STRANGER.

County Constable W. H. Rutledge, of Streetsville, who was summoned to Port Credit, and took charge of the body, stated that it was wrapped in pieces of blanket, and that the paper concealing it had an Eaton label on it. He thought the body was frozen.

"It was a fruesome sight, and I did not take time to notice if there were any marks of violence," said John Burns, of Port Credit, who was one of the first to see the child after it was found. "I was standing in the hotel on March 17th, when I saw a woman passing with what appeared to be a child in her arms. I noticed her because she was a stranger. The bundle she carried was done up in a white shawl. I cannot say that Mrs. Carey resembles the woman, but I recalled the circumstances when the body was found." At first witness said that the woman he saw weighed about 135 pounds, and afterwards he corrected his calculation to 160 pounds.

THE PRISONER.

A stout woman, not unpleasant looking, and of medium height, stepped out of the prisoners' box when the prosecuting attorney proposed that the witness see if he could establish identity. Mrs. Carey wore a blue silk waist, a skirt of the same color and a hat of brown velvet set back upon a semi-circular pompadour. Her face exhibited an expression not of apprehension, but rather of ordinary interest. The witness could not identify the prisoner.

CHILD BORN ALIVE.

Dr. A. B. Sutton, of Port Credit, said that he examined the body, which was that of a fully developed child, and that there were several conditions existing which satisfied him that it had been born alive, about five days previous to the discovery. He was of opinion that death was due to exposure. There might have been other causes, but he saw no sign.

"I think there is no doubt but that the child was born alive," declared Dr. D. L. Hagge, of Brampton, in corroboration of the previous statement.

Several letters found in Mrs. Carey's house which, it is stated, have an important bearing on the case, will be introduced by the prosecutors.

A Nice Legal Point in Street Car Case

Passenger in Toronto Paid Full Fare for Arm and Shoulder, and Trespassed With Rest of Body.

Toronto, Dec. 20.—A somewhat amusing and delicate point of law was argued in a decidedly excitable manner between a prominent business man who boarded a Belt Line car going west at York and King streets last night during the rush hours and he motorman, conductor and a policeman. The citizen boarded the front platform of the car and endeavored to get inside, but could not. He succeeded in getting one arm inside, however. The motorman ordered him off, and when he refused to obey, stopped the car and called a policeman.

"I claim," said the citizen, "that my arm and part of my shoulder, which is in the car, is rightfully there, and cannot be ejected. Now, go ahead and eject the rest of me if you can, but be extremely careful not to injure my arm and shoulder while you are doing so."

This was a puzzler for the officer, who found himself very much in a position of Shylock in the "Merchant of Venice," and so, like that celebrated character, he decided the point was well taken. But he took the citizen's name. The citizen paid full fare for his arm and shoulder, and stole a ride with the rest of his body, which, according to the rules of the company, was a trespasser.

Army Prepares for the Influx

Toronto, Dec. 20.—Commissioner T. B. Coombs of the Salvation Army has returned to the city after two months in the West, in connection with the organization of the Army's immigration department. Accompanied by Brigadier Howells, he has visited every Province in Canada, from Prince Edward Island to British Columbia, as well as Newfoundland, and on the course of the trip he has arranged to distribute the 25,000 or 30,000 colonists whom the Army intends to bring out from the Old Country. Nearly half this number will be located in Ontario.

The Commissioner stated yesterday that the Army expected to get some consideration from the transportation companies. The railways had always lent a listening ear to rational propositions, and would, moreover, find it a profitable investment to aid in the work of getting people into the Dominion. Should the general come, as is expected, it will give a fillip to the immigration propaganda for 1907.

If "taken at the Sneeze Stage" Preventics—a toothsome candy Tablet—will surely and quickly check an approaching cold or La Grippe. When you first catch cold—or feel it coming on—take Dr. Shoop's Preventics, and the prompt effects will certainly surprise and please you. Preventics, rarely supply the proverbial "ounce of prevention." Sold in 5-cent and 25-cent boxes by J. D. Tully.

—See our south window display of 25-cent articles. Big saving by buying at Times Bookstore.

Workmen Can Do Greater Things

Experiments With Skilled Mechanics Evolve New System to Increase Production.

New York, December 20.—Frederick W. Taylor, president of the American Society of Mechanical Engineers, at the opening of the annual meeting announced the results of twenty-six years of experiment, which he believes will do much toward increasing the productivity of skilled mechanics and workmen in various lines of industrial activity.

The experiments were undertaken to obtain a part of the information necessary to establish in a machine shop a system of management, the central ideas of which are to give to each workman a definite task and an exact time allowance for each element of the work, to pay wages to those who perform their tasks in the allotted time, and ordinary wages to those who take more than their time allowance.

The experiments of Mr. Taylor and his associates has been conducted in the works of the Midvale Steel Company, the Bethlehem Steel Company and other large concerns. The idea was to bring the elements of machine shop practice into the domain of exact science. Their experiments cost about $200,000, but it was stated that they have found laws covering the important elements of the "art," and have obtained mathematical formulae which express these laws. They developed a slide rule by means of which the ordinary mechanic can double the output of a machine previously run by a first-class mechanic using his own judgment.

In similar investigations into other lines of industry, such as textiles and other light manufactures, it was found that the task set for a man after proper investigation was vastly greater than any he would or could set for himself.

SPORTING TOPICS

HOCKEY.

Last night's Toronto News contained a picture of Mr. Fred Whitcroft, the popular rover and captain of the Peterborough seniors.

* * * *

Two big games will be played at the Mutual street rink on the holiday nights. The Mariboros are slated to play Peterborough on Christmas night. The Ducsk will be stronger than ever this year, and Peterborough, who are aspirants for senior honors will have to be pretty good to beat them. On New Year's night the Toronto Pros. will probably play Ottawa, but if they cannot come a game with some other Eastern team will be arranged.

—The paint-shop of Mr. J. H. Heslop, east ward, was destroyed by fire last night. The loss was small.

ADVERTISE IN THE TIMES.

NOW CONSUMPTION STARTS

Tired When You Wakes—Languid All Day—Nerves Worn Out—Snap All Gone.

Your limbs feel "draggy" and extensively weak. A night's sleep seldom brings satisfying rest. Continuous headaches, exhaustion and nervous sensations destroy your health. Soon every spark of vitality is used up Then you catch tuberculosis.

Start today. Build up, get new nerve force, and overcome this process of decay. Use Ferrozone, which physicians consider the most vitalizing, uplifting tonic ever made.

Ferrozone cures because it can furnish the body with sufficient nutriment and building material.

Think of the instant effect—at once the appetite increases, delightful color in the cheeks proves that rich, red blood is being circulated. Tired muscles are invigorated, flesh and weight are added. Nerve force develops, and bounding, joyous health is firmly established.

This is certain—Ferrozone restores failing strength from any cause. The experience of Mr. Thos. Dowd, of Schreiber, Ont., proves this:

"Household worries and cares had about exhausted my strength. I was weak and miserable. My cheeks lacked the color of health, and occasionally I had spells of rheumatism. Then my appetite fell off, and nothing could tempt me to eat. Worn-out feelings, chills and despondency filled my very being. I became anaemic and dwindled down to a shadow. Consumption was very near. Ferrozone put strength in my body with a rush. It built me up, strong, virile and happy, and I have been well ever since."

Ferrozone cures sickness by curing the real cause—lack of blood and nerve tone. It keeps people at their best—fit, ready and anxious for work. In 50c. boxes only, six for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

WOOD

POINT ST. CHARLES

has installed a wood cutting and splitting machine. and is prepared to furnish Hard and Soft Wood, cut and split any length or size.

A. McDONALD

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $4 per year, strictly in advance.

PETERBOROUGH, DECEMBER 20 1906

PRACTICAL EDUCATION

The people of Ontario, proud—as they should be—of our excellent educational system, are prone to look over to the United States with a critical eye and assume a "holier than you attitude because they regard the system of education there as very inferior to ours. In some respects ours is certainly in advance of theirs, and this is true with reference to both Public and High schools, and also to the colleges and universities with possibly a few exceptions.

While all this can be said, and truthfully said, there is, however, no denying the fact that in some instances the education obtained in American schools is quite as thorough and much more practical than in our schools. An instance of this may be seen in one of the New York City schools, where the twenty-three hundred boys and girls enrolled have formed a city government of their own, with mayor, district attorney, three judges and completely organized police force and health department. Discipline is thus maintained by the pupils themselves. The principal under whose guidance the government was formed says that the system has already lessened truancy and elevated the moral tone of the entire body of pupils.

The children in this school are mostly of foreign birth. The mayor is a Russian boy who has been in the United States but three years. The district attorney is a twelve year old Italian boy. One of the three judges is a girl. Warrants are issued, arrests made and trials conducted precisely as in the city courts. The usual penalty is detention after regular hours. Truancy, crap shooting and other forms of gambling are dealt with severely.

This is certainly beginning education at the fundamentals. No other knowledge that can be crammed into a child is so valuable as the knowledge of the principles of good citizenship and self-government.

Intimate knowledge of the real purpose of government, of its processes of operation, and of the inestimable advantages of its protection to all well-meaning people begets the highest and sincerest respect for it.

The child cannot be taught too early that his first and most sacred duty is to be a good citizen—a staunch pillar in the temple that shelters mankind to common interest, good order and brotherhood.

Especially important is it that children born abroad under oppressive conditions should learn at the earliest dawn of their reasoning powers that real freedom consists in the rigid enforcement and strict observance of just laws. The "school city" idea is too good to be long confined to one school or one city. Given a fair test, its advantages being understood, it will undoubtedly become incorporated into the educational system of the majority of the schools. Why should not the boys and girls attending Peterborough's Public Schools be afforded an opportunity to acquire such a valuable training?

A Woman's Second Attempt at Suicide

Toronto, Dec. 19.—For the second time within three weeks Mrs. Duncan, 55 years of age, 139 Bellwoods avenue, attempted to end her life by cutting her throat with a razor yesterday morning about eight o'clock. Dr. E. H. Hooper, Bloor street west, attended her, and the wound was dressed at Grace Hospital. Mrs. Duncan is afflicted with melancholy, and the low state of mind is responsible for her actions.

DRESSING FOR DINNER.

A Habit to Be Cultivated by All Classes of Persons.

"Dressing for dinner" is regarded by some as a piece of arrogance and as evidencing merely a desire to appear superior to somebody else. They observe no dignity in the custom and perhaps do not realise the fact that the change of clothes is consistent with personal comfort and cleanliness, whether the new garments donned be of the evening dress pattern or not. The most important meal of the day affords to those who dine in the evening an excellent opportunity of exchanging their workaday clothes for a suit which has been brushed and aired.

The bracing effect of a change of clothes is well known. Many a man, being almost too fatigued after an arduous day's work to change his clothes, finds himself considerably refreshed when he experiences a feeling of cleanliness and preparedness for his dinner, and good digestion invariably waits on healthy appetite. The changing of clothes may even thus favorably affect nutrition. Nor need the changing of clothes be the exclusive luxury of the persons who dress for dinner. The hard worked clerk, the shopkeeper and the workingman would all be better if they would cast off their workaday clothes and put on clean clothes for the evening meal after the day of toil is over. The change freshens the body, gives a gentle stimulus to the wearied hand and head, and a brighter view of things is thereby engendered. The habit is, besides, cleanly, dignified and becoming.—Lancet.

NEEDLESS NOISES.

Maddening Effect of Some Sounds That Assail One's Ears.

It is the needlessness of most noises that renders them insufferable. You sleep very well through the roar of a wintry storm, but if some one has forgotten to fasten a blind and it begins to bang then you are lost. You might as well get up and locate that blind and fasten it first as last. The manifold noises of your steamer's plunge through the night, with the perpetual wash of the sea, unite in a lullaby to which the worst conscience stabs into repose, but a snore breaking from the next stateroom recalls the memory of all one's sins. The rush and leap and incessant but varied grind and clang of the sleeping car become soothing at last, but a radiator, beginning to fizz and click after the steam has been turned off, seems to leave the would be sleeper no resource but suicide. If you could get at the second engineer and leave him weltering in his gore, you could snatch a few cat naps before morning. But you cannot get at the second engineer after midnight in most hotels. Continuous noises and necessary noises are things you can adjust senses or your spirits to, but the noise without a reason, without an apparent right, like the gnawing of a rat in the wainscot, is what drives so many to perdition.—W. D. Howells in Harper's.

Claude Duval.

This gallant robber of men's purses and ladies' hearts was of French extraction. Duval became so rich with his ill gotten gains that he was enabled to retire from the profession and return to France. But a quiet life, free from the excitement of his old career, did not agree with his adventurous spirit. He returned again to England and resumed his avocation. At length he was captured at the Hole in the Wall, in Chandos street. While in prison awaiting his doom many ladies of position visited him and endeavored to obtain his release, but justice was inexorable, and he was hanged at Tyburn in January, 1670. His epitaph in St. Paul's church, Covent Garden, speaks of him as "Old Tyburn's glory, England's illustrious thief," and tells us:

Here lies Duval. Reader, if male thou art,
Look to thy purse; if female, to thy heart.
Much havoc has he made of both.

You cannot possibly have a better Cocoa than

EPPS'S

A delicious drink and a sustaining food. Fragrant, nutritious and economical. This excellent Cocoa maintains the system in robust health, and enables it to resist winter's extreme cold.

Sore Lungs

us there is nothing its equal for coughs, colds in the chest, bronchitis, hoarseness, sore lungs, weak throats, and weak lungs. Doctors tells us the same thing. Ask your doctor about it.

We want everybody who has a hard cold in the chest to use Ayer's Cherry Pectoral. Our long experience with it, over sixty years, tells

We have no secrets! We publish the formulas of all our medicines!

J. C. Ayer Co., Lowell, Mass.

BY-LAW NUMBER

A By-Law to authorize the borrowing of the sum of eight thousand dollars for drainage purposes in Wards Numbers 3, 4 and 5, of the City of Peterborough, and to provide that all future payments to be made under By-Law Number 689 of the said Municipality shall be paid by general tax.

Passed the day of 1907.

WHEREAS by Chapter 23 of the Statute of the Province of Ontario, passed in the sixth year of the reign of His Majesty King Edward the Seventh, it is among other things provided that it should be lawful for the Council of the Corporation of the City of Peterborough to proceed with the drainage works and diversion of the water course in Ward Number 5 according to the reports, specifications and detailed estimates and plans prepared therefor by the City Engineer and filed in the office of the City Clerk and for the purpose of providing for the diversion of a water course in Wards Numbers 3 and 4 to construct a drain from the right of way of the Grand Trunk Railway to the River Otonabee and that the cost of and incidental to such works should be payable by the Municipality at large by a general tax on the whole rateable property of the Municipality and the said Act further provided that it should be lawful for the said Council, having first obtained the consent of the ratepayers of the City qualified to vote on money by-laws, to pass a by-law authorizing the borrowing on the credit of the Municipality of a sum not exceeding $8,000 to pay the cost of the said works and to issue and dispose of the debentures of the said Corporation therefor to be payable within thirty years from the date of the issue of the same.

AND WHEREAS by the said Act it is recited that in the year 1893 a certain drain was constructed in Wards Number 3 and 4 (which is commonly known as the Park Street Drain) and debentures were issued under By-law Number 689 to pay for same and that the portion payable by the ratepayers by special tax on the lands benefitted has been paid up to the time of the passing of the said Act, but owing to the construction of sewers in the same locality the said property is now assessed for the said sewers and that it is inequitable that the same property should be assessed for both said drain and sewers and that the amount payable by the ratepayers by said special rate being the sum of $211.44 per year for the next eight years should be paid by general tax and it is provided that it should be lawful for the said Council, with the assent of the ratepayers aforesaid, to pass a By-law to provide that all future payments of interest and sinking fund on the debentures issued under said By-Law Number 689 should be paid by general tax sufficient for that purpose on the whole rateable property of the Municipality;

AND WHEREAS before this By-law can be passed the said special rate will be payable for this present year and there will remain only seven yearly payments under the said By-law.

AND WHEREAS it is necessary pursuant to the provisions of the said recited Act to pass this By-law for the purpose of authorizing the borrowing on the credit of the Municipality of the said sum of Eight thousand dollars for the purposes aforesaid, and to provide that all future payments under said By-law Number 689 shall be paid by general tax, and to submit the same to the duly qualified ratepayers as aforesaid.

AND WHEREAS in order to raise the said sum of Eight thousand dollars, which is the amount of the debt intended to be created by this By-law, it will be necessary to issue the debentures of the Corporation for the said amount.

AND WHEREAS the amount of the whole rateable property of the Municipality, according to the last revised assessment roll, being for the year 1907, is the sum of Six million nine hundred and fifty-four thousand seven hundred and thirty-one ($6,954,731).

AND WHEREAS the amount of the existing debentures debt of the Municipality, exclusive of local improvement debts but including the debt of Two hundred and ninety-two thousand dollars ($292,500) incurred for the purchase chase and improvement of the waterworks, is the sum of Seven hundred and four thousand and fifty-five dollars and nine cents ($704,055.09) and there is no part of the principal or interest in arrear.

AND WHEREAS it will require the sum of Three hundred and twenty dollars ($320) to be raised annually for a period of thirty years, the currency of the debentures to be issued under and by virtue of this By-law, for paying the interest on the said debt, and the sum of One hundred and fifty-five dollars ($155) to be raised annually during the said period for providing a sinking fund for the payment of the same at maturity—such last mentioned sum being sufficient, with the estimated interest on the investment thereof, to discharge the said debt when the same becomes due, making in all the sum of Four hundred and seventy-five dollars ($475) to be raised annually as aforesaid, by special rate on the whole rateable property of the Municipality.

AND WHEREAS it will require the sum of Three hundred and eleven dollars and forty-four cents ($311.44) to be raised annually for the period of seven years to pay the interest and sinking fun on the debentures issued said By-law Number 689.

THE CORPORATION OF THE CITY OF PETERBOROUGH BY THE COUNCIL THEREOF THEREFORE ENACTS AS FOLLOWS:

1. This By-law shall take effect on the final passing thereof.

2. It shall be lawful for the Council of the said City of Peterborough to borrow the sum of Eight thousand dollars and to issue the debentures of the said Corporation for the said sum, such debentures to be sealed with the Corporate Seal of the City of Peterborough and to be signed by the Mayor and Treasurer and Countersigned by the Secretary of the Commissioners of the Peterborough City Trust, and to be made payable within thirty years after the issue thereof, and to bear interest at the rate of four per centum per annum payable half-yearly on the thirtieth day of June and the thirty-first day of December in each year and to have coupons attached thereto for the payment of such interest; such debentures as to principal and interest to be payable at the office of the Secretary of the Commissioners of the Peterborough City Trust in the City of Peterborough.

3. There shall be raised and levied during each year of the currency of the said debentures by a special rate upon all the rateable property of the Municipality, the sum of Three hundred and twenty dollars ($320) for payment of the interest and the sum of One hundred and fifty-five dollars as a sinking fund for the payment of the said debt at the maturity thereof making together the sum of Four hundres and seventy-five dollars to be raised annually for the purposes aforesaid.

4. There shall be raised and levied during each year for the next seven years by a special rate sufficient for that purpose upon all the rateable property of the Municipality the sum of Three hundred and eleven dollars and forty-four cents ($311.44) to pay the interest and sinking fund on the debentures issued under said By-law Number 689 and the same shall be so applied.

5. The proceeds of the said debentures when sold shall be applied in payment of the cost of and incidental to the said drainage works in Ward Number 5 and Wards Numbers 3 and 4 of the said City.

6. The votes of the electors of the City of Peterborough qualified to vote upon a By-law for creating debts shall be taken upon this By-law on the same day as the annual election for the Municipal Council for the year 1907 and the polls will be held during the same hours, at the same places and by the same Deputy Returning Officers and Poll Clerks as are appointed and fixed for the said annual Municipal elections.

7. The eighth day of January, 1907, at the hour of twelve o'clock noon and the City Clerk's Office are hereby fixed as the time when, and the place where, the Clerk will sum up the number of votes given for and against the By-law.

8. The fifth day of January, 1907, at the hour of twelve o'clock noon and the office of the City Clerk are hereby fixed as the time and place for the appointment of persons to attend at the various polling places and at the final summing up of the votes by the Clerk respectively, on behalf of the persons interested in and promoting or opposing the passing of the By-law respectively.

Mayor.
Clerk

NOTICE

Take notice that the foregoing is a true copy of a proposed By-law which has been taken into consideration and which will be finally passed by the Council of the City of Peterborough (in the event of the assent of the electors being obtained thereto) after one month from the first publication hereof in the Morning Times newspaper, the date of which first publication is the sixth day of December, 1906, and that at the hour, day and place therein fixed for taking the votes of the electors the polls will be held.

S. R. ARMSTRONG,
City Clerk.

WEDDING STATIONERY

WEDDING ANNCUNCKMENTS are always in order. The season for the final result of being a disciple of Cupid finds expression in the Hymeneal ceremony at the altar—that occasion when "two hearts that beat as one" are joined together—pronounced one.

For this auspicious occasion the printing must be chastely dignified—must be appropriate in appearance to this one time of life when everything "best" is deemed—when happiness reigns supremely.

Marriage Announcements
Marriage Invitations
Marriage Reception Cards
Post Nuptial Reception Cards

All of these we are able to supply in a proper form and printed artistically. Our work is conducted under the supervision of skilled typographical mechanics and may be unhesitatingly presented to the most fastidious critic.

Our charges for such work are moderate—yet good printing is ever valuable. However, we give quality for our figures, and an order entrusted to our care will be speedily, carefully and satisfactorily executed.

No work can be well done which has to be done hurriedly. Time is necessary for the accomplishment of faultless printing. We will fulfil all expectations if given ample time for completion.

$75,000,000 IN COPPER DIVIDENDS

This stupendous sum will be paid to the lucky holders of Copper Stocks during 1907---so say the world's highest authorities.

Lluvia de Cobre Stockholders will Soon Share in These Profits

IMPORTANT NEWS FROM THE COPPER BELT OF SONORA.

A New Copper Mine that is Destined to Rank Among Mexico's Greatest.

Hermosillo, Mexico, November 20.—Local investors are showing unusual interest in copper stocks—particularly in the stocks of Sonora properties that have passed beyond the stage of mere prospects.

The property that is the strongest in public favor is the Lluvia de Cobre, located about 50 miles north from Hermosillo and about 70 miles west from Carbo on the Sonora Railway. This is considered one of the most valuable copper properties in the state, and much of the stock is held by the most conservative local investors. Business, banking and mining men of Hermosillo look with much favor upon this property, and the general prediction is that the Lluvia will very soon develop into one of the state's largest producers.

The property has been examined and reported on by some of the best known copper experts and engineers in the South-West—among the most prominent being Messrs. J. J. Wood and Thomas Bentley—well known as expert assayers through their work in this line for the Banco de Sonora, one of the largest banking institutions of Mexico. Exhaustive reports are also made by D. J. Thompson, L. H. Jansen, and others. The verdict of all is that this is a property of great value, and that from every indication it is soon to become another Greene Consolidated. Those familiar with the great Greene property say that no two properties in America are so nearly alike in every way as are these two kings of Sonora.

During the past month sensational developments have been made almost daily. The big strike of sulphide ore which was made in the Josephine shaft some weeks ago was one of unusual richness. The ore was encountered near the 350-foot level and penetrated for something near 70 feet, averaging from 7 1-2 per cent. to 25 per cent. in copper, and is one of the very best smelting ores, as it carries its own fluxes.

Following this rich strike the shaft penetrated an excellent deposit of iron sprinkled throughout with native copper, and just a few days ago went into the second layer of sulphides and with every indication present that the permanent sulphide bed will be reached at almost any moment. When that is accomplished the stock of this company should, and no doubt will, advance to far above its par value of $1.00 per share.

The company has been selling some of its stock for development purposes during the past two months, and the first block, offered at 25 cents, was quickly taken up and the price was just recently advanced to 35 cents per share. Conservative investors are taking up this second offering very rapidly, confident that this price will be more than doubled at a very early date.

The president vice-president and other officers and directors of the Lluvia de Cobre Mining Co., of Kansas City, Mo., recently spent several days at Camp Lluvia, and were more than gratified with the progress that is being made. Mr. W. T. Lake is in charge of the office at Hermosillo, and Mr. J. C. Worthington, General Manager, is directing the work at the mine.

The property is well equipped for present needs with steam hoist and other modern machinery. The assay office, tool house, shaft house, store house, and the homes for the workers are all well built and in first class condition. A full crew of men is working in two shifts, and the work of sinking the Josephine shaft on through to the permanent sulphide bed is being rushed with all possible speed. The miners are of the better class of Mexican laborers, are trained workmen, well paid and well satisfied with the treatment they are receiving from Manager Worthington. In this section of Mexico labor troubles are unknown.

The original holdings of the Lluvia de Cobre Mining Co. consisted of about 161 acres, but 120 acres of valuable adjoining property was added by the officers on their recent visit, making the present holdings 281 acres. This additional territory will mean much to the future of this already valuable property. Before the present offering of stock was placed on the market the officers of the company had already been developing the property for two years and had spent thousands of dollars of their own money in carrying the work to its present stage. The company needs larger equipment to carry on the larger work outlined, and for that purpose stock is now being sold.

A smelter will probably be a proposition of the early future, but for the present, Green's big custom smelter at Guaymas will handle all the ore when shipments begin. The ore can be milled at a very small cost, owing to its unusually fine smelting qualities. Good wagon roads lead direct from the mine to Carbo, and the ore can be transported at a very reasonable rate.

Timber, fuel and water are near at hand and can be had at very small cost. In fact, everything is present in the Lluvia for the making of a very great mine—and that it will become such in the very early days of the future is the prediction of men in a position to know—the best and most expert mining engineers of Mexico.

LLUVIA DE COBRE HAS HIGH VALUE ORES.

The average of the many assays made on ores taken from all parts of the Lluvia de Cobre property, show an unusually high value.

Some of the most capable and experienced mining engineers in this country and Mexico have examined the Lluvia de Coore property, and it is the general opinion of all that Lluvia de Cobre ores will run probably higher in value than the ores from many of the world's other greatest copper mines.

Following is a list of some of the world's greatest copper producers and the average value of the ores handled.

Anaconda	3.75
Calumet & Hecla	2.5
Greene Consolidated	7.1
Quincy	1.5
Rio Tinto	2.39
United Verde	3.
Osceola	1.
Parrot	1.

When it is remembered that all these properties are valued at millions of dollars and have paid dividends of many millions more, and that the average valuation of the ores produced by these eight big properties is less than 1½ per cent, it will readily be seen what a valuable property we have in the Lluvia de Cobre, with the possibility of opening up an enormous body of ore averaging probably double this amount.

A BIG, NEW SMELTER CLOSE AT HAND.

Colonel Greene is now building a large custom smelter at Guaymas on the coast of the Gulf of California. This will be one of the largest and most modern smelters in the State of Sonora, and as it is directly south of our property and at the terminus of the Sonora Railway, it will give us excellent smelting facilities until such time as we have our own smelter in operation.

MINING ACTIVITY IN MEXICO.

(From 1906 Edition of Stevens Copper Handbook, the world's most eminent authority on Copper).

MEXICO—The Republic of Mexico has made relatively greater strides in copper production during the past five years than any other country in the world. Not only has there been a most remarkable relative gain, but the actual gain in output puts Mexico an exceedingly close second to the United States in point of increase. That Mexico will soon lead Spain, and rank second only to the United States, seems assured. The Boleo has long been an important mine, but the copper production of all other Mexican mines was but 1,200 tons so recently as 1901. Since that time the Greene, Inguarran, Dandela, Mocteruma and other great properties have been developed. Those interested in copper will do well to keep an eye on Mexico for the next two years.

Mexico has upwards of 900 smelters of all sorts, mostly very crude, but with a few of the most modern type and of immense size, notable among the latter being the fine plants of the American Smelting and Refining Co. at Aguascalientes, Monterey and San Luis Potosi. There are also fine reduction plants of the Boleo, Green Consolidated, Inscubridora and other copper mines of the country.

WATER AND FUEL.

In the development of the Greene property one of the most serious problems that presented itself was the water supply.

No such difficulties are encountered at the Lluvia de Cobre. The property is located in a draw, and water can be secured in sufficient quantities to supply all possible needs at any time in the future.

Fuel timber grows in abundance in the immediate neighborhood and can be cut and prepared for use at a very small cost.

Expert Testimony as to the Lluvia de Cobre Mine

FROM A PROMINENT MINING ENGINEER.

"I have visited the Lluvia de Cobre property various times. My opinion has always been that it was valuable mineral ground. Subsequent development work has proven this opinion to be correct."

H. H. LIGHT, E. M.,
Hermosillo, Mex.

FROM THE MANAGER OF WELLS-FARGO EXPRESS CO. FOR THE STATE OF SONORA.

"I have been to the Lluvia de Cobre properties and can say that in my opinion they have a fine future, with very little development work. I have talked the matter over with expert mining men and find that my opinion is well based and would not be surprised to see this property rise to be among the biggest in the state."

L. P. GAXIOLA,
Hermosillo, Mex.

FROM THE HERMOSILLO MANAGER OF THE LLUVIA DE COBRE MINE.

"I had one of the most beautiful homes in this city, and exchanged it for a block of Lluvia de Cobre stock before there was any amount of work done, and can now get my home back in exchange for ONE-FIFTH of the same stock that I received for the property, so you see that our people here think well of the Lluvia's future."

W. T. LAKE.

The Lluvia de Cobre Mining Co. is really a close corporation, the controlling interest being held by well known Kansas City business men. As to the business standing and integrity of the Officers and Directors of this Company we refer by special permission to The Fidelity Trust Company or The Union Avenue Bank of Commerce, both of Kansas City, Mo.

LLUVIA DE COBRE Stock now 35 Cents a Share - - Par Value $1.00

The original incorporators of the Lluvia de Cobre Mining Company have already expended thousands of dollars of their own money in the purchase and development of the property to its present stage.

These developments prove that the Lluvia de Cobre is destined to become one of the world's leading copper producers, and that it justifies much more extensive and more rapid development than it is now receiving. We want money in order that we may greatly increase the working force, purchase more machinery and equipment of all kinds. We want to rush the work of sinking the Josephine shaft (which at this time has reached a depth of 350 feet) just as rapidly as possible. We want to thoroughly open up this big property and then install mills, smelters, additional work houses, store houses, everything necessary to make this the really big mine that it can surely be made with the necessary capital behind it.

Only 400,000 shares are to be sold for this purpose, as this will secure sufficient money to meet all requirements 100,000 shares of this stock will be sold at 35 cents per share. It is no reflection upon the value of this great property to admit that we must seek outside financial assistance. The great Greene Consolidated would not be the immense property it is today had it not been for the aid of the investing public. The Calumet and Hecla, Anaconda, Boston and Montana—these and all other big mining properties owe their present greatness to the co-operation and assistance of the "outside investor."

COPPER IS THE WORLD'S GREATEST FORTUNE MAKER.

Every argument that could be desired points to copper as the king of all mining investments.

Necessarily, the coming decade in the modernization of the world, is believed to be only in its infancy—and even now the world's supply of copper is not sufficient to supply the demand for this one industry alone.

"Never in memory has copper mining been as profitable as it is today. Not only has the increasing consumption and high market prices initiated prosperity, but the improvements in mining methods have made it possible to handle all grades of ore economically."—The Mining World, March 31, 1906.

"Copper stocks offer the biggest opportunity for money making in the world today."—Thomas W. Lawson.

"Lawson, we have verified your conclusions as to the value of copper stocks as an investment."—H. H. Rogers.

No investment is so safe, so permanent, so profitable, so sure and sain, as copper!

My Personal Guarantee to Investors

I have told you that what must necessarily be done before this property can be made the big producer that I feel it is destined to become.

I have told you that this Company needs more money to obtain these results and why you are given the opportunity to assist in furnishing it.

I believe this proposition offers far greater returns per dollar invested than any other investment proposition on the market.

So confident am I of the future of this great property that I have this proposition to make to you:

Subscribe at once for as much of this stock as you feel that you can carry. Investigate the mine and the men behind it in any and every way you please for thirty days. If you are not entirely satisfied with your investment at the end of that time, you have but to write me to that effect and I will return every cent of your money.

I want you to feel that you positively cannot go wrong by making an investment in Lluvia de Cobre stock. I want you to decide the question of making this investment, and I want you to give me your order at the earliest possible moment.

Weigh this proposition in the balance—let the facts in the case, as they impress you, decide its true worth. I leave it to your good judgment as to whether you shall be one of the thousands who shall profit by the Lluvia de Cobre another Greene Consolidated.

CHAS. M. GARDNER, Fiscal Agent, Lluvia de Cobre Mining Co.

JOIN WITH US AND HELP MAKE ANOTHER GREENE CONSOLIDATED.

Send in your order for any amount of stock, from 50 to 10,000 shares. Remit one-fifth cash with your order, and pay the balance in four monthly payments.

By this plan you will secure your whole reservation at the present price of 35 cents per share, no matter how much the price may have advanced in the next five months.

No orders accepted for less than 50 shares. No preferred stock, no bonds. All stock fully paid and non-assessable, par value $1. The stock will rapidly advance in price, but by making your reservation large you will be getting your stock five months from now at the same price as now, while others may be paying several times what you pay.

Upon completion of your payments, certificate will be issued for stock purchased. Should you discontinue payments at any time, you will receive certificate for number of shares paid for.

PAYMENTS FOR FIVE MONTHS.	
50 shares	$ 7.50 per month
100 shares	7.00 per month
200 shares	14.00 per month
300 shares	21.00 per month
400 shares	28.00 per month
500 shares	35.00 per month
800 shares	56.00 per month
1000 shares	70.00 per month
1200 shares	84.00 per month
2000 shares	140.00 per month
5000 shares	350.00 per month
10000 shares	700.00 per month

Officers and Directors

The success of any mining company depends first, of course, upon the property itself, but next, and of almost equal importance, is the personnel of the men back of the whole proposition.

We publish herewith a complete list of the officers and directors of the Lluvia de Cobre Mining Co. We do not believe a more trustworthy or more efficient organization was ever effected. Each and every man has made a pronounced and unusual success in some one particular line of business endeavor and is exceptionally well suited to the duties required by his connection with this company.

Investigate this proposition and the men behind it in any and every way you please—and let the verdict of those who know assist you in deciding whether or not these gentlemen are worthy of your trust and confidence.

TIMES BOOKSTORE.

Breathing.

All children should be taught to breathe through the nose and to keep the mouth tightly closed. Many disease germs enter through the open mouth, while if the mouth is kept closed the air becomes purified while passing through the long, moist passages and tempered for the lungs.

Beethoven.

Beethoven could play from memory all the preludes and fugues contained in Bach's "Well Tempered Clavichord." There are forty-eight preludes and the same number of fugues, and as each is in the most abstruse style of counterpoint the difficulty of this performance will be appreciated by every musician.

Japanese Crab.

There is a kind of crab caught in the Japanese waters measuring ten feet between the tips of its nippers, which are five feet long.

THE SHAMROCK.

At One Time It Was Used For Food in Ireland.

That the shamrock was used as diet before it was adopted as the national emblem has been conclusively demonstrated, though in proving the fact one writer borrows from another. Very few drew their information from personal observation. Spenser undoubtedly did, and he is perhaps responsible for the familiarization of this fact to his contemporaries. I quote the passage from "The View of the Present State of Ireland:"

"Out of every corner of the woods and glinnes they came creeping foorthe upon theyr handes, for theyr legges could not beare them. They looked like anatomyes of death; they spake like ghostes crying out of theyr graves; they did eat of the dead carrions, and yf they founde a plotte of water cresses or shamrokes there they flocked as to a feast for the time."

This dietary use was known to the Elizabethan dramatists.

I will give tee leave to cram my mouth phit shamrokes and butter, and water cresches instead of pearsh and peepah.—Ben Jonson's "Irish Masque."

This Irish footman, a wild kerne, a frog, a dog, whom I'll scare spwin. Longed you for shamrock?—Thomas Dekker.

"The shamrock thus used for food," says Mr. Colgan, "was one or other, or perhaps both, of the meadow clovers, or trefoils, Trifolium pratense (purple clover) and Trifolium repens (white clover) of modern botanists."—Notes and Queries.

A fruitarian diet consists of the fruits of trees (like apples, oranges, bananas and olives), the fruits of bushes (like currants and raspberries), the fruits of plants (like strawberries and melon, lentils and beans and cucumbers), the fruits of grasses (like wheat and barley and maize and oats), the fruits of nut trees (from filbert to cocoanut), together with some earth fruits (like potatoes), and a modicum of vegetables and salads. To these may be added butter, milk, honey and cheese, although their production is not so free from risk of contamination and animal infection as is the case with the products of the vegetable kingdom and the world of fruits. Grown under healthy conditions, with diseased specimens easy to detect and remove, it is far more possible to live healthily and well upon a fruitarian dietary than upon the products of the slaughter house.

THE IRONING BOARD

Convenient Method of Attaching it to the Kitchen Table.

An exceedingly convenient method of attaching an ironing board to the kitchen table is shown in the accompanying illustration. Housewives insist that an ironing board is the proper thing to use when ironing, being far superior to a table. Its particular form adapts it to the purpose, while the surface of a table is too large for the purpose. As shown here, the ironing board is normally hidden beneath the leaves of the

IRONING BOARD ON TABLE.

table, one end being hinged to the edge. One leaf of the table is also hinged to the one next in position. After throwing back the table leaf the ironing board can also be swung over to one side and is instantly ready for service. In this way the necessity of supporting the ironing board on two chairs is obviated. At the same time the balance of the table can be used for holding the unfinished clothes. Upon the completion of the ironing the board is again folded across the table supports and the leaf lowered to its normal position.—New Orleans Times-Democrat.

The Ancient Peruvians.

The Peruvians under the Incas had a most admirable system by which officers of justice who failed to perform their duties were subjected to the same penalties that should have been imposed upon the criminal. The punishment which the statutes provided for theft was inflicted upon any magistrate who neglected to punish a thief.

The Name "Agag."

The name Agag, mentioned in Jewish history as that of an Amalekite king, was used in common by all sovereigns of that country.

Lonely Man in a Crowd.

"Once in a great while" remarked the old New Yorker, "I have been right out on Broadway in the theater district just as the women and girls were coming out from the matinee performances. In spite of the fact that there are always a great many men in this crowd the proportion of femininity is overwhelming, and I've been puzzled to find a satisfactory reason for my sense of confusion and embarrassment. But now I know just how I feel and why I have the emotions that always beset me so keenly there at such a time. I am simply suffering in the way a man always does who goes to an afternoon tea and finds himself the only one of his kind who has appeared on the scene."

OTTAWA, ONT.

Architectural Competition for Departmental and Justice Building.

COMPETITIVE drawings are invited for Departmental and Justice Buildings to be erected for the Dominion Government at Ottawa, Ont.

The author of the best design will be awarded a premium of $8,000, the second best $4,000, the third best $2,000, and the fourth best $1,000.

Drawings will be received not later than April 15th, 1907, and are to be addressed to the Secretary of the Department of Public Works, Ottawa.

This competition is open to Canadian Architects who have been resident in Canada for one year or more.

Conditions of competition stating requirements of buildings and maps showing site &c. may be had on application to the undersigned.

By order,
FRED. GELINAS,
Secretary.

$75,000,000 IN COPPER DIVIDENDS

This stupendous sum will be paid to the lucky holders of Copper Stocks during 1907---so say the world's highest authorities.

Lluvia de Cobre Stockholders will Soon Share in These Profits

IMPORTANT NEWS FROM THE COPPER BELT OF SONORA.

A New Copper Mine that is Destined to Rank Among Mexico's Greatest.

Hermosillo, Mexico, November 20.—Local investors are showing unusual interest in copper stocks—particularly in the stocks of Sonora properties that have passed beyond the stage of mere prospects.

The property that is the strongest in public favor is the Lluvia de Cobre, located about 30 miles north from Hermosillo and about 90 miles west from Cabre on the Sonora Railway. This is considered one of the most valuable copper properties in the state, and much of the stock is held by the most conservative local investors. Business, banking and mining men of Hermosillo look with much favor upon this property, and the general prediction is that the Lluvia will very soon develop into one of the state's largest producers.

The property has been examined and reported on by some of the best known copper experts and engineers in the South-West—among the most prominent being Messrs. J. J. Wood and Thomas Bentley, well known as expert assayers through their work in this line for the Banco de Sonora, one of the largest banking institutions of Mexico. Exhaustive reports are also made by D. J. Thompson, L. H. Jansen, and others. The verdict of all is that this is a property of great value, and that from every indication it is soon to become another Greene Consolidated. Those familiar with the great Greene property say that no two properties in America are so nearly alike in every way as are these two kings of Sonora.

During the past month sensational developments have been made almost daily. The big strike of sulphide ore which was made in the Josephine shaft some weeks ago was one of unusual richness. The ore was encountered near the 350-foot level and penetrated for something near 20 feet, averaging from 11-2 per cent. to 25 per cent. in copper, and is one of the very best smelting ores, as it carries its own fluxes.

Following this rich strike the shaft penetrated an excellent deposit of iron sprinkled throughout with native copper, and just a few days ago went into the second layer of sulphides and with every indication present that the permanent sulphide bed will be reached at almost any moment. When that is accomplished the stock of this company should, and no doubt will, advance to far above its par value of $1.00 per share.

The company has been selling some of its stock for development purposes during the past two months, and the first block, offered at 25 cents, was quickly taken up and the price was just recently advanced to 35 cents per share. Conservative investors are taking up this second offering very rapidly, confident that this price will be more than doubled at a very early date.

The president vice-president and other officers and directors of the Lluvia de Cobre Mining Co., of Kansas City, Mo., recently spent several days at Camp Lluvia, and were more than gratified with the progress that is being made. Mr. W. T. Lake is in charge of the office at Hermosillo, and Mr. J. C. Worthington, General Manager, is directing the work at the mine.

The property is well equipped for present needs with steam hoist and other modern machinery. The assay office, tool house, shaft house, store house, and the homes for the workers are all well built and in first class condition. A full crew of men is working in two shifts, and the work of sinking the Josephine shaft on through to the permanent sulphide bed is being rushed with all possible speed. The miners are of the better class of Mexican laborers, are trained workmen, well paid and well satisfied with the treatment they are receiving from Manager Worthington. In this section of Mexico labor troubles are unknown.

The original holdings of the Lluvia de Cobre Mining Co. consisted of about 160 acres, but 120 acres of valuable adjoining property was added by the officers on their recent visit, making the present holdings 280 acres. This additional territory will mean much to the future of this already valuable property. Before the present offering of stock was placed on the market the officers of the company had already been developing the property for two years and had spent thousands of dollars of their own money in carrying the work to its present stage. The company needs larger equipment to carry on the large work outlined, and for that purpose stock is now being sold.

A smelter will probably be a proposition of the early future, but for the present, Green's big custom smelter at Guaymas will handle all the ore when shipments begin. The ore can be milled at a very small cost, owing to its unusually fine smelting qualities. Good wagon roads lead direct from the mine to Carbo, and the ore can be transported at a very reasonable cost.

Timber, fuel and water are near at hand and can be had at very small cost. In fact, everything is present in the Lluvia for the making of a very great mine—and that it will become such in the very early days of the future is the prediction of men in a position to know—the best and most expert mining engineers of Mexico.

LLUVIA DE COBRE HAS HIGH VALUE ORES.

The average of the many assays made on ores taken from all parts of the Lluvia de Cobre property, show an unusually high value.

Some of the most capable and experienced mining engineers in this country and Mexico have examined the Lluvia de Cobre property, and it is the general opinion of all that Lluvia de Cobre ores will run probably higher in value than the ores from many of the world's other greatest copper mines.

Following is a list of some of the world's greatest copper producers and the average value of the ores handled

Anaconda	3.75
Calumet & Hecla	2.5
Greene Consolidated	7.1
Quincy	1.5
Rio Tinto	2.29
United Verde	7.
Osceola	1.
Parrot	3.

When it is remembered that all these properties are valued at millions of dollars and have paid dividends of many millions more, and that the average valuation of the ores produced by these eight big properties is less than 3.5 per cent, it will readily be seen what a valuable property we have in the Lluvia de Cobre, with the possibility of opening up an enormous body of ore averaging probably double this amount.

A BIG, NEW SMELTER CLOSE AT HAND.

Colonel Greene is now building a large custom smelter at Guaymas on the coast of the Gulf of California. This will be one of the largest and most modern smelters in the State of Sonora, and as it is directly south of our property and at the terminus of the Sonora Railway, it will give us excellent smelting facilities until such time as we have our own smelter in operation.

MINING ACTIVITY IN MEXICO.

(From 1906 Edition of Stevens Copper Handbook, the world's most eminent authority on Copper).

MEXICO—The Republic of Mexico has made relatively greater strides in copper production during the past five years than any other country in the world. Not only has there been a most remarkable relative gain, but the actual gain in output puts Mexico an exceedingly close second to the United States in point of increase. That Mexico will soon lead Spain, and rank second only to the United States, seems assured. The Boleo has long been an important mine, but the copper production of all other Mexican mines was but 1,200 tons so recently as 1896. Since that time the Greene, Inguarran, Dandela, Moctezuma and other great properties have been developed. Those interested in copper will do well to keep an eye on Mexico for the next two years.

Mexico has upwards of 900 smelters of all sorts, mostly very crude, but with a few of the most modern type and of immense size, notable among the latter being the fine plants of the American Smelting and Refining Co. at Aguascalientes, Monterey and San Luis Potosi. There are also fine reduction plants of the Boleo, Green Consolidated, Inscubridora and other copper mines of the country.

WATER AND FUEL.

In the development of the Greene property one of the most serious problems that presented itself was the water supply.

No such difficulties are encountered at the Lluvia de Cobre. The property is located in a draw, and water can be secured in sufficient quantities to supply all possible needs at any time in the future.

Fuel timber grows in abundance in the immediate neighborhood and can be cut and prepared for use at a very small cost.

Expert Testimony as to the Lluvia de Cobre Mine

FROM A PROMINENT MINING ENGINEER.

"I have visited the Lluvia de Cobre property various times. My opinion has always been that it was valuable mineral ground. Subsequent development work has proven this opinion to be correct."

H. H. LIGHT, E. M.,
Hermosillo, Mex.

FROM THE MANAGER OF WELLS-FARGO EXPRESS CO. FOR THE STATE OF SONORA.

"I have been to the Lluvia de Cobre properties and can say that in my opinion they have a fine future, with very little development work. I have talked the matter over with expert mining men and find that my opinion is well based and would not be surprised to see this property rise to be among the biggest in the state."

L. P. GAXIOLA,
Hermosillo, Mex.

FROM THE HERMOSILLO MANAGER OF THE LLUVIA DE COBRE MINE.

"I had one of the most beautiful homes in this city, and exchanged it for a block of Lluvia de Cobre stock before there was any amount of work done, and can now get my home back in exchange for ONE-FIFTH of the same stock that I received for the property, so you see that our people here think well of the Lluvia's future."

W. T. LAKE.

The Lluvia de Cobre Mining Co. is really a close corporation, the controlling interest being held by well known Kansas City business men. As to the business standing and integrity of the Officers and Directors of this Company we refer by special permission to The Fidelity Trust Company or The Union Avenue Bank of Commerce, both of Kansas City, Mo.

LLUVIA DE COBRE Stock now 35 Cents a Share - - Par Value $1.00

The original incorporators of the Lluvia de Cobre Mining Company have already expended thousands of dollars of their own money in the purchase and development of the property to its present stage.

These developments prove that the Lluvia de Cobre is destined to become one of the world's leading copper producers, and that it justifies much more extensive and more rapid development than it is now receiving. We want money in order that we may greatly increase the working force, purchase more machinery and equipment of all kinds. We want to rush the work of sinking the Josephine shaft (which at this time has reached a depth of 350 feet) as rapidly as possible. We want to thoroughly open up this big property and then install mills, smelters, additional work houses, store houses—everything necessary to make this the really big mine that it can surely be made with the necessary capital behind it.

Only 400,000 shares are to be sold for this purpose, as this will secure sufficient money to meet all requirements. 100,000 shares of this stock will be sold at 35 cents per share. It is no reflection upon the value of this great property to admit that we must seek outside financial assistance. The great Greene Consolidated would not be the immense property it is today had it not been for the aid of the investing public. The Calumet and Hecla, Anaconda, Boston and Montana—these and all other big mining properties owe their present greatness to the co-operation and assistance of the "outside investor."

COPPER IS THE WORLD'S GREATEST FORTUNE MAKER.

Every argument that could be desired points to copper as the king of all mining investments.

Electricity, the one great factor in the modernization of the world, is believed to be only in its infancy—and even now the world's supply of copper is not sufficient to supply the demand for this one industry alone.

"Never in memory has copper mining been as profitable as it is today. Not only has the increasing consumption and high market prices initiated prosperity, but the improvements in mining methods have made it possible to handle all grades of ore economically."—The Mining World, March 31, 1906.

"Copper stocks offer the biggest opportunity for money making in the world today."—Thomas W. Lawson.

"Lawson, we have verified your conclusions as to the value of copper stocks as an investment."—H. H. Rogers.

No investment is so safe, so permanent, so profitable, so sure and sain, as copper!

My Personal Guarantee to Investors

I have told you just what must necessarily be done before this property can be made the big producer that it should be—and that we intend it to be.

I have told you that this Company needs more money to obtain these results and why you are given the opportunity to assist in furnishing it.

I believe this proposition offers far greater returns per dollar invested than any other investment proposition on the market.

So confident am I of the future of this great property that I have this proposition to make to you:

Subscribe at once for as much of this stock as you feel that you can carry. Investigate the mine and the men behind it in any and every way you please for thirty days. If you are not entirely satisfied with your investment at the end of that time, you have but to write me to that effect and I will return every cent of your money.

I want you to feel that you positively cannot go wrong by making an investment in Lluvia de Cobre stock. I want you to decide the question of making this investment, and I want you to give me your order at the earliest possible moment.

Weigh this proposition in the balance—let the facts in the case, as they impress you, decide its true worth. I leave it to your good judgment as to whether you shall be one of the chosen few to participate in the profits of the Lluvia de Cobre another Greene Consolidated.

CHAS. M. GARDNER, Fiscal Agent,
Lluvia de Cobre Mining Co.

JOIN WITH US AND HELP MAKE ANOTHER GREENE CONSOLIDATED.

Send in your order for any amount of stock, from 50 to 10,000 shares. Remit one-fifth cash with your order, and pay the balance in four monthly payments.

By this plan you will secure your whole reservation at the present price of 35 cents per share, no matter how much the price may have advanced in the next five months.

No orders accepted for less than 50 shares. No preferred stock, no bonds. All stock fully paid and non-assessable, par value $1. The stock will rapidly advance in price, but by making your reservation large you will be getting your stock five months from now at the same price as now, while others may be paying several times what you pay.

Upon completion of your payments, certificate will be issued for stock purchased, or should you desire to discontinue payments at any time, you will receive certificate for number of shares paid for.

PAYMENTS FOR FIVE MONTHS.

50 shares	$ 2.50 per month
100 shares	7.00 per month
200 shares	14.00 per month
300 shares	21.00 per month
400 shares	28.00 per month
500 shares	35.00 per month
800 shares	56.00 per month
1000 shares	70.00 per month
1200 shares	84.00 per month
2000 shares	140.00 per month
5000 shares	350.00 per month
10000 shares	700.00 per month

Officers and Directors

The success of any mining company depends first, of course, upon the property itself, but next, and of almost equal importance, is the personnel of the men back of the whole proposition.

We publish herewith a complete list of the officers and directors of the Lluvia de Cobre Mining Co. We do not believe a more trustworthy or more efficient organization was ever effected. Each and every man has made a pronounced and unusual success in some one particular line of business endeavor and is exceptionally well suited to the duties required by his connection with this company.

Investigate this proposition and the men behind it in any and every way you please—and let the verdict of those who know assist you in deciding whether or not these gentlemen are worthy of your trust and confidence.

A. H. GLASNER, President, President Glasner & Barsen Importing Co., Kansas City, Mo.

DARREL of THE BLESSED ISLES

By IRVING BACHELLER,

Author of "Eben Holden," "D'ri and I," Etc.

COPYRIGHT, 1905, BY LOTHROP PUBLISHING COMPANY

Tunk, who had been outside the door in his best clothes, but who, since he put them on, had looked as if he doubted the integrity of his suspenders and would not come in the house, began to laugh loudly.

"That man Tunk can see the comedy in all but himself," was Trove's thought as he returned with a smile of amusement.

Soon Trove and Polly came out and stood by the lilac bush at the gate.

"You worry me, Sidney Trove," said she, looking off at the moonlit fields.

Then came a silence full of secret things like the silences of their first meeting there by the same gate long ago. This one, however, had a vibration that seemed to sting them.

"I am sorry," said he with a sigh.

Another silence in which the heart of the girl was feeling for the secret in his.

"You are so sad, so different," she whispered.

Polly waited full half a minute for his answer. Then she touched her eyes with her handkerchief, turned impatiently and went halfway to the door. Darrel caught her hand, drawing her near him.

"Give me thy hand, boy," said he to Trove, now on his way to the door.

He stood with his arms around the two.

"Every shadow hath the wings o' light," he whispered. "Listen."

The house rang with laughter and the music of "Money Musk."

"'Tis the golden bell of happiness," said he presently. "Go an' ring it. Nay—first a kiss."

He drew them close together, and they kissed each other's lips and with smiling faces went in to join the dance.

CHAPTER XXVI.

AGAIN the middle of September and the beginning of the fall term. Trove had gone to his old lodgings at Hillsborough, and Polly was boarding in the village, for she, too, was now in the uphill road to higher learning. None save Darrel, who gave her the young man's money, knew his secret—that he was paying her board and tuition, unknown to her. The thought of it made him most happy, but now seeing her every day had given him a keener sense of that which had come between them. He sat much in his room and had little heart for study. It was a cozy room now. His landlady had hung rude pictures on the walls and given him a rag carpet. On the table were pieces of clear quarts and tourmaline and about each window frame odd nests of bird or insect, souvenirs of wood life and his travel with the drove. There, too, on the table were mementos of that first day of his teaching, the mirror spectacles with which he had seen at once every corner of the schoolroom, the slung shot and bar of iron he had taken from the woodsman Leblanc.

One evening of his first week at Hillsborough that term Darrel came to sit with him awhile.

"An' what are these?" said the tinker at length, his hand upon the shot and iron.

"I do not know."

"Dear boy," said Darrel, "they're from the kit of a burglar, an' how came they here?"

"I took them from Louis Leblanc," said the young man, who then told of his adventure that night.

"Louis Leblanc!" exclaimed Darrel. "The scamp an' his family have cleared out."

The tinker turned quickly, his hand upon the wrist of the young man.

"These things are not for thee to have," he whispered. "Had ye no thought o' the danger?"

Trove began to change color.

"I can prove how I came by them," he stammered.

"What is thy proof?" Darrel whispered again.

"There are Leblanc's wife and daughter."

"Ah, where are they? There be many would like to know."

The young man thought a moment.

"Well, Tunk Hosely, there at Mrs. Vaughn's."

"Tunk Hosely!" exclaimed the tinker, with a look that seemed to say: "God save the mark! An' would they believe him, think?"

Trove began to look troubled as Darrel left him.

"I'll go and drop them in the river," said Trove to himself.

It was 11 o'clock and the street dark and deserted as he left his room.

"It is a cowardly thing to do," the young man thought as he walked slowly, but he could devise no better way to get rid of them.

In the middle of the big, open bridge he stopped to listen. Hearing only the sound of the falls below, Trove took the odd tools from under his coat and flung them over the rail. He turned then, walking slowly off the bridge and up the main street of Hillsborough. At a corner he stopped to listen. His ear had caught the sound of steps far behind him. He could hear it no longer and went his way with a troubled feeling that robbed him of rest that night. In a day or two it wore off, and soon he was told of the bit, as he was wont to say, and racing for the lead in his work. He often walked to school with Polly and went to church with her every Sunday night. There had been not a word of love between them, however, since they came to the village until one evening she said:

"I am very unhappy, and I wish I were home."

"Why?"

She was not able to answer for a moment.

"I know I am unworthy of you," she whispered.

His lungs shook him with a deep and tremulous inspiration. For a little he could not answer.

"That is why you do not love me?" she whispered again.

"I do love you," he said, with a strong effort to control himself, "but I am not worthy to touch the hem of your garment."

"Tell me why, Sidney."

"Some day—I do not know when—I will tell you all. And if you can love me after that we shall both be happy."

"Tell me now," she urged.

"I cannot," said he. "But if you only trust me, Polly, you shall know. If you will not trust me"—

He paused, looking at the snow path.

"Good night!" he added presently.

They kissed and parted, each going to the company of bitter tears.

As of old, Trove had many a friend—schoolfellows who came of an evening now and then for his help in some knotty problem. All saw a change in him. He had not the enthusiasm and good cheer of former days, and some ceased to visit him. Moreover, they were free to say that Trove was getting a big head. For one thing, he had become rather careless about his clothes, a new trait in him, for he had the gift of pride and the knack of neatness.

A new student sought his acquaintance the very first week of the term, that rather foppish young man who got off the cars at Hillsborough the day of their first coming. He was from Buffalo and, although twenty-two years of age, was preparing to enter college. His tales of the big city and his frank good fellowship made him a welcome guest. Soon he was known to all as Dick, his name being Richard Roberts. It was not long before Dick knew everybody and everybody knew Dick, including Polly, and thought him a fine fellow. Soon Trove came to know that when he was detained a little after school Dick went home with Polly. That gave him no concern, however, until Dick ceased to visit him and he saw a change in the girl.

One day two letters came for Trove. They were in girlish penmanship and bore no signature, but stung him to the quick.

"For heaven's sake get a new hat," said one.

"You are too handsome to neglect your clothes," said the other.

As he read them his cheeks were burning with his shame. He went for his hat and looked it over carefully. It was faded, and there was a little rent in the crown. His boots were tapped and mended, his trousers threadbare at the knee, and there were two patches on his coat.

"I hadn't thought of it," said he, with a sigh. Then he went for a talk with Darrel.

"Did you ever see a more shabby looking creature?" he inquired as Darrel came to meet him. "I am so ashamed of myself I'd like to go lie in your wood box while I talk to you."

"What hempen homespun have we swaggering here?" Darrel quoted in a rallying voice.

"I'll tell you," Trove began.

"Nay, first a roundel," said the tinker, as he began to shuffle his feet to the measure of an old fairy song.

"If one were on his way to the gallows, you would make him laugh," said Trove, smiling.

"An I could, so would I," said the old man. "A smile, boy, hath in it 'some relish o' salvation.' Now, tell me, what is thy trouble?"

"I'm going to leave school," said Trove.

"An' wherefore?"

The Land Man

534 Kansas Avenue, TOPEKA, KANSAS

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even-numbered section of Dominion Land in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence may be satisfied by residence upon the said farm.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 15 by 1500 feet. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

Placer mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent. collected on the output after it exceeds $10,000.

W. W. CORY,

Deputy of the Minister of the Interior.

The Ottawa Cobalt and Silver Mining Company

OTTAWA, ONT.

Incorporated under the Ontario Mining Companies Act.—No Personal Liability.

Authorized Capital, $250,000; Subscribed Capital, $50,000; Unissued and in Treasury, $200,000.

DIRECTORS

D. O'CONNOR JR. ESQ., Contractor, President, Ottawa.
W. J. KIDD Esq., Barrister, Vice-President, Ottawa.
JAMES WILSON Esq., Wholesale Merchant, Ottawa.
ROBERT GORMAN Esq., Gentleman, Ottawa.
J. OGLE CARSS Esq., Barrister, Ottawa.
SOLICITORS—KIDD & CARSS, Ottawa.
BANKERS—THE CROWN BANK OF CANADA, Ottawa.

PROPERTY AND LOCATION

The property consists of forty acres being the south-west quarter of the north half of lot 8 in concession I Township of Bucke. The property of this Company lies about three-quarters of a mile north-west from the celebrated Trethewey mine and is identically of the same formation. Vein matter was found in this property right from the surface and subsequent prospecting has revealed several well defined veins. On the main vein several nuggets of native silver were found. A shaft had been sunk to a depth of fourteen feet, when the property was taken over by this Company.

WORK ON THE PROPERTY

At present a camp is being built and active development work is being proceeded with. One half of the Company's property is still unprospected.

BUSINESS PROPOSITION

Of all Cobalt Mining Companies none can show a sounder business basis than this. The organizers had such confidence in the property that they have taken their entire interest in stock and have pooled same for six months, evidencing the fact of their absolute confidence in the value of the Company's property at the par value of $1.00 per share. ONLY 25000 shares are being issued at the present time for active development work. It is confidently expected that this will be sufficient to make this property a shipper, and if so the public can at a glance see what the values of these shares will be, having regard to the fact that only 75,000 shares of the Company will have been issued. The stock is not being offered outside of Ottawa as the Directors feel confident this small amount will be oversubscribed here. Address

D. O'CONNOR, President, - - OTTAWA, ONT

All Eyes Are on Nevada

Fortunes are being made Every Day

Co-operation is your opportunity for making honest money.

THE NEVADA QUEEN GOLD MINING COMPANY

Has a most wonderful showing of surface ores, equaling the best found in Tonopah, Goldfield, Fairview, Manhattan and Bullfrog. Gold, Silver and Copper assays show extremely high values.

THE RUSH IS ON!

Many operators are investing large sums of money in the district which is connected by rail with Goldfield. If you wish to be benefitted come in with us. We promise a fair and square deal. The Officers are mining men of good reputation—References of the best. Investigate.

100,000 SHARES

To be sold for FIVE CENTS each for development only. 100 shares $5.00, the minimum of any one subscription.

Our proposition is worthy of immediate consideration.

A GOOD MINE

pays larger dividends than any other enterprise in the world.

We believe our stock will be selling at ten times the present price within one year. We own SIX CLAIMS (120 acres), fully paid for—no debts; work in progress. We need money to develop the same into what we believe a dividend paying bonanza.

Yours the opportunity! Again we say, Investigate.

For stock and further information, address

The Nevada Queen Gold Mining Co.

L. H. FLANDERS, Sec-Treas., P.O. Box 405, DENVER, Colo

Kansas City Portland Cement Co.

We invite attention of investors to the stock of the Kansas City Portland Cement Co. The preferred stock draws 7 per cent. from date. With each share preferred a share common is given as a bonus. Capitalization conservative. No promotion stock. Every share sold for cash. Officers and directors successful local business men. The plant is nearing completion. No industry in the Southwest shows greater earning capacity than Portland Cement Companies. In many cases the common stocks are selling around par. The Kansas City proposition will have an advantage of 35c. per barrel in freight over any Cement entering this market. This alone is sufficient to pay dividends on the preferred stock. We recommend the purchase of this stock, and believe the common stock alone will be selling at par within a year. Write or call for prospectus and full information.

CLAWSON-STREAN BROKERAGE CO., KANSAS CITY, MO

A PATERNAL CRITICISM.

Sir Henry Irving's Comment on His Son's Early Hamlet.

H. B. Irving, son of Sir Henry Irving, was not educated primarily for the stage. Studying for the profession of barrister, while he was still in college he took part in amateur theatricals. An amusing story is told of one of his earlier interpretations of the difficult role of Hamlet. On this particular and early occasion, however, Sir Henry was "out in front," and after the performance several, including his son, crowded about him for an expression of opinion.

"What do you think of Smith as Polonius?" asked one.

"Good, very good," murmured Sir Henry in his quiet, kindly way.

"And Miss Blank as Ophelia?"

"Good, very good," again murmured Sir Henry.

"And Jones as the king?"

"Good, very good," repeated Sir Henry.

"And Thomas as Horatio?"

"Good, very good," came the answer.

So the entire cast was gone through with the exception of the principal character, and each received the same precise, neat criticism, "good, very good." Then there was a slight pause, an awkward pause, after which the son, who had been waiting eagerly and anxiously for his father's opinion about his acting, managed to pluck up enough courage to stammer, "But, father, what did you think of—the rest of the cast?"

Sir Henry looked blandly at his son and then remarked dryly, "Are you sure that you want to be an actor, my son?"

MAN AND MONEY.

The Change That Often Comes With the Acquisition of Wealth.

The transforming power of money the moment it gets into a man's possession is one of the unsolved mysteries of the universe. Of course we know that the poison of avarice and greed is in the character and not in the money, but it is unfortunate that the possession of money seems to develop, to bring out, some of the worst human qualities, qualities which never develop in poverty or show themselves under ordinary circumstances.

Before we get possession of money we feel sure that we will not allow it to warp and twist our ideals. We are going to show the world a sane use of money. We are going to help everybody. We are going to help struggling merit, assist poor boys and girls to get an education and to get a start in the world. We are going to be helpful and useful in the largest possible way.

But it is a strange trait in human nature that, no matter how humble or democratic or helpful and companionable people may be while poor, just as soon as the average man gets more than his fellows he begins to domineer over them and to use the very wealth which he was so anxious to get to enable him to help his fellow men to oppress and trample upon them.—O. S. Marden in Success Magazine.

Not a Bad Prescription.

On a family druggist's prescription file is an oft repeated prescription bearing number 37,111. The Latin of the twentieth century reads: "Recipe. Ticketorti theatrici numera duo signe. Take this afternoon. Dr. ——."

Obviously it is an order on the druggist written by a reputable physician for two theater tickets, and the patients, mother and daughter, are enabled to take needed treatment at a matinee while the busy husband and father remains at work. The reason for the scheme as told the druggist by the doctor was the absolute need of mother and daughter for recreation, and as the druggist has a theater ticket office it was readily and satisfactorily arranged.

What Breathing Amounts To.

In each respiration an average adult inhales one pint of air. A man respires sixteen to twenty times a minute, and a young child about twenty-five to thirty-five times. While in a standing posture the number of respirations is greater than when lying down. A man takes only thirteen breaths of air to the minute while reclining. The superficial surface of the lungs is 200 square yards. The amount of air inspired by an adult in twenty-four hours is about 10,000 quarts. The least amount of air needed by an adult in one hour is 300 quarts. The heart sends through the lungs 5,000 gallons of blood daily.

Most Birds Love Toys.

Most birds love toys. The playthings help to while away the time and prevent them from tearing their plumage. Parrots are especially devoted to playthings and can be trained to do simple tricks with the objects specially fancied. A soft billed bird will amuse itself for an hour with a peanut which it cannot break, a tiny bell or a mirror just big enough to reflect its own head.—Mary Dawson in St. Nicholas.

Fixing the Value.

Jones—So the price of that "old master" is $5,000. It doesn't look to be worth $10.

Art Dealer—Yes, but remember it was painted in 1249. Just think what $10 at compound interest would amount to for that length of time!

Impertinent.

Old Doctor—What are those white objects I see in the distance, my dear?

Miss Pert—Those are signs advertising your profession, sir. Old Doctor—Ah, I thought they might be tombstones. Miss Pert—So they are.

Suppose She Had Been Out!

"What day was I born on, mother?"

"Thursday, child."

"Wasn't that fortunate? It's your day 'at home.'"

MEN AND WOMEN. Use Big G for unnatural discharges, inflammations, irritations or ulcerations of mucous membranes. Painless, and not astringent or poisonous. Sold by Druggists, or sent in plain wrapper, by express, prepaid, for $1.00, or 3 bottles $2.75. Circular sent on request.

BIG G CURES in 1 to 5 days. Guaranteed not to stricture. Prevents Contagion. Non-Astringent or Poisonous. SOLD BY DRUGGISTS. U.S.A.

ADVERTISE IN THE TIMES.

THUNDER.

Odd Beliefs That Used to Exist in Days of Old.

Thunder, just because it is a noise for which there is no visible cause, has always excited the imagination of the unscientific, so it is natural that the most outrageous superstitions about storms should date back to the time when everybody, more or less, was unscientific. One old writer explains the belief of his day that "a storm is said to follow presently when a company of bogges runne crying home," on the ground that "a bogge is most dull and of a melancholy nature and so by reason doth foresee the raine that cometh." Leonard Digges, in his "Prognostication Everlasting" (1556), mentions that "thunder in the morning signifies wind; about noon, rain, and in the evening, a great tempest."

The same writer goes on to say, "Some write (but their ground I see not) that Sunday's thunder should bring the death of learned men, judges and others; Monday's, the death of women; Tuesday's, plenty of grain; Wednesday's, bloodshed; Thursday's, plenty of sheep and corn; Friday's, the slaughter of a great man and other horrible murders; Saturday's, a general pestilent plague and great dearth." After this the gay and lightsome manner shown by Lord Northampton toward these grave matters in his "Defensative" is most cheering. "It chanceth sometimes," he writes, "to thunder about that time and season of the years when swannes hatch their young, and yet no doubt it is a paradox of simple men to think that a swanne cannot hatch without a crackle of thunder."—London Chronicle.

A STUDY IN MILEAGE.

Almost Every Country Has a Standard of Its Own.

English speaking countries have four different miles—the ordinary mile of 5,280 feet and the geographical or nautical mile of 6,085, making a difference of about one-seventh between the two; then there is the Scotch mile of 5,928 feet and the Irish mile of 6,720 feet—four various miles, every one of which is still in use.

Then almost every country has its own standard mile. The Romans had their mille passuum, 1,000 paces, which must have been about 5,000 feet in length unless we ascribe to Caesar's legionaries great stepping capacity. The German mile of today is 24,318 feet in length, more than four and a half times as long as our mile.

The Dutch, the Danes and the Prussians enjoy a mile that is 18,440 feet long, three and a half times the length of ours, and the Swiss get more exercise in walking one of their miles than we get in walking five miles, for their mile is 9,153 yards long, while ours is only 1,760 yards. The Italian mile is only a few feet longer than ours; the Roman mile is shorter, while the Tuscan and the Turkish miles are 150 yards longer. The Swedish mile is six and a half times and the Vienna post mile is four and a half times the length of the English mile.

Wonderful Monastery.

At Solovetsk, in the Russian government of Archangel, is the most remarkable monastery in the world. The monastery of Solovetsk is inclosed on every side by a wall of granite bowlders which measures nearly a mile in circumference. The monastery itself is very strongly fortified, being supported by round and square towers about thirty feet in height, with walls twenty feet in thickness. The monastery consists in reality of six churches, which are completely filled with statues of all kinds and precious stones. Upon the walls and the towers surrounding these churches are mounted huge guns, which in the time of the Crimean war were directed against the British White sea squadron.

Too Energetic.

"Last Saturday," said the fat dweller, "I went out into the hall and saw a woman on her knees scrubbing the marble very well, making it a beautiful dead white. I thought to myself, 'This is a good scrubwoman; I'll ask her to scrub my kitchen and clean my windows.' I did. She scrubbed all the paint off the floor of my kitchen and washed the panes of two windows entirely out.

"I was glad I didn't ask her to wash my face," she finished.

When Honeymoon Ends.

"How," said the young man who had been in the matrimonial game for nearly a week, "can I tell when the honeymoon is over?"

"It will be over," answered the man who had been married three times, "when your wife stops telling things and begins to ask questions."

Social Danger.

So long as we have at the bottom of our social fabric an army of vagabonds, hand to mouth livers and slum dwellers, half starved, dirty, foul mouthed, so long are we in imminent danger. And it is want of work which makes recruits for this army.—Mirror.

Tart Retort.

"Young man, you are better fed than taught," said the professor angrily.

"Quite right, sir. My father feeds me," answered the student.—London Tit-Bits.

Generous.

"You said that when we were married you would refuse me nothing."

"I'll be still more generous. I'll not even refuse you nothing. I'll give it to you."

The first English work on anatomy was by Thomas Vicary, in 1548.

To have beautiful, perfect, pink, velvet-like lips, apply at bedtime a light coating of Dr. Shoop's Green Salve. Then, next morning, notice carefully the effect. Dry, cracked, or colorless lips means feverishness and are as well all appearing. Dr. Shoop's Green Salve is a soft, creamy healing ointment, that will quickly correct any skin blemish or ailment. Get a free trial box at our store and be convinced. Large Glass Jars, 25 cents. J. D. Tully.

50,000 SHARES

OF A

RICH GOLD MINE

IN NEW ONTARIO ALLOTED TO PETERBORO

The undersigned has secured an allottment of 50,000 shares of a rich gold mine in New Ontario. The mine promises to be one of the richest in the Country, and adjoins the great Bloom Mine, which is estimated to be worth over $25,000,000. This stock has par value of $1.00 and will be sold for 50c. a share for the next 30 days. It probably will be worth many times its present value in a short time. Now is the time to invest. There is no risk—it is a sure thing. Money needed for developement. For further particulars apply to.

THOS. PATTERSON & CO.
BROKERS,
161 SIMCOE STREET PETERBORO.

TENDERS FOR MINING LANDS

IN PURSUANCE of an Order-in-Council, dated 22nd November, 1906 tenders will be received by the undersigned at the Department of Lands, Forests & Mines, Toronto, Ont., up to the hour of one o'clock in the afternoon of Thursday, the 20th day of December, 1906, for the purchase of those portions of the beds of Cobalt Lake and Kerr Lake situated in the Township of Coleman, in the District of Nipissing, now the property of the Crown, together with the mines, minerals and mining rights therein and thereunder, the same being described as follows:—

PARCEL NUMBER ONE.

Land covered by water of Cobalt Lake. Being composed of the land covered by water of all that portion of Cobalt Lake situate in the Township of Coleman, in the District of Nipissing, lying south and east of the south-easterly limit of the right-of-way of the Temiskaming & Northern Ontario Railway and Cobalt station grounds, together with the islets in the said portion of said Lake, excepting thereout and therefrom that portion of Cobalt Lake designated as mining location J. B., containing four acres, granted by letters patent, dated 21st July, 1905, to James H. McKinley, Ernest J. Darragh, Robert Gorman and William Anderson, said portion of Lake hereby offered for sale containing by admeasurement forty-six acres, more or less.

PARCEL NUMBER TWO.

Land covered by water of Kerr Lake. Being composed of land covered by the water of Kerr Lake, in the Township of Coleman, in the District of Nipissing, excepting thereout and therefrom those portions surveyed and designated as mining locations J. A., J. B., 10 and J. B. 11, containing by admeasurement two acres, four acres and twelve acres respectively, the two former locations, J. B. 9 and J. B. 10, having been granted by letters patent, dated 22nd June, 1905, to the Canada Iron Furnace Company, Limited, and J. B. 11 having been granted by letters patent, dated 20th June, 1905, to Jacob A. Jacobs, said portion of Lake hereby offered for sale containing by admeasurement twenty-three acres, more or less.

Parcel Number 1 carries with it the right to mines and minerals in the adjacent one-half of the road allowance on the east shore of Cobalt Lake, and lying between the mining locations R. L. 401 and R. L. 404 and the water's edge, provided the veins or deposits extend from the bed of the Lake into or under the said road allowance. See 6 Edward VII., Chapter 23, Section 30.

The boundaries of both parcels will be surveyed and delimited on the ground before the day of sale.

Tenders are to be for each parcel separately, and are to name a lump sum for each parcel, without royalty, payable in full within fifteen days of acceptance of tender.

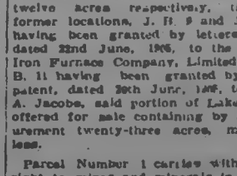
A marked cheque for ten per cent. of the price offered must accompany each tender, to be forfeited upon non-payment of the balance of the purchase money within the prescribed time.

Tenders to be enclosed in sealed envelopes, marked on the outside in plain letters, "Tender for Cobalt Lake," or "Tender for Kerr Lake," as the case may be, and to be addressed to the Minister of Lands, Forests & Mines, Toronto, Ont.

The highest or any tender not necessarily accepted.

F. COCHRANE,
Minister of Lands, Forests and Mines.

Toronto, Ont., 22nd November, 1906.



9,600 FEET

Sixty six mining claims.
A crosscut tunnel now in 4,000 feet.
5,000 feet of drifts, shafts and laterals.
A complete 750 h.p. turbine electric power plant.
Numerous Veins exposed.
A big industrial and Mining Proposition Combined.
A Strong Directorate.

This is real mining.

The Palmer Mountain Tunnel and Power Company has 66 lode mining claims back of it on Palmer Mountain, near the Town of Loomis, Okanogan County, Washington—about 12 miles south of the boundary of British Columbia. A new railway line is nearly completed and will run within 12 miles of the property. Steamers ply on the Okanogan River to within 24 miles of our properties. There is water—not only for mining purposes, but with unlimited possibilities for power generation. There is timber, there are large, well defined veins proved at great depth—and there is development enough done to make this one of the biggest and best mining propositions in the country.

INTERIOR OF TUNNEL

We can do more with $10 ore on our properties than the desert miners can do with $40 or even higher grade ore. We can make money because we have the FACILITIES on our ground. Our ore can be mined, milled, cyanided and bullion produced for not exceeding $3.50 a ton.

Our immense crosscut bore—a picture of which we show herewith—is now in 4,000 feet, is 9 by 9 in the clear (as large as any of the big transportation and drainage tunnels), and is well timbered, equipped with track, ore cars and everything else essential. In the picture shown herewith, the large pipe running at the top of the right side of the tunnel, is for ventilation purposes and connects with a large, powerful blower.

Recent development on the mountain proves that we shall open up at tunnel level (3,500 feet beneath the surface) an enormous body of copper ore.

We have opened up much $10 ore, and we have a higher grade running up to $50 a ton. This is where the big profit comes from. In the nearly TWO MILES OF WORKINGS we have all the facilities for handling a very large production. Back of it all we have a capable mining and business management. We should be very glad to tell you the complete story. We can only hint at it here.

For particulars, apply to

About Female Ailments

Not Hard to Cure if Properly and Promptly Treated.

Ask any intelligent physician what causes nine-tenths of all female disease, even including anaemia, nervousness and consumption.

Back comes the answer quick and sharp "Constipated Bowels."

There is scarcely a single female ailment that had not in its earlier stages symptoms of constipation.

How much better off the system is without the poisonous accumulations caused by constipation. How much clearer the complexion, how much fresher one feels when the system is pure and clean.

Think it over yourself.

Isn't it apparent that a bowel regulator and liver stimulant like Dr. Hamilton's Pills is sure to do good?

Gay spirits, good looks and happy health have returned to many a sick woman through Dr. Hamilton's Pills.

Better get a few boxes today; purely vegetable, free from injurious ingredients, healthful and antiseptic. Dr. Hamilton's Pills will assist you in a thousand ways.

As delay is always dangerous, your plain duty is to follow the example of Mrs F. Rowe, who sends the following letter from Gravois, Port Au Port, Newfoundland; "Four years ago I got kidney and bladder trouble. I thought it was 'female trouble' and treated it accordingly. Even my doctor in St John said it was so.

"In reading about Dr. Hamilton's Pills I noticed symptoms like mine and I bought six boxes. These pills went right to work on my sick condition and helped me from the first. My supposed female trouble, which was bladder disease, was cured. My weight increased eight pounds and never before was I as well as today. Dr. Hamilton's Pills did it all."

All dealers sell Dr. Hamilton's Pills, 25c. per box or five boxes for $1.00. By mail from N. C. Polson & Co., Hartford, Conn., U. S. A., or Kingston, Ont.

THURSDAY, DECEMBER 20, 1906

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS.

Servant Wanted.

A good general servant wanted. Apply at 201 Hunter street. References required.

Died.

ARMSTRONG—Mrs. Thomas Armstrong, widow of the late Thomas Armstrong, passed away at the age of 79 years, yesterday evening. The funeral will take place from the family residence, 467 Water street, Friday afternoon at three o'clock.

Mrs. McNeil is Convalescent.

Yesterday Mr. Wm. Croft received intelligence that his daughter, Mrs A. McNeil, matron of the Rockwood Hospital at Kingston, was rapidly convalescing and was now out of all danger, after an attack of typhoid fever, as noted in a former issue of The Times. This will be pleasing intelligence to Mrs. McNeil's many many friends in this city.

Harness Was Stolen.

The day before yesterday, Mr. Wm. Croft, the well-known ginger beer manufacturer, on arriving at his home on Reid street, left his delivery sleigh on the street in front of his residence. Whilst the sleigh was standing in front of his place a thief took his breeching straps away. Mr. Croft has a good idea of the party stealing this harness and if the same is not returned legal proceedings will be instituted.

Mr. Cooney to Give Up the Parks.

Those accustomed to see the beautiful effects of gardening in Victoria Park, will next year miss the careful attention and intelligent management of the present caretakership of Mr. B. Cooney. Mr. Cooney one of the most accomplished horticulturists of this city, yesterday informed a Times representative that he has finally decided not to take hold of the city parks next season, giving as part of his reason for such decision that, notwithstanding his arduous labors, insufficient protection is given him. Mr. Cooney stated that, owing to lack of proper fencing, etc., dogs and children run over, the beds and grass he is supposed to look after.

The New Term
—AT THE—
PETERBOROUGH BUSINESS COLLEGE
Begins Wednesday, Jan. 3, 1907

A very large number of applications for admission at the beginning of the terms have been received, and it is advisable that all who purpose attending should enter as near the commencement of the term as possible.

You cannot make a better investment

For particulars, address

W. PRINGLE,
Opposite Post Office, Principal.

LOCAL INCIDENTS

By The Times Man on the Street

—Pine Grosbeaks, most beautiful birds have frequently been seen in and about Peterborough.

—Messrs. J. J. Turner & Sons have recently shipped several handsome signs to Port Arthur, Ont.

—The evangelistic band of the Y.M.C.A., will have charge of the men's meeting on Sunday at 4 o'clock.

—A meeting will be held in All Saints' church this afternoon to decorate the church for the Christmas season.

—A pocket book was picked up in the post office yesterday, and is awaiting an owner at the police station.

—The weekly prayer meeting of St. Andrew's church was held yesterday evening at eight o'clock. The subject was "Diligence unto the end."

—Mr. Jas. Baptie yesterday notified Dr. Blanchard that his horse, which was in a railway collision about a week ago, is now all right.

—The Knox church open air rink at the corner of Wolfe and Reid streets, will open this evening. The ice is in good condition, and it is expected there will be a large attendance tonight.

Piles get quick relief from Dr. Shoop's Magic Ointment. Remember it's made alone for Piles—and it works with certainty and satisfaction. Itching, painful, protruding, or blind piles disappear like magic by its use. Try it and see! J. D. Tully.

—Mr. Dinwoodie has a gang of some 15 men stringing wires from the corner where Mrs. Phelan used to keep hotel to the village of Lakefield. These wires are both for electric light and for telephone purposes.

—Yesterday afternoon as Mr. Yorke of the Windsor Hotel, was crossing George street, he had a narrow escape, a runaway horse passing up George street, nearly running over this popular wine clerk.

Public Heating in Brantford

As noted in a former issue of The Times a company is trying to get a franchise for heating private residences, etc., from a central point, Mr. Brentnall being in charge of the local company.

It might be noted that a Brantford despatch says:

"A private company formed here for the purpose of conducting a business of central steam heating was given a 25 years franchise at the last meeting of the city council. The company is given the right to use the city's streets for conduits, and must be in operation inside of two years. A clause of the agreement provides that at the end of five years or at the end of any five years thereafter the city may take over the power and lighting system rights to engage in which are given in the franchise, on an agreed price by arbitration, but the city cannot touch the heating plant of the company.

The company if it enters the power line, agrees to give the city power for street lighting at 1-2 cent per h.p. per hour and power for water works at a like rate to amount of 400 h.p. at any one time if the city so desires.

Cobourg Wedding of Local Interest

A fashionable wedding took place at Cobourg on Tuesday, when Rev. Canon Spragge married Miss Alice Hunt, daughter of Mrs. H. C. Hunt of Cobourg, to Mr. Frances Edward Dench of the New York branch of the Canadian Bank of Commerce, son of Mr. Thomas Q. Dench, of Windsor, Ont. The happy event took place in St. Peter's church in the presence of some sixty guests. The bride was attired in a robe of Limerick lace and wore a veil of the same material. The bridesmaids were Miss Nora Hunt, sister of the bride, and Miss Jessie Dench, of Windsor, sister of the groom. The best man was Mr. W. Hogg, of the Bank of Commerce staff, Toronto. The ushers were Mr. Home Smith and W. Leggot of Toronto, and Mr. W. R. Morris of Peterborough.

After the ceremony a reception was held at the home of the bride, Mr. and Mrs. Hunt will reside in New York.

The guests present from Peterborough were, Dr. and Mrs. Greer, Miss Borradaile, Mrs. Geo. Rubidge and Mr. and Mrs. W. R. Morris.

Mr. John Crane Given a Presentation

That Mr. John Crane, manager of the local branch of the Dominion Bank, is not only an efficient official, but generally popular is evidenced by the fact that some 16 of his former employes, in the Ontario Bank, gave him a banquet in Conger's Palm Parlors.

The guests included the clerks who are remaining with the Bank of Montreal, and those of the Ontario Bank, who have taken positions in other local banks. A very pleasant evening with songs, speeches and other entertainment was spent.

Mr. T. E. B. Yeats presented the guest of the evening, with several fine pipes in a beautiful leather case. Mr. Crane made an appropriate and appreciative reply.

Catarrh of the nose and throat should lead you to at least ask us for a free trial box of Dr. Shoop's Catarrh Cure. Nothing so surely proves merit as a real, actual test—and Dr. Shoop, to prove this, earnestly desires that we let you make that test. This creamy, Snow White healing balm, soothes the throat and nostrils, and quickly purifies a foul or feverish breath. Call and investigate. J. D. Tully.

SOCIAL AND PERSONAL

—Mr J. H. Dale Foose, of Lakefield, was in the city yesterday.

—Mr Wesley Sherin, of Lakefield, was in the city yesterday.

—Mr. R. B. Rogers, of Campbellford, is in the city yesterday.

—Mr. Roy Jackson, of Woodstock College, is visiting relatives and friends here.

—Mr. Joseph Jacobs the well-known horse buyer of Montreal, is a guest at the Snowden House.

—Mr G. W. Hilton, the Toronto traveller for doctors' supplies was a guest at the Snowden House yesterday.

—Miss Irene Munro has arrived home from the Oshawa Ladies' College, to spend the Christmas holidays.

—Mrs F. J. Tate, Mrs. E. Attwood and Miss Louise Lefevre, of Lakefield, were visitors to the city yesterday.

—Mr Chas. Brandon who is well known about town and who has been for some months in England, has returned to Peterborough.

—Mrs W. J. McCallum of Peterborough, who has been visiting Mrs Charley Wiles, 44 Market street, has returned home.—Brantford Expositor.

—Lindsay Post, Messrs. C. H. Shield and J. W. Brightman of Peterborough, were in town today.—Mr. W. Rudkins, inland revenue official, was in town yesterday.—Mrs. Irwin and daughter of Peterborough, were in town yesterday.

W. F. M. Society of St. Andrew's Officers

The eighteenth anniversary of St. Andrew's Woman's Foreign Missionary Society resulted in election of the following officers for the coming year, viz.:

President—Mrs. (Rev.) J. G. Potter.
1st Vice President—Mrs. William Fowler.
2nd Vice President — Mrs. George Kerr.
Secretary—Mrs. T. H. Sills
Treasurer—Mrs. F. L. Robinson.
Organist—Miss B. Lundy.
Literature Sec.—Mrs. F. Pakenham.
Assistant Lit. Sec. — Mrs. James Garrad.
Executive Committee—Mrs. Richard Lees, convener, Mrs. J. Jamieson, Mrs. Thos. Richardson, Mrs. Wm. Carter, Miss L. Rae.
Committee on Northwest Clothing.—Mrs Frank Athinson, convenor, Mrs. Hugh Harper, Mrs. George Laing.

Mr. Dooley's New Observations.

In the language of a friend "Dooley is gittin' gayer and wiser all th' toime." He has never written so brilliantly as in the new series of Dooley articles which are now appearing in The Chicago Sunday Record-Herald. His views on "Mr Young Friend Count Bonaparte-Wyse, Moderator of the Presbyterian Activities" and other timely observations in the new series are the choicest things the author has ever offered his thousands of admirers,—full of witty sayings which will be quoted for years to come. These "Dooley" articles, each complete in itself, will appear in successive issues of The Record-Herald.

Price of Turkeys Considered.

A local contemporary devotes considerable space to an article showing that turkeys this year will be cheaper than last year. Our E.C. may be right. We only judge the price of this Xmas commodity by so much per mouthful. By our standard, turkeys this year cost exactly 6 3-8 cents per mouthful. It must be admitted that our mouth capacity is somewhat limited, were it as large as that of some of our contemporaries the price per mouthful might seem more expensive.

Children's Aid Gifts Noted.

The Children's Aid Society acknowledge, with thanks, the following donations:

Mark street church, Ladies' Aid Society, $10.
A Friend, $5.00
A Friend, $5.00.
A Friend, $2.00
Dr. Burnham, $10.00
Eko Camp, $8.00

HAVE YOU CATARRH?

Breathe Hyomei and Get Relief and Cure. Sold Under Guarantee

If you have catarrh, with offensive breath, burning pains in the throat, coughing, raising of mucous, difficulty in breathing, sneezing, huskiness, discharge from the nose, tickling and dropping at the back of the throat, especially at night, coughing spasms, etc., begin the use of Hyomei at once.

Its healing medication will give relief in a few days and its continued use will completely drive all catarrhal germs from the system.

Hyomei contains Nature's healing oils and balsams, the germ-killing properties of the pine forests, and goes with the air you breathe to the most remote cells of the respiratory organs, searching out and killing all catarrhal germs and soothing and healing any irritation there may be in the mucous membrance. It is easy and pleasant to use Hyomei, pleasanter than most of the stomach dosing, as its healing air is breathed through a neat pocket inhaler, which can be carried in the purse or vest pocket, and carries medication to just the stop where relief is needed.

The complete Hyomei outfit costs but $1.00, extra bottles, if needed, 50 cents. We do not want anyone's money unless Hyomei gives relief and cure, and we absolutely agree that money will be refunded unless the remedy gives satisfaction.

All druggists should be able to supply you with Hyomei or we will send it by mail on receipt of price, and every package is sold with the distinct understanding that it costs nothing unless it cures. Write us today for a symptom blank, which we will send you free, together with treatise on Catarrh and how to cure it. When you fill in and return to us the symptom blank, our consulting physician will give your case the best care and attention, and write you a letter of advice without charge. Booth's Hyomei Company, Buffalo, N. Y.

A Square Deal

Is assured you when you buy Dr. Pierce's family medicines—for all the ingredients entering into them are printed on the bottle-wrappers and their formulas are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests and while potent to cure are perfectly harmless even to the most delicate women and children. Not a drop of alcohol enters into their composition. A much better agent is used both for extracting and preserving the medicinal principles used in them, viz.—pure triple-refined glycerine. This agent possesses intrinsic medicinal properties of its own being a most valuable antiseptic and antiferment, nutritive and soothing demulcent.

Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour rising, heart-burn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels.

Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal passages, it is well, while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures the worst cases.

In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hacking coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—no medicine will do that; but for all the obstinate, chronic coughs, which, if neglected, or badly treated, lead up to consumption, it is the best medicine that can be taken.

Mr. Fairbairn's Funeral Today

The funeral of the late Jane Roger Fairbairn, whose deplored decease was noted in yesterday's issue, will take place from the family residence, "Cordach," Peterborough, this afternoon, December 20th, 1906, at three o'clock, from Mr. G. M. Roger's residence. Friends are requested not to send flowers. Very general regret was in evidence yesterday over this lady's passing away.

Local Co. to Pay Dividend

It was currently rumored yesterday that the Peterborough Tool and Shovel Company will shortly pay a six per cent dividend on stock subscribed. If this is correct it is a most creditable showing for a company only in business for so short time.

"C-B" WITHDRAWS BILL, AFTER AN ANGRY SPEECH

Says a Way Must and Will Be Found to Prevent Lords Thwarting the Will of People---Present Condition is Intolerable

London, Dec. 21.—The Education bill was buried by Premier Campbell-Bannerman in the House of Commons yesterday afternoon. After a speech, defending the course of the Lower House in rejecting the House of Lords' amendments and repudiating the claim of the peers that they have the right to lecture the Commons on the subject, the premier announced that the government had decided to withdraw the measure.

"Is the general election and its result to go for nothing?" he asked, with warmth. "It is intolerable that the second chamber, while one party is in power, shall be its willing servant, and that when that party is emphatically condemned by the country it shall still be able to thwart and distort the policy which the electors approved. It may be necessary to submit for the moment, but neither the resources of the British constitution nor of the House of Commons are yet wholly exhausted, and a way must and will be found whereby the will of the people, expressed through their elected representatives in the House of Commons, will be made to prevail."

Prolonged cheering followed the speech.

NO DISSOLUTION.

London, Dec. 21.—There will be no dissolution of Parliament as a result of the action of the House of Lords in defeating the Government's education bill.

Although the rejection of this, the main Liberal measure of the session, is the most serious rebuff Sir Henry Campbell-Bannerman's Cabinet has yet suffered, it is not regarded as being sufficiently grave to necessitate an appeal to the country. Whether the government could now successfully appeal to the nation on the education bill is the question on which even many Liberals are in doubt.

The only immediate effect of the step taken by the Upper House, therefore, will be to give an enormous impetus to the radical agitation in favor of curbing the veto powers of the Peers, and to furnish the Nonconformists with a new gun and ammunition in their fight for the disestablishment of the Church of England. There is today a widespread impression that a purely secular education bill will be introduced during the next session of Parliament, while no doubt the Cabinet during recess will consider what means are possible to prevent the Lords from nullifying prolonged labors of the commons and to debar their veto to measures passed twice by the Lower House.

It is the general view of politicians that the Peers have entered into a constitutional struggle embracing much more than the education bill. The Liberals promise that there shall be no cessation of the fight until the constitutional issue is settled as to whether the Liberal party is to be forever checkmated by the "Standing Committee of the Tory Peers."

King Edward yesterday received the premier at Buckingham Palace. It is understood that his Majesty wished to be fully informed regarding the Cabinet's views on the political situation, as affected by the education question.

The Times Read in Porto Rico

As an indication of the widespread area over which The Times is read, it might be noted that yesterday this office received a letter from a subscriber in the Island of Porto Rico, W.I. The writer Mr. Wm. Fanning, formerly of Peterborough, but who has been living some ten miles from San Juan since last June, writes to say that there is "no snow to shovel" in Porto Rico, the temperature being at the time our letter was written, 100 in the shade. Mr. Fanning says that the fruit of this island is grand, sapodillas, limes, cocoanuts, bananas and oranges flourishing plentifully, as well as many other luscious fruits with native names not known here. Porto Rico, our correspondent states is a great stock raising country. Their drinking water is collected from rainfall in cisterns. The natives are Negros and Ipics, a cross between Negros and Spanish. Mr. Fanning stated that some two weeks ago they had an earthquake that lasted thirty seconds. His address is Wm. Fanning, U.S. Marine Barracks, Culebra, W.I., Porti Rico, W.I.

Mrs. Armstrong's Funeral Today

This afternoon the last mortal remains of the late Mrs. Mary A. Armstrong, widow of the late Mr. Thos. Armstrong, will be laid to rest in the Little Lake cemetery, the funeral leaving the family residence, 467 Water street, at 2.30 p.m.

The late Mrs. Armstrong, at the age of 70 years, passed away on Wednesday evening. The deceased was the second daughter of the late Joseph Carew, and was born at Wedenstes Castle, in the County of Tipperary Ireland, on August 12, 1837. She was married in 1847, a few years after her arrival in Canada. She had been a resident of this city for over 30 years, and has many friends in Peterborough.

Six children survive, viz., Mrs. J. Walton, Mrs. D. Hunter, Mrs. A. Lang of this city; Jas. D. Armstrong, W. W. Armstrong and B. S. Armstrong, of Cincinnati. The deceased was a faithful member of St. John's church.

Mining Stock is Being Purchased

Mr. S. J. Moringstar, who is known to some of our local capitalists, and who some time ago inserted an advertisement in these columns offering for sale 50,000 shares in a rich mine in New Ontario, has written us that up to May 25th only 7,500 shares of this stock are now available as a great demand for the same has prung up. Toronto capitalists last week having purchased a very heavy block of the same; also a large number of shares have been purchased in Peterborough as a result of Mr. Moringstar's adv. in The Times.

The mine referred to adjoins the great Blum Mine which is estimated to be worth over $25,000,000. The mine, for which Mr. Moringstar is selling stock gives every indication of being one of the richest in the country. The stock which has a par value of $1 per share is for 30 days only offered at 60 cents per share.

For full particulars and stock address S. J. Moringstar, 516 Ashland Ave., Buffalo, N.Y.

The New Electrical Fire Alarm System

The Machine Telephone Co. Offer City Use of Their Poles and Alarm Wires Already Strung.

The Fire, Water and Light Committee met last night, when there were present, Chairman Ald. Johnston, and Aldermen Ball, Mason, Elliott and Graham;

Mr. F. D. McKay, manager of the Canadian Machine Telephone Co., was present in response to a communication from the committee as to whether the city could use his company's poles for an electrical fire alarm system, should the contract or same be given to any other company but the Bell. Mr. McKay explained that in this city, the Machine Company had divided their system into five circuits. The city, he said is already pretty well covered with poles, excepting of about 36 poles, half of which the company intend erecting for their own business.

Mr. McKay further offered that the Machine [illegible] engaged in construction work for their phone systems, strung 15 miles of No. 9 iron wire, using about 1000 glass insulators, for a fire alarm system which they then had in view. This they would turn over to the city at its original cost, about $300. The city is welcome to the use of all their poles, and could also charge the batteries of their alarm system from the Machine Company's machines. His company might consider the matter of installing the alarm system should they be given the contract for its maintenance. Mr. McKay advised that the best course for the city to pursue would be to have the system installed under the supervision of the electrical inspector it is the city's attention to engage.

Ald. Johnston here remarked that he did not think the new fire hall would be finished before February first.

The committee agreed to use the poles of the Machine Telephone Company, to which it appears the city have a right under agreement with the company when granting them their franchise.

The following tenders for boxes and material is in hand;

Anderson system, $3,120.

Gamewell system, $2,781.

Northern system, gravity $1,947, or $2,197.

Beattie system, $1,960.

Ald. Mason moved, seconded by Ald. Ball,—That the clerk write Mr. Beattie as to whether his price includes boxes, and asking information as to the boxes; to the Northern Electric Company, if price includes eight inch gong; and to both as to whether they would send a competent man to superintend installing of the material.—Carried.

Heavy Sentences on Hamilton Rioters

Men Who Assaulted Colonel Denison in Olives 18 Months—Another One Gets a Year.

Hamilton, Dec. 21.—Judge Snider yesterday sentenced four of the rioters convicted of rioting during the street car strike.

Judson Ryerson was sent to Central Prison for eighteen months for assaulting Colonel Denison, on the night of the big riot.

Alex Thompson and James Moran got one year each for being members of an unlawful assembly.

John Seemones, Greek confectioner, the remaining man of the [illegible] Sergt. Dore, received two months in all.

Judge Snider, when passing sentence, explained that he would have given Thompson a longer term only he had not denied the charge, and had not perjured himself as others had during the trial. The Greek, he said, was also leniently dealt with because he was a foreigner, and was in his own store, from which he thought he had a right to order the soldier.

Three of the prisoners are respectable citizens, and their friends are already working to have them released. This disposes of all the rioting cases, five boys and seven men having been acquitted.

A 322-Pound Woman Coming to Canada

London, Dec. 21.—Among the seekers of information who called at the Canadian Emigration Office yesterday was a woman weighing 322 pounds, who said that she and her husband intended to go to Canada at the beginning of the new year. Mr. Bruce Walker suggested that she had better postpone the journey until the leviathan Cunarders commenced running.

BURGLAR'S RECORD SPOILED HIS PLEA

Had Spent Many Years in Prison and Lived by Crime

SENTENCED TO THREE YRS.

Declared That as a Youth He Had Had no Good Home

Toronto, Dec. 21.—Michael Hough alias Thomas Mahon, and Joseph Kaveney were each sentenced to three years in the Kingston Penitentiary by Magistrate Denison yesterday for breaking into the premises of Wrey ford & Co., King street west, on the night of Dec. 12. John Daly, also convicted, was sent to the Central Prison for six months. The police think that three bad young men are out of mischief's way for some time.

Detective Twigg told of climbing through the transom over the door. He found Kaveney in the cellar, and numerous packages of goods tied up, ready to be carried off.

Hough had his record read for his benefit. It began when he was 10 years old with 60 days in jail for being a vagrant, and ran through until in 1896 he was sentenced to three months in the Central Prison for assaulting the police. In the same year he was sentenced to three years in Kingston Penitentiary for assault and robbery.

Kaveney also had a record, including 18 months in the Central Prison for burglary in 1899, and in 1900 to 2 years in the Central.

Hough made a plea on his own behalf. He has been out of the Kingston Penitentiary seven months.

"Your Worship, I never had a home. I was shifted about among my relations, and you know what they are. After I came out of the Reform School I had 50 cents in my pocket. Not a week's work. I went to Chicago, and afterwards returned here. I fell in with the old gang and they drifted. Can't you make it two years and a half? It will be some time then!"

"No," said the magistrate.

"I never had a chance."

"Yes, you did," said his Worship. "When you came before me when you were a boy, I gave you six months in jail, and later 60 days. I was younger then and must have been very lenient."

With the possible exception of Kaveney, all three are under 30 years of age.

Government Plan Badly Defeated

Proposed Scheme of Municipal Telephones Not Approved in Manitoba.

Winnipeg, Dec. 21.—The fuller details now available from the settled portion of the Province show conclusively that the Government's proposal for municipal telephone exchanges throughout Manitoba has been decisively defeated. Out of 81 municipalities from which final returns are to hand 48 have rejected the scheme and 24 have endorsed it. At least 25 per cent. of the latter have received less than five votes above the 50 per cent. necessary for its adoption.

The striking feature of the returns is the large number of rural municipalities that have rejected the scheme. Of the 18 urban municipalities that have endorsed the proposition seven are surrounded by rural municipalities that have decisively disapproved of the project. Only four rural municipalities within 100 miles of Winnipeg have approved of the scheme.

The municipalities adopting it are those in the more remote parts of the Province, at present unserved by the Bell Telephone Company. The two largest centers in which polling took place yesterday, Portage la Prairie and Brandon, both condemned the project. It is also significant that the municipalities represented by Premier Roblin, Minister of Public Works Roger, and Attorney-General Campbell voted down the proposition.

It is apparent from the returns that it will be practically impossible for the Government's proposition municipal and Government telephone scheme to be carried into effect. Returns from the settled portions of the Province are practically complete and those yet to come are expected to add further emphasis to the already pronounced defeat of the Government scheme.

Fire Destroyed Christmas Gifts

A Carload of Express Parcels From Toronto to the North-West Burned.

Toronto Dec. 21.—A carload of express packages shipped from Toronto to points from Winnipeg west, that left Toronto on Monday, the 17th caught fire, and was burnt to the trucks at Powassan Station.

The packages were being shipped by the Dominion Express Company. There were two cars, one in which the agent was, and the other loaded to its full capacity, which was destroyed.

There was neither fire nor light in the burnt car, and the express company is at a loss to know how the fire started. It is surmised, however, that it started as others have from a package of highly combustible material most probably flashlight powder. It is strictly against the rules of the express companies for anyone to ship combustible material, but the rules are often broken especially by photographers.

The loss, as far as the company is concerned, is covered by a bonds insurance.

The names of those to whom the packages were being sent are in the hands of the company, and they were immediately correspondent with the consignees, and are now receiving the contents and the senders names. However, as the packages were principally Christmas presents it is stated by the company that many of the consignees will have no time to be sendors are.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactures by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address: F. J. CHENEY & CO., Toledo, Ohio.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

Heartless Fraud on Girls Needing Work

Montreal, Dec. 21.—Another petty swindling operation has been exposed in this city, this time the alleged swindler being a man passing under the title of Rev. Robert Kerr. He advertised in the Toronto papers that he had two Scotch girls to place in positions, and received many enquiries to all of which he agreed to send the girls All that was necessary was to send railway fare. This was done by many people.

The man had his letters addressed to the Westmount post-office, and he engaged a room opposite that place on St. Catherine street. Exposure was brought about by some one up west asking a local friend to see the man, which was done. He agreed to produce the girls on a certain day, but by that time had skipped. It is believed he took in between $400 and $500 on the plan.

Police to Have Flying Machines

Paris, Dec. 21.—Captain Ferber, of the French Army, is convinced that in the next war there will be battles between flotillas of airships.

Speaking of the changed conditions on account of "human mastery of the air," he said; "The change will come with amazing suddenness, and France is taking the precaution to meet it. Aerial patrols will be necessary to prevent the smuggling of contraband across the border, and the police of all cities will have to be provided with flying machines."

Saved From Gallows by Long Legal Fight

Albany, N.Y., Dec. 21. — Governor Higgins yesterday commuted to imprisonment for life the sentence of death under which Albert T. Patrick has remained nearly five years, since his conviction of the murder of William Marsh Rice, the aged and eccentric millionaire of New York City.

DETECTIVE NEEDED AT MURDER TRIAL SENT AWAY

Provincial Officers are Very Busy, Says Detective Greer---A True Bill of Misconduct Returned by the Grand Jury Against Mrs. Carey.

Brampton, Dec. 21. — Mrs. Alice Jane Carey, charged with child murder, will soon know the verdict of twelve good men and true. Failing conviction on the murder charge, the prosecution will take up the accusation of misconduct toward human remains, and will produce letters which may, it is alleged, establish Mrs. Carey's connection with a so-called baby farm.

Yesterday morning William Hare corroborated the testimony of Oliver Harrison. They both saw a woman carrying a parcel enter and depart from the Presbyterian church shed. They searched the shed but found nothing.

DETECTIVE'S ABSENCE.

The Crown prosecutor asked permission to read the testimony given on a prior occasion by Detective J. Verney, who has gone to the Old Country to bring back a prisoner. The subpoena requiring Detective Verney's presence, served prior to his departure, was produced, to show that the Crown had taken all measures necessary by law.

Provincial Inspector Greer explained the circumstances of Detective Verney's absence.

"A Provincial officer could have gone!" asked Mr. Godfrey.

"Yes, but they are all very busy at the present time," replied Detective Greer.

HIS LORDSHIP NOT SATISFIED.

There was not sufficient evidence to satisfy his Lordship that Detective Verney was absent on public service under direction of the Attorney-General's Department, and that it was known that the officer was served to attend at a criminal trial. At his suggestion Mr. Godfrey communicated with the Attorney-General's department.

REFUSED TO ADMIT TESTIMONY.

It was found impossible to obtain communication with Mr. Cartwright at the Attorney-General's department.

It was then decided that certain parts of Detective Verney's testimony had been agreed upon. There was no evidence, however, that the testimony had been taken by a stenographer duly sworn, and his Lordship refused to admit it.

MRS. CAREY MAY TESTIFY.

Mr. Godfrey stated that, should the Crown urge an investigation of Mrs. Carey's transactions in the adoption of children, he would probably call the accused to testify.

MISCONDUCT CHARGED.

A true bill of misconduct in respect to human remains was returned yesterday afternoon by the grand jury against Mrs. Carey.

Several witnesses yesterday afternoon testified that on the evening of March 17 they saw a mysterious woman, carrying what appeared to be a child, passing through the streets, Fred Clancy, conductor, and Herbert Godfrey, motorman, of the Sunnyside-Port Credit car, declared that they noticed that a stout woman was a passenger between these points on that date, and that while he in some things resembled the accused, they could not establish positive identity. This was as far as other witnesses could state. Miss Karla Johnston, of Mimico, was the most positive, but she said that she could be mistaken in them. Oliver Harrison noticed the mysterious woman, and followed her about, watching her enter and depart from the woodshed, and his impression was that the prisoner was something like her. He formed the opinion, and so did Mrs. A. E. Hare, that the woman was dressed in black, while others declared that the woman they saw were light brown.

Albert E. Hare testified that the woman he saw in Port Credit resembled a relative of his. He had once seen a woman like her in Toronto, and so sure was he that she was the one wanted that he suggested to a policeman that he arrest her. Hare was almost positive that Mrs. Carey was not the woman whom he saw in Port Credit.

Joseph Chamberlain's Memory Gone

New York, Dec. 21.—The London Chronicle states that Joseph Chamberlain greatly overtaxed his strength at the celebrations in honor of his seventieth birthday at Birmingham, with the result that he lost his memory completely. The past became a blank to him, and he could not remember what had taken place even a few hours before, and, although his other faculties were and are unimpaired, his memory is gone.

New French Bill Not Acceptable to Pope

Rome Dec. 21.—A semi-official note issued by the Vatican yesterday says that the text of the new French Government bill, amending the Church and State Separation bill of 1905, is as bad as the former regulations, "being a maximum of oppression with a minimum appearance," and aggravates the position of the Church in everything without this being apparent to the general public.

STOMACH'S IMPORTANCE

How to Strengthen It so That It Will Act as It Should.

The stomach is the principal organ concerned in the digestion of food. If it is weak, inactive or out of order and unable to properly digest the food, the body will soon be in a state of semi-starvation.

Then, too, when the stomach is weak, the food is not properly digested and lies in it for hours, decomposing, fermenting, and forming poisonous gases and ptomaines that are absorbed into the blood, poisoning the system and impoverishing the blood.

To enjoy good health, it is absolutely necessary that the stomach and digestive organs should be strong, and no other remedy equals Mi-o-na in strengthening and giving tone to the whole digestive system.

Relief from the use of Mi-o-na is permanent and lasting. Use Mi-o-na for a few days, and the digestion will be good, the appetite keen, and there will be no nausea or distress after eating, no sleeplessness, no nervousness, and the headaches, backaches and disturbed heart action that are the direct result of a weakened stomach will soon be overcome.

We absolutely agree that your money will be refunded should you buy a 50-cent box of Mi-o-na stomach tablets and not be satisfied with the results. Mi-o-na is sold by druggists everywhere, or will be sent by mail on receipt of price, 50 cents.

Write today for a free sample package, and also give us your symptoms, and one of the best known stomach specialists will give your case his careful and personal attention without charge. Booth's Mi-o-na Company, Buffalo, N. Y.

Knights of Maccabees to Convene Here

Yesterday Mr. O. S. Matchett, K.K., of the Knights of the Maccabees received a letter from Mr. S. W. Fraser, of Camlachie, the provincial commander, of that order, stating that one of the eight conventions was assured to Peterborough, and that it would be held here on Wednesday, Jan. 30, 1907.

This decision was reached by the Executive Committee which met in the city of Hamilton a short time ago. Delegates will be here from the various Tents in the district, and it is expected that the convention will be attended by about 150 representatives.

Mr. C. A. Yule, of Colborne, D.D., is in Peterborough, and will assist the local Tent in securing a large class initiation for that night.

8 :0,000 Votes Cast in Insurance Election

The Results Will Not Probably Be Known for Several Weeks

New York, Dec. 20.—The total number of votes cast in the election of the trustees of the New York Life and Mutual Life Insurance Companies was about 800,000, of which about 500,000 were in the New York Life, where the contest has been most vigorously and bitterly waged. It is believed that it will be weeks before the votes are all counted and the results of the campaign definitely known. In the meantime it is expected that the courts will be frequently called upon to determine the validity of the ballots and proxies which one side or the other may question.

The Equitable Life Assurance Society, the Mutual Reserve Life Insurance Company, and the Security Mutual of Binghamton, N.Y., also held elections yesterday, but as there was no opposition tickets in these companies, the election of their administration tickets were purely perfunctory proceedings.

Canadian General May Buy Local Factory

It now is reported by the voice of rumor that the Canadian General Electric Co., through their representatives have inspected and may acquire the valuable property and premises of the W. Hamilton Mfg. Company.

Mr. Patterson, general superintendent of the C.G.E. Co., has looked over the aforesaid property but is as yet non-committal as to purchase by his company. This effectually does away with the rumored statement that the Allis-Chalmer-Bullock Co., or Montreal, may get this factory. In any case Peterborough will see this extensive and respected business carried on as our midst.

MR. JOHN JEFFRIES HONORED BY PUPILS

The Popular Teacher is Presented With Valuable Books.

Yesterday afternoon, Mr. John Jeffries, of the Collegiate Institute staff, was presented by the pupils with a valuable library on the eve of his departure from Peterborough to Toronto. The presentation took place at the Y.M.C.A. building, the chair being occupied by Principal Fessenden.

The books consisted of the complete works of Tennyson and of Dickens, as well as 10 volumes of Sir Walter Scott. The address was read by Miss Mattie Robertson, and was as follows:

Dear Mr. Jeffries;—

We have met this evening to perform a task which can never fail to be trying to both teacher and pupils. To say farewell to one who, for so many years, has been connected with the school, and has played such an important part in its life that we have come to consider him, so to speak, as one of the main stays of the school, to one who has gained the appreciation of the students as a teacher, is a matter which makes everyone feel serious. It was under your guidance and direction that both the Literary Society and the school paper were instituted. We recognize the tireless energy which you then exhibited in giving these a firm footing, for we understand the work required in surmounting obstacles in such cases, and we hope that the great favor with which these two important features of our school life have been received will in some measure repay you. The overhelpful interest you have shown in the society has without doubt done a great deal to establish its success. But, as you are doubtless aware, it is difficult to express our sentiments strong as they may be, and so we hope that our offering may in a measure speak for us. Our best wishes for your future life are not unmixed with envy of the fortunate pupils of the Jarvis Street Collegiate Institute.

The address was signed on behalf of the pupils by:

K. A. Mann.
A. H. Munro.
Katie Leary.
J. H. Wallis.
Gladys Crane.
Nellie Hollihan.
Violet Cameron.
Kathleen Merrell.
W. Pratt.
Allan Bravender.
Genevieve Sanderson.

Mr. Jeffries made a suitable reply, thanking the pupils for their generous gift and kindly sentiments.

ESTABLISHED 1827

The Toronto General Trusts Corporation

The Pioneer Trusts Corporation of Canada

Paid-Up Capital, : $1,000,000
Reserve Fund, : 300,000

Acts as an Executor, Administrator, Trustee, Receiver, Committee of Lunatics, Etc., Etc.

The Trusts Corporation is equipped to perform the duties of these offices as no private trustee can. Its officers in each department are specialists. The employment of the Corporation ensures efficiency, security and economy in the administration of a trust.

Trust funds to loan on mortgages at lowest current rates.

J. W. LANGMUIR, Managing Director

THE SCOURGE OF CONSUMPTION

Thousands Are Dying—If Tired, Languid or Run Down Get Protection Before Too Late.

No child, man or woman is safe from consumption unless their blood is pure, rich and nourishing.

Allow the blood to become thin, and immediately the whole system grows weak. The lungs are deprived of resisting power and the ever-present tubercular bacilli develops.

The most positive protection against consumption is Ferrosone, which restores the blood to full strength. Weak organs are instantly strengthened. Worn-out tissues are rebuilt. New life is given to the lungs and all danger of consumption is destroyed.

Mrs. E. J. Richardson, Manotick, Ont., tells as follows of her enormous gain in health from Ferrosone: "For two years I was not well. I was thin and anaemic. Towards spring I fell into a condition of nervous exhaustion. A dead tiredness hung over me like a load of lead. Housework of any kind I simply couldn't do. A bad cough developed that worried me greatly for I thought it might be tubercular. When I first read of Ferrosone I was convinced it was good. I took it regularly for eight weeks and the change in my condition was wonderful. My cheeks filled out and became clear and rosy. I gained eight pounds and now am strong and vigorous as possible."

Ferrosone feeds, nourishes and tones up the body—it sends the thrill and vim of robust health from head to feet—makes you feel better at once. Won't you use Ferrosone? Price 50c. per box, or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

PETERBOROUGH, DECEMBER 20 1906

THE WESTERN COAL FAMINE

It is to be remembered that while the western coal strike is settled, it began in March last. Coal mines which have been unworked or only worked to a very limited extent for several months can not in a week do much to help supply the needs of quarter of a continent. The disgrace at first attached equally to both the company and the strikers, each side being equally obstinate and arbitrary, but on July 21 the whole of the blame, in The Times' estimation, came upon the company (the Alberta Railway and Irrigation Company) which refused on that date to accept an offer made by the men to arbitrate. Evidently this company has the idea that it is responsible only to its own pocket. It enjoys the protection and favors of the public, yet thinks it is at liberty to stop the production of what is of tremendous necessity to the public rather than agree with its employees to an investigation of differences before an impartial tribunal. If it had a good case, it could hardly have been hurt. Parliament has now before it a measure which will compel in future a reference of such disputes to arbitrators. While the bill does not make an award binding upon the parties, we fancy that neither side is ever likely to have the hardihood to defy the finding.

KEENE

On Wednesday evening, the 12th inst., the members of Argyle Orange Lodge No. 494, met in their hall for the election of officers for the ensuing year and other necessary business. A very pleasant and profitable time was spent. After the general routine of business was transacted the following officers were elected for the ensuing year:

Worshipful Master—Thomas McIntyre.
W. D. M.—Harry Noyes.
Recording Secretary—J. M. Hewie.
Financial Secretary—W. Wedlock.
Chaplain—W. Pue.
Treasurer—Thomas Stillman.
D. C.—James Hickson.
Committee—Bros. Knox, Stark, Wedlock, Pennis and McGregor.

The officers were all duly installed. A degree meeting will be held on Friday evening, the 28th inst.

Big Profits Made by Vessel Owners

Chicago, Dec. 20.—Never before was so much money paid for carrying freight in lake vessels as during the season just closed. A rough estimate places it at $61,000,000 for coal, iron, ore, grain, and lumber. The profits to the vessels were perhaps the largest in the history of the lakes. Careful computations based on the earnings of typical steamers show a net profit on steel ships of 75 percent. On wooden ships of between 3,000 and 3,500 tons capacity the profits have ranged as high as 30 per cent., with an average of more than 25 per cent. on their insurance valuation.

The cause of this great prosperity was the demand for the country for iron and steel. The total movement of iron ore for the season was 27,512,589 tons, an increase of 4,000 tons over 1905.

Grain from Duluth moved in a larger volume than ever before. There was shipped from the head of Lake Superior 81,008,000 bushels, as compared with 59,678,000 bushels in 1905.

BASKET FISH.

When Dried, the Queer Arms Closely Resemble Plaster of Paris.

At its marine residence, away down in deep water, the name on the door plate would be "Astrophyton," and it belongs to a species called ophiurans. It has a well marked control disk, not unlike a clam, but has no shell. From this central body radiate arms, five in number, like those of the familiar starfish, and these arms are divided into minute branches, like the twigs on a tree, until they number in some cases a thousand separately defined hairlike tendrils. While the body is not large, the branches when extended measure about eighteen inches in diameter. The creature has the power of incurling these branches until it closely resembles a shallow dish. This it does when caught and about to die, remaining in that shape when dried.

It has been given the name of basket fish. It frequently (when caught by a dredge, for that is the only way it can be taken) throws off these arms or parts of them, so that a perfect specimen is hard to be procured in its natural condition.

These arms and their subdivisions are almost white when dried and closely resemble plaster of paris. They are very brittle, easily broken and cannot be repaired. The fish live among the roots of seaweeds and are supposed to feed upon these, moving about by wriggling and clambering with their arms or fastening upon the roots and pulling themselves along.

Most of the knowledge regarding their habits is conjecture, for none have been taken alive and kept for sufficient time to give them proper examination and study.

Bismarck's Resentment.

The Hamburger Nachrichten contributes the following to the stories relative to the relations between Emperor William II. and Bismarck. "If the kaiser wished to ride alone," said Bismarck, "I could have found no objection. That he drove me away, though, wounded me. If he wanted to get rid of me he should have told me so frankly, and I would have taken six months' vacation. If things got along without me I would have remained away. Otherwise I should have returned. But this! I was nearly thrown out of my house in the Wilhelmstrasse. I had to pack my belongings in haste, for Caprivi was waiting at the door."

Walter Pater's Way.

I remember telling Walter Pater about "The Story of an African Farm" and the wonderful human quality of it. He said, repeating his favorite formula, "No doubt you are right, but I do not suppose I shall ever read it." And he explained to me that he was always writing something and that while he was writing he did not allow himself to read anything which might possibly affect him too strongly by bringing a new current of emotion to bear upon him.—A. Symons in Monthly Review.

After Dark.

Mrs. Gayboy (severely)—What time did you get home last night? Gayboy (cautiously)—Oh, a little after dark. Mrs. Gayboy—After dark! Why, it was daylight when you came in! Gayboy—Well, isn't that after dark?

James Bryce Will Be the Next Ambassador

London, Dec. 20.—Although it is stated in the highest official quarters that the selection of an Ambassador to Washington has not yet been quite settled, little doubt remains that J. Bryce will be named for the post unless he positively vetoes his appointment. One of the Irish leaders in Parliament with whom Mr. Bryce was intimately associated while drafting the new Irish bill, said last night that the chances were a thousand to one he would be appointed.

Weak Women

To weak and ailing women, there is at least one way to help. But with that way, two treatments must be combined. One is local, one is constitutional, but both are important, both essential.

Dr. Shoop's Night Cure is the Local.

Dr. Shoop's Restorative, the Constitutional.

The former—Dr. Shoop's Night Cure—is a topical mucous membrane suppository remedy, while Dr. Shoop's Restorative is wholly an internal treatment. The Restorative reaches throughout the entire system, nothing the repair of all nerve, all tissue, and all blood ailments.

The "Night Cure", as its name implies, does its work while you sleep. It soothes sore and inflamed mucous surfaces, heals local weaknesses and discharges, while the Restorative, eases nervous excitement, gives renewed vigor and ambition, builds up wasted tissues, bringing about renewed strength, vigor, and energy. Take Dr. Shoop's Restorative—Tablets or Liquid—as a general tonic to the system. For positive local help, use as well

Dr. Shoop's Night Cure

J. D. TULLY.

Sore Lungs

no there is nothing its equal for coughs, colds in the chest, bronchitis, hoarseness, sore lungs, weak throats, and weak lungs. Doctors tells us the same thing. Ask your doctor about it.

We have no secrets! We publish the formulas of all our medicines! J. C. Ayer Co., Lowell, Mass.

BY-LAW NUMBER

A By-law to aid the Rapid Tool Company (Limited.)

Passed the day of 1907.

WHEREAS the Rapid Tool Company (Limited) proposes to establish in the City of Peterborough a manufacturing establishment for making auger bits and other tools and to purchase the land and buildings formerly occupied by the Canadian Ultimator Company, being parts of Lots 15, 19 and 21 south of Hunter Street east, formerly Elizabeth Street, according to Corporate Plan 1A for the City of Peterborough, formerly known as the Village of Ashburnham, more particularly described as follows:—Commencing at the north west angle of said lot 21, thence southerly along the westerly limit of said lot 21 and in line with the same extended southerly across lot 19, thence in the same direction to a point 24 links southerly from the northern boundary of said lot 19, thence easterly in a line parallel with the southern boundary of said lot 19 to the easterly boundary of said lot 19, thence northerly along the easterly bounday of said lots 19, 19 and 21 to the north east angle of said lot 21, thence westerly along the northern boundary of said lot 21 to the place of commencement, and to erect thereon additional buildings at a cost of at least Three thousand dollars, and to equip the same with the necessary plant and machinery at a cost of at least Sixteen thousand dollars, and to employ therein within six months after operations are commenced at least twenty-five hands, and has applied to the Council of the City of Peterborough for aid in establishing the same by a grant of Twelve hundred dollars, being the value of the said land so to be purchased, exclusive of the buildings thereon, and by granting partial exemption from taxation for a period of ten years by fixing the assessment of the said manufacturing establishment at the said sum of Twelve hundred dollars.

AND WHEREAS it is desirable and in the public interest to encourage the promotion of the said industry as aforesaid.

AND WHEREAS it will be necessary to borrow the sum of Twelve hundred dollars, the amount required as aforesaid, by the issue of debentures for the same, which said sum of Twelve hundred dollars is the amount of the debt intended to be created by this By-law.

AND WHEREAS the amount of the whole rateable property of the Municipality, according to the last revised assessment roll, is the sum of Six million nine hundred and fifty-four thousand seven hundred and seventy-one dollars ($6,954,771).

AND WHEREAS the amount of the existing debentures debt of the Municipality, exclusive of local improvement debts but including the debt of Two hundred and ninety-two thousand dollars ($292,000) incurred for the purchase and improvement of the waterworks, is the sum of Seven hundred and four thousand and fifty-five dollars and nine cents ($704,055.09) and there is no part of the principal or interest in arrear.

AND WHEREAS it will require the sum of Forty-eight dollars ($48) to be raised annually for a period of twenty years, the currency of the debentures to be issued under and by virtue of this By-law for paying the interest on the said debt, and the sum of Forty-two dollars and forty-five cents ($42.45) to be raised annually during the said period for providing a sinking fund for the payment of the same at maturity; such last mentioned sum being sufficient, with the estimated interest on the investment thereof, to discharge the said debt when the same becomes due, making in all the sum of Ninety dollars and forty-five cents ($90.45) to be raised annually as aforesaid, by special rate on the whole rateable property of the Municipality.

THE CORPORATION OF THE CITY OF PETERBOROUGH BY THE COUNCIL THEREOF THEREFORE ENACTS AS FOLLOWS:

1. This By-law shall take effect on the final passing thereof.

2. It shall and may be lawful for the Corporation of the said City of Peterborough to borrow the sum of Twelve hundred dollars and to issue debentures of the Corporation for the same, such debentures to be sealed with the Corporate Seal of the City of Peterborough and to be signed by the Mayor and Treasurer and Countersigned by the Secretary of the Commissioners of the Peterborough City Trust, and to be payable within twenty year after the issue thereof and to bear interest at the rate of four per centum per annum payable half-yearly on the thirtieth day of June and the thirty-first day of December in each year and to have coupons attached thereto for the payment of such interest; such debentures as to principal and interest to be payable at the office of the Secretary of the Commissioners of the Peterborough City Trust in the City of Peterborough.

3. There shall be raised and levied during each year of the currency of the said debentures, by special rate upon all the rateable property in the City of Peterborough liable thereto, the sum of Forty-eight dollars ($48) for payment of the interest on the said debt and the sum of Forty-two dollars and forty-five cents ($42.45) as a sinking fund for the payment of the said debt at the maturity thereof when the said debentures becomes payable making together the sum of Ninety dollars and forty-five cents ($90.45) to be raised annually for the purposes aforesaid.

4. The proceeds of the debentures to be issued under and pursuant to this By-law when sold shall be given to the Rapid Tool Company (Limited) to aid the said Company in the promotion of the said manufacturing establishment by the payment of the purchase money of the said land above described upon and only upon and subject to the terms and conditions hereinafter mentioned and until the said conditions shall have been fully performed and satisfied, the said Company shall not be entitled to the said money or any part thereof or to any interest in or right to the same.

The conditions upon which the said grant shall be made are as follows:—

1. That the said Company shall obtain a good title in fee simple to the said land free from all encumbrances.

2. That the said Company shall on or before the first day of January, 1907, erect on the said land an additional building suitable for its purposes at a cost of at least Three thousand dollars and instal in the same and in the building now on the said land at least Sixteen thousand dollars' worth of plant and machinery suitable for the manufacture of auger bits and other tools, and shall on or before the said date have the said manufacturing establishment in running order and in actual operation and shall within six months thereafter employ therein at least twenty-five hands.

3. That the said Company shall execute an agreement in form approved of by the City Solicitor, which may be registered against the said land, providing that the said land shall be held by the said Company subject to the conditions that in the event of the same, within the period of ten years from the date of the payment over to the the said Company of the amount paid to it under the terms of this By-law, ceasing to be bona fide used for the manufacture of auger bits and other tools or other manufacturing business approved of by the City Council substantially in accordance with the capacity thereof for the period of twelve consecutive months, or ceasing to employ in said business at least an average of twenty-five hands for at least ten months in any year, that the said land and buildings and machinery thereon shall become the absolute property of the Corporation of the City of Peterborough and free from any claim thereto or therein of the said Company or its assigns; unless the said Company or its assigns shall within six months after such period of twelve months for which the said land shall have ceased to be used as aforesaid, pay the Corporation of the City of Peterborough the full sum of Twelve hundred dollars.

4. PROVIDED ALWAYS that if the failure to so use the said land is due to strikes or to the destruction of the buildings or machinery by fire or tempest, the time during which the said land shall so cease to be used in consequence of such strikes or destruction of the buildings or machinery (not exceeding in either case one year) shall not be counted in the said period of twelve months which entitles the Corporation to the ownership of said land or to be paid the sum aforesaid.

5. PROVIDED the said Company shall erect, equip, occupy and use the said buildings on the said land within the time hereinbefore limited, the assessment of the said land used exclusively for manufacturing purposes and the buildings, plant, machinery and fixtures thereon used exclusively for manufacturing purposes on which taxes are to be levied shall, except as to school taxes, be fixed and remain fixed at the sum of Twelve hundred dollars for a period of ten years, commencing on the first day of January, 1907, and the return and oath of the assessment roll for the year 1907 and thereof shall be amended accordingly; but the said land shall also be liable for all frontage and local improvement assessments, rate and taxes, and taxes for school purposes that may be charged against the same—provided, however, that if the said Company shall at any time within the said term of ten years fail or neglect to carry on the said manufacturing business as above provided for the time above stated, or shall fail or neglect to carry out any of the terms of this By-law or shall not have in its employment in said business at least an average of twenty-five hands for at least ten months in the year, then such fixed assessment shall cease and the said lands, buildings, plant, machinery and fixtures shall be assessed as provided by the Assessment Act then in force, and further provided that the event of any petition being presented to the Council for any local improvement or the City Council desiring to construct any such work, the said Company will not take any action to oppose such petition or work, an agreement to this effect to be furnished by the Company.

6. The said Company shall prior to the first day of March in each year file with the City Clerk a Statutory Declaration made by an officer of the Company who shall therein state his knowledge of the facts, proving that the Company has complied with and is observing all the terms, conditions and provisions of this By-law and those contained in the said Agreement and on neglect of the said Company to furnish such declaration it shall be prima facie taken that such terms, conditions and provisions have not been performed, observed and kept.

7. The votes of the electors of the City of Peterborough qualified to vote upon a By-law for creating debts shall be taken upon this By-law on the same day as the annual election for the Municipal Council for the year 1907 and the polls will be held during the same hours, at the same places and by the same Deputy Returning Officers and Poll Clerks as are appointed and fixed for the said annual Municipal elections.

8. The eighth day of January, 1907, at the hour of twelve o'clock noon and the City Clerk's Office are hereby fixed as the time when, and the place where, the Clerk will sum up the number of votes given for and against the By-law.

9. The fifth day of January, 1907, at the hour of twelve o'clock noon and the office of the City Clerk are hereby fixed as the time and place for the appointment of persons to attend at the various polling places and at the final summing up of the votes by the Clerk respectively, on behalf of the persons interested in and promoting or opposing the passing of the By-law respectively.

Mayor,
Clerk

NOTICE

Take notice that the foregoing is a true copy of a proposed By-law which has been taken into consideration and which will be finally passed by the Council of the City of Peterborough (in the event of the assent of the electors being obtained thereto) after one month from the first publication hereof in the Morning Times newspaper, the date of which first publication is the seventh day of December, 1906, and that at the hour, day and place therein fixed for taking the votes of the electors the polls will be held.

S. R. ARMSTRONG,
City Clerk.

The Ottawa Cobalt and Silver Mining Company

OTTAWA, ONT.

Incorporated under the Ontario Mining Companies Act.—No Personal Liability.

Authorized Capital, $250,000; Subscribed Capital, $50,000; Unissued and in Treasury, $200,000.

DIRECTORS

D. O'CONNOR JR. ESQ., Contractor, President, Ottawa.
W. J. KIDD Esq., Barrister, Vice-President, Ottawa.
JAMES WILSON Esq., Wholesale Merchant, Ottawa.
ROBERT GORMAN Esq., Gentleman, Ottawa.
J. OGLE CARSS Esq., Barrister, Ottawa.
SOLICITORS—KIDD & CARSS, Ottawa.
BANKERS—THE CROWN BANK OF CANADA, Ottawa.

PROPERTY AND LOCATION

The property consists of forty acres being the south-west quarter of the north half of lot 6 in concession 1 Township of Hucks. The property of this Company lies about three-quarters of a mile north-west from the celebrated Trethewey mine and is identically of the same formation. Vein matter was found in this property right from the surface and subsequent prospecting has revealed several well defined veins. On the main vein several nuggets of native silver were found. A shaft had been sunk to a depth of fourteen feet, when the property was taken over by this Company.

WORK ON THE PROPERTY

At present a camp is being built and active development work is being proceeded with. One half of the Company's property is still unprospected.

BUSINESS PROPOSITION

Of all Cobalt Mining Companies none can show a sounder business basis than this. The organizers had such confidence in the property that they have taken their entire interest in stock and have pooled same for six months, evidencing the fact of their absolute confidence in the value of the Company's property at the par value of $1.00 per share. ONLY 25000 shares are being issued at the present time for active development work. It is confidently expected that this will be sufficient to make this property a shipper, and if so the public can at a glance see what the value of these shares will be, having regard to the fact that only 75,000 shares of the Company will have been issued. The stock is not being offered outside of Ottawa as the Directors feel confident this small amount will be oversubscribed here. Address

D. O'CONNOR, President, - - OTTAWA, ONT

APPEARANCE

Is such an important feature on the table. It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table.

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides it has the advantage of being the best quality and greatest strength.

ADVERTISING PAYS

DARREL of THE BLESSED ISLES

By IRVING BACHELLER,

Author of "Eben Holden," "D'ri and I," Etc.

COPYRIGHT, 1905, BY LOTHROP PUBLISHING COMPANY

"I'm sick of this pinching poverty. Look at my clothes. I thought I could make them do, but I can't."

He put the two notes in Darrel's hand. The tinker wiped his spectacles and then read them both.

"Tut, tut, boy!" said he presently, with a very grave look. "Have ye forgotten the tatters that were as a badge of honor an' success? Weeks ago I planned to find thee better garments; but, on my word, I had no heart for it. Nay, these old ones had become dear to me. I was proud o' them. Aye, boy, proud o' them. When I saw the first patch on thy coat, said I, 'It is the little ensign o' generosity.' Then came another, an', said I, 'That is for honor an' true love,' an' these bare threads—there is no loom can weave the like o' them. Nay, boy," Darrel added, lifting an arm of the young man and kissing one of the patches, "be not ashamed o' these. They're beautiful, aye, beautiful. They stand for the dollars ye gave Polly."

Trove turned away, wiping his eyes. He looked down at his coat and trousers and began to wonder if he were, indeed, worthy to wear them.

"I'm not good enough for them," said he, "but you've put new heart into me, and I shall not give up. I'll wear them as long as I can make them do, and girls can say what they please."

"The magpies!" said Darrel. "When they have a thought for every word they utter, there'll be then a second Sabbath in the week!"

Next evening Trove went to see Polly.

As he was leaving she held his hand in both of hers and looked down, blushing deeply, as if there were something she would say had she the courage.

"What is it, Polly?" said he.

"Will you—will you let me buy you a new hat?" said she soberly and hesitating much between words.

He thought a moment, biting his lip. "I'd rather you wouldn't, Polly," said he, looking down at the faded hat. "I know it's shabby; but, after all, I'm fond o' the old thing. I love good clothes, but I can't afford them now."

Then he bade her good night and came away.

CHAPTER XXVII.

IT was court week, and the grand jury was in session. There were many people in the streets of the shire town. They moved with a slow foot, some giving their animation to squints of curiosity and shouts of recognition, some to profanity and plug tobacco. Squire Day and Colonel Judson were to argue the famous maple sugar case, and many causes of local celebrity were on the calendar.

The third day of that week—it was about the middle of the afternoon—a score of men gossiping in the lower hall of the court building were hushed suddenly. A young man came hurrying down the back stairs with a look of excitement.

"What's up?" said one.

"Sidney Trove is indicted," was the answer of the young man.

He ran out of doors and down the street. People began crowding out of the courtroom. Information, surprise and conjecture—a kind of flood pouring out of a broken dam—rushed up and down the forty streets of the village. Soon, as of old, many were afloat and some few were drowning in it. For a little, busy hands fell limp and feet grew slow and tongues halted. A group of schoolgirls on their way home were suddenly overtaken by the onrushing tide. They came close together and whispered. Then a little cry of despair, and one of them fell and was borne into a near house. A young man ran up the stairway at the Sign of the Dial and rapped loudly at Darrel's door. Trove and the tinker were inside.

"Old fellow," said the newcomer, his hand upon Trove's arm, "they've voted to indict you, and I've seen all the witnesses."

Trove had a book in his hand. He rose calmly and flung it on the table.

"It's an outrage," said he, with a sigh.

"Nay, an honor," said Darrel quickly. "Hold up thy head, boy. The laurel shall take the place o' the frown."

He turned to the bearer of these evil tidings.

"Have ye more knowledge o' the matter?"

"Yes, all day I have been getting hold of their evidence," said the newcomer, a law student, who was now facing his friend Trove. "In the first place, it was a man of blue eyes and about your build who broke into the bank at Milldam. It is the sworn statement of the clerk, who has now recovered. He does not go so far as to say you are the man, but does say it was a man like you that assaulted him. It appears the robber had his face covered with a red bandanna handkerchief in which square holes were cut so he could see through. The clerk remembers it was covered with a little white figure, that of a log cabin. Such a handkerchief was sold years ago in the campaign of Harrison, but has gone out of use. Not a store in the county has had them since 1845. The clerk fired upon him with a pistol and thinks he wounded him in the left forearm. In their fight the robber struck him with a slung shot, and he fell and remembers nothing more until he came to in the dark alone. The skin was cut in little squares where the shot struck him, and that is one of the strong points against you."

"Against me?" said Trove.

"Yes—that and another. It seems the robber left behind him one end of a bar of iron. The other end of the same bar and a slung shot—the very one that probably felled the clerk—have been found."

The speaker rose and walked half across the room and back, looking down thoughtfully.

"I tell ye what, old fellow," said he, sitting down again, "it is mighty strange. If I didn't know you well, I'd think you guilty. Here comes a detective who says under oath that one night he saw you come out of your lodgings about 11 o'clock and walk to the middle of the bridge and throw something into the water. Next morning bar and shot were found. As nearly as he could make out, they lay directly under the place where you had halted."

Darrel sat looking thoughtfully at the speaker.

"A detective?" said Trove, rising erect, a stern look upon him.

"Yes, Dick Roberts."

"Roberts, a detective!" said Trove in a whisper. Then he turned to Darrel, adding, "I shall have to find the Frenchman."

"Louis Leblanc?" the young man asked.

"Louis Leblanc," Trove answered, with surprise.

"He has been found," said the other.

"Then I shall be able to prove my point. He came to his home drunk one night and began to bully his family. I was boarding with the Misses Tower and went over and took the shot and iron from his hands and got him to bed. The woman begged me to bring them away."

"He declares that he never saw the shot or the iron."

Darrel rose and drew his chair a bit nearer.

"Very well, but there's the wife," said he quickly.

"She will swear, too, that she never saw them."

"And how about the daughter?" Trove inquired.

"Run away and nowhere to be found," was the answer of the other young man. "I've told you bad news enough, but there's more, and you ought to know it all. Louis Leblanc is in Quebec, and he says that a clock tinker lent him money with which to leave the States."

"It was I, an' God bring him to repentance, the poor beggar!" said Darrel. "He agreed to repay me within a fortnight an' was in sore distress; but he ran away, an' I got no word o' him."

"Well, the inference is that you, being a friend of the accused, were trying to help him."

"I'm caught in a web," said Trove, leaning forward, his head upon his hands, "and Leblanc's wife is the spider. How about the money? Have they been able to identify it?"

"In part, yes. There's one bill that puzzles them. It's that of an old bank in New York city that failed years ago and went out of business."

Then a moment of silence and that

[To be continued]

SAILORS SENTENCED

Men of Kniaz Potemkine's Crew to Serve Terms in the Disciplinary Corps.

Sebastopol, Dec. 20.—Fifteen sailors who participated in the mutiny of June, 1905, on board the Russian battleship Kniaz Potemkine, were sentenced yesterday. The leader was condemned to four years penal servitude, and the others to serve terms in the disciplinary corps, ranging from six months to two years.

WHAT IS CATARRH?

Simple Way to Overcome the Dangers of this Disagreeable Disease.

Catarrh is an inflammation of the mucous membrane of the nose, throat and lungs, with many annoying symptoms. In this climate there are few who do not suffer from this disagreeable disease, often in a chronic and dangerous state.

Fortunately, within the last few years, a simple and reliable treatment for catarrhal troubles has been found—Hyomei, a combination of healing and germ-killing oils, that, when breathed through the vest pocket inhaler that comes with every outfit, reaches the tiniest cells in the respiratory organs, carrying its healing and health-giving properties to every part where the catarrhal poison is present.

Used in this way, Hyomei kills all catarrhal germs, drives the poison from the system and heals all irritation that may be present in the mucous membrane.

If you have the ordinary catarrhal symptoms, such as offensive breath, burning pains in the throat, cough, raising of mucous, difficulty in breathing, sneezing, dunkiness, discharge from the nose, droppings in the throat, coughing spasms, etc., begin the use of Hyomei at once.

The complete Hyomei outfit costs but $1.00, extra bottles, if needed, 50 cents. We do not want anyone's money unless Hyomei gives relief and cure, and we absolutely agree that money will be refunded unless the remedy gives satisfaction.

All druggists should be able to supply you with Hyomei or we will send it by mail on receipt of price, and every package is sold with the distinct understanding that it costs nothing unless it cures. Write us today for the symptom blank, which we will send you free, together with treatise on Catarrh and how to cure it. When you fill in and return to us the symptom blank, our consulting physician will give your case the best care and attention, and write you a letter of advice without charge. Booklet Hyomei Company, Buffalo, N. Y.

7,500 SHARES

— OF A —

RICH GOLD MINE

IN NEW ONTARIO ALLOTED TO PETERBORO

GOOD FOR THIS WEEK ONLY

The undersigned has secured an allotment of 7,500 shares of a rich gold mine in New Ontario. The mine promises to be one of the richest in the Country, and adjoins the great Blum Mine, which is estimated to be worth over $25,000,000. This stock has par value of $1.00 and will be sold for 50c. a share for the balance of this week only. It probably will be worth many times its present value in a short time. There is no risk—it is a sure thing. Money needed for developement. For further particulars apply to.

J. B. MORNINGSTAR,

516 ASHLAND AVE, BUFFALO, N. Y.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even-numbered section of Dominion Lands in Manitoba or the Northwest Provinces (except 8 and 26), not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 15 or 1500 feet. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, up a having sworn affidavit made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior. The leases shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent. collected on the output after it exceeds $10,000.

W. W. CORY,

Deputy of the Minister of the Interior.

9,600 FEET

Sixty six mining claims.
A crosscut tunnel now in 4,000 feet.
5,000 feet of drifts, shafts and interals.
A complete 750 h.p turbine electric power plant.
Numerous Veins Exposed.
A Big Industrial and Mining Proposition Combined.
A Strong Directorate.

This is real mining.

The Palmer Mountain Tunnel and Power Company has 66 lode mining claims back of it on Palmer Mountain, near the Town of Loomis, Okanogan County, Washington—about 12 miles south of the boundary of British Columbia. A new railway line is nearly completed and will run within 12 miles of the property. Steamers ply on the Okanogan River to within 26 miles of our properties. There is water—not only for mining purposes, but with unlimited possibilities for power generation. There is timber, there are large, well defined veins proved at great depth—and there is development enough done to make this one of the biggest and best mining propositions in the country.

INTERIOR OF TUNNEL

We can do more with $10 ore on our properties than the desert miners can do with $40 or even higher grade ore. We can make money because we have the FACILITIES on our ground. Our ore can be mined, milled, cyanided and bullion produced for not exceeding $2.50 a ton.

Our immence crosscut bore—a picture of which we show herewith—is now in 4,000 feet, is 9 by 9 in the clear (as large as any of the big transportation and drainage tunnels), and is well timbered, equipped with track, ore cars and everything else essential. In the picture shown herewith, the large pipe running at the top of the right side of the tunnel, is for ventilation purposes and connects with a large, powerful blower.

Recent development on the mountain proves that we shall open up at tunnel level (2,500 feet beneath the surface) an enormous body of copper ore.

We have opened up much $10 ore, and we have a higher grade running up to $50 a ton. This is where the big profit comes from. In the nearly TWO MILES OF WORKINGS we have all the facilities for handling a very large production. Back of it all we have a capable mining and business management. We should be very glad to tell you the complete story. We can only hint at it here.

HE IS CORRECT

Dr Hamilton Proves That Piles Are Caused by Constipation and Strong Catharties.

Knowing the frequency with which people suffer from this ailment, Dr. Hamilton made an exhaustive study into the cause of piles.

He found that the lower part of the bowels is like a network of blood-vessels, and if subjected to persistent pressure, a section will bulge out and form what is commonly known as piles.

The only effective mode of curing this trouble is the regular use of Dr. Hamilton's Pills, which can be taken before retiring. Next day will bring wonderful relief.

"I suffered up to about the limit of human endurance with piles," writes Miss Lueders, from Cornwall, Ont., "I was employed in a factory here, but for a while had to give up work till I got better of this trouble. I read in the Montreal Herald about Dr. Hamilton's Pills, and after using them for two weeks was cured. I can recommend these pills very highly; there are none better. They at once relieve and prevent a constipated condition of the bowels, and from my experience can be depended upon as a perfect safeguard against piles. Dr. Hamilton's Pills of Mandrake and Butternut, I am sure, would be a benefit to ever girl or women."

Take Dr. Hamilton's Pills and your system will be regenerated, revitalized, and made proof gainst disease.

Good for men, excellent for women, and most effective for children. All ages and both sexes find Dr. Hamilton's Pills a marvelous medicine. Although active, they do not gripe or cause inconvenience, system, thereby maintaining a high still they cleanse and purify the standard of health. Sold by all dealers, 25c. per box, or five boxes for $1.00, or by mail, from N. C. Polson and Co., Hartford, Conn., U. S. A., and Kingston, Ont.

LOCAL INCIDENTS

By The Times Man on the Street

—All Saints choir met for practice last night.

—It is now said that Hon. J. R. Stratton will be a candidate for the mayoralty.

—The regular meeting of Court Stanley, A.O.F., will be held this evening in S.O.E. Hall.

—Bran new burnt leather novelties now in. See our novelties and get prices. Times Bookstore.

—The Methodist Young Men's Club will hold their first literary night this evening at eight o'clock, in the club rooms.

—The Knox church rink opened for the season last night, with the ice in splendid shape. There was a big crowd in attendance.

—The first silent salesman to be placed in the east ward, was yesterday installed in the drug store of Mr. Tovey, Hunter street east.

—At the regular meeting of Court Peterborough, No. 99, C.O.F., tonight, the election of officers for the ensuing term will take place.

—Rev E. A. Langfeldt announces that he has a quantity of clothing kindly donated by the citizens of Peterborough, which he will be glad to distribute to the needy of the city.

—At the Sunday afternoon children's service in All Saints' church next Sunday, Mr. J. H. Burnham will give an address, the subject of which will be, "The Story of a Child's Life."

—The funeral of the late Mrs. Fairburn took place yesterday afternoon from "Cordach" Mr. G. M. Roger's residence. The remains arrived from Chicago, on the noon C.P.R. train and the funeral was held at 3 o'clock.

—Yesterday the Munro House decorated for Xmas in a unique way, both in dining room and bar. Festoons of flags of every nation having a flag, were hung round backed up by strings of gold and silver tinsel, as well as paper Xmas bells. Mr. R. J Munro, the proprietor, displayed gerat taste in his decorations.

Lawyer O'Connell Under Arrest

Prominent Member of Local Bar Locked Up for Contempt.

Yesterday at the police court Mr D. O'Connell, whilst defending a young man charged with assaulting a police officer, got into a controversy with the presiding magistrate, Mr. D. W. Dumble, and as a result learned what it is like to look through a barred door to freedom.

It seems that Mr. O'Connell was guilty or charged so, of contempt of court The magistrate ordered P. C. McGinty to place Mr. O'Connell under arrest, which the officer of course did, the lawyer being confined in the cell for about half an hour.

The explanation of this deplorable state of affairs was that the member of the local bar, in his zeal for his client, intimated that the court was partial and that the questions that were put to the witnesses were impertinent. The proceedings were stopped at once and Mr. O'Connell was asked to reconsider his statements and apologise. With the proverbial pluck of his Irish forbears, Mr. O'Connell refused to do this and the court had him locked up. Mr. Denistoun was sent for and on arriving interviewed Mr. O'Connell, who maintained he had not used the expression "the court is impertinent," as charged against him.

The magistrate stated that Mr. O'Connell certainly used it, but may not have used it consciously and was willing to assumed that he had not knowingly used the expression, and on that explanation allowed him to be released.

Mr. O'Connell when interviewed by the press, said he had no statement to make in reference to the affair.

Childrens' Shelter Well Remembered

Yesterday the foundation of a Merry Christmas for the poor little ones at the Children's Shelter, was laid with certainty, when Mr. George Cochrane took down two bushel baskets, contributed by the Murray St. Baptist church S.S., filled with food and sweets, cakes, candies, rice, raisins, toys, dolls, clothing, boots and shoes, meat, butter, tea, sugar, etc.

Mr. Cochrane, in addition to this annual good work, gets the names of certain families to be remembered and calls upon such families, and makes reports to the ladies.

Minocolo's Horse Ran Away.

Yesterday afternoon some excitement was caused by a runaway horse that required the whole of our main thoroughfare for its course. The horse, attached to a cutter belonging to Mr. Minocolo the Hunter street fruit dealer, and being frightened whilst standing in front of the fruit store started towards and subsequently up George street at a furious gait. As the animal ran at full gallop up George street, several men made ineffective efforts to stop it. When the erazed quadruped reached the Y.M.C.A. skating rink it turned in there and was captured. Fortunately no damage was done to either horse or cutter, the latter being untenanted.

Turner & Sons' Fine Display.

Messrs. J. J. Turner & Sons, have a most attractive display in their factory window on George street. The north window in particular displays the great enterprise of this progressive firm. In it are two illuminated street lamps, one for A. Ross & Co., souvenirs, etc., and one for the Young Drug store, both of Port Arthur. In his window are also samples designed to display the kind of signs made by Messrs. Turner & Sons. This firm is also under construction two signs for Sudbury.

SOCIAL AND PERSONAL

—Mrs. J. H. Larmonth has gone to Ottawa for a month's visit.

—Mr. A. Stuart, of Winnipeg, was registered at the Snowden House yesterday.

—Miss Effie Munro, of Bishop Bethune's College, Oshawa, is home for Christmas.

—Mr Basil Hall, who has been attending Queen's University, is spending his vacation here.

—Mr. Garnet Greer, son of Dr. Greer, is home from Queen's University for the holidays.

—Miss Gertrude McClellan, of Bishop Bethune College, Oshawa, is home for the Christmas holidays.

—Miss Lillian Cox, who has been visiting her sister, Mrs. Johns, in Cleveland, has returned to the city

—Mrs W. H. Robertson will not receive today, and not again until the third and fourth Fridays in January.

—Messrs. Allan and Gordon Campbell, of Trinity College School, Port Hope, are spending the holidays at their home here.

—Mr. Fred Young, of Young's Point, passed through the city yesterday on his way to Toronto, where he will spend a few holidays.

—Mr Fred Peake the well-known horseman of Campbellford, was in the city yesterday on his way to London, Ont., on a business and registered at the Queen's Hotel.

—Miss Florence Stevenson, a daughter of Mr. James Stevenson, Simcoe street, is home from New York for the holidays. Her many friends will be pleased to learn that Miss Stevenson is in perfect health, and looking as though the American metropolis is a source of perennial youth.

POLICE NEWS

Daily Happenings in Court Room and Station.

James Collins, whose home is in Percy township, but who has been living in Peterborough for the past few weeks, was arrested by P.C. McGinty yesterday morning, on information received from the chief of police at Campbellford. Constable Lynn arrived from Campbellford and took him to Campbellford yesterday afternoon.

It is alleged that Collins betrayed a Campbellford girl under promise of marriage

Wm. Godfrey, of Otonabee, met with an accident early yesterday morning, which nearly cost him his life. He left the city about three o'clock and as he was driving down Lock street his horse ran away. The cutter was upset near the crossing of the Grand Trunk railway and Godfrey was badly shaken up. He called for help and P.C. M barry went to his aid. The officer called in for Mr. W. J. McCallum and they hurried down George street. When they reached the spot Godfrey was exhausted. A cab removed him to the police station, where he spent the rest of the night. Yesterday morning he appeared in police court and paid $5 for being drunk and disorderly.

Lady Forresters Elect Officers.

The following officers have been elected for the coming year by Queen Alexandra Circle 136, Companies of the Forest;

Chief Companion—Mrs. Wm Stevens,

Sub C .C.—Mrs. White.

Past C. C.—Mrs. J. Moss.

Verdict for Dr. Pierce

AGAINST THE

Ladies' Home Journal.

Sending truth after a lie. It is an old maxim that "a lie will travel seven leagues while truth is getting its boots on," and no doubt hundreds of thousands of good people read the unwarranted and malicious attack upon Dr. R. V. Pierce and his "Favorite Prescription" published in the May (1906) number of the Ladies' Home Journal, with its great black display headings, who never saw the humble, groveling retraction, with its inconspicuous heading, published two months later. It was boldly charged in the slanderous and libelous article that Dr. Pierce's Favorite Prescription, for the cure of woman's weaknesses and ailments, contained alcohol and other harmful ingredients. Dr. Pierce promptly brought suit against the publishers of the Ladies' Home Journal, for $300,000.00 damages.

Dr. Pierce alleged that Mr. Bok, the editor, maliciously published the article containing such false and defamatory matter with the intent of injuring his business; furthermore, that no alcohol, or other injurious, or habit-forming, drugs are, or ever were, contained in his "Favorite Prescription"; that said medicine is made from native medicinal roots and contains no harmful ingredients whatever; and that Mr. Bok's malicious statements were wholly and absolutely false.

In the retraction printed by said Journal they were forced to acknowledge that they had obtained analyses of "Favorite Prescription," from eminent chemists, all of whom certified that it did not contain alcohol or any of the alleged harmful drugs."

These facts were also proven in the trial of the action in the Supreme Court. But the business of Dr. Pierce was greatly injured by the publication of the libelous article with its great display headings, while hundreds of thousands who read the wickedly defamatory article never saw the humble groveling retraction, set in small type and made as inconspicuous as possible. The matter was, however brought before a jury in the Supreme Court of New York State which promptly rendered a verdict in the Doctor's favor. Thus his traducers came to grief and their base slanders were refuted.
